Down-regulation of acetolactate synthase compromises Ol-1- mediated resistance to powdery mildew in tomato.

Cross-talk between aryl hydrocarbon receptor and the inflammatory response: a role for nuclear factor- κ B.

Effects of intestinal bacteria-derived p-cresyl sulfate on Th1-type immune response in vivo and in vitro.

MRNA and miRNA expression patterns associated to pathways linked to metal mixture health effects.

Mitochondrial dysfunction, oxidative stress, and neurodegeneration elicited by a bacterial metabolite in a *C. elegans* Parkinson's model.

CYP1B1: a unique gene with unique characteristics.

Sodium meta-arsenite ameliorates hyperglycemia in obese diabetic db/db mice by inhibition of hepatic gluconeogenesis.

Organic anion transporting polypeptides 1B1 and 1B3 play an important role in uremic toxin handling and drug-uremic toxin interactions in the liver.

A practical and successful desensitization protocol for immediate hypersensitivity reactions to iron salts.

[The functional state of the kidneys after adenosine triphosphate-sensitive potassium channels activation in experimental acute hypoxia].

KML001, a telomere-targeting drug, sensitizes glioblastoma cells to temozolomide chemotherapy and radiotherapy through DNA damage and apoptosis.

Histopathological evaluation of tumor necrosis and volume after cyanogenic chemotherapy.

What would you like to eat, Mr CKD Microbiota? A Mediterranean Diet, please!

Effect of dietary supplementation of (-)-epigallocatechin gallate on gut microbiota and biomarkers of colonic fermentation in rats.

Chronic exposure to chlorophenol related compounds in the pesticide production workplace and lung cancer: a meta-analysis.

Tumorigenic effects of endocrine-disrupting chemicals are alleviated by licorice (*Glycyrrhiza glabra*) root extract through suppression of AhR expression in mammalian cells.

Plant-derived anti-inflammatory compounds: hopes and disappointments regarding the translation of preclinical knowledge into clinical progress.

Aryl hydrocarbon receptor (AhR) modulates cockroach allergen-induced immune responses through active TGF β 1 release.

Rapid iron desensitization after generalized urticaria and facial angioedema.

Iron supplementation in young iron-deficient females causes gastrointestinal redox imbalance: protective effect of a fermented nutraceutical.

[Role of the critical period in sex and brain differentiation: learning from dioxin-induced disorders in next generations].

Expansion of urease- and uricase-containing, indole- and p-cresol-forming and contraction of short-chain fatty acid-producing intestinal microbiota in ESRD.

Is intralipid fat emulsion a promising therapeutic strategy on neurotoxicity induced by malathion in rats?

P-cresyl sulfate is a valuable predictor of clinical outcomes in pre-ESRD patients.

Effects of AST-120 on blood concentrations of protein-bound uremic toxins and biomarkers of cardiovascular risk in chronic dialysis patients.

[Statement of the Polish Gynecological Society Expert Group on the prevention of iron deficiency and of anemia caused by iron deficiency with a low dose heme iron in women. State of the art, 2013].

Autophagy as an essential cellular antioxidant pathway in neurodegenerative disease.

Arsenic reduces the antipyretic activity of paracetamol in rats: modulation of brain COX-2 activity and CB₁ receptor expression.

Bronchial stenosis following ferrous sulfate aspiration: Case report and review of the literature.

Oral iron for patients receiving dialysis: what is the evidence?

Association between potentially inappropriate medications from the Beers criteria and the risk of unplanned hospitalization in elderly patients.

Gene-environment interactions in male reproductive health: special reference to the aryl hydrocarbon receptor signaling pathway.

Micronucleus frequency in copper-mine workers exposed to arsenic is modulated by the AS3MT Met287Thr polymorphism.

Ultrahigh resolution mass spectrometry-based metabolic characterization reveals cerebellum as a disturbed region in two animal models.

Synthesis and evaluation of novel 2,3-dihydrobenzo[b][1,4]dioxin- and indolealkylamine derivatives as potential antidepressants.

Serum concentrations of p-cresyl sulfate and indoxyl sulfate, but not inflammatory markers, increase in incident peritoneal dialysis patients in parallel with loss of residual renal function.

p-cresyl sulphate has pro-inflammatory and cytotoxic actions on human proximal tubular epithelial cells.

Aldehyde dehydrogenase 2 partly mediates hypotensive effect of nitrite on L-NAME-induced hypertension in normoxic rat.

Animal models of Parkinson's disease: a gateway to therapeutics?

Aryl hydrocarbon receptor-dependent induction of liver fibrosis by dioxin.

Maternal exposure to dioxin imprints sexual immaturity of the pups through fixing the status of the reduced expression of hypothalamic gonadotropin-releasing hormone.

Dietary fat intake, pesticide use, and Parkinson's disease.

Effects of sivelestat treatment on acute lung injury in paraquat-intoxicated rats.

Sodium meta-arsenite induces reactive oxygen species-dependent apoptosis, necrosis, and autophagy in both androgen-sensitive and androgen-insensitive prostate cancer cells.

Acute iron intoxication: change in urine color during chelation therapy with deferoxamine.

A high-content screen identifies novel compounds that inhibit stress-induced TDP-43 cellular aggregation and associated cytotoxicity.

Lack of nrf2 results in progression of proliferative lesions to neoplasms induced by long-term exposure to non-genotoxic hepatocarcinogens involving oxidative stress.

Human Ntera2 cells as a predictive in vitro test system for developmental neurotoxicity.

The toxic chemistry of methyl bromide.

Ferrous sulfate (Fe^{2+}) had a faster effect than did ferric polymaltose (Fe^{3+}) on increased oxidant status in children with iron-deficiency anemia.

TCDD disrupts posterior palatogenesis and causes cleft palate.

The Mammalian circadian clock gene *per2* modulates cell death in response to oxidative stress.

Ligand binding and functional selectivity of L-tryptophan metabolites at the mouse aryl hydrocarbon receptor (mAHR).

Degree of host susceptibility in the initial disease outbreak influences subsequent epidemic spread.

Early-life Exposure to Endocrine Disrupting Chemicals and Later-life Health Outcomes: An Epigenetic Bridge?

Toxicants inhibiting anaerobic digestion: a review.

The preventive effect of atorvastatin on paraquat-induced pulmonary fibrosis in the rats.

Endocrine disruption in human placenta: expression of the dioxin-inducible enzyme, CYP1A1, is correlated with that of thyroid hormone-regulated genes.

Glufosinate binds N-methyl-D-aspartate receptors and increases neuronal network activity in vitro.

GM crops and the rat digestive tract: a critical review.

Subchronic arsenic exposure through drinking water alters vascular redox homeostasis and affects physical health in rats.

Chronic mitochondrial uncoupling treatment prevents acute cold-induced oxidative stress in birds.

Low level tumor necrosis factor- α protects cardiomyocytes against high level tumor necrosis factor- α : brief insight into a beneficial paradox.

Transcriptional responses and embryotoxic effects induced by pyrene and methylpyrene in Japanese medaka (*Oryzias latipes*) early life stages exposed to spiked sediments.

Sterols from Mytilidae show anti-aging and neuroprotective effects via anti-oxidative activity.

Pre- and postnatal exposure to low dose glufosinate ammonium induces autism-like phenotypes in mice.

Inhalable constituents of thirdhand tobacco smoke: chemical characterization and health impact considerations.

The transcriptional response to oxidative stress during vertebrate development: effects of tert-butylhydroquinone and 2,3,7,8-tetrachlorodibenzo-p-dioxin.

2,3,4,7,8-Pentachlorodibenzofuran is far less potent than 2,3,7,8-tetrachlorodibenzo-p-dioxin in disrupting the pituitary-gonad axis of the rat fetus.

BMP4 and LGL1 are Down Regulated in an Ovine Model of Congenital Diaphragmatic Hernia.

Cytotoxic effects exerted by pentachlorophenol by targeting nodal pro-survival signaling pathways in human pancreatic cancer cells.

Induction of glutathione synthesis in human hepatocytes by acute and chronic arsenic exposure: differential roles of mitogen-activated protein kinases.

Differential Fmo3 gene expression in various liver injury models involving hepatic oxidative stress in mice.

INCREASED RISK OF CHILDHOOD BRAIN TUMORS AMONG CHILDREN WHOSE PARENTS HAD FARM-RELATED PESTICIDE EXPOSURES DURING PREGNANCY.

Acute paraquat poisoning with sinus bradycardia: A case report.

A novel protective role for the innate immunity Toll-Like Receptor 3 (TLR3) in the retina via Stat3.

Aryl hydrocarbon receptor-dependent regulation of miR-196a expression controls lung fibroblast apoptosis but not proliferation.

Ammonium increases Ca(2+) signalling and up-regulates expression of TRPC1 gene in astrocytes in primary cultures and in the in vivo brain.

Comparative study of the effect of verapamil and vitamin D on iron overload-induced oxidative stress and cardiac structural changes in adult male rats.

Accumulation of heme oxygenase-1 (HSP32) in *Xenopus laevis* A6 kidney epithelial cells treated with sodium arsenite, cadmium chloride or proteasomal inhibitors.

Quantification of *Fusarium oxysporum* in fumigated soils by a newly developed real-time PCR assay to assess the efficacy of fumigants for *Fusarium* wilt disease in strawberry plants.

Photolytic degradation products of two highly brominated flame retardants cause cytotoxicity and mRNA expression alterations in chicken embryonic hepatocytes.

Toll-like receptor 4 implicated in acute lung injury induced by paraquat poisoning in mice.

Human urinary biomarkers of dioxin exposure: analysis by metabolomics and biologically driven data dimensionality reduction.

Intersection of AHR and Wnt signaling in development, health, and disease.

The role lipid aldehydes and ALEs in the pathogenesis of diabetic retinopathy.

Oxidative stress affects FET proteins localization and alternative pre-mRNA processing in cellular models of ALS.

Innovative anthocyanins formulation protects neuronal-like cells against oxidative stress-induced damage: Pharmacotherapeutic application for Alzheimer's disease.

[Experimental evaluation of pure traditional Chinese medical mouth rinse on skin and mucosa stimulation and bacteriostatic-bactericidal effect].

Differential susceptibility of human peripheral blood T cells to suppression by environmental levels of sodium arsenite and monomethylarsonous acid.

Toothache caused by trigeminal neuralgia of vestibular schwannoma: a case report. [Corrected].

A metabonomic analysis of the effect of quercetin on toxicity induced by chronic exposure to low-level dichlorvos in rat plasma.

Atorvastatin restores arsenic-induced vascular dysfunction in rats: modulation of nitric oxide signaling and inflammatory mediators.

Human RAD23 homolog A is required for the nuclear translocation of apoptosis-inducing factor during induction of cell death.

Toxicity and bioaccumulation of ethofumesate enantiomers in earthworm *Eisenia fetida*.

^{11}C -ORM-13070, a novel PET ligand for brain $\alpha_1\text{-adrenoceptors}$: radiometabolism, plasma pharmacokinetics, whole-body distribution and radiation dosimetry in healthy men.

Potential role of catalase in mice with lipopolysaccharide/D-galactosamine-induced fulminant liver injury.

TCDD induces the hypoxia-inducible factor (HIF)-1 α regulatory pathway in human trophoblastic JAR cells.

Toxicogenetics: in search of host susceptibility to environmental toxicants.

Polychlorinated biphenyls (PCB 101, PCB 153 and PCB 180) alter leptin signaling and lipid metabolism in differentiated 3T3-L1 adipocytes.

Detection of cresyl phosphate-modified butyrylcholinesterase in human plasma for chemical exposure associated with aerotoxic syndrome.

Effect of increasing dietary fiber on plasma levels of colon-derived solutes in hemodialysis patients.

Developmental neurotoxicity of 3,3',4,4'-tetrachloroazobenzene with thyroxine deficit: Sensitivity of glia and dentate granule neurons in the absence of behavioral changes.

Glyphosate poisoning with acute pulmonary edema.

NADPH oxidase and the cardiovascular toxicity associated with smoking.

The reductase activity of the *Arabidopsis* caleosin RESPONSIVE TO DESSICATION20 mediates gibberellin-dependent flowering time, abscisic acid sensitivity, and tolerance to oxidative stress.

Transplanted human adipose tissue-derived stem cells engraft and induce regeneration in mice olfactory neuroepithelium in response to dichlobenil subadministration.

The regeneration of P2 olfactory sensory neurons is selectively impaired following methyl bromide lesion.

In vitro antioxidant capacity of tea of *Echinodorus grandiflorus*, "leather hat," in Wistar rat liver.

The combined treatment with chloroquine and the enzymatic oxidation products of spermine overcomes multidrug resistance of melanoma M14 ADR2 cells: a new therapeutic approach.

Acute toxicity tests and meta-analysis identify gaps in tropical ecotoxicology for amphibians.

Developmental toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin in artificially fertilized crucian carp (*Carassius auratus*) embryo.

Magnas functions as a ROS regulator and provides cytoprotection against oxidative stress-mediated damages.

Structure- and concentration-specific assessment of the physiological reactivity of α -dicarbonyl glucose degradation products in peritoneal dialysis fluids.

Risks of toxic ash from artisanal mining of discarded cellphones.

Two-stage culture procedure using thidiazuron for efficient micropropagation of *Stevia rebaudiana*, an anti-diabetic medicinal herb.

Critical role of cellular glutathione homeostasis for trivalent inorganic arsenite-induced oxidative damage in human bronchial epithelial cells.

Acute arsenic treatment alters arachidonic acid and its associated metabolite levels in the brain of C57Bl/6 mice.

Expression and functional regulation of the nuclear receptors AHR, PXR, and CAR, and the transcription factor Nrf2 in rat parotid gland.

Prediction of outcome following paraquat poisoning by arterial lactate concentration-time data.

Three dimensional quantitative structure-toxicity relationship modeling and prediction of acute toxicity for organic contaminants to algae.

Arsenite-induced changes in hepatic protein abundance in cynomolgus monkeys (*Macaca fascicularis*).

Toxicity of arsenic species to three freshwater organisms and biotransformation of inorganic arsenic by freshwater phytoplankton (*Chlorella* sp. CE-35).

Gynecological care in young women: a high-risk period of life.

Dioxin-induced retardation of development through a reduction in the expression of pituitary hormones and possible involvement of an aryl hydrocarbon receptor in this defect: a comparative study using two strains of mice with different sensitivities to dioxin.

Assessment of oxidative stress in serum by d-ROMs test.

The electronic cigarette. Official statement of the Spanish Society of Pneumology and Thoracic Surgery (SEPAR) on the efficacy, safety and regulation of electronic cigarettes.

Arsenic exposure alters expression of cell cycle and lipid metabolism genes in the liver of adult zebrafish (*Danio rerio*).

Products of the Parkinson's disease-related glyoxalase DJ-1, D-lactate and glycolate, support mitochondrial membrane potential and neuronal survival.

Honeybee colony disorder in crop areas: the role of pesticides and viruses.

Survival predictors in paraquat intoxication and role of immunosuppression.

FGF21 as a Hepatokine, Adipokine, and Myokine in Metabolism and Diseases.

Cross-omics gene and protein expression profiling in juvenile female mice highlights disruption of calcium and zinc signalling in the brain following dietary exposure to CB-153, BDE-47, HBCD or TCDD.

Histopathologic alterations associated with global gene expression due to chronic dietary TCDD exposure in juvenile zebrafish.

Standardization of in vitro Cell-based Model for Renal Ischemia and Reperfusion Injury.

[Effect of tumor necrosis factor receptor associated factor 6 gene silencing by small interfering RNA on proliferation of odontoblast cells].

[The first stage of toxicology evaluation and analysis of 1502 pesticide samples].

Acute and joint toxicity of three agrochemicals to Chinese tiger frog (*Hoplobatrachus chinensis*) tadpoles.

Ameliorative effect of *Matricaria chamomilla* .L on paraquat: Induced oxidative damage in lung rats.

A case report of acute severe paraquat poisoning and long-term follow-up.

An aberrant leukotriene A4 hydrolase-proline-glycine-proline pathway in the pathogenesis of chronic obstructive pulmonary disease.

The low molecular weight DNA diffusion assay as an indicator of cytotoxicity for the in vitro comet assay.

A PET Tracer for Brain β 2C Adrenoceptors, (11)C-ORM-13070: Radiosynthesis and Preclinical Evaluation in Rats and Knockout Mice.

Increase in insulin-induced relaxation of consecutive arterial segments toward the periphery: Role of vascular oxidative state.

Effects of uremic toxin p-cresol on proliferation, apoptosis, differentiation, and glucose uptake in 3T3-L1 cells.

Effect of paraquat-induced oxidative stress on gene expression and aging of the filamentous ascomycete *Podospora anserina*.

Comparative oxidative stress, metallothionein induction and organ toxicity following chronic exposure to arsenic, lead and mercury in rats.

Diminished brain resilience syndrome: A modern day neurological pathology of increased susceptibility to mild brain trauma, concussion, and downstream neurodegeneration.

Liquid crystal based sensors monitoring lipase activity: a new rapid and sensitive method for cytotoxicity assays.

Neutrophil-derived microparticles induce myeloperoxidase-mediated damage of vascular endothelial cells.

Salidroside protects *Caenorhabditis elegans* neurons from polyglutamine-mediated toxicity by reducing oxidative stress.

The induction of long-term potentiation in spinal dorsal horn after peripheral nociceptive stimulation and contribution of spinal TRPV1 in rats.

[Analysis of epidemiological characteristics of acute pesticide poisoning during 2007-2013 in Jinan, China].

The comparison of methods for measuring oxidative stress in zebrafish brains.

RNA-Seq transcriptome analysis to identify genes involved in metabolism-based diclofop resistance in *Lolium rigidum*.

Global assessment of arsenic pollution using sperm whales (*Physeter macrocephalus*) as an emerging aquatic model organism.

2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD) increases bilirubin formation but hampers quantitative hepatic conversion of biliverdin to bilirubin in rats with wild-type AH receptor.

Nicotinamide nucleotide transhydrogenase (Nnt) links the substrate requirement in brain mitochondria for hydrogen peroxide removal to the thioredoxin/peroxiredoxin (Trx/Prx) system.

Cathodic electrochemiluminescence immunosensor based on nanocomposites of semiconductor carboxylated g-C₃N₄ and graphene for the ultrasensitive detection of squamous cell carcinoma antigen.

Which exposure stage (gestation or lactation) is more vulnerable to atrazine toxicity? Studies on mouse dams and their pups.

2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) induces expression of p27(kip¹) and FoxO3a in female rat cerebral cortex and PC12 cells.

Demographics, clinical characteristics and management of herbicide poisoning in tertiary care hospital.

Protective effect of quercetin on atrazine-induced oxidative stress in the liver, kidney, brain, and heart of adult wistar rats.

Glyphosate surfactant herbicide poisoning and management.

Fatal adverse drug reactions: Experience of adverse drug reactions in a tertiary care teaching hospital of North India - A case series.

Biochemical, oxidative and histological changes caused by sub-acute oral exposure of some synthetic cyanogens in rats: ameliorative effect of α -ketoglutarate.

Wild fish from the Bay of Quinte Area of Concern contain elevated tissue concentrations of PCBs and exhibit evidence of endocrine-related health effects.

Conditioned medium enhances the fusion capability of rat bone marrow mesenchymal stem cells and cardiomyocytes.

Photodamage in a mitochondrial membrane model modulated by the topology of cationic and anionic meso-tetrakis porphyrin free bases.

Fish oil rich in eicosapentaenoic acid protects against oxidative stress-related renal dysfunction induced by TCDD in Wistar rats.

Monomethylated trivalent arsenic species disrupt steroid receptor interactions with their DNA response elements at non-cytotoxic cellular concentrations.

Modulation of cell viability, oxidative stress, calcium homeostasis, and voltage- and ligand-gated ion channels as common mechanisms of action of (mixtures of) non-dioxin-like polychlorinated biphenyls and polybrominated diphenyl ethers.

Brain mitochondria from DJ-1 knockout mice show increased respiration-dependent hydrogen peroxide consumption.

Fluoride and arsenic exposure impairs learning and memory and decreases mGluR5 expression in the hippocampus and cortex in rats.

Study of osteogenic differentiation of human adipose-derived stem cells (HASCs) on bacterial cellulose.

No requirement of TRPV1 in long-term potentiation or long-term depression in the anterior cingulate cortex.

Acrolein as a novel therapeutic target for motor and sensory deficits in spinal cord injury.

Embryonic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin impairs prey capture by zebrafish larvae.

Next-generation airbags and the possibility of negative outcomes due to thoracic injury.

Identification of a novel mitochondrial uncoupler that does not depolarize the plasma membrane.

Nucleoside 5'-phosphorothioate derivatives are highly effective neuroprotectants.

Comparative and combined acute toxicity of butachlor, imidacloprid and chlorpyrifos on earthworm, *Eisenia fetida*.

Multiple poisonings with sodium azide at a local restaurant.

Treatment with a cannabinoid receptor 2 agonist decreases severity of established cystitis.

Cytotoxic clerodane diterpenes from *Zuelania guidonia*.

Direct synthesis of 4-organylsulphenyl-7-chloro quinolines and their toxicological and pharmacological activities in *Caenorhabditis elegans*.

New branches in the degradation pathway of monochlorocatechols by *Aspergillus nidulans*: a metabolomics analysis.

Human urinary excretion of non-persistent environmental chemicals: an overview of Danish data collected between 2006 and 2012.

Effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin on secretion of steroids and STAR, HSD3B and CYP19A1 mRNA expression in chicken ovarian follicles.

Cerebellar expression of copper chaperone for superoxide, cytosolic Cu/Zn-superoxide dismutase, 4-hydroxy-2-nonenal, acrolein and heat shock protein 32 in patients with Menkes kinky hair disease: immunohistochemical study.

2,4-Dichlorophenol induces global DNA hypermethylation through the increase of S-adenosylmethionine and the upregulation of DNMTs mRNA in the liver of goldfish *Carassius auratus*.

Zinc finger nuclease-mediated knockout of AHR or ARNT in human breast cancer cells abolishes basal and ligand-dependent regulation of CYP1B1 and differentially affects estrogen receptor β transactivation.

Label-retaining, quiescent globose basal cells are found in the olfactory epithelium.

Astrocytic mitochondrial membrane hyperpolarization following extended oxygen and glucose deprivation.

Occurrence of organochlorine contaminants (PCBs, PCDDs and PCDFs) and pathologic findings in loggerhead sea turtles, *Caretta caretta*, from the Adriatic Sea (Mediterranean Sea).

Mitochondrial uncoupling reduces exercise capacity despite several skeletal muscle metabolic adaptations.

Beyond hypoxia: occurrence and characteristics of black blooms due to the decomposition of the submerged plant *Potamogeton crispus* in a shallow lake.

[Effect of synchronous perfusion of NaN_3 in changes in content of cholinergic neurotransmitter in medial prefrontal cortex and hippocampal extra-cellular fluid].

Isomorphism and disorder in o-chlorohalobenzenes studied by NQR.

Comparative responses of sperm cells and embryos of Pacific oyster (*Crassostrea gigas*) to exposure to metolachlor and its degradation products.

TCDD dysregulation of 13 AHR-target genes in rat liver.

Increases in levels of epoxyeicosatrienoic and dihydroxyeicosatrienoic acids (EETs and DHETs) in liver and heart in vivo by 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) and in hepatic EET:DHET ratios by cotreatment with TCDD and the soluble epoxide hydrolase inhibitor AUDA.

Mechanism for the protective effect of diallyl disulfide against cyclophosphamide acute urotoxicity in rats.

The environmental neurotoxicant PCB 95 promotes synaptogenesis via ryanodine receptor-dependent miR132 upregulation.

Arsenic trioxide and other arsenical compounds inhibit the NLRP1, NLRP3, and NAIP5/NLRC4 inflammasomes.

Republished study: long-term toxicity of a Roundup herbicide and a Roundup-tolerant genetically modified maize.

Transcriptome-metabolome wide association study (TMWAS) of maneb and paraquat neurotoxicity reveals network level interactions in toxicologic mechanism.

A Study on the Quality and Identity of Brazilian Pampa Biome Honey: Evidences for Its Beneficial Effects against Oxidative Stress and Hyperglycemia.

History of Chemistry in the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK).

Adverse effects in adulthood resulting from low-level dioxin exposure in juvenile zebrafish.

Chemoprevention against arsenic-induced mutagenic DNA breakage and apoptotic liver damage in rat via antioxidant and SOD1 upregulation by green tea (*Camellia sinensis*) which recovers broken DNA resulted from arsenic-H₂O₂ related in vitro oxidant stress.

Aluminum-induced entropy in biological systems: implications for neurological disease.

[Molecular and cellular aspects of dioxin toxicity].

Influence of zinc supplementation on histopathological changes in the stomach, liver, kidney, brain, pancreas and spleen during subchronic exposure of Wistar rats to glyphosate.

Effect of SP-A/B in lipoic acid on acute paraquat poisoning.

Cytotoxicity studies of novel combretastatin and pterostilbene derivatives.

Serum biochemical assessment of hepatic and renal functions of rats during oral exposure to glyphosate with zinc.

[2,4-dinitrophenol--a lethal weight reducing agent].

Alteration of ROS homeostasis and decreased lifespan in *S. cerevisiae* elicited by deletion of the mitochondrial translocator FLX1.

Development of a screening system for the detection of chemically induced DNA methylation alterations in a zebrafish liver cell line.

Estrogenic endocrine-disrupting chemicals: molecular mechanisms of actions on putative human diseases.

Assessment of genotoxic potential of arsenic in female albino rats at permissible dose levels.

[Acute toxicity of three typical pollutants to aquatic organisms and their water quality criteria].

Korean Red Ginseng water extract inhibits COX-2 expression by suppressing p38 in acrolein-treated human endothelial cells.

[Clarification of molecular targets of dioxin toxicity].

FT-IR spectroscopy as a sentinel technology in earthworm toxicology.

Alpha-lipoic acid protects oxidative stress, changes in cholinergic system and tissue histopathology during co-exposure to arsenic-dichlorvos in rats.

Proton-coupled organic cation antiporter-mediated uptake of apomorphine enantiomers in human brain capillary endothelial cell line hCMEC/D3.

Serum dioxin concentrations and bone density and structure in the Seveso Women's Health Study.

Oleic acid promotes adaptability against oxidative stress in 3T3-L1 cells through lipohormesis.

AtRH57, a DEAD-box RNA helicase, is involved in feedback inhibition of glucose-mediated abscisic acid accumulation during seedling development and additively affects pre-ribosomal RNA processing with high glucose.

Inhaled environmental allergens and toxicants as determinants of the asthma phenotype.

Reaction of small heat-shock proteins to different kinds of cellular stress in cultured rat hippocampal neurons.

Acute toxicity of a commercial glyphosate formulation on European sea bass juveniles (*Dicentrarchus labrax* L.): gene expressions of heme oxygenase-1 (ho-1), acetylcholinesterase (AChE) and aromatases (cyp19a and cyp19b).

Predictors of acute respiratory distress syndrome in patients with paraquat intoxication.

Early-life exposure to a herbicide has enduring effects on pathogen-induced mortality.

Isogenic human iPSC Parkinson's model shows nitrosative stress-induced dysfunction in MEF2-PGC1 β transcription.

Stress-regulated translational attenuation adapts mitochondrial protein import through Tim17A degradation.

[Cyanamide-ethanol reaction induced shock: report of a case and literature review].

Cytoprotective effect of bioactive sea buckthorn extract on paraquat-exposed A549 cells via induction of Nrf2 and its downstream genes.

Oxidative stress as a mechanism for toxicity of 2,4-dichlorophenoxyacetic acid (2,4-D): studies with goldfish gills.

Oral lesions and pulmonary fibrosis after ingesting grapes.

Effect of a glyphosate-based herbicide in *Cyprinus carpio*: assessment of acetylcholinesterase activity, hematological responses and serum biochemical parameters.

High level of dioxin-TEQ in tissue is associated with Agent Orange exposure but not with biochemical recurrence after radical prostatectomy.

Accumulation, histopathological effects and response of biochemical markers in the spleens and head kidneys of common carp exposed to atrazine and chlorpyrifos.

Treatment of acute paraquat intoxication using recommended megadose of vitamin C: a reappraisal.

Silymarin- and melatonin-mediated changes in the expression of selected genes in pesticides-induced Parkinsonism.

Evaluation of THP-1 cell line as an in vitro model for long-term safety assessment of new molecules.

Roundup disrupts male reproductive functions by triggering calcium-mediated cell death in rat testis and Sertoli cells.

The effects of acetaldehyde and acrolein on muscle catabolism in C2 myotubes.

Dopaminergic neurotoxicity of S-ethyl N,N-dipropylthiocarbamate (EPTC), molinate, and S-methyl-N,N-diethylthiocarbamate (MeDETC) in *Caenorhabditis elegans*.

Aldose reductase regulates acrolein-induced cytotoxicity in human small airway epithelial cells.

Quercetin reduces oxidative damage induced by paraquat via modulating expression of antioxidant genes in A549 cells.

Benzothiazole aniline tetra(ethylene glycol) and 3-amino-1,2,4-triazole inhibit neuroprotection against amyloid peptides by catalase overexpression in vitro.

Characterization of cholinesterases in *Chironomus riparius* and the effects of three herbicides on chlorpyrifos toxicity.

How Parkinsonian toxins dysregulate the autophagy machinery.

Glufosinate herbicide intoxication causing unconsciousness, convulsion, and 6th cranial nerve palsy.

Atrazine is primarily responsible for the toxicity of long-term exposure to a combination of atrazine and inorganic arsenic in the nigrostriatal system of the albino rat.

Vietnam veterans: getting old, getting sick--is this service related?

Factors associated with severe effects following acute glufosinate poisoning.

Assessing sensitivity and recovery of field-collected periphyton acutely exposed to atrazine using PSII inhibition under laboratory conditions.

Impairment of Atg5-dependent autophagic flux promotes paraquat- and MPP⁺-induced apoptosis but not rotenone or 6-hydroxydopamine toxicity.

Diphenyl diselenide prevents hepatic alterations induced by paraquat in rats.

Curcumin analog 1, 5-bis (2-trifluoromethylphenyl)-1, 4-pentadien-3-one exhibits enhanced ability on Nrf2 activation and protection against acrolein-induced ARPE-19 cell toxicity.

Mechanisms of permanent loss of olfactory receptor neurons induced by the herbicide 2,6-dichlorobenzonitrile: effects on stem cells and noninvolvement of acute induction of the inflammatory cytokine IL-6.

Oxidative stress responses in zebrafish *Danio rerio* after subchronic exposure to atrazine.

Using bosentan to treat paraquat poisoning-induced acute lung injury in rats.

Renal biomarkers predict nephrotoxicity after paraquat.

Toll-like receptor 4 is involved in myocardial damage following paraquat poisoning in mice.

Inhibitory effects of rosiglitazone on paraquat-induced acute lung injury in rats.

Pesticide exposure and depression among agricultural workers in France.

Sensitivity of a green alga to atrazine is not enhanced by previous acute exposure.

Methylene blue protects against paraquat-induced acute lung injury in rats.

Procedures to evaluate the efficiency of protective clothing worn by operators applying pesticide.

Hazard-ranking of agricultural pesticides for chronic health effects in Yuma County, Arizona.

Proteomic analysis of rat cerebral cortex following subchronic acrolein toxicity.

Effect of methylsulfonylmethane on paraquat-induced acute lung and liver injury in mice.

Phytotoxicity of four photosystem II herbicides to tropical seagrasses.

Multigenerational exposure of the microalga *Tetraselmis suecica* to diuron leads to spontaneous long-term strain adaptation.

Pesticide contamination and phytotoxicity of sediment interstitial water to tropical benthic microalgae.

Paraquat poisoning induces TNF- α -dependent iNOS/NO mediated hyporesponsiveness of the aorta to vasoconstrictors in rats.

Disease associated with exposure to certain herbicide agents: peripheral neuropathy.

Tissue concentration of paraquat on day 32 after intoxication and failed bridge to transplantation by extracorporeal membrane oxygenation therapy.

Foliar nickel application alleviates detrimental effects of glyphosate drift on yield and seed quality of wheat.

Induction time of Fe-SOD synthesis and activity determine different tolerance of two *Desmodesmus* (green algae) strains to chloridazon: a study with synchronized cultures.

Agent Orange exposure and prevalence of self-reported diseases in Korean Vietnam veterans.

[Value of arterial lactic acid and buffer excess in predicting the prognosis of patients with paraquat poisoning].

[Prognostic significance of serum lactic acid in evaluation of acute paraquat poisoning patients].

Effect of intravenous lipid emulsion in patients with acute glyphosate intoxication.

Cholinesterase activities and behavioral changes in *Hypsiboas pulchellus* (Anura: Hylidae) tadpoles exposed to glufosinate ammonium herbicide.

Comparisons of metabolic and physiological changes in rats following short term oral dosing with pesticides commonly found in food.

Short-term atrazine exposure causes behavioral deficits and disrupts monoaminergic systems in male C57BL/6 mice.

The role of *Arabidopsis thaliana* NAR1, a cytosolic iron-sulfur cluster assembly component, in gametophytic gene expression and oxidative stress responses in vegetative tissue.

Subacute toxicity of copper and glyphosate and their interaction to *Eisenia fetida*.

Evaluation of selected biomarkers for the detection of chemical sensitization in human skin: a comparative study applying THP-1, MUTZ-3 and primary dendritic cells in culture.

Validation of the species sensitivity distribution in retrospective risk assessment of herbicides at the river basin scale—the Scheldt river basin case study.

Paraquat-induced convulsion and death: a report of five cases.

Epidemiology. Paths from pesticides to Parkinson's.

Natural herbicide resistance (HR) to broad-spectrum herbicide, glyphosate among traditional and inbred-cultivated rice (*Oryza sativa* L.) varieties in Sri Lanka.

Climate change, multiple stressors, and the decline of ectotherms.

Environmental concentrations of irgarol, diuron and S-metolachlor induce deleterious effects on gametes and embryos of the Pacific oyster, *Crassostrea gigas*.

Clinicopathological features of mycosis fungoides in patients exposed to Agent Orange during the Vietnam War.

Prognostic value of initial arterial lactate level and lactate metabolic clearance rate in patients with acute paraquat poisoning.

Glutathione deficiency in *Gclm* null mice results in complex I inhibition and dopamine depletion following paraquat administration.

Paraquat-induced ultrastructural changes and DNA damage in the nervous system is mediated via oxidative-stress-induced cytotoxicity in *Drosophila melanogaster*.

Mitochondrial susceptibility in a model of paraquat neurotoxicity.

Protective effects of naringin against paraquat-induced acute lung injury and pulmonary fibrosis in mice.

Treatment of 2,4-D, mecoprop, and dicamba using membrane bioreactor technology.

Quercetin exacerbates the effects of subacute treatment of atrazine on reproductive tissue antioxidant defence system, lipid peroxidation and sperm quality in rats.

Xuebijing for paraquat poisoning.

The use of antioxidant enzymes in freshwater biofilms: temporal variability vs. toxicological responses.

[Predictive value of 3 methods in severity evaluation and prognosis of acute paraquat poisoning].

Triketone toxicity: a report on two cases of sulcotrione poisoning.

Reply to Dr. Jeffrey Brent.

High-dose paraquat exposure and Parkinson's disease.

Potential effect of metolachlor on toxicity of organochlorine and organophosphate insecticides in earthworm *Eisenia andrei*.

Effects of the herbicide atrazine in neotropical catfish (*Rhamdia quelen*).

Priorities to improve the ecological risk assessment and management for pesticides in surface water.

Docosahexaenoic acid (DHA) ameliorates paraquat-induced pulmonary fibrosis in rats possibly through up-regulation of Smad 7 and SnoN.

Exposure to 2,4-dichlorophenoxyacetic acid alters glucose metabolism in immature rat Sertoli cells.

Pharmacokinetic, neurochemical, stereological and neuropathological studies on the potential effects of paraquat in the substantia nigra pars compacta and striatum of male C57BL/6J mice.

Alteration of lipid status and lipid metabolism, induction of oxidative stress and lipid peroxidation by 2,4-dichlorophenoxyacetic herbicide in rat liver.

Magnolol protects against oxidative stress-mediated neural cell damage by modulating mitochondrial dysfunction and PI3K/Akt signaling.

Ecotoxicological characterisation of a mycoherbicide mixture isolated from the fungus *Ascochyta caulina*.

Exposure to herbicides in house dust and risk of childhood acute lymphoblastic leukemia.

Synergistic effects caused by atrazine and terbuthylazine on chlorpyrifos toxicity to early-life stages of the zebrafish *Danio rerio*.

Cytotoxicity on human cells of Cry1Ab and Cry1Ac Bt insecticidal toxins alone or with a glyphosate-based herbicide.

MicroRNA-195 targets ADP-ribosylation factor-like protein 2 to induce apoptosis in human embryonic stem cell-derived neural progenitor cells.

PACAP deficiency sensitizes nigrostriatal dopaminergic neurons to paraquat-induced damage and modulates central and peripheral inflammatory activation in mice.

Propanil-induced histopathological changes in the liver and kidney of mice.

[Comparison of aquatic predicted no-effect concentrations (PNECs) pentachlorophenol derived from different assessment approaches].

Analysis of paraquat intoxication epidemic (2002-2011) within China.

[The relationship of endoplasmic reticulum stress with paraquat induced lung fibrosis in rats].

CT imaging as a prognostic indicator for patients with pulmonary injury from acute paraquat poisoning.

Application of an amphibian (*Silurana tropicalis*) metamorphosis assay to the testing of the chronic toxicity of three rice paddy herbicides: simetryn, mefenacet, and thiobencarb.

Mucuna pruriens seed extract reduces oxidative stress in nigrostriatal tissue and improves neurobehavioral activity in paraquat-induced Parkinsonian mouse model.

Specific pesticide-dependent increases in α -synuclein levels in human neuroblastoma (SH-SY5Y) and melanoma (SK-MEL-2) cell lines.

Paraquat poisonings in France during the European ban: experience of the Poison Control Center in Marseille.

Effects of chemical and handling exposure on fatty acids, oxidative stress and morphological welfare indicators in gilt-head sea bream (*Sparus aurata*).

Exposure to pesticides or solvents and risk of Parkinson disease.

Synergistic effects between pesticide stress and predator cues: conflicting results from life history and physiology in the damselfly *Enallagma cyathigerum*.

Linking pesticide exposure and dementia: what is the evidence?

The role of pesticide exposure in the genesis of Parkinson's disease: epidemiological studies and experimental data.

[Focal issues in treating acute poisoning by paraquate].

[Effect of treatment with early blood purification combined with prednisone and cyclophosphamide for patients with acute paraquat poisoning].

[Effects of pyrrolidine dithiocarbamate on expressions of α -smooth muscle actin, integrin α 5 and fibronectin in acute paraquat poisoned rats].

Acute exposure of *Drosophila melanogaster* to paraquat causes oxidative stress and mitochondrial dysfunction.

Caloric content of *Daphnia magna* as reflect of propanil stress during a short-term exposure and its relationship to long-term responses.

Case-control study of maternal residential atrazine exposure and male genital malformations.

The determination of toxicities of sulphonylurea and phenylurea herbicides with quantitative structure-toxicity relationship (QSTR) studies.

How did a reduced incidence of Parkinson's disease become an increase?

Pesticide-induced decrease in rat testicular steroidogenesis is differentially prevented by lipoate and tocopherol.

Reply to drs. John andrew tomenson and clive campbell.

Neuroprotective role of *Withania somnifera* root extract in maneb-paraquat induced mouse model of parkinsonism.

Depressive symptoms and severity of acute occupational pesticide poisoning among male farmers.

Notes from the field: Acute pesticide-related illness resulting from occupational exposure to acrolein - Washington and California, 1993-2009.

2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) enhances placental inflammation.

The roles of aryl hydrocarbon receptor in immune responses.

Effects of iron polymaltose complex, ferrous fumarate and ferrous sulfate treatments in anemic pregnant rats, their fetuses and placentas.

Cell death pattern of a varicose vein organ culture model.

Selenium-binding protein 1: its physiological function, dependence on aryl hydrocarbon receptors, and role in wasting syndrome by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Monitoring of deiodinase deficiency based on transcriptomic responses in SH-SY5Y cells.

The human Ah receptor: hints from dioxin toxicities to deregulated target genes and physiological functions.

Expression and potential role of apolipoprotein D on the death-survival balance of human colorectal cancer cells under oxidative stress conditions.

Seizure control by ketogenic diet-associated medium chain fatty acids.

Multidrug resistance protein 1 (ABCC1) confers resistance to arsenic compounds in human myeloid leukemic HL-60 cells.

Dioxin-like compounds are not associated with bone strength measured by ultrasonography in Inuit women from Nunavik (Canada): results of a cross-sectional study.

Epigenetics and pesticides.

[The antagonistic effect of folic acid and resveratrol on cleft palate in mice induced by TCDD].

[Effects of Shenwu capsule on learning-memory ability and cholinergic function of brain in AD-like rat model induced by chronic infusion of sodium azide by minipump].

[Effects of icariin on beta-amyloid and neurotrophic factors in brain of mitochondrial deficiency model rats].

The weeding of *Ambrosia artemisiifolia* and sanitary risks.

Severe anemia in 3 toddlers with gastric lactobezoar.

Circulating levels of persistent organic pollutants (POPs) are associated with left ventricular systolic and diastolic dysfunction in the elderly.

Multiple micronutrient supplementation reduces anemia and anxiety in rural China's elementary school children.

Activation of the aryl hydrocarbon receptor sensitizes mice to nonalcoholic steatohepatitis by deactivating mitochondrial sirtuin deacetylase Sirt3.

Nerve growth factor exhibits an antioxidant and an autocrine activity in mouse liver that is modulated by buthionine sulfoximine, arsenic, and acetaminophen.

Biological and tumor-promoting effects of dioxin-like and non-dioxin-like polychlorinated biphenyls in mouse liver after single or combined treatment.

Deletion or activation of the aryl hydrocarbon receptor alters adult hippocampal neurogenesis and contextual fear memory.

Teratogenic effects of 4-nonylphenol on early embryonic and larval development of the catfish *Heteropneustes fossilis*.

Sodium arsenite-induced cardiotoxicity in rats: protective role of p-coumaric acid, a common dietary polyphenol.

Intravenous iron sucrose versus oral iron ferrous sulfate for antenatal and postpartum iron deficiency anemia: a randomized trial.

Association between exposure to dioxin-like polychlorinated biphenyls and miR-191 expression in human peripheral blood mononuclear cells.

The aryl hydrocarbon receptor: a novel target for immunomodulation in organ transplantation.

Gastrointestinal stromal tumors, somatic mutations and candidate genetic risk variants.

[Serum levels of IL-21 and TGF-beta in the Yusho patients].

[Relationships between concentrations of dioxin isomers and symptoms, and among concentrations and half-lives of dioxin isomers, in patients with Yusho disease].

Managing severe anemia when the patient is a Jehovah's Witness.

Nox4 as a potential therapeutic target for treatment of uremic toxicity associated to chronic kidney disease.

Decreased expression of GATA4 in the diaphragm of nitrofen-induced congenital diaphragmatic hernia.

Ethylendioxy-PIP2 oxalate reduces ganglioside storage in juvenile Sandhoff disease mice.

Postmortem analyses of gaseous and volatile substances in pericardial fluid and bone marrow aspirate.

Removal of protein-bound, hydrophobic uremic toxins by a combined fractionated plasma separation and adsorption technique.

p-Cresyl sulfate causes renal tubular cell damage by inducing oxidative stress by activation of NADPH oxidase.

Albumin is the main plasma binding protein for indoxyl sulfate and p-cresyl sulfate.

Tolerability of different oral iron supplements: a systematic review.

Low serum lipocalin levels in patients with iron deficiency anemia.

An integrated plasma and urinary metabolomic study using UHPLC-MS: intervention effects of Epimedium koreanum on 'Kidney-Yang Deficiency syndrome' rats.

Cresyl saligenin phosphate makes multiple adducts on free histidine, but does not form an adduct on histidine 438 of human butyrylcholinesterase.

Dioxin receptor expression inhibits basal and transforming growth factor β -induced epithelial-to-mesenchymal transition.

Role of hepatic and pancreatic oxidative stress in arsenic induced diabetic condition in Wistar rats.

Health risk assessment of occupational exposure to hazardous volatile organic compounds in swine gestation, farrowing and nursery barns.

[Be based on the morphological and histological changes to study optimal dose of TCDD induced cleft palate in mice embryo].

[Problems of adherence to the program of prevention of iron deficiency anemia and supplementation with iron salts in the city of Viçosa, Minas Gerais, Brazil].

Cases from NACCT acute and intensive care symposium: altered mental status, seizures, and rash in a fumigation company employee.

A randomized, double-blind clinical study on the safety and tolerability of an iron multi-amino acid chelate preparation in premenopausal women.

Arsenic induced neuronal apoptosis in guinea pigs is Ca^{2+} dependent and abrogated by chelation therapy: role of voltage gated calcium channels.

Amniotic lamellar body count and congenital diaphragmatic hernia in humans and in a rat model.

Differential sensitivity to pro-oxidant exposure in two populations of killifish (*Fundulus heteroclitus*).

Iron is involved in the maintenance of circadian period length in *Arabidopsis*.

Mortality of American bullfrog tadpoles *Lithobates catesbeianus* infected by *Gyrodactylus jennyae* and experimentally exposed to *Batrachochytrium dendrobatidis*.

Exhaled breath and fecal volatile organic biomarkers of chronic kidney disease.

Impaired mitochondrial metabolism and mammary carcinogenesis.

Spontaneous renal tumors in two rats from a thirteen week rodent feeding study with grain from molecular stacked trait lepidopteran and coleopteran resistant (DP-4114-3) maize.

Functional regulation of P-glycoprotein at the blood-brain barrier in proton-coupled folate transporter (PCFT) mutant mice.

Genetic susceptibility to dioxin-like chemicals' induction of cytochrome P4501A2 in the human adult linked to specific AhRR polymorphism.

Urinary p-cresol in autism spectrum disorder.

Effects of quercetin and chrysin on 2,3,7,8-tetrachlorodibenzo-p-dioxin induced hepatotoxicity in rats.

Comparison of treatments to inactivate viral hemorrhagic septicemia virus (VHSV-IVb) in frozen baitfish.

Nuclear import and export signals control the subcellular localization of Nurr1 protein in response to oxidative stress.

Peripheral neuropathy due to dinitrophenol used for weight loss: something old, something new.

Parkinson's disease-associated human P5B-ATPase ATP13A2 increases spermidine uptake.

Cyprodinil as an activator of aryl hydrocarbon receptor.

[Reduction in alcohol consumption: therapeutic goal in alcohol dependence treatment].

Defense activated by 9-lipoxygenase-derived oxylipins requires specific mitochondrial proteins.

Pesticides, microglial NOX2, and Parkinson's disease.

Hepcidin levels predict nonresponsiveness to oral iron therapy in patients with iron deficiency anemia.

A novel UPLC-MS-MS method for simultaneous determination of seven uremic retention toxins with cardiovascular relevance in chronic kidney disease patients.

Intrarenal metabolomic investigation of chronic kidney disease and its TGF- β 1 mechanism in induced-adenine rats using UPLC Q-TOF/HSMS/MS(E).

Potential carcinogenic effects of world trade center dust after intratracheal instillation to Sprague-Dawley rats: first observation.

Blood levels of PCDDs, PCDFs, and coplanar PCBs in Yusho mothers and their descendants: association with fetal Yusho disease.

An update on uremic toxins.

Dioxin suppresses benzo[a]pyrene-induced mutations and DNA adduct formation through cytochrome P450 1A1 induction and (\pm)-anti-benzo[a]pyrene-7,8-diol-9,10-epoxide inactivation in human hepatoma cells.

Methane biogenesis during sodium azide-induced chemical hypoxia in rats.

Inorganic arsenic impairs differentiation and functions of human dendritic cells.

2,3,7,8-TCDD enhances the sensitivity of mice to concanavalin A immune-mediated liver injury.

CD44v6 expression in human skin keratinocytes as a possible mechanism for carcinogenesis associated with chronic arsenic exposure.

Cultured human peripheral blood mononuclear cells alter their gene expression when challenged with endocrine-disrupting chemicals.

Chloroacetic acid induced neuronal cells death through oxidative stress-mediated p38-MAPK activation pathway regulated mitochondria-dependent apoptotic signals.

Computer modelling as a tool for the exposure assessment of operators using faulty agricultural pesticide spraying equipment.

A forgotten screening test for iron deficiency anemia: oral iron absorption test.

[Halitosis concomitant with chronic ENT pathology in children].

Trichosanthes dioica root alleviates arsenic induced myocardial toxicity in rats.

A computational approach to chemical etiologies of diabetes.

The role of aryl hydrocarbon receptor-regulated cytochrome P450 enzymes in glioma.

[Molecular mechanisms for uremic toxin-induced oxidative tissue damage via a cardiovascular-renal connection].

Iron absorption following a single oral dose of ferrous sulfate or ferric gluconate in patients with gastrectomy.

Increased kidney metabolism as a pathway to kidney tissue hypoxia and damage: effects of triiodothyronine and dinitrophenol in normoglycemic rats.

Occurrence of disseminated intravascular coagulation in 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced pneumonia in the rat.

Removal of protein-bound uraemic toxins by haemodialysis.

Correlations between BRCA1 defect and environmental factors in the risk of breast cancer.

Successful treatment of severe iron intoxication with gastrointestinal decontamination, deferoxamine, and hemodialysis.

Prenatal exposure to a polychlorinated biphenyl (PCB) congener influences fixation duration on biological motion at 4-months-old: a preliminary study.

Accidental occupational exposure to phytosanitary products: experience of the Poison Control Center in Marseille from 2008 to 2010.

[Statement of the Polish Gynecological Society Expert Group on the use of iron preparations (Tardyferon, Tardyferon-Fol) in obstetrics and gynaecology].

Effects of combined ferrous sulphate administration and exposure to static magnetic field on spatial learning and motor abilities in rats.

Isoflurane preconditioning confers cardioprotection by activation of ALDH2.

Clinical benefits of predilution on-line hemodiafiltration.

Warburg and Crabtree effects in premalignant Barrett's esophagus cell lines with active mitochondria.

Basolateral invasion and trafficking of *Campylobacter jejuni* in polarized epithelial cells.

Effect of nitrofen in the final stages of development of the diaphragm muscle in rats.

In vivo efficacy of ferrihydrite as an enterosorbent for arsenic: short-term evaluation in rodents.

Bronchial stenosis after iron pill aspiration.

KML001 displays vascular disrupting properties and irinotecan combined antitumor activities in a murine tumor model.

Oculomotor deficits in aryl hydrocarbon receptor null mouse.

Human neuromelanin: an endogenous microglial activator for dopaminergic neuron death.

p-Cresyl sulfate promotes insulin resistance associated with CKD.

Interval estimation of the mean difference in the analysis of over-dispersed count data.

Increased activation of NADPH oxidase 4 in the pulmonary vasculature in experimental diaphragmatic hernia.

Decreased pulmonary c-Cbl expression and tyrosine phosphorylation in the nitrofen-induced rat model of congenital diaphragmatic hernia.

Evaluation of lipid peroxidation and antioxidant system in healthy iron-replete infants receiving iron prophylaxis.

Increased trophoblastic apoptosis mediated by neutrophil gelatinase-associated lipocalin (NGAL) activation in the nitrofen model of congenital diaphragmatic hernia.

Effect of different doses of iron supplementation during pregnancy on maternal and infant health.

Amniotic fluid stem cells rescue both in vitro and in vivo growth, innervation, and motility in nitrofen-exposed hypoplastic rat lungs through paracrine effects.

Association between uremic toxins and depression in patients with chronic kidney disease undergoing maintenance hemodialysis.

Sequence capture and massively parallel sequencing to detect mutations associated with malignant hyperthermia.

Inhibition of neurite outgrowth and alteration of cytoskeletal gene expression by sodium arsenite.

Uremic toxins inhibit renal metabolic capacity through interference with glucuronidation and mitochondrial respiration.

Delayed temporal increase of hepatic Hsp70 in ApoE knockout mice after prenatal arsenic exposure.

Timing and expression of the angiotensin-1-Tie-2 pathway in murine lung development and congenital diaphragmatic hernia.

Comparison of destructive periodontal disease in blue iris mink to PCB 126-induced mandibular and maxillary squamous epithelial proliferation in natural dark mink.

Food Safety: at the center of a One Health approach for combating zoonoses.

Dioxins: diagnostic and prognostic challenges arising from complex mechanisms.

p-Cresol sulfate and indoxyl sulfate induce similar cellular inflammatory gene expressions in cultured proximal renal tubular cells.

Associations among chronic kidney disease, high total p-cresylsulfate and major adverse cardiac events.

Genetically modified foods: safety, risks and public concerns-a review.

Modulation of aryl hydrocarbon receptor-regulated genes by acute administration of ammonium metavanadate in kidney, lung and heart of C57BL/6 mice.

Protective effects of protocatechuic acid on TCDD-induced oxidative and histopathological damage in the heart tissue of rats.

Lipid peroxidation triggers neurodegeneration: a redox proteomics view into the Alzheimer disease brain.

Mitochondria-targeted antioxidants and metabolic modulators as pharmacological interventions to slow ageing.

Vanadium toxicity in mice: possible impairment of lipid metabolism and mucosal epithelial cell necrosis in the small intestine.

Akt/Nrf2 activated upregulation of heme oxygenase-1 involves in the role of Rg1 against ferrous iron-induced neurotoxicity in SK-N-SH cells.

Evaluation of miR-122 and other biomarkers in distinct acute liver injury in rats.

Sodium arsenite induced reactive oxygen species generation, nuclear factor (erythroid-2 related) factor 2 activation, heme oxygenase-1 expression, and glutathione elevation in Chang human hepatocytes.

Inhibition of hepatocyte nuclear factor 1 and 4 alpha (HNF1 α and HNF4 α) as a mechanism of arsenic carcinogenesis.

Linkages between the life-history evolution of tropical and temperate birds and the resistance of cultured skin fibroblasts to oxidative and non-oxidative chemical injury.

Biotransformation of BDE-47 to potentially toxic metabolites is predominantly mediated by human CYP2B6.

Induction of apoptotic death and retardation of neuronal differentiation of human neural stem cells by sodium arsenite treatment.

Correlation between TCDD acute toxicity and aryl hydrocarbon receptor structure for different mammals.

A category approach to predicting the repeated-dose hepatotoxicity of allyl esters.

Evaluation of biomonitoring data from the CDC National Exposure Report in a risk assessment context: perspectives across chemicals.

TCDD inhibits heart regeneration in adult zebrafish.

Oxysterols modulate calcium signalling in the A7r5 aortic smooth muscle cell-line.

Role of pigment epithelium-derived factor (PEDF) in arsenic-induced cell apoptosis of liver and brain in a rat model.

Role of the yeast multidrug transporter Qdr2 in cation homeostasis and the oxidative stress response.

Testosterone protects female embryonic heart H9c2 cells against severe metabolic stress by activating estrogen receptors and up-regulating IES SUR2B.

Pesticide use and fatal injury among farmers in the Agricultural Health Study.

Predicting fish acute toxicity using a fish gill cell line-based toxicity assay.

Imaging imidazoline-I2 binding sites in porcine brain using 11C-BU99008.

Response of rice genotype to straighthead disease as influenced by arsenic level and water management practices in soil.

Aldo-keto reductases mediate constitutive and inducible protection against aldehyde toxicity in human neuroblastoma SH-SY5Y cells.

The impact of foliar boron sprays on reproductive biology and seed quality of black gram.

Identifying the cause of sediment toxicity in agricultural sediments: the role of pyrethroids and nine seldom-measured hydrophobic pesticides.

Functional recovery of odor representations in regenerated sensory inputs to the olfactory bulb.

Visible light alters yeast metabolic rhythms by inhibiting respiration.

Toxicity of polyamines and their metabolic products.

Identification of stable cytotoxic factors in the gas phase extract of cigarette smoke and pharmacological characterization of their cytotoxicity.

Differential responsiveness of cortical microtubule orientation to suppression of cell expansion among the developmental zones of *Arabidopsis thaliana* root apex.

A microfluidic device for continuous sensing of systemic acute toxicants in drinking water.

Glyphosate, pathways to modern diseases II: Celiac sprue and gluten intolerance.

Dmp53, basket and drICE gene knockdown and polyphenol gallic acid increase life span and locomotor activity in a Drosophila Parkinson's disease model.

Paraquat poisoning by skin absorption: Two case reports and a literature review.

Neuroprotective effect of Decalepis hamiltonii in paraquat-induced neurotoxicity in Drosophila melanogaster: biochemical and behavioral evidences.

Dose-dependent folic acid and memantine treatments promote synergistic or additive protection against $A\beta^{(25-35)}$ peptide-induced apoptosis in SH-SY5Y cells mediated by mitochondria stress-associated death signals.

Structure-activity relationship of selected meta- and para-hydroxylated non-dioxin like polychlorinated biphenyls: from single RyR1 channels to muscle dysfunction.

Rodent models of Parkinson's disease: beyond the motor symptomatology.

Characterization of bladder sensory neurons in the context of myelination, receptors for pain modulators, and acute responses to bladder inflammation.

The history of pyridinium oximes as nerve gas antidotes: the British contribution.

2,4-Dinitrophenol induces neural differentiation of murine embryonic stem cells.

Differential influences of various arsenic compounds on antioxidant defense system in liver and kidney of rats.

The aryl receptor inhibitor epigallocatechin-3-gallate protects INS-1E beta-cell line against acute dioxin toxicity.

Military risk factors for cognitive decline, dementia and Alzheimer's disease.

What do veterans service organizations' web sites say about tobacco control?

Gastrointestinal stromal tumors: a case-only analysis of single nucleotide polymorphisms and somatic mutations.

A case of occupational asthma in a plastic injection process worker.

670 nm light mitigates oxygen-induced degeneration in C57BL/6J mouse retina.

Impact assessment of agricultural inputs into a Mediterranean coastal lagoon (Mar Menor, SE Spain) on transplanted clams (*Ruditapes decussatus*) by biochemical and physiological responses.

Knockout of the aryl hydrocarbon receptor results in distinct hepatic and renal phenotypes in rats and mice.

Paraquat poisoning: experience in hospital taiping (year 2008 - october 2011).

Paraquat Exposure Up-regulates Cyclooxygenase-2 in the Lungs, Liver and Kidneys in Rats.

Mixed matrix hollow fiber membranes for removal of protein-bound toxins from human plasma.

Toxicogenomic evaluation of long-term hepatic effects of TCDD in immature, ovariectomized C57BL/6 mice.

p-Cresyl sulfate induces osteoblast dysfunction through activating JNK and p38 MAPK pathways.

Role of HO-1 in the arsenite-induced neurotoxicity in primary cultured cortical neurons.

Toxicogenomics-based identification of mechanisms for direct immunotoxicity.

Do biopesticides affect the demographic traits of a parasitoid wasp and its biocontrol services through sublethal effects?

Resveratrol stimulates mitochondrial bioenergetics to protect retinal pigment epithelial cells from oxidative damage.

Gene expression and pathologic alterations in juvenile rainbow trout due to chronic dietary TCDD exposure.

Maternal and early life arsenite exposure impairs neurodevelopment and increases the expression of PSA-NCAM in hippocampus of rat offspring.

2,4-dichlorophenol induces apoptosis in primary hepatocytes of grass carp (*Ctenopharyngodon idella*) through mitochondrial pathway.

Serum arylhydrocarbon receptor transactivating activity is elevated in type 2 diabetic patients with diabetic nephropathy.

[Effects of hemoperfusion on the patients with acute toxication of 2, 4-dinitrophenol].

A new in vivo model of pantothenate kinase-associated neurodegeneration reveals a surprising role for transcriptional regulation in pathogenesis.

The position of imidazopyridine and metabolic activation are pivotal factors in the antimutagenic activity of novel imidazo[1,2-a]pyridine derivatives.

Interaction of aldehydes derived from lipid peroxidation and membrane proteins.

Hyperglycaemia and oxidative stress upregulate HSP60 & HSP70 expression in HeLa cells.

The mortality and cancer experience of New Zealand Vietnam war veterans: a cohort study.

Paraquat poisoning: A case report and review of literature.

Acute toxicity of some synthetic cyanogens in rats: time-dependent cyanide generation and cytochrome oxidase inhibition in soft tissues after sub-lethal oral intoxication.

Dioxin-induced acute cardiac mitochondrial oxidative damage and increased activity of ATP-sensitive potassium channels in Wistar rats.

Plant regeneration via somatic embryogenesis and shoot organogenesis from immature cotyledons of *Camellia nitidissima* Chi.

Perinatal exposure to purity-controlled polychlorinated biphenyl 52, 138, or 180 alters toxicogenomic profiles in peripheral blood of rats after 4 months.

Spectrum of corrosive esophageal injury after intentional paraquat or glyphosate-surfactant herbicide ingestion.

Emerging causes of iron deficiency anemia refractory to oral iron supplementation.

Influence of GSTT1 Genetic Polymorphisms on Arsenic Metabolism.

Histopathological changes in the liver of rabbits exposed to high nitrate ingestion in drinking water.

Expression and activity of the Na⁺-K⁺ ATPase in ischemic injury of primary cultured astrocytes.

Transplantation of induced pluripotent stem cells without C-Myc attenuates retinal ischemia and reperfusion injury in rats.

Cell to organ: physiological, immunotoxic and oxidative stress responses of *Lamellidens marginalis* to inorganic arsenite.

Arsenic induces VL30 retrotransposition: the involvement of oxidative stress and heat-shock protein 70.

NMDA receptors in the lateral hypothalamus have an inhibitory influence on the tachycardiac response to acute restraint stress in rats.

Relative effect potency estimates of dioxin-like activity for dioxins, furans, and dioxin-like PCBs in adults based on two thyroid outcomes.

Compartmentalized oxidative stress in dopaminergic cell death induced by pesticides and complex I inhibitors: distinct roles of superoxide anion and superoxide dismutases.

Tissue distribution of dioxin-like compounds: potential impacts on systemic relative potency estimates.

Skeletal muscle-specific T-tubule protein STAC3 mediates voltage-induced Ca²⁺ release and contractility.

Gas signatures from *Escherichia coli* and *Escherichia coli*-inoculated human whole blood.

Microbial-mammalian cometabolites dominate the age-associated urinary metabolic phenotype in Taiwanese and American populations.

Statistically enhanced spectral counting approach to TCDD cardiac toxicity in the adult zebrafish heart.

MRI brain in monohalomethane toxic encephalopathy: A case report.

Protective effect of *Juglans nigra* on sodium arsenite-induced toxicity in rats.

Effects of sodium arsenite on neurite outgrowth and glutamate AMPA receptor expression in mouse cortical neurons.

Validation of estimates of past exposure to arsenic in drinking water using historical urinary arsenic concentrations.

Oxidative DNA damage after acute exposure to arsenite and monomethylarsonous acid in biomethylation-deficient human cells.

Sepiapterin reductase mediates chemical redox cycling in lung epithelial cells.

Effects of Zinc Sulfate Supplementation in Treatment of Iron Deficiency Anemia.

Urinary Arsenic Concentrations and their Associated Factors in Korean Adults.

Physiological roles of mycothiol in detoxification and tolerance to multiple poisonous chemicals in *Corynebacterium glutamicum*.

PCDD/Fs and DL-PCBs intake from fish caught in Polish fishing grounds in the Baltic Sea--characterizing the risk for consumers.

Dietary carnosine prevents early atherosclerotic lesion formation in apolipoprotein E-null mice.

Alteration of cell membrane proteoglycans impairs FSH receptor/Gs coupling and ERK activation through PP2A-dependent mechanisms in immature rat Sertoli cells.

Consumption of deep-fried foods and risk of prostate cancer.

Switchable skin window induced by optical clearing method for dermal blood flow imaging.

High efficiency secondary somatic embryogenesis in *Hovenia dulcis* Thunb. through solid and liquid cultures.

The protective effects of the proteasome inhibitor bortezomib (velcade) on ischemia-reperfusion injury in the rat retina.

Two-photon microscopy and fluorescence lifetime imaging of retinal pigment epithelial cells under oxidative stress.

Paraquat - A deadly poison: Report of a case and review.

Targeting ALDH1A1 to treat pigmentary disorders.

Loss of Neil3, the major DNA glycosylase activity for removal of hydantoins in single stranded DNA, reduces cellular proliferation and sensitizes cells to genotoxic stress.

Quantitative structural insight into human variegate porphyria disease.

Increased polyamines alter chromatin and stabilize autoantigens in autoimmune diseases.

Critical role of aldehydes in cigarette smoke-induced acute airway inflammation.

Application of the electronic nose technique to differentiation between model mixtures with COPD markers.

Genetic damage in soybean workers exposed to pesticides: evaluation with the comet and buccal micronucleus cytome assays.

The mitochondrial unfolded protein response activator ATF5-1 protects cells from inhibition of the mevalonate pathway.

p-cresol induces disruption of cardiomyocyte adherens junctions.

The effect of inorganic arsenic on endothelium-dependent relaxation: role of NADPH oxidase and hydrogen peroxide.

Toxicological profile of chlorophenols and their derivatives in the environment: the public health perspective.

[The gender-specific effect of maternal exposure to dioxin on fetal steroidogenesis in the adrenal gland].

Asymmetrical behavioral response towards two boron toxicants depends on the ant species (Hymenoptera: Formicidae).

Activation of aryl hydrocarbon receptor prolongs survival of fully mismatched cardiac allografts.

Determination of urinary 6-mercaptopurine and three of its metabolites by HPLC-UV coupled with the iodine-azide reaction.

Early membrane events induced by salicylic acid in motor cells of the *Mimosa pudica* pulvinus.

The dioxin receptor controls β 1 integrin activation in fibroblasts through a Cbp-Csk-Src pathway.

High temperature injury and auxin biosynthesis in microsporogenesis.

High-performance metabolic profiling with dual chromatography-Fourier-transform mass spectrometry (DC-FTMS) for study of the exposome.

Quenching of tryptophan fluorescence in the presence of 2,4-DNP, 2,6-DNP, 2,4-DNA and DNOC and their mechanism of toxicity.

TGF β signaling induces expression of Gadd45b in retinal ganglion cells.

Control of Panama disease of banana by rotating and intercropping with Chinese chive (*Allium tuberosum* Rottler): role of plant volatiles.

Sodium arsenite exposure inhibits AKT and Stat3 activation, suppresses self-renewal and induces apoptotic death of embryonic stem cells.

A novel colorimetric biosensor for monitoring and detecting acute toxicity in water.

Metabolic profiling of the impact of oligofructose-enriched inulin in Crohn's disease patients: a double-blinded randomized controlled trial.

Histopathological changes induced by paraquat on some tissues of gourami fish (*Trichogaster trichopterus*).

Trends in paraquat poisoning in Japan - viewed from surveys on clinical cases.

Therapeutic effects of smecta or smectite powder on rats with paraquat toxication.

Cytotoxic effects of p-cresol in renal epithelial tubular cells.

Binding interaction between (-)-epigallocatechin gallate causes impaired spreading of cancer cells on fibrinogen.

Ameliorative Effects of Acacia Honey against Sodium Arsenite-Induced Oxidative Stress in Some Viscera of Male Wistar Albino Rats.

Acute toxicity of triazine pesticides to juvenile signal crayfish (*Pacifastacus leniusculus*).

Grappling the high altitude for safe edible bamboo shoots with rich nutritional attributes and escaping cyanogenic toxicity.

Correlation between Serum Levels of Protein-Bound Uremic Toxins in Hemodialysis Patients Measured by LC/MS/MS.

Human adipose tissue derived stem cells promote liver regeneration in a rat model of toxic injury.

In vitro effects of TCDD, PCB126 and PCB153 on estrogen receptors, caspases and metalloproteinase-2 mRNA expression in the chicken shell gland.

From the tumor-inducing principle to plant biotechnology and its importance for society.

Human cell toxicogenomic analysis linking reactive oxygen species to the toxicity of monohaloacetic acid drinking water disinfection byproducts.

Polyamines and their metabolites as diagnostic markers of human diseases.

Bisphenol a in chronic kidney disease.

Glutathione in multiple sclerosis.

Cancer incidence in pulmonary vasculitis.

A simple and powerful approach for isolation of Arabidopsis mutants with increased tolerance to H₂O₂-induced cell death.

Role of lipid peroxidation-derived $\hat{\pm}$, $\hat{2}$ -unsaturated aldehydes in vascular dysfunction.

Nrf2 protection against liver injury produced by various hepatotoxicants.

Regulation of NF- $\hat{9}$ B-induced inflammatory signaling by lipid peroxidation-derived aldehydes.

A Systematic Review of Carcinogenic Outcomes and Potential Mechanisms from Exposure to 2,4-D and MCPA in the Environment.

Metabolic signatures of extreme longevity in northern Italian centenarians reveal a complex remodeling of lipids, amino acids, and gut microbiota metabolism.

A novel murine model to deplete hepatic stellate cells uncovers their role in amplifying liver damage in mice.

pH-dependent aquatic criteria for 2,4-dichlorophenol, 2,4,6-trichlorophenol and pentachlorophenol.

Enhanced expression of cystine/glutamate transporter in the lung caused by the oxidative-stress-inducing agent paraquat.

Therapeutic potential of intravenous Xuebijing on transforming growth factor beta1 and procollagen type III peptide in patients with acute paraquat poisoning.

Arboreal insects associated with herbicide-stressed *Pinus resinosa* and *Pinus sylvestris* used as *Sirex noctilio* trap trees in New York.

Paraquat-induced pulmonary fibrosis starts at an early stage of inflammation in rats.

Diurnal variation in probability of death following self-poisoning in Sri Lanka--evidence for chronotoxicity in humans.

Screening acute cytotoxicity biomarkers using a microalga as test organism.

Proteomic analysis of changes in protein expression in serum from animals exposed to paraquat.

The oxidative damage and inflammation caused by pesticides are reverted by lipoic acid in rat brain.

Dysregulated expression of secretogranin III is involved in neurotoxin-induced dopaminergic neuron apoptosis.

In vitro attenuation of acrolein-induced toxicity by phloretin, a phenolic compound from apple.

Comparison of chemical-induced changes in proliferation and apoptosis in human and mouse neuroprogenitor cells.

The changes of calretinin immunoreactivity in paraquat-induced nephrotoxic rats.

Pesticide use, immunologic conditions, and risk of non-Hodgkin lymphoma in Canadian men in six provinces.

Acute toxicity of commonly used forestry herbicide mixtures to *Ceriodaphnia dubia* and *Pimephales promelas*.

Ecotoxicological effects of Mikado and Viper on algae and daphnids.

The role of D-GADD45 in oxidative, thermal and genotoxic stress resistance.

Acrolein cytotoxicity in hepatocytes involves endoplasmic reticulum stress, mitochondrial dysfunction and oxidative stress.

Cigarette smoke and its component acrolein augment IL-8/CXCL8 mRNA stability via p38 MAPK/MK2 signaling in human pulmonary cells.

Toxicity of atrazine and nonylphenol in juvenile rainbow trout (*Oncorhynchus mykiss*): effects on general health, disease susceptibility and gene expression.

Traumatic brain injury, paraquat exposure, and their relationship to Parkinson disease.

[Parkinson's disease due to laboral exposition to paraquat].

[Clinical studies of dynamic changes on the renal injury indicators of acute paraquat poisoning].

[Effects of human umbilical cord mesenchymal stem cells in the treatment of paraquat-induced lung injury].

A closer look at GE corn findings.

Genetic modification of the association of paraquat and Parkinson's disease.

Long term toxicity of a Roundup herbicide and a Roundup-tolerant genetically modified maize.

Neuroprotective effects of tert-butylhydroquinone on paraquat-induced dopaminergic cell degeneration in C57BL/6 mice and in PC12 cells.

Haematology and blood chemistry changes in mice treated with terbuthylazine and its formulation Radazin TZ-50.

Does glyphosate impact on Cu uptake by, and toxicity to, the earthworm *Eisenia fetida*?

Biochemical and histological evaluation of kidney damage after sub-acute exposure to 2,4-dichlorophenoxyacetic herbicide in rats: involvement of oxidative stress.

Chaperone heat shock protein 90 mobilization and hydralazine cytoprotection against acrolein-induced carbonyl stress.

Changes in lymphocyte subsets in workers exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Atrazine promotes biochemical changes and DNA damage in a Neotropical fish species.

Recombinant adenovirus Ad-RUNrf2 reduces paraquat-induced A549 injury.

Comment on "Glyphosate impairs male offspring reproductive development by disrupting gonadotropin expression" by Romano et al. 2012.

Feasibility of the extended one-generation reproductive toxicity study (OECD 443).

Immunotoxicity induced by acute subtoxic doses of paraquat herbicide: implication of shifting cytokine gene expression toward T-helper (T(H))-17 phenotype.

Spermidine promotes stress resistance in *Drosophila melanogaster* through autophagy-dependent and -independent pathways.

Activation of transcription factor MEF2D by bis(3)-cognitin protects dopaminergic neurons and ameliorates Parkinsonian motor defects.

Phenolic antioxidant 2,6-di-tert-butyl-p-cresol (vitamin E synthetic analogue) does not inhibit 1,1'-dimethyl-4,4'-bipyridium dichloride (paraquat)-induced structural chromosomal damage in cultured leukocytes of the dark-spotted-frog *Pelophylax (Rana) nigromaculatus*.

Central nervous system damage due to acute paraquat poisoning: a neuroimaging study with 3.0 T MRI.

Innate immune response of silver catfish (*Rhamdia quelen*) exposed to atrazine.

Review of 2,4-dichlorophenoxyacetic acid (2,4-D) biomonitoring and epidemiology.

Nrf2 protects against diquat-induced liver and lung injury.

Overexpression of stanniocalcin-1 inhibits reactive oxygen species and renal ischemia/reperfusion injury in mice.

Paraquat induces lung alveolar epithelial cell apoptosis via Nrf-2-regulated mitochondrial dysfunction and ER stress.

Spectrum of toxic hepatitis following intentional paraquat ingestion: analysis of 187 cases.

Toxicity of trifluralin herbicide in a representative of the edaphic fauna: histopathology of the midgut of *Rhinocricus padbergi* (Diplopoda).

Combined exposure to Maneb and Paraquat alters transcriptional regulation of neurogenesis-related genes in mice models of Parkinson's disease.

Inhibition of aminoacylase 3 protects rat brain cortex neuronal cells from the toxicity of 4-hydroxy-2-nonenal mercapturate and 4-hydroxy-2-nonenal.

[Early continuous dialysis in acute glyphosate-surfactant poisoning].

[Influence factors for prognosis in patients with acute oral poisoning with paraquat].

[Experimental study on the therapeutic effect of C-phycoerythrin against pulmonary fibrosis induced by paraquat in rats].

[Optimal conditions of bone marrow mesenchymal stem cells on paraquat-induced acute lung injury in rats].

The time between paraquat ingestion and a negative dithionite urine test in an independent risk factor for death and organ failure in acute paraquat intoxication.

Effect of pirfenidone on pulmonary fibrosis due to paraquat poisoning in rats.

Antioxidant effects of selenium on lung injury in paraquat intoxicated rats.

Pathological and toxicological findings in glyphosate-surfactant herbicide fatality: a case report.

A survey of the protective effects of some commercially available antioxidant supplements in genetically and chemically induced models of oxidative stress in *Drosophila melanogaster*.

Acute exposure of a glyphosate-based herbicide affects the gills and liver of the Neotropical fish, *Piaractus mesopotamicus*.

Oxidative stress response in two representative bacteria exposed to atrazine.

Antioxidant effect of silymarin on paraquat-induced human lung adenocarcinoma A549 cell line.

Acute toxicity of herbicide formulations and chronic toxicity of technical-grade trifluralin to larval green frogs (*Lithobates clamitans*).

Resolution of abnormal fractional anisotropy of substantia nigra in organophosphate intoxication. C. Swinnen et al., *Acta Neurologica Belgica* (2011) 111:378.

A commercial formulation of glyphosate inhibits proliferation and differentiation to adipocytes and induces apoptosis in 3T3-L1 fibroblasts.

A step further toward glyphosate-induced epidermal cell death: involvement of mitochondrial and oxidative mechanisms.

Acute and chronic toxicity of Betanal(®)Expert and its active ingredients on nontarget aquatic organisms from different trophic levels.

Protective role of glutathione reductase in paraquat induced neurotoxicity.

5'-Aza-dC sensitizes paraquat toxic effects on PC12 cell.

HRMAS NMR as a tool to study metabolic responses in heart clam *Ruditapes decussatus* exposed to Roundup®.

Comparison of TRPA1-versus TRPV1-mediated cough in guinea pigs.

Drinking water obtained by nanofiltration from waters contaminated with glyphosate formulations: process evaluation by means of toxicity tests and studies on operating parameters.

Hepatic protein expression networks associated with masculinization in the female fathead minnow (*Pimephales promelas*).

Prior exposure to acrolein accelerates pulmonary inflammation in influenza A-infected mice.

[Effects of acetochlor on the photosynthetic and fluorescence characteristics and chloroplast structure of grape leaves].

Influence of 50-nm polystyrene particles in inducing cytotoxicity in mice co-injected with carbon tetrachloride, cisplatin, or paraquat.

[Therapeutic effects of epidermal growth factor (EGF) combined with plasma cryoprecipitate (CRYO) on the corneal injury induced by paraquat].

Prochelator BHAPI protects cells against paraquat-induced damage by ROS-triggered iron chelation.

Herbicide roundup intoxication: successful treatment with continuous renal replacement therapy.

Investigating the impact of chronic atrazine exposure on sexual development in zebrafish.

Impacts of low doses of pesticide mixtures on liver cell defence systems.

The protective effects of quercetin on the cytotoxicity of atrazine on rat Sertoli-germ cell co-culture.

Integration of epidemiology and animal neurotoxicity data for risk assessment.

The role of pentraxin-3 as a prognostic biomarker in paraquat poisoning.

Glucocorticoid with cyclophosphamide for paraquat-induced lung fibrosis.

Effects of glyphosate on the mineral content of glyphosate-resistant soybeans (*Glycine max*).

[Effects of acrolein on apoptosis of H9c2 cardiomyocytes with hypoxia/reoxygenation injury].

Nail injury and diquat exposure: forgotten but not gone.

In vitro cytotoxic effect of glyphosate mixture containing surfactants.

Acrolein effects in pulmonary cells: relevance to chronic obstructive pulmonary disease.

Kolaviron biflavonoids of *Garcinia kola* seeds protect atrazine-induced cytotoxicity in primary cultures of rat Leydig cells.

siRNA-mediated knock-down of NOX3: therapy for hearing loss?

Aquatic toxicity tests with substances that are poorly soluble in water and consequences for environmental risk assessment.

Acute contact toxicity test of insecticides (Cipermetrina 25, Lorsban 48E, Thionex 35) on honeybees in the southwestern zone of Uruguay.

Histopathological changes and antioxidant response in brain and kidney of common carp exposed to atrazine and chlorpyrifos.

Acute and chronic effects of atrazine and sodium dodecyl sulfate on the tropical freshwater cladoceran *Pseudosida ramosa*.

Interferon- γ plays a role in paraquat-induced neurodegeneration involving oxidative and proinflammatory pathways.

Efficacy of vitamin C against liver and kidney damage induced by paraquat toxicity.

[Expression of the 4-hydroxynonenal in lung tissue in rats with paraquat poisoned and the effect of ulinastatin].

[Effects of ulinastatin on myocardial injury induced by acute paraquat poisoning].

Responses of growth performance and tryptophan metabolism to oxidative stress induced by diquat in weaned pigs.

Methyl bromide exposure and cancer risk in the Agricultural Health Study.

Acute human glufosinate-containing herbicide poisoning.

BLTK1 murine Leydig cells: a novel steroidogenic model for evaluating the effects of reproductive and developmental toxicants.

Bark extract of *Bathysa cuspidata* attenuates extra-pulmonary acute lung injury induced by paraquat and reduces mortality in rats.

Hormones and endocrine-disrupting chemicals: low-dose effects and nonmonotonic dose responses.

Acute toxicity of butachlor and atrazine to freshwater green alga *Scenedesmus obliquus* and cladoceran *Daphnia carinata*.

Subchronic exposure to atrazine induces biochemical and histopathological changes in the gills of a Neotropical freshwater fish, *Prochilodus lineatus*.

Interactions between the root pathogen *Rhizoctonia solani* AG-8 and acetolactate-synthase-inhibiting herbicides in barley.

Paraquat application and respiratory health effects among South Korean farmers.

Contrasted effects of an oxidative challenge and α -melanocyte-stimulating hormone on cellular immune responsiveness: an experiment with red-legged partridges *Alectoris rufa*.

A tiered ecological risk assessment of three chlorophenols in Chinese surface waters.

Viral-toxin interactions and Parkinson's disease: poly I:C priming enhanced the neurodegenerative effects of paraquat.

Effects of RNA interference-induced Smad3 gene silencing on pulmonary fibrosis caused by paraquat in mice.

Successful treatment of patients with paraquat intoxication: three case reports and review of the literature.

Glyphosate induced cell death through apoptotic and autophagic mechanisms.

Effects of in vivo chronic exposure to pendimethalin/Prowl 400[®] on sanitary status and the immune system in rainbow trout (*Oncorhynchus mykiss*).

Sublethal effects of atrazine on embryo-larval development of *Rhinella arenarum* (Anura: Bufonidae).

Effect of chronic exposure to pendimethalin on the susceptibility of rainbow trout, *Oncorhynchus mykiss* L., to viral hemorrhagic septicemia virus (VHSV).

[Paraquat poisoning. Case report and overview].

Investigate the chronic neurotoxic effects of diquat.

Cytotoxic and DNA-damaging properties of glyphosate and Roundup in human-derived buccal epithelial cells.

Reactive oxygen species formation and cell death in catalase-deficient tobacco leaf discs exposed to paraquat.

Overexpression of TFAM, NRF-1 and myr-AKT protects the MPP(+)-induced mitochondrial dysfunctions in neuronal cells.

Resveratrol potentiates cytochrome P450 2 d22-mediated neuroprotection in maneb- and paraquat-induced parkinsonism in the mouse.

[The relationship between HIF-1 α expression and the early lung fibrosis in rats with acute paraquat poisoning].

[The effects of Nrf2 gene expression induced by RU486 at different doses on A549 cell damage induced by paraquat].

Surveying of pollen-mediated crop-to-crop gene flow from a wheat field trial as a biosafety measure.

Global impact of biotech crops: environmental effects, 1996-2010.

Superoxide dismutase activity of *Helicobacter pylori* per se from 158 clinical isolates and the characteristics.

Comparative effects of the herbicides chlortoluron and mesotrione on freshwater microalgae.

Animal models of Parkinson's disease.

Copper and the herbicide atrazine impair the stress response of the freshwater fish *Prochilodus lineatus*.

Role of secondary mediators in caffeine-mediated neuroprotection in maneb- and paraquat-induced Parkinson's disease phenotype in the mouse.

Early cytotoxic and genotoxic effects of atrazine on Wistar rat liver: a morphological, immunohistochemical, biochemical, and molecular study.

Relative toxicity of the components of the original formulation of Roundup to five North American anurans.

Glyphosate impairs male offspring reproductive development by disrupting gonadotropin expression.

Melatonin suppresses acrolein-induced IL-8 production in human pulmonary fibroblasts.

Extension of *Drosophila* lifespan by *Rosa damascena* associated with an increased sensitivity to heat.

Exposure to glyphosate- and/or Mn/Zn-ethylene-bis-dithiocarbamate-containing pesticides leads to degeneration of $\hat{1}^3$ -aminobutyric acid and dopamine neurons in *Caenorhabditis elegans*.

Minocycline prevents paraquat-induced cell death through attenuating endoplasmic reticulum stress and mitochondrial dysfunction.

[Presentation of a case of Paraquat poisoning].

[The experimental study of therapeutical effects of KANGFUXINYE on upper gastrointestinal injury induced by paraquat in rats].

[Experimental anticoagulant therapy of acute lung injury induced by paraquat].

Effects of short-term sodium chlorate exposure on pigs.

Astrocyte mediated protection of fetal cerebral cortical neurons from rotenone and paraquat.

Effect of chronic exposure to simazine on oxidative stress and antioxidant response in common carp (*Cyprinus carpio* L.).

A glyphosate-based herbicide induces necrosis and apoptosis in mature rat testicular cells in vitro, and testosterone decrease at lower levels.

Arsenic-induced straighthead: an impending threat to sustainable rice production in South and South-East Asia!

Acute and 28-day repeated dose toxicology studies in mice with aryloxyalkanoate dioxygenase (AAD-1) protein expressed in 2,4-D tolerant DAS-40278-9 maize.

Paraquat and Parkinson's disease: an overview of the epidemiology and a review of two recent studies.

Toxicity of pentachlorophenol to native aquatic species in the Yangtze River.

Oxidative stress induced by 2,4-phenoxyacetic acid in liver of female rats and their progeny: biochemical and histopathological studies.

Glutathione s-transferase omega 1 activity is sufficient to suppress neurodegeneration in a *Drosophila* model of Parkinson disease.

Involvement of NADPH oxidase and glutathione in zinc-induced dopaminergic neurodegeneration in rats: similarity with paraquat neurotoxicity.

Schedule for rating disabilities; AL amyloidosis (primary amyloidosis). Final rule.

Augmented glutathione synthesis decreases acrolein toxicity.

[Effects of hemoperfusion on oxidative stress, matrix metalloproteinases and their inhibitors in acute paraquat poisoning rabbits].

[Toxicity effects of Rac- and S-metolachlor on two algae].

Acute oral poisoning due to chloracetanilide herbicides.

Glyphosate-surfactant herbicide products containing glyphosate potassium salt can cause fatal hyperkalemia if ingested in massive amounts.

CHO cells expressing the human Pâ,...-ATPase ATP13A2 are more sensitive to the toxic effects of herbicide paraquat.

Blueberry extract prolongs lifespan of *Drosophila melanogaster*.

Enantioselective toxicity of metolachlor to *Scenedesmus obliquus* in the presence of cyclodextrins.

Reactive oxygen species are not involved in the onset of age-related memory impairment in *Drosophila*.

Hypercholesterolemia and oxidative stress inhibit endothelial cell healing after arterial injury.

Effects of long-term exposure to simazine in real concentrations on common carp (*Cyprinus carpio* L.).

Plasma dioxin levels and cause-specific mortality in an occupational cohort of workers exposed to chlorophenoxy herbicides, chlorophenols and contaminants.

Cognitive impairment and increased AÎ² levels induced by paraquat exposure are attenuated by enhanced removal of mitochondrial H(2)O(2).

Protective effect of methylprednisolone on paraquat-induced A549 cell cytotoxicity via induction of efflux transporter, P-glycoprotein expression.

Genotoxicity of diuron and glyphosate in oyster spermatozoa and embryos.

Phytotoxicity testing for herbicide regulation: shortcomings in relation to biodiversity and ecosystem services in agrarian systems.

Acute toxicity of Roundup and carbosulfan to the Thai fairy shrimp, *Branchinella thailandensis*.

Effect of chronic exposure to prometryne on oxidative stress and antioxidant response in early life stages of common carp (*Cyprinus carpio* L.).

Oxidative stress parameters in early developmental stages of common carp (*Cyprinus carpio* L.) after subchronic exposure to terbuthylazine and metribuzin.

The effects of subchronic exposure to terbuthylazine on zebrafish.

Effects of low-concentrations of simazine on early life stages of common carp (*Cyprinus carpio* L.).

Intrastriatal pre-treatment with L-NAME protects rats from diquat neurotoxicity.

Sequential organ failure assessment score can predict mortality in patients with paraquat intoxication.

Effects of subchronic exposure to atrazine on zebrafish (*Danio rerio*).

Risk and prognostic factors of inpatient mortality associated with unintentional insecticide and herbicide poisonings: a retrospective cohort study.

Disturbed relaxin signaling pathway and testicular dysfunction in mouse offspring upon maternal exposure to simazine.

The value of plasma paraquat concentration in predicting therapeutic effects of haemoperfusion in patients with acute paraquat poisoning.

Inhibition of TDP-43 accumulation by bis(thiosemicarbazonato)-copper complexes.

The effects of subchronic exposure to metribuzin on *Danio rerio*.

Isolation, structural elucidation, and neuroprotective effects of iridoids from *Valeriana jatamansi*.

Acrolein induces endoplasmic reticulum stress and causes airspace enlargement.

The effects of subchronic exposure to terbuthylazine on early developmental stages of common carp.

Concordant signaling pathways produced by pesticide exposure in mice correspond to pathways identified in human Parkinson's disease.

Lipid peroxidation in the freshwater shrimp *Caridina nilotica* as a biomarker of Roundup(®) herbicide pollution of freshwater systems in South Africa.

Genome-wide association analysis of oxidative stress resistance in *Drosophila melanogaster*.

Toxicity evaluation of glyphosate agrochemical components using Japanese medaka (*Oryzias latipes*) and DNA microarray gene expression analysis.

Developmental exposure to diuron causes splenotoxicity in male Sprague-Dawley rat pups.

Endoplasmic reticulum stress impairs insulin signaling through mitochondrial damage in SH-SY5Y cells.

Effect of chronic pesticide exposure in farm workers of a Mexico community.

Paraquat, but not maneb, induces synucleinopathy and tauopathy in striata of mice through inhibition of proteasomal and autophagic pathways.

Genetic dissection of strain dependent paraquat-induced neurodegeneration in the substantia nigra pars compacta.

[Parasitic wasps, a model for studying male subfertility].

Reduction of mitoferrin results in abnormal development and extended lifespan in *Caenorhabditis elegans*.

Arterial lactate as a predictor of mortality in emergency department patients with paraquat intoxication.

Consideration of reactivity to acute fish toxicity of α,β -unsaturated carbonyl ketones and aldehydes.

Acute renal failure following penoxsulam poisoning.

4-iodophenyl isothiocyanate: a neuroprotective compound.

A longer tracheal occlusion period results in increased lung growth in the nitrofen rat model.

Prevention of paraquat-induced apoptosis in human neuronal SH-SY5Y cells by lipocalin-type prostaglandin D synthase.

Effect of bark extract of *Bathysa cuspidata* on hepatic oxidative damage and blood glucose kinetics in rats exposed to paraquat.

Chronic herbicide exposures affect the sensitivity and community structure of tropical benthic microalgae.

Glyphosate as an acetylcholinesterase inhibitor in *Cnesterodon decemmaculatus*.

Standardized extracts of *Bacopa monniera* protect against MPP⁺- and paraquat-induced toxicity by modulating mitochondrial activities, proteasomal functions, and redox pathways.

Effects of atrazine on the gill cells and ionic balance in a neotropical fish, *Prochilodus lineatus*.

Hypolipidemic and antioxidant activities of virgin olive oil and its fractions in 2,4-dichlorophenoxyacetic acid-treated rats.

The tobacco smoke component, acrolein, suppresses innate macrophage responses by direct alkylation of c-Jun N-terminal kinase.

Exposure to a commercial glyphosate formulation (Roundup®) alters normal gill and liver histology and affects male sexual activity of *Jenynsia multidentata* (Anablepidae, Cyprinodontiformes).

Proteomic analysis of hepatic tissue in adult female zebrafish (*Danio rerio*) exposed to atrazine.

Tissue biochemical alterations of *Cyprinus carpio* exposed to commercial herbicide containing clomazone under rice-field conditions.

Whiskey congeners suppress LPS/IFN γ -induced NO production in murine macrophage RAW 264 cells by inducing heme oxygenase-1 expression.

Black rice extract extends the lifespan of fruit flies.

[Effect of subchronic realgar exposure on Glu and Gln in infant rat brain].

Elevated neutrophil elastase and acrolein-protein adducts are associated with W256 regression.

A possible role of acrolein in diabetic retinopathy: involvement of a VEGF/TGF β ² signaling pathway of the retinal pigment epithelium in hyperglycemia.

Agricultural effects on amphibian parasitism: importance of general habitat perturbations and parasite life cycles.

Acquiring transgenic tobacco plants with insect resistance and glyphosate tolerance by fusion gene transformation.

Whole genome expression profile in neuroblastoma cells exposed to 1-methyl-4-phenylpyridine.

Transient receptor potential channels mediate the tussive response to prostaglandin E2 and bradykinin.

Δ^9 -tetrahydrocannabinol (Δ^9 -THC) exerts a direct neuroprotective effect in a human cell culture model of Parkinson's disease.

Proton pumping ATPase mediated fungicidal activity of two essential oil components.

Methylation capacity of arsenic and skin lesions in smelter plant workers.

The comparison of Δ^9 -bromo-4-chlorocinnamaldehyde and cinnamaldehyde on coxsackie virus B3-induced myocarditis and their mechanisms.

Aminotriazole attenuated carbon tetrachloride-induced oxidative liver injury in mice.

GhWRKY15, a member of the WRKY transcription factor family identified from cotton (*Gossypium hirsutum* L.), is involved in disease resistance and plant development.

GC-MS analysis and screening of antidiabetic, antioxidant and hypolipidemic potential of Cinnamomum tamala oil in streptozotocin induced diabetes mellitus in rats.

[Effect of acrolein exposure on the percentage of CD4⁺CD25⁺ regulatory T cells and expression of transcription factor Foxp3 in asthmatic rats].

Potential use of nitrate reductase as a biomarker for the identification of active and dormant inhibitors of *Mycobacterium tuberculosis* in a THP1 infection model.

Attenuation of mouse somatic and emotional inflammatory pain by hydralazine through scavenging acrolein and inhibiting neuronal activation.

Resveratrol inhibits paraquat-induced oxidative stress and fibrogenic response by activating the nuclear factor erythroid 2-related factor 2 pathway.

TRPA1 is functionally expressed in melanoma cells but is not critical for impaired proliferation caused by allyl isothiocyanate or cinnamaldehyde.

Neurotoxin-based models of Parkinson's disease.

Protein carbonylation in a murine model for early alcoholic liver disease.

Targeting acetyl-CoA carboxylases: small molecular inhibitors and their therapeutic potential.

Effect of xylanase and a blend of essential oils on performance and Salmonella colonization of broiler chickens challenged with Salmonella Heidelberg.

Redox modification of Akt mediated by the dopaminergic neurotoxin MPTP, in mouse midbrain, leads to down-regulation of pAkt.

Anticandidal activity of curcumin and methyl cinnamaldehyde.

Expression of beet yellows virus coat protein cDNA to create transgenic resistance in plants.

Quantification of paraquat in postmortem samples by gas chromatography-ion trap mass spectrometry and review of the literature.

mIGF-1/JNK1/SirT1 signaling confers protection against oxidative stress in the heart.

2-methoxycinnamaldehyde from Cinnamomum cassia reduces rat myocardial ischemia and reperfusion injury in vivo due to HO-1 induction.

Increased protein-conjugated acrolein and amyloid- β 40/42 ratio in plasma of patients with mild cognitive impairment and Alzheimer's disease.

Acute intoxication with the adjuvant itself for Gramoxone INTEON.

5-Azacytidine combined with 2,4-D improves somatic embryogenesis of *Acca sellowiana* (O. Berg) Burret by means of changes in global DNA methylation levels.

Endogenous hydrogen peroxide in the hypothalamic paraventricular nucleus regulates sympathetic nerve activity responses to L-glutamate.

Glyphosate effects on plant mineral nutrition, crop rhizosphere microbiota, and plant disease in glyphosate-resistant crops.

Oxidative stress provokes distinct transcriptional responses in the stress-tolerant *atr7* and stress-sensitive *loh2* *Arabidopsis thaliana* mutants as revealed by multi-parallel quantitative real-time PCR analysis of ROS marker and antioxidant genes.

Electrophilic aldehydes generated by sperm metabolism activate mitochondrial reactive oxygen species generation and apoptosis by targeting succinate dehydrogenase.

Role of oxidative stress in persister tolerance.

Temperature-dependent effect of sublethal levels of cinnamaldehyde on viability and morphology of *Escherichia coli*.

Alterations in bioenergetic function induced by Parkinson's disease mimetic compounds: lack of correlation with superoxide generation.

Reactive carbonyl compounds (RCCs) cause aggregation and dysfunction of fibrinogen.

Differential effects of Bcl-2 and caspases on mitochondrial permeabilization during endogenous or exogenous reactive oxygen species-induced cell death: a comparative study of H₂O₂, paraquat, t-BHP, etoposide and TNF- α -induced cell death.

Quantitative analysis of acrolein-specific adducts generated during lipid peroxidation-modification of proteins in vitro: identification of N(ε)-(3-propanal)histidine as the major adduct.

Cystic fibrosis transmembrane conductance regulator modulation by the tobacco smoke toxin acrolein.

Endogenous acetaldehyde toxicity during antral follicular development in the mouse ovary.

Molecular effects of activated BV-2 microglia by mitochondrial toxin 1-methyl-4-phenylpyridinium.

Impairment of cellulose- and cellobiose-degrading soil Bacteria by two acidic herbicides.

Thioredoxin reductase deficiency potentiates oxidative stress, mitochondrial dysfunction and cell death in dopaminergic cells.

Induction of tumor cell death through targeting tubulin and evoking dysregulation of cell cycle regulatory proteins by multifunctional cinnamaldehydes.

TRPA1 is functionally expressed primarily by IB4-binding, non-peptidergic mouse and rat sensory neurons.

Increased expression of SVCT2 in a new mouse model raises ascorbic acid in tissues and protects against paraquat-induced oxidative damage in lung.

Cellular toxicity of surfactants used as herbicide additives.

Modulation of the metabolism of airborne pollutants by glucoraphanin-rich and sulforaphane-rich broccoli sprout beverages in Qidong, China.

Limited uptake, translocation and enhanced metabolic degradation contribute to glyphosate tolerance in *Mucuna pruriens* var. *utilis* plants.

Impairment of carbon metabolism induced by the herbicide glyphosate.

The cyclophosphamide metabolite, acrolein, induces cytoskeletal changes and oxidative stress in Sertoli cells.

Effects of a wheat bran extract containing arabinoxylan oligosaccharides on gastrointestinal health parameters in healthy adult human volunteers: a double-blind, randomised, placebo-controlled, cross-over trial.

Arsenic urinary speciation in Mthfr deficient mice injected with sodium arsenate.

Glutaredoxin 1 protects dopaminergic cells by increased protein glutathionylation in experimental Parkinson's disease.

Mitochondrial function is involved in regulation of cholesterol efflux to apolipoprotein (apo)A-I from murine RAW 264.7 macrophages.

Combined iron and zinc supplementation improves haematologic status of pregnant women in Upper West Region of Ghana.

Fortifying baladi bread in Egypt: reaching more than 50 million people through the subsidy program.

Differentially expressed genes and pathways induced by organophosphates in human neuroblastoma cells.

Environmental toxicants as extrinsic epigenetic factors for parkinsonism: studies employing transgenic *C. elegans* model.

Influence of serum in hemodialysis patients on the expression of intestinal and hepatic transporters for the excretion of pravastatin.

Pesticide exposure in children.

Silibinin ameliorates arsenic induced nephrotoxicity by abrogation of oxidative stress, inflammation and apoptosis in rats.

Toxicity of untreated and ozone-treated oil sands process-affected water (OSPW) to early life stages of the fathead minnow (*Pimephales promelas*).

High-resolution genome-wide mapping of AHR and ARNT binding sites by ChIP-Seq.

Autophagy is a cell self-protective mechanism against arsenic-induced cell transformation.

Effect of iron supplementation on development of iron deficiency anemia in breastfed infants.

Animal models used to examine the role of the environment in the development of autoimmune disease: findings from an NIEHS Expert Panel Workshop.

Factors affecting outcomes of pilocarpine treatment in a mouse model of temporal lobe epilepsy.

The epidemiology of chemical eye exposures reported to the Victorian Poisons Information Centre.

Activation of the aryl hydrocarbon receptor reduces the number of precursor and effector T cells, but preserves thymic CD4+CD25+Foxp3+ regulatory T cells.

Repeated dose toxicity and relative potency of 1,2,3,4,6,7-hexachloronaphthalene (PCN 66) 1,2,3,5,6,7-hexachloronaphthalene (PCN 67) compared to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) for induction of CYP1A1, CYP1A2 and thymic atrophy in female Harlan Sprague-Dawley rats.

Liberation of copper from amyloid plaques: making a risk factor useful for Alzheimer's disease treatment.

Metabolomics identifies an inflammatory cascade involved in dioxin- and diet-induced steatohepatitis.

Polychlorinated biphenyls in prospectively collected serum and Parkinson's disease risk.

Reduction of Na⁺, K⁺-ATPase activity and expression in cerebral cortex of glutaryl-CoA dehydrogenase deficient mice: a possible mechanism for brain injury in glutaric aciduria type I.

The role of protein-bound uremic toxins on peripheral artery disease and vascular access failure in patients on hemodialysis.

Decaying mouse volatiles perceived by *Calliphora vicina* Rob.-Desv.

A randomized controlled trial of oral heme iron polypeptide versus oral iron supplementation for the treatment of anaemia in peritoneal dialysis patients: HEMATOCRIT trial.

The epigenetic effects of a high prenatal folate intake in male mouse fetuses exposed in utero to arsenic.

Enhanced apoptosis in retinal pigment epithelium under inflammatory stimuli and oxidative stress.

Invited review: Efficacy, metabolism, and toxic responses to chlorate salts in food and laboratory animals.

Predictors of cure, amputation and follow-up dropout among patients with mycetoma seen at the Mycetoma Research Centre, University of Khartoum, Sudan.

Lack of an association human dioxin detoxification gene polymorphisms with endometriosis in Japanese women: results of a pilot study.

Environmental exposure to dioxin-like compounds and the mortality risk in the U.S. population.

Ameliorating effects of quercetin and chrysin on 2,3,7,8-tetrachlorodibenzo- p-dioxin-induced nephrotoxicity in rats.

Necrosis and apoptosis of renal tubular epithelial cells in rats exposed to 3-methyl-4-nitrophenol.

Mutagenicity and antimutagenicity of (-)-hinokinin a trypanosomicidal compound measured by Salmonella microsome and comet assays.

Telmisartan treatment attenuates arsenic-induced hepatotoxicity in mice.

NADPH oxidase 1 mediates α -synucleinopathy in Parkinson's disease.

Arsenite-induced autophagy is associated with proteotoxicity in human lymphoblastoid cells.

Background exposure to persistent organic pollutants predicts stroke in the elderly.

Engineering of blended nanoparticle platform for delivery of mitochondria-acting therapeutics.

Bath salt intoxication causing acute kidney injury requiring hemodialysis.

[Chronic central nervous system effects of pesticides: state-of-the-art].

Importance of riboflavin kinase in the pathogenesis of stroke.

Adverse alterations in mitochondrial function contribute to type 2 diabetes mellitus-related endothelial dysfunction in humans.

Quantification of p-cresol sulphate in human plasma by selected reaction monitoring.

Sodium arsenite-induced abnormalities in expressions of Caveolin-1, eNOS, IKK β , and COX-2 in SV-40 immortalized human uroepithelial cells and in urothelial carcinomas.

Changes in the synaptic structure of hippocampal neurons and impairment of spatial memory in a rat model caused by chronic arsenite exposure.

Prenatal exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin produces alterations in cortical neuron development and a long-term dysfunction of glutamate transmission in rat cerebral cortex.

Progesterone-dependent regulation of endometrial cannabinoid receptor type 1 (CB1-R) expression is disrupted in women with endometriosis and in isolated stromal cells exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Exposure to environmental toxins and the risk of sporadic motor neuron disease: an expanded Australian case-control study.

Pesticide exposure and Parkinson's disease: epidemiological evidence of association.

Switching iron-deficient whole blood donors to plateletpheresis.

Milk-based cornstarch porridge fortified with iron is effective in reducing anemia: a randomized, double-blind, placebo-controlled trial.

A weight-of-evidence review of colorectal cancer in pesticide applicators: the agricultural health study and other epidemiologic studies.

Eccrine porocarcinoma with carcinomatous lymphangitis in a patient with history of arsenic exposure: a case report.

Development of brucine-loaded microsphere/thermally responsive hydrogel combination system for intra-articular administration.

4-Chloropropofol enhances chloride currents in human hyperekplexic and artificial mutated glycine receptors.

Suicidal sodium azide intoxication: An analytical challenge based on a rare case.

Mild uncoupling of respiration and phosphorylation as a mechanism providing nephro- and neuroprotective effects of penetrating cations of the SkQ family.

[Human biomonitoring and variation of haematic parameters in a population exposed to PCB and dioxin near a steel plant in the lower Susa Valley].

Mental health in Alberta grain farmers using pesticides over many years.

Expression and purification of coronavirus envelope proteins using a modified \hat{I}^2 -barrel construct.

Treatment of mild non-chemotherapy-induced iron deficiency anemia in cancer patients: comparison between oral ferrous bisglycinate chelate and ferrous sulfate.

Subchronic feeding study of stacked trait genetically-modified soybean (3 \hat{A} ~5423 \hat{A} — 40-3-2) in Sprague-Dawley rats.

Mortality study of chemical workers exposed to dioxins: follow-up 23 years after chemical plant closure.

Relationship between respiration deficiency and azole resistance in clinical *Candida glabrata*.

Cancer incidence in a chlorochemical plant in Is \hat{A} ''re, France: an occupational cohort study, 1979-2002.

Dimethyl disulfide is an induced systemic resistance elicitor produced by *Bacillus cereus* C1L.

Photoinactivation of cell-free human immunodeficiency virus by hematoporphyrin monomethyl ether.

Ameliorative effect of docosahexaenoic acid on 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced histological changes, oxidative stress, and DNA damage in rat liver.

Effect of iron supplementation on fatigue in nonanemic menstruating women with low ferritin: a randomized controlled trial.

[Statement of the Polish Gynecological Society Expert Group on the use of ellen probiotic tampon].

EDTA-dependent pseudothrombocytopenia: further insights and recommendations for prevention of a clinically threatening artifact.

Serum from methimazole-treated patients induces activation of aryl hydrocarbon receptor, a transcription factor that binds to dioxin-response elements.

Glutamine suppresses dinitrophenol fluorobenzene-induced allergic contact dermatitis and itching: inhibition of contact dermatitis by glutamine.

Urinary total arsenic and 8-hydroxydeoxyguanosine are associated with renal cell carcinoma in an area without obvious arsenic exposure.

Mechanistic exploration of AhR-mediated host protection against *Streptococcus pneumoniae* infection.

Different biosynthetic pathways to fosfomycin in *Pseudomonas syringae* and *Streptomyces* species.

Optimization of a histopathological biomarker for sphingomyelin accumulation in acid sphingomyelinase deficiency.

A NUP98-HOXD13 leukemic fusion gene leads to impaired class switch recombination and antibody production.

Hepatic microRNA profiles offer predictive and mechanistic insights after exposure to genotoxic and epigenetic hepatocarcinogens.

FICZ, a tryptophan photoproduct, suppresses pulmonary eosinophilia and Th2-type cytokine production in a mouse model of ovalbumin-induced allergic asthma.

In vivo regulation of the heme oxygenase-1 gene in humanized transgenic mice.

Fetal exposure to propoxur and abnormal child neurodevelopment at 2 years of age.

Modulatory effect of L-glutamine on 2,3,7,8 tetrachlorodibenzo-p-dioxin-induced liver injury in rats.

Mitochondrial inhibition in rat retinal cell cultures as a model of metabolic compromise: mechanisms of injury and neuroprotection.

Long-lasting transcriptional refractoriness triggered by a single exposure to 1-methyl-4-phenyl-1,2,3,6-tetrahydropyrimidine.

Yusho: 43 years later.

Increased protein carbonylation and decreased antioxidant status in anemic H. pylori infected patients: effect of treatment.

Oxidative stress fuels Trypanosoma cruzi infection in mice.

Prenatal retinoic acid improves lung vascularization and VEGF expression in CDH rat.

Preconditioning induces tolerance by suppressing glutamate release in neuron culture ischemia models.

2,3,7,8-Tetrachlorodibenzo-p-dioxin induces a proteomic pattern that defines cleft palate formation in mice.

Metabolite profiling of plasma and urine from rats with TNBS-induced acute colitis using UPLC-ESI-QTOF-MS-based metabolomics--a pilot study.

Interaction between two sulfate-conjugated uremic toxins, p-cresyl sulfate and indoxyl sulfate, during binding with human serum albumin.

Non-dioxin-like AhR ligands in a mouse peanut allergy model.

Arsenic methylation, GSTO1 polymorphisms, and metabolic syndrome in an arseniasis endemic area of southwestern Taiwan.

Iron replacement therapy in the routine management of blood donors.

Occupational cancer in Britain. Exposure assessment methodology.

Oxidative stress inhibits axonal transport: implications for neurodegenerative diseases.

Sodium arsenite down-regulates the expression of X-linked inhibitor of apoptosis protein via translational and post-translational mechanisms in hepatocellular carcinoma.

Control of Giardia infections with ronidazole and intensive hygiene management in a dog kennel.

Oral administration of ferrous sulfate, but not of iron polymaltose or sodium iron ethylenediaminetetraacetic acid (NaFeEDTA), results in a substantial increase of non-transferrin-bound iron in healthy iron-adequate men.

Mixture of ferric sodium ethylenediaminetetraacetate (NaFeEDTA) and ferrous sulfate: an effective iron fortificant for complementary foods for young Chinese children.

[Effects of A-solution on halitosis and oral status in preoperative NPO patients].

A review of the role of lymphoma markers and occupational and environmental exposures.

Pesticide exposure and amyotrophic lateral sclerosis.

Quantitative imaging of arsenic and its species in goat following long term oral exposure.

Combination of Rad001 (everolimus) and propachlor synergistically induces apoptosis through enhanced autophagy in prostate cancer cells.

New agents promote neuroprotection in Parkinson's disease models.

Antenatal imatinib treatment reduces pulmonary vascular remodeling in a rat model of congenital diaphragmatic hernia.

Circulating microRNA-122 as a potential biomarker for liver injury.

Evaluation of paclitaxel/carboplatin in a dose dense or weekly regimen in 66 patients with recurrent or primary metastatic cervical cancer.

The impact of ferritin fluctuations on stable hemoglobin levels in hemodialysis patients.

Gilbert syndrome redefined: a complex genetic haplotype influences the regulation of glucuronidation.

Iron requirements based upon iron absorption tests are poorly predicted by haematological indices in patients with inactive inflammatory bowel disease.

Micronutrient status in lactating mothers before and after introduction of fortified flour: cross-sectional surveys in Maela refugee camp.

Adipose tissue and bone marrow-derived stem cells react similarly in an ischaemia-like microenvironment.

Quercetin prevents 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced testicular damage in rats.

Aryl hydrocarbon receptor controls regulatory CD4⁺ T cell function.

Does hyperoxia selection cause adaptive alterations of mitochondrial electron transport chain activity leading to a reduction of superoxide production?

Alterations of peroxisome proliferator-activated receptor γ and monocyte chemoattractant protein 1 gene expression in the nitrofen-induced hypoplastic lung.

Aryl hydrocarbon receptor-mediated induction of EBV reactivation as a risk factor for Sjögren's syndrome.

Inorganic arsenic and basal cell carcinoma in areas of Hungary, Romania, and Slovakia: a case-control study.

Sodium arsenite \pm hyperthermia sensitizes p53-expressing human ovarian cancer cells to cisplatin by modulating platinum-DNA damage responses.

A novel aquaporin 3 in killifish (*Fundulus heteroclitus*) is not an arsenic channel.

Uremic solutes from colon microbes.

The aryl hydrocarbon receptor contributes to the proliferation of human medulloblastoma cells.

Treatment with endotracheal therapeutics after sarin microinstillation inhalation exposure increases blood cholinesterase levels in guinea pigs.

Suboptimal response to ferrous sulfate in iron-deficient patients taking omeprazole.

A randomized controlled trial of intravenous or oral iron for posttransplant anemia in kidney transplantation.

Environment and T regulatory cells in allergy.

A novel method for the rapid determination of beta-amyloid toxicity on acute hippocampal slices using MTT and LDH assays.

[Plummer-Vinson syndrome: report of a case and review of literature].

A phytochemical approach to experimental metabolic syndrome-associated renal damage and oxidative stress.

Concomitant induction of heme oxygenase-1 attenuates the cytotoxicity of arsenic species from lumbricus extract in human liver HepG2 cells.

Serum total p-cresol and indoxyl sulfate correlated with stage of chronic kidney disease in renal transplant recipients.

Cross-regulations among NRFs and KEAP1 and effects of their silencing on arsenic-induced antioxidant response and cytotoxicity in human keratinocytes.

2,3,7,8-tetrachlorodibenzo-p-dioxin induces transcriptional activity of the human polymorphic hs1,2 enhancer of the 3'Igh regulatory region.

Evaluation of oral iron treatment in pediatric restless legs syndrome (RLS).

Aryl hydrocarbon receptor (AhR) regulates silica-induced inflammation but not fibrosis.

Inflammatory pathway genes belong to major targets of persistent organic pollutants in adipose cells.

Suppression of Klotho expression by protein-bound uremic toxins is associated with increased DNA methyltransferase expression and DNA hypermethylation.

Selectively increasing the clearance of protein-bound uremic solutes.

Isolation and identification of C-19 fatty acids with anti-tumor activity from the spores of Ganoderma lucidum (reishi mushroom).

Chronic low-level arsenite exposure through drinking water increases blood pressure and promotes concentric left ventricular hypertrophy in female mice.

A unique library of myogenic cells from facioscapulohumeral muscular dystrophy subjects and unaffected relatives: family, disease and cell function.

A metabonomic study of biochemical changes characteristic of genetically hypertensive rats based on (1)H NMR spectroscopic urinalysis.

Narrow-band UVB irradiation stimulates the migration and functional development of vitiligo-IgG antibodies-treated pigment cells.

Neuroprotection of kaempferol by autophagy in models of rotenone-mediated acute toxicity: possible implications for Parkinson's disease.

Local fetal lung renin-angiotensin system as a target to treat congenital diaphragmatic hernia.

[The pharmacological treatment of obesity: past, present and future].

Induction of mitochondrial uncoupling enhances VEGF β , α , ϵ but reduces MCP-1 release in mature 3T3-L1 adipocytes: possible regulatory mechanism through endogenous ER stress and AMPK-related pathways.

[Metabonomic study on protective effect of ethanol extracts of drynariae rhizoma on osteoporosis in rats urine by using UPLC-MS/MS].

A fatal case of mothball intoxication presenting with refractory pruritus and ichthyosis.

Is pesticide use related to Parkinson disease? Some clues to heterogeneity in study results.

Medication prescribing patterns among chronic kidney disease patients in a hospital in Malaysia.

Effects of a provincial ban of two toxic organophosphorus insecticides on pesticide poisoning hospital admissions.

Sarcoplasmic reticulum Ca²⁺ permeation explored from the lumen side in mdx muscle fibers under voltage control.

Effects of prenatal exposure to sodium arsenite on motor and food-motivated behaviors from birth to adulthood in C57BL6/J mice.

Thrombocytosis and venous thromboembolism in cancer patients with chemotherapy induced anemia may be related to ESA induced iron restricted erythropoiesis and reversed by administration of IV iron.

Absorption of iron from ferritin is independent of heme iron and ferrous salts in women and rat intestinal segments.

Subacute arsenic exposure through drinking water reduces the pharmacodynamic effects of ketoprofen in male rats.

Changes in fibrinopeptide A peptides in the sera of rats chronically exposed to low doses of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Responses of *Lucilia sericata* Meigen (Diptera: Calliphoridae) to cadaveric volatile organic compounds.

Serum free p-cresyl sulfate levels predict cardiovascular and all-cause mortality in elderly hemodialysis patients--a prospective cohort study.

Prospects for malaria elimination in non-Amazonian regions of Latin America.

Efficacy and tolerability of a prolonged release ferrous sulphate formulation in iron deficiency anaemia: a non-inferiority controlled trial.

Impairment of mice spermatogenesis by sodium arsenite.

Hepatoprotective role and antioxidant capacity of selenium on arsenic-induced liver injury in rats.

Aldehyde dehydrogenases and cell proliferation.

The vimentin-tubulin binding site peptide (Vim-TBS.58-81) crosses the plasma membrane and enters the nuclei of human glioma cells.

Distinct urinary metabolic profile of human colorectal cancer.

Prenatal retinoic acid upregulates connexin 43 (Cx43) gene expression in pulmonary hypoplasia in the nitrofen-induced congenital diaphragmatic hernia rat model.

Melatonin as a neuroprotective agent in the rodent models of Parkinson's disease: is it all set to irrefutable clinical translation?

Iron depletion and repletion with ferrous sulfate or electrolytic iron modifies the composition and metabolic activity of the gut microbiota in rats.

Synergism between arsenite and proteasome inhibitor MG132 over cell death in myeloid leukaemic cells U937 and the induction of low levels of intracellular superoxide anion.

Polymorphisms of dioxin receptor complex components and detoxification-related genes jointly confer susceptibility to advanced-stage endometriosis in the taiwanese han population.

Nitrofen interferes with trophoblastic expression of retinol-binding protein and transthyretin during lung morphogenesis in the nitrofen-induced congenital diaphragmatic hernia model.

Upregulation of fibroblast growth factor receptor 2 and 3 in the late stages of fetal lung development in the nitrofen rat model.

Smad1 and WIF1 genes are downregulated during saccular stage of lung development in the nitrofen rat model.

ErbB1/2 tyrosine kinase inhibitor mediates oxidative stress-induced apoptosis in inflammatory breast cancer cells.

Prostate cancer and toxicity from critical use exemptions of methyl bromide: environmental protection helps protect against human health risks.

Clinical evaluation of iron treatment efficiency among non-anemic but iron-deficient female blood donors: a randomized controlled trial.

Glutathione-deficient mice are susceptible to TCDD-Induced hepatocellular toxicity but resistant to steatosis.

In vitro and in vivo characterization of AS2643361, a novel and highly potent inosine 5'-monophosphate dehydrogenase inhibitor.

Evidence of a suffocation alarm system within the periaqueductal gray matter of the rat.

Mitochondria as pharmacological targets: the discovery of novel anti-obesity mitochondrial uncouplers from Africa's medicinal plants.

Antioxidant and modulatory role of Chlorophytum borivilianum against arsenic induced testicular impairment.

Investigation of an excess of Salmonella enteritidis phage type 14b and MLVA type 4-7-3-13-10-2-2 in Luxembourg, Belgium and Germany during 2010.

[Comparative evaluation of efficacy and tolerance of iron polymaltose complex and ferrous sulphate for treatment of iron deficiency anemia in infants].

[Suicidal intoxication with sodium azide--a case report].

[Sodium azide poisoning--a rare reason of hospitalization in toxicological units--case report].

Uremia suppresses immune signal-induced CYP27B1 expression in human monocytes.

Dioxin (TCDD) induces epigenetic transgenerational inheritance of adult onset disease and sperm epimutations.

Stability of the transthyretin molecule as a key factor in the interaction with a-beta peptide--relevance in Alzheimer's disease.

Global DNA methylation not increased in chronic hemodialysis patients: a case-control study.

Prenatal exposure to TCDD triggers significant modulation of microRNA expression profile in the thymus that affects consequent gene expression.

Quantitative proteomic analyses of cerebrospinal fluid using iTRAQ in a primate model of iron deficiency anemia.

Free p-cresol sulfate is associated with survival and function of vascular access in chronic hemodialysis patients.

Oxidative stress-induced glomerular mineralocorticoid receptor activation limits the benefit of salt reduction in Dahl salt-sensitive rats.

A novel MYOC heterozygous mutation identified in a Chinese Uygur pedigree with primary open-angle glaucoma.

Gender differences in transcriptional signature of developing rat testes and ovaries following embryonic exposure to 2,3,7,8-TCDD.

Dioxin induces genomic instability in mouse embryonic fibroblasts.

Ferrous versus ferric oral iron formulations for the treatment of iron deficiency: a clinical overview.

Exogenous inflammatory acne due to combined application of cosmetic and facial rubbing.

Environmentally induced epigenetic transgenerational inheritance of ovarian disease.

ANG-1 TIE-2 and BMPR signalling defects are not seen in the nitrofen model of pulmonary hypertension and congenital diaphragmatic hernia.

Classic and new animal models of Parkinson's disease.

MiR-206 regulates neural cells proliferation and apoptosis via Otx2.

Uremic toxins induce kidney fibrosis by activating intrarenal renin-angiotensin-aldosterone system associated epithelial-to-mesenchymal transition.

Long-term consequences of iron-fortified flour consumption in nonanemic men.

Genome-wide association study identifies chromosome 10q24.32 variants associated with arsenic metabolism and toxicity phenotypes in Bangladesh.

Circulating levels of persistent organic pollutants (POPs) and carotid atherosclerosis in the elderly.

An update on protein-bound uremic retention solutes.

Animal models of Parkinson's disease.

an Obituary for GFR as the main marker for kidney function?

Relevance of protein fermentation to gut health.

The pulmonary mesenchymal tissue layer is defective in an in vitro recombinant model of nitrofen-induced lung hypoplasia.

Indigenous American ancestry is associated with arsenic methylation efficiency in an admixed population of northwest Mexico.

Aryl hydrocarbon receptor agonists induce microRNA-335 expression and inhibit lung metastasis of estrogen receptor negative breast cancer cells.

TCDD disrupts hypural skeletogenesis during medaka embryonic development.

Intranasal administration of neurotoxicants in animals: support for the olfactory vector hypothesis of Parkinson's disease.

The cutaneous lesions of dioxin exposure: lessons from the poisoning of Victor Yushchenko.

Maternal exposure to high levels of dioxins in relation to birth weight in women affected by Yusho disease.

Akt activation is responsible for enhanced migratory and invasive behavior of arsenic-transformed human bronchial epithelial cells.

Retinoic acid rescues deficient airway innervation and peristalsis of hypoplastic rat lung explants.

Influence of lactoferrin in preventing preterm delivery: a pilot study.

Hepatoprotective role of vitamin B(12) and folic acid in arsenic intoxicated rats.

Sodium chlorate reduces the presence of *Escherichia coli* in feces of lambs and ewes managed in shed-lambing systems.

Transgenic tetraploid *Isatis indigotica* expressing Bt Cry1Ac and *Pinellia ternata* agglutinin showed enhanced resistance to moths and aphids.

Effects of arsenic exposure during the pre- and postnatal development on the puberty of female offspring.

Bronchoscopic and histological changes over time following acute ferrous sulphate tablet aspiration.

Mechanism for the uncoupling of oxidative phosphorylation by juliprosopine on rat brain mitochondria.

Uremic toxin p-cresol induces disassembly of gap junctions of cardiomyocytes.

Chitinolytic assay of indigenous Trichoderma isolates collected from different geographical locations of Chhattisgarh in Central India.

Effects of carnosine on polyamine levels in red blood cells of patients with hypertonic discirculatory encephalopathy.

Preliminary morphological and biochemical changes in rat liver following postnatal exposure to sodium arsenite.

Molecular mechanism of acrylamide neurotoxicity: lessons learned from organic chemistry.

P-cresol, but not p-cresylsulphate, disrupts endothelial progenitor cell function in vitro.

Ameliorative effect of supplementation with L-glutamine on oxidative stress, DNA damage, cell viability and hepatotoxicity induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin in rat hepatocyte cultures.

4-Hydroxy-2-nonenal, a reactive product of lipid peroxidation, and neurodegenerative diseases: a toxic combination illuminated by redox proteomics studies.

Arsenic exposure through drinking water is associated with longer telomeres in peripheral blood.

Sustained NMDA receptor activation by spreading depolarizations can initiate excitotoxic injury in metabolically compromised neurons.

ALS-linked SOD1 in glial cells enhances γ -N-Methylamino L-Alanine (BMAA)-induced toxicity in Drosophila.

Exposures to endocrine-disrupting chemicals and age of menarche in adolescent girls in NHANES (2003-2008).

Environmentally persistent free radicals decrease cardiac function and increase pulmonary artery pressure.

Inhibition of cellular efflux pumps involved in multi xenobiotic resistance (MXR) in echinoid larvae as a possible mode of action for increased ecotoxicological risk of mixtures.

Incidence of jaw lesions and activity and gene expression of hepatic P4501A enzymes in mink (*Mustela vison*) exposed to dietary 2,3,7,8-tetrachlorodibenzo-p-dioxin, 2,3,7,8-tetrachlorodibenzofuran, and 2,3,4,7,8-pentachlorodibenzofuran.

Oxidative stress modulates KLF6Full and its splice variants.

Simultaneous analysis of 28 urinary VOC metabolites using ultra high performance liquid chromatography coupled with electrospray ionization tandem mass spectrometry (UPLC-ESI/MSMS).

Urinary biomarkers of oxidative status.

Inorganic arsenic impairs proliferation and cytokine expression in human primary T lymphocytes.

The epidemiology of sarcoma.

Low dose and long term toxicity of sodium arsenite caused caspase dependent apoptosis based on morphology and biochemical character.

Small reactive carbonyl compounds as tissue lipid oxidation products; and the mechanisms of their formation thereby.

Aryl hydrocarbon receptor-dependence of dioxin's effects on constitutive mouse hepatic cytochromes P450 and growth hormone signaling components.

Stimulation and inhibition of bacterial growth by caffeine dependent on chloramphenicol and a phenolic uncoupler--a ternary toxicity study using microfluid segment technique.

Toxic effects of PCB126 and TCDD on shortnose sturgeon and Atlantic sturgeon.

VP2118 has major roles in *Vibrio parahaemolyticus* response to oxidative stress.

Consequences of TCDD treatment on intra-hepatic lymphocytes during liver regeneration.

Fully automated production of ¹¹C-doxepin for PET imaging histamine H1 receptor.

Bladder urotoxicity pathophysiology induced by the oxazaphosphorine alkylating agents and its chemoprevention.

Predicting adult fish acute lethality with the zebrafish embryo: relevance of test duration, endpoints, compound properties, and exposure concentration analysis.

Evaluation of biochemical, hematological and oxidative parameters in mice exposed to the herbicide glyphosate-Roundup®.

Antioxidant attenuation of atrazine induced histopathological changes in testicular tissue of goat in vitro.

Protective Effect of *Psidium guajava* in Arsenic-induced Oxidative Stress and Cytological Damage in Rats.

[Study of the mechanisms of cytotoxic effect of uranyl nitrate].

Environmental-genetic interactions in the pathogenesis of Parkinson's disease.

Impaired adaptability of in vivo mitochondrial energetics to acute oxidative insult in aged skeletal muscle.

Analysis of neuroglobin mRNA expression in rat brain due to arsenite-induced oxidative stress.

A PagP fusion protein system for the expression of intrinsically disordered proteins in *Escherichia coli*.

Evaluation of acute toxicity and teratogenic effects of disinfectants by *Daphnia magna* embryo assay.

Cloning, mutagenesis, and characterization of the microalga *Parietochloris incisa* acetohydroxyacid synthase, and its possible use as an endogenous selection marker.

A New Rice Disease, Black Sheath Spot, Caused by *Curvularia fallax* in China.

Effect of Glyphosate Application on Foliar Diseases in Glyphosate-Tolerant Alfalfa.

Plasma polymer coatings to aid retinal pigment epithelial growth for transplantation in the treatment of age related macular degeneration.

Creatine pretreatment protects cortical axons from energy depletion in vitro.

Arsenate toxicity and stress responses in the freshwater ciliate *Tetrahymena pyriformis*.

Role of chondroitin sulfate C in the action of anthrax toxin.

Unexpected gender difference in sensitivity to the acute toxicity of dioxin in mice.

Real-time characterization of cytotoxicity using single-cell impedance monitoring.

Induction of Apoptosis in the Rat Bone Marrow Mesenchymal Stem Cells Following Sodium Arsenite Treatment with the Dose Lesser than that Used for Treatment of Malignant Patient.

[Genetically modified plants and the problems of plant protection: progress and estimation of potential risks].

Factors associated with the decline in suicide by pesticide poisoning in Taiwan: a time trend analysis, 1987-2010.

Acute and subacute oral toxicity of polychlorinated diphenyl sulfides in mice: determining LD50 and assessing the status of hepatic oxidative stress.

Evaluation of dazomet as fumigant for the control of brown root rot disease.

Sodium azide poisoning at a restaurant - Dallas County, Texas, 2010.

Chlorination of ortho-position on Polychlorinated Biphenyls Increases Protein Kinase C Activity in Neuronal Cells.

Changes in proteolytic enzymes mRNAs and proteins relevant for meat quality during myogenesis and hypoxia of primary bovine satellite cells.

Quantification of steroids and endocrine disrupting chemicals in rat ovaries by LC-MS/MS for reproductive toxicology assessment.

Arsenic toxicity: a heart-breaking saga of a freshwater mollusc.

Protective effect of *Enicostema axillare* on mutagenicity of *Salmonella typhimurium* by increasing free radical scavenging abilities.

Propolis protects against 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced toxicity in rat hepatocytes.

Elevated 4-hydroxyhexenal in Alzheimer's disease (AD) progression.

Dioxin silences gonadotropin expression in perinatal pups by inducing histone deacetylases: a new insight into the mechanism for the imprinting of sexual immaturity by dioxin.

Lymphoma cells with increased anti-oxidant defenses acquire chemoresistance.

Osmosensitive changes of carbohydrate metabolism in response to cellulose biosynthesis inhibition.

Oxidant-induced cell death and Nrf2-dependent antioxidative response are controlled by Fra-1/AP-1.

Acute toxicity of chlorobenzenes in tetrahymena: estimated by microcalorimetry and mechanism.

Oxidative damage in human gingival fibroblasts exposed to cigarette smoke.

Effects of oxidative stress caused by tert-butylhydroquinone on cytotoxicity in MDCK cells.

Protocatechuic acid prevents reproductive damage caused by 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in male rats.

Effects of peroxisomal catalase inhibition on mitochondrial function.

Insight into the neuroproteomics effects of the food-contaminant non-dioxin like polychlorinated biphenyls.

[6]-Gingerol isolated from ginger attenuates sodium arsenite induced oxidative stress and plays a corrective role in improving insulin signaling in mice.

Suppressive effects of Schizandra chinensis Baillon water extract on allergy-related cytokine generation and degranulation in IgE-antigen complex-stimulated RBL-2H3 cells.

Clinical outcome of veterans with acute coronary syndrome who had been exposed to agent orange.

Arsenite promotes apoptosis and dysfunction in microvascular endothelial cells via an alteration of intracellular calcium homeostasis.

Protective effect of curcumin against arsenic-induced apoptosis in murine splenocytes in vitro.

Nrf2-dependent induction of proteasome and Pa28 β regulator are required for adaptation to oxidative stress.

First Report of Blight Caused by *Sclerotium rolfsii* on the Invasive Exotic Weed, *Vincetoxicum rossicum* (Pale Swallow-Wort), in Western New York.

Membrane Changes Associated with Exposure of *Pseudomonas putida* to Selected Environmental Pollutants and their Possible Roles in Toxicity.

Response of urinary biomarkers of systemic oxidation to oral iron supplementation in healthy men.

Acute inhalation study of allyl alcohol for derivation of acute exposure guideline levels.

Multi-residue analysis of free and conjugated hormones and endocrine disruptors in rat testis by QuEChERS-based extraction and LC-MS/MS.

Alteration of mitochondrial efficiency affects oxidative balance, development and growth in frog (*Rana temporaria*) tadpoles.

Carotenoid deficiency triggers autophagy in the model green alga *Chlamydomonas reinhardtii*.

Changes in expression of drug-metabolizing enzymes by single-walled carbon nanotubes in human respiratory tract cells.

Site-specific oxidation of apolipoprotein A-I impairs cholesterol export by ABCA1, a key cardioprotective function of HDL.

Effects of vitamin E on reproductive hormones and testis structure in chronic dioxin-treated mice.

Comparative Studies of the (Anti) Mutagenicity of *Baccharis dracunculifolia* and Artepillin C by the Bacterial Reverse Mutation Test.

Oxidative stress and autophagy: mediators of synapse growth?

Kynurenic acid: a metabolite with multiple actions and multiple targets in brain and periphery.

A method to estimate the chronic health impact of air pollutants in U.S. residences.

Mitochondria as a source and target of lipid peroxidation products in healthy and diseased heart.

Property-based design of a glucosylceramide synthase inhibitor that reduces glucosylceramide in the brain.

Small calibre biosynthetic bacterial cellulose blood vessels: 13-months patency in a sheep model.

A mouse model of accelerated liver aging caused by a defect in DNA repair.

Toxicity, dioxin-like activities, and endocrine effects of DDT metabolites--DDA, DDMU, DDMS, and DDCN.

Facile synthesis of oxo-/thioxopyrimidines and tetrazoles C-C linked to sugars as novel non-toxic antioxidant acetylcholinesterase inhibitors.

Reactive Secondary Sequence Oxidative Pathology Polymer Model and Antioxidant Tests.

Atrazine in sub-acute exposure results in sperm DNA disintegrity and nuclear immaturity in rats.

The relationship between platelet endothelial cell adhesion molecule-1 and paraquat-induced lung injury in rabbits.

Prospective experimental studies on the renal protective effect of ulinastatin after paraquat poisoning.

Edaravone attenuates paraquat-induced lung injury by inhibiting oxidative stress in human type II alveolar epithelial cells.

Two cases of paraquat poisoning from kota, rajasthan, India.

Antioxidant Potential of *Fagonia arabica* against the Chemical Ischemia-Induced in PC12 Cells.

Protective Effect of Silymarin against Acrolein-Induced Cardiotoxicity in Mice.

Takotsubo cardiomyopathy as a delayed complication with a herbicide containing glufosinate ammonium in a suicide attempt: a case report.

Modulation of protein fermentation does not affect fecal water toxicity: a randomized cross-over study in healthy subjects.

Tumor necrosis factor α stimulates expression and secretion of urokinase plasminogen activator in human dental pulp cells.

Neuropsychiatric manifestations of methyl iodide.

Angiogenesis inhibitor vasohibin-1 enhances stress resistance of endothelial cells via induction of SOD2 and SIRT1.

The Aryl Hydrocarbon Receptor Influences Transplant Outcomes in Response to Environmental Signals.

Restoration of dioxin-induced damage to fetal steroidogenesis and gonadotropin formation by maternal co-treatment with α -lipoic acid.

Transient receptor potential ankyrin 1 channel localized to non-neuronal airway cells promotes non-neurogenic inflammation.

The Protective Effect of Minocycline in a Paraquat-Induced Parkinson's Disease Model in Drosophila is Modified in Altered Genetic Backgrounds.

Bismuth protects against arsenite-induced inhibition of proteoglycan synthesis in cultured vascular endothelial cells.

4-Hydroxyhexenal (HHE) impairs glutamate transport in astrocyte cultures.

Lipid peroxidation in brain tissue following administration of low and high doses of arsenite and L-ascorbate in wistar strain rats.

[Endocrine disruptors are a novel direction of endocrinologic scientific investigation].

Photocatalytic degradation of 4-chlorophenol under P-modified TiO₂/UV system: kinetics, intermediates, phytotoxicity and acute toxicity.

PCB 126 and other dioxin-like PCBs specifically suppress hepatic PEPCCK expression via the aryl hydrocarbon receptor.

Cyanamide potentiates the ethanol-induced impairment of receptor-mediated endocytosis in a recombinant hepatic cell line expressing alcohol dehydrogenase activity.

Role of the Arylhydrocarbon Receptor (AhR) in the Pathology of Asthma and COPD.

Transgenerational actions of environmental compounds on reproductive disease and identification of epigenetic biomarkers of ancestral exposures.

The antioxidant N-acetylcysteine prevents the mitochondrial fragmentation induced by soluble amyloid- β peptide oligomers.

Functional analysis of colonic bacterial metabolism: relevant to health?

Eicosapentaenoic acid protects against 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced hepatic toxicity in cultured rat hepatocytes.

Antioxidant and inhibitory effect of red ginger (*Zingiber officinale* var. *Rubra*) and white ginger (*Zingiber officinale* Roscoe) on Fe(2+) induced lipid peroxidation in rat brain in vitro.

Characterization of selected organo-nitrogen herbicides in South Florida canals: exposure and risk assessments.

Deficiency of multidrug and toxin extrusion 1 enhances renal accumulation of paraquat and deteriorates kidney injury in mice.

[Negative paraquatemia does not exclude paraquat fatal poisoning].

Resolution of abnormal fractional anisotropy of substantia nigra in organophosphate intoxication.

Surfactant volume is an essential element in human toxicity in acute glyphosate herbicide intoxication.

The enhancing effect of the antioxidant N-acetylcysteine on urinary bladder injury induced by dimethylarsinic acid.

Comparison of the acute toxicities of novel algicides, thiazolidinedione derivatives TD49 and TD53, to various marine organisms.

Differential effects of activating D1 and D2 receptors on electrophysiology of neostriatal neurons in a rat model of Parkinson's disease induced by paraquat and maneb.

Atrazine induces transcriptional changes in marker genes associated with steroidogenesis in primary cultures of rat Leydig cells.

Sex- and brain region-specific role of cytochrome c oxidase in 1-methyl-4-phenylpyridinium-mediated astrocyte vulnerability.

Differential regional expression patterns of α -synuclein, TNF- α , and IL-1 β ; and variable status of dopaminergic neurotoxicity in mouse brain after Paraquat treatment.

Removal of reactive oxygen species-induced 3'-blocked ends by XPF-ERCC1.

Prediction of prognosis in acute paraquat poisoning using severity scoring system in emergency department.

Systematic review of parkinsonian syndromes in short- and long-term survivors of paraquat poisoning.

[A fatal acute poisoning with glyphosate: importance of gastrointestinal toxicity].

Clinical outcome of acute intoxication due to ingestion of auxin-like herbicides.

A comparison of mixture toxicity assessment: examining the chronic toxicity of atrazine, permethrin and chlorothalonil in mixtures to *Ceriodaphnia cf. dubia*.

Chronic oral exposure to the aldehyde pollutant acrolein induces dilated cardiomyopathy.

Amphibians at risk? Susceptibility of terrestrial amphibian life stages to pesticides.

The antimicrobial activities of the cinnamaldehyde adducts with amino acids.

Alterations in jejunal morphology and serotonin-containing enteroendocrine cells in peripubertal male rats associated with subchronic atrazine exposure.

Epidemiologic studies of glyphosate and non-cancer health outcomes: a review.

Medical management of paraquat ingestion.

Acute exposure to glyphosate herbicide affects oxidative parameters in piava (*Leporinus obtusidens*).

Cigarette smoke targets glutaredoxin 1, increasing s-glutathionylation and epithelial cell death.

Comparison of the effects of two herbicides and an insecticide on tropical freshwater plankton in microcosms.

[Effects of hemoperfusion on plasma concentration and histopathological changes in paraquat poisoning rabbits].

Effects of chytrid fungus and a glyphosate-based herbicide on survival and growth of wood frogs (*Lithobates sylvaticus*).

[Paraquat (PQ) clearance through continuous plasma perfusion in PQ poisoning patients: a clinical study].

[Pulmonary platelet endothelial cell adhesion molecule-1 (PECAM-1) in rabbits after acute paraquat (PQ) poisoning].

[An evidence-based treatment design for paraquat (PQ) poisoning].

Prognostic significance of arterial blood gas analysis in the early evaluation of paraquat poisoning patients.

Protective effect of Ginkgo biloba L. leaf extract against glyphosate toxicity in Swiss albino mice.

Paraquat induces epigenetic changes by promoting histone acetylation in cell culture models of dopaminergic degeneration.

Cigarette smoke components induce matrix metalloproteinase-1 in aortic endothelial cells through inhibition of mTOR signaling.

Effect of Yerbimat herbicide on lipid peroxidation, catalase activity, and histological damage in gills and liver of the freshwater fish *Goodea atripinnis*.

Genotoxic effects of chlorpyrifos, cypermethrin, endosulfan and 2,4-D on human peripheral lymphocytes cultured from smokers and nonsmokers.

Protective effect of 4,4'-diaminodiphenylsulfone against paraquat-induced mouse lung injury.

Continuous hypoxia attenuates paraquat-induced cytotoxicity in the human A549 lung carcinoma cell line.

The effects of paraquat on regional brain neurotransmitter activity, hippocampal BDNF and behavioural function in female mice.

Hepatotoxicity of silica nanoparticles with a diameter of 100 nm.

Acrolein - a pulmonary hazard.

Toxicology and risk assessment of acrolein in food.

The protective effect of C-phycoyanin on paraquat-induced acute lung injury in rats.

Integrative metabolome and transcriptome profiling reveals discordant energetic stress between mouse strains with differential sensitivity to acrolein-induced acute lung injury.

Acrolein-mediated injury in nervous system trauma and diseases.

Acrolein-induced dyslipidemia and acute-phase response are independent of HMG-CoA reductase.

Protein modification by acrolein: relevance to pathological conditions and inhibition by aldehyde sequestering agents.

Necessity of OxyR for the hydrogen peroxide stress response and full virulence in *Ralstonia solanacearum*.

Kolaviron protects apoptotic cell death in PC12 cells exposed to atrazine.

Acrolein scavengers: reactivity, mechanism and impact on health.

Neuroprotective effect of Cu,Zn-superoxide dismutase fused to a TCTP-derived protein transduction domain.

Atrazine and cancer incidence among pesticide applicators in the agricultural health study (1994-2007).

Effects of a glyphosate-based herbicide on mate location in a wolf spider that inhabits agroecosystems.

The Air Force health study: an epidemiologic retrospective.

Acrolein, an environmental toxin, induces cardiomyocyte apoptosis via elevated intracellular calcium and free radicals.

Exposure to arsenic in drinking water is associated with increased prevalence of diabetes: a cross-sectional study in the Zimapán and Lagunera regions in Mexico.

In situ aquatic bioassessment of pesticides applied on rice fields using a microalga and daphnids.

[Urinary neutrophil gelatinase-associated lipocalin (uNGAL) and early diagnosis of paraquat poisoning patients with acute kidney injury].

Lysine acetylsalicylate ameliorates lung injury in rats acutely exposed to paraquat.

Effects on aquatic and human health due to large scale bioenergy crop expansion.

Atrazine exposure affects growth, body condition and liver health in *Xenopus laevis* tadpoles.

Resistance and recovery of river biofilms receiving short pulses of Triclosan and Diuron.

Effects of four rice paddy herbicides on algal cell viability and the relationship with population recovery.

Protective effects of chitosan oligosaccharide on paraquat-induced nephrotoxicity in rats.

Transcriptional profile of diuron-induced toxicity on the urinary bladder of male Wistar rats to inform mode of action.

Assessment of fetal brain uptake of paraquat in utero using in vivo PET/CT imaging.

Biochemical and toxicological evidence of neurological effects of pesticides: the example of Parkinson's disease.

The efficacy of high doses of vitamin C in patients with paraquat poisoning.

Stage-dependent toxicity of 2,4-dichlorophenoxyacetic on the embryonic development of a South American toad, *Rhinella arenarum*.

Mitochondria are the main target organelle for trivalent monomethylarsonous acid (MMA(III))-induced cytotoxicity.

[A case report of successful treatment of severe acute paraquat poisoning with pulmonary aspergillus infection].

[Clinical analysis of multiple organ dysfunction syndrome caused by acute paraquat poisoning].

Science versus policy in establishing equitable Agent Orange disability compensation policy.

Agent Orange exposure and attributed health effects in Vietnam veterans.

[Rationale for hygienic regulations for the use of a new mixed herbicide antidote].

"Hyperammonemia following glufosinate-containing herbicide poisoning: a potential marker of severe neurotoxicity" by Yan-Chido Mao et al., *Clin Toxicol (Phila)* 2011; 49:48-52.

In search of the causes of Parkinson's disease, seasons 1 to 4.

Acrolein inhalation prevents vascular endothelial growth factor-induced mobilization of Flk-1+/Sca-1+ cells in mice.

Mitochondrial aconitase knockdown attenuates paraquat-induced dopaminergic cell death via decreased cellular metabolism and release of iron and H₂O₂.

Parkinson's disease risk from ambient exposure to pesticides.

Waterborne exposure to clodinafop-propargyl disrupts the posterior and ventral development of zebrafish embryos.

Granulocyte macrophage-colony stimulating factor protects against substantia nigra dopaminergic cell loss in an environmental toxin model of Parkinson's disease.

Parkinsonism after chronic occupational exposure to glyphosate.

Use of GC-MS—GC/TOF-MS and LC/TOF-MS for metabolomic analysis of *Hyalella azteca* chronically exposed to atrazine and its primary metabolite, desethylatrazine.

Controlling the invasive diatom *Didymosphenia geminata*: an ecotoxicity assessment of four potential biocides.

An improved approach for extraction and high-performance liquid chromatography analysis of paraquat in human plasma.

Structure and epitope distribution of heparan sulfate is disrupted in experimental lung hypoplasia: a glycobiological epigenetic cause for malformation?

Rotenone and paraquat linked to Parkinson's disease: human exposure study supports years of animal studies.

Detection of paraquat in oral fluid, plasma, and urine by capillary electrophoresis for diagnosis of acute poisoning.

Enantioselectivity tuning of chiral herbicide dichlorprop by copper: roles of reactive oxygen species.

Differential stimulation pathways of progesterone secretion from newly formed corpora lutea in rats treated with ethylene glycol monomethyl ether, sulphiride, or atrazine.

Maneb and paraquat-mediated neurotoxicity: involvement of peroxiredoxin/thioredoxin system.

Exposure to Mn/Zn ethylene-bis-dithiocarbamate and glyphosate pesticides leads to neurodegeneration in *Caenorhabditis elegans*.

Biflavanone-kolaviron protects human dopaminergic SH-SY5Y cells against atrazine induced toxic insult.

Improved survival in severe paraquat poisoning with repeated pulse therapy of cyclophosphamide and steroids.

Rotenone, paraquat, and Parkinson's disease.

Serum uric acid level as a marker for mortality and acute kidney injury in patients with acute paraquat intoxication.

Role of growth factors in acute lung injury induced by paraquat in a rat model.

Further antinociceptive effects of myricitrin in chemical models of overt nociception in mice.

Histopathological changes in gill, liver and kidney of neotropical fish *Colossoma macropomum* exposed to paraquat at different temperatures.

Diuron exposure induces systemic and organ-specific toxicity following acute and sub-chronic exposure in male Wistar rats.

Environmental factors in the etiology of esophageal atresia.

Risk of aplastic anemia and pesticide and other chemical exposures.

Effects of atrazine, agricultural runoff, and selected effluents on antimicrobial activity of skin peptides in *Xenopus laevis*.

Acute toxicities of five commonly used antifouling booster biocides to selected subtropical and cosmopolitan marine species.

Impact of chronic and acute pesticide exposures on periphyton communities.

Genetic-based, differential susceptibility to paraquat neurotoxicity in mice.

Acrolein induces myelin damage in mammalian spinal cord.

Survival and precopulatory guarding behavior of *Hyalella azteca* (Amphipoda) exposed to nitrate in the presence of atrazine.

Adverse effects of 2,4-dichlorophenoxyacetic acid on rat cerebellar granule cell cultures were attenuated by amphetamine.

DJ-1 mediates paraquat-induced dopaminergic neuronal cell death.

Modulation of steroidogenic gene expression and hormone synthesis in H295R cells exposed to PCP and TCP.

Changes in the concentrations of creatinine, cystatin C and NGAL in patients with acute paraquat self-poisoning.

Protection by tetrahydroxystilbene glucoside against neurotoxicity induced by MPP+: the involvement of PI3K/Akt pathway activation.

[Effect of ulinastatin on the expression of heat shock protein 70 and NF-kappaB in lung tissue in rats with paraquat poisoned].

[Studying the therapeutic effects of hemoperfusion with continuous venovenous hemofiltration on the patients with acute paraquat poisoning].

Should atrazine and related chlorotriazines be considered carcinogenic for human health risk assessment?

Protection of bone marrow mesenchymal stem cells from acute lung injury induced by paraquat poisoning.

Tissue plasminogen activator and plasminogen activator inhibitor-1 levels in patients with acute paraquat intoxication.

Inhibition of myotube formation by paraquat in the myoblast cell line C2C12.

Mortality of US pentachlorophenol production workers through 2005.

A review of epidemiologic studies of triazine herbicides and cancer.

Evaluation of carcinogenic potential of diuron in a rat mammary two-stage carcinogenesis model.

Therapeutic hypothermia attenuates acute lung injury in paraquat intoxication in rats.

Physiological responses of glyphosate-resistant and glyphosate-sensitive soybean to aminomethylphosphonic acid, a metabolite of glyphosate.

Identification and dissection of the Nrf2 mediated oxidative stress pathway in human renal proximal tubule toxicity.

Toxicity of the insecticide terbufos, its oxidation metabolites, and the herbicide atrazine in binary mixtures to *Ceriodaphnia cf dubia*.

Toxicokinetics, including saturable protein binding, of 4-chloro-2-methyl phenoxyacetic acid (MCPA) in patients with acute poisoning.

Mutagenic and genotoxic assessment of atrazine-based herbicide to freshwater fish *Channa punctatus* (Bloch) using micronucleus test and single cell gel electrophoresis.

Ferulic acid attenuation of advanced glycation end products extends the lifespan of *Caenorhabditis elegans*.

[Clinical study of dynamic change of inflammatory factors in serum of acute paraquat rats].

[Study on the prognosis of patients with acute paraquat intoxication].

Inadvertent poisoning of seven teenagers with monosodium methanearsonate.

[Epidemiological study of glyphosate herbicide poisoning].

[Prolonged convulsion after intoxication of alachlor herbicide (Lasso): a case report].

Effect of pulse therapy with glucocorticoid and cyclophosphamide in lung fibrosis due to paraquat poisoning in rats.

Impacts of the herbicide butachlor on the larvae of a paddy field breeding frog (*Fejervarya limnocharis*) in subtropical Taiwan.

Liquid chromatographic-electrospray mass spectrometric determination of 1-methyl-4-phenylpyridine (MPP+) in discrete regions of murine brain.

Toxicological responses of *Cyprinus carpio* after exposure to a commercial herbicide containing imazethapyr and imazapic.

Protective effects of the aqueous extract of *Scutellaria baicalensis* against acrolein-induced oxidative stress in cultured human umbilical vein endothelial cells.

Melatonin or silymarin reduces maneb- and paraquat-induced Parkinson's disease phenotype in the mouse.

Chronic atrazine exposure causes disruption of the spontaneous locomotor activity and alters the striatal dopaminergic system of the male Sprague-Dawley rat.

Selenium provides protection to the liver but not the reproductive organs in an atrazine-model of experimental toxicity.

[The study of effects of pirfenidone on the pulmonary fibrosis induced by paraquat in mice].

Chronic progressive nephropathy in male F344 rats in 90-day toxicity studies: its occurrence and association with renal tubule tumors in subsequent 2-year bioassays.

Aseptic meningitis in association with glyphosate-surfactant herbicide poisoning.

Acrolein and neuro disorders.

Erythema multiforme major due to occupational exposure to the herbicides alachlor and butachlor.

Effects of nitric oxide on the primary bladder afferent activities of the rat with and without intravesical acrolein treatment.

Competitive stress can make the herbicide Roundup® more deadly to larval amphibians.

The effect of herbicide BASTA 15 on the development of mouse preimplantation embryos in vivo and in vitro.

Prostate cancer risk and exposure to pesticides in British Columbia farmers.

Acute toxicity tests with the tropical cladoceran *Pseudosida ramosa*: The importance of using native species as test organisms.

Redox mechanism of neurotoxicity by a serotonin-acrolein polymeric melanoid.

Normal prion protein in *Drosophila* enhances the toxicity of pathogenic polyglutamine proteins and alters susceptibility to oxidative and autophagy signaling modulators.

Early exposure to low doses of atrazine affects behavior in juvenile and adult CD1 mice.

Toxicity of S-metolachlor containing formulation and heavy metals to chicken embryos.

The effects of Click 500 SC (terbuthylazine) on common carp *Cyprinus carpio* under (sub)chronic conditions.

Effects of subchronic exposure to simazine on zebrafish (*Danio rerio*).

Early exposure to paraquat sensitizes dopaminergic neurons to subsequent silencing of PINK1 gene expression in mice.

Protective effect of ambroxol against paraquat-induced pulmonary fibrosis in rats.

Protective effect of the glial cell line-derived neurotrophic factor (GDNF) on human mesencephalic neuron-derived cells against neurotoxicity induced by paraquat.

Wld(S) reduces paraquat-induced cytotoxicity via SIRT1 in non-neuronal cells by attenuating the depletion of NAD.

[Expression of nuclear factor kappaB and tumor necrosis factor $\hat{\pm}$ in lung tissue of paraquat poisoned rats].

[Effects of co-exposure to paraquat and maneb on system of substantial nigra and striatum in rats].

Before the curtain falls: endocrine-active pesticides--a German contamination legacy.

(-)Schisandrin B ameliorates paraquat-induced oxidative stress by suppressing glutathione depletion and enhancing glutathione recovery in differentiated PC12 cells.

Evaluation of suppressive effects of paraquat on innate immunity in Balb/c mice.

Hyperammonemia following glufosinate-containing herbicide poisoning: a potential marker of severe neurotoxicity.

Formulation changes and time trends in outcome following paraquat ingestion in Sri Lanka.

[Regulation of dopaminergic neuronal death by endogenous dopamine and proteasome activity].

More data on the effect of haemoperfusion for acute poisoning is required.

Edaravone, a novel antidote against lung injury and pulmonary fibrosis induced by paraquat?

Toxicological effects of the aquatic herbicide, fluridone, on male water mites (Hydrachnidia: Arrenurus: Megaluracarus).

Metribuzin impairs the unicell-colony transformation in the green alga *Scenedesmus obliquus*.

ASK1 overexpression accelerates paraquat-induced autophagy via endoplasmic reticulum stress.

Altered hematological and immunological parameters in silver catfish (*Rhamdia quelen*) following short term exposure to sublethal concentration of glyphosate.

Hepatic response to oxidative injury in long-lived Ames dwarf mice.

Pathological and genotoxic effects of atrazine in male Japanese quail (*Coturnix japonica*).

Construction of river model biofilm for assessing pesticide effects.

Suicide victim of paraquat poisoning make suitable corneal donor.

Glycogen synthase kinase 3 β and its phosphorylated form (Y216) in the paraquat-induced model of parkinsonism.

Paraquat neurotoxicity is mediated by the dopamine transporter and organic cation transporter-3.

Overexpression of the pepper antimicrobial protein CaAMP1 gene regulates the oxidative stress- and disease-related proteome in *Arabidopsis*.

2-Methoxycinnamaldehyde inhibits tumor angiogenesis by suppressing Tie2 activation.

Protein conjugated with aldehydes derived from lipid peroxidation as an independent parameter of the carbonyl stress in the kidney damage.

Therapeutic potential of Nrf2 activators in streptozotocin-induced diabetic nephropathy.

TRPV1 and TRPA1 stimulation induces MUC5B secretion in the human nasal airway in vivo.

Cinnamaldehyde protects from the hypertension associated with diabetes.

Dopamine and paraquat enhance α -synuclein-induced alterations in membrane conductance.

Effects of paraquat and capsaicin on the expression of genes related to inflammatory, immune responses and cell death in immortalized human HaCat keratinocytes.

The cinnamon-oil ingredient trans-cinnamaldehyde fails to target *Campylobacter jejuni* strain KC 40 in the broiler chicken cecum despite marked in vitro activity.

Spice oil cinnamaldehyde exhibits potent anticandidal activity against fluconazole resistant clinical isolates.

Apolipoprotein D mediates autocrine protection of astrocytes and controls their reactivity level, contributing to the functional maintenance of paraquat-challenged dopaminergic systems.

Complement inhibition alleviates paraquat-induced acute lung injury.

Effects of dietary supplementation with phytonutrients on vaccine-stimulated immunity against infection with *Eimeria tenella*.

[Matricide in *Caenorhabditis elegans* as an example of programmed death of whole animal organism: role of mitochondrial oxidative stress].

A guide to neurotoxic animal models of Parkinson's disease.

Mass spectrometry-based quantification of myocardial protein adducts with acrolein in an in vivo model of oxidative stress.

Protein-conjugated acrolein as a biochemical marker of brain infarction.

Traumatic brain injury in adult rats causes progressive nigrostriatal dopaminergic cell loss and enhanced vulnerability to the pesticide paraquat.

Melatonin protects against oxidative stress in granular corneal dystrophy type 2 corneal fibroblasts by mechanisms that involve membrane melatonin receptors.

NO synthase-generated NO acts downstream of auxin in regulating Fe-deficiency-induced root branching that enhances Fe-deficiency tolerance in tomato plants.

[Mechanism of cinnamic aldehyde-inducing apoptosis of chronic myeloid leukemic cells in vitro].

The role of calcium channel blockers and resveratrol in the prevention of paraquat-induced parkinsonism in *Drosophila melanogaster*: a locomotor analysis.

Haplotype association mapping of acute lung injury in mice implicates activin a receptor, type 1.

Expressions of lipid oxidation markers, N(μ)-hexanoyl lysine and acrolein in cisplatin-induced nephrotoxicity in rats.

TRPA1 receptor modulation attenuates bladder overactivity induced by spinal cord injury.

Isopentenyl pyrophosphate is a novel antinociceptive substance that inhibits TRPV3 and TRPA1 ion channels.

Protection against 1-methyl-4-phenylpyridinium ion (MPP⁺)-induced apoptosis by water extract of ginseng (*Panax ginseng* C.A. Meyer) in SH-SY5Y cells.

Paraquat- and rotenone-induced models of Parkinson's disease.

Antimicrobial edible apple films inactivate antibiotic resistant and susceptible *Campylobacter jejuni* strains on chicken breast.

A pathway-based analysis of urinary arsenic metabolites and skin lesions.

Endothelial dysfunction and claudin 5 regulation during acrolein-induced lung injury.

Arsenic methylation capacity and its correlation with skin lesions induced by contaminated drinking water consumption in residents of chronic arsenicosis area.

Protandim attenuates intimal hyperplasia in human saphenous veins cultured ex vivo via a catalase-dependent pathway.

Isoarnottinin 4'-glucoside, a glycosylated coumarin from *Prangos uloptera*, with biological activity.

Stress resistance conferred by neuronal expression of dominant-negative Rac in adult *Drosophila melanogaster*.

Unbalanced MMP/TIMP-1 expression during the development of experimental pulmonary fibrosis with acute paraquat poisoning.

Urine arsenic and hypertension in US adults: the 2003-2008 National Health and Nutrition Examination Survey.

Carnosine protects against the neurotoxic effects of a serotonin-derived melanoid.

Inactivation of *Salmonella* in organic soil by cinnamaldehyde, eugenol, Ecotrol, and Sporan.

Relationship between metabolic disorders and relative risk values of brain infarction estimated by protein-conjugated acrolein, IL-6 and CRP together with age.

Brain infarction correlates more closely with acrolein than with reactive oxygen species.

Anti-acrolein treatment improves behavioral outcome and alleviates myelin damage in experimental autoimmune encephalomyelitis mouse.

Mitochondrial dysfunction in skin fibroblasts from a Parkinson's disease patient with an alpha-synuclein triplication.

Therapeutic effects of cinnamaldehyde and potentiation of its efficacy in combination with methylcellulose on murine oral candidiasis.

[Occupational exposure to pesticides among farmers of the $\text{Å}^3\text{d}^{\text{e}}$ voivodeship agricultural area].

Use of polyamine metabolites as markers for stroke and renal failure.

Consumption of hydrogen water reduces paraquat-induced acute lung injury in rats.

Differential antiproliferation effect of 2'-benzoyloxycinnamaldehyde in K-ras-transformed cells via downregulation of thiol antioxidants.

Patch testing for food-associated allergies in orofacial granulomatosis.

2'-Hydroxycinnamaldehyde targets low-density lipoprotein receptor-related protein-1 to inhibit lipopolysaccharide-induced microglial activation.

HbMyb1, a Myb transcription factor from *Hevea brasiliensis*, suppresses stress induced cell death in transgenic tobacco.

Poly(ADP-ribose) polymerase-1 protects from oxidative stress induced endothelial dysfunction.

Acrolein sensitizes human renal cancer Caki cells to TRAIL-induced apoptosis via ROS-mediated up-regulation of death receptor-5 (DR5) and down-regulation of Bcl-2.

Generation of reactive oxygen species in 1-methyl-4-phenylpyridinium (MPP+) treated dopaminergic neurons occurs as an NADPH oxidase-dependent two-wave cascade.

Preferential activation of the vagal nodose nociceptive subtype by TRPA1 agonists in the guinea pig esophagus.

Rac-dependent doubling of HeLa cell area and impairment of cell migration and cell cycle by compounds from *Iris germanica*.

Botrytone, a new naphthalenone pentaketide produced by *Botrytis fabae*, the causal agent of chocolate spot disease on *Vicia faba*.

Urinary arsenic speciation profiles in mice subchronically exposed to low concentrations of sodium arsenate in drinking water.

Unraveling the role of fermentation in the mode of action of acetolactate synthase inhibitors by metabolic profiling.

Combined proteomic and transcriptomic analysis of the response of *Bacillus anthracis* to oxidative stress.

Proteomics of the oxidative stress response induced by hydrogen peroxide and paraquat reveals a novel AhpC-like protein in *Pseudomonas aeruginosa*.

Light history influences the response of the marine cyanobacterium *Synechococcus* sp. WH7803 to oxidative stress.

Overexpression of 2-cysteine peroxiredoxin enhances tolerance to methyl viologen-mediated oxidative stress and high temperature in potato plants.

Glyphosate reduces urediniospore development and *Puccinia psidii* disease severity on *Eucalyptus grandis*.

Accumulation and residue of napropamide in alfalfa (*Medicago sativa*) and soil involved in toxic response.

The homeobox protein CEH-23 mediates prolonged longevity in response to impaired mitochondrial electron transport chain in *C. elegans*.

Fibroblasts from long-lived bird species are resistant to multiple forms of stress.

Cigarette smoke and α,β -unsaturated aldehydes elicit VEGF release through the p38 MAPK pathway in human airway smooth muscle cells and lung fibroblasts.

Murine hepatic aldehyde dehydrogenase 1a1 is a major contributor to oxidation of aldehydes formed by lipid peroxidation.

Influence of diquat on growth and death of HepG2 cells using quartz crystal and micro CCD camera.

Phytotoxic, antifungal activities and acute toxicity studies of the crude extract and compounds from *Diospyros canaliculata*.

The chemotherapy metabolite acrolein upregulates thrombin generation and impairs the protein C anticoagulant pathway in animal-based and cell-based models.

Metabolic sugar signal promotes *Arabidopsis* meristematic proliferation via G2.

Effects of exogenous glutathione on arsenic burden and NO metabolism in brain of mice exposed to arsenite through drinking water.

[Modulation of T1R chemosensory receptors for sweet nutrients - new paradigms in metabolic regulation].

The significance of serum xanthine oxidase and oxidation markers in acute paraquat poisoning in humans.

Alteration of GSK-3 β in the hippocampus and other brain structures after chronic paraquat administration in rats.

Increased oxidative/nitrosative stress markers measured non-invasively in patients with high 2,3,7,8-tetrachloro-dibenzo-p-dioxin plasma level.

JNK3-mediated apoptotic cell death in primary dopaminergic neurons.

Predicting the risk of cardiovascular disease in people exposed to moderate to high levels of dioxin.

A single mid-gestation exposure to TCDD yields a postnatal autoimmune signature, differing by sex, in early geriatric C57BL/6 mice.

Chronic subhepatotoxic exposure to arsenic enhances hepatic injury caused by high fat diet in mice.

The polymorphisms of P53 codon 72 and MDM2 SNP309 and renal cell carcinoma risk in a low arsenic exposure area.

Effects of oleanolic acid on pulmonary morphofunctional and biochemical variables in experimental acute lung injury.

Intermittent iron supplementation for reducing anaemia and its associated impairments in menstruating women.

Community-led initiative for control of anemia among children 6 to 35 months of age and unmarried adolescent girls in rural Wardha, India.

Molecular aspects of dopaminergic neurodegeneration: gene-environment interaction in parkin dysfunction.

Correlation of seven biological factors (Hsp90a, p53, MDM2, Bcl-2, Bax, Cytochrome C, and Cleaved caspase3) with clinical outcomes of ALK+ anaplastic large-cell lymphoma.

The management of iron deficiency in menometrorrhagia.

Controlling viral immuno-inflammatory lesions by modulating aryl hydrocarbon receptor signaling.

Environmental- and injury-related epidemic-assistance investigations, 1946-2005.

17 β -estradiol protects the lung against acute injury: possible mediation by vasoactive intestinal polypeptide.

Antiplatelet effect by p-cresol, a uremic and environmental toxicant, is related to inhibition of reactive oxygen species, ERK/p38 signaling and thromboxane A2 production.

Activation of the aryl hydrocarbon receptor by TCDD inhibits mammary tumor metastasis in a syngeneic mouse model of breast cancer.

Mutated p.4894 RyR1 function related to malignant hyperthermia and congenital neuromuscular disease with uniform type 1 fiber (CNMDU1).

Aryl hydrocarbon receptor-mediated induction of Stearoyl-CoA desaturase 1 alters hepatic fatty acid composition in TCDD-elicited steatosis.

Mitochondrial respiratory complex I dysfunction promotes tumorigenesis through ROS alteration and AKT activation.

Neuroprotective efficacy of curcumin in arsenic induced cholinergic dysfunctions in rats.

Effect of Helicobacter pylori infection on iron absorption in asymptomatic adults consuming wheat flour fortified with iron and zinc.

The OBELIX project: early life exposure to endocrine disruptors and obesity.

MicroRNAs in inflammation and response to injuries induced by environmental pollution.

Weekly iron supplementation for the prevention of anemia in pre-school children: a randomized, double-blind, placebo-controlled trial.

Low-level subchronic arsenic exposure from prenatal developmental stages to adult life results in an impaired glucose homeostasis.

Supplementation with oral vs. intravenous iron for anemia with IBD or gastrointestinal bleeding: is oral iron getting a bad rap?

Polymorphism of the aryl-hydrocarbon receptor gene in intron 10 of human cancers.

Endocrine disrupting chemicals and disease susceptibility.

Mitochondrial ERK plays a key role in μ -opioid receptor neuroprotection against acute mitochondrial dysfunction.

Efficacy and safety of oral iron(III) polymaltose complex versus ferrous sulfate in pregnant women with iron-deficiency anemia: a multicenter, randomized, controlled study.

Increased hepatic Igf2 gene expression involves C/EBP β in TCDD-induced teratogenesis in rats.

Air pollution in autoimmune rheumatic diseases: a review.

Potential protective mechanisms of aryl hydrocarbon receptor (AHR) signaling in benign prostatic hyperplasia.

Arsenite induces cell transformation by reactive oxygen species, AKT, ERK1/2, and p70S6K1.

Discovery of potent, selective, and orally bioavailable alkynylphenoxyacetic acid CRTH2 (DP2) receptor antagonists for the treatment of allergic inflammatory diseases.

Nrf2 protects against 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD)-induced oxidative injury and steatohepatitis.

An endogenous tumour-promoting ligand of the human aryl hydrocarbon receptor.

Role of dialysis technology in the removal of uremic toxins.

[Implementation and impact of the National Iron Supplementation Program in the city of Viçosa, State of Minas Gerais].

Consumption patterns and risk assessment of crab consumers from the Newark Bay Complex, New Jersey, USA.

The possible roles of environmental factors and the aryl hydrocarbon receptor in the prevalence of thyroid diseases in Vietnam era veterans.

Activation of the aryl hydrocarbon receptor suppresses sensitization in a mouse peanut allergy model.

Intraperitoneal N-acetylcysteine for acute iron intoxication in rats.

Lithium protects against oxidative stress-mediated cell death in α -synuclein-overexpressing in vitro and in vivo models of Parkinson's disease.

CD82 gene suppression in endometrial stromal cells leads to increase of the cell invasiveness in the endometriotic milieu.

Animal models of Parkinson's disease: a source of novel treatments and clues to the cause of the disease.

Molecular targets that link dioxin exposure to toxicity phenotypes.

Hemoglobin regeneration efficiency in anemic rats: effects on bone mineral composition and biomechanical properties.

Inhibition of fatty acid amide hydrolase suppresses referred hyperalgesia induced by bladder inflammation.

Comparative toxicity of arsenic metabolites in human bladder cancer EJ-1 cells.

The p38 MAPK inhibitor SB203580 induces cytochrome P450 1A1 gene expression in murine and human hepatoma cell lines through ligand-dependent aryl hydrocarbon receptor activation.

Discovery and biological characterization of 1-(1H-indol-3-yl)-9H-pyrido[3,4-b]indole as an aryl hydrocarbon receptor activator generated by photoactivation of tryptophan by sunlight.

Impact of prophylactic iron supplementation in healthy pregnant women on maternal iron status and birth outcome.

Methyl bromide poisoning presenting as acute ataxia.

Immune interactions in endometriosis.

Association of oxidative stress with the formation of reproductive toxicity from mercury exposure on hermaphrodite nematode *Caenorhabditis elegans*.

Calcium does not inhibit the absorption of 5 milligrams of nonheme or heme iron at doses less than 800 milligrams in nonpregnant women.

Colonic contribution to uremic solutes.

2,4-dinitrophenol (DNP): a weight loss agent with significant acute toxicity and risk of death.

Vascular hyperpermeability in response to inflammatory mustard oil is mediated by Rho kinase in mice systemically exposed to arsenic.

Cyanogenic glucosides in the biological warfare between plants and insects: the Burnet moth-Birdsfoot trefoil model system.

Development of fortified biscuit using NaFeEDTA.

Vitamin B12 protects against superoxide-induced cell injury in human aortic endothelial cells.

Metabolomics analysis reveals elevation of 3-indoxyl sulfate in plasma and brain during chemically-induced acute kidney injury in mice: investigation of nicotinic acid receptor agonists.

Determination of uremic solutes in biological fluids of chronic kidney disease patients by HPLC assay.

Comparison of the concentrations of polychlorinated biphenyls and dioxins in mothers affected by the Yusho incident and their children.

The embryology of the diaphragm.

Changes in iron-regulatory gene expression occur in human cell culture models of Parkinson's disease.

Identification of differentially expressed genes in the livers of chronically i-As-treated hamsters.

Blunted increase in serum hepcidin as response to oral iron in HFE-hemochromatosis.

Surprises perilous: toxic health hazards for employees unloading fumigated shipping containers.

Genetic architecture of susceptibility to PCB126-induced developmental cardiotoxicity in zebrafish.

Involvement of microRNAs in dioxin-induced liver damage in the mouse.

Proton MR spectroscopy of neural stem cells: does the proton-NMR peak at 1.28 ppm function as a biomarker for cell type or state?

Urinary trichlorophenol levels and increased risk of attention deficit hyperactivity disorder among US school-aged children.

Interactive effect of arsenic and fluoride on cardio-respiratory disorders in male rats: possible role of reactive oxygen species.

Fulminant hepatic failure in woman with iron and non-steroidal anti-inflammatory drug intoxication.

Illness associated with exposure to methyl bromide-fumigated produce--California, 2010.

Distinct role of Hsp70 in *Drosophila* hemocytes during severe hypoxia.

Protein-bound uremic toxins: new insight from clinical studies.

Environmental factors and endometriosis.

The epidemiology and type of medication errors reported to the National Poisons Information Centre of Ireland.

De novo once-monthly darbepoetin alpha treatment for the anemia of chronic kidney disease using a computerized algorithmic approach.

The response of HMGA1 to changes in oxygen availability is evolutionarily conserved.

The effect of the uremic toxin cyanate (CNO²⁻) on anaerobic cysteine metabolism and oxidative processes in the rat liver: a protective effect of lipoate.

Inducers of chemical hypoxia act in a gender- and brain region-specific manner on primary astrocyte viability and cytochrome C oxidase.

Effect of oral exposure to fenitrothion and 3-methyl-4-nitrophenol on splenic cell populations and histopathological alterations in spleen in Wistar rats.

Mitochondrial dysfunction and oxidative stress contribute to the pathogenesis of spinocerebellar ataxia type 12 (SCA12).

Defects in myoglobin oxygenation in K(ATP)-deficient mouse hearts under normal and stress conditions characterized by near infrared spectroscopy and imaging.

Konzo: from poverty, cassava, and cyanogen intake to toxico-nutritional neurological disease.

Effect of urinary total arsenic level and estimated glomerular filtration rate on the risk of renal cell carcinoma in a low arsenic exposure area.

Review of metastasizing (malignant) ameloblastoma (METAM): pattern of metastasis and treatment.

Life span and locomotor activity modification by glucose and polyphenols in *Drosophila melanogaster* chronically exposed to oxidative stress-stimuli: implications in Parkinson's disease.

Activation of aryl hydrocarbon receptor induces vascular inflammation and promotes atherosclerosis in apolipoprotein E^{-/-} mice.

In vitro and in vivo evaluation of chemically modified degradable starch microspheres for topical haemostasis.

Exposure to iodomethane and dichloromethane associated with a confusional state.

Prenatal administration of retinoic acid upregulates connective tissue growth factor in the nitrofen CDH model.

The role of primary myogenic regulatory factors in the developing diaphragmatic muscle in the nitrofen-induced diaphragmatic hernia.

Long-term effects on humoral immunity among workers exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Global DNA methylation in the mouse liver is affected by methyl deficiency and arsenic in a sex-dependent manner.

Regulation of type 17 helper T-cell function by nitric oxide during inflammation.

Antenatal sildenafil treatment attenuates pulmonary hypertension in experimental congenital diaphragmatic hernia.

Relative survival after exposure to polychlorinated biphenyls and dioxins: a follow-up of Japanese patients affected in the Yusho incident.

Vascular incompetence in dialysis patients--protein-bound uremic toxins and endothelial dysfunction.

Clearance of p-cresol sulfate and β_2 -microglobulin from dialysate by commercially available sorbent technology.

[Non dietetic environmental risk factors in prostate cancer].

Fortification iron as ferrous sulfate plus ascorbic acid is more rapidly absorbed than as sodium iron EDTA but neither increases serum nontransferrin-bound iron in women.

A threshold area ratio of organic to conventional agriculture causes recurrent pathogen outbreaks in organic agriculture.

Concomitant exposure to arsenic and organophosphates on tissue oxidative stress in rats.

Urinary p-cresol is elevated in small children with severe autism spectrum disorder.

Impacts of environmental toxicants on male reproductive dysfunction.

Perinatal exposure to low doses of dioxin can permanently impair human semen quality.

2, 4-dinitrophenol poisoning caused by non-oral exposure.

Role of the xenobiotic receptor in inflammatory bowel disease.

Inverse associations between long-term weight change and serum concentrations of persistent organic pollutants.

Therapeutic efficacy of silymarin and naringenin in reducing arsenic-induced hepatic damage in young rats.

Antioxidant effect of vegetable oils containing conjugated linolenic acid isomers against induced tissue lipid peroxidation and inflammation in rat model.

Association between body mass index and arsenic methylation efficiency in adult women from southwest U.S. and northwest Mexico.

Plasma levels of polychlorinated biphenyls and risk of cutaneous malignant melanoma: a preliminary study.

Epidemiological approaches in the investigation of environmental causes of cancer: the case of dioxins and water disinfection by-products.

Uremic toxins inhibit transport by breast cancer resistance protein and multidrug resistance protein 4 at clinically relevant concentrations.

Enhancing transgenic pea (*Pisum sativum* L.) resistance against fungal diseases through stacking of two antifungal genes (chitinase and glucanase).

[Time serial changes in the concentrations of the related agents to fetal Yusho--dioxin-like PCBs and PCBs].

Recommendations on iron questioned.

Exclusively breastfed infants: iron recommendations are premature.

Concerns with early universal iron supplementation of breastfeeding infants.

Quantitation of branched-chain amino acids in ascites by capillary electrophoresis with light-emitting diode-induced fluorescence detection.

Prenatal administration of retinoic acid upregulates insulin-like growth factor receptors in the nitrofen-induced hypoplastic lung.

Uremic toxins and oral adsorbents.

Glutamate NMDA receptor dysregulation in Parkinson's disease with dyskinesias.

Iron homeostasis and nutritional iron deficiency.

Mitochondrial uncoupling agents trigger ventricular fibrillation in isolated rat hearts.

Resveratrol interacts with estrogen receptor- β to inhibit cell replicative growth and enhance stress resistance by upregulating mitochondrial superoxide dismutase.

Perspectives on the potential involvement of the AH receptor-dioxin axis in cardiovascular disease.

Iron deficiency up-regulates iron absorption from ferrous sulphate but not ferric pyrophosphate and consequently food fortification with ferrous sulphate has relatively greater efficacy in iron-deficient individuals.

L-cysteine as a regulator for arsenic-mediated cancer-promoting and anti-cancer effects.

Molecular and functional characterization of aryl hydrocarbon receptor nuclear translocator 1 (ARNT1) and ARNT2 in chicken (*Gallus gallus*).

Developmental dioxin exposure of either parent is associated with an increased risk of preterm birth in adult mice.

Developmental exposure to TCDD reduces fertility and negatively affects pregnancy outcomes across multiple generations.

Environmental toxicants and the developing immune system: a missing link in the global battle against infectious disease?

Prenatal TCDD in mice increases adult autoimmunity.

Aryl hydrocarbon receptor activation during pregnancy, and in adult nulliparous mice, delays the subsequent development of DMBA-induced mammary tumors.

Mushroom lectin protects arsenic induced apoptosis in hepatocytes of rodents.

Arsenite-induced apoptosis is prevented by selenite in A375 cell line.

Shelf stability, sensory qualities, and bioavailability of iron-fortified Nepalese curry powder.

Haemoglobin mass in an anaemic female endurance runner before and after iron supplementation.

Analysis of human cultured myotubes responses mediated by ryanodine receptor 1.

Effect of quercetin on formation of choroidal neovascularization (CNV) in age-related macular degeneration (AMD).

Clinical features and treatment in patients with acute 2,4-dinitrophenol poisoning.

The gut-kidney axis: indoxyl sulfate, p-cresyl sulfate and CKD progression.

Arsenic: toxicity, oxidative stress and human disease.

Alterations of excitation-contraction coupling and excitation coupled Ca^{2+} entry in human myotubes carrying CAV3 mutations linked to rippling muscle.

Real-time flow cytometry for the kinetic analysis of oncosis.

Protective role of exogenous α -lipoic acid (ALA) on hippocampal antioxidant status and memory function in rat pups exposed to sodium arsenite during the early post-natal period.

Aryl hydrocarbon receptor activation by TCDD reduces inflammation associated with Crohn's disease.

Suppression of cytokine-mediated complement factor gene expression through selective activation of the Ah receptor with 3',4'-dimethoxy- α -naphthoflavone.

Ah receptor antagonism inhibits constitutive and cytokine inducible IL6 production in head and neck tumor cell lines.

Gene expression alterations in immune system pathways in the thymus after exposure to immunosuppressive chemicals.

Effects of synbiotic treatment on serum level of p-cresol in haemodialysis patients: a preliminary study.

p-Cresyl sulphate and indoxyl sulphate predict progression of chronic kidney disease.

Recurrence of konzo in southern Tanzania: rehabilitation and prevention using the wetting method.

Assessing diet in populations at risk for konzo and neuroleptism.

Appearance of konzo in South-Kivu, a wartorn area in the Democratic Republic of Congo.

A case report of concomitant paroxysmal nocturnal hemoglobinuria and heterozygous β^0 -thalassemia.

On the biomarkers and mechanisms of konzo, a distinct upper motor neuron disease associated with food (cassava) cyanogenic exposure.

Uptake of wetting method in Africa to reduce cyanide poisoning and konzo from cassava.

Acute tubular necrosis due to cutaneous contact with cresol.

Oxidative stress and hepatic stellate cell activation are key events in arsenic induced liver fibrosis in mice.

Beneficial network effects of methylene blue in an amnesic model.

Neuroprotective effects of KR-62980, a new PPAR γ agonist, against chemical ischemia-reperfusion in SK-N-SH cells.

Aryl hydrocarbon receptor ligand 2,3,7,8-tetrachlorodibenzo-p-dioxin enhances liver damage in bile duct-ligated mice.

[Effect of iron supplementation on maximal oxygen uptake in female athletes].

Shared antigenicity between the polar filaments of myxosporeans and other Cnidaria.

Prenatal TCDD causes persistent modulation of the postnatal immune response, and exacerbates inflammatory disease, in 36-week-old lupus-like autoimmune SNF1 mice.

[Ferrous sulfate: acute poisoning with a frequent use drug].

Suppression of the proinflammatory response of metastatic melanoma cells increases TRAIL-induced apoptosis.

Case-control study of risk factors of myelodysplastic syndromes according to World Health Organization classification in a Chinese population.

Mutant SOD1 and mitochondrial damage alter expression and splicing of genes controlling neuritegenesis in models of neurodegeneration.

Expression of the Wilm's tumor gene WT1 during diaphragmatic development in the nitrofen model for congenital diaphragmatic hernia.

Downregulation of Midkine gene expression and its response to retinoic acid treatment in the nitrofen-induced hypoplastic lung.

Prenatal retinoic acid treatment upregulates late gestation lung protein 1 in the nitrofen-induced hypoplastic lung in late gestation.

Abnormal development of the enteric nervous system in rat embryos and fetuses with congenital diaphragmatic hernia.

Microscopic magnetic resonance imaging of the thoracic venous system in rats with congenital diaphragmatic hernia.

Effect of insulin-like growth factors on lung development in a nitrofen-induced CDH rat model.

Contribution of residual function to removal of protein-bound solutes in hemodialysis.

Resveratrol (3,5,4'-trihydroxystilbene) protects pregnant mother and fetus from the immunotoxic effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Simultaneous exposure of non-diabetics to high levels of dioxins and mercury increases their risk of insulin resistance.

Beers-Fick criteria and drugs available through the Farmácia Dose Certa program.

[Pharmacokinetics of iron medication and efficacy of therapy with oral iron supplementation].

[Polymorphism of TNF gene and CPOX gene in chemical industry workers].

Moderate NaFeEDTA and ferrous sulfate supplementation can improve both hematologic status and oxidative stress in anemic pregnant women.

Factors determining compliance to routine iron supplementation in pregnancy at the University of Portharcout Teaching Hospital.

Activation of aryl hydrocarbon receptor (AhR) leads to reciprocal epigenetic regulation of FoxP3 and IL-17 expression and amelioration of experimental colitis.

Total infusion of low molecular weight iron-dextran for treating postpartum anemia.

Does uremia cause vascular dysfunction?

Sequence analysis of MYOC and CYP1B1 in a Chinese pedigree of primary open-angle glaucoma.

p-Cresylsulfate and indoxyl sulfate level at different stages of chronic kidney disease.

Role of familial, environmental and occupational factors in the development of Parkinson's disease.

Chronic exposure to arsenite induces S100A8 and S100A9 expression in rat RBL-2H3 mast cells.

Metabolomic study of a rat fever model induced with 2,4-dinitrophenol and the therapeutic effects of a crude drug derived from *Coptis chinensis*.

Muscle weakness in Ryr1I4895T/WT knock-in mice as a result of reduced ryanodine receptor Ca²⁺ ion permeation and release from the sarcoplasmic reticulum.

Acute arsine poisoning confirmed by speciation analysis of arsenic compounds in the plasma and urine by HPLC-ICP-MS.

Phase III, randomized study of the effects of parenteral iron, oral iron, or no iron supplementation on the erythropoietic response to darbepoetin alfa for patients with chemotherapy-associated anemia.

Gene polymorphisms of glutathione S-transferase omega 1 and 2, urinary arsenic methylation profile and urothelial carcinoma.

Efficacy of intravenous iron for treating postpartum anemia in low-resource African countries: a pilot study in Malawi.

Down-regulation of lung Kruppel-like factor in the nitrofen-induced hypoplastic lung.

Inhibition of hexokinase leads to neuroprotection against excitotoxicity in organotypic hippocampal slice culture.

Basolateral potassium (IKCa) channel inhibition prevents increased colonic permeability induced by chemical hypoxia.

Downregulation of FGFR1 contributes to the development of the diaphragmatic defect in the nitrofen model of congenital diaphragmatic hernia.

Residential exposure to pesticides and childhood leukaemia: a systematic review and meta-analysis.

Prenatal treatment with retinoic acid activates parathyroid hormone-related protein signaling in the nitrofen-induced hypoplastic lung.

A comparison of the bioavailability of ferrous fumarate and ferrous sulfate in non-anemic Mexican women and children consuming a sweetened maize and milk drink.

Gold kiwifruit consumed with an iron-fortified breakfast cereal meal improves iron status in women with low iron stores: a 16-week randomised controlled trial.

Cardioprotection induced by Na⁽⁺⁾/K⁽⁺⁾-ATPase activation involves extracellular signal-regulated kinase 1/2 and phosphoinositide 3-kinase/Akt pathway.

2,3,7,8-tetrachlorodibenzo-p-dioxin induced autophagy in a bovine kidney cell line.

Actions of juglone on energy metabolism in the rat liver.

The constitutively active Ah receptor (CA-AhR) mouse as a model for dioxin exposure - effects in reproductive organs.

A neural cell adhesion molecule-derived peptide, FGL, attenuates glial cell activation in the aged hippocampus.

All-trans retinoic acid protects against arsenic-induced uterine toxicity in female Sprague-Dawley rats.

Dietary ligands of the aryl hydrocarbon receptor induce anti-inflammatory and immunoregulatory effects on murine dendritic cells.

TRPV1, TRPA1, and CB1 in the isolated vagus nerve--axonal chemosensitivity and control of neuropeptide release.

Licorice extract increases cyclophosphamide teratogenicity by upregulating the expression of cytochrome P-450 2B mRNA.

Rat H9c2 cardiac myocytes are sensitive to arsenite due to a modest activation of transcription factor Nrf2.

Sodium arsenite dependent protein expression analysis on human embryonic carcinoma (NCCIT) cell line.

Vanin-1: a potential biomarker for nephrotoxicant-induced renal injury.

Flavonoids and oxidative stress in *Drosophila melanogaster*.

Isolation and functional characterization of a cotton ubiquitination-related promoter and 5'UTR that drives high levels of expression in root and flower tissues.

Visualization of mitochondrial respiratory function using cytochrome c oxidase/succinate dehydrogenase (COX/SDH) double-labeling histochemistry.

Oxidative stress and leaf senescence.

Natural toxins implicated in the development of Parkinson's disease.

Dose-dependent urinary phenotype of inorganic arsenic methylation in mice with a focus on trivalent methylated metabolites.

Non-dioxin-like polychlorinated biphenyls interfere with neuronal differentiation of embryonic neural stem cells.

The aryl hydrocarbon receptor agonist 2,3,7,8-tetrachloro-dibenzo-p-dioxin (TCDD) alters early embryonic development in a rat IVF exposure model.

A novel application of the Margin of Exposure approach: segregation of tobacco smoke toxicants.

Mixture toxicity of S(N)2-reactive soft electrophiles: 2-evaluation of mixtures containing ethyl $\hat{\iota}$ -halogenated acetates.

Site-specific proteomic analysis of lipoxidation adducts in cardiac mitochondria reveals chemical diversity of 2-alkenal adduction.

Effect of a volatile smoke component (acrolein) on human gingival fibroblasts: An in vitro study.

Transient receptor potential A1 channels: insights into cough and airway inflammatory disease.

Assessing the application of acute toxic gas standards.

Effects of dioxin exposure in *Eisenia andrei*: integration of biomarker data by an Expert System to rank the development of pollutant-induced stress syndrome in earthworms.

Long-term food-exposure of zebrafish to PCB mixtures mimicking some environmental situations induces ovary pathology and impairs reproduction ability.

Hepatic in vitro toxicity assessment of PBDE congeners BDE47, BDE153 and BDE154 in Atlantic salmon (*Salmo salar* L.).

Attenuating effect of lycopene and ellagic acid on 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced spermotoxicity and testicular apoptosis.

Sodium arsenite-induced alteration in hepatocyte function of rat with special emphasis on superoxide dismutase expression pathway and its prevention by mushroom lectin.

Oxidative modifications of proteins by sodium arsenite in human umbilical vein endothelial cells.

Zebrafish eleutheroembryos provide a suitable vertebrate model for screening chemicals that impair thyroid hormone synthesis.

On the antioxidant properties of kynurenic acid: free radical scavenging activity and inhibition of oxidative stress.

A metabolic system-wide characterisation of the pig: a model for human physiology.

The leader protein of cardioviruses inhibits stress granule assembly.

Dioxin exposure and age of pubertal onset among Russian boys.

Protective effects of methanol extracts from *Cladonia rangiformis* and *Umbilicaria vellea* against known mutagens sodium azide and 9-aminoacridine.

Aryl hydrocarbon receptor-dependent upregulation of Cyp1b1 by TCDD and diesel exhaust particles in rat brain microvessels.

Effect of the traditional Chinese medicine tongxinluo on endothelial dysfunction rats studied by using urinary metabolomics based on liquid chromatography-mass spectrometry.

C-Jun N-terminal kinase controls TDP-43 accumulation in stress granules induced by oxidative stress.

Characterization of iodinated adrenomedullin derivatives suitable for lung nuclear medicine.

Hydroxytyrosol, the phenolic compound of olive oil protects human PBMC against oxidative stress and DNA damage mediated by 2,3,7,8-TCDD.

Vacuolar H⁺-ATPase c protects glial cell death induced by sodium nitroprusside under glutathione-depleted condition.

Epigenetic control of embryonic renal cell differentiation by L1 retrotransposon.

Organic anion transporters play an important role in the uptake of p-cresyl sulfate, a uremic toxin, in the kidney.

Combined effect of fluoride and 2,3,7,8-tetrachlorodibenzo-p-dioxin on mouse dental hard tissue formation in vitro.

Protective role of *Moringa oleifera* (Sajina) seed on arsenic-induced hepatocellular degeneration in female albino rats.

[Thiamine and its derivatives in the regulation of cell metabolism].

DORMEX-hydrogen cyanamide poisoning.

Pesticide risk mitigation by vegetated treatment systems: a meta-analysis.

Soil suppressiveness against the disease complex of the soybean cyst nematode and sudden death syndrome of soybean.

A flow cytometry based oligotrophic pollutant exposure test to detect bacterial growth inhibition and cell injury.

Effect of oral coadministration of artesunate with ferrous sulfate on rat liver mitochondrial membrane permeability transition.

Reduced cytochrome P4501A activity and recovery from oxidative stress during subchronic benzo[a]pyrene and benzo[e]pyrene treatment of rainbow trout.

A study of the relative importance of the peroxiredoxin-, catalase-, and glutathione-dependent systems in neural peroxide metabolism.

Effect of deferasirox on iron absorption in a randomized, placebo-controlled, crossover study in a human model of acute supratherapeutic iron ingestion.

Effect of magnesium deficiency on antioxidant status and cadmium toxicity in rice seedlings.

5-S-GAD attenuates Fe²⁺-induced lipid peroxidation and cell death in a neuronal cell model.

Effect of restraint stress on 2,3,7,8 tetrachloro dibenzo-p-dioxin induced testicular and epididymal toxicity in rats.

Sodium arsenite and hyperthermia modulate cisplatin-DNA damage responses and enhance platinum accumulation in murine metastatic ovarian cancer xenograft after hyperthermic intraperitoneal chemotherapy (HIPEC).

Role of zebrafish cytochrome P450 CYP1C genes in the reduced mesencephalic vein blood flow caused by activation of AHR2.

Mitochondrial uncoupling agents antagonize rotenone actions in rat substantia nigra dopamine neurons.

Mitochondrial dysfunction and insulin resistance: the contribution of dioxin-like substances.

Metam sodium intoxication: the specific role of degradation products--methyl isothiocyanate and carbon disulphide--as a function of exposure.

Oral ferrous sulfate does not increase preoperative hemoglobin in patients scheduled for hip or knee arthroplasty.

Artemisinin production in *Artemisia annua*: studies in planta and results of a novel delivery method for treating malaria and other neglected diseases.

Apolipoprotein D alters the early transcriptional response to oxidative stress in the adult cerebellum.

Arsenic affects expression and processing of amyloid precursor protein (APP) in primary neuronal cells overexpressing the Swedish mutation of human APP.

TRP channels: emerging targets for respiratory disease.

Acute exposure to 2,4-dinitrophenol alters zebrafish swimming performance and whole body triglyceride levels.

Effect of sodium arsenite dose administered in the drinking water on the urinary bladder epithelium of female arsenic (+3 oxidation state) methyltransferase knockout mice.

Assessing the genotoxic potentials of arsenic in tilapia (*Oreochromis mossambicus*) using alkaline comet assay and micronucleus test.

The generation of olfactory epithelial neurospheres in vitro predicts engraftment capacity following transplantation in vivo.

Development of disease-resistant marker-free tomato by R/RS site-specific recombination.

Activation of the aryl hydrocarbon receptor during pregnancy in the mouse alters mammary development through direct effects on stromal and epithelial tissues.

The differentiation of cardiomyocytes from mouse embryonic stem cells is altered by dioxin.

Management of Verticillium Wilt of Potato with Disease-Suppressive Green Manures and as Affected by Previous Cropping History.

[Astaxanthin inhibits sodium azide-induced cytotoxicity in hepatocyte L-02 cells probably by H⁺ transferring function].

Effect of efflux pump inhibitors on drug susceptibility of ofloxacin resistant *Mycobacterium tuberculosis* isolates.

Effect of pertussis toxin and herbimycin A on proteinase-activated receptor 2-mediated cyclooxygenase 2 expression in *Helicobacter pylori*-infected gastric epithelial AGS cells.

Novel hormonal delivery method using the ink-jet technology: application to pulmonary insulin therapies.

Acute toxicity of organic chemicals to *Gammarus pulex* correlates with sensitivity of *Daphnia magna* across most modes of action.

2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD)-induced cytotoxicity accompanied by oxidative stress in rat Sertoli cells: Possible role of mitochondrial fractions of Sertoli cells.

Effect of dioxin exposure on several indices of blood redox status in lactating buffalo cows.

Cigarette smoke increases susceptibility to tuberculosis--evidence from in vivo and in vitro models.

Free radical production, antioxidant capacity, and oxidative stress response signatures in fibroblasts from Lewis dwarf rats: effects of life span-extending peripubertal GH treatment.

2,3,7,8-Tetrachlorodibenzo-p-dioxin impairs iron homeostasis by modulating iron-related proteins expression and increasing the labile iron pool in mammalian cells.

SMN deficiency reduces cellular ability to form stress granules, sensitizing cells to stress.

Tissue-specific and dose-related accumulation of arsenic in mouse offspring following maternal consumption of arsenic-contaminated water.

Dioxin exposure of human CD34+ hemopoietic cells induces gene expression modulation that recapitulates its in vivo clinical and biological effects.

Activity-based protein profiling of organophosphorus and thiocarbamate pesticides reveals multiple serine hydrolase targets in mouse brain.

[The difference between male and female dioxin concentrations in the blood of Yusho patients].

[Relationship between half-lives of blood dioxins and possible metabolic mechanism].

c-Src is required for complex formation between the hepatitis C virus-encoded proteins NS5A and NS5B: a prerequisite for replication.

2,3,7,8-tetrachlorodibenzo-p-dioxin potentially attenuates the gene expression of pituitary gonadotropin β -subunits in a fetal age-specific fashion: a comparative study using cultured pituitaries.

Protective effect of pretreatment with cilostazol on cytotoxicity of cadmium and arsenite in cultured vascular endothelial cells.

2,3,7,8-Tetrachlorodibenzo-p-dioxin alters sebaceous gland cell differentiation in vitro.

Retention and maternal transfer of brominated dioxins in zebrafish (*Danio rerio*) and effects on reproduction, aryl hydrocarbon receptor-regulated genes, and ethoxyresorufin-O-deethylase (EROD) activity.

Dioxin toxicity, aryl hydrocarbon receptor signaling, and apoptosis-persistent pollutants affect programmed cell death.

Stability of tissue PO₂ in the face of altered perfusion: a phenomenon specific to the renal cortex and independent of resting renal oxygen consumption.

Light- and sodium azide-induced death of RGC-5 cells in culture occurs via different mechanisms.

Acute disruption of bone marrow hematopoiesis by benzo(a)pyrene is selectively reversed by aryl hydrocarbon receptor-mediated processes.

Production of marker-free disease-resistant potato using isopentenyl transferase gene as a positive selection marker.

The lampricide 3-trifluoromethyl-4-nitrophenol (TFM) uncouples mitochondrial oxidative phosphorylation in both sea lamprey (*Petromyzon marinus*) and TFM-tolerant rainbow trout (*Oncorhynchus mykiss*).

Cyclooxygenase-2 contributes to functional changes seen on experimental hemorrhagic cystitis induced by ifosfamide in rat urinary bladder.

Coenzyme Q10 counteracts testicular injury induced by sodium arsenite in rats.

Realgar and realgar-containing Liu-Shen-Wan are less acutely toxic than arsenite and arsenate.

Hepatic transcriptomic responses to TCDD in dioxin-sensitive and dioxin-resistant rats during the onset of toxicity.

Manganese uptake and distribution in the brain after methyl bromide-induced lesions in the olfactory epithelia.

Cell death induction and nitric oxide biosynthesis in white poplar (*Populus alba*) suspension cultures exposed to alfalfa saponins.

Impurity spectroscopy at its ultimate limit: relation between bulk spectrum, inhomogeneous broadening, and local disorder by spectroscopy of (nearly) all individual dopant molecules in solids.

Chlorinated benzenes cause concomitantly oxidative stress and induction of apoptotic markers in lung epithelial cells (A549) at nonacute toxic concentrations.

Effects of spermidine and p-cresol on polymorphonuclear cell apoptosis and function.

Polymorphisms in arsenic(+III oxidation state) methyltransferase (AS3MT) predict gene expression of AS3MT as well as arsenic metabolism.

C-reactive protein makes human endothelium stiff and tight.

Stiff endothelial cell syndrome in vascular inflammation and mineralocorticoid excess.

Measuring the toxicity of alkyl-phenanthrenes to early life stages of medaka (*Oryzias latipes*) using partition-controlled delivery.

Structural insight into human variegate porphyria disease.

Neural precursor cell proliferation is disrupted through activation of the aryl hydrocarbon receptor by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Intracellular trafficking of hyaluronic acid-chitosan oligomer-based nanoparticles in cultured human ocular surface cells.

Regulation and dysregulation of vitellogenin mRNA accumulation in daphnids (*Daphnia magna*).

Realgar- and cinnabar-containing an-gong-niu-huang wan (AGNH) is much less acutely toxic than sodium arsenite and mercuric chloride.

Serum paraquat concentration detected by spectrophotometry in patients with paraquat poisoning.

Saturated hydrogen saline protects rats from acute lung injury induced by paraquat.

Imaging in detecting sites of pulmonary fibrosis induced by paraquat.

Acute mitochondrial actions of glitazones on the liver: a crucial parameter for their antidiabetic properties.

Three-generation experiment showed female C57BL/6J mice drink drainage canal water containing low level of TCDD-like activity causing high pup mortality.

Efficacy, Tolerability, and Acceptability of Iron Hydroxide Polymaltose Complex versus Ferrous Sulfate: A Randomized Trial in Pediatric Patients with Iron Deficiency Anemia.

Mortality from Parkinson's disease and other causes among a workforce manufacturing paraquat: a retrospective cohort study.

Regulation of oxidative stress response by CosR, an essential response regulator in *Campylobacter jejuni*.

Reduction in protein-bound solutes unacceptable as marker of dialysis efficacy during alternate-night nocturnal hemodialysis.

Evaluation of oxidative stress status in children with pervasive developmental disorder and attention deficit hyperactivity disorder using urinary-specific biomarkers.

Shellfish and residual chemical contaminants: hazards, monitoring, and health risk assessment along French coasts.

Enhanced hepatotoxicity induced by repeated exposure to polychlorinated biphenyls and 2,3,7,8-tetrachlorodibenzo-p-dioxin in combination in male rats.

NTP toxicity studies of toxicity studies of 2,4-decadienal (CAS No. 25152-84-5) administered by gavage to F344/N Rats and B6C3F1 mice.

Assessment of risk of PCDD/Fs and dioxin-like PCBs in marine and freshwater fish in Pearl River Delta, China.

Glutathione biosynthesis via activation of the nuclear factor E2-related factor 2 (Nrf2)--antioxidant-response element (ARE) pathway is essential for neuroprotective effects of sulforaphane and 6-(methylsulfinyl) hexyl isothiocyanate.

DNA damage induced by shikonin in the presence of Cu(II) ions: potential mechanism of its activity to apoptotic cell death.

Metabolic response to low-level toxicant exposure in a novel renal tubule epithelial cell system.

Broad-range antagonistic rhizobacteria *Pseudomonas fluorescens* and *Serratia plymuthica* suppress *Agrobacterium* crown gall tumours on tomato plants.

Oxidatively generated DNA damage after Cu(II) catalysis of dopamine and related catecholamine neurotransmitters and neurotoxins: Role of reactive oxygen species.

Differential long-term effects of developmental exposure to polychlorinated biphenyls 52, 138 or 180 on motor activity and neurotransmission. Gender dependence and mechanisms involved.

Î²-dicarbonyl enolates: a new class of neuroprotectants.

Characterization of Hsp70 gene in *Chironomus riparius*: expression in response to endocrine disrupting pollutants as a marker of ecotoxicological stress.

Chronic hyperglycemia reduces substrate oxidation and impairs metabolic switching of human myotubes.

Cardiac-specific overexpression of catalase attenuates paraquat-induced myocardial geometric and contractile alteration: role of ER stress.

Prior exposure to organophosphorus and organochlorine pesticides increases the allergic potential of environmental chemical allergens in a local lymph node assay.

Paraquat induces cyclooxygenase-2 (COX-2) implicated toxicity in human neuroblastoma SH-SY5Y cells.

Structural effects of the bioavailable fraction of pesticides in soil: suitability of elutriate testing.

Cytotoxicity and gene array analysis of alveolar epithelial A549 cells exposed to paraquat.

Interactions of environmental stressors impact survival and development of parasitized larval amphibians.

Association of the superoxide dismutase (V16A) and catalase (C262T) genetic polymorphisms with the clinical outcome of patients with acute paraquat intoxication.

A fatal case of paraquat ingestion: clinical course and review of pathophysiology.

[Hypothetical link between endometriosis and xenobiotics-associated genetically modified food].

Calorie restriction reduces oxidative stress by SIRT3-mediated SOD2 activation.

Synergistic effects of environmental risk factors and gene mutations in Parkinson's disease accelerate age-related neurodegeneration.

Rosmarinic acid antagonized 1-methyl-4-phenylpyridinium (MPP⁺)-induced neurotoxicity in MES23.5 dopaminergic cells.

Effects of prenatal exposure to a low dose atrazine metabolite mixture on pubertal timing and prostate development of male Long-Evans rats.

The neuroprotective effect of talipexole from paraquat-induced cell death in dopaminergic neuronal cells.

Variable toxicological response to the loss of OXPHOS through 1-methyl-4-phenylpyridinium-induced mitochondrial damage and anoxia in diverse neural immortal cell lines.

Robust crop resistance to broadleaf and grass herbicides provided by aryloxyalkanoate dioxygenase transgenes.

Relative inhibitory potency of molinate and metabolites with aldehyde dehydrogenase 2: implications for the mechanism of enzyme inhibition.

Modelling effects of diquat under realistic exposure patterns in genetically differentiated populations of the gastropod *Lymnaea stagnalis*.

Molecular mechanisms of pesticide-induced neurotoxicity: Relevance to Parkinson's disease.

[Effects of enalapril on IL-1beta, IL-6 expression in rat lung exposure to acrolein].

[Effects of enalapril on NF-kappaB expression in mucus hypersecretion rats induced by acrolein exposure].

[Effects of acrolein exposure on the expression of Muc5ac in the airway of rats].

[Study on the change of angiotensin II expression in rat lung exposure to acrolein].

Nitric oxide in paraquat-mediated toxicity: A review.

Severe systemic intoxication following triclopyr-TEA ingestion.

A low concentration of atrazine does not influence the acute toxicity of the insecticide terbufos or its breakdown products to *Chironomus tepperi*.

Additive toxicity of herbicide mixtures and comparative sensitivity of tropical benthic microalgae.

Upregulation of peripubertal rat Leydig cell steroidogenesis following 24 h in vitro and in vivo exposure to atrazine.

Glyphosate-surfactant herbicide-induced reversible encephalopathy.

Rasagiline protects against alpha-synuclein induced sensitivity to oxidative stress in dopaminergic cells.

Dose response assessment for effects of acute exposure to methyl isothiocyanate (MITC).

Sensitivity of lamprey ammocoetes to six chemicals.

Transplantation of microbenthic algal assemblages to assess structural and functional recovery after diuron exposure.

Glyphosate-based herbicides produce teratogenic effects on vertebrates by impairing retinoic acid signaling.

Exposure to acrolein by inhalation causes platelet activation.

[Fatal calcium cyanide and ethyl alcohol abuse: Is there an antidote?].

[Clinical analysis of five cases of necrosis of femoral head after acute paraquat poisoning].

[Clinical data analysis of severe acute paraquat poisoning].

[Role of connective tissue growth factor and α -smooth muscle actin in pulmonary fibrosis among acute paraquat poisoned rats].

Exposure to sublethal concentration of glyphosate or atrazine-based herbicides alters the phagocytic function and increases the susceptibility of silver catfish fingerlings (*Rhamdia quelen*) to *Aeromonas hydrophila* challenge.

Effects of Roundup Transorb on fish: hematology, antioxidant defenses and acetylcholinesterase activity.

Characterization of the human HSC20, an unusual DnaJ type III protein, involved in iron-sulfur cluster biogenesis.

Evaluation of single and joint toxic effects of diuron and its main metabolites on natural phototrophic biofilms using a pollution-induced community tolerance (PICT) approach.

[Experimental therapy of penehyclidine hydrochloride on paraquat-induced acute lung injury].

Effect of glutathione administration on serum levels of reactive oxygen metabolites in patients with paraquat intoxication: a pilot study.

Roundup and amphibians: the importance of concentration, application time, and stratification.

Validation test with embryonic and larval stages of *Chordodes nobilii* (Gordiida, Nematomorpha): sensitivity to three reference toxicants.

Impacts of mixtures of herbicides on molecular and physiological responses of the European flounder *Platichthys flesus*.

Role of autophagy in protection afforded by hypoxic preconditioning against MPP⁺-induced neurotoxicity in SH-SY5Y cells.

Acute toxicity of rice paddy herbicides simetryn, mefenacet, and thiobencarb to *Silurana tropicalis* tadpoles.

Identification of PDL-1 as a novel biomarker of sensitizer exposure in dendritic-like cells.

Hydrolysis of benzonitrile herbicides by soil actinobacteria and metabolite toxicity.

Dietary olive oil effect on antioxidant status and fatty acid profile in the erythrocyte of 2,4-D- exposed rats.

Hepatotoxicity induced by sub-acute exposure of rats to 2,4-Dichlorophenoxyacetic acid based herbicide "DÃ©sormone lourde".

Chlorothalonil and 2,4-D losses in surface water discharge from a managed turf watershed.

Toxicity of the herbicide atrazine: effects on lipid peroxidation and activities of antioxidant enzymes in the freshwater fish *Channa punctatus* (Bloch).

Predicting acute complicated glyphosate intoxication in the emergency department.

Acute atrazine exposure disrupts matrix metalloproteinases and retinoid signaling during organ morphogenesis in *Xenopus laevis*.

Repeated pesticide exposure among North Carolina migrant and seasonal farmworkers.

Acute and chronic toxicity of Roundup Weathermax and Ignite 280 SL to larval *Spea multiplicata* and *S. bombifrons* from the Southern High Plains, USA.

Evaluation of side-effects of glyphosate mediated control of giant reed (*Arundo donax*) on the structure and function of a nearby Mediterranean river ecosystem.

Paraquat exposure induces nuclear translocation of glyceraldehyde-3-phosphate dehydrogenase (GAPDH) and the activation of the nitric oxide-GAPDH-Siah cell death cascade.

Involvement of nitric oxide in maneb- and paraquat-induced Parkinson's disease phenotype in mouse: is there any link with lipid peroxidation?

Identifying major pesticides affecting bivalve species exposed to agricultural pollution using multi-biomarker and multivariate methods.

Increased reactive oxygen species production in the brain after repeated low-dose pesticide paraquat exposure in rats. A comparison with peripheral tissues.

Morphological damages of a glyphosate-treated human keratinocyte cell line revealed by a micro- to nanoscale microscopic investigation.

Protective effect of quercetin against paraquat-induced lung injury in rats.

Inhibitory concentrations of 2,4D and its possible intermediates in sulfate reducing biofilms.

[Paraquat lung and monoamine transporter].

[Analysis of factors related to sudden death of patients with acute paraquat poisoning].

Case series of 2,4-D poisoning in Tikur Anbessa Teaching Hospital.

Severe paraquat poisoning: clinical and radiological findings in a survivor.

Systemic contact dermatitis presenting as lichen planus of the lip.

Spectrum of corrosive esophageal injury after intentional paraquat ingestion.

An interesting case of iron deficiency anemia.

A deuterohemin peptide extends lifespan and increases stress resistance in *Caenorhabditis elegans*.

Wastewater treatment plant modeling supported toxicity identification and evaluation of a tank truck cleaning effluent.

Derived Reference Doses (RfDs) for the environmental degradates of the herbicides alachlor and acetochlor: results of an independent expert panel deliberation.

Paraquat and Parkinson's disease.

Self-reported exposure to pesticides in residential settings and risk of breast cancer: a case-control study.

Glucocorticoid with cyclophosphamide for paraquat-induced lung fibrosis.

PO43- dependence of the tolerance of autotrophic and heterotrophic biofilm communities to copper and diuron.

Fatality in paraquat poisoning.

Resveratrol protects human retinal pigment epithelial cells from acrolein-induced damage.

Postmortem distribution of ametryn in the blood and organ tissues of an herbicide-poisoning victim.

Paraquat ingestion: a challenging diagnosis.

The use of epidemiological evidence in the compensation of veterans.

Simvastatin attenuates acrolein-induced mucin production in rats: involvement of the Ras/extracellular signal-regulated kinase pathway.

Immunotoxicity of paraquat after subacute exposure to mice.

Potential role of acrolein in neurodegeneration and in Alzheimer's disease.

The toxic influence of paraquat on hippocampus of mice: involvement of oxidative stress.

Caffeine protects against combined paraquat and maneb-induced dopaminergic neuron degeneration.

Activation of apoptosis signal-regulating kinase 1 is a key factor in paraquat-induced cell death: modulation by the Nrf2/Trx axis.

Acrolein increases 5-lipoxygenase expression in murine macrophages through activation of ERK pathway.

Light modulated toxicity of isoproturon toward natural stream periphyton photosynthesis: a comparison between constant and dynamic light conditions.

Gene transcription in *Daphnia magna*: effects of acute exposure to a carbamate insecticide and an acetanilide herbicide.

Atrazine affects kidney and adrenal hormones (AHs) related genes expressions of rare minnow (*Gobiocypris rarus*).

Peripheral burning sensation: a novel clinical marker of poor prognosis and higher plasma-paraquat concentrations in paraquat poisoning.

Mortality patterns of Army Chemical Corps veterans who were occupationally exposed to herbicides in Vietnam.

Assessment of oxidative stress in *Rhamdia quelen* exposed to agrichemicals.

Spontaneous mutation frequency is elevated in skin of harlequin (hq)/Big Blue mice.

Identifying pesticide use patterns among flower growers to assess occupational exposure to mixtures.

Mitochondrial uncoupling protein-2 (UCP2) mediates leptin protection against MPP⁺ toxicity in neuronal cells.

Lysosomal degradation of alpha-synuclein in vivo.

Effect of 2,4-dichlorophenoxyacetic acid on milk transfer to the litter and prolactin release in lactating rats.

[Thyroid disruption induced by pentachlorophenol].

[Hemoperfusion for treatment of one case of acute paraquat poisoning].

[Rescue and treatment of two cases of acute severe paraquat poisoning].

[Expression of angiotensin converting enzyme and angiotensin converting enzyme 2 gene in lung of paraquat poisoning rats and protection of sodium dimercaptopropane sulfonate].

[Analysis of cardiac toxicity caused by cyclophosphamide in the H9c2 cell line and isolated and perfused rat hearts].

Oral administration of paraquat perturbs immunoglobulin productivity in mouse.

Urethral carcinoma and hyperplasia in male and female B6C3F1 mice treated with 3,3',4,4'-tetrachloroazobenzene (TCAB).

Degradation of bromoxynil and trifluralin in natural water by direct photolysis and UV plus H₂O₂ advanced oxidation process.

Cigarette smoke total particulate matter increases mucous secreting cell numbers in vitro: a potential model of goblet cell hyperplasia.

Increased expression of endothelial iNOS accounts for hyporesponsiveness of pulmonary artery to vasoconstrictors after paraquat poisoning.

Larval responses of three midwestern anurans to chronic, low-dose exposures of four herbicides.

Changes in sperm characteristics and induction of oxidative stress in the testis and epididymis of experimental rats by a herbicide, atrazine.

Transposon insertion in a serine-specific minor tRNA coding sequence affects intraperitoneal survival of Haemophilus influenzae in the infant rat model.

Suppression of ROS generation by 4,4-diaminodiphenylsulfone in non-phagocytic human diploid fibroblasts.

[Relationship between paraquat tissue content and organ injury in paraquat poisoning rats].

[Changes of proteomics in the lung of rats subjected to acrolein inhalation after enalapril administration].

[Changes of proteomics in the injured lung of adult rats subjected to acrolein inhalation].

Effect of 2,4-D and isoproturon on chromosomal disturbances during mitotic division in root tip cells of *Triticum aestivum* L.

Acute human self-poisoning with bispyribac-containing herbicide Nominee: a prospective observational study.

Acrolein induces apoptosis through the death receptor pathway in A549 lung cells: role of p53.

Co-tolerance of phytoplankton communities to photosynthesis II inhibitors.

Effects of sub-chronic exposure to terbutryn in common carp (*Cyprinus carpio* L.).

Intermediate filament carbonylation during acute acrolein toxicity in A549 lung cells: functional consequences, chaperone redistribution, and protection by bisulfite.

Water-Soluble alpha,beta-unsaturated aldehydes of cigarette smoke induce carbonylation of human serum albumin.

Perturbation of lipids and glucose metabolism associated with previous 2,4-D exposure: a cross-sectional study of NHANES III data, 1988-1994.

Involvement of TRPA1 in ET-1-induced pain-like behavior in mice.

Pesticide use and thyroid disease among women in the Agricultural Health Study.

Acrolein consumption induces systemic dyslipidemia and lipoprotein modification.

Toxicity of smoke extracts towards A549 lung cells: role of acrolein and suppression by carbonyl scavengers.

[Rescue and treatment of 18 cases of acute paraquat poisoning].

A prospective observational study of the clinical toxicology of glyphosate-containing herbicides in adults with acute self-poisoning.

Biomonitoring data for 2,4-dichlorophenoxyacetic acid in the United States and Canada: interpretation in a public health risk assessment context using Biomonitoring Equivalents.

Plasma level of malondialdehyde in the cases of acute paraquat intoxication.

Oxidative stress induced by loss of Cu,Zn-superoxide dismutase (SOD1) or superoxide-generating herbicides causes axonal degeneration in mouse DRG cultures.

Synthesis of sphingosine is essential for oxidative stress-induced apoptosis of photoreceptors.

Rg1 protects the MPP⁺-treated MES23.5 cells via attenuating DMT1 up-regulation and cellular iron uptake.

The effects of polyphenols on survival and locomotor activity in *Drosophila melanogaster* exposed to iron and paraquat.

Toxicokinetics and recovery studies of dicamba dimethyl amine salt in goats following single oral administration.

Neuronal elasticity as measured by atomic force microscopy.

Molecular regulations induced by acrolein in neuroblastoma SK-N-SH cells: relevance to Alzheimer's disease.

[Acute poisoning due to chemical substances inducing methemoglobinemia--two cases report].

Neurotoxic in vivo models of Parkinson's disease recent advances.

Rhinitis associated with pesticide use among private pesticide applicators in the agricultural health study.

Modeling and prediction for the acute toxicity of pesticide mixtures to the freshwater luminescent bacterium *Vibrio qinghaiensis* sp.-Q67.

[Clinical research on high-dosage ambroxol hydrochloride associated with ulinastatin in improvement of lung tissue injury of patients with paraquat poisoning].

Confirmed 2,4-dichlorophenoxyacetic acid toxicosis in a dog.

Roundup causes oxidative stress in liver and inhibits acetylcholinesterase in muscle and brain of the fish *Prochilodus lineatus*.

Failed rescue therapy with rapamycin after paraquat intoxication.

NF-kappaB mediates MPP+-induced apoptotic cell death in neuroblastoma cells SH-EP1 through JNK and c-Jun/AP-1.

Cause-specific mortality of Dutch chlorophenoxy herbicide manufacturing workers.

Phytotoxicity of atrazine, isoproturon, and diuron to submersed macrophytes in outdoor mesocosms.

Acetaminophen, via its reactive metabolite N-acetyl-p-benzo-quinoneimine and transient receptor potential ankyrin-1 stimulation, causes neurogenic inflammation in the airways and other tissues in rodents.

Liposomal-glutathione provides maintenance of intracellular glutathione and neuroprotection in mesencephalic neuronal cells.

New approach to study the mechanism of antimicrobial protection of an active packaging.

Environmental damage to the retina and preconditioning: contrasting effects of light and hyperoxic stress.

DJ-1 as a modulator of autophagy: an hypothesis.

Effects of pharmacological agents on the lifespan phenotype of *Drosophila* DJ-1beta mutants.

Effect of zinc and paraquat co-exposure on neurodegeneration: Modulation of oxidative stress and expression of metallothioneins, toxicant responsive and transporter genes in rats.

Correlation between images of silent brain infarction, carotid atherosclerosis and white matter hyperintensity, and plasma levels of acrolein, IL-6 and CRP.

Subanesthetic dose of isoflurane protects against zymosan-induced generalized inflammation and its associated acute lung injury in mice.

Effects of exogenous GSH and methionine on methylation of inorganic arsenic in mice exposed to arsenite through drinking water.

Cytotoxic effect of trans-cinnamaldehyde on human leukemia K562 cells.

Antibiofilm effect of trans-cinnamaldehyde on uropathogenic *Escherichia coli*.

Arsenic trioxide and ascorbic acid demonstrate promising activity against primary human CLL cells in vitro.

Increased levels of 4-hydroxynonenal and acrolein in the brain in preclinical Alzheimer disease.

Insulinotropic effect of cinnamaldehyde on transcriptional regulation of pyruvate kinase, phosphoenolpyruvate carboxykinase, and GLUT4 translocation in experimental diabetic rats.

Modulation of the reaction of vascular smooth muscle cells to angiotensin II induced by catalase and aminotriazol during ischemia-reperfusion.

The cinnamon-derived dietary factor cinnamic aldehyde activates the Nrf2-dependent antioxidant response in human epithelial colon cells.

Lipid peroxidation product acrolein as a predictive biomarker of prostate carcinoma relapse after radical surgery.

Cinnamaldehyde impairs high glucose-induced hypertrophy in renal interstitial fibroblasts.

Impact of smoking and chewing tobacco on arsenic-induced skin lesions.

[Effect of hepatocarcinogenicity of estragole on the glucocorticoid-mediated induction of liver-specific enzymes and the activity of the transcription factors FOXA and HNF4 in the liver of mouse and rat].

Intense correlation between protein-conjugated acrolein and primary Sjögren's syndrome.

Cinnamaldehyde in feedlot cattle diets: intake, growth performance, carcass characteristics, and blood metabolites.

Potential effects of the herbicide Diuron on mammary and urinary bladder two-stage carcinogenesis in a female Swiss mouse model.

Modulation of SCF beta-TrCP-dependent I kappaB alpha ubiquitination by hydrogen peroxide.

Intersex gonads in frogs: understanding the time course of natural development and role of endocrine disruptors.

Toxicity of a serotonin-derived neuromelanin.

Identification of acrolein-conjugated protein in plasma of patients with brain infarction.

±-Synuclein gene may interact with environmental factors in increasing risk of Parkinson's disease.

Role of by-products of lipid oxidation in Alzheimer's disease brain: a focus on acrolein.

Robinetinidol-(4beta-->8)-epigallocatechin 3-O-gallate, a galloyl dimer prorobinetinidin from *Acacia mearnsii* De Wild, effectively protects human neuroblastoma SH-SY5Y cells against acrolein-induced oxidative damage.

Modulation of hydrogen peroxide and acrolein-induced oxidative stress, mitochondrial dysfunctions and redox regulated pathways by the *Bacopa monniera* extract: potential implication in Alzheimer's disease.

Therapeutic effects on murine oral candidiasis by oral administration of cassia (*Cinnamomum cassia*) preparation.

Dihydrochalcones: Implication in resistance to oxidative stress and bioactivities against advanced glycation end-products and vasoconstriction.

Ozone activates airway nerves via the selective stimulation of TRPA1 ion channels.

Dose response to cinnamaldehyde supplementation in growing beef heifers: ruminal and intestinal digestion.

Structural analysis and the effect of cyclo(His-Pro) dipeptide on neurotoxins--a dynamics and density functional theory study.

Effects of repeated seafood consumption on urinary excretion of arsenic species by volunteers.

A mitochondrial superoxide signal triggers increased longevity in *Caenorhabditis elegans*.

Effects of protons and HZE particles on glutamate transport in astrocytes, neurons and mixed cultures.

An h-type thioredoxin functions in tobacco defense responses to two species of viruses and an abiotic oxidative stress.

Gypenosides protects dopaminergic neurons in primary culture against MPP(+)-induced oxidative injury.

Comparison of glutathione peroxidase 1 and peroxiredoxin 6 in protection against oxidative stress in the mouse lung.

Protective effects of the synthetic cannabinoids CP55,940 and JWH-015 on rat brain mitochondria upon paraquat exposure.

The protective role of D-glucose against 1-methyl-4-phenylpyridinium ion (MPP+): induced mitochondrial dysfunction in C6 astroglial cells.

Evidence for the pathophysiological relevance of TRPA1 receptors in the cardiovascular system in vivo.

Uterine FK506-binding protein 52 (FKBP52)-peroxiredoxin-6 (PRDX6) signaling protects pregnancy from overt oxidative stress.

Induction of heme oxygenase-1 by whisky congeners in human endothelial cells.

Association of genetic variation in cystathionine-beta-synthase and arsenic metabolism.

Increasing mitochondrial superoxide dismutase abundance leads to impairments in protein quality control and ROS scavenging systems and to lifespan shortening.

Selective induction of catalase-mediated autophagy by dihydrocapsaicin in lung cell lines.

Paraquat-induced oxidative stress represses phosphatidylinositol 3-kinase activities leading to impaired glucose uptake in 3T3-L1 adipocytes.

JNK3 mediates paraquat- and rotenone-induced dopaminergic neuron death.

SIRT1 promotes proliferation and prevents senescence through targeting LKB1 in primary porcine aortic endothelial cells.

A plant-tissue-based biophotonic method for herbicide sensing.

Prophylactic treatment with *Bacopa monnieri* leaf powder mitigates paraquat-induced oxidative perturbations and lethality in *Drosophila melanogaster*.

Transgenerational memory effect of ageing in *Drosophila*.

Enantioselective degradation in sediment and aquatic toxicity to *Daphnia magna* of the herbicide lactofen enantiomers.

Hydrogen peroxide inhibits exercise-induced increase of circulating stem cells with endothelial progenitor capacity.

Cinnamaldehyde up-regulates the mRNA expression level of TRPV1 receptor potential ion channel protein and its function in primary rat DRG neurons in vitro.

Structural and functional changes in the insulin molecule produced by oxidative stress.

[Prof. Dr. Ivãin Bernãjt (1915-1991)].

Effect of defatted methanolic extract of *Holarrhena floribunda* leaves in sodium arsenite-induced clastogenicity in Wistar albino rats.

The nephrologist as a consultant for acute poisoning: epidemiology of severe poisonings in the State of Rio Grande do Sul and techniques to enhance renal elimination.

Presence of arsenic resistance in *Salmonella enterica* serovar Kentucky and other serovars isolated from poultry.

Occupational neurological disorders in Korea.

[Effects of Î±-lipoic acid and vitamin C on oxidative stress in rat exposed to chronic arsenic toxicity].

Aryl hydrocarbon receptor nuclear translocator in hepatocytes is required for aryl hydrocarbon receptor-mediated adaptive and toxic responses in liver.

Thyroid follicular lesions induced by oral treatment for 2 years with 2,3,7,8-tetrachlorodibenzo-p-dioxin and dioxin-like compounds in female Harlan Sprague-Dawley rats.

A novel cell permeant peptide inhibitor of MAPKAP kinase II inhibits intimal hyperplasia in a human saphenous vein organ culture model.

Characterization of developmental neurotoxicity of As, Cd, and Pb mixture: synergistic action of metal mixture in glial and neuronal functions.

Intracellular ROS level is increased in fibroblasts of triple A syndrome patients.

An endogenous aryl hydrocarbon receptor ligand acts on dendritic cells and T cells to suppress experimental autoimmune encephalomyelitis.

Aqueous and ethanolic leaf extracts of *Ocimum basilicum* (sweet basil) protect against sodium arsenite-induced hepatotoxicity in Wistar rats.

Anticonvulsant effect of (E)-2-benzylidene-4-phenyl-1,3-diselenole in a pilocarpine model in mice.

[Inspect aging psoriasis patients minutely! Psoriasis or skin cancer?].

The aryl hydrocarbon receptor-interacting protein (AIP) is required for dioxin-induced hepatotoxicity but not for the induction of the Cyp1a1 and Cyp1a2 genes.

Functional analysis of six human aryl hydrocarbon receptor variants in human breast cancer and mouse hepatoma cell lines.

Dioxin toxicity in vivo results from an increase in the dioxin-independent transcriptional activity of the aryl hydrocarbon receptor.

Tyrosine sulfation of the amino terminus of PSGL-1 is critical for enterovirus 71 infection.

Breast cancer stem-like cells are inhibited by a non-toxic aryl hydrocarbon receptor agonist.

Toxicology and carcinogenesis studies of 2,3',4,4',5-pentachlorobiphenyl (PCB 118) (CAS No. 31508-00-6) in female harlan Sprague-Dawley rats (gavage studies).

Embryonic Wnt gene expression in the nitrofen-induced hypoplastic lung using 3-dimensional imaging.

Iron pill-induced tumefactive mucosal injury of the hypopharynx.

A case of black urine and dark skin - cresol poisoning.

Interrelationship between exposure to PCDD/Fs and hypertension in metabolic syndrome in Taiwanese living near a highly contaminated area.

Recruitment maneuver in experimental acute lung injury: the role of alveolar collapse and edema.

A single prenatal exposure to the endocrine disruptor 2,3,7,8-tetrachlorodibenzo-p-dioxin alters developmental myelination and remyelination potential in the rat brain.

TCDD induced pericardial edema and relative COX-2 expression in medaka (*Oryzias Latipes*) embryos.

NMR-based metabonomic analysis of the hepatotoxicity induced by combined exposure to PCBs and TCDD in rats.

Toxicogenomic analysis of exposure to TCDD, PCB126 and PCB153: identification of genomic biomarkers of exposure to AhR ligands.

hsa-miR-191 is a candidate oncogene target for hepatocellular carcinoma therapy.

The activated aryl hydrocarbon receptor synergizes mitogen-induced murine liver hyperplasia.

Long-lasting effects of chemical hypoxia on spinal cord function in tadpoles.

Arsenic-induced cell proliferation is associated with enhanced ROS generation, Erk signaling and CyclinA expression.

[Establishment of an erythroleukemia model in CB6F1 mice by transplant with haploidentical mouse leukemic cell line FBL-3].

Connective tissue growth factor expression pattern in lung development.

Clinical, pathologic, and ultrastructural studies of progressive macular hypomelanosis.

Abnormal platelet-derived growth factor signaling accounting for lung hypoplasia in experimental congenital diaphragmatic hernia.

Home intervention improves cognitive and social-emotional scores in iron-deficient anemic infants.

Lymphocyte-based determination of susceptibility to malignant hyperthermia: a pilot study in swine.

Field scale evaluation of volatile organic compound production inside biosecure swine mortality composts.

Cytochrome P4501A1 is required for vascular dysfunction and hypertension induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Dioxins, the aryl hydrocarbon receptor and the central regulation of energy balance.

Prenatal retinoic acid upregulates pulmonary gene expression of PI3K and AKT in nitrofen-induced pulmonary hypoplasia.

Short course pre-operative ferrous sulphate supplementation--is it worthwhile in patients with colorectal cancer?

The Drosophila vesicular monoamine transporter reduces pesticide-induced loss of dopaminergic neurons.

Facile synthesis of carbon-11-labeled cholesterol-based cationic lipids as new potential PET probes for imaging of gene delivery in cancer.

Strepsils® tablets reduce sore throat and hoarseness after tracheal intubation.

Food safety.

Identification and investigation of mitochondria lacking cytochrome c oxidase activity in axons.

Mutant Parkin impairs mitochondrial function and morphology in human fibroblasts.

[Effect of ambroxol on lung development of rat models with nitrofen-induced congenital diaphragmatic hernia].

Heart tissue of harlequin (hq)/Big Blue mice has elevated reactive oxygen species without significant impact on the frequency and nature of point mutations in nuclear DNA.

Anti-mutagenic and pro-apoptotic effects of apigenin on human chronic lymphocytic leukemia cells.

Manipulating tumor acidification as a cancer treatment strategy.

Environmental and familial risk factors of Parkinsons disease: case-control study.

[Uremic toxins: the case of protein-bound compounds].

A survey of phytotoxic microbial and plant metabolites as potential natural products for pest management.

Reduction of cutaneous photosensitivity by application of ointment containing ferrous or cobaltous ions concomitant with the use of topical protoporphyrin IX precursors.

HET-CAM test for determining the possible eye irritancy of pesticides.

The novel role of fenofibrate in preventing nicotine- and sodium arsenite-induced vascular endothelial dysfunction in the rat.

A prospective randomized, controlled trial of intravenous versus oral iron for moderate iron deficiency anaemia of pregnancy.

Non-dioxin-like polychlorinated biphenyls and risk of endometriosis.

Protective role of tannin-rich fraction of *Camellia sinensis* in tissue arsenic burden in Sprague Dawley rats.

Sodium azide-associated laryngospasm after air bag deployment.

[The preliminary study on transforming growth factor-beta 3, activin receptor-like kinase 5 expression in 2, 3, 7, 8-tetrachloro-p-dibenzodioxin and dexamethasone induced palatal cleft in mice].

Antenatal steroid and tracheal occlusion restore vascular endothelial growth factor receptors in congenital diaphragmatic hernia rat model.

alpha-Synuclein- and MPTP-generated rodent models of Parkinson's disease and the study of extracellular striatal dopamine dynamics: a microdialysis approach.

Chloracne: still cause for concern.

'Fatal 2,4-dinitrophenol poisoning... coming to a hospital near you'.

Aryl hydrocarbon receptor activation reduces dendritic cell function during influenza virus infection.

Early onset of neurological symptoms in fragile X premutation carriers exposed to neurotoxins.

Serum levels of total p-cresylsulphate are associated with angiographic coronary atherosclerosis severity in stable angina patients with early stage of renal failure.

Does polyamine oxidase activity influence the oxidative metabolism of children who suffer of diabetes mellitus?

Assisted ventilation modes reduce the expression of lung inflammatory and fibrogenic mediators in a model of mild acute lung injury.

A novel role for the dioxin receptor in fatty acid metabolism and hepatic steatosis.

Activation of the aryl hydrocarbon receptor pathway may ameliorate dextran sodium sulfate-induced colitis in mice.

Serological cardiovascular and mortality risk predictors in dialysis patients receiving sevelamer: a prospective study.

[Diagnosis and treatment of iron deficiency without anaemia].

Arsenic antagonizes the Hedgehog pathway by preventing ciliary accumulation and reducing stability of the Gli2 transcriptional effector.

Elevated soluble transferrin receptor levels reflect increased erythropoietic drive rather than iron deficiency in pediatric sickle cell disease.

Iron deficiency induces changes in riboflavin secretion and the mitochondrial electron transport chain in hairy roots of *Hyoscyamus albus*.

Arsenic abrogates the estrogen-signaling pathway in the rat uterus.

Trait stacking in transgenic crops: challenges and opportunities.

[Chronic exposure to organochlorine compounds and health effects in adults: cancer, non-Hodgkin lymphoma. Review of literature].

Sub-chronic arsenic exposure aggravates nephrotoxicity in experimental diabetic rats.

Copper sulphate toxicity in a young male complicated by methemoglobinemia, rhabdomyolysis and renal failure.

Gene expression analysis in hypoplastic lungs in the nitrofen model of congenital diaphragmatic hernia.

Pesticide use and myocardial infarction incidence among farm women in the agricultural health study.

Polychlorinated dibenzofurans as a causal agent of fetal Yusho.

p-Cresol and cardiovascular risk in mild-to-moderate kidney disease.

2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) reverses hyperglycemia in a type II diabetes mellitus rat model by a mechanism unrelated to PPAR gamma.

Factors associated with blood concentrations of indoxyl sulfate and p-cresol in patients undergoing peritoneal dialysis.

Functional properties of RYR1 mutations identified in Swedish patients with malignant hyperthermia and central core disease.

Quantitative and statistical analysis of differences in sensitivity between Long-Evans and Han/Wistar rats following long-term exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

A pharmacokinetic and safety study of intravenous arsenic trioxide in adult cancer patients with renal impairment.

p52-Bcl3 complex promotes cyclin D1 expression in BEAS-2B cells in response to low concentration arsenite.

Metabolomic analysis of uremic toxins by liquid chromatography/electrospray ionization-tandem mass spectrometry.

Quercetin in vesicular delivery systems: evaluation in combating arsenic-induced acute liver toxicity associated gene expression in rat model.

Developmental exposure to polychlorinated biphenyls 52, 138 or 180 affects differentially learning or motor coordination in adult rats. Mechanisms involved.

Arsenite induces oxidative injury in rat brain: synergistic effect of iron.

Insulinlike growth factor receptor type 1 and type 2 are downregulated in the nitrofen-induced hypoplastic lung.

Metam sodium reduces viability and infectivity of Eimeria oocysts.

Malaria, Plasmodium falciparum and its apicoplast.

All the wrong moves: a clinical review of restless legs syndrome, periodic limb movements of sleep and wake, and periodic limb movement disorder.

Angiosarcoma: clinical and molecular insights.

Withdrawal symptoms after gabapentin discontinuation.

Functional studies of RYR1 mutations in the skeletal muscle ryanodine receptor using human RYR1 complementary DNA.

Toxicity of Bromkal 70-5DE, a technical mixture of polybrominated diphenyl ethers, following 28 d of oral exposure in rats and impact of analysed impurities.

Lactoferrin efficacy versus ferrous sulfate in curing iron deficiency and iron deficiency anemia in pregnant women.

Interpretation of studies on the developmental reproductive toxicology of 2,3,7,8-tetrachlorodibenzo-p-dioxin in male offspring.

Decrease in dietary K intake stimulates the generation of superoxide anions in the kidney and inhibits K secretory channels in the CCD.

2,3,7,8-tetrachlorodibenzo-p-dioxin impairs an insulin signaling pathway through the induction of tumor necrosis factor-alpha in adipocytes.

Effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin suggests abnormal palate development after palatal fusion.

Reversible mitochondrial uncoupling in the cold phase during liver preservation/reperfusion reduces oxidative injury in the rat model.

A stochastic whole-body physiologically based pharmacokinetic model to assess the impact of inter-individual variability on tissue dosimetry over the human lifespan.

In utero and lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) induces disruption of glands of the prostate and fibrosis in rhesus monkeys.

Once weekly low-dose iron supplementation effectively improved iron status in adolescent girls.

Hepatoprotective effects of apple polyphenols on CCl₄-induced acute liver damage in mice.

Deciphering diseases and biological targets for environmental chemicals using toxicogenomics networks.

Development of a selective modulator of aryl hydrocarbon (Ah) receptor activity that exhibits anti-inflammatory properties.

The availability of toxicological analyses for poisoned patients in Ireland.

The effect of in vitro tracheal occlusion on branching morphogenesis in fetal lung explants from the rat nitrofen model of congenital diaphragmatic hernia.

Increased exposure to dioxin-like compounds is associated with endometriosis in a case-control study in women.

New method for quantification of *Trypanosoma cruzi* in animal's tissue in the chronic phase of experimental Chagas' disease.

Progesterone receptor membrane component 1 (Pgrmc1): a heme-1 domain protein that promotes tumorigenesis and is inhibited by a small molecule.

Arsenic-induced myocardial injury: protective role of *Corchorus olitorius* leaves.

2,4-Dinitrophenol blocks neurodegeneration and preserves sciatic nerve function after trauma.

Disruption of CLOCK-BMAL1 transcriptional activity is responsible for aryl hydrocarbon receptor-mediated regulation of Period1 gene.

OECD validation of phase-3 Hershberger assay using the stimulated weanling male rat in Korea.

Incidence and risk factors for the development of anemia following gastric bypass surgery.

Complex gene-chemical interactions: hepatic uroporphyrin as a paradigm.

The role of calcium in modulating the reactivity of the smooth muscle cells during ischemia/reperfusion. Part 2.

Differential regulation of the dioxin-induced Cyp1a1 and Cyp1b1 genes in mouse hepatoma and fibroblast cell lines.

Dietary administration of sodium arsenite to rats: relations between dose and urinary concentrations of methylated and thio-metabolites and effects on the rat urinary bladder epithelium.

5-FU for genital warts in non-immunocompromised individuals.

Enhancement of TAT cell membrane penetration efficiency by dimethyl sulphoxide.

[Tungiasis in native Amerindians in VaupÃ©s province: epidemiology, clinical aspects, treatment, and prevention].

Randomized controlled trial of iron-fortified drinking water in preschool children.

Lactoferrin efficacy versus ferrous sulfate in curing iron disorders in pregnant and non-pregnant women.

Developmental profile in children with iron deficiency anemia and its changes after therapeutic iron supplementation.

Dioxin-like PCBs and endometriosis.

Adverse effects of drugs on the esophagus.

Expression and function of phosphodiesterases in nitrofen-induced congenital diaphragmatic hernia in rats.

In vitro inhibition of low density lipoprotein carbamylation by vitamins, as an ameliorating atherosclerotic risk in uremic patients.

Is there a role for antioxidants in prevention of pulmonary hypoplasia in nitrofen-induced rat model of congenital diaphragmatic hernia?

Temporal and anatomical sensitivities to the aryl hydrocarbon receptor agonist 2,3,7,8-tetrachlorodibenzo-p-dioxin leading to premature acyclicity with age in rats.

Suppression of experimental autoimmune uveoretinitis by inducing differentiation of regulatory T cells via activation of aryl hydrocarbon receptor.

HBx targeting to mitochondria and ROS generation are necessary but insufficient for HBV-induced cyclooxygenase-2 expression.

Free p-cresylsulphate is a predictor of mortality in patients at different stages of chronic kidney disease.

Revised recommendations for iron fortification of wheat flour and an evaluation of the expected impact of current national wheat flour fortification programs.

Antioxidant, antimutagenic, and antidiabetic activities of edible leaves from *Cnidocolus chayamansa* Mc. Vaugh.

Octatropine methyl bromide and diazepam combination (Valpinax) in patients with irritable bowel syndrome: a multicentre, randomized, placebo-controlled trial.

Out-of-hospital cardiac arrest caused by acute intoxication.

[Chemical contamination of the environment and development of allergic and autoimmune diseases].

Iron deficiency anemia in the pediatric emergency department.

Environmental toxins and Parkinson's disease: putative roles of impaired electron transport chain and oxidative stress.

Serum dioxin concentrations and time to pregnancy.

Motor neurone disease - a methyl bromide exposure cluster points to a causal mechanism.

Ischemia induces regulator of G protein signaling 2 (RGS2) protein upregulation and enhances apoptosis in astrocytes.

Stabilization of transcription factor Nrf2 by tBHQ prevents oxidative stress-induced amyloid beta formation in NT2N neurons.

Nonheme-iron absorption in first-degree relatives is highly correlated: a stable-isotope study in mother-child pairs.

Comparative contribution of the aryl hydrocarbon receptor gene to perinatal stage development and dioxin-induced toxicity between the urogenital complex and testis in the mouse.

Effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin on scratching behavior in mice.

Maintenance of elevated versus physiological iron indices in non-anaemic patients with chronic kidney disease: a randomized controlled trial.

Speciation of arsenic trioxide penetrates into cerebrospinal fluid in patients with acute promyelocytic leukemia.

Animal poisoning in Europe. Part 2: Companion animals.

Chronic diseases and early exposure to airborne mixtures: Part III. Potential origin of pre-menopausal breast cancers.

AHR activation by tryptophan--pathogenic hallmark of Th17-mediated inflammation in eosinophilic fasciitis, eosinophilia-myalgia-syndrome and toxic oil syndrome?

beta-TrCP inhibition reduces prostate cancer cell growth via upregulation of the aryl hydrocarbon receptor.

[A case of severe bronchial mucosal injury caused by iron pill aspiration].

Features and prognostic factors for elderly with acute poisoning in the emergency department.

Deliberate poisoning with dinitrophenol (DNP): an unlicensed weight loss pill.

Spatiotemporal alteration in phosphatidylinositide 3-kinase-serine/threonine protein kinase B signaling in the nitrofen-induced hypoplastic lung.

Bronchopulmonary innervation defects in infants and rats with congenital diaphragmatic hernia.

Iron supplementation for anemia after hip fracture surgery: a randomized trial of 300 patients.

Albumin as an adjunct to tracheal occlusion in fetal rats with congenital diaphragmatic hernia: a placebo-controlled study.

Androgenic regulation of ventral epithelial bud number and pattern in mouse urogenital sinus.

Expression of CXCL10 in cultured cortical neurons.

Ground-glass-like hepatocellular inclusions in the course of adult-onset Still's disease.

Activation of the aryl hydrocarbon receptor pathway enhances cancer cell invasion by upregulating the MMP expression and is associated with poor prognosis in upper urinary tract urothelial cancer.

In vitro studies with 'acatalasemic-like' erythrocytes and hydrogen peroxide: attention to the formation of lysis resistant erythrocytes.

PINK1 polymorphism IVS1-7 A-->G, exposure to environmental risk factors and anticipation of disease onset in Brazilian patients with early-onset Parkinson's Disease.

Ischemia-activated microglia induces neuronal injury via activation of gp91phox NADPH oxidase.

Proteomic remodelling of mitochondrial oxidative pathways in pressure overload-induced heart failure.

Increased levels of total P-Cresylsulphate and indoxyl sulphate are associated with coronary artery disease in patients with diabetic nephropathy.

[Neurodevelopmental disorders in response to hormonally active environmental pollutants].

Anti-mutagenic and anti-carcinogenic potential of the carotenoid meso-zeaxanthin.

A combination of iron and retinol supplementation benefits iron status, IL-2 level and lymphocyte proliferation in anemic pregnant women.

Inhibitory effects of uraemic toxins 3-indoxyl sulfate and p-cresol on losartan metabolism in vitro.

Difructose anhydride III enhances bioavailability of water-insoluble iron in anemic Vietnamese women.

Efficacy and safety of ferric carboxymaltose in correcting iron-deficiency anemia: a review of randomized controlled trials across different indications.

The biological basis of autism spectrum disorders: Understanding causation and treatment by clinical geneticists.

Indian spice curcumin may be an effective strategy to combat the genotoxicity of arsenic in Swiss albino mice.

Histopathological evaluation of root canal filling materials for primary teeth.

Managing nematodes without methyl bromide.

Effect of eradication of Helicobacter pylori and iron supplementation on the iron status of children with iron deficiency.

The effect of TCDD dioxin on the rat liver in biochemical and histological assessment.

[Risk factors for Parkinson disease: an epidemiologic study].

Pseudomelanosis of the stomach.

Dioxin and immune regulation: emerging role of aryl hydrocarbon receptor in the generation of regulatory T cells.

The involvement of hypophyseal-gonadal and hypophyseal-adrenal axes in arsenic-mediated ovarian and uterine toxicity: modulation by hCG.

Dioxin and endometrial progesterone resistance.

Receptor- and reactive intermediate-mediated mechanisms of teratogenesis.

The absence of interleukin-6 enhanced arsenite-induced renal injury by promoting autophagy of tubular epithelial cells with aberrant extracellular signal-regulated kinase activation.

Identification of bacteria enduring endodontic treatment procedures by a combined reverse transcriptase-polymerase chain reaction and reverse-capture checkerboard approach.

Bidirectional correlation of NMR and capillary electrophoresis fingerprints: a new approach to investigating *Schistosoma mansoni* infection in a mouse model.

Prevalence of orthorexia among medical students in Erzurum, Turkey.

Chemical target and pathway toxicity mechanisms defined in primary human cell systems.

Disturbance of parathyroid hormone-related protein signaling in the nitrofen-induced hypoplastic lung.

Microscopic magnetic resonance in congenital diaphragmatic hernia and associated malformations in rats.

Upregulation of endothelin receptors A and B in the nitrofen induced hypoplastic lung occurs early in gestation.

Downregulation of insulin-like growth factor binding protein 3 and 5 in nitrofen-induced pulmonary hypoplasia.

Neuroprotective effect of s-methylisothiourrea in transient focal cerebral ischemia in rat.

2,3,7,8-Tetrachlorodibenzo-p-dioxin inhibits fibroblast growth factor 10-induced prostatic bud formation in mouse urogenital sinus.

Protein-bound uraemic toxin removal in haemodialysis and post-dilution haemodiafiltration.

Early development of the primordial mammalian diaphragm and cellular mechanisms of nitrofen-induced congenital diaphragmatic hernia.

Laboratory scale evaluation of volatile organic compound emissions as indication of swine carcass degradation inside biosecure composting units.

p-Cresyl sulfate serum concentrations in haemodialysis patients are reduced by the prebiotic oligofructose-enriched inulin.

The safety and efficacy of continuous transcranial duplex Doppler monitoring of middle cerebral artery occlusion in acute stroke patients: comparison of TCDD and thrombolysis in MCA recanalization.

Assessment of the cytotoxicity and genotoxicity of haloacetic acids using microplate-based cytotoxicity test and CHO/HGPRT gene mutation assay.

Identification of the aryl hydrocarbon receptor target gene TiPARP as a mediator of suppression of hepatic gluconeogenesis by 2,3,7,8-tetrachlorodibenzo-p-dioxin and of nicotinamide as a corrective agent for this effect.

Evidence supporting a role for N-(3-formyl-3,4-dehydropiperidino)lysine accumulation in Müller glia dysfunction and death in diabetic retinopathy.

The malondialdehyde-derived fluorophore DHP-lysine is a potent sensitizer of UVA-induced photooxidative stress in human skin cells.

Dioxins and human toxicity.

Recombinant self-assembling peptides as biomaterials for tissue engineering.

Effect of intracellular photosensitized singlet oxygen production on the electrophysiological properties of cultured rat hippocampal neurons.

Association of the novel non-AT1, non-AT2 angiotensin binding site with neuronal cell death.

Effects of the compounds MV8608 and MV8612 obtained from *Mandevilla velutina* in the model of hemorrhagic cystitis induced by cyclophosphamide in rats.

Tissue-engineered conduit using urine-derived stem cells seeded bacterial cellulose polymer in urinary reconstruction and diversion.

Metals, oxidative stress and neurodegenerative disorders.

Numerical variations and spontaneous malformations in the early embryos of the Korean salamander, *Hynobius leechii*, in the farmlands of Korea.

Transcriptional regulation of ferritin and antioxidant genes by HIPK2 under genotoxic stress.

Evaluation of a bioluminescent mouse model expressing aromatase PII-promoter-controlled luciferase as a tool for the study of endocrine disrupting chemicals.

Injury and differentiation following inhibition of mitochondrial respiratory chain complex IV in rat oligodendrocytes.

The role of pramipexole in a severe Parkinson's disease model in mice.

Metabolic stress-induced programmed cell death in *Xanthomonas*.

Accumulation of current-use and organochlorine pesticides in crab embryos from northern California, USA.

Expression of pax6 and sox2 in adult olfactory epithelium.

Development of an acellular bioengineered matrix with a dominant vascular pedicle.

In vivo alternative assessment of the chemicals that interfere with anterior pituitary POMC expression and interrenal steroidogenesis in POMC: EGFP transgenic zebrafish.

2,3,7,8-Tetrachlorodibenzo-p-dioxin impairs stable establishment of oral tolerance in mice.

Discriminating between different acute chemical toxicities via changes in the daphnid metabolome.

Automated dose-response analysis and comparative toxicogenomic evaluation of the hepatic effects elicited by TCDD, TCDF, and PCB126 in C57BL/6 mice.

Chronic exposure to low levels of inorganic arsenic causes alterations in locomotor activity and in the expression of dopaminergic and antioxidant systems in the albino rat.

Role of dietary GSH in the amelioration of sodium arsenite-induced ovarian and uterine disorders.

Species-specific differential AhR expression protects human neural progenitor cells against developmental neurotoxicity of PAHs.

Serum protein-bound uraemic toxins and clinical outcomes in haemodialysis patients.

Acute toxicity of 3,3',4,4',5-pentachlorobiphenyl (PCB 126) in male Sprague-Dawley rats: effects on hepatic oxidative stress, glutathione and metals status.

Dig1 protects against cell death provoked by glyphosate-based herbicides in human liver cell lines.

Alkylation of the tumor suppressor PTEN activates Akt and β -catenin signaling: a mechanism linking inflammation and oxidative stress with cancer.

Quantitative measurement of Ca^{2+} in the sarcoplasmic reticulum lumen of mammalian skeletal muscle.

Debate on GMOs health risks after statistical findings in regulatory tests.

Intravenous lipid emulsion in clinical toxicology.

[Intervention effect of dimercaptopropansulfonate sodium on central toxic induced by bromoxynil in vivo].

Mammalian cell cytotoxicity and genotoxicity of the haloacetic acids, a major class of drinking water disinfection by-products.

Radiosynthesis of the candidate beta-amyloid radioligand [^{11}C]AZD2184: Positron emission tomography examination and metabolite analysis in cynomolgus monkeys.

Use of live imaging analysis for evaluation of cytotoxic chemicals that induce apoptotic cell death.

Incorporating human dosimetry and exposure into high-throughput in vitro toxicity screening.

Interaction between beet vinasse and iron fertilisers in the prevention of iron deficiency in lupins.

Evaluation of the genotoxicity of 10 selected dietary/environmental compounds with the in vitro micronucleus cytokinesis-block assay in an interlaboratory comparison.

Matrix metalloproteinase-9 and -2 expression in the olfactory bulb following methyl bromide gas exposure.

The defensive effect of benfotiamine in sodium arsenite-induced experimental vascular endothelial dysfunction.

Transcription of the Epstein-Barr virus lytic cycle activator BZLF-1 during oxidative stress induction.

Stress inducible heat shock protein 70: a potent molecular and toxicological signature in arsenic exposed broiler chickens.

Respiration-dependent H₂O₂ removal in brain mitochondria via the thioredoxin/peroxiredoxin system.

A system-level investigation into the cellular toxic response mechanism mediated by AhR signal transduction pathway.

Arsenic induces apoptosis of human umbilical vein endothelial cells through mitochondrial pathways.

Outcomes after radical prostatectomy among men who are candidates for active surveillance: results from the SEARCH database.

Regulation of the human CHOP gene promoter by the stress response transcription factor ATF5 via the AARE1 site in human hepatoma HepG2 cells.

Cytoprotective effects of silymarin on epithelial cells against arsenic-induced apoptosis in contrast with quercetin cytotoxicity.

Gene expression profile and cytotoxicity of human bronchial epithelial cells exposed to crotonaldehyde.

Inhibition of connexin 43 gap junction channels by the endocrine disruptor ioxynil.

A study of neurologic symptoms on exposure to organophosphate pesticides in the children of agricultural workers.

Genomic indicators in the blood predict drug-induced liver injury.

Complex phenotypes of a mutant inactivated for CymR, the global regulator of cysteine metabolism in *Bacillus subtilis*.

Mitochondrial depolarization underlies delay in permeability transition by preconditioning with isoflurane: roles of ROS and Ca²⁺.

Aldehyde dehydrogenase 2 knockout accentuates ethanol-induced cardiac depression: role of protein phosphatases.

Involvements of the lipid peroxidation product, HNE, in the pathogenesis and progression of Alzheimer's disease.

Deletion of the mitochondrial NADH kinase increases mitochondrial DNA stability and life span in the filamentous fungus *Podospora anserina*.

Expression profile of rat hippocampal neurons treated with the neuroprotective compound 2,4-dinitrophenol: up-regulation of cAMP signaling genes.

Acute copper supplementation does not inhibit non-heme iron bioavailability in humans.

Risk Assessment Methods for the Ringspot Pathogen *Mycosphaerella brassicicola* in Vegetable Brassica Crops.

Sensory detection and responses to toxic gases: mechanisms, health effects, and countermeasures.

Conserved structure of the chloroplast-DNA encoded D1 protein is essential for effective photoprotection via non-photochemical thermal dissipation in higher plants.

Lipid peroxidation-derived reactive aldehydes directly and differentially impair spinal cord and brain mitochondrial function.

Impacts of stage-specific acute pesticide exposure on predicted population structure of the soft-shell clam, *Mya arenaria*.

Toxicity of sodium arsenite in the gill of an economically important mollusc of India.

Association between As and Cu renal cortex accumulation and physiological and histological alterations after chronic arsenic intake.

Arsenic species, AS3MT amount, and AS3MT gene expression in different brain regions of mouse exposed to arsenite.

Enhanced translocation of bacteria across metabolically stressed epithelia is reduced by butyrate.

Mutagenic and antimutagenic effects of hexane extract of some *Astragalus* species grown in the eastern Anatolia region of Turkey.

A case of toxic epidermal necrolysis (ten) with severe chronic ocular complications in a healthy 46-year-old woman.

Methyl iodide poisoning presenting as a mimic of acute stroke: a case report.

Preliminary biochemical characterization of the novel, non-AT1, non-AT2 angiotensin binding site from the rat brain.

Nitrofen induces apoptosis independently of retinaldehyde dehydrogenase (RALDH) inhibition.

Stabilization of flux during dead-end ultra-low pressure ultrafiltration.

Multiple protective functions of catalase against intercellular apoptosis-inducing ROS signaling of human tumor cells.

2,3,7,8-Tetrachlorodibenzo-p-dioxin induces apoptosis in neural growth factor (NGF)-differentiated pheochromocytoma PC12 cells.

Metabolic correlations of glucocorticoids and polyamines in inflammation and apoptosis.

Inhibition of poly (ADP-Ribose) polymerase-1 in telomerase deficient mouse embryonic fibroblasts increases arsenite-induced genome instability.

Effects of folate on arsenic toxicity in Chang human hepatocytes: involvement of folate antioxidant properties.

2,3,7,8-tetrachlorodibenzo-p-dioxin increases reactive oxygen species production in human endothelial cells via induction of cytochrome P4501A1.

Dynamic zebrafish interactome reveals transcriptional mechanisms of dioxin toxicity.

Transient receptor potential channels as novel drug targets in respiratory diseases.

Anti-androgenic endocrine disrupting activities of chlorpyrifos and piperophos.

Effect of endocrine disrupting chemicals on the transcription of genes related to the innate immune system in the early developmental stage of zebrafish (*Danio rerio*).

Dioxin exposure disrupts the differentiation of mouse embryonic stem cells into cardiomyocytes.

Local maximum oxygen disappearance rate has limited utility as a measure of local renal tissue oxygen consumption.

The environmental toxicant 2,3,7,8-tetrachlorodibenzo-p-dioxin disturbs the establishment and maintenance of cell polarity in preimplantation rat embryos.

Changes in toxicity and dioxin-like activity of sediments from the Tiet  River (S o Paulo, Brazil).

Aryl hydrocarbon receptor (AHR)-regulated transcriptomic changes in rats sensitive or resistant to major dioxin toxicities.

Acetic acid bacterial lipids improve cognitive function in dementia model rats.

Effect of rosiglitazone in sodium arsenite-induced experimental vascular endothelial dysfunction.

A remarkable new target gene for the dioxin receptor: The Vav3 proto-oncogene links AhR to adhesion and migration.

Induction of GST-P-positive proliferative lesions facilitating lipid peroxidation with possible involvement of transferrin receptor up-regulation and ceruloplasmin down-regulation from the early stage of liver tumor promotion in rats.

Implication of oxidative stress as a cause of autoimmune hemolytic anemia in NZB mice.

The chironomid acute toxicity test: development of a new test system.

Intravital fluorescent microscopic evaluation of bacterial cellulose as scaffold for vascular grafts.

A critical role of SNF1A/dAMPKalpha (*Drosophila* AMP-activated protein kinase alpha) in muscle on longevity and stress resistance in *Drosophila melanogaster*.

The aryl hydrocarbon receptor has an important role in the regulation of hematopoiesis: implications for benzene-induced hematopoietic toxicity.

Imaging dermal blood flow through the intact rat skin with an optical clearing method.

Spatial variation in ambient air toxics concentrations and health risks between industrial-influenced, urban, and rural sites.

Effect of paraquat-induced oxidative stress on insulin regulation of insulin-like growth factor-binding protein-1 gene expression.

Development of TEFs for PCB congeners by using an alternative biomarker--thyroid hormone levels.

The involvement of lipid peroxide-derived aldehydes in aluminum toxicity of tobacco roots.

Traditional reactive carbonyl scavengers do not prevent the carbonylation of brain proteins induced by acute glutathione depletion.

Toxicity of selected pesticides to freshwater shrimp, *Paratya australiensis* (Decapoda: Atyidae): use of time series acute toxicity data to predict chronic lethality.

Blueberry fruit polyphenolics suppress oxidative stress-induced skeletal muscle cell damage in vitro.

High frequency of fumigants and other toxic gases in imported freight containers--an underestimated occupational and community health risk.

[Protective effects of Aloe vera extract on mitochondria of neuronal cells and rat brain].

Programmed cell death in plants: protective effect of phenolic compounds against chitosan and H₂O₂.

High-resolution imaging of brain 5-HT 1B receptors in the rhesus monkey using [¹¹C]P943.

Arylhydrocarbon receptor activation in NCI-H441 cells and C57BL/6 mice: possible mechanisms for lung dysfunction.

Chitosan nanoparticle-based neuronal membrane sealing and neuroprotection following acrolein-induced cell injury.

Enhanced metallothionein gene expression induced by mitochondrial oxidative stress is reduced in phospholipid hydroperoxide glutathione peroxidase-overexpressed cells.

Historical perspective of pesticide poisoning in Japan and measures taken by the Japanese association of rural medicine.

Expression of heat shock protein 70 in lung tissues of acute paraquat poisoned rats and intervention of ulinastatin.

Neurotoxic effect of the herbicide paraquat on ascidian larvae.

Suicide by pesticide poisoning: findings from the island of Crete, Greece.

Rat aldose reductase-like protein (AKR1B14) efficiently reduces the lipid peroxidation product 4-oxo-2-nonenal.

Effects of growth hormone and insulin-like growth factor-I on the iron-induced lipid peroxidation in the rat liver and porcine thyroid homogenates.

Effect of continuous ingestion of acetic Acid bacteria on memory retention and the synaptic function in aged rats.

Induction of CMV-1 promoter by 4-hydroxy-2-nonenal in human embryonic kidney cells.

Surfactant effects on skin absorption of model organic chemicals: implications for dermal risk assessment studies.

Comparison of carcinogen, carbon monoxide, and ultrafine particle emissions from narghile waterpipe and cigarette smoking: Sidestream smoke measurements and assessment of second-hand smoke emission factors.

Exposure to 2, 3, 7, 8-tetrachlorodibenzo-p-dioxin and tetraethyl lead affects lung mitochondria bioenergetics.

Chloroplast and reactive oxygen species involvement in apoptotic-like programmed cell death in *Arabidopsis* suspension cultures.

Pyrroloquinoline quinone stimulates mitochondrial biogenesis through cAMP response element-binding protein phosphorylation and increased PGC-1 α expression.

Effect of the inosine 5'-monophosphate dehydrogenase inhibitor BMS-566419 on rat cardiac allograft rejection.

Distinct regulation of insulin receptor substrate-1 and -2 by 90-kDa heat-shock protein in adrenal chromaffin cells.

Lipid oxidation and peroxidation in CNS health and disease: from molecular mechanisms to therapeutic opportunities.

Interferon-gamma deficiency modifies the motor and co-morbid behavioral pathology and neurochemical changes provoked by the pesticide paraquat.

Paraquat activates the IRE1/ASK1/JNK cascade associated with apoptosis in human neuroblastoma SH-SY5Y cells.

[Effects of prenatal exposure to paraquat on the development of amino acid synaptic transmission in mouse cerebral parietal cortex].

The role of T cells in the regulation of acrolein-induced pulmonary inflammation and epithelial-cell pathology.

Toxicity of agricultural chemicals in *Daphnia magna*.

Successful treatment of paraquat poisoning by Xuebijing, an injection concocted from multiple Chinese medicinal herbs: a case report.

Paraquat (PQ)-induced pulmonary fibrosis increases exercise metabolic cost, reducing aerobic performance in rats.

Simultaneous quantification of 1,N2-propano-2'-deoxyguanosine adducts derived from acrolein and crotonaldehyde in human placenta and leukocytes by isotope dilution nanoflow LC nanospray ionization tandem mass spectrometry.

Excessive longitudinal FEV1 decline and risks to future health: a case-control study.

Acrolein scavenging: a potential novel mechanism of attenuating oxidative stress following spinal cord injury.

Differential contribution of the mitochondrial respiratory chain complexes to reactive oxygen species production by redox cycling agents implicated in parkinsonism.

Toxicity assessment of the herbicide metolachlor comparative effects on bacterial and mitochondrial model systems.

An integrated cellular model to evaluate cytotoxic effects in mammalian cell lines.

[Molecular mechanism of erythromycin in the improvement of paraquat-damaged vascular endothelial cell barrier function].

[Dysphonia following glyphosate exposition].

Clinical implication of urinary neutrophil gelatinase-associated lipocalin and kidney injury molecule-1 in patients with acute paraquat intoxication.

Rapid analysis of plasma paraquat using sodium dithionite as a predictor of outcome in acute paraquat poisoning.

Plant availability and phytotoxicity of soil bound residues of herbicide ZJ0273, a novel acetolactate synthase potential inhibitor.

Characterization of the hypothalamic-pituitary-adrenal axis response to atrazine and metabolites in the female rat.

Alteration of NRSF expression exacerbating 1-methyl-4-phenyl-pyridinium ion-induced cell death of SH-SY5Y cells.

Rhinitis associated with pesticide exposure among commercial pesticide applicators in the Agricultural Health Study.

Paraquat toxicity induced by voltage-dependent anion channel 1 acts as an NADH-dependent oxidoreductase.

Acrolein induces a cellular stress response and triggers mitochondrial apoptosis in A549 cells.

Toxic influence of chronic oral administration of paraquat on nigrostriatal dopaminergic neurons in C57BL/6 mice.

Rotenone and paraquat do not directly activate microglia or induce inflammatory cytokine release.

Subacute effect of 2,4-dichlorophenoxyacetic acid on rat liver tissue: histochemical and immunohistochemical study.

Natural polyphenols as direct trapping agents of lipid peroxidation-derived acrolein and 4-hydroxy-trans-2-nonenal.

Defective responses to oxidative stress in protein I-isoaspartyl repair-deficient *Caenorhabditis elegans*.

MRI characterization of structural mouse brain changes in response to chronic exposure to the glufosinate ammonium herbicide.

Paraquat detoxication with multiple emulsions.

Acute and chronic toxicity of atrazine and its metabolites deethylatrazine and deisopropylatrazine on aquatic organisms.

Effect of pesticides on cell survival in liver and brain rat tissues.

Postmortem analyses unveil the poor efficacy of decontamination, anti-inflammatory and immunosuppressive therapies in paraquat human intoxications.

A unified approach for analyzing exchangeable binary data with applications to developmental toxicity studies.

[Acute glyphosate-surfactant poisoning with neurological sequels and fatal outcome].

Glycogen content is affected differently in acute pulmonary and extra-pulmonary lung injury.

Occupation and risk of parkinsonism: a multicenter case-control study.

Environmental toxins and Parkinson's disease: what have we learned from pesticide-induced animal models?

Acute intentional self-poisoning with a herbicide product containing fenoxaprop-P-ethyl, ethoxysulfuron, and isoxadifen ethyl: a prospective observational study.

Molecular mechanisms of 4-hydroxy-2-nonenal and acrolein toxicity: nucleophilic targets and adduct formation.

Evaluation of the toxicity of stress-related aldehydes to photosynthesis in chloroplasts.

Effects of 2,4-dichlorophenoxyacetic acid formulation on medulla spinalis of *Poecilia reticulata*: a histopathological study.

Atrazine oral exposure of peripubertal male rats downregulates steroidogenesis gene expression in Leydig cells.

Haemocyte lysosomal fragility facing an environmental reality: a toxicological perspective with atrazine and *Lymnaea stagnalis* (Gastropoda, Pulmonata) as a test case.

Subchronic feeding study of grain from herbicide-tolerant maize DP-9814-6 in Sprague-Dawley rats.

Water extracts of *Brassica oleracea* var. *costata* potentiate paraquat toxicity to rat hepatocytes in vitro.

Pathogenic stimulation of intestinal stem cell response in *Drosophila*.

The role of NADPH oxidase 1-derived reactive oxygen species in paraquat-mediated dopaminergic cell death.

Pea (*Pisum sativum*) seed production as an assay for reproductive effects due to herbicides.

Trivalent methylated arsenical-induced phosphatidylserine exposure and apoptosis in platelets may lead to increased thrombus formation.

Arsenite and its metabolites, MMA(III) and DMA(III), modify CYP3A4, PXR and RXR alpha expression in the small intestine of CYP3A4 transgenic mice.

Up-regulation of divalent metal transporter 1 is involved in 1-methyl-4-phenylpyridinium (MPP(+))-induced apoptosis in MES23.5 cells.

Inflammatory priming of the substantia nigra influences the impact of later paraquat exposure: Neuroimmune sensitization of neurodegeneration.

Responses of lake bacterioplankton activities and composition to the herbicide diuron.

Glyphosate-based herbicides are toxic and endocrine disruptors in human cell lines.

Mortality rates among trichlorophenol workers with exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

[Oxidative stress of acute paraquat poisoned rats and sodium dimercaptopropane sulfonate intervention].

[Pathologic changes and expression of Heme oxygenase-1 in paraquat-induced renal injury].

[Changes of cytokine and nuclear factor-kappa B in acute paraquat poisoned rats].

[Change of oxidative stress and nuclear factor-kappa B in acute paraquat poisoned rats].

[Expression of thrombomodulin, endothelial protein C receptor in lung tissue of acute paraquat poisoned rats and intervention of sodium dimercaptopropane sulfonate].

Comparative effects of the formulation of glyphosate-surfactant herbicides on hemodynamics in swine.

The area of ground glass opacities of the lungs as a predictive factor in acute paraquat intoxication.

The epidemiology of glyphosate-surfactant herbicide poisoning in Taiwan, 1986-2007: a poison center study.

Nitric oxide-mediated toxicity in paraquat-exposed SH-SY5Y cells: a protective role of 7-nitroindazole.

Low toxic herbicide Roundup induces mild oxidative stress in goldfish tissues.

Assessing the toxicity of herbicide isoproturon on *Aporrectodea caliginosa* (Oligochaeta) and its fate in soil ecosystem.

Paraquat induces oxidative stress, neuronal loss in substantia nigra region and parkinsonism in adult rats: neuroprotection and amelioration of symptoms by water-soluble formulation of coenzyme Q10.

Paraquat induces alternation of the dopamine catabolic pathways and glutathione levels in the substantia nigra of mice.

LRRK2 modulates vulnerability to mitochondrial dysfunction in *Caenorhabditis elegans*.

Evidence for toxicity differences between inorganic arsenite and thioarsenicals in human bladder cancer cells.

Allergic reaction induced by dermal and/or respiratory exposure to low-dose phenoxyacetic acid, organophosphorus, and carbamate pesticides.

Cancer incidence among paraquat exposed applicators in the agricultural health study: prospective cohort study.

Modelling long-term ecotoxicological effects on an algal population under dynamic nutrient stress.

Enantioselective effects of chiral herbicide diclofop acid on rice Xiushui 63 seedlings.

Safety evaluation of the double mutant 5-enol pyruvylshikimate-3-phosphate synthase (2mEPSPS) from maize that confers tolerance to glyphosate herbicide in transgenic plants.

[Expression and clinical significance of serum chemokines in patients with paraquat poisoning].

Dopamine transporter genetic variants and pesticides in Parkinson's disease.

Fatal diquat intoxication.

[Effects of ulinastatin to pro-inflammatory mediators in rats with acute paraquat intoxication].

Marked recovery from paraquat-induced lung injury during long-term follow-up.

Clinical outcome of paraquat poisoning.

Fibroblast growth factor 9 prevents MPP⁺-induced death of dopaminergic neurons and is involved in melatonin neuroprotection in vivo and in vitro.

Prognosis of paraquat-induced ocular surface injury: therapeutic effect of amniotic membrane transplantation.

Patterns of immunotoxicity associated with chronic as compared with acute exposure to chemical or physical stressors and their relevance with regard to the role of stress and with regard to immunotoxicity testing.

Design, synthesis, and evaluation of carnosine derivatives as selective and efficient sequestering agents of cytotoxic reactive carbonyl species.

Immunohistochemical and histopathological evaluation of 2,4-dichlorophenoxyacetic acid-induced changes in rat kidney cortex.

Time-dependent degradation and toxicity of diclofop-methyl in algal suspensions : emerging contaminants.

[Autolytic carbimide-alcohol reaction with fatal outcome].

Presumptive service connection for disease associated with exposure to certain herbicide agents: AL amyloidosis. Final rule.

Evaluation of pathways involved in pentachlorophenol-induced apoptosis in rat neurons.

Functional characterization of the *Aspergillus nidulans* methionine sulfoxide reductases (msrA and msrB).

Exposure to Agent Orange is a significant predictor of prostate-specific antigen (PSA)-based recurrence and a rapid PSA doubling time after radical prostatectomy.

Chronic exposure to high levels of atrazine alters expression of genes that regulate immune and growth-related functions in developing *Xenopus laevis* tadpoles.

Glutathione-S-transferase P protects against endothelial dysfunction induced by exposure to tobacco smoke.

Effect of glyphosate on growth of four freshwater species of phytoplankton: a microplate bioassay.

OECD validation of phase 3 Hershberger assay in Korea using surgically castrated male rats with coded chemicals.

An ecological risk assessment of the exposure and effects of 2,4-D acid to rainbow trout (*Onchorhynchus mykiss*).

Occupational exposure to pesticides and lymphoid neoplasms among men: results of a French case-control study.

An ecological risk assessment of the acute and chronic toxicity of the herbicide picloram to the threatened bull trout (*Salvelinus confluentus*) and the rainbow trout (*Onchorhynchus mykiss*).

Acrolein activates matrix metalloproteinases by increasing reactive oxygen species in macrophages.

Dicamba-induced genotoxicity in Chinese hamster ovary (CHO) cells is prevented by vitamin E.

Immunotoxicological effects of a sub-chronic exposure to selected current-use pesticides in rainbow trout (*Oncorhynchus mykiss*).

Changes of thyroid hormone levels and related gene expression in Chinese rare minnow (*Gobiocypris rarus*) during 3-amino-1,2,4-triazole exposure and recovery.

The level and clinical significance of pancreatic enzymes in survivors of acute paraquat poisoning.

[Mechanism and treatment strategy for acute paraquat poisoning].

[Acute paraquat poisoning: challenge and strategy].

The antioxidant glutathione in the fish cell lines EPC and BCF-2: response to model pro-oxidants as measured by three different fluorescent dyes.

Protective effect of lipoic acid against acrolein-induced cytotoxicity in IMR-90 human fibroblasts.

Effects of monomethylarsonic and monomethylarsonous acid on evoked synaptic potentials in hippocampal slices of adult and young rats.

Human cord blood CD133+ stem cells transplanted to nod-scid mice provide conditions for regeneration of olfactory neuroepithelium after permanent damage induced by dichlobenil.

Pest toxicology: the primary mechanisms of pesticide action.

Western blot analysis for 4-hydroxy-2-nonenal (HNE)-modified proteins in paraquat-treated mice.

Prediction of outcome after paraquat poisoning by measurement of the plasma paraquat concentration.

[Poisoning by pesticides among family fruit farmers, Bento Gonçalves, Southern Brazil].

Agrichemicals in surface water and birth defects in the United States.

Effects of acute exposure to metribuzin on some hematological, biochemical and histopathological parameters of common carp (*Cyprinus carpio* L.).

Morbidity in former sawmill workers exposed to pentachlorophenol (PCP): a cross-sectional study in New Zealand.

The clinical features of acute kidney injury in patients with acute paraquat intoxication.

Responsiveness of the interrenal tissue of *Jundi* (Rhamdia quelen) to an in vivo ACTH test following acute exposure to sublethal concentrations of agrichemicals.

Protection against paraquat and A53T alpha-synuclein toxicity by cabergoline is partially mediated by dopamine receptors.

[Expression of inflammatory factors in lung tissue of acute paraquat poisoned rats].

Combined effects of atrazine and chlorpyrifos on susceptibility of the tiger salamander to *Ambystoma tigrinum* virus.

The effects of prometryne on subchronically treated mice evaluated by SCGE assay.

Acute gastroduodenal injury after ingestion of diluted herbicide pendimethalin.

Serum total antioxidant statuses of survivors and nonsurvivors after acute paraquat poisoning.

Oxidant stress-induced liver injury in vivo: role of apoptosis, oncotic necrosis, and c-Jun NH2-terminal kinase activation.

Age-related differences in oxidative protein-damage in young and senescent fibroblasts.

Acute exposure of the aquatic macrophyte *Callitriche obtusangula* to the herbicide oxadiazon: the protective role of N-acetylcysteine.

Heterocyclic aromatic amine pesticide use and human cancer risk: results from the U.S. Agricultural Health Study.

Comparative toxicities of fungicide and herbicide formulations on freshwater and marine species.

Effects of propanil on the European eel *Anguilla anguilla* and post-exposure recovery using selected biomarkers as effect criteria.

Serum total antioxidant statuses of survivors and nonsurvivors after acute paraquat poisoning.

Differential analysis of mycoalexins in confrontation zones of grapevine fungal pathogens by ultrahigh pressure liquid chromatography/time-of-flight mass spectrometry and capillary nuclear magnetic resonance.

Genomic and biochemical approaches in the discovery of mechanisms for selective neuronal vulnerability to oxidative stress.

Clinical outcomes and kinetics of propanil following acute self-poisoning: a prospective case series.

Herbicide-treated hay as a possible cause of dermatitis in horses.

[Progress in research on mechanism of pathogenesis and treatment of acute paraquat poisoning].

Leaf anatomy and morphometry in three eucalypt clones treated with glyphosate.

Arsenite and its mono- and dimethylated trivalent metabolites enhance the formation of benzo[a]pyrene diol epoxide-DNA adducts in Xeroderma pigmentosum complementation group A cells.

Acute toxic effects of three pesticides on *Pseudomonas putida* monitored by microcalorimeter.

Effect of a subchronic exposure to simazine on energetic metabolism of common carp (*Cyprinus carpio*).

Toxicokinetics and toxicodynamics of paraquat accumulation in mouse brain.

Life span alteration after irradiation in *Drosophila melanogaster* strains with mutations of Hsf and Hsps.

Plant adaptogens increase lifespan and stress resistance in *C. elegans*.

Comparative susceptibility to atrazine of three developmental stages of *Rhinella arenarum* and influence on metamorphosis: non-monotonous acceleration of the time to climax and delayed tail resorption.

Iron-enhanced paraquat-mediated dopaminergic cell death due to increased oxidative stress as a consequence of microglial activation.

Toxicity of a glufosinate- and several glyphosate-based herbicides to juvenile amphibians from the Southern High Plains, USA.

Treatment influence on herbicide resistance level of Belgian *Alopecurus myosuroides* populations (black-grass).

Drift-reducing nozzles and their biological efficacy.

Terbutryn toxicity to *Danio rerio*: effects of subchronic exposure on fish growth.

Effects of subchronic simazine exposure on some biometric, biochemical, hematological and histopathological parameters of common carp (*Cyprinus carpio* L.).

Effects of subchronic exposure to Successor 600 (pethoxamid 600 g L⁻¹) on common carp *Cyprinus carpio*.

A review: oxidative stress in fish induced by pesticides.

Plant growth regulator (4-chlorophenoxy acetic acid) increases apoptosis in gonads of rats without changing hormonal levels.

Biomonitoring of genotoxic risk in agricultural workers from five colombian regions: association to occupational exposure to glyphosate.

Toxicity of formulated glyphosate (glyphos) and cosmo-flux to larval and juvenile colombian frogs 2. Field and laboratory microcosm acute toxicity.

Toxicity of formulated glyphosate (glyphos) and cosmo-flux to larval Colombian frogs 1. Laboratory acute toxicity.

Comparison of the hazards posed to amphibians by the glyphosate spray control program versus the chemical and physical activities of coca production in Colombia.

Disulfiram-like syndrome after hydrogen cyanamide professional skin exposure: two case reports in France.

Chapter 22 The uptake and interactions of the redox cyler paraquat with mitochondria.

Collaborative work on evaluation of ovarian toxicity. 14) Two- or four-week repeated-dose studies and fertility study of atrazine in female rats.

[Clinical observation on 22 cases of acute paraquat poisoning].

[Influence of early effective control for inflammatory exudation on survival rate of acute paraquat poisoning].

Comparison between kidney and hemoperfusion for paraquat elimination.

Glyphosate formulations induce apoptosis and necrosis in human umbilical, embryonic, and placental cells.

Systematic review and meta-analysis of mortality in crop protection product manufacturing workers.

Upregulation of cellular glutathione by 3H-1,2-dithiole-3-thione as a possible treatment strategy for protecting against acrolein-induced neurocytotoxicity.

Involvement of ubiquitin proteasome system in protective mechanisms of Puerarin to MPP(+)-elicited apoptosis.

Pesticide by-products in the RhÃ´ne delta (Southern France). The case of 4-chloro-2-methylphenol and of its nitroderivative.

Growth arrest and DNA damage protein 45b (Gadd45b) protects retinal ganglion cells from injuries.

Effects of atrazine on hepatic metabolism and endocrine homeostasis in rainbow trout (*Oncorhynchus mykiss*).

Prostate cancer control and survival in Vietnam veterans exposed to Agent Orange.

Role of endoplasmic reticulum stress in acrolein-induced endothelial activation.

The adverse effects of hydrogen cyanamide on human health: an evaluation of inquiries to the New Zealand National Poisons Centre.

Effect of 2,4-D herbicide (2,4-dichlorophenoxyacetic acid) on oxygen consumption and ammonium excretion of juveniles of *Geophagus brasiliensis* (Quoy & Gaimard, 1824) (Osteichthyes, Cichlidae).

Oxidative and inflammatory pathways in Parkinson's disease.

TRPA1 agonists evoke coughing in guinea pig and human volunteers.

Inhibitory effects of Geijigajakyak-Tang on trinitrobenzene sulfonic acid-induced colitis.

Transient receptor potential ankyrin receptor 1 is a novel target for pro-tussive agents.

Increased sensitivity of glutathione S-transferase P-null mice to cyclophosphamide-induced urinary bladder toxicity.

Matrix metalloproteinase-14 mediates a phenotypic shift in the airways to increase mucin production.

Recruitment maneuver: RAMP versus CPAP pressure profile in a model of acute lung injury.

Staphylococcal catalase regulates its virulence and induces arthritis in catalase deficient mice.

Edible apple film wraps containing plant antimicrobials inactivate foodborne pathogens on meat and poultry products.

Mortality rates among workers exposed to dioxins in the manufacture of pentachlorophenol.

Intense correlation between brain infarction and protein-conjugated acrolein.

Quantification of Paraquat, MPTP, and MPP⁺ in brain tissue using microwave-assisted solvent extraction (MASE) and high-performance liquid chromatography-mass spectrometry.

4-Methoxycinnamaldehyde inhibited human respiratory syncytial virus in a human larynx carcinoma cell line.

The effects of N-acetyl cysteine, buthionine sulfoximine, diethylthiocarbamate or 3-amino-1,2,4-triazole on antimycin A-treated Calu-6 lung cells in relation to cell growth, reactive oxygen species and glutathione.

Chronic intermittent hypobaric hypoxia protects the heart against ischemia/reperfusion injury through upregulation of antioxidant enzymes in adult guinea pigs.

Acrolein, a ubiquitous pollutant and lipid hydroperoxide product, inhibits antiviral activity of interferon-alpha: relevance to hepatitis C.

Rosiglitazone, a peroxisome proliferator-activated receptor-gamma agonist, attenuates acrolein-induced airway mucus hypersecretion in rats.

[Analysis of bialaphos and its active metabolite L-glufosinate in biological specimens by HPLC].

Identification and characterization of the AcrR/AcrAB system of a pathogenic *Edwardsiella tarda* strain.

Survival motor neuron deficiency enhances progression in an amyotrophic lateral sclerosis mouse model.

Protective effects of a superoxide dismutase/catalase mimetic compound against paraquat pneumotoxicity in rat lung.

Silencing DJ-1 reveals its contribution in paraquat-induced autophagy.

Evaluation of diquat against an acute experimental infection of *Flavobacterium columnare* in channel catfish, *Ictalurus punctatus* (Rafinesque).

Effect of sildenafil on acrolein-induced airway inflammation and mucus production in rats.

Parkinson's disease and residential exposure to maneb and paraquat from agricultural applications in the central valley of California.

Antiinflammatory effects of hydrogen peroxide in neutrophil activation and acute lung injury.

Mutations in the *C. elegans* succinate dehydrogenase iron-sulfur subunit promote superoxide generation and premature aging.

Urinary arsenic methylation capability and carotid atherosclerosis risk in subjects living in arsenicosis-hyperendemic areas in southwestern Taiwan.

Parasites, info-disruption, and the ecology of fear.

The cinnamon-derived Michael acceptor cinnamic aldehyde impairs melanoma cell proliferation, invasiveness, and tumor growth.

Okadaic acid protects human neuroblastoma SH-SY5Y cells from 1-methyl-4-phenylpyridinium ion-induced apoptosis.

Pharmacokinetics of trifluralin in blood and heart tissue of mice.

Pyrrolidine dithiocarbamate attenuates paraquat-induced lung injury in rats.

Inhibition of 4-hydroxyphenylpyruvate dioxygenase by 2-[2-nitro-4-(trifluoromethyl)benzoyl]-1,3-cyclohexanedione.

Chronic exposure to the herbicide, atrazine, causes mitochondrial dysfunction and insulin resistance.

Fibroblasts from long-lived mutant mice show diminished ERK1/2 phosphorylation but exaggerated induction of immediate early genes.

The Arabidopsis PARAQUAT RESISTANT2 gene encodes an S-nitrosoglutathione reductase that is a key regulator of cell death.

Effects of atrazine and its withdrawal on gonadotropin-releasing hormone neuroendocrine function in the adult female Wistar rat.

Influence of cobalamin on arsenic metabolism in Bangladesh.

Gene-expression profiling of grape bud response to two alternative dormancy-release stimuli expose possible links between impaired mitochondrial activity, hypoxia, ethylene-ABA interplay and cell enlargement.

Optical biosensors for environmental monitoring based on computational and biotechnological tools for engineering the photosynthetic D1 protein of *Chlamydomonas reinhardtii*.

Protective mechanism of quercetin and rutin using glutathione metabolism on HO₂-induced oxidative stress in HepG2 cells.

Acrolein toxicity involves oxidative stress caused by glutathione depletion in the yeast *Saccharomyces cerevisiae*.

Oxidative stress response of *Mycosphaerella fijiensis*, the causal agent of black leaf streak disease in banana plants, to hydrogen peroxide and paraquat.

¹H NMR to investigate metabolism and energy supply in rhesus macaque sperm.

Prenatal exposure to pesticides disrupts testicular histoarchitecture and alters testosterone levels in male *Caiman latirostris*.

The role of p38b MAPK in age-related modulation of intestinal stem cell proliferation and differentiation in *Drosophila*.

Transforming a NEP1 toxin gene into two *Fusarium* spp. to enhance mycoherbicide activity on Orobanche--failure and success.

Protective effect of montelukast on paraquat-induced lung toxicity in rats.

Evaluation of toxicity of *Cercospora piaropi* in a mycoherbicide formulation by using bacterial bioluminescence and the Ames mutagenicity tests.

Differential patterns of reactive oxygen species and antioxidative mechanisms during atrazine injury and sucrose-induced tolerance in *Arabidopsis thaliana* plantlets.

Polynucleotide phosphorylase protects *Escherichia coli* against oxidative stress.

Paraquat is excluded by the blood brain barrier in rhesus macaque: An in vivo pet study.

DIC-1 over-expression enhances respiratory activity in *Caenorhabditis elegans* by promoting mitochondrial cristae formation.

Oxidative stress promotes proliferation and dedifferentiation of retina glial cells in vitro.

Antibacterial, antifungal, insecticidal, cytotoxicity and phytotoxicity studies on *Indigofera gerardiana*.

Chapter 21 Paraquat-induced production of reactive oxygen species in brain mitochondria.

Synaptosomal toxicity and nucleophilic targets of 4-hydroxy-2-nonenal.

Effects of a herbicide-insecticide mixture in freshwater microcosms: risk assessment and ecological effect chain.

Prolonged recruitment manoeuvre improves lung function with less ultrastructural damage in experimental mild acute lung injury.

Transcriptional changes associated with reduced spontaneous liver tumor incidence in mice chronically exposed to high dose arsenic.

Requirement of arsenic biomethylation for oxidative DNA damage.

Poisoning deaths in China: type and prevalence detected at the Tongji Forensic Medical Center in Hubei.

Local IGF-1 isoform protects cardiomyocytes from hypertrophic and oxidative stresses via SirT1 activity.

Dioxin, diet and disease on St. Kilda.

Iron in vitro bioavailability and iodine storage stability in double-fortified salt.

Well-water consumption and Parkinson's disease in rural California.

Antioxidant activity of mangostin in cell-free system and its effect on K562 leukemia cell line in photodynamic therapy.

Up-regulation of Wnt5a gene expression in the nitrofen-induced hypoplastic lung.

Reproductive lesions in female Harlan Sprague-Dawley rats following two-year oral treatment with dioxin and dioxin-like compounds.

p-Cresyl sulfate and indoxyl sulfate in hemodialysis patients.

Large-dose intravenous ferric carboxymaltose injection for iron deficiency anemia in heavy uterine bleeding: a randomized, controlled trial.

Hypoxia and the metabolic phenotype of prostate cancer cells.

[Seasonality of omphalocele in northern Germany].

Metabolite profiling identifies candidate markers reflecting the clinical adaptations associated with Roux-en-Y gastric bypass surgery.

Arsenic exacerbates atherosclerotic lesion formation and inflammation in ApoE^{-/-} mice.

Chronic expression of H-ferritin in dopaminergic midbrain neurons results in an age-related expansion of the labile iron pool and subsequent neurodegeneration: implications for Parkinson's disease.

Inflammatory and chloracne-like skin lesions in B6C3F1 mice exposed to 3,3',4,4'-tetrachloroazobenzene for 2 years.

Elevating optimal human nutrition to a central goal of plant breeding and production of plant-based foods.

Amended safety assessment of sodium picramate and picramic acid.

p-Cresol sulfate: further understanding of its cardiovascular disease potential in CKD.

Serum gamma-glutamyltransferase: new insights about an old enzyme.

Initial report of a family registry of multiple myeloma.

Neuroprotective efficacy of Bacopa monnieri against rotenone induced oxidative stress and neurotoxicity in *Drosophila melanogaster*.

Urinary arsenic species and CKD in a Taiwanese population: a case-control study.

Polymorphisms in arsenic metabolism genes, urinary arsenic methylation profile and cancer.

Gestational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin disrupts B-cell lymphopoiesis and exacerbates autoimmune disease in 24-week-old SNF1 mice.

The uremic retention solute p-cresyl sulfate and markers of endothelial damage.

Marked iron overload related to ribavirin and iron sulfate treatment in a patient with active viral C cirrhosis.

Ingestion of ferrous sulfate increases ferremia in patients with short bowel syndrome.

Arsenite exposure compromises early embryonic development in the Golden hamster.

A pilot study of faecal volatile organic compounds in faeces from cholera patients in Bangladesh to determine their utility in disease diagnosis.

Inherited glutathione reductase deficiency and Plasmodium falciparum malaria--a case study.

Modulation of heart rate variability during severe hemorrhage at different rates in conscious rats.

Overview of developmental heart defects by dioxins, PCBs, and pesticides.

[Acute and subacute chemical pneumonitis].

Effect of prenatal zinc supplementation on birthweight.

Convenient headspace gas chromatographic determination of azide in blood and plasma.

Prenatal retinoic acid up-regulates pulmonary gene expression of COUP-TFII, FOG2, and GATA4 in pulmonary hypoplasia.

Professional exposure to pesticides and Parkinson disease.

Effects of chronic exposure to DDT and TCDD on disease activity in murine systemic lupus erythematosus.

Variation in half-life of penta-chlorodibenzofuran (PeCDF) blood level among Yusho patients.

Pesticides and myocardial infarction incidence and mortality among male pesticide applicators in the Agricultural Health Study.

Impact and risk factors of craniofacial malformations in a Colombian population.

Prophylactic role of taurine on arsenic mediated oxidative renal dysfunction via MAPKs/ NF-kappaB and mitochondria dependent pathways.

Cancer incidence among pesticide applicators exposed to butylate in the Agricultural Health Study (AHS).

Comparative hepatotoxicity and clastogenicity of sodium arsenite and three petroleum products in experimental Swiss Albino Mice: the modulatory effects of Aloe vera gel.

Developmental exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin alters postnatal T cell phenotypes and T cell function and exacerbates autoimmune lupus in 24-week-old SNF1 mice.

Nrf2 protects against As(III)-induced damage in mouse liver and bladder.

Deleterious versus neuroprotective effect of metabolic inhibition after traumatic spinal cord injury.

Ferrous sulfate versus iron polymaltose complex for treatment of iron deficiency anemia in children.

Oral and intravenous iron treatment in inflammatory bowel disease: hematological response and quality of life improvement.

Effects of prolonged iron overload and low frequency electromagnetic exposure on spatial learning and memory in the young rat.

Efficacy of oral iron in patients with restless legs syndrome and a low-normal ferritin: A randomized, double-blind, placebo-controlled study.

Changes in serum hepcidin levels in acute iron intoxication in a rat model.

Cancer incidence in the population exposed to dioxin after the "Seveso accident": twenty years of follow-up.

Post-exposure treatment with nasal atropine methyl bromide protects against microinstillation inhalation exposure to sarin in guinea pigs.

Dioxin receptor deficiency impairs angiogenesis by a mechanism involving VEGF-A depletion in the endothelium and transforming growth factor-beta overexpression in the stroma.

Toward the development of a plant-based vaccine against reovirus.

Disruption of nNOS-PSD95 protein-protein interaction inhibits acute thermal hyperalgesia and chronic mechanical allodynia in rodents.

Mortality in workers exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin at a trichlorophenol plant in New Zealand.

Expression of chloride channels in trachea-occluded hyperplastic lungs and nitrofen-induced hypoplastic lungs in rats.

Expression of constitutively-active aryl hydrocarbon receptor in T-cells enhances the down-regulation of CD62L, but does not alter expression of CD25 or suppress the allogeneic CTL response.

Lysozyme, a mediator of sepsis that intrinsically generates hydrogen peroxide to cause cardiovascular dysfunction.

Differential effects of PINK1 nonsense and missense mutations on mitochondrial function and morphology.

Recent progress in the analysis of uremic toxins by mass spectrometry.

Fetal and neonatal exposure to three typical environmental chemicals with different mechanisms of action: mixed exposure to phenol, phthalate, and dioxin cancels the effects of sole exposure on mouse midbrain dopaminergic nuclei.

Minocycline attenuates iron neurotoxicity in cortical cell cultures.

Differential cytotoxic effects of arsenic compounds in human acute promyelocytic leukemia cells.

Impact of life stage and duration of exposure on arsenic-induced proliferative lesions and neoplasia in C3H mice.

Health profiles of methyl bromide applicators in greenhouses in Turkey.

Autologous melanoma vaccine induces antitumor and self-reactive immune responses that affect patient survival and depend on MHC class II expression on vaccine cells.

TCDD mediates inhibition of p53 and activation of ERalpha signaling in MCF-7 cells at moderate hypoxic conditions.

Arsenite enhances the benzo[a]pyrene diol epoxide (BPDE)-induced mutagenesis with no marked effect on repair of BPDE-DNA adducts in human lung cells.

Phyllanthus urinaria extract attenuates acetaminophen induced hepatotoxicity: involvement of cytochrome P450 CYP2E1.

Causes and types of health effects during the use of crop protection chemicals: data from a survey of over 6,300 smallholder applicators in 24 different countries.

Rationale and design of the oral HEMe iron polypeptide Against Treatment with Oral Controlled Release Iron Tablets trial for the correction of anaemia in peritoneal dialysis patients (HEMATOCRIT trial).

Aryl hydrocarbon receptor inhibition downregulates the TGF-beta/Smad pathway in human glioblastoma cells.

Characterization of MCF mammary epithelial cells overexpressing the Arylhydrocarbon receptor (AhR).

Air sampling and analysis method for volatile organic compounds (VOCs) related to field-scale mortality composting operations.

Activation of aryl hydrocarbon receptor by TCDD prevents diabetes in NOD mice and increases Foxp3+ T cells in pancreatic lymph nodes.

Protein-bound toxins--update 2009.

Endometriosis and organochlorinated environmental pollutants: a case-control study on Italian women of reproductive age.

Effects of intrauterine 2,3,7,8-tetrachlorodibenzo-p-dioxin on the development and function of the gonadotrophin releasing hormone neuronal system in the male rat.

Characterization of a fatal methyl bromide exposure by analysis of the water cooler.

Iron status of breastfed infants is improved equally by medicinal iron and iron-fortified cereal.

Abeta43 is more frequent than Abeta40 in amyloid plaque cores from Alzheimer disease brains.

Reproductive and developmental toxicity of a pentabrominated diphenyl ether mixture, DE-71, to ranch mink (*Mustela vison*) and hazard assessment for wild mink in the Great Lakes region.

Induction of apoptosis by phloroglucinol derivative from *Ecklonia Cava* in MCF-7 human breast cancer cells.

Protection of bleomycin-induced fibrosis and inflammation by taurine.

Subchronic feeding study with genetically modified stacked trait lepidopteran and coleopteran resistant (DAS-157-1xDAS-59122-7) maize grain in Sprague-Dawley rats.

Immunogenicity of a standard trivalent influenza vaccine in patients on long-term hemodialysis: an open-label trial.

Effects of dioxin on vascular endothelial growth factor (VEGF) production in the retina associated with choroidal neovascularization.

Iron bioavailability of cocoa powder as determined by the Hb regeneration efficiency method.

Disruption of iron homeostasis and lung disease.

Prone position prevents regional alveolar hyperinflation and mechanical stress and strain in mild experimental acute lung injury.

Decreased nitric oxide markers and morphological changes in the brain of arsenic-exposed rats.

Peroxiredoxin 6 fails to limit phospholipid peroxidation in lung from Cftr-knockout mice subjected to oxidative challenge.

Taurine protects rat testes against NaAsO₂-induced oxidative stress and apoptosis via mitochondrial dependent and independent pathways.

Melatonin reduces acute lung injury in endotoxemic rats.

Intravenous versus oral iron supplementation for correction of post-transplant anaemia in renal transplant patients.

Effect of dioxins on regulation of tyrosine hydroxylase gene expression by aryl hydrocarbon receptor: a neurotoxicology study.

[Model establishment of liver fibrosis in oral arsenic solution exposed mice].

Phytochemical, antibacterial, antiproliferative, and antioxidant potentials and DNA damage-protecting activity of *Acacia salicina* extracts.

Residential exposure to polychlorinated biphenyls and organochlorine pesticides and risk of childhood leukemia.

Adherence and side effects of three ferrous sulfate treatment regimens on anemic pregnant women in clinical trials.

The myenteric plexus of the esophagus is abnormal in an experimental congenital diaphragmatic hernia model.

Characterization of inflammatory bowel disease with urinary metabolic profiling.

Iron prophylaxis in pregnancy: intravenous route versus oral route.

Regular consumption of a complementary food fortified with ascorbic acid and ferrous fumarate or ferric pyrophosphate is as useful as ferrous sulfate in maintaining hemoglobin concentrations >105 g/L in young Bangladeshi children.

Effect of increasing dialyzer mass transfer area coefficient and dialysate flow on clearance of protein-bound solutes: a pilot crossover trial.

Role of iron in the pathogenesis of cysteamine-induced duodenal ulceration in rats.

The protective role of HO-1 and its generated products (CO, bilirubin, and Fe) in ethanol-induced human hepatocyte damage.

Mortality in employees at a New Zealand agrochemical manufacturing site.

Maternal exposure to dioxin disrupts gonadotropin production in fetal rats and imprints defects in sexual behavior.

p-Cresol inhibits IL-12 production by murine macrophages stimulated with bacterial immunostimulant.

Effects of frequency and inspiratory plateau pressure during recruitment manoeuvres on lung and distal organs in acute lung injury.

Transplacental and early life exposure to inorganic arsenic affected development and behavior in offspring rats.

Arsenic activates EGFR pathway signaling in the lung.

Dexamethasone enhances basal and TNF-alpha-stimulated production of PAI-1 via the glucocorticoid receptor regardless of 11beta-hydroxysteroid dehydrogenase 2 status in human proximal renal tubular cells.

Sodium octanoate to reverse indoxyl sulfate and p-cresyl sulfate albumin binding in uremic and normal serum during sample preparation followed by fluorescence liquid chromatography.

Influence of aryl hydrocarbon- (Ah) receptor and genotoxins on DNA repair gene expression and cell survival of mouse hepatoma cells.

PCBs and the energy cost of migration in the European eel (*Anguilla anguilla* L.).

Deletion of mouse MsrA results in HBO-induced cataract: MsrA repairs mitochondrial cytochrome c.

Neonatal exposure to low-dose 2,3,7,8-tetrachlorodibenzo-p-dioxin causes autoimmunity due to the disruption of T cell tolerance.

Differentiation of human osteosarcoma cells by isolated phlorotannins is subtly linked to COX-2, iNOS, MMPs, and MAPK signaling: implication for chronic articular disease.

Agricultural pesticide use and pancreatic cancer risk in the Agricultural Health Study Cohort.

Ethnicity and incidence of Hodgkin lymphoma in Canadian population.

[Evaluation of dermatological symptom of Yusho patients in the annual examination in 2005-2007].

Methyl iodide-induced fetal hypothyroidism implicated in late-stage fetal death in rabbits.

Prenatal developmental toxicity studies of inhaled methyl iodide vapor in rabbits reveal a susceptible window of exposure inducing late gestational fetotoxicity.

Iron supplement in pregnancy and development of gestational diabetes--a randomised placebo-controlled trial.

Attenuation of 2,3,7,8-tetrachlorodibenzo-p-dioxin toxicity by resveratrol: a comparative study with different routes of administration.

Prospective study of chemical exposures and amyotrophic lateral sclerosis.

Regulation of mitochondrial dynamics in acute kidney injury in cell culture and rodent models.

Mitochondrial changes within axons in multiple sclerosis.

Foreword to a special issue of Inhalation Toxicology on a risk assessment for iodomethane.

Comparative effects of very low-carbohydrate, high-fat and high-carbohydrate, low-fat weight-loss diets on bowel habit and faecal short-chain fatty acids and bacterial populations.

Participation of asparagine 370 and glutamine 235 in the catalysis by acid beta-glucosidase: the enzyme deficient in Gaucher disease.

Providing iron/folic acid tablets free of charge improves compliance in pregnant women in Senegal.

Prevalence of diabetes and body burdens of polychlorinated biphenyls, polybrominated diphenyl ethers, and p,p'-diphenyldichloroethene in Great Lakes sport fish consumers.

Iron supplementation of low-income infants: a randomized clinical trial of adherence with ferrous fumarate sprinkles versus ferrous sulfate drops.

Reproductive health of bass in the Potomac, U.S.A., drainage: part 2. Seasonal occurrence of persistent and emerging organic contaminants.

Reproductive health of bass in the Potomac, U.S.A., drainage: part 1. Exploring the effects of proximity to wastewater treatment plant discharge.

Potential therapeutic significance of increased expression of aryl hydrocarbon receptor in human gastric cancer.

Epigenetics and environmental chemicals.

Prevalence of metabolic syndrome associated with body burden levels of dioxin and related compounds among Japan's general population.

Uncouple my heart: the benefits of inefficiency.

Possible involvement of arylhydrocarbon receptor variants in TCDD-induced thymic atrophy and XRE-dependent transcriptional activity in Wistar Hannover GALAS rats.

Iron deficiency anemia in infants aged 12-15 months in Ahwaz, Iran.

Weight loss and 2,4-dinitrophenol poisoning.

Functional characterization of ryanodine receptor (RYR1) sequence variants using a metabolic assay in immortalized B-lymphocytes.

The use of Fluoro-Jade in primary neuronal cell cultures.

Sodium arsenite induces ROS generation, DNA oxidative damage, HO-1 and c-Myc proteins, NF-kappaB activation and cell proliferation in human breast cancer MCF-7 cells.

The role of the dioxin-responsive element cluster between the Cyp1a1 and Cyp1a2 loci in aryl hydrocarbon receptor biology.

Carcinogenesis studies of cresols in rats and mice.

Impact of iron supplementation on schistosomiasis control in Zambian school children in a highly endemic area.

The soluble nickel component of residual oil fly ash alters pulmonary host defense in rats.

A biological hazard of our age: bracken fern [*Pteridium aquilinum* (L.) Kuhn]--a review.

Aetiology of molar-incisor hypomineralization: a critical review.

Pulmonary lesion induced by low and high positive end-expiratory pressure levels during protective ventilation in experimental acute lung injury.

Iron deficiency and child and maternal health.

Relative bioavailability of micronized, dispersible ferric pyrophosphate added to an apple juice drink.

Inhibition of androgen receptor transcriptional activity as a novel mechanism of action of arsenic.

Controlled, household-randomized, open-label trial of the effect of treatment of *Helicobacter pylori* infection on iron deficiency among children in rural Alaska: results at 40 months.

Parkinson-linked genes and toxins that affect neuronal cell death through the Bcl-2 family.

Multiple micronutrient fortification of salt.

Cytotoxicity and gene expression profiling of two hydroxylated polybrominated diphenyl ethers in human H295R adrenocortical carcinoma cells.

Impairment of emotional behavior and spatial learning in adult Wistar rats by ferrous sulfate.

[A series of observation on the expression of TGF-beta1 in the lung of nitrofen-induced congenital diaphragmatic hernia rat model].

Dioxin-induced toxicity on vascular remodeling of the placenta.

The significance of the nongenomic pathway in mediating inflammatory signaling of the dioxin-activated Ah receptor to cause toxic effects.

AHR signaling in prostate growth, morphogenesis, and disease.

A new cross-talk between the aryl hydrocarbon receptor and RelB, a member of the NF-kappaB family.

A novel strategy utilizing ultrasound for antigen delivery in dendritic cell-based cancer immunotherapy.

Bioactivation of the phytoestrogen diosmetin by CYP1 cytochromes P450.

Comparison of immunotoxicity among tetrachloro-, pentachloro-, tetrabromo- and pentabromo-dibenzo-p-dioxins in mice.

Ethanol extract of *Allium sativum* attenuates testicular and liver toxicity induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin in rats.

Randomized, double-blind, placebo-controlled trial of effects of enteral iron supplementation on anemia and risk of infection during surgical critical illness.

Positron emission tomography (PET) imaging with [11C]-labeled erlotinib: a micro-PET study on mice with lung tumor xenografts.

Expression of hepcidin and other iron-related genes in type 3 hemochromatosis due to a novel mutation in transferrin receptor-2.

Iron supplementation of breastfed infants from an early age.

A truncation in the aryl hydrocarbon receptor of the CRL:WI(Han) rat does not affect the developmental toxicity of TCDD.

Serum dioxins, polychlorinated biphenyls, and endometriosis: a case-control study in Atlanta.

Reproductive and developmental toxicity screening study of 2,4-dinitrophenol in rats.

The impact of iron supplementation efficiency in female blood donors with a decreased ferritin level and no anaemia. Rationale and design of a randomised controlled trial: a study protocol.

2,3,7,8-TCDD neurotoxicity in neuroblastoma cells is caused by increased oxidative stress, intracellular calcium levels, and tau phosphorylation.

[The specific features of the clinical course of tuberculosis and enhancement of its treatment efficiency in fertile-age women with iron-deficiency anemia].

Chronic health impairment due to 2,3,7,8-tetrachloro-dibenzo-p-dioxin exposure.

Mass spectrometric and peptide chip epitope mapping of rheumatoid arthritis autoantigen RA33.

Oxidative status in iron-deficiency anemia.

Functional analysis of ryanodine receptor type 1 p.R2508C mutation in exon 47.

Illnesses associated with chloropicrin use in California agriculture, 1992-2003.

Efficacy and tolerability of oral bovine lactoferrin compared to ferrous sulfate in pregnant women with iron deficiency anemia: a prospective controlled randomized study.

Effects of arsenic on maternal and fetal health.

Children's immunology, what can we learn from animal studies (3): Impaired mucosal immunity in the gut by 2,3,7,8-tetraclorodibenzo-p-dioxin (TCDD): a possible role for allergic sensitization.

Menadione reduction by pharmacological doses of ascorbate induces an oxidative stress that kills breast cancer cells.

[Experience in the treatment of iron deficiency anemia with ferro-folgamma].

Ferric carboxymaltose: a review of its use in iron-deficiency anaemia.

Oral carcinogenicity and toxicity of 2-amino-4-chlorophenol in rats.

Intravenous iron sucrose is superior to oral iron sulphate for correcting anaemia and restoring iron stores in IBD patients: A randomized, controlled, evaluator-blind, multicentre study.

Molecular cloning and oxidative modification of human lens ALDH1A1: implication in impaired detoxification of lipid aldehydes.

Silencing of PINK1 expression affects mitochondrial DNA and oxidative phosphorylation in dopaminergic cells.

Iron medication-induced gastric mucosal injury.

A cluster of neurological signs and symptoms in soil fumigators.

Thyroid lesions in the great cormorant (*Phalacrocorax carbo*) of Niigata, central Japan: a possible association with dioxin accumulation.

Cumulative effects of in utero administration of mixtures of "antiandrogens" on male rat reproductive development.

Speciation of arsenic trioxide metabolites in blood cells and plasma of a patient with acute promyelocytic leukemia.

Mouse breast cancer model-dependent changes in metabolic syndrome-associated phenotypes caused by maternal dioxin exposure and dietary fat.

Developmental immunotoxicology: focus on health risks.

Iron absorption from meat pate fortified with ferric pyrophosphate in iron-deficient women.

Melatonin inhibits arsenite-induced peripheral neurotoxicity.

Differential effects of the mitochondrial uncoupling agent, 2,4-dinitrophenol, or the nitroxide antioxidant, Tempol, on synaptic or nonsynaptic mitochondria after spinal cord injury.

Effects of chronic low dose rotenone treatment on human microglial cells.

CYP1A1 and CYP3A4 modulation by dietary flavonoids in human intestinal Caco-2 cells.

Hepatic and vascular mRNA expression in adult zebrafish (*Danio rerio*) following exposure to benzo-a-pyrene and 2,3,7,8-tetrachlorodibenzo-p-dioxin.

(3R,5S,7aS)-(3,5-Bis(4-fluorophenyl)tetrahydro-1H-oxazolo[3,4-c]oxazol-7a-yl)methanol, a novel neuroprotective agent.

Glucocorticoid and adrenalectomy effects on the rat aryl hydrocarbon receptor pathway depend on the dosing regimen and post-surgical time.

Melanosis ilei associated with chronic ingestion of oral iron.

[Assessment of mitochondrial metabolic oxidative state in living cardiomyocytes with spectrally-resolved fluorescence lifetime spectroscopy of NAD(P)H].

11C-GSK189254: a selective radioligand for in vivo central nervous system imaging of histamine H3 receptors by PET.

Understanding butachlor toxicity in *Aulosira fertilissima* using physiological, biochemical and proteomic approaches.

The pleiotropy of dioxin toxicity--xenobiotic misappropriation of the aryl hydrocarbon receptor's alternative physiological roles.

Estimates of cancer potency of 2,3,7,8-tetrachlorodibenzo(p)dioxin using linear and nonlinear dose-response modeling and toxicokinetics.

A single exposure to particulate or gaseous air pollution increases the risk of aconitine-induced cardiac arrhythmia in hypertensive rats.

Effects of acute gamma-irradiation on the aquatic microbial microcosm in comparison with chemicals.

Mst1-FoxO signaling protects Na⁺-ve T lymphocytes from cellular oxidative stress in mice.

Glycome and transcriptome regulation of vasculogenesis.

Modulation of arsenic trioxide-induced apoptosis by genistein and functionally related agents in U937 human leukaemia cells. Regulation by ROS and mitogen-activated protein kinases.

Towards the mechanism and comparative effect of diphenyl diselenide, diphenyl ditelluride and ebselen under various pathophysiological conditions in rat's kidney preparation.

Antioxidant defense system in rats simultaneously intoxicated with agrochemicals.

A novel approach using DNA-repair-deficient chicken DT40 cell lines for screening and characterizing the genotoxicity of environmental contaminants.

Hemangiomas, angiosarcomas, and vascular malformations represent the signaling abnormalities of pathogenic angiogenesis.

An ecological risk assessment of the acute and chronic effects of the herbicide clopyralid to rainbow trout (*Oncorhynchus mykiss*).

Beta-naphthoflavone causes an AhR-independent inhibition of invasion and intracellular multiplication of *Listeria monocytogenes* in murine hepatocytes.

Knockdown of the aryl hydrocarbon receptor attenuates excitotoxicity and enhances NMDA-induced BDNF expression in cortical neurons.

Simultaneous in vivo time course and dose response evaluation for TCDD-induced impairment of the LPS-stimulated primary IgM response.

GintPDX1 encodes a protein involved in vitamin B6 biosynthesis that is up-regulated by oxidative stress in the arbuscular mycorrhizal fungus *Glomus intraradices*.

Changes in iron-regulatory proteins in the aged rodent neural retina.

2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) poisoning in Victor Yushchenko: identification and measurement of TCDD metabolites.

Preventive effect of piperonyl butoxide on cyclophosphamide-induced teratogenesis in rats.

Fungicide risk assessment for aquatic ecosystems: importance of interspecific variation, toxic mode of action, and exposure regime.

Comparison of supplements to enhance recovery of heat-injured Salmonella from egg albumen.

Taurine prevents arsenic-induced cardiac oxidative stress and apoptotic damage: role of NF-kappa B, p38 and JNK MAPK pathway.

Development of a flow-through system for the fish embryo toxicity test (FET) with the zebrafish (*Danio rerio*).

Oxidative inactivation of mitochondrial aconitase results in iron and H₂O₂-mediated neurotoxicity in rat primary mesencephalic cultures.

Acacia Senegal gum exudate offers protection against cyclophosphamide-induced urinary bladder cytotoxicity.

Inhibitory effects of guarana seed extract on passive cutaneous anaphylaxis and mast cell degranulation.

Systematic gene expression profile of hypothalamus in calorie-restricted mice implicates the involvement of mTOR signaling in neuroprotective activity.

Thiamin confers enhanced tolerance to oxidative stress in *Arabidopsis*.

Cytotoxicity of spermine oxidation products to multidrug resistant melanoma M14 ADR2 cells: sensitization by the MDL 72527 lysosomotropic compound.

Activation of the aryl hydrocarbon receptor during different critical windows in pregnancy alters mammary epithelial cell proliferation and differentiation.

Protection of human cultured cells against oxidative stress by *Rhodiola rosea* without activation of antioxidant defenses.

Gene expression analysis in zebrafish embryos: a potential approach to predict effect concentrations in the fish early life stage test.

Impaired arsenic metabolism in children during weaning.

Endoplasmic reticulum stress-induced cell death in dopaminergic cells: effect of resveratrol.

Chronic low-level arsenic exposure causes gender-specific alterations in locomotor activity, dopaminergic systems, and thioredoxin expression in mice.

Pharmacometabonomic identification of a significant host-microbiome metabolic interaction affecting human drug metabolism.

Dehydroascorbate protection against dioxin-induced toxicity in the beta-cell line INS-1E.

Estrogen signaling is not required for prostatic bud patterning or for its disruption by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Identification of water soluble and particle bound compounds causing sublethal toxic effects. A field study on sediments affected by a chlor-alkali industry.

Rescue of anaemia and autoimmune responses in SOD1-deficient mice by transgenic expression of human SOD1 in erythrocytes.

A forward genetic screen in *Drosophila* implicates insulin signaling in age-related locomotor impairment.

The role of aryl hydrocarbon receptor in regulation of enzymes involved in metabolic activation of polycyclic aromatic hydrocarbons in a model of rat liver progenitor cells.

Evaluation of a novel inhalation exposure system to determine acute respiratory responses to tobacco and polymer pyrolysate mixtures in Swiss-Webster mice.

Effect of chronic exposure to the aryl hydrocarbon receptor agonist 2,3,7,8-tetrachlorodibenzo-p-dioxin in female rats on ovarian gene expression.

Reactive oxygen species as cardiovascular mediators: lessons from endothelial-specific protein overexpression mouse models.

Oral charcoal adsorbent (AST-120) prevents progression of cardiac damage in chronic kidney disease through suppression of oxidative stress.

Arsenic induces telomerase expression and maintains telomere length in human cord blood cells.

Transcription factor Nrf2 mediates an adaptive response to sulforaphane that protects fibroblasts in vitro against the cytotoxic effects of electrophiles, peroxides and redox-cycling agents.

Caenorhabditis elegans LRK-1 and PINK-1 act antagonistically in stress response and neurite outgrowth.

Chiral analysis of anti-acquired immunodeficiency syndrome drug, 9-(R)-[2-(phosphonomethoxy)propyl]adenine (tenofovir), and related antiviral acyclic nucleoside phosphonates by CE using beta-CD as chiral selector.

Fe²⁺ and Fe³⁺ initiated peroxidation of sonicated and non-sonicated liposomes made of retinal lipids in different aqueous media.

Cell death mechanisms in GT1-7 GnRH cells exposed to polychlorinated biphenyls PCB74, PCB118, and PCB153.

Glucose 6-phosphate dehydrogenase is regulated through c-Src-mediated tyrosine phosphorylation in endothelial cells.

Pediocin A modulates intestinal microflora metabolism in swine in vitro intestinal fermentations.

CYP1A1 and CYP1A2 expression: comparing 'humanized' mouse lines and wild-type mice; comparing human and mouse hepatoma-derived cell lines.

Iodomethane human health risk characterization.

Evaluation of possible modes of action for acute effects of methyl iodide in laboratory animals.

Folate, Cobalamin, Cysteine, Homocysteine, and Arsenic Metabolism among Children in Bangladesh.

Characterization of the chronic risk and hazard of hazardous air pollutants in the United States using ambient monitoring data.

Dynamic behavior of Arabidopsis eIF4A-III, putative core protein of exon junction complex: fast relocation to nucleolus and splicing speckles under hypoxia.

Dioxin-induced up-regulation of the active form of vitamin D is the main cause for its inhibitory action on osteoblast activities, leading to developmental bone toxicity.

Persistent adverse effects on health and reproduction caused by exposure of zebrafish to 2,3,7,8-tetrachlorodibenzo-p-dioxin during early development and gonad differentiation.

Sustaining hypercitrullinemia, hypercholesterolemia and augmented oxidative stress in Japanese children with aspartate/glutamate carrier isoform 2-citrin-deficiency even during the silent period.

Preliminary results of small arterial substitute performed with a new cylindrical biomaterial composed of bacterial cellulose.

Short-term exposure to dioxin impairs bone tissue in male rats.

Using Biomonitoring Equivalents to interpret human biomonitoring data in a public health risk context.

Role of the bed nucleus of the stria terminalis in the cardiovascular responses to acute restraint stress in rats.

Sodium azide induced neuronal damage in vitro: evidence for non-apoptotic cell death.

Transgenic mouse lines expressing rat AH receptor variants--a new animal model for research on AH receptor function and dioxin toxicity mechanisms.

Gene expression profiling in rat liver treated with compounds inducing elevation of bilirubin.

Influence of inorganic and organic iron compounds on parameters of cell growth and survival in human colon cells.

Hepatoprotective and curative properties of Kombucha tea against carbon tetrachloride-induced toxicity.

Accelerated degradation of metam-sodium in soil and consequences for root-disease management.

Involvement of Blimp-1 and AP-1 dysregulation in the 2,3,7,8-Tetrachlorodibenzo-p-dioxin-mediated suppression of the IgM response by B cells.

Effects of 3,4-dichloroaniline and diazinon on different biological organisation levels of zebrafish (*Danio rerio*) embryos and larvae.

Chronic effects of polychlorinated dibenzofurans on mink in laboratory and field environments.

Multiple adverse thyroid and metabolic health signs in the population from the area heavily polluted by organochlorine cocktail (PCB, DDE, HCB, dioxin).

In vivo and in vitro evaluation of an *Acetobacter xylinum* synthesized microbial cellulose membrane intended for guided tissue repair.

Aldose reductase decreases endoplasmic reticulum stress in ischemic hearts.

Effects of prometryne on apoptosis and necrosis in thymus, lymph node and spleen in mice.

Studies on histopathological changes in the gill, liver and kidney of *Channa punctatus* (Bloch) exposed to Alachlor.

Experimental study of the tissue reaction caused by the presence of cellulose produced by *Acetobacter xylinum* in the nasal dorsum of rabbits.

Activated toxicity of diesel particulate extract by ultraviolet a radiation in mammalian cells: role of singlet oxygen.

5,7-dihydroxy-3,4,6-trimethoxyflavone inhibits the inflammatory effects induced by *Bacteroides fragilis* enterotoxin via dissociating the complex of heat shock protein 90 and I kappaB alpha and I kappaB kinase-gamma in intestinal epithelial cell culture.

Nitrous oxide emissions for early warning of biological nitrification failure in activated sludge.

The dioxin receptor regulates the constitutive expression of the *vav3* proto-oncogene and modulates cell shape and adhesion.

Identification of disinfection by-products of selected triazines in drinking water by LC-Q-ToF-MS/MS and evaluation of their toxicity.

Developmental mechanisms of arsenite toxicity in zebrafish (*Danio rerio*) embryos.

New insights into the role of Fur proteins: FurB (AlI2473) from *Anabaena* protects DNA and increases cell survival under oxidative stress.

Neuroprotective role of delta-opioid receptors against mitochondrial respiratory chain injury.

Carbonyl Compounds and Toxicity Assessments of Emissions from a Diesel Engine Running on Biodiesels.

[Sub-chronic toxicity of cyanogen chloride on mice].

Optical waveguide light-mode spectroscopy immunosensors for environmental monitoring.

The use of microelectrode array (MEA) to study the protective effects of potassium channel openers on metabolically compromised HL-1 cardiomyocytes.

New ifosfamide analogs designed for lower associated neurotoxicity and nephrotoxicity with modified alkylating kinetics leading to enhanced in vitro anticancer activity.

Hypergravity induces ATP release and actin reorganization via tyrosine phosphorylation and RhoA activation in bovine endothelial cells.

Refractory cardiopulmonary failure after glyphosate surfactant intoxication: a case report.

Effects of arsenic exposure from drinking water on spatial memory, ultra-structures and NMDAR gene expression of hippocampus in rats.

Method development for the determination of teicoplanin in patient serum by solid phase extraction and micellar electrokinetic chromatography.

Microbial cellulose wound dressing in the treatment of nonhealing lower extremity ulcers.

Early biochemical and morphological modifications in the brain of a transgenic mouse model of Alzheimer's disease: a role for peroxisomes.

Establishment of plant regeneration and cryopreservation system from zygotic embryo-derived embryogenic cell suspension cultures of *Ranunculus kazusensis*.

Proteomic analysis of the rat ovary following chronic low-dose exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

A simple efficient technique of 'mid-dilution' on-line hemodiafiltration.

The role of polyamine metabolism in neuronal injury following cerebral ischemia.

Lidocaine prevents referred hyperalgesia associated with cystitis.

Green tea extract increases cyclophosphamide-induced teratogenesis by modulating the expression of cytochrome P-450 mRNA.

Role of the cyclooxygenase 2-thromboxane pathway in 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced decrease in mesencephalic vein blood flow in the zebrafish embryo.

Altered stored calcium release in skeletal myotubes deficient of triadin and junctin.

Levels of urinary total and speciated arsenic in the US population: National Health and Nutrition Examination Survey 2003-2004.

Development of a toxicity identification evaluation protocol using chlorophyll-a fluorescence in a marine microalga.

Effects of subchronic coexposure to arsenic and endosulfan on the erythrocytes of broiler chickens: a biochemical study.

Molecular mechanisms of the conjugated alpha,beta-unsaturated carbonyl derivatives: relevance to neurotoxicity and neurodegenerative diseases.

Effects of atrazine on female Wistar rats: morphological alterations in ovarian follicles and immunocytochemical labeling of 90 kDa heat shock protein.

Letter regarding: "Paraquat: the red herring of Parkinson's disease research".

Activation of NF-kappaB p65/c-Rel dimer is associated with neuroprotection elicited by mGlu5 receptor agonists against MPP(+) toxicity in SK-N-SH cells.

Aquatic risk assessment of herbicides in freshwater ecosystems of South Florida.

Comparison of the time courses of selective gene expression and dopaminergic depletion induced by MPP+ in MN9D cells.

Gestational exposure to atrazine: effects on the postnatal development of male offspring.

Cytotoxic, genotoxic and cell-cycle disruptive effects of thio-dimethylarsinate in cultured human cells and the role of glutathione.

Antioxidant and antimutagenic properties of the monoterpene indole alkaloid psychollatine and the crude foliar extract of *Psychotria umbellata* Vell.

A gene-shuffled glyphosate acetyltransferase protein from *Bacillus licheniformis* (GAT4601) shows no evidence of allergenicity or toxicity.

Do we have to incorporate ecological interactions in the sensitivity assessment of ecosystems? An examination of a theoretical assumption underlying species sensitivity distribution models.

Paraquat toxicity in a mouse embryonic stem cell model.

Toxicity and effects of a glyphosate-based herbicide on the Neotropical fish *Prochilodus lineatus*.

Effects of prevalent freshwater chemical contaminants on in vitro growth of *Escherichia coli* and *Klebsiella pneumoniae*.

Acute toxicity of pesticides to the tropical freshwater shrimp *Caridina laevis*.

Examining the joint toxicity of chlorpyrifos and atrazine in the aquatic species: *Lepomis macrochirus*, *Pimephales promelas* and *Chironomus tentans*.

Reduction of paraquat-induced renal cytotoxicity by manganese and copper complexes of EGTA and EHPG.

Hydralazine inhibits compression and acrolein-mediated injuries in ex vivo spinal cord.

Subchronic inhalation of mixtures of cigarette smoke constituents in Xpa^{-/-}p53^{+/-} knock-out mice: a comparison of intermittent with semi-continuous exposure to acetaldehyde, formaldehyde, and acrolein.

Gene expression profiling reveals decreased expression of two hemoglobin genes associated with increased consumption of oxygen in *Chironomus tentans* exposed to atrazine: a possible mechanism for adapting to oxygen deficiency.

Arsenic speciation analysis in human saliva.

Neuroprotective effects of (-)-epigallocatechin-3-gallate (EGCG) on paraquat-induced apoptosis in PC12 cells.

Anti-TGF-beta1 antibody: an effective treatment for lung injury caused by paraquat in the future.

Bioaccumulation, sublethal toxicity, and biotransformation of sediment-associated pentachlorophenol in *Lumbriculus variegatus* (*Oligochaeta*).

Pneumoproteins as markers of paraquat lung injury: a clinical case.

Pretreatment with near-infrared light via light-emitting diode provides added benefit against rotenone- and MPP⁺-induced neurotoxicity.

Effects of acrolein on leukotriene biosynthesis in human neutrophils.

Genome-wide transcriptional responses to acrolein.

[32 patients of acute fulminant paraquat poisoning].

Acute systemic paraquat intoxication: survival without long-term complications.

Trifluralin-induced disorganization of microtubular cytoskeleton alters the development of roots in *Hordeum vulgare* L.

The effect of alpha-synuclein knockdown on MPP⁺ toxicity in models of human neurons.

Biochemical effects of clomazone herbicide on piava (*Leporinus obtusidens*).

Hepatoma tissue culture (HTC) cells as a model for investigating the effects of low concentrations of herbicide on cell structure and function.

Trifluoroethanol increases albumin's susceptibility to chemical modification.

1-Methyl-4-phenyl-pyridinium ion-induced oxidative stress, c-Jun phosphorylation and DNA fragmentation factor-45 cleavage in SK-N-SH cells are averted by selegiline.

Polyhydroxylated fullerene derivative C(60)(OH)(24) prevents mitochondrial dysfunction and oxidative damage in an MPP⁺-induced cellular model of Parkinson's disease.

Prostaglandin analogue misoprostol attenuates neurotoxin 1-methyl-4-phenylpyridinium-induced mitochondrial damage and cell death in differentiated PC12 cells.

[Impact of glyphosate and acetochlor on *Dugesia japonica* ingestion and regeneration].

S-ethyl-N,N-dipropylthiocarbamate exposure and cancer incidence among male pesticide applicators in the agricultural health study: a prospective cohort.

Effects of low concentrations of herbicides on full-season, field-grown potatoes.

Rhabdomyolysis from an intramuscular injection of glyphosate-surfactant herbicide.

Constraints on the evolution of tolerance to herbicide in the common morning glory: resistance and tolerance are mutually exclusive.

Acute toxicity of atrazine, endosulfan sulphate and chlorpyrifos to *Vibrio fischeri*, *Thamnocephalus platyurus* and *Daphnia magna*, relative to their concentrations in surface waters from the Alentejo region of Portugal.

Agent Orange exposure, Vietnam War veterans, and the risk of prostate cancer.

Effects of subchronic exposure to LASSO MTX (alachlor 42% W/V) on hematological indices and histology of the common Carp, *Cyprinus carpio* L.

Toxic effects of chlorate on three plant species inoculated with arbuscular mycorrhizal fungi.

Toxicity assessment of the herbicides sulcotrione and mesotrione toward two reference environmental microorganisms: *Tetrahymena pyriformis* and *Vibrio fischeri*.

Mitochondrial uncouplers act synergistically with the fumigant phosphine to disrupt mitochondrial membrane potential and cause cell death.

Potential developmental neurotoxicity of pesticides used in Europe.

Contact dermatitis in dairy cattle caused by calcium cyanamide.

[Experimental study on therapeutic efficacy of tetrandrine on lung injury induced by acute of paraquat poisoning].

[Influence of pyrrolidine dithiocarbamate (PDTC) on expression of transforming growth factor beta(1), matrix metalloproteinase-2 and tissue inhibitor-1 of metalloproteinase in rats with pulmonary damage induced by paraquat].

Effects of subchronic metribuzin exposure on common carp (*Cyprinus carpio*).

The involvement of nitric oxide in maneb- and paraquat-induced oxidative stress in rat polymorphonuclear leukocytes.

Protective effect of estrogen on apoptosis in a cell culture model of Parkinson's disease.

Spermatogenesis, epididymis morphology and plasma sex steroid secretion in the male lizard *Podarcis sicula* exposed to diuron.

Pesticide exposure as risk factor for non-Hodgkin lymphoma including histopathological subgroup analysis.

Paraquat exposure reduces nicotinic receptor-evoked dopamine release in monkey striatum.

Comparison of the Qwiklite algal bioluminescence test with marine algal growth rate inhibition bioassays.

Difference in the sensitivity to chemical compounds between female and male neonates of *Daphnia magna*.

Oral mucosal response to exposure to diquat: a rare occupational injury.

Mitochondrial complex I inhibition is not required for dopaminergic neuron death induced by rotenone, MPP+, or paraquat.

Role of TRPM8 and TRPA1 for cold allodynia in patients with cold injury.

Genotoxic pressure of vineyard pesticides in fish: field and mesocosm surveys.

[Clinical study on treatment of acute paraquat poisoning].

An outbreak of fatal pneumonitis caused by contamination of illicit alcohol with paraquat.

Acute alachlor and butachlor herbicide poisoning.

[Adaptive response on life span alteration in *Drosophila melanogaster* strains with mutations in heat shock factor and heat shock proteins genes].

Accidental scrotal burns from paraquat while handling a patient.

A case of paraquat intoxication caused by intravenous injection.

Effects of the mixture of diquat and a nonylphenol polyethoxylate adjuvant on fecundity and progeny early performances of the pond snail *Lymnaea stagnalis* in laboratory bioassays and microcosms.

Cortisol response to acute stress in jundiã *Rhamdia quelen* acutely exposed to sub-lethal concentrations of agrichemicals.

Establishing the use of melatonin as an adjuvant therapeutic against paraquat-induced lung toxicity in rats.

Nonredundant functions of alphabeta and gammadelta T cells in acrolein-induced pulmonary pathology.

Safe storage of pesticides in Sri Lanka - identifying important design features influencing community acceptance and use of safe storage devices.

Acrolein health effects.

Functionalized mesoporous silica nanoparticle-based drug delivery system to rescue acrolein-mediated cell death.

Genotoxic effects of Roundup on the fish *Prochilodus lineatus*.

Biomonitoring Equivalent (BE) dossier for 2,4-dichlorophenoxyacetic acid (2,4-D) (CAS No. 94-75-7).

The cannabinoid CP55,940 prolongs survival and improves locomotor activity in *Drosophila melanogaster* against paraquat: implications in Parkinson's disease.

Atrazine exposure decreases cell proliferation in Chinese Hamster Ovary (CHO-K1) cell line.

Neonatal hypomyelination by the herbicide 2,4-dichlorophenoxyacetic acid. Chemical and ultrastructural studies in rats.

Comparative effects of the herbicides dicamba, 2,4-D and paraquat on non-green potato tuber calli.

Effects of glufosinate on antioxidant enzymes, subcellular structure, and gene expression in the unicellular green alga *Chlorella vulgaris*.

Mechanism of trifluralin-induced thyroid tumors in rats.

Discriminating the molecular basis of hepatotoxicity using the large-scale characteristic molecular signatures of toxicants by expression profiling analysis.

Growth and protein metabolism in red drum (*Sciaenops ocellatus*) larvae exposed to environmental levels of atrazine and malathion.

Cytotoxicity of combinations of arsenicals on rat urinary bladder urothelial cells in vitro.

[Change of JNK and c-Jun in lung injury associated with paraquat poisoning of rats].

Pesticide-associated pemphigus vulgaris.

The effectiveness of combined treatment with methylprednisolone and cyclophosphamide in oral paraquat poisoning.

Association between plasma paraquat level and outcome of paraquat poisoning in 375 paraquat poisoning patients.

How irritating: the role of TRPA1 in sensing cigarette smoke and aerogenic oxidants in the airways.

Results of a 13-week safety assurance study with rats fed grain from corn rootworm-protected, glyphosate-tolerant MON 88017 corn.

Blockade of NGF and trk receptors inhibits increased peripheral mechanical sensitivity accompanying cystitis in rats.

Effect of a toxicant on phagocytosis pathways in the freshwater snail *Lymnaea stagnalis*.

Role of protein kinase Cdelta in paraquat-induced glial cell death.

The in vivo gene expression signature of oxidative stress.

Modulation of signal transduction pathways in lymphocytes due to sub-lethal toxicity of chlorinated phenol.

Severe acute poisoning due to a glufosinate containing preparation without mitochondrial involvement.

Comparative transcriptomic responses to chronic cadmium, fluoranthene, and atrazine exposure in *Lumbricus rubellus*.

Hypokalemia and hypothermia are associated with 30-day mortality in patients with acute paraquat poisoning.

Triptolide protects against 1-methyl-4-phenyl pyridinium-induced dopaminergic neurotoxicity in rats: implication for immunosuppressive therapy in Parkinson's disease.

Acrolein consumption exacerbates myocardial ischemic injury and blocks nitric oxide-induced PKCepsilon signaling and cardioprotection.

Subchronic feeding study of herbicide-tolerant soybean DP-356⁴³⁻⁵ in Sprague-Dawley rats.

Protein alkylation, transcriptional responses and cytochrome c release during acrolein toxicity in A549 cells: influence of nucleophilic culture media constituents.

Maneb potentiates paraquat neurotoxicity by inducing key Bcl-2 family members.

Responses of chronically contaminated biofilms to short pulses of diuron. An experimental study simulating flooding events in a small river.

Human ApoD, an apolipoprotein up-regulated in neurodegenerative diseases, extends lifespan and increases stress resistance in *Drosophila*.

[Diuron degradation process and change of toxicity by gamma-irradiation].

Acute toxic hazard evaluations of glyphosate herbicide on terrestrial vertebrates of the Oregon coast range.

Reduced toxicological activity of cigarette smoke by the addition of ammonia magnesium phosphate to the paper of an electrically heated cigarette: subchronic inhalation toxicology.

Toxicity of carbaryl, diquat dibromide, and fluoranthene, individually and in mixture, to larval grass shrimp, *Palaemonetes pugio*.

Variation in somatic and ovarian development: predicting susceptibility of amphibians to estrogenic contaminants.

Toxicity of the herbicide glyphosate to *Chordodes nobilii* (Gordiida, Nematomorpha).

Response to "Paraquat: the red herring of Parkinson's disease research".

Evaluation of DNA damage in Chinese toad (*Bufo bufo gargarizans*) after in vivo exposure to sublethal concentrations of four herbicides using the comet assay.

[Change of endothelin-1 and nitrogen monoxide in rats with paraquat poisoning].

[Treatment of acrolein inhalation induced lung injury].

Carbonyl-scavenging drugs & protection against carbonyl stress-associated cell injury.

Acrolein induces inflammatory response underlying endothelial dysfunction: a risk factor for atherosclerosis.

Induction of COX-2 expression by acrolein in the rat model of hemorrhagic cystitis.

Combined repeated dose and reproductive/developmental toxicity screening test of the nitrophenolic herbicide dinoseb, 2-sec-butyl-4,6-dinitrophenol, in rats.

Herbicides, glyphosate resistance and acute mammalian toxicity: simulating an environmental effect of glyphosate-resistant weeds in the USA.

Enantioselective degradation and ecotoxicity of the chiral herbicide diclofop in three freshwater alga cultures.

[Study on the expression of matrix metalloproteinase-9 in lung fibroblasts of rat with acute paraquat poisoning].

Acute renal failure induced by bentazone: 2 case reports and a comprehensive review.

Influence of toxicity and dissipation of racemic fenoxaprop and its R-enantiomer in *Scenedesmus obliquus* suspension by cyclodextrins.

Acute pancreatitis caused by severe glyphosate-surfactant oral intoxication.

A fatal intoxication from ingestion of 2-methyl-4-chlorophenoxyacetic acid (MCPA).

Differential phosphorylation of translation initiation regulators 4EBP1, S6k1, and Erk 1/2 following inhibition of alcohol metabolism in mouse heart.

Using accelerated life testing procedures to compare the relative sensitivity of rainbow trout and the federally listed threatened bull trout to three commonly used rangeland herbicides (picloram, 2,4-D, and clopyralid).

Metabolic acidosis in prometryn (triazine herbicide) self-poisoning.

The *C. elegans* Opa1 homologue EAT-3 is essential for resistance to free radicals.

Protective effect of prion protein via the N-terminal region in mediating a protective effect on paraquat-induced oxidative injury in neuronal cells.

New formulation of paraquat: a step forward but in the wrong direction.

Improvement in survival after paraquat ingestion following introduction of a new formulation in Sri Lanka.

Application of physiological computational fluid dynamics models to predict interspecies nasal dosimetry of inhaled acrolein.

Respiratory tract responses in male rats following subchronic acrolein inhalation.

Perturbation of organogenesis by the herbicide atrazine in the amphibian *Xenopus laevis*.

Comparative cytotoxicity of alachlor, acetochlor, and metolachlor herbicides in isolated rat and cryopreserved human hepatocytes.

Protective effects of a new metalloporphyrin on paraquat-induced oxidative stress and apoptosis in N27 cells.

Separation and aquatic toxicity of enantiomers of 1-(substituted phenoxyacetoxy)alkylphosphonate herbicides.

A stochastic simulation procedure for selecting herbicides with minimum environmental impact.

Effects of atrazine on fish, amphibians, and aquatic reptiles: a critical review.

Identification of genes associated with paraquat-induced toxicity in SH-SY5Y cells by PCR array focused on apoptotic pathways.

Coupling endoplasmic reticulum stress to the cell death program in dopaminergic cells: effect of paraquat.

Protective effects of ethyl pyruvate treatment on paraquat-intoxicated rats.

Pesticides, soft-tissue sarcoma and non-Hodgkin lymphoma--historical aspects on the precautionary principle in cancer prevention.

Pesticides, soft tissue sarcoma and non-Hodgkin lymphoma.

Allergic contact dermatitis with a fertilizer containing hydrogen cyanamide (Dormex).

Pesticide-related dermatitis in Saku district, Japan, 1975-2000.

Paraquat-induced apoptosis in human neuroblastoma SH-SY5Y cells: involvement of p53 and mitochondria.

Acrolein: sources, metabolism, and biomolecular interactions relevant to human health and disease.

Keap1/Nrf2 signaling regulates oxidative stress tolerance and lifespan in *Drosophila*.

Paraquat poisonings: mechanisms of lung toxicity, clinical features, and treatment.

Inhibitory effects of atrazine on *Chlorella vulgaris* as assessed by real-time polymerase chain reaction.

Neurotoxicity of pesticides: a brief review.

Protective effect of Pycnogenol in human neuroblastoma SH-SY5Y cells following acrolein-induced cytotoxicity.

Photoreceptor oxidative damage in sympathetic ophthalmia.

Increased vulnerability to rotenone-induced neurotoxicity in ceruloplasmin-deficient mice.

Cannabinoid receptor 2 is increased in acutely and chronically inflamed bladder of rats.

UCP2 modulates cell proliferation through the MAPK/ERK pathway during erythropoiesis and has no effect on heme biosynthesis.

Modulation of reactive oxygen species by antioxidants in chronic myeloid leukemia cells enhances imatinib sensitivity through survivin downregulation.

Dihydrocapsaicin (DHC), a saturated structural analog of capsaicin, induces autophagy in human cancer cells in a catalase-regulated manner.

Critical role of acrolein in secondary injury following ex vivo spinal cord trauma.

Reduction in the anxiolytic effects of ethanol by centrally formed acetaldehyde: the role of catalase inhibitors and acetaldehyde-sequestering agents.

Agrochemicals increase trematode infections in a declining amphibian species.

Tyrosine phosphatase SHP-1 in oxidative stress and development of allergic airway inflammation.

Acrolein, the toxic endogenous aldehyde, induces neurofilament-L aggregation.

Activation of aldehyde dehydrogenase-2 reduces ischemic damage to the heart.

Modulation of the neuronal response to ischaemia by somatostatin analogues in wild-type and knock-out mouse retinas.

Gene expression profiles of mouse striatum in control and maneb + paraquat-induced Parkinson's disease phenotype: validation of differentially expressed energy metabolizing transcripts.

Plasma acrolein levels and their association with delayed ischemic neurological deficits following aneurysmal subarachnoid haemorrhage: a pilot study.

Cyclooxygenase-2 deficiency modifies the neurochemical effects, motor impairment and co-morbid anxiety provoked by paraquat administration in mice.

Cigarette smoke-induced neurogenic inflammation is mediated by alpha,beta-unsaturated aldehydes and the TRPA1 receptor in rodents.

Acrolein inhalation suppresses lipopolysaccharide-induced inflammatory cytokine production but does not affect acute airways neutrophilia.

The biochemistry of heme biosynthesis.

Catalytic metalloporphyrin protects against paraquat neurotoxicity in vivo.

Tolerance to disulfiram induced by chronic alcohol intake in the rat.

Oxidative stress as a biomarker of respiratory disturbance in patients with severe motor and intellectual disabilities.

Eosinophilia among returning travelers: a practical approach.

Activities of 7-nitroindazole and 1-(2-(trifluoromethylphenyl)-imidazole independent of neuronal nitric-oxide synthase inhibition.

Evaluation of micronucleus frequencies in blood lymphocytes from smelting plant workers exposed to arsenic.

Acrolein-activated matrix metalloproteinase 9 contributes to persistent mucin production.

Enhanced autophagy and mitochondrial aberrations in murine G(M1)-gangliosidosis.

Adipose tissue-specific PPARgamma deficiency increases resistance to oxidative stress.

Paraquat neurotoxicity is mediated by a Bak-dependent mechanism.

Contribution of the SitABCD, MntH, and FeoB metal transporters to the virulence of avian pathogenic Escherichia coli O78 strain chi7122.

Recruiting strategy and 24-hour biomonitoring of paraquat in agricultural workers.

Chronic intraventricular administration of 1-methyl-4-phenylpyridinium as a progressive model of Parkinson's disease.

Glyphosate inhibition of ferric reductase activity in iron deficient sunflower roots.

A critical role of superoxide anion in selenite-induced mitophagic cell death.

A novel bioluminescent bacterial biosensor using the highly specific oxidative stress-inducible pgi gene.

Down-regulation of aldose reductase renders J774A.1 cells more susceptible to acrolein- or hydrogen peroxide-induced cell death.

Tissue distribution and urinary excretion of inorganic arsenic and its methylated metabolites in C57BL6 mice following subchronic exposure to arsenate in drinking water.

Paraquat inhibits postsynaptic AMPA receptors on dopaminergic neurons in the substantia nigra pars compacta.

Inhibition of acrolein-stimulated MUC5AC production by fucoidan in human bronchial epithelial cells.

Secondary mutations correct fitness defects in *Toxoplasma gondii* with dinitroaniline resistance mutations.

Quinlorac-induced cell death is accompanied by generation of reactive oxygen species in maize root tissue.

Tear cytokine and ocular surface alterations following brief passive cigarette smoke exposure.

Sperm mitochondrial integrity is not required for hyperactivated motility, zona binding, or acrosome reaction in the rhesus macaque.

Apolipoprotein D is involved in the mechanisms regulating protection from oxidative stress.

Catabolism of glutathione conjugates in *Arabidopsis thaliana*. Role in metabolic reactivation of the herbicide safener fenclorim.

Cell death activation during cavitation of embryoid bodies is mediated by hydrogen peroxide.

Carbon source-dependent variation of acquired mutagen resistance of *Moniliophthora perniciosa*: similarities in natural and artificial systems.

Chronic ethanol ingestion alters xenobiotic absorption through the skin: potential role of oxidative stress.

Cinnamaldehyde inhibits the tumor necrosis factor- α -induced expression of cell adhesion molecules in endothelial cells by suppressing NF- κ B activation: effects upon I κ B and Nrf2.

Anti-inflammation activities of essential oil and its constituents from indigenous cinnamon (*Cinnamomum osmophloeum*) twigs.

Genotoxicity of triasulfuron in the wing spot test of *Drosophila melanogaster* is modulated by winter wheat seedlings.

Loss of tafazzin in yeast leads to increased oxidative stress during respiratory growth.

Developmental exposure to endocrine disruptor chemicals alters follicular dynamics and steroid levels in *Caiman latirostris*.

Lipoamide protects retinal pigment epithelial cells from oxidative stress and mitochondrial dysfunction.

Fibroblasts from naked mole-rats are resistant to multiple forms of cell injury, but sensitive to peroxide, ultraviolet light, and endoplasmic reticulum stress.

Primary effect of bromoxynil to induce plant cell death may be cytosol acidification.

Identification of the major arsenic-binding protein in rat plasma as the ternary dimethylarsinous-hemoglobin-haptoglobin complex.

Preventing cell death induced by carbonyl stress, oxidative stress or mitochondrial toxins with vitamin B anti-AGE agents.

Phyllostoxin and phyllostin, bioactive metabolites produced by *Phyllosticta cirsii*, a potential mycoherbicide for *Cirsium arvense* biocontrol.

Distribution and function of the hydrogen sulfide-sensitive TRPA1 ion channel in rat urinary bladder.

Glufosinate ammonium-induced pathogen inhibition and defense responses culminate in disease protection in bar-transgenic rice.

Characterization of the transcriptional profile in primary astrocytes after oxidative stress induced by Paraquat.

An unusual and serious complication of topical wart treatment with monochloroacetic acid.

Sodium azide induces necrotic cell death in rat squamous cell carcinoma SCC131.

Genetic differences in sensitivity to alterations of mandible structure caused by the teratogen 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Maternal administration of betamethasone inhibits proliferation induced by fetal tracheal occlusion in the nitrofen rat model for congenital diaphragmatic hernia: a placebo-controlled study.

Abnormal development of tracheal innervation in rats with experimental diaphragmatic hernia.

Dihydrolipoic acid inhibits tetrachlorohydroquinone-induced tumor promotion through prevention of oxidative damage.

Quercetin prevents necrotic cell death induced by co-exposure to benzo(a)pyrene and UVA radiation.

Hypertension, cardiac hypertrophy, and impaired vascular relaxation induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin are associated with increased superoxide.

Aryl hydrocarbon receptor-mediated down-regulation of *sox9b* causes jaw malformation in zebrafish embryos.

Carbamylated low-density lipoprotein induces proliferation and increases adhesion molecule expression of human coronary artery smooth muscle cells.

Synthesis of biologically active N-methyl derivatives of amidines and cyclized five-membered products of amidines with oxalyl chloride.

Protective effect of unsymmetrical dichalcogenide, a novel antioxidant agent, in vitro and an in vivo model of brain oxidative damage.

Arsenic-induced neurotoxicity in relation to toxicokinetics: effects on sciatic nerve proteins.

In utero and lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) affects bone tissue in rhesus monkeys.

Induction of cytoplasmic accumulation of p53: a mechanism for low levels of arsenic exposure to predispose cells for malignant transformation.

Effectiveness of two programs of intermittent ferrous supplementation for treating iron-deficiency anemia in infants: randomized clinical trial.

Dioxins and cardiovascular disease mortality.

Effects of 3-methyl-4-nitrophenol on the reproductive toxicity in female Japanese quail (*Coturnix japonica*).

Ferrous gluconate and ferrous sulfate added to a complementary food distributed by the Mexican nutrition program Oportunidades have a comparable efficacy to reduce iron deficiency in toddlers.

New insights into uremic toxicity.

Semisynthesis and antiplasmodial activity of the quinoline alkaloid aurachin E.

Elevated expression of CYP1A1 and gamma-SYNUCLEIN in human ectopic (ovarian) endometriosis compared with eutopic endometrium.

Omeprazole alleviates benzo[a]pyrene cytotoxicity by inhibition of CYP1A1 activity in human and mouse hepatoma cells.

Causal relationship of *Helicobacter pylori* with iron-deficiency anemia or failure of iron supplementation in children.

Maternal and developmental toxicity study of sodium azide in rats.

Clinical outcome of the endodontic treatment of teeth with apical periodontitis using an antimicrobial protocol.

Characterization of the transduction pathway involved in c-fos and c-jun expression induced by *Aggregatibacter actinomycetemcomitans* lipopolysaccharides in human gingival fibroblasts.

Endoscopic removal of iron bezoar following acute overdose.

Patterns of dioxin-altered mRNA expression in livers of dioxin-sensitive versus dioxin-resistant rats.

Spatial variations in the incidence of breast cancer and potential risks associated with soil dioxin contamination in Midland, Saginaw, and Bay Counties, Michigan, USA.

Transposition of the great arteries.

Combined administration of taurine and monoisoamyl DMSA protects arsenic induced oxidative injury in rats.

Perinatal TCDD exposure and the adult onset of autoimmune disease.

A comprehensive review of mercury provoked autism.

Impairment of short-term memory associated with low iron stores in a volunteer multidose plateletpheresis donor.

Ferric carboxymaltose injection in the treatment of postpartum iron deficiency anemia: a randomized controlled clinical trial.

[Severe esophagitis due to overdose of iron tablets].

Understanding the net effects of pesticides on amphibian trematode infections.

Blockade of the aryl hydrocarbon receptor pathway triggered by dioxin, polycyclic aromatic hydrocarbons and cigarette smoke by *Phellinus linteus*.

Parkinson disease: primacy of age as a risk factor for mitochondrial dysfunction.

Release kinetics of intact and degraded troponin I and T after irreversible cell damage.

Temporal metabonomic modeling of l-arginine-induced exocrine pancreatitis.

Effectiveness of daily and weekly iron supplementation in the prevention of anemia in infants.

Effects of uremic serum and uremic toxins on hepatic uptake of digoxin.

Perinatal 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure sensitizes offspring to angiotensin II-induced hypertension.

Urinary arsenic speciation and its correlation with 8-OHdG in Chinese residents exposed to arsenic through coal burning.

An enhanced postnatal autoimmune profile in 24 week-old C57BL/6 mice developmentally exposed to TCDD.

Critical role of cyclooxygenase-2 activation in pathogenesis of hydronephrosis caused by lactational exposure of mice to dioxin.

Antiteratogenic effect of resveratrol in mice exposed in utero to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

[Anti-estrogenic effect of dioxin on rat skeleton development].

Environmental exposures and adverse pregnancy outcomes: a review of the science.

Associations of environmental exposure to dioxins with prevalent diabetes among general inhabitants in Japan.

Association of polychlorinated biphenyls with hypertension in the 1999-2002 National Health and Nutrition Examination Survey.

Protective effects of GH and IGF-I against iron-induced lipid peroxidation in vivo.

Neuroprotection by *Spirulina platensis* protean extract and phycocyanin against iron-induced toxicity in SH-SY5Y neuroblastoma cells.

Liver is a target of arsenic carcinogenesis.

The effects of environmental neurotoxicants on the dopaminergic system: A possible role in drug addiction.

Accumulation of M1dG DNA adducts after chronic exposure to PCBs, but not from acute exposure to polychlorinated aromatic hydrocarbons.

Effect of bis (maltolato) oxovanadium (BMOV) in uric acid and sodium arsenite-induced vascular endothelial dysfunction in rats.

Functional characterization and gene expression analysis of CD4+ CD25+ regulatory T cells generated in mice treated with 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Mitotic arrest-associated apoptosis induced by sodium arsenite in A375 melanoma cells is BUBR1-dependent.

Inhibition of function of T cell subpopulations and decrease in cytokine production during subacute poisoning with various toxicants.

Unique spatial and cellular expression patterns of Hoxa5, Hoxb4, and Hoxb6 proteins in normal developing murine lung are modified in pulmonary hypoplasia.

Concurrent subacute exposure to arsenic through drinking water and malathion via diet in male rats: effects on hepatic drug-metabolizing enzymes.

2,3,7,8-Tetrachlorodibenzo-p-dioxin exposure prevents cardiac valve formation in developing zebrafish.

Automated quantitative dose-response modeling and point of departure determination for large toxicogenomic and high-throughput screening data sets.

Anemia reduction in preschool children with the addition of low doses of iron to school meals.

The effect of tracheal occlusion on lung branching in the rat nitrofen CDH model.

Beneficial impact of L-carnitine in liver: a study in a rat model of syndrome X.

Oxidative inactivation of the proteasome in retinal pigment epithelial cells. A potential link between oxidative stress and up-regulation of interleukin-8.

Increased levels of a unique post-translationally modified betaIVb-tubulin isotype in liver cancer.

Interplay between cellular methyl metabolism and adaptive efflux during oncogenic transformation from chronic arsenic exposure in human cells.

Evidence for multiple mechanisms of toxicity in larval rainbow trout (*Oncorhynchus mykiss*) co-treated with retene and alpha-naphthoflavone.

Early endoscopic gastric lavage for acute iron overdose: a novel approach to accidental pill ingestions.

Growth in non-anemic infants supplemented with different prophylactic iron doses.

Low level of exposure to pesticides leads to lung dysfunction in occupationally exposed subjects.

Arsenic trioxide and auranofin inhibit selenoprotein synthesis: implications for chemotherapy for acute promyelocytic leukaemia.

Chronic exposure to glufosinate-ammonium induces spatial memory impairments, hippocampal MRI modifications and glutamine synthetase activation in mice.

Intrinsic catch-up growth of hypoplastic fetal lungs is mediated by interleukin-6.

Comparison of ferrous sulfate and ferrous glycinate chelate for the treatment of iron deficiency anemia in gastrectomized patients.

Acute energy restriction triggers Wallerian degeneration in mouse.

[What's new about hyperactivity disorder in children?].

Influences of perinatal dioxin load to visual motion and oddball stimuli examined with an EEG and MEG analysis.

Relationship of impaired olfactory function in ESRD to malnutrition and retained uremic molecules.

Transgenerational effects from exposure to environmental toxic substances.

Hydrogen peroxide mediates the radiation-induced mutator phenotype in mammalian cells.

Animal model of posterior cingulate cortex hypometabolism implicated in amnesic MCI and AD.

Involvement of SREBPs in 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced disruption of lipid metabolism in male guinea pig.

Inorganic arsenic exposure affects pain behavior and inflammatory response in rat.

Effect of hemolytic and iron-deficiency anemia on intestinal absorption and tissue accumulation of cadmium.

Mitochondrial translocation of alpha-synuclein is promoted by intracellular acidification.

[First aid and nursing on acute severe bromoxynil poisoning].

Polychlorinated biphenyl-77 induces adipocyte differentiation and proinflammatory adipokines and promotes obesity and atherosclerosis.

Paternal environmental exposures and gene expression during spermatogenesis: research review to research framework.

Can folate intake reduce arsenic toxicity?

[Preparedness response to hazard and toxic incidents and food terrorism].

Multiple cutaneous precanceroses and carcinomas from combined iatrogenic/professional exposure to arsenic.

Parkinson's disease and pesticides: a toxicological perspective.

Enhanced detection of autoantibodies on protein microarrays using a modified protein digestion technique.

Effects of maternal retinoic acid administration in a congenital diaphragmatic hernia rabbit model.

Short-term ferrous sulfate supplementation in female blood donors.

Role of reactive oxygen species in the neurotoxicity of environmental agents implicated in Parkinson's disease.

Sensitivity to sodium arsenite in human melanoma cells depends upon susceptibility to arsenite-induced mitotic arrest.

Relationship between insulin sensitivity and exposure to dioxins and polychlorinated biphenyls in pregnant women.

Clinical manifestations and arsenic methylation after a rare subacute arsenic poisoning accident.

A study of the process of apoptosis in animals infected with the contagious ecthyma virus.

Effect of iron content on the tolerability of prenatal multivitamins in pregnancy.

Incident diabetes and pesticide exposure among licensed pesticide applicators: Agricultural Health Study, 1993-2003.

Differential oxidative stress and DNA damage in rat brain regions and blood following chronic arsenic exposure.

Etiology and outcome of patients presenting for poisoning to the emergency department in Taiwan: a prospective study.

[Headache caused by pesticides--a review of the literature].

Protein tyrosine kinase inhibitors modify kainic acid-induced epileptiform activity and mossy fiber sprouting but do not protect against limbic cell death.

Epidemiologic evidence of relationships between reproductive and child health outcomes and environmental chemical contaminants.

Experience of nitisinone for the pharmacological treatment of hereditary tyrosinaemia type 1.

Dioxin may promote inflammation-related development of endometriosis.

A novel intravenous iron formulation for treatment of anemia in inflammatory bowel disease: the ferric carboxymaltose (FERINJECT) randomized controlled trial.

Control of T(reg) and T(H)17 cell differentiation by the aryl hydrocarbon receptor.

The aryl hydrocarbon receptor links TH17-cell-mediated autoimmunity to environmental toxins.

High prevalence of celiac disease in Mexican Mestizo adults with type 1 diabetes mellitus.

Metabolic flexibility permits mesenchymal stem cell survival in an ischemic environment.

Free p-cresol is associated with cardiovascular disease in hemodialysis patients.

Inhibition of astrocytic energy metabolism by D-lactate exposure impairs memory.

Alteration of APE1/ref-1 expression in non-small cell lung cancer: the implications of impaired extracellular superoxide dismutase and catalase antioxidant systems.

The preparation and characterization of anti-VEGFR2 conjugated, paclitaxel-loaded PLLA or PLGA microspheres for the systemic targeting of human prostate tumors.

Neuropharmacological profile of novel and selective 5-HT₆ receptor agonists: WAY-181187 and WAY-208466.

DNA-dependent protein kinase catalytic subunit modulates the stability of c-Myc oncoprotein.

Comparative genomics identifies genes mediating cardiotoxicity in the embryonic zebrafish heart.

Alpha-synuclein, pesticides, and Parkinson disease: a case-control study.

Occupational exposure to pesticides and risk of adult brain tumors.

Iron-generated hydroxyl radicals kill retinal cells in vivo: effect of ferulic acid.

[Analytic role in clinical toxicology--impact on the diagnosis and treatment of a poisoned patient].

Perinatal profile of ventricular overload markers in congenital diaphragmatic hernia.

Functional analysis of the multi-copper oxidase from *Legionella pneumophila*.

Sodium arsenite reduces severity of dextran sulfate sodium-induced ulcerative colitis in rats.

Effects of *Helicobacter* infection on developmental toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin in Holtzman rats.

Expression of AhR, CYP1A1, GSTA1, c-fos and TGF- α in skin lesions from dioxin-exposed humans with chloracne.

Comparative efficacy and safety of intravenous ferric carboxymaltose in the treatment of postpartum iron deficiency anemia.

Occupational risk factors for non-Hodgkin's lymphoma: a population-based case-control study in Northern Germany.

Mortality in a population exposed to dioxin after the Seveso, Italy, accident in 1976: 25 years of follow-up.

Microvascular free-tissue transfer for head and neck reconstruction in Jehovah's Witness patients.

Sodium arsenite induces heat shock protein 70 expression and protects against secretagogue-induced trypsinogen and NF- κ B activation.

Gastrointestinal microbial ecology and the safety of our food supply as related to *Salmonella*.

Pesticide exposure and risk of Parkinson's disease: a family-based case-control study.

A Weibull-PBPK model for assessing risk of arsenic-induced skin lesions in children.

Dose response evaluation of gene expression profiles in the skin of K6/ODC mice exposed to sodium arsenite.

Relative potency based on hepatic enzyme induction predicts immunosuppressive effects of a mixture of PCDDs/PCDFs and PCBs.

Resveratrol sensitizes melanomas to TRAIL through modulation of antiapoptotic gene expression.

Prophylaxis for iron deficiency anemia using ferrous sulfate among infants followed up at a primary healthcare unit in the municipality of Embu-SP (2003/2004).

Efficacy of iron-fortified rice in reducing anemia among schoolchildren in the Philippines.

Neurological manifestation of methyl bromide intoxication.

Risk factors for ovarian cancer: an overview with emphasis on hormonal factors.

Role of hormonal and other factors in human prostate cancer.

Endocrine toxicants including 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) and dioxin-like chemicals and endometriosis: is there a link?

Prenatal treatment with retinoic acid promotes pulmonary alveologenesis in the nitrofen model of congenital diaphragmatic hernia.

Kinetics and determinants of the changes of CC16, a lung secretory protein in a rat model of toxic lung injury.

Nutritional status has marginal influence on the metabolism of inorganic arsenic in pregnant Bangladeshi women.

High dietary fat exacerbates arsenic-induced liver fibrosis in mice.

The common environmental pollutant dioxin-induced memory deficits by altering estrogen pathways and a major route of retinol transport involving transthyretin.

Removal of the uremic retention solute p-cresol using fractionated plasma separation and adsorption.

Arsenic-induced oxidative myocardial injury: protective role of arjunolic acid.

Decreased epithelial barrier function evoked by exposure to metabolic stress and nonpathogenic *E. coli* is enhanced by TNF-alpha.

The aryl hydrocarbon receptor affects distinct tissue compartments during ontogeny of the immune system.

Aryl hydrocarbon receptor targets pathways extrinsic to bone marrow cells to enhance neutrophil recruitment during influenza virus infection.

Organochlorines and endometriosis: a mini-review.

Short dysfunctional telomeres impair the repair of arsenite-induced oxidative damage in mouse cells.

Regression analysis of a disease onset distribution using diagnosis data.

Effectiveness of oral and intravenous iron therapy in haemodialysis patients.

Transduction of familial amyotrophic lateral sclerosis-related mutant PEP-1-SOD proteins into neuronal cells.

TCDD exposure exacerbates atopic dermatitis-related inflammation in NC/Nga mice.

Chemical contaminants, health indicators, and reproductive biomarker responses in fish from rivers in the Southeastern United States.

Environmental immune disruption: a comorbidity factor for reproduction?

Prenatal treatment with retinoic acid accelerates type 1 alveolar cell proliferation of the hypoplastic lung in the nitrofen model of congenital diaphragmatic hernia.

Downregulation of GATA4 and GATA6 in the heart of rats with nitrofen-induced diaphragmatic hernia.

Health effects of early life exposure to arsenic.

Exploiting gene-environment interaction to detect adverse health effects of environmental chemicals on the next generation.

Hepatocyte mitochondrion electron-transport chain alterations in CCl₄ and alcohol induced hepatitis in rats and their correction with simvastatin.

Identification and biochemical characterization of a novel ryanodine receptor gene mutation associated with malignant hyperthermia.

Environmental factors in the etiology of esophageal atresia and congenital diaphragmatic hernia: results of a case-control study.

Reversal of arsenic-induced hepatic apoptosis with combined administration of DMSA and its analogues in guinea pigs: role of glutathione and linked enzymes.

Essential role of the AH receptor in the dysfunction of heme metabolism induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Renoprotective action of L-carnitine in fructose-induced metabolic syndrome.

Iron status markers in nonanemic pregnant women with and without iron supplementation.

Differential expression of estrogen receptor alpha (ER α) protein in MCF-7 breast cancer cells chronically exposed to TCDD.

Training and other predictors of personal protective equipment use in Australian grain farmers using pesticides.

Dioxin emissions from a municipal solid waste incinerator and risk of invasive breast cancer: a population-based case-control study with GIS-derived exposure.

Subhepatotoxic exposure to arsenic enhances lipopolysaccharide-induced liver injury in mice.

Abscisic acid controls calcium-dependent egress and development in *Toxoplasma gondii*.

The effects of gum arabic oral treatment on the metabolic profile of chronic renal failure patients under regular haemodialysis in Central Sudan.

Presentations of patients of poisoning and predictors of poisoning-related fatality: findings from a hospital-based prospective study.

Dioxin-mediated tumor progression through activation of mitochondria-to-nucleus stress signaling.

Acute induction of epileptiform discharges by pilocarpine in the in vitro isolated guinea-pig brain requires enhancement of blood-brain barrier permeability.

[Outdoor work-related health hazards].

Pesticide/environmental exposures and Parkinson's disease in East Texas.

The effects of toluene plus noise on hearing thresholds: an evaluation based on repeated measurements in the German printing industry.

Anemia management in peritoneal dialysis patients: can an iron supplement maintain a normal transferrin saturation and hemoglobin level?

Small-molecule aggregation inhibitors reduce excess amyloid in a trisomy 16 mouse cortical cell line.

Arsenic induced toxicity on testicular tissue of mice.

Anaphylaxis to oral iron salts. desensitization protocol for tolerance induction.

Treatment and prevention of anemia with ferrous sulfate plus folic acid in children attending daycare centers in Goi nia, Goi s State, Brazil: a randomized controlled trial.

Comparative study of gastrointestinal tract and liver toxicity of ferrous sulfate, iron amino chelate and iron polymaltose complex in normal rats.

[Protective and restorative effect of antioxidants in experimental intoxication with chlorophenols].

Effect of iron fortification of nursery complementary food on iron status of infants in the DPRKorea.

Oxidative damage induced genotoxic effects in human fibroblasts from Xeroderma Pigmentosum group A patients.

Humoral response against Mycobacterium bovis Hsp65 derived fragments in children and young people with various disorders.

Environmental contaminants as risk factors for developing diabetes.

Caseinophosphopeptide-bound iron: protective effect against gut peroxidation.

Disruption of aryl hydrocarbon receptor (AhR) induces regression of the seminal vesicle in aged male mice.

Cytotoxicity, histopathological, microbiological and clinical aspects of an endodontic iodoform-based paste used in pediatric dentistry: a review.

2,3,7,8-Tetrachlorodibenzo-p-dioxin alters the differentiation of alloreactive CD8+ T cells toward a regulatory T cell phenotype by a mechanism that is dependent on aryl hydrocarbon receptor in CD4+ T cells.

The connection between C-reactive protein and atherosclerosis.

Inhalant abuse detection and evaluation in young Tunisians.

Environmental effects of ozone depletion and its interactions with climate change: progress report, 2007.

Sensorial evaluation of nutritional supplements (PROGRESA) enriched with 3 different forms of iron in a rural Mexican community.

Insight into the selectivity of arsenic trioxide for acute promyelocytic leukemia cells by characterizing *Saccharomyces cerevisiae* deletion strains that are sensitive or resistant to the metalloid.

Developmental exposure to polychlorinated biphenyls PCB153 or PCB126 impairs learning ability in young but not in adult rats.

Endocrine disruptors and estrogenic effects on male reproductive axis.

Effects of iron supplementation on attention deficit hyperactivity disorder in children.

Removal of the protein-bound solutes indican and p-cresol sulfate by peritoneal dialysis.

The link between environmental toxicant exposure and endometriosis.

Does impaired mitochondrial function affect insulin signaling and action in cultured human skeletal muscle cells?

Pesticides and atopic and nonatopic asthma among farm women in the Agricultural Health Study.

Iron deficiency anemia, pica, and restless legs syndrome in a teenage girl.

Allium compounds, dipropyl and dimethyl thiosulfinates as antiproliferative and differentiating agents of human acute myeloid leukemia cell lines.

Tobacco OPBP1 enhances salt tolerance and disease resistance of transgenic rice.

The effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on the mortality and growth of two amphibian species (*Xenopus laevis* and *Pseudacris triseriata*).

Silencing of mitochondrial alternative oxidase gene of *Aspergillus fumigatus* enhances reactive oxygen species production and killing of the fungus by macrophages.

Preventing NAD(+) depletion protects neurons against excitotoxicity: bioenergetic effects of mild mitochondrial uncoupling and caloric restriction.

ATP synthase and the actions of inhibitors utilized to study its roles in human health, disease, and other scientific areas.

WNT5A selectively inhibits mouse ventral prostate development.

Induction of cellular stress overcomes the requirement of herpes simplex virus type 1 for immediate-early protein ICP0 and reactivates expression from quiescent viral genomes.

Dioxin causes ventral prostate agenesis by disrupting dorsoventral patterning in developing mouse prostate.

Effects of 2,4-dichlorophenol on the expression of vitellogenin and estrogen receptor genes and physiology impairments in Chinese rare minnow (*Gobiocypris rarus*).

Prolonged ELS test with the marine flatfish sole (*Solea solea*) shows delayed toxic effects of previous exposure to PCB 126.

Runaway chemical reaction exposes community to highly toxic chemicals.

Sulfhydryl systems are a critical factor in the zebrafish developmental toxicity of the dithiocarbamate sodium metam (NaM).

[Disturbances in the function of cardiomyocyte ryanodine receptors of spontaneously hypertensive rats revealed by 4-chloro-m-cresol].

Impaired activation of caspase cascade during cell death induced by newly synthesized singlet oxygen generator, 1-butyl-4-naphthalene-1-yl propionate endoperoxide.

Nitric oxide as a signaling factor to upregulate the death-specific protein in a marine diatom, *Skeletonema costatum*, during blockage of electron flow in photosynthesis.

Maintaining epitheliopoietic potency when culturing olfactory progenitors.

Potential effects of perfluorinated compounds in common cormorants from Lake Biwa, Japan: an implication from the hepatic gene expression profiles by microarray.

In utero exposure to 2,3,7,8-Tetrachlorodibenzo-p-Dioxin affects the development of reproductive system in mouse.

Arabidopsis AAL-toxin-resistant mutant *atr1* shows enhanced tolerance to programmed cell death induced by reactive oxygen species.

Cations SkQ1 and MitoQ accumulated in mitochondria delay opening of ascorbate/FeSO₄-induced nonspecific pore in the inner mitochondrial membrane.

Reactive oxygen species in programmed death of pea guard cells.

Arsenite but not arsenate inhibits general proteoglycan synthesis in cultured arterial smooth muscle cells.

Arsenic-induced decreases in the vascular matrix.

Lipoic acid as an anti-inflammatory and neuroprotective treatment for Alzheimer's disease.

Aquatic risk assessment of pesticides in surface waters in and adjacent to the Everglades and Biscayne National Parks: II. Probabilistic analyses.

Transcriptomic responses to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in liver: comparison of rat and mouse.

Auxin-Induced Resistance to Common Scab Disease of Potato Linked to Inhibition of Thaxtomin A Toxicity.

An analysis of volatiles in the headspace of the faeces of neonates.

Exposure of laboratory mice to domestic cooking gas: implications for toxicity.

XRCC1 protects against the lethality of induced oxidative DNA damage in nondividing neural cells.

A review of microbial injury and recovery methods in food.

Type-2 alkenes mediate synaptotoxicity in neurodegenerative diseases.

Toxicity of analytically cleaned pentabromodiphenylether after prolonged exposure in estuarine European flounder (*Platichthys flesus*), and partial life-cycle exposure in fresh water zebrafish (*Danio rerio*).

Phospholipase A(2), reactive oxygen species, and lipid peroxidation in CNS pathologies.

Oxidative stress and modification of synaptic proteins in hippocampus after traumatic brain injury.

Acrylamide-induced nerve terminal damage: relevance to neurotoxic and neurodegenerative mechanisms.

Acetyl-L-Carnitine selectively prevents post-ischemic LTP via a possible action on mitochondrial energy metabolism.

Plasmalogen deficiency in cerebral adrenoleukodystrophy and its modulation by lovastatin.

Crosstalk between AHR and Wnt signaling through R-Spondin1 impairs tissue regeneration in zebrafish.

2,3,7,8-Tetrachlorodibenzo-p-dioxin-mediated impairment of B cell differentiation involves dysregulation of paired box 5 (Pax5) isoform, Pax5a.

Alternative electron acceptors: Proposed mechanism of paraquat mitochondrial toxicity.

Tracheal inflammatory response to bacterial cellulose dressing after surgical scarification in rabbits.

Molecular characterization of TRPA1 channel activation by cysteine-reactive inflammatory mediators.

Attenuation of TCDD-induced oxidative stress by 670 nm photobiomodulation in developmental chicken kidney.

Interstrand DNA cross-links induced by alpha,beta-unsaturated aldehydes derived from lipid peroxidation and environmental sources.

Toxic tetrapyrrole accumulation in protoporphyrinogen IX oxidase-overexpressing transgenic rice plants.

Biosynthetic requirements for the repair of sublethally injured *Saccharomyces cerevisiae* cells after pulsed electric fields.

Toxicity of estuarine sediments using a full life-cycle bioassay with the marine copepod *Robertsonia propinqua*.

The Duisburg birth cohort study: influence of the prenatal exposure to PCDD/Fs and dioxin-like PCBs on thyroid hormone status in newborns and neurodevelopment of infants until the age of 24 months.

Genes related to apoptosis predict necrosis of the liver as a phenotype observed in rats exposed to a compendium of hepatotoxicants.

Near-infrared light via light-emitting diode treatment is therapeutic against rotenone- and 1-methyl-4-phenylpyridinium ion-induced neurotoxicity.

Acetobacter indonesiensis pneumonia after lung transplant.

Endogenous Gas6 and Ca²⁺ -channel activation modulate phagocytosis by retinal pigment epithelium.

The *Caenorhabditis elegans* AMP-activated protein kinase AAK-2 is phosphorylated by LKB1 and is required for resistance to oxidative stress and for normal motility and foraging behavior.

Presence of *qnr* gene in *Escherichia coli* and *Klebsiella pneumoniae* resistant to ciprofloxacin isolated from pediatric patients in China.

Chemical and toxicologic assessment of organic contaminants in surface water using passive samplers.

Non-dioxin-like polychlorinated biphenyls induce a release of arachidonic acid in liver epithelial cells: a partial role of cytosolic phospholipase A(2) and extracellular signal-regulated kinases 1/2 signalling.

Histopathological alterations of Nile tilapia, *Oreochromis niloticus* in acute and subchronic alachlor exposure.

Long-term effects of polychlorinated biphenyls and dioxins on pregnancy outcomes in women affected by the Yusho incident.

Quantitative analysis of three hydrogenotrophic microbial groups, methanogenic archaea, sulfate-reducing bacteria, and acetogenic bacteria, within plaque biofilms associated with human periodontal disease.

Superiority of serum type-I arginase and ornithine carbamyltransferase in the detection of toxicant-induced acute hepatic injury in rats.

2,3,7,8-Tetrachlorodibenzo-p-dioxin exposure disrupts granule neuron precursor maturation in the developing mouse cerebellum.

Quercetin administration during chelation therapy protects arsenic-induced oxidative stress in mice.

The effects of water quality and age on the acute toxicity of copper to the Florida apple snail, *Pomacea paludosa*.

Potent upregulation of glutathione and NAD(P)H:quinone oxidoreductase 1 by alpha-lipoic acid in human neuroblastoma SH-SY5Y cells: protection against neurotoxicant-elicited cytotoxicity.

NF- κ B and caspases are involved in the hyaluronan and chondroitin-4-sulphate-exerted antioxidant effect in fibroblast cultures exposed to oxidative stress.

Arsenite-induced cytotoxicity in dorsal root ganglion explants.

Mitochondrial complex I impairment and differential carbon monoxide sensitivity of cytochrome c oxidase in wild type and CMS II mutants of *Nicotiana sylvestris*.

The US Air Force Aerial Spray Unit: a history of large area disease vector control operations, WWII through Katrina.

Antioxidant activity of different extracts of Argentinian medicinal plants against arsenic-induced toxicity in renal cells.

Differential roles for Nrf2 and AP-1 in upregulation of HO-1 expression by arsenite in murine embryonic fibroblasts.

Diverse mechanisms of anti-androgen action: impact on male rat reproductive tract development.

Rem inhibits skeletal muscle EC coupling by reducing the number of functional L-type Ca²⁺ channels.

Toxicogenomic analysis of gender, chemical, and dose effects in livers of TCDD- or aroclor 1254-exposed rats using a multifactor linear model.

Polychlorinated biphenyls (PCBs) and hydroxy-PCBs in adipose tissue of women in Southeast Spain.

Inhibition of carrier-mediated uptake of epirubicin reduces cytotoxicity in primary culture of rat hepatocytes.

Hair analysis to document non-fatal pesticide intoxication cases.

Unsaturated lipid peroxidation-derived aldehydes activate autophagy in vascular smooth-muscle cells.

Mechanistic aspects of 4-amino-2,6-dichlorophenol-induced in vitro nephrotoxicity.

Modulatory effect of *Byrsonima basiloba* extracts on the mutagenicity of certain direct and indirect-acting mutagens in *Salmonella typhimurium* assays.

The dedicated emergency surgeon: towards consultant-based acute surgical admissions.

The concept of neurogenic inflammation.

Plasma esterified F₂-isoprostanes and oxidative stress in newborns: role of nonprotein-bound iron.

Effects of possible endocrine disruptors on MyD88-independent TLR4 signaling.

Differential role of ferritins in iron metabolism and virulence of the plant-pathogenic bacterium *Erwinia chrysanthemi* 3937.

Thioredoxin 2 haploinsufficiency in mice results in impaired mitochondrial function and increased oxidative stress.

Loss of phospholipid asymmetry and elevated brain apoptotic protein levels in subjects with amnesic mild cognitive impairment and Alzheimer disease.

Toxicity reference values for mink exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) equivalents (TEQs).

Neuroendocrine and behavioral effects of embryonic exposure to endocrine disrupting chemicals in birds.

Induction of heat shock protein 70 by sodium arsenite attenuates burn-induced intestinal injury in severe burned rats.

Tissue dosimetry, metabolism and excretion of pentavalent and trivalent dimethylated arsenic in mice after oral administration.

Dispensable role of *Drosophila* ortholog of LRRK2 kinase activity in survival of dopaminergic neurons.

[Research of a bioluminescent bacterial-based optical fiber sensor to detecting acute effects of pollutants in water].

Comparative risk analysis of dioxins in fish and fine particles from heavy-duty vehicles.

Arsenic as an endocrine disruptor: arsenic disrupts retinoic acid receptor- and thyroid hormone receptor-mediated gene regulation and thyroid hormone-mediated amphibian tail metamorphosis.

In vitro and in vivo reduction of sodium arsenite induced toxicity by aqueous garlic extract.

The effect of suspended particles coated by humic acid on the toxicity of pharmaceuticals, estrogens, and phenolic compounds.

Enhancing effect of chlorinated organic solvents on histamine release and inflammatory mediator production.

Metacaspase-8 modulates programmed cell death induced by ultraviolet light and H₂O₂ in *Arabidopsis*.

Cleavage of focal adhesion kinase is an early marker and modulator of oxidative stress-induced apoptosis.

The environmental toxicant 2,3,7,8-tetrachlorodibenzo-p-dioxin disrupts morphogenesis of the rat pre-implantation embryo.

The effect of sub-acute and sub-chronic exposure of rats to the glyphosate-based herbicide Roundup.

Abscisic acid, high-light, and oxidative stress down-regulate a photosynthetic gene via a promoter motif not involved in phytochrome-mediated transcriptional regulation.

Testicular toxicity and mechanisms of chlorotoluron compounds in the mouse.

Epigallocatechin gallate, a green tea phytochemical, attenuates alcohol-induced hepatic protein and lipid damage.

Derivation of biomonitoring equivalent (BE) values for 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) and related compounds: a screening tool for interpretation of biomonitoring data in a risk assessment context.

Health of herring gulls (*Larus argentatus*) in relation to breeding location in the early 1990s. III. Effects on the bone tissue.

Hypothermic injury: the mitochondrial calcium, ATP and ROS love-hate triangle out of balance.

The acute lethality and endocrine effect of 1,2,3,7,8-PeCDD in juvenile goldfish (*Carassius auratus*) in vivo.

The role of peroxisome proliferator-activated receptors in the development and physiology of gametes and preimplantation embryos.

Protection of arsenic-induced testicular oxidative stress by arjunolic acid.

Mutagenic, antimutagenic, cytotoxic, and apoptotic activities of extracts from *Pituranthos tortuosus*.

Impaired VEGF and nitric oxide signaling after nitrofen exposure in rat fetal lung explants.

Dioxin-like toxicity in the Saginaw River Watershed: polychlorinated dibenzo-p-dioxins, dibenzofurans, and biphenyls in sediments and floodplain soils from the Saginaw and Shiawassee Rivers and Saginaw Bay, Michigan, USA.

Comparative genotoxicity evaluation of imidazolinone herbicides in somatic cells of *Drosophila melanogaster*.

Molecular targets of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) within the zebrafish ovary: insights into TCDD-induced endocrine disruption and reproductive toxicity.

Effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin on testicular spermatogenesis-related panels and serum sex hormone levels in rats.

Role of the Met(287)Thr polymorphism in the AS3MT gene on the metabolic arsenic profile.

The effects of 3,3',4,4',5-pentachlorobiphenyl (PCB 126) on mink (*Mustela vison*) reproduction and kit survivability and growth.

2,3,7,8-Tetrachlorodibenzo-p-dioxin increases Bovine Herpesvirus type-1 (BHV-1) replication in Madin-Darby Bovine Kidney (MDBK) cells in vitro.

Hydroxytyrosol protects retinal pigment epithelial cells from acrolein-induced oxidative stress and mitochondrial dysfunction.

Effects of the herbicide Roundup on freshwater microbial communities: a mesocosm study.

Environmental toxins and health--the health impact of pesticides.

Fetal poisoning after maternal paraquat ingestion during third trimester of pregnancy: case report and literature review.

Determination of toxicity of subacute treatment of some plant growth regulators on rats.

Insulin-like growth factor I deficiency prolongs survival and antagonizes paraquat-induced cardiomyocyte dysfunction: role of oxidative stress.

CD8+ T cells contribute to macrophage accumulation and airspace enlargement following repeated irritant exposure.

Mechanisms of acrolein-induced myocardial dysfunction: implications for environmental and endogenous aldehyde exposure.

Paraquat induces dopaminergic dysfunction and proteasome impairment in DJ-1-deficient mice.

Identification of an alginate-based formulation of paraquat to reduce the exposure of the herbicide following oral ingestion.

Toxicity of four antifouling biocides and their mixtures on the brine shrimp *Artemia salina*.

Effects of dimethylarsinic and dimethylarsinous acid on evoked synaptic potentials in hippocampal slices of young and adult rats.

Aldo-keto reductase family 1 B10 gene silencing results in growth inhibition of colorectal cancer cells: Implication for cancer intervention.

ATP depletion is the major cause of MPP⁺ induced dopamine neuronal death and worm lethality in alpha-synuclein transgenic *C. elegans*.

Immunosuppressive therapy in lung injury due to paraquat poisoning: a meta-analysis.

The effect of some selected pesticides on the growth and reproduction of fresh water *Oreochromis niloticus*, *Chrysiichthys nigrodigitatus* and *Clarias gariepinus*.

Increased expression of glial cell line-derived neurotrophic factor protects against oxidative damage-induced retinal degeneration.

The bipyridyl herbicide paraquat induces proteasome dysfunction in human neuroblastoma SH-SY5Y cells.

Paraquat potentiates glutamate toxicity in immature cultures of cerebellar granule neurons.

Hepatotoxicity related to paraquat and diquat absorption through intact skin.

Intermolecular protein cross-linking during acrolein toxicity: efficacy of carbonyl scavengers as inhibitors of heat shock protein-90 cross-linking in A549 cells.

Targeted disruption of the glutaredoxin 1 gene does not sensitize adult mice to tissue injury induced by ischemia/reperfusion and hyperoxia.

Acute effects of glyphosate herbicide on metabolic and enzymatic parameters of silver catfish (*Rhamdia quelen*).

Evaluation of the antiandrogenic effects of flutamide, DDE, and linuron in the weanling rat assay using organ weight, histopathological, and proteomic approaches.

Pesticide dose estimates for children of Iowa farmers and non-farmers.

Short- and long-term responses of *Daphnia* spp. to propanil exposures in distinct food supply scenarios.

Synthesis, cytotoxicity and clastogenicity of novel alpha-aminophosphonic acids.

Chlorate poisoning in beef cattle.

Sublethal pesticide concentrations and predation jointly shape life history: behavioral and physiological mechanisms.

Case report: mixed cholestatic/hepatocellular liver injury induced by the herbicide quizalofop-p-ethyl.

Prolonged toxicokinetics and toxicodynamics of paraquat in mouse brain.

Acute and chronic toxicity of pesticide formulations (atrazine, chlorpyrifos, and permethrin) to glochidia and juveniles of *Lampsilis siliquoidea*.

Acute and chronic toxicity of glyphosate compounds to glochidia and juveniles of *Lampsilis siliquoidea* (Unionidae).

Toxicity of three pesticides individually and in mixture to larval grass shrimp (*Palaemonetes pugio*).

Cytotoxicity of paraquat in microglial cells: Involvement of PKC δ - and ERK1/2-dependent NADPH oxidase.

[Increased expression of placenta growth factor in lung tissue of paraquat-induced rat pulmonary fibrosis model].

[Effects of high dose ambroxol on lung injury induced by paraquat in rats].

[Changes of p38 MAPK and nuclear factor-kappa B in lung tissue of acute paraquat poisoned rats].

[A case of intra-muscular injection of paraquat induced death].

Alteration of estrogen-regulated gene expression in human cells induced by the agricultural and horticultural herbicide glyphosate.

Cutaneous reactions simulating erythema multiforme and Stevens Johnson syndrome due to occupational exposure to a plant-growth regulator.

Roundup intoxication and a rationale for treatment.

Genetic variation for life span, resistance to paraquat, and spontaneous activity in unselected populations of *Drosophila melanogaster*: implications for transgenic rescue of life span.

Acrolein inactivates paraoxonase 1: changes in free acrolein levels after hemodialysis correlate with increases in paraoxonase 1 activity in chronic renal failure patients.

Identification of differentially expressed proteins in striatum of maneb- and paraquat-induced Parkinson's disease phenotype in mouse.

Protective effects of Ginkgo biloba extract on paraquat-induced apoptosis of PC12 cells.

Topological and chronological features of the impairment of glucose metabolism induced by 1-methyl-4-phenylpyridinium ion (MPP⁺) in rat brain slices.

Pathophysiological aspects of cyclophosphamide and ifosfamide induced hemorrhagic cystitis; implication of reactive oxygen and nitrogen species as well as PARP activation.

Comparison of the effects of the superoxide dismutase mimetics EUK-134 and tempol on paraquat-induced nephrotoxicity.

Combination of a pesticide exposure and a bacterial challenge: in vivo effects on immune response of Pacific oyster, *Crassostrea gigas* (Thunberg).

Effects of hexazinone and atrazine on the physiology and endocrinology of smolt development in Atlantic salmon.

Simulating toxicity of carbaryl to *Gammarus pulex* after sequential pulsed exposure.

Evaluation of the sensitivity of three cladoceran species widely distributed in Mexico to three reference toxicants.

Trifluralin toxicity in a Chagas disease mouse model.

Effects of a phosphinothricin based herbicide on selected groups of soil microorganisms.

Toxicity of dimethylmonothioarsinic acid toward human epidermoid carcinoma A431 cells.

Blue-green vomit.

Neurotoxic mechanisms of electrophilic type-2 alkenes: soft soft interactions described by quantum mechanical parameters.

Role of MGMT in protecting against cyclophosphamide-induced toxicity in cells and animals.

Heterogeneous photocatalytic degradation of prometryn in aqueous solutions under UV-Vis irradiation.

Further evidence against a direct genotoxic mode of action for arsenic-induced cancer.

Arsenic-induced bladder cancer in an animal model.

An antisense oligonucleotide to HSP47 inhibits paraquat-induced pulmonary fibrosis in rats.

Microglia-mediated neurotoxicity is inhibited by morphine through an opioid receptor-independent reduction of NADPH oxidase activity.

[Italian Program for Surveillance of Acute Pesticide-Related Illnesses: cases identified in 2005].

Pesticide poisoning.

[The establishment of hypospadias rat model and embryoteratogenic test of Atrazine].

Relationship between autophagy and apoptotic cell death in human neuroblastoma cells treated with paraquat: could autophagy be a "brake" in paraquat-induced apoptotic death?

Antifibrotic effect of captopril and enalapril on paraquat-induced lung fibrosis in rats.

Iron and paraquat as synergistic environmental risk factors in sporadic Parkinson's disease accelerate age-related neurodegeneration.

Toxic influence of subchronic paraquat administration on dopaminergic neurons in rats.

[Change of liver function and blood glucose in patients with acute paraquat poisoning].

[Treatment 16 cases of acute paraquat poisoning].

Integrating approaches to paraquat poisoning.

[A 52-week feeding study of genetically modified soybeans in F344 rats].

Induction of tibial dyschondroplasia by carbamate and thiocarbamate pesticides.

Effectiveness of activated hydrogen ions in neutralizing paraquat intoxication in rats.

Relationship between pulmonary surfactant protein and lipid peroxidation in lung injury due to paraquat intoxication in rats.

Incidence of abdominal wall defects is related to surface water atrazine and nitrate levels.

Decline in pesticide poisonings in the United States from 1995 to 2004.

Plasma surfactant D in patients following acute paraquat intoxication.

Monitoring the efficacy and metabolism of phenylcarbamates in sugar beet and black nightshade by chlorophyll fluorescence parameters.

Inhibition of paraquat-induced autophagy accelerates the apoptotic cell death in neuroblastoma SH-SY5Y cells.

Reduced 293T cell susceptibility to acrolein due to aldose reductase-like-1 protein expression.

Toxicity evaluation with *Vibrio fischeri* test of organic chemicals used in aquaculture.

Cardiovascular effects of herbicides and formulated adjuvants on isolated rat aorta and heart.

Dinitro-o-cresol induces apoptosis-like cell death but not alternative oxidase expression in soybean cells.

Distribution and ecotoxicity of chlorotriazines in the Scheldt Estuary (B-NI).

No direct hepatotoxic potential following a multiple-low dose paraquat exposure in rat as related to its bioaccumulation.

The concept of "aldehyde load" in neurodegenerative mechanisms: cytotoxicity of the polyamine degradation products hydrogen peroxide, acrolein, 3-aminopropanal, 3-acetamidopropanal and 4-aminobutanal in a retinal ganglion cell line.

[Proteolytic stress induced by environmental toxins in dopaminergic neurons: an experimental study].

Butachlor-induced acute toxic hepatitis.

Protective effect of erythropoietin against 1-methyl-4-phenylpyridinium-induced neurodegeneration in PC12 cells.

Replacement of buried cysteine from zebrafish Cu/Zn superoxide dismutase and enhancement of its stability via site-directed mutagenesis.

An unusual toxic cause of hemolytic-uremic syndrome.

Plasma cell gingivitis among herbal toothpaste users: a report of three cases.

The effectiveness of management interventions used to control ragwort species.

On the mechanism of action and selectivity of the corn herbicide topramezone: a new inhibitor of 4-hydroxyphenylpyruvate dioxygenase.

Activation of c-Jun N-terminal protein kinase is a common mechanism underlying paraquat- and rotenone-induced dopaminergic cell apoptosis.

Assessment of toxicity of a glyphosate-based formulation using bacterial systems in lake water.

Impaired alveolar epithelial cell differentiation in the hypoplastic lung in nitrofen-induced congenital diaphragmatic hernia.

Altered regulation of retinoic acid synthesis in nitrofen-induced hypoplastic lung.

P38 and ERK mitogen-activated protein kinases mediate acrolein-induced apoptosis in Chinese hamster ovary cells.

Agent Orange, prostate cancer irradiation and acute promyelocytic leukemia (APL): is there a link?

[Changes of serum cytokine caused by acute paraquat poisoning].

Urinary pentachlorophenol in painters and bricklayers in a four-years time interval after the PCP prohibition ordinance in Germany.

Mammary gland development as a sensitive end point after acute prenatal exposure to an atrazine metabolite mixture in female Long-Evans rats.

Development of a *Daphnia magna* DNA microarray for evaluating the toxicity of environmental chemicals.

Safeners coordinately induce the expression of multiple proteins and MRP transcripts involved in herbicide metabolism and detoxification in *Triticum tauschii* seedling tissues.

Full survival of paraquat-exposed rats after treatment with sodium salicylate.

Paraquat-induced oxidative stress and dysfunction of cellular redox systems including antioxidative defense enzymes glutathione peroxidase and thioredoxin reductase.

Dopaminergic toxicity of the herbicide atrazine in rat striatal slices.

Effect of pseudophosphorylation and cross-linking by lipid peroxidation and advanced glycation end product precursors on tau aggregation and filament formation.

Linuron and carbaryl differentially impair baseline amino acid and bile salt olfactory responses in three salmonids.

Mouse model of paraquat-poisoned lungs and its gene expression profile.

The effect of amifostine, a cytoprotective agent, on paraquat toxicity in mice.

[Protective effect of melatonin and sodium thiosulphate on histopathology and ultrastructure of the kidney in rats with acute paraquat poisoning].

Hypoxia protects human corneal endothelium from tertiary butyl hydroperoxide and paraquat-induced cell death in vitro.

Melatonin reduces mortality and oxidatively mediated hepatic and renal damage due to diquat treatment.

Modulation of 1-methyl-4-phenylpyridinium-induced mitochondrial dysfunction and cell death in PC12 cells by K(ATP) channel block.

Surflan and oryzalin impair reproduction in the teleost medaka (*Oryzias latipes*).

Characterization of hepatic glutathione S-transferases in coho salmon (*Oncorhynchus kisutch*).

Rosiglitazone protects human neuroblastoma SH-SY5Y cells against MPP⁺ induced cytotoxicity via inhibition of mitochondrial dysfunction and ROS production.

Cancer incidence and mortality in a New Zealand community potentially exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin from 2,4,5-trichlorophenoxyacetic acid manufacture.

Assessment of the potential toxicity of herbicides and their degradation products to nontarget cells using two microorganisms, the bacteria *Vibrio fischeri* and the ciliate *Tetrahymena pyriformis*.

Pesticide exposure exacerbates alpha-synucleinopathy in an A53T transgenic mouse model.

Mechanisms of immune system activation in glaucoma: oxidative stress-stimulated antigen presentation by the retina and optic nerve head glia.

Developmental toxicity evaluation of triclopyr butoxyethyl ester and triclopyr triethylamine salt in the CD rat.

Microglial activation as a priming event leading to paraquat-induced dopaminergic cell degeneration.

Effects of the herbicide Roundup on the epididymal region of drakes *Anas platyrhynchos*.

Mitochondria mass is low in mouse substantia nigra dopamine neurons: implications for Parkinson's disease.

Urinary alkalisation for acute chlorophenoxy herbicide poisoning.

Cross-talk between singlet oxygen- and hydrogen peroxide-dependent signaling of stress responses in *Arabidopsis thaliana*.

Paraquat and maneb induced neurotoxicity.

Cell-protective and antioxidant activity of two groups of synthetic amphiphilic compounds--phenolics and amine N-oxides.

Luteolin protects rat PC12 and C6 cells against MPP⁺ induced toxicity via an ERK dependent Keap1-Nrf2-ARE pathway.

A fatal case of paraquat poisoning following minimal dermal exposure.

Coca and poppy eradication in Colombia: environmental and human health assessment of aerially applied glyphosate.

Problem drinking in relation to treatment outcome among opiate addicts in methadone maintenance treatment.

Mortality, length of life, and physical examination attendance in participants of the Air Force Health Study.

Environmental effect assessment of Magnacide H herbicide at Río Colorado irrigation channels (Argentina). Tier 4: in situ survey on benthic invertebrates.

Risk assessment of Magnacide H herbicide at Río Colorado irrigation channels (Argentina). Tier 3: studies on native species.

Lipid oxidation products and oxidized low-density lipoproteins impair platelet-derived growth factor receptor activity in smooth muscle cells: implication in atherosclerosis.

Acrolein, a toxicant in cigarette smoke, causes oxidative damage and mitochondrial dysfunction in RPE cells: protection by (R)-alpha-lipoic acid.

Oxidative stress mediates tau-induced neurodegeneration in *Drosophila*.

Preliminary examination of short-term cellular toxicological responses of the coral *Madracis mirabilis* to acute Irgarol 1051 exposure.

Impact of the specificity of the exposure metric on exposure-response relationships.

Pesticides and impairment of mitochondrial function in relation with the parkinsonian syndrome.

Influence of phosphate on the response of periphyton to atrazine exposure.

Chemical genomic profiling for identifying intracellular targets of toxicants producing Parkinson's disease.

Divergent mechanisms of paraquat, MPP+, and rotenone toxicity: oxidation of thioredoxin and caspase-3 activation.

VIP is a transcriptional target of Nurr1 in dopaminergic cells.

Novel and extensive aspects of paraquat-induced pulmonary fibrogenesis: comparative and time-course microarray analyses in fibrogenic and non-fibrogenic rats.

Cells deficient in the FANC/BRCA pathway are hypersensitive to plasma levels of formaldehyde.

Acute antihypertensive action of Tempol in the spontaneously hypertensive rat.

Behavioral and histopathological consequences of paraquat intoxication in mice: effects of alpha-synuclein over-expression.

Oxidative damage in age-related macular degeneration.

Fragrances as a cause of food allergy.

Paraquat: the red herring of Parkinson's disease research.

Chronic inhalation of rotenone or paraquat does not induce Parkinson's disease symptoms in mice or rats.

Impact of arsenic in foodstuffs on the people living in the arsenic-affected areas of West Bengal, India.

Mitochondrial effects of lipid-derived neurotoxins.

Oxidative stress response involving induction of protective enzymes in *Candida dubliniensis*.

4-Hydroxynonenal, an endogenous aldehyde, causes pain and neurogenic inflammation through activation of the irritant receptor TRPA1.

Arsenic speciation of two specimens of Napoleon's hair.

The activity of 2'-benzoyloxycinnamaldehyde against drug-resistant cancer cell lines.

Arsenic metabolism, genetic susceptibility, and risk of premalignant skin lesions in Bangladesh.

Carcinogenicity of dimethylarsinic acid in Ogg1-deficient mice.

Acute acrolein-induced cystitis in mice.

Down-regulation of glutaminase C in human hepatocarcinoma cell by diphenylarsinic acid, a degradation product of chemical warfare agents.

Nitric oxide and oxygen radical attack on GDP-dissociation inhibitor 2 (GDI-2) in spinal cord injury of the rat.

Inhibitory effect of cinnamaldehyde, derived from *Cinnamomi cortex*, on the growth of influenza A/PR/8 virus in vitro and in vivo.

Prostacyclin prevents pulmonary endothelial cell apoptosis induced by cigarette smoke.

Interaction of genetic and environmental factors in a *Drosophila* parkinsonism model.

Arsenic methylation, GSTT1, GSTM1, GSTP1 polymorphisms, and skin lesions.

Undersulfation of glycosaminoglycans induced by sodium chlorate treatment affects the progression of C6 rat glioma, in-vivo.

Evaluation of oxidative stress in D-serine induced nephrotoxicity.

High free serum acrolein levels in bacterial infection and other disease states associated with oxidative stress: a potential biomarker?

In parkinsonian substantia nigra, alpha-synuclein is modified by acrolein, a lipid-peroxidation product, and accumulates in the dopamine neurons with inhibition of proteasome activity.

Nicotine partially protects against paraquat-induced nigrostriatal damage in mice; link to alpha6beta2* nAChRs.

Indoxyl sulfate-lowering capacity of oral sorbents affects the prognosis of kidney function and oxidative stress in chronic kidney disease.

Antiplatelet and antithrombotic activities of essential oil from wild *Ocotea quixos* (Lam.) Kosterm. (Lauraceae) calices from Amazonian Ecuador.

Mitochondrial damage modulates alternative splicing in neuronal cells: implications for neurodegeneration.

Binge ethanol administration enhances the MDMA-induced long-term 5-HT neurotoxicity in rat brain.

Cinnamaldehyde reduction of platelet aggregation and thrombosis in rodents.

Lack of mutagenicity of acrolein-induced DNA adducts in mouse and human cells.

Genome-wide interacting effects of sucrose and herbicide-mediated stress in *Arabidopsis thaliana*: novel insights into atrazine toxicity and sucrose-induced tolerance.

Fate and behavior of Benthocarb--a herbicide in transplanted paddy under East-Indian climatic condition.

Production of a novel neuromelanin at the sevoflurane-water interface.

Metabolic profiling using Fourier-transform ion-cyclotron-resonance mass spectrometry.

Reactive oxygen species generation by the ethylene-bis-dithiocarbamate (EBDC) fungicide mancozeb and its contribution to neuronal toxicity in mesencephalic cells.

Application of a microbial toxicity assay for monitoring treatment effectiveness of pentachlorophenol in water using UV photolysis and TiO₂ photocatalysis.

Modification by acrolein, a component of tobacco smoke and age-related oxidative stress, mediates functional impairment of human apolipoprotein E.

Induction of COX-2 by acrolein in rat lung epithelial cells.

Antioxidant enzyme inhibitors enhance peroxynitrite-induced cell death in U937 cells.

Impairment of the photosynthetic apparatus by oxidative stress induced by photosensitization reaction of protoporphyrin IX.

Distribution of ¹⁴C-atrazine following an acute lactational exposure in the Wistar rat.

Mitochondria are a major source of paraquat-induced reactive oxygen species production in the brain.

Glyphosate-resistant and -susceptible soybean (*Glycine max*) and canola (*Brassica napus*) dose response and metabolism relationships with glyphosate.

Cyanide-induced death of cells in plant leaves.

2-hydroxycinnamaldehyde inhibits SW620 colon cancer cell growth through AP-1 inactivation.

Disruption of autophagy results in constitutive oxidative stress in *Arabidopsis*.

Inhibition of cyclin-dependent kinases is neuroprotective in 1-methyl-4-phenylpyridinium-induced apoptosis in neurons.

Effects of copper-phenanthroline on pentachlorophenol-induced adaptation and cell death of *Escherichia coli*.

Impact of the loss of AtMSH2 on double-strand break-induced recombination between highly diverged homeologous sequences in *Arabidopsis thaliana* germinal tissues.

Plastid biotechnology: prospects for herbicide and insect resistance, metabolic engineering and molecular farming.

Activation of the death receptor pathway of apoptosis by the aldehyde acrolein.

Abiotic sulfhydryl reactivity: a predictor of aquatic toxicity for carbonyl-containing alpha,beta-unsaturated compounds.

Ifosfamide toxicity in cultured proximal renal tubule cells.

Poly-beta-hydroxybutyrate accumulation in *Nostoc muscorum*: effects of metabolic inhibitors.

Trimethylamine oxide suppresses stress-induced alteration of organic anion transport in choroid plexus.

Toxicity of three polyethoxylated tallowamine surfactant formulations to laboratory and field collected fairy shrimp, *Thamnocephalus platyurus*.

The *Streptococcus mutans* vicX gene product modulates gtfB/C expression, biofilm formation, genetic competence, and oxidative stress tolerance.

Toxicity assays in nanodrops combining bioassay and morphometric endpoints.

In vitro studies on the integrated control of rapeseed white stem rot disease through the application of herbicides and *Trichoderma* species.

Critical role of exposure time to endogenous oxidative stress in hepatocyte apoptosis.

Agmatine transport into spinal nerve terminals is modulated by polyamine analogs.

Oxidative stress impairs heme detoxification in the midgut of the cattle tick, *Rhipicephalus (Boophilus) microplus*.

Supplementation of ascorbic acid and alpha-tocopherol prevents arsenic-induced protein oxidation and DNA damage induced by arsenic in rats.

Household exposure to pesticides and risk of childhood hematopoietic malignancies: The ESCALE study (SFCE).

Effects of 4-chloro-2,6-bis-(2-hydroxyl-benzyl)-phenol on healing of skin wounds and growth of bacteria.

Iron deficiency anemia in infancy is associated with altered temporal organization of sleep states in childhood.

Increased plasma malondialdehyde and fructosamine in iron deficiency anemia: effect of treatment.

Iron supplementation in pregnancy--does the preparation matter?

Folate deficiency enhances arsenic effects on expression of genes involved in epidermal differentiation in transgenic K6/ODC mouse skin.

The aryl hydrocarbon receptor is required for optimal resistance to *Listeria monocytogenes* infection in mice.

Autism: transient in utero hypothyroxinemia related to maternal flavonoid ingestion during pregnancy and to other environmental antithyroid agents.

[A protector effect of cytokinin preparations on the photosynthetic apparatus of wheat plants under water deficiency conditions].

Method development study for APR cartridge evaluation in fire overhaul exposures.

Protection of arsenic-induced hepatic disorder by arjunolic acid.

Antiteratogenic effects of alpha-naphthoflavone on 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) exposed mice in utero.

Pathogenesis of aryl hydrocarbon receptor-mediated development of lymphoma is associated with increased cyclooxygenase-2 expression.

Chronic disease and early exposure to air-borne mixtures. 2. Exposure assessment.

Endoplasmic reticulum stress is involved in arsenite-induced oxidative injury in rat brain.

Environmental aspects of VOCs evolved in the early stages of human decomposition.

Genetic susceptibility to environmental toxicants in ALS.

[The etiology of congenital diaphragmatic hernia and esophageal atresia: the Hox genes].

Arsenic neurotoxicity--a review.

Swimming in chlorine byproducts.

Stability studies of principal illicit drugs in oral fluid: preparation of reference materials for external quality assessment schemes.

Mechanisms of action of the congenital diaphragmatic hernia-inducing teratogen nitrofen.

Studies on the cell treatment conditions to elicit lipolytic responses from 3T3-L1 adipocytes to TCDD, 2,3,7,8-tetrachlorodibenzo-p-dioxin.

[Environmental dioxin compounds as the cause of endometriosis and other diseases].

Cortical spreading depression releases ATP into the extracellular space and purinergic receptor activation contributes to the induction of ischemic tolerance.

2,3,7,8-TCDD exposure, endothelial dysfunction and impaired microvascular reactivity.

In vitro bioavailability of iron and sensory qualities of iron-fortified wheat biscuits.

Lafora-like ground-glass inclusions in hepatocytes of pediatric patients: a report of two cases.

Randomized trial of early versus late enteral iron supplementation in infants with a birth weight of less than 1301 grams: neurocognitive development at 5.3 years' corrected age.

Unintentional household poisoning in children.

Comparison of the cytotoxicity of the nitroaromatic drug flutamide to its cyano analogue in the hepatocyte cell line TAMH: evidence for complex I inhibition and mitochondrial dysfunction using toxicogenomic screening.

Mechanism of internalization of an ICAM-1-derived peptide by human leukemic cell line HL-60: influence of physicochemical properties on targeted drug delivery.

Isolation and characterization of arsenite-resistant human epidermoid carcinoma KB cells.

Relationship between serum concentrations of persistent organic pollutants and the prevalence of metabolic syndrome among non-diabetic adults: results from the National Health and Nutrition Examination Survey 1999-2002.

Enhancement of allergic responses in vivo and in vitro by butylated hydroxytoluene.

Arsenic exposure in pregnant mice disrupts placental vasculogenesis and causes spontaneous abortion.

p53 response to arsenic exposure in epithelial cells: protein kinase B/Akt involvement.

Toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin in the developing male Wistar(Han) rat. I: No decrease in epididymal sperm count after a single acute dose.

Toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin in the developing male Wistar(Han) rat. II: Chronic dosing causes developmental delay.

Embryonic essential myosin light chain regulates fetal lung development in rats.

Acute toxicity of sodium arsenite in a complex food matrix.

Expression of STAT3 and Bcl-6 oncoprotein in sodium arsenite-treated SV-40 immortalized human uroepithelial cells.

Arsenic salts induced autophagic cell death and hypermethylation of DAPK promoter in SV-40 immortalized human uroepithelial cells.

[Effect of tetrandrine on lung development: experiment of nitrofen-induced congenital diaphragmatic hernia fetal rat model].

Goserelin acetate 10.8 mg plus iron versus iron monotherapy prior to surgery in premenopausal women with iron-deficiency anemia due to uterine leiomyomas: results from a Phase III, randomized, multicenter, double-blind, controlled trial.

Oral sodium chlorate, topical disinfection, and younger weaning age reduce *Salmonella enterica* shedding in pigs.

Combination of 17beta-estradiol with the environmental pollutant TCDD is involved in pathogenesis of endometriosis via up-regulating the chemokine I-309-CCR8.

Association between serum concentrations of persistent organic pollutants and self-reported cardiovascular disease prevalence: results from the National Health and Nutrition Examination Survey, 1999-2002.

2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD) induces oxidative stress, DNA strand breaks, and poly(ADP-ribose) polymerase-1 activation in human breast carcinoma cell lines.

Development of a conditional bioluminescent transplant model for TPM3-ALK-induced tumorigenesis as a tool to validate ALK-dependent cancer targeted therapy.

Chronic brain cytochrome oxidase inhibition selectively alters hippocampal cholinergic innervation and impairs memory: prevention by ladostigil.

Artificial sweeteners and salts producing a metallic taste sensation activate TRPV1 receptors.

Temporal and spatial profiles of cell loss after spinal cord injury: Reduction by a metalloporphyrin.

A proposed mechanism for the protective effect of dioxin against breast cancer.

Strengths and limitations of using repeat-dose toxicity studies to predict effects on fertility.

Fetal tracheal occlusion for the treatment of congenital diaphragmatic hernia.

Polychlorinated biphenyls modulated tumorigenesis in Sprague Dawley rats: correlation with mixed function oxidase activities and superoxide (O_2^*) formation potentials and implied mode of action.

Protective effects of hepatocellular canalicular conjugate export pump (Mrp2) on sodium arsenite-induced hepatic dysfunction in rats.

Mitochondrial respiratory inhibition and oxidative stress elevate beta-secretase (BACE1) proteins and activity in vivo in the rat retina.

Control of piglet coccidiosis by chemical disinfection with a cresol-based product (Neopredisan 135-1).

Workshop overview: arsenic research and risk assessment.

Hostility, anger, and depression predict increases in C3 over a 10-year period.

Sarcoma risk and dioxin emissions from incinerators and industrial plants: a population-based case-control study (Italy).

Pesticide use and colorectal cancer risk in the Agricultural Health Study.

Prevalence and risk factors of low-birth-weight infants in Zahedan, Islamic Republic of Iran.

Policy statement on iron deficiency in pre-school-aged children.

Cyclic AMP enhancers and Abeta oligomerization blockers as potential therapeutic agents in Alzheimer's disease.

Pulmonary epithelial cell differentiation in the nitrofen-induced congenital diaphragmatic hernia.

Sodium selenite induces superoxide-mediated mitochondrial damage and subsequent autophagic cell death in malignant glioma cells.

[Effectiveness of different iron supplementation strategies on hemoglobin and ferritin levels among schoolchildren in Teresina, Piauí- State, Brazil].

Association of serum concentrations of persistent organic pollutants with the prevalence of learning disability and attention deficit disorder.

Insulin resistance and the mitochondrial link. Lessons from cultured human myotubes.

Subchronic feeding study of DAS-59122-7 maize grain in Sprague-Dawley rats.

Efficacy of 2,6-dichlorophenol lure to control *Dermacentor nitens*.

[Cancers and pesticides].

[Phyt'attitude: network for toxicovigilance in agriculture].

Selenium deficiency alters epithelial cell morphology and responses to influenza.

Mass iron treatment is cheaper than routine deworming.

Differences in acute toxicity syndromes of 2,3,7,8-tetrachlorodibenzo-p-dioxin and 1,2,3,4,7,8-hexachlorodibenzo-p-dioxin in rats.

Fortification of drinking water to control iron-deficiency anemia in preschool children.

Effects of various iron fortificants on sensory acceptability and shelf-life stability of instant noodles.

Oxidative stress kills human primary oligodendrocytes via neutral sphingomyelinase: implications for multiple sclerosis.

The menace of endocrine disruptors on thyroid hormone physiology and their impact on intrauterine development.

[Chloracne after exposure to dioxin].

[Efficacy of iron supplementation with or without vitamin A for anemia control].

Sequential treatment by ionizing radiation and sodium arsenite dramatically accelerates TRAIL-mediated apoptosis of human melanoma cells.

Proteome and cytoskeleton responses in osteosarcoma cells with reduced OXPHOS activity.

A randomised placebo-controlled trial to determine the effect of iron supplementation on pregnancy outcome in pregnant women with haemoglobin \geq 13.2 g/dl.

Bacterial reduction in infected root canals treated with 2.5% NaOCl as an irrigant and calcium hydroxide/camphorated paramonochlorophenol paste as an intracanal dressing.

Symptomatic response of erythropoietic protoporphyria to iron supplementation.

Allium cepa chromosome aberration and micronucleus tests applied to study genotoxicity of extracts from pesticide-treated vegetables and grapes.

Arsenite-induced alterations in Ku70-deficient cells: a model to study genotoxic effects.

Chemical contaminants, health indicators, and reproductive biomarker responses in fish from the Colorado River and its tributaries.

Effects of the plant flavonoids silymarin and quercetin on arsenite-induced oxidative stress in CHO-K1 cells.

Agricultural exposures and gastric cancer risk in Hispanic farm workers in California.

Association of allergic rhinitis with pesticide use among grape farmers in Crete, Greece.

The effect of anionic and cationic surfactants on indicators and measurement of dissociation constants with two different methods.

Exposure in utero to 2,2',3,3',4,6'-hexachlorobiphenyl (PCB 132) impairs sperm function and alters testicular apoptosis-related gene expression in rat offspring.

Vitamin A deficiency (VAD), teratogenic, and surgical models of congenital diaphragmatic hernia (CDH).

Decreased lung fibroblast growth factor 18 and elastin in human congenital diaphragmatic hernia and animal models.

Preliminary morphological and morphometric study of rat cerebellum following sodium arsenite exposure during rapid brain growth (RBG) period.

[Effect on the expression of testicular steroidogenic enzymes in fetal mouse by maternal exposure to TCDD].

[Relationship between blood dioxin levels and present/past clinical symptoms in Kanemi Yusho patients].

Genetic modification of chondrocytes with insulin-like growth factor-1 enhances cartilage healing in an equine model.

Molecular mechanisms of the diabetogenic effects of arsenic: inhibition of insulin signaling by arsenite and methylarsonous acid.

Post-Injury Administration of Mitochondrial Uncouplers Increases Tissue Sparing and Improves Behavioral Outcome following Traumatic Brain Injury in Rodents.

Chronic bronchitis among nonsmoking farm women in the agricultural health study.

Inhibition of NF- κ B does not induce c-Jun N-terminal kinase-mediated apoptosis in reperfusion injury.

Inhibiting glycosphingolipid synthesis improves glycemic control and insulin sensitivity in animal models of type 2 diabetes.

Yeast NDI1 improves oxidative phosphorylation capacity and increases protection against oxidative stress and cell death in cells carrying a Leber's hereditary optic neuropathy mutation.

Ketone bodies alter dinitrophenol-induced glucose uptake through AMPK inhibition and oxidative stress generation in adult cardiomyocytes.

Serum monocyte chemoattractant protein-1 levels in congenital diaphragmatic hernia.

A gene-environment study of the paraoxonase 1 gene and pesticides in amyotrophic lateral sclerosis.

Pro-angiogenesis action of arsenic and its reversal by selenium-derived compounds.

Antipsychotics for delirium.

Some clinico and histopathological changes in female goats experimentally exposed to dioxin.

Possible application of human c-Ha-ras proto-oncogene transgenic rats in a medium-term bioassay model for carcinogens.

Pulmonary biomarkers based on alterations in protein expression after exposure to arsenic.

[The role of insulin-like growth factor-2 gene differentially methylated regions in TCDD-induced malformation].

Ubiquitinated-protein aggregates form in pancreatic beta-cells during diabetes-induced oxidative stress and are regulated by autophagy.

Proteomic analysis of exfoliation deposits.

Zinc supplementation of pregnant rats with adequate zinc nutrition suppresses immune functions in their offspring.

Protective effect of *Mentha piperita* against arsenic-induced toxicity in liver of Swiss albino mice.

Antinuclear antibodies and bromoxynil exposure in a rural sample.

Iron absorption from wheat flour: effects of lemonade and chamomile infusion.

New insights about iron bioavailability inhibition by zinc.

The gestational environment and Parkinson's disease: evidence for neurodevelopmental origins of a neurodegenerative disorder.

In utero arsenic exposure induces early onset of atherosclerosis in ApoE^{-/-} mice.

Prevention of aneuploidy by S-adenosyl-methionine in human cells treated with sodium arsenite.

On the translation of uncertainty from toxicokinetic to toxicodynamic models--the TCDD example.

Long-term effects of subcutaneously injected 2,3,7,8-tetrachlorodibenzo-p-dioxin on the liver of rhesus monkeys.

Polychlorinated dibenzothiophenes in Japanese environmental samples and their photodegradability and dioxin-like endocrine-disruption potential.

Iron therapy for renal anemia: how much needed, how much harmful?

Role of heat shock protein 70 in hepatic ischemia-reperfusion injury in mice.

Thirteen week feeding study with transgenic maize grain containing event DAS-157-1 in Sprague-Dawley rats.

Developmental exposure of mice to TCDD elicits a similar uterine phenotype in adult animals as observed in women with endometriosis.

Atmospheric photochemical transformations enhance 1,3-butadiene-induced inflammatory responses in human epithelial cells: The role of ozone and other photochemical degradation products.

Suppression of fetal testicular cytochrome P450 17 by maternal exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin: a mechanism involving an initial effect on gonadotropin synthesis in the pituitary.

Inhibition of CYP1A enzymes by alpha-naphthoflavone causes both synergism and antagonism of retene toxicity to rainbow trout (*Oncorhynchus mykiss*).

Rickettsial and other tick-borne infections.

Electrolytic iron or ferrous sulfate increase body iron in women with moderate to low iron stores.

Occupational exposure to methyl iodide.

Severe skin reaction due to excipients of an oral iron treatment.

Medical countermeasure against respiratory toxicity and acute lung injury following inhalation exposure to chemical warfare nerve agent VX.

Preharvest control of *Escherichia coli* O157 in cattle.

Hepatoprotective activity of liposomal flavonoid against arsenite-induced liver fibrosis.

Benzo[a]pyrene-7,8-dihydrodiol promotes checkpoint activation and G2/M arrest in human bronchoalveolar carcinoma H358 cells.

Identification of kaempferol as an inhibitor of cigarette smoke-induced activation of the aryl hydrocarbon receptor and cell transformation.

Pharmacokinetics of arsenic species in Japanese patients with relapsed or refractory acute promyelocytic leukemia treated with arsenic trioxide.

Magnetic resonance for evaluation of toxic encephalopathies: implications from animal experiments.

New approach to risk assessment of central neurotoxicity induced by 1-bromopropane using animal models.

Hsp90 inhibitors suppress HCV replication in replicon cells and humanized liver mice.

[Effect of tetrandrine on endothelin expression in the lungs and clinical significance thereof: experiment with rat models with nitrofen-induced congenital diaphragmatic hernia].

Newly diagnosed iron deficiency anaemia in a premenopausal woman.

[Arsenical poisoning: how and why to diagnose it].

Rationale and design of the IRON-HF study: a randomized trial to assess the effects of iron supplementation in heart failure patients with anemia.

Dose- and time-dependent effects of 2,3,7,8-tetrabromodibenzo-p-dioxin on rat liver.

Down-regulation of Wnt signal pathway in nitrofen-induced hypoplastic lung.

Reduced expression of aquaporin 5 water channel in nitrofen-induced hypoplastic lung with congenital diaphragmatic hernia rat model.

Disturbance of retinol transportation causes nitrofen-induced hypoplastic lung.

Neurological and neurophysiological examinations on workers with chronic poisoning by 2,3,7,8-TCDD: follow-up 35 years after exposure.

Clinical aspects of iron use in the anemia of kidney disease.

Effect of alpha-asarone and a derivative on lipids, bile flow and Na⁺/K⁺-ATPase in ethinyl estradiol-induced cholestasis in the rat.

P-selectin mediates metastatic progression through binding to sulfatides on tumor cells.

P-cresylsulphate, the main in vivo metabolite of p-cresol, activates leucocyte free radical production.

ATP depletion does not account for apoptosis induced by inhibition of mitochondrial electron transport chain in human dopaminergic cells.

Uncoupling of oxidative phosphorylation enables *Candida albicans* to resist killing by phagocytes and persist in tissue.

Effect of iron repletion and correction of iron deficiency on thyroid function in iron-deficient Iranian adolescent girls.

Genetic polymorphisms in MTHFR 677 and 1298, GSTM1 and T1, and metabolism of arsenic.

Arsenic-induced toxicity and the protective role of ascorbic acid in mouse testis.

Arsenic methylation capability and hypertension risk in subjects living in arseniasis-hyperendemic areas in southwestern Taiwan.

Involvement of cannabinoid CB2 receptors in the IgE-mediated triphasic cutaneous reaction in mice.

Microarray analysis of gene expression in peripheral blood mononuclear cells from dioxin-exposed human subjects.

Vesicle disruption, plasma membrane bleb formation, and acute cell death caused by illumination with blue light in acridine orange-loaded malignant melanoma cells.

Comparison of efficacy, tolerability, and cost of iron polymaltose complex with ferrous sulphate in the treatment of iron deficiency anemia in pregnant women.

Keokuk County rural health study: self-reported use of agricultural chemicals and protective equipment.

Periradicular repair after two-visit endodontic treatment using two different intracanal medications compared to single-visit endodontic treatment.

Transcriptional control of energy homeostasis through the PGC1 coactivators.

In vitro mitigation of arsenic toxicity by tea polyphenols in human lymphocytes.

[Sea urchin embryo, DNA-damaged cell cycle checkpoint and the mechanisms initiating cancer development].

Transcriptional control of mitochondrial energy metabolism through the PGC1 coactivators.

Reproductive disorders associated with pesticide exposure.

Pre-harvest interventions to reduce the shedding of *E. coli* O157 in the faeces of weaned domestic ruminants: a systematic review.

[Sodium azide--clinical course of the poisoning and treatment].

Iron(III)-hydroxide polymaltose complex in iron deficiency anemia / review and meta-analysis.

Analgesic, antipyretic and anti-inflammatory properties of *Mezoneuron benthamianum* Baill (Caesalpinaceae).

Residual antibacterial activity of chlorhexidine digluconate and camphorated p-monochlorophenol in calcium hydroxide-based root canal dressings.

Alcoholic myopathy and acetaldehyde.

Interactions among infections, nutrients and xenobiotics.

[Hepatocyte mitochondrion respiratory chain in rats with experimental toxic hepatitis].

Decreased treatment failure rates following duodenal release ferrous glycine sulfate in iron deficiency anemia associated with autoimmune gastritis and *Helicobacter pylori* gastritis.

Altered subcellular distribution of the Alzheimer's amyloid precursor protein under stress conditions.

Arsenic methylation, urinary arsenic metabolites and human diseases: current perspective.

Exacerbation of infectious diseases by iron supplementation.

Fatty acid biosynthesis as a drug target in apicomplexan parasites.

Is any link between inflammation and coronary artery ectasia?

Kidney development in the nitrofen-induced pulmonary hypoplasia and congenital diaphragmatic hernia in rats.

Multimicronutrient supplementation for undernourished pregnant women and the birth size of their offspring: a double-blind, randomized, placebo-controlled trial.

Differential sensitivity of cones to iron-mediated oxidative damage.

Involvement of substance P and neurogenic inflammation in arsenic-induced early vascular dysfunction.

Iron supplementation maintains ventilatory threshold and improves energetic efficiency in iron-deficient nonanemic athletes.

Environmental and host-associated risk factors in endometriosis and deep endometriotic nodules: a matched case-control study.

SLV313 (1-(2,3-dihydro-benzo[1,4]dioxin-5-yl)-4- [5-(4-fluoro-phenyl)-pyridin-3-ylmethyl]-piperazine monohydrochloride): a novel dopamine D2 receptor antagonist and 5-HT1A receptor agonist potential antipsychotic drug.

In vitro utilization of ferromagnetic nanoparticles in hemodialysis therapy.

A critical comparison of murine pathology and epidemiological data of TCDD, PCB126, and PeCDF.

The risk screening for indoor air pollution chemicals in Japan.

Association of thyroid hormone concentrations with levels of organochlorine compounds in cord blood of neonates.

The influence of exposure history on arsenic accumulation and toxicity in the killifish, *Fundulus heteroclitus*.

Phytanic acid impairs mitochondrial respiration through protonophoric action.

ATF4-dependent oxidative induction of the DNA repair enzyme Ape1 counteracts arsenite cytotoxicity and suppresses arsenite-mediated mutagenesis.

Dioxin affects glucose transport via the arylhydrocarbon receptor signal cascade in pluripotent embryonic carcinoma cells.

Constitutive expression and inducibility of CYP1A1 in the H9c2 rat cardiomyoblast cells.

A new electro-optical approach to rapid assay of cell viability.

Mitochondrial swelling impairs the transport of organelles in cerebellar granule neurons.

Damage to the cytoplasmic membrane and cell death caused by lycopene in *Candida albicans*.

Hepatic transcriptional networks induced by exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Salt tolerance requires cortical microtubule reorganization in *Arabidopsis*.

Uridine-5'-triphosphate (UTP) maintains cardiac mitochondrial function following chemical and hypoxic stress.

Fibroblast growth factor-binding protein and N-deacetylase/N-sulfotransferase-1 expression in type II cells is modulated by heparin and extracellular matrix.

Platelet-endothelial cell adhesion molecule-1-directed endothelial targeting of superoxide dismutase alleviates oxidative stress caused by either extracellular or intracellular superoxide.

Exposure to arsenic at levels found in U.S. drinking water modifies expression in the mouse lung.

Panax ginseng effects on DNA damage, CYP1A1 expression and histopathological changes in testes of rats exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Alpha,beta-unsaturated aldehydes in cigarette smoke release inflammatory mediators from human macrophages.

Analysis of cell death inducing compounds.

Lipid peroxidation-induced DNA damage in cancer-prone inflammatory diseases: a review of published adduct types and levels in humans.

Immunomodulatory effects of organochlorine mixtures upon in vitro exposure of peripheral blood leukocytes differ between free-ranging and captive southern sea otters (*Enhydra lutris*).

Neuroprotective actions of 2,4-dinitrophenol: Friend or foe?

Identification of phenolic dermal sensitizers in a wound closure tape.

Folic acid supplementation lowers blood arsenic.

Acute and chronic toxicity of technical-grade pesticides to glochidia and juveniles of freshwater mussels (Unionidae).

Acute toxicities of trace metals and common xenobiotics to the marine copepod *Tigriopus japonicus*: Evaluation of its use as a benchmark species for routine ecotoxicity tests in Western Pacific coastal regions.

Relationships between tissue levels of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD), mRNAs, and toxicity in the developing male Wistar(Han) rat.

Drosophila DJ-1 mutants are sensitive to oxidative stress and show reduced lifespan and motor deficits.

Protective effects of several components of *Gastrodia elata* on lipid peroxidation in gerbil brain homogenates.

Environmental toxicants may modulate osteoblast differentiation by a mechanism involving the aryl hydrocarbon receptor.

Expression of the small heat shock protein gene, *hsp30*, in *Rana catesbeiana* fibroblasts.

Genotoxicity of arsenic evaluated by *Allium*-root micronucleus assay.

The effect of aromatic hydrocarbon receptor on the phenotype of the Hepa 1c1c7 murine hepatoma cells in the absence of dioxin.

Control of *Paratrichodorus allius* and Corky Ringspot Disease in Potato with Shank-injected Metam Sodium.

Contaminants in fish: risk-benefit considerations.

The biological and toxicological importance of molybdenum in the environment and in the nutrition of plants, animals and man. Part 1: Molybdenum in plants.

An angiotensin II type-I receptor blocker, olmesartan medoxomil, attenuates lipid peroxidation in renal injury induced by subtotal nephrectomy.

Isoproterenol hydrochloride augments collagen proliferation and ATPase activity in mice soleus and EDL muscles.

Lack of an effect of oral iron administration on mycophenolic acid pharmacokinetics in stable renal transplant recipients.

Melatonin attenuates arsenite-induced apoptosis in rat brain: involvement of mitochondrial and endoplasmic reticulum pathways and aggregation of alpha-synuclein.

The Arabidopsis BAP1 and BAP2 genes are general inhibitors of programmed cell death.

Tumor necrosis factor-alpha modulates effects of aryl hydrocarbon receptor ligands on cell proliferation and expression of cytochrome P450 enzymes in rat liver "stem-like" cells.

Arsenite induced oxidative damage in mouse liver is associated with increased cytokeratin 18 expression.

Catalase takes part in rat liver mitochondria oxidative stress defense.

Management of Soilborne Diseases in Strawberry Using Vegetable Rotations.

Metabolic activation of herbal and dietary constituents and its clinical and toxicological implications: an update.

Relationships of thyroid hormones with polychlorinated biphenyls, dioxins, furans, and DDE in adults.

Contamination of vegetables of different seasons with organophosphorous pesticides and related health risk assessment in northern India.

Functional ryanodine receptors are expressed by human microglia and THP-1 cells: Their possible involvement in modulation of neurotoxicity.

Cytotoxicity, genotoxicity and ecotoxicity assay using human cell and environmental species for the screening of the risk from pollutant exposure.

Hemodynamic consequences of chronic parasympathetic blockade with a peripheral muscarinic antagonist.

In vitro and in vivo characterization of [3H]CNS-5161--a use-dependent ligand for the N-methyl-D-aspartate receptor in rat brain.

Commonly used tropical medicinal plants exhibit distinct in vitro antioxidant activities against hepatotoxins in rat liver.

Cellular thiol pools are responsible for sequestration of cytotoxic reactive aldehydes: central role of free cysteine and cysteamine.

Cytotoxic effects and aromatase inhibition by xenobiotic endocrine disrupters alone and in combination.

SCL-GFP transgenic zebrafish: in vivo imaging of blood and endothelial development and identification of the initial site of definitive hematopoiesis.

An aryl hydrocarbon receptor odyssey to the shores of toxicology: the Deichmann Lecture, International Congress of Toxicology-XI.

Gonadotropin-releasing hormone neurons express estrogen receptor-beta.

Acute and sub-lethal toxicity of three POEA surfactant formulations to *Daphnia magna*.

Toxicological characterization of 2,4,6-trinitrotoluene, its transformation products, and two nitramine explosives.

Intravenous versus oral iron supplementation in peritoneal dialysis patients.

Effects of some endocrine disruptors on the proliferation and viability of human endometrial endothelial cells in vitro.

Molecular characterization of cytochrome P450 1A1, 1A2, and 1B1, and effects of polychlorinated dibenzo-p-dioxin, dibenzofuran, and biphenyl congeners on their hepatic expression in Baikal seal (*Pusa sibirica*).

Overexpression of thioredoxin1 in transgenic mice suppresses development of diabetic nephropathy.

Dioxin exposure in contaminated sawmill area: the use of molar teeth and bone of bank vole (*Clethrionomys glareolus*) and field vole (*Microtus agrestis*) as biomarkers.

Possible role of carbonic anhydrase in rat pancreatic islets: enzymatic, secretory, metabolic, ionic, and electrical aspects.

Gpx4 protects mitochondrial ATP generation against oxidative damage.

Effects of Border Crops and Intercrops on Control of Cucurbit Virus Diseases.

Chronic exposure to sub-lethal concentration of a glyphosate-based herbicide alters hormone profiles and affects reproduction of female Jundiã (*Rhamdia quelen*).

Regulation of aryl hydrocarbon receptor activity in porcine cumulus-oocyte complexes in physiological and toxicological conditions: the role of follicular fluid.

Reed beds receiving industrial sludge containing nitroaromatic compounds. Effects of outgoing water and bed material extracts in the umu-c genotoxicity assay, DR-CALUX assay and on early life stage development in zebrafish (*Danio rerio*).

Bioanalytical characterisation of estrogen and arylhydrocarbon receptor agonists in transplanted blue mussels (*Mytilus edulis*): proof of concept.

4-Methoxyestradiol-induced oxidative injuries in human lung epithelial cells.

Kinetics and functional assay of liver repopulation after human cord blood transplantation.

Cell death and impairment of glucose-stimulated insulin secretion induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in the beta-cell line INS-1E.

MRP2 and acquired tolerance to inorganic arsenic in the kidney of killifish (*Fundulus heteroclitus*).

Characterization of the relaxant response to N,N'-dipropyl-1,2-bis(2,6-dichloro-4-hydroxyphenyl)ethylenediamine in porcine coronary arteries.

Reproductive functions and hypothalamic catecholamines in response to the soil fumigant metam sodium: adaptations to extended exposures.

Resveratrol increases vascular oxidative stress resistance.

Role of O6-methylguanine-DNA methyltransferase in protecting from alkylating agent-induced toxicity and mutations in mice.

N-methyltetrahydro-beta-carboline analogs of 1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine (MPTP) neurotoxin are oxidized to neurotoxic beta-carbolinium cations by heme peroxidases.

Does paternal exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) affect the sex ratio of offspring?

Preoperative haematinics and transfusion protocol reduce the need for transfusion after total knee replacement.

Effects of brominated flame retardants and brominated dioxins on steroidogenesis in H295R human adrenocortical carcinoma cell line.

Neuroprotection from secondary injury by polyethylene glycol requires its internalization.

Alterations in proteoglycan synthesis selectively impair FSH-induced particulate cAMP-phosphodiesterase 4 (PDE4) activation in immature rat Sertoli cells.

Health effects classification and its role in the derivation of minimal risk levels: immunological effects.

The Slr2-type MAP kinase Bmp3 of *Botrytis cinerea* is required for normal saprotrophic growth, conidiation, plant surface sensing and host tissue colonization.

Cigarette smoking as a risk factor for atherosclerosis and renal disease: novel pathogenic insights.

Impairment of cellulose synthases required for *Arabidopsis* secondary cell wall formation enhances disease resistance.

In vitro effects of reactive oxygen metabolites, with and without flunixin meglumine, on equine colonic mucosa.

Stearic acid protects primary cultured cortical neurons against oxidative stress.

Disruption of iron homeostasis increases phosphine toxicity in *Caenorhabditis elegans*.

Fibronectin and laminin induce expression of islet cell markers in hepatic oval cells in culture.

No contribution of multipotent mesenchymal stromal cells to liver regeneration in a rat model of prolonged hepatic injury.

Computer aided boar semen motility analysis for cereulide detection in different food matrices.

The development of an aquatic bivalve model: evaluating the toxic effects on gametogenesis following 2,3,7,8-tetrachlorodibenzo-p-dioxin (2,3,7,8-TCDD) exposure in the eastern oyster (*Crassostrea virginica*).

Efficacy of Germination Stimulants of Sclerotia of *Sclerotium cepivorum* for Management of White Rot of Garlic.

Reduction of *Phytophthora cactorum* in Strawberry Fields by *Trichoderma* spp. and Soil Solarization.

Synergism between the toxicity of chlorophenols and iron complexes.

Plasma polymer coated surfaces for serum-free culture of limbal epithelium for ocular surface disease.

Relation between serum xenobiotic-induced receptor activities and sperm DNA damage and sperm apoptotic markers in European and Inuit populations.

Chironomids: suitable test organisms for risk assessment investigations on the potential endocrine disrupting properties of pesticides.

Zea mays: benzoxazolinone detoxification under sulfur deficiency conditions--a complex allelopathic alliance including endophytic *Fusarium verticillioides*.

Skin-derived fibroblasts from long-lived species are resistant to some, but not all, lethal stresses and to the mitochondrial inhibitor rotenone.

Smoke from traditional commercial, harm reduction and research brand cigarettes impairs oviductal functioning in hamsters (*Mesocricetus auratus*) in vitro.

Exposure of bovine sperm to pro-oxidants impairs the developmental competence of the embryo after the first cleavage.

Ovarian endocrine disruption underlies premature reproductive senescence following environmentally relevant chronic exposure to the aryl hydrocarbon receptor agonist 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Investigating the role of the aryl hydrocarbon receptor in benzene-initiated toxicity in vitro.

Comparative developmental toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin in the hamster, rat and guinea pig.

Testicular toxicity and mechanisms of chlorotoluron compounds in the mouse.

Removal of endocrine disrupting chemicals (EDCs) using low pressure reverse osmosis membrane (LPROM).

Oxidative DNA damage in mild cognitive impairment and late-stage Alzheimer's disease.

Cryopreservation of human hepatocytes alters the mitochondrial respiratory chain complex 1.

PLA2 mediated arachidonate free radicals: PLA2 inhibition and neutralization of free radicals by anti-oxidants--a new role as anti-inflammatory molecule.

The anti-apoptotic activity of albumin for endothelium is mediated by a partially cryptic protein domain and reduced by inhibitors of G-coupled protein and PI-3 kinase, but is independent of radical scavenging or bound lipid.

LC-MS-MS analysis of 2,4-dinitrophenol and its phase I and II metabolites in a case of fatal poisoning.

Use of model-based compartmental analysis to study vitamin A kinetics and metabolism.

Biomarkers for oxidative stress: clinical application in pediatric medicine.

Relative toxicity and occurrence patterns of pesticide mixtures in streams draining agricultural watersheds dominated by corn and soybean production.

Effect of various radical generators on insulin-dependent regulation of hepatic gene expression.

Anesthetic implications of a near-lethal sodium azide exposure.

Laboratory investigation of the toxicity and interaction of pesticide mixtures in *Daphnia magna*.

Control of the autophagy maturation step by the MAPK ERK and p38: lessons from environmental carcinogens.

Influence on mitochondria and cytotoxicity of different antibiotics administered in high concentrations on primary human osteoblasts and cell lines.

Identification of linear heparin-binding peptides derived from human respiratory syncytial virus fusion glycoprotein that inhibit infectivity.

Lack of the aryl hydrocarbon receptor leads to impaired activation of AKT/protein kinase B and enhanced sensitivity to apoptosis induced via the intrinsic pathway.

Introduction of the anti-apoptotic baculovirus p35 gene in passion fruit induces herbicide tolerance, reduced bacterial lesions, but does not inhibit passion fruit woodiness disease progress induced by cowpea aphid-borne mosaic virus (CABMV).

Aconitase plays a role in regulating resistance to oxidative stress and cell death in *Arabidopsis* and *Nicotiana benthamiana*.

Aryl hydrocarbon receptor activation impairs extracellular matrix remodeling during zebra fish fin regeneration.

Lipoic acid as a novel treatment for Alzheimer's disease and related dementias.

In vivo functional analysis of polyglutamic acid domains in recombinant bone sialoprotein.

White adipose tissue: storage and effector site for environmental pollutants.

Herbicide exposure modifies GSTP1 haplotype association to Parkinson onset age: the GenePD Study.

Diquat induces renal proximal tubule injury in glutathione reductase-deficient mice.

Acrolein induces vasodilatation of rodent mesenteric bed via an EDHF-dependent mechanism.

Acute toxicity of the pesticides chlorpyrifos and atrazine to the Chinese mitten-handed crab, *Eriocheir sinensis*.

Adverse effects of herbicide MCPA on dogs in a 90 day toxicological study.

Synergistic effects of copper and butylic ester of 2,4-Dichlorophenoxyacetic acid (Esternon Ultra) on amphibian embryos.

Experience with paraquat poisoning in a respiratory intensive care unit in North India.

Toxicity of a trivalent organic arsenic compound, dimethylarsinous glutathione in a rat liver cell line (TRL 1215).

Aryloxoalcanoic compounds induce resistance to antibiotic therapy in urinary tract infection caused by *Escherichia coli*.

Reduction of p66Shc suppresses oxidative damage in retinal pigmented epithelial cells and retina.

Arsenic resistance in *Pteris vittata* L.: identification of a cytosolic triosephosphate isomerase based on cDNA expression cloning in *Escherichia coli*.

Intrastriatal infusion of the Parkinsonian neurotoxin, MPP(+), induces damage of striatal cell nuclei in Sprague-Dawley rats.

Paraquat exposure as an etiological factor of Parkinson's disease.

Aldehyde load in ischemia-reperfusion brain injury: neuroprotection by neutralization of reactive aldehydes with phenelzine.

[Acetaldehyde syndrome after laboral exposition to hydrogen cyanamide].

A model of hemorrhagic cystitis induced with acrolein in mice.

Characterizing the reproducibility of a protein profiling method for the analysis of mouse bronchoalveolar lavage fluid.

Health status of Army Chemical Corps Vietnam veterans who sprayed defoliant in Vietnam.

Impact of atrazine on chlorpyrifos toxicity in four aquatic vertebrates.

Toxicity assessment of metabolites of fungal biocontrol agents using two different (*Artemia salina* and *Daphnia magna*) invertebrate bioassays.

Toxicity of atrazine to the juvenile hard clam, *Mercenaria mercenaria*.

P-glycoprotein induction: an antidotal pathway for paraquat-induced lung toxicity.

Pentachlorophenol treatment in vivo elevates point mutation rate in zebrafish p53 gene.

Single high dose dexamethasone treatment decreases the pathological score and increases the survival rate of paraquat-intoxicated rats.

Cancer incidence among pesticide applicators exposed to dicamba in the agricultural health study.

Changes in juvenile coho salmon electro-olfactogram during and after short-term exposure to current-use pesticides.

Toxicity of glyphosate as Glypro and LI700 to red-eared slider (*trachemys scripta elegans*) embryos and early hatchlings.

A case of acute sodium chlorate self-poisoning successfully treated without conventional therapy.

Effect of two insecticides and two herbicides on the porcine sperm motility patterns using computer-assisted semen analysis (CASA) in vitro.

Paraquat-induced gene expression in rat kidney.

Green tea extract inhibits paraquat-induced pulmonary fibrosis by suppression of oxidative stress and endothelin-I expression.

Superoxide dismutase 1 protects retinal cells from oxidative damage.

Effects of clomazone herbicide on hematological and some parameters of protein and carbohydrate metabolism of silver catfish *Rhamdia quelen*.

Recombinogenic activity of 10 chemical compounds in male germ cells of *Drosophila melanogaster*.

Decreased susceptibility to oxidative stress underlies the resistance of specific dopaminergic cell populations to paraquat-induced degeneration.

Adverse hepatic reactions associated with calcium carbimide and disulfiram therapy: is there still a role for these drugs?

Combined effects of a herbicide (atrazine) and predation on the life history of a pond snail, *Physa gyrina*.

Temporal effects of paraquat/maneb on microglial activation and dopamine neuronal loss in older rats.

Cancer incidence among pesticide applicators exposed to cyanazine in the agricultural health study.

Effects of antioxidant vitamins on molecular regulators involved in lung hypoplasia induced by nitrofen.

Cancer and occupational exposure to pentachlorophenol and tetrachlorophenol (Canada).

Histological changes and micronucleus induction in the zebra mussel *Dreissena polymorpha* after paraquat exposure.

A case-control study of myelodysplastic syndromes in Belgrade (Serbia Montenegro).

Low concentrations of paraquat induces early activation of extracellular signal-regulated kinase 1/2, protein kinase B, and c-Jun N-terminal kinase 1/2 pathways: role of c-Jun N-terminal kinase in paraquat-induced cell death.

NTP Technical Report on the comparative toxicity studies of allyl acetate (CAS No. 591-87-7), allyl alcohol (CAS No. 107-18-6) and acrolein (CAS No. 107-02-8) administered by gavage to F344/N rats and B6C3F1 mice.

Sequential radiologic and functional pulmonary changes in patients with paraquat intoxication.

Acute paraquat poisoning: report of a survival case following intake of a potential lethal dose.

Propanil exposure induces delayed but sustained abrogation of cell-mediated immunity through direct interference with cytotoxic T-lymphocyte effectors.

Teratological study of the herbicide 4-chloro-2-methylphenoxyacetic acid in rabbits.

Parenteral glyphosate-surfactant herbicide intoxication.

Effects of triazine herbicides on organophosphate insecticide toxicity in *Hyalella azteca*.

Immunomodulatory effects of maternal atrazine exposure on male Balb/c mice.

Indomethacin induces small intestinal damage and inhibits amitrole-associated thyroid carcinogenesis in rats initiated with N-bis(2-hydroxypropyl)nitrosamine.

Protective effects of N-acetylcysteine treatment post acute paraquat intoxication in rats and in human lung epithelial cells.

[Influence of ambroxol on paraquat-induced lung tissue injury and change of pulmonary surfactant-associated protein A in the experimental rats].

[Propofol protecting rats from paraquat induced lung injury].

[Effect of baicalin on expression of heme oxygenase-1 in lung injury of rats associated with paraquat poisoning].

Acrolein is a mitochondrial toxin: effects on respiratory function and enzyme activities in isolated rat liver mitochondria.

Histopathological effects induced by paraquat during *Xenopus laevis* primary myogenesis.

Respiratory distress, pneumonic changes on chest X-ray, hypoxaemia, oral candidiasis in a homosexual male: not always *Pneumocystis carinii* pneumonia.

Dimethylarsinic acid: results of chronic toxicity/oncogenicity studies in F344 rats and in B6C3F1 mice.

Contamination of Caribbean coastal waters by the antifouling herbicide Irgarol 1051.

Effects of herbicide chlorimuron-ethyl on physiological mechanisms in wheat (*Triticum aestivum*).

Econazole attenuates cytotoxicity of 1-methyl-4-phenylpyridinium by suppressing mitochondrial membrane permeability transition.

Effects of pentachlorophenol on the reproduction of Japanese medaka (*Oryzias latipes*).

Paternal occupational exposure to pesticides or herbicides as risk factors for cancer in children and young adults: a case-control study from the North of England.

[Advance of study on pathological mechanism of paraquat poisoning].

Toxicity assessment of pesticides to *Pseudokirchneriella subcapitata* under air-tight test environment.

Dead *Daphnia* flag mystery water contaminants.

Status of antioxidant defense system and expression of toxicant responsive genes in striatum of maneb- and paraquat-induced Parkinson's disease phenotype in mouse: mechanism of neurodegeneration.

Pesticide assessment: Protecting public health on the home turf.

Characterization of atrazine-induced gonadal malformations in African clawed frogs (*Xenopus laevis*) and comparisons with effects of an androgen antagonist (cyproterone acetate) and exogenous estrogen (17beta-estradiol): Support for the demasculinization/feminization hypothesis.

Story short on science.

Body residues as dose for sublethal responses in alevins of landlocked salmon (*Salmo salar* m. sebago): a direct calorimetry study.

Analysis of reproductive toxicity and classification of glufosinate-ammonium.

Characterizing the ovotoxicity of cyclophosphamide metabolites on cultured mouse ovaries.

TRPA1 mediates the inflammatory actions of environmental irritants and proalgesic agents.

Strategies to assess systemic exposure of chemicals in subchronic/chronic diet and drinking water studies.

Improved anti-oxidant activity of superoxide dismutase by direct chemical modification.

Atrazine concentrations, gonadal gross morphology and histology in ranid frogs collected in Michigan agricultural areas.

Neuregulin 1-Beta cytoprotective role in AML 12 mouse hepatocytes exposed to pentachlorophenol.

The potentiating effects of 1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine (MPTP) on paraquat-induced neurochemical and behavioral changes in mice.

Hodgkin lymphoma, multiple myeloma, soft tissue sarcomas, insect repellents, and phenoxyherbicides.

Distinct gene expression profiles in immortalized human urothelial cells exposed to inorganic arsenite and its methylated trivalent metabolites.

Increased resistance to free radical damage induced by low-level sound conditioning.

Effects of self-fertilization, environmental stress and exposure to xenobiotics on fitness-related traits of the freshwater snail *Lymnaea stagnalis*.

Toxicity assessment of 40 herbicides to the green alga *Raphidocelis subcapitata*.

A comparative study of rac- and S-metolachlor toxicity to *Daphnia magna*.

Hydralazine inhibits rapid acrolein-induced protein oligomerization: role of aldehyde scavenging and adduct trapping in cross-link blocking and cytoprotection.

A crucial role of Nrf2 in in vivo defense against oxidative damage by an environmental pollutant, pentachlorophenol.

Toxicity and bioavailability of atrazine and molinate to the freshwater fish (*Melanotenia fluviatilis*) under laboratory and simulated field conditions.

Retinal degeneration from oxidative damage.

A presumption of illness.

Mortality from ischemic heart disease and diabetes mellitus (type 2) in four U.S. wheat-producing states: a hypothesis-generating study.

A comparative study of the sub-chronic toxic effects of three organic arsenical compounds on the urothelium in F344 rats; gender-based differences in response.

Possibilities of chemical weed control in *Lupinus albus* and *Lupinus luteus*-screening of herbicides.

Differential response of chickpea genotypes to isoxaflutole.

Toxic effects of acetochlor and methamidophos on earthworm *Eisenia fetida* in phaeozem, northeast China.

Non-Hodgkin lymphoma and pesticide exposure: 25 years of research.

Antioxidant activity of L-ascorbic acid in wild-type and superoxide dismutase deficient strains of *Saccharomyces cerevisiae*.

[Sick building syndrome due to exposure to pentachlorophenol in the office: a case report].

Can early hemodialysis affect the outcome of the ingestion of glyphosate herbicide?

Neural repair strategies for Parkinson's disease: insights from primate models.

Progressive dopamine neuron loss in Parkinson's disease: the multiple hit hypothesis.

[Fatal poisoning caused by the ingestion of a concentrated solution of 2,4-D and MCPP].

Further evidence of the usefulness of Acute Physiology and Chronic Health Evaluation II scoring system in acute paraquat poisoning.

Effects of atrazine and iridovirus infection on survival and life-history traits of the long-toed salamander (*Ambystoma macrodactylum*).

Peroxiredoxin 6 gene-targeted mice show increased lung injury with paraquat-induced oxidative stress.

Exposure, postexposure, and density-mediated effects of atrazine on amphibians: breaking down net effects into their parts.

Organ-specific expression of glutathione S-transferases and the efficacy of herbicide safeners in *Arabidopsis*.

Comparing ecological risks of pesticides: the utility of a Risk Quotient ranking approach across refinements of exposure.

Growth rate effects, responses of antioxidant enzymes and metabolic fate of the herbicide Propanil in the aquatic plant *Lemna minor*.

Neuroglobin and cytoglobin overexpression protects human SH-SY5Y neuroblastoma cells against oxidative stress-induced cell death.

Atrazine increases ranavirus susceptibility in the tiger salamander, *Ambystoma tigrinum*.

Polyamines in renal failure.

PEP-1-SOD fusion protein efficiently protects against paraquat-induced dopaminergic neuron damage in a Parkinson disease mouse model.

Effect of plasma homocysteine level and urinary monomethylarsonic acid on the risk of arsenic-associated carotid atherosclerosis.

Degeneration of dopaminergic mesocortical neurons and activation of compensatory processes induced by a long-term paraquat administration in rats: implications for Parkinson's disease.

Superoxide dismutase B gene (sodB)-deficient mutants of *Francisella tularensis* demonstrate hypersensitivity to oxidative stress and attenuated virulence.

Nonpersistent pesticide exposure self-report versus biomonitoring in farm pesticide applicators.

Analgesia mediated by the TRPM8 cold receptor in chronic neuropathic pain.

Mutational analysis of DJ-1 in *Drosophila* implicates functional inactivation by oxidative damage and aging.

Increased levels of 4-hydroxynonenal and acrolein, neurotoxic markers of lipid peroxidation, in the brain in Mild Cognitive Impairment and early Alzheimer's disease.

Acute oxidative stress is associated with cell proliferation in the mouse liver.

[Physiological functions of polyamines and regulation of polyamine content in cells].

Oxidative stress in head trauma in aging.

Improvement of pulmonary hypoplasia associated with congenital diaphragmatic hernia by in utero CFTR gene therapy.

Curcumin protects PC12 cells against 1-methyl-4-phenylpyridinium ion-induced apoptosis by bcl-2-mitochondria-ROS-iNOS pathway.

Transduced Tat-alpha-synuclein protects against oxidative stress in vitro and in vivo.

[Effect of hypericum perforatum on preventing acute injury of rat pulmonary microvascular endothelial cells induced by paraquat].

[Therapeutic effect of somatostatin on acute respiratory distress syndrome in experimental rats].

Crotonaldehyde accumulates in glial cells of Alzheimer's disease brain.

Strategies for reducing the risk of Lyme borreliosis in North America.

Lisinopril ameliorates paraquat-induced lung fibrosis.

Neuromelanin induces oxidative stress in mitochondria through release of iron: mechanism behind the inhibition of 26S proteasome.

6-Hydroxydopamine but not 1-methyl-4-phenylpyridinium abolishes alpha-synuclein anti-apoptotic phenotype by inhibiting its proteasomal degradation and by promoting its aggregation.

Treatment of experimental chronic chagas disease with trifluralin.

Effects of arsenic exposure among semiconductor workers: a cautionary note on urinary 8-oxo-7,8-dihydro-2'-deoxyguanosine.

H₂O₂ injury in beta thalassemic erythrocytes: protective role of catalase and the prooxidant effects of GSH.

Gene expression of cytokines and growth factors in the lungs after paraquat administration in mice.

Arabidopsis ACCELERATED CELL DEATH2 modulates programmed cell death.

An oral adsorbent, AST-120, suppresses oxidative stress in uremic rats.

Effects of alpha tocopherol and probucol supplements on allergen-induced airway inflammation and hyperresponsiveness in a mouse model of allergic asthma.

Endogenous plastic composite material in the Alzheimer's brain.

Follow-up of 180 alcoholic patients for up to 7 years after outpatient treatment: impact of alcohol deterrents on outcome.

Differential regulation of c-jun and CREB by acrolein and 4-hydroxynonenal.

Inhibition of spontaneous mutagenesis by vanillin and cinnamaldehyde in *Escherichia coli*: Dependence on recombinational repair.

Acute administration of 3-nitropropionic acid, a reactive oxygen species generator, boosts ethanol-induced locomotor stimulation. New support for the role of brain catalase in the behavioural effects of ethanol.

Ethanol-induced apoptosis in polarized hepatic cells possibly through regulation of the Fas pathway.

Evaluation of a urinary multi-parameter biomarker set for oxidative stress in children, adolescents and young adults.

Nano- and microparticles as adjuvants in vaccine design: success and failure is related to host natural antibodies.

LC/MS/MS analysis of quaternary ammonium drugs and herbicides in whole blood.

Death of stomatal guard cells in leaf epidermis under disturbance of energy provision.

Phototaxis and impaired motility in adenyl cyclase and cyclase receptor protein mutants of *Synechocystis* sp. strain PCC 6803.

Expression of CP4 EPSPS in microspores and tapetum cells of cotton (*Gossypium hirsutum*) is critical for male reproductive development in response to late-stage glyphosate applications.

Enhancement of tyrosine hydroxylase expression and activity by *Trypanosoma cruzi* parasite-derived neurotrophic factor.

Acrolein-mediated mechanisms of neuronal death.

Hydralazine rescues PC12 cells from acrolein-mediated death.

Antioxidant enzyme inhibitors enhance nitric oxide-induced cell death in U937 cells.

Paraquat-induced lipid peroxidation: effects of ovariectomy and estrogen receptor antagonist.

Toxin release in response to oxidative stress and programmed cell death in the cyanobacterium *Microcystis aeruginosa*.

Rosiglitazone relieves acute ethanol-induced hangover in Sprague-Dawley rats.

Inactivation of the extrinsic subunit of photosystem II, PsbU, in *Synechococcus* PCC 7942 results in elevated resistance to oxidative stress.

Ceramide is a mediator of apoptosis in retina photoreceptors.

The effects of exogenous antioxidants on lifespan and oxidative stress resistance in *Drosophila melanogaster*.

Involvement of endonuclease G in nucleosomal DNA fragmentation under sustained endogenous oxidative stress.

Metabolic profile in workers occupationally exposed to arsenic: role of GST polymorphisms.

Novel electrochemical approach to enhanced toxicity of 4-oxo-2-nonenal vs. 4-hydroxy-2-nonenal (role of imine): oxidative stress and therapeutic modalities.

Gene expression in rat lungs during early response to paraquat-induced oxidative stress.

Chloroacetaldehyde- and acrolein-induced death of human proximal tubule cells.

Plasma organochlorine concentrations and bone ultrasound measurements: a cross-sectional study in peri- and postmenopausal Inuit women from Greenland.

Serum dioxin-like compounds and aromatase (CYP19) expression in endometriotic tissues.

Developmental toxicity of 4-ring polycyclic aromatic hydrocarbons in zebrafish is differentially dependent on AH receptor isoforms and hepatic cytochrome P4501A metabolism.

Cardiovascular responses produced by central injection of hydrogen peroxide in conscious rats.

Sodium arsenite accelerates TRAIL-mediated apoptosis in melanoma cells through upregulation of TRAIL-R1/R2 surface levels and downregulation of cFLIP expression.

Effects of chemical ischemia on cerebral cortex slices: focus on mitogen-activated protein kinase cascade.

Mothball withdrawal encephalopathy: case report and review of paradichlorobenzene neurotoxicity.

[Disulfiram-induced delirium: a case report].

Oral mucosal ulceration due to ferrous sulphate tablets: report of a case.

Anthropometric and metabolic factors and risk of benign prostatic hyperplasia: a prospective cohort study of Air Force veterans.

[Peripheral neuropathy induced by acute methyl bromide skin exposure: a case report].

Pharmacologic and functional characterization of malignant hyperthermia in the R163C RyR1 knock-in mouse.

Impaired intestinal iron absorption in Crohn's disease correlates with disease activity and markers of inflammation.

Acute activation of glucose uptake by glucose deprivation in L929 fibroblast cells.

Sigma-1 receptor activation prevents intracellular calcium dysregulation in cortical neurons during in vitro ischemia.

Gestational 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure effects on sensory cortex function.

MicroRNA responses to cellular stress.

Mitochondrial reactive oxygen species and nitric oxide-mediated cancer cell apoptosis in 2-butylamino-2-demethoxyhypocrellin B photodynamic treatment.

Toxicology and carcinogenesis studies of a binary mixture of 3,3',4,4',5-pentachlorobiphenyl (PCB 126) (Cas No. 57465-28-8) and 2,3',4,4',5-pentachlorobiphenyl (PCB 118) (Cas No. 31508-00-6) in female Harlan Sprague-Dawley rats (gavage studies).

[Current progress in animal models of arsenic carcinogenesis].

[Effect and significance of tetrandrine on epidermal growth factor and its receptor in the lung of congenital diaphragmatic hernia rat model].

Impact of weekly treatment with ferrous sulfate on hemoglobin level, morbidity and nutritional status of anemic infants.

Thiazopyr and thyroid disruption: case study within the context of the 2006 IPCS Human Relevance Framework for analysis of a cancer mode of action.

Serum dioxin, testosterone, and subsequent risk of benign prostatic hyperplasia: a prospective cohort study of Air Force veterans.

Folate and arsenic metabolism: a double-blind, placebo-controlled folic acid-supplementation trial in Bangladesh.

Covariation of psychological attributes and incident coronary heart disease in U.S. Air Force veterans of the Vietnam war.

Teratogen-induced, dietary and genetic models of congenital diaphragmatic hernia share a common mechanism of pathogenesis.

Aryl hydrocarbon receptor activation impairs the priming but not the recall of influenza virus-specific CD8+ T cells in the lung.

Antioxidant enzyme inhibitors enhance singlet oxygen-induced cell death in HL-60 cells.

Endocrine disrupters--potential modulators of the immune system and allergic response.

Correlated resistance to glucose deprivation and cytotoxic agents in fibroblast cell lines from long-lived pituitary dwarf mice.

Blocking expression of AHR2 and ARNT1 in zebrafish larvae protects against cardiac toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Airway smooth muscle dysfunction precedes teratogenic congenital diaphragmatic hernia and may contribute to hypoplastic lung morphogenesis.

Clusterin up-regulation following sub-lethal oxidative stress and lipid peroxidation in human neuroblastoma cells.

Effects of iron deficiency versus iron deficiency anemia on brainstem auditory evoked potentials in infancy.

Coexistence of megaloblastic anemia and iron deficiency anemia in a young woman with chronic lymphocytic thyroiditis.

Carcinogenicity of "non-dioxinlike" polychlorinated biphenyls.

Agricultural pesticide use and hypospadias in eastern Arkansas.

Hypolipidaemic and antiplatelet activity of phenoxyacetic acid derivatives related to alpha-asarone.

Ascorbyl palmitate enhances iron bioavailability in iron-fortified bread.

Risk assessments of polychlorinated dibenzo- p-dioxins, polychlorinated dibenzofurans, and dioxin-like polychlorinated biphenyls in food.

Interferon-gamma plays protective roles in sodium arsenite-induced renal injury by up-regulating intrarenal multidrug resistance-associated protein 1 expression.

Today's epidemics in children: possible relations to environmental pollution and suggested preventive measures.

Protection against lethal challenge with *Streptococcus pneumoniae* is conferred by aryl hydrocarbon receptor activation but is not associated with an enhanced inflammatory response.

Comparison of chronic toxicity and carcinogenicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in 2-year bioassays in female Sprague-Dawley rats.

The uremic solute p-cresol decreases leukocyte transendothelial migration in vitro.

Aqueous extract of *Trigonella foenum-graecum* L. ameliorates additive urotoxicity of buthionine sulfoximine and cyclophosphamide in mice.

Exposure to non-arsenic pesticides is associated with lymphoma among farmers in Spain.

Peristalsis of airway smooth muscle is developmentally regulated and uncoupled from hypoplastic lung growth.

Pathological circumstances impair the ability of "dark" neurons to undergo spontaneous recovery.

Antimutagenic activity of methanolic extract of *Ganoderma lucidum* and its effect on hepatic damage caused by benzo[a]pyrene.

Clozapine bioactivation induces dose-dependent, drug-specific toxicity of human bone marrow stromal cells: a potential in vitro system for the study of agranulocytosis.

Oxidative stress by ascorbate/menadione association kills K562 human chronic myelogenous leukaemia cells and inhibits its tumour growth in nude mice.

Over-expression of AhR (aryl hydrocarbon receptor) induces neural differentiation of Neuro2a cells: neurotoxicology study.

Effectiveness of intermittent iron treatment of two- to six-year-old Jordanian children with iron-deficiency anemia.

[Effects of ferrous sulfate supplementation on bone marrow hemopoiesis in rats].

Low-dose risk, hormesis, analogical and logical thinking.

Geographic model and biomarker-derived measures of pesticide exposure and Parkinson's disease.

The therapeutic effect of tissue cultured root of wild Panax ginseng C.A. Mayer on spermatogenic disorder.

Myocardium expression of connexin 43, SERCA2a, and myosin heavy chain isoforms are preserved in nitrofen-induced congenital diaphragmatic hernia rat model.

Ground-glass, polyglucosan-like hepatocellular inclusions: A "new" diagnostic entity.

Association of 24-hour activity levels with the clinical severity of chronic venous disease.

Iron deficiency, but not anemia, upregulates iron absorption in breast-fed peruvian infants.

Anti-irritants II: Efficacy against cumulative irritation.

Anti-irritants I: Dose-response in acute irritation.

Dioxin-induced chloracne--reconstructing the cellular and molecular mechanisms of a classic environmental disease.

Potentiating effect of the ATP-sensitive potassium channel blocker glibenclamide on complex I inhibitor neurotoxicity in vitro and in vivo.

Connexin 43 gene expression in mice with cardiopulmonary developmental defects.

Low-energy helium-neon laser induces locomotion of the immature melanoblasts and promotes melanogenesis of the more differentiated melanoblasts: recapitulation of vitiligo repigmentation in vitro.

Agricultural pesticide use and risk of t(14;18)-defined subtypes of non-Hodgkin lymphoma.

[Experimental study on toxicity and changes of biochemical indicator in acute bromoxynil poisoning].

Down-regulation of wt1 expression in leukemia cell lines as part of apoptotic effect in arsenic treatment using two compounds.

Cutaneous poisoning syndromes in children: a review.

Decreased nitric oxide production in the rat brain after chronic arsenic exposure.

Iron contributes to dopamine-induced toxicity in oligodendrocyte progenitors.

Superior dialytic clearance of beta(2)-microglobulin and p-cresol by high-flux hemodialysis as compared to peritoneal dialysis.

On-capillary derivatization and analysis of amino acids in human plasma by capillary electrophoresis with laser-induced fluorescence detection: application to diagnosis of aminoacidopathies.

Stress resistance and aging: influence of genes and nutrition.

Mechanisms of 2-butoxyethanol-induced hemangiosarcomas.

The constitutively active Ah receptor (CA-Ahr) mouse as a potential model for dioxin exposure--effects in vital organs.

Cell death, caspase activation, and HMGB1 release of porcine choroid plexus epithelial cells during *Streptococcus suis* infection in vitro.

Failure to thrive while breastfeeding.

Demographic factors determining compliance to iron supplementation in pregnancy in Oyo State, Nigeria.

Angiotensin-converting enzyme inhibitors slow recovery from anemia following cardiac surgery.

Clinical inquiries. What is appropriate management of iron deficiency for young children?

Iatrogenic full-thickness chemical burns from monochloroacetic acid.

Inhibition of HER-2(neu/ErbB2) restores normal function and structure to polycystic kidney disease (PKD) epithelia.

Unique secondary chromosomal abnormalities are frequently found in the chronic phase of chronic myeloid leukemia in southern Vietnam.

Maternal hair--an appropriate matrix for detecting maternal exposure to pesticides during pregnancy.

Pesticides associated with wheeze among commercial pesticide applicators in the Agricultural Health Study.

Impairment of lower jaw growth in developing zebrafish exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin and reduced hedgehog expression.

Overexpression of survivin in primary ATL cells and sodium arsenite induces apoptosis by down-regulating survivin expression in ATL cell lines.

Lung morphology after late fetal tracheal ligation in rats.

Lethal acute lung injury and hypoglycemia after subcutaneous administration of monochloroacetic acid.

[Development of invasive urinary bladder carcinomas].

The aryl hydrocarbon receptor pathway and sexual differentiation of neuroendocrine functions.

Proinflammatory changes in human umbilical cord vein endothelial cells can be induced neither by native nor by modified CRP.

The effect of perinatal TCDD exposure on caries susceptibility in rats.

Aryl hydrocarbon receptor-independent activation of estrogen receptor-dependent transcription by 3-methylcholanthrene.

Perinatal exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin suppresses contextual fear conditioning-accompanied activation of cyclic AMP response element-binding protein in the hippocampal CA1 region of male rats.

Safe use of hazardous chemicals.

[Environmental pollution from dioxins and soft tissue sarcomas in the population of Venice and Mestre: an example of the use of current electronic information sources].

[Effect of prepared *Polygonum multiflorum* on striatum extracellular acetylcholine and choline in rats of intracerebral perfusion with sodium azide].

NTP technical report on the toxicology and carcinogenesis studies of 2,2',4,4',5,5'-hexachlorobiphenyl (PCB 153) (CAS No. 35065-27-1) in female Harlan Sprague-Dawley rats (Gavage studies).

Clinical pharmacokinetic study of arsenic trioxide in an acute promyelocytic leukemia (APL) patient: speciation of arsenic metabolites in serum and urine.

The binding of 2,4-dinitrophenol to wild-type and amyloidogenic transthyretin.

Acute hypoxia-ischemia results in hydrogen peroxide accumulation in neonatal but not adult mouse brain.

Regulation of the mitogen-activated protein kinase p44 ERK activity during anoxia/recovery in rainbow trout hypodermal fibroblasts.

Diffuse lesion in the splenium of the corpus callosum in patients with methyl bromide poisoning.

Review and meta-analysis of risk estimates for prostate cancer in pesticide manufacturing workers.

Evaluation of subchronic inhalation toxicity of dimethyl disulfide in rats.

Differential expression profiling of the hepatic proteome in a rat model of dioxin resistance: correlation with genomic and transcriptomic analyses.

Dual treatment with COX-2 inhibitor and sodium arsenite leads to induction of surface Fas Ligand expression and Fas-Ligand-mediated apoptosis in human melanoma cells.

Chronic exposure to methylated arsenicals stimulates arsenic excretion pathways and induces arsenic tolerance in rat liver cells.

Synchrotron microradiography study on acute lung injury of mouse caused by PM(2.5) aerosols.

The dioxin receptor is silenced by promoter hypermethylation in human acute lymphoblastic leukemia through inhibition of Sp1 binding.

Oxidation of myosin heavy chain and reduction in force production in hyperthyroid rat soleus.

Increased levels of polychlorobiphenyls in Italian women with endometriosis.

Differential susceptibilities of Holtzman and Sprague-Dawley rats to fetal death and placental dysfunction induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) despite the identical primary structure of the aryl hydrocarbon receptor.

Overview of exposure, toxicity, and risks to children from current levels of 2,3,7,8-tetrachlorodibenzo-p-dioxin and related compounds in the USA.

Microtubules are more stable and more highly acetylated in ethanol-treated hepatic cells.

Motor stimulant effects of ethanol injected into the substantia nigra pars reticulata: importance of catalase-mediated metabolism and the role of acetaldehyde.

Oxidative damage of DJ-1 is linked to sporadic Parkinson and Alzheimer diseases.

Functional properties of ryanodine receptors carrying three amino acid substitutions identified in patients affected by multi-minicore disease and central core disease, expressed in immortalized lymphocytes.

Effects of herbimycin A in the pilocarpine model of temporal lobe epilepsy.

Loss of glial lazarlillo, a homolog of apolipoprotein D, reduces lifespan and stress resistance in *Drosophila*.

Adverse health effects in humans exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

[Thyroid C cells are decreased in experimental CDH].

NTP technical report on the toxicology and carcinogenesis studies of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) (CAS No. 1746-01-6) in female Harlan Sprague-Dawley rats (Gavage Studies).

Two deaths attributed to the use of 2,4-dinitrophenol.

Novel neuroprotective, neuritogenic and anti-amyloidogenic properties of 2,4-dinitrophenol: the gentle face of Janus.

Clinical and experimental applications of NIR-LED photobiomodulation.

[Advance of research on skin injury after exposure to 2, 3, 7, 8-tetrachlorodibenzo-p-dioxin].

The effects of biocides (antiseptics and disinfectants) on the endospores of *Rhinosporidium seeberi*.

Patterns of hospital transfer for self-poisoned patients in rural Sri Lanka: implications for estimating the incidence of self-poisoning in the developing world.

The MAPKKK Mekk1 regulates the expression of Turandot stress genes in response to septic injury in *Drosophila*.

NADPH oxidase in the renal medulla causes oxidative stress and contributes to salt-sensitive hypertension in Dahl S rats.

Therapeutic value of melatonin in an experimental model of liver injury and regeneration.

Characterization of transferrin receptor-dependent GaC-Tf-FeN transport in human leukemic HL60 cells.

Boron ameliorates fulminant hepatic failure by counteracting the changes associated with the oxidative stress.

Depletion of cardiolipin and cytochrome c during ischemia increases hydrogen peroxide production from the electron transport chain.

Three occupationally exposed cases of severe methyl bromide poisoning: accident caused by a gas leak during the fumigation of a folklore museum.

Occupational exposure and effects on the male reproductive system.

Kidney failure and the gut: p-cresol and the dangers from within.

Endocrine disrupters and female reproductive health.

Dietary intake of differently fed salmon: a preliminary study on contaminants.

Synergism in immunotoxicological effects due to repeated combined administration of arsenic and lead in mice.

Free serum concentrations of the protein-bound retention solute p-cresol predict mortality in hemodialysis patients.

Elevation of circulating endothelial microparticles in patients with chronic renal failure.

The teratogenic sensitivity to 2,3,7,8-tetrachlorodibenzo-p-dioxin is modified by a locus on mouse chromosome 3.

Depletion of securin increases arsenite-induced chromosome instability and apoptosis via a p53-independent pathway.

System level metabolic effects of a *Schistosoma japonicum* infection in the Syrian hamster.

Transactivation of fetal liver kinase-1/kinase-insert domain-containing receptor by lysophosphatidylcholine induces vascular endothelial cell proliferation.

Blockade of intracellular calcium release induces an antidepressant-like effect in the mouse forced swimming test.

Congenital diaphragmatic hernia prevents absorption of distal air space fluid in late-gestation rat fetuses.

Occupational exposure to toluene and its possible causative role in renal damage development in shoe workers.

TCDD as a biological response modifier for Mitomycin C: oxygen tension affects enzyme activation, reactive oxygen species and cell death.

Lymphoid leukaemia in a saker falcon.

Age-dependent cell death and the role of ATP in hydrogen peroxide-induced apoptosis and necrosis.

[Clinical analysis for acute cyanogen chloride inhalation poisoning].

Cooking and Fe fortification have different effects on Fe bioavailability of bread and tortillas.

Semen quality in fertile US men in relation to geographical area and pesticide exposure.

The effects of prophylactic iron given in prenatal supplements on iron status and birth outcomes: a randomized controlled trial.

Pesticides and Parkinson's disease--is there a link?

Iron bioavailability from fortified petit suisse cheese determined by the prophylactic-preventive method.

An application of a two-level non-Gaussian state-space model in the analysis of longitudinal papilloma count data.

Neuroprotective effects of stearic acid against toxicity of oxygen/glucose deprivation or glutamate on rat cortical or hippocampal slices.

Genetic differences in lethality of newborn mice treated in utero with coplanar versus non-coplanar hexabromobiphenyl.

Fetal pituitary gonadotropin as an initial target of dioxin in its impairment of cholesterol transportation and steroidogenesis in rats.

Arsenic induced apoptosis in rat liver following repeated 60 days exposure.

Diabetogenic effects and pancreatic oxidative damage in rats subchronically exposed to arsenite.

[Tardyferon in obstetric and gynecological practice].

Possible discovery of Chinese lung fluke, *Paragonimus skrjabini* in Manipur, India.

Assessing neuroprotection in Parkinson's disease: from the animal models to molecular neuroimaging in vivo.

Health risks by bromomethane and other toxic gases in import cargo ship containers.

Parkinson's disease and pesticide exposures.

NF-kappaB-associated MnSOD induction protects against beta-amyloid-induced neuronal apoptosis.

Chloroacetaldehyde as a sulfhydryl reagent: the role of critical thiol groups in ifosfamide nephropathy.

A randomized controlled trial of oral versus intravenous iron in chronic kidney disease.

Germ-line mutations at a mouse ESTR (Pc-3) locus and human microsatellite loci.

Possible beneficial effects of melatonin supplementation on arsenic-induced oxidative stress in Wistar rats.

Terminology of gonadal anomalies in fish and amphibians resulting from chemical exposures.

Divergent risk of multiple sclerosis in two anabaptist communities in America.

Comment on "Pediatric fatality following ingestion of Dinitrophenol: postmortem identification of a 'dietary supplement'".

[The influence of polyunsaturated fat acids on the development of artificially caused exudative skin necrosis in rats].

Polychlorinated biphenyls (PCBs): routes of exposure and effects on human health.

Molecular mechanisms of 2,3,7,8-tetrachlorodibenzo-p-dioxin cardiovascular embryotoxicity.

[The multifaceted effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in organisms, especially dentition changes].

NTP toxicology and carcinogenesis studies of 3,3',4,4',5-pentachlorobiphenyl (PCB 126) (CAS No. 57465-28-8) in female Harlan Sprague-Dawley rats (Gavage Studies).

Occupational determinants of cryptogenic polyneuropathy.

[Free radical processes in patients with iron deficiency anemia treated with iron medication].

CXCL12 is displayed by rheumatoid endothelial cells through its basic amino-terminal motif on heparan sulfate proteoglycans.

[Exposure to endocrine disrupting chemicals and children's health: problems in epidemiological studies].

On the discovery and development of CFTR chloride channel activators.

Arsenic-induced cell death in liver and brain of experimental rats.

Treatment for simple plantar verrucae: monochloroacetic acid and 10% formaldehyde versus 10% formaldehyde alone.

A cluster of hypoplastic left heart malformation in Baltimore, Maryland.

Hemodialysis reduces inhibitory effect of plasma ultrafiltrate on LDL oxidation and subsequent endothelial reactions.

Understanding dioxin developmental toxicity using the zebrafish model.

Analytical studies on the prediction of photosensitive/phototoxic potential of pharmaceutical substances.

Sex and congenital diaphragmatic hernia.

Expression of Connexin 43 in the hearts of rat embryos exposed to nitrofen and effects of vitamin A on it.

Retinoic acid rescues lung hypoplasia in nitrofen-induced hypoplastic foetal rat lung explants.

Potential of apoptosis by heat stress plus pesticide exposure in stress resistant human B-lymphoma cells and its attenuation through interaction with follicular dendritic cells: role for c-Jun N-terminal kinase signaling.

Beta-amyloid and oxidative stress jointly induce neuronal death, amyloid deposits, gliosis, and memory impairment in the rat brain.

Increased manganese uptake by primary astrocyte cultures with altered iron status is mediated primarily by divalent metal transporter.

Detection of equine herpesvirus type 1 using a real-time polymerase chain reaction.

TCDD decreases ATP levels and increases reactive oxygen production through changes in mitochondrial F(0)F(1)-ATP synthase and ubiquinone.

Association between the levels of biogenic amines and superoxide anion production in brain regions of rats after subchronic exposure to TCDD.

Toxicity of six pesticides to common frog (*Rana temporaria*) tadpoles.

A study of soluble HLA-G1 protecting porcine endothelial cells against human natural killer cell-mediated cytotoxicity.

Dihydroxy-, hydroxyspirolactone-, and dihydroxyspirolactone-urochlorins induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin in the liver of mice.

Immunotoxic effects of chemicals: A matrix for occupational and environmental epidemiological studies.

Molecular analysis, cytogenetics and fertility of introgression lines from transgenic wheat to *Aegilops cylindrica* host.

Hepatic gene downregulation following acute and subchronic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Synaptic cysteine sulfhydryl groups as targets of electrophilic neurotoxicants.

ATM/ATR-related checkpoint signals mediate arsenite-induced G2/M arrest in primary aortic endothelial cells.

Role of the medial prefrontal cortex in cardiovascular responses to acute restraint in rats.

Liver glycogen bodies: ground-glass hepatocytes in transplanted patients.

IL-6 is constitutively expressed during lung morphogenesis and enhances fetal lung explant branching.

2,3,7,8-tetrachlorodibenzo-p-dioxin specifically reduces mRNA for the mineralization-related dentin sialophosphoprotein in cultured mouse embryonic molar teeth.

Metabolism of dopamine by the nasal mucosa.

Fluorophore-assisted light inactivation produces both targeted and collateral effects on N-type calcium channel modulation in rat sympathetic neurons.

Impaired volume regulation is the mechanism of excitotoxic sensitization to complement.

Effects of possible endocrine disrupting chemicals on bacterial component-induced activation of NF-kappaB.

Mitogen-activated protein kinases inhibit the ROMK (Kir 1.1)-like small conductance K channels in the cortical collecting duct.

Sublethal effects of three pesticides on larval survivorship, growth, and macromolecule production in the aquatic midge, *Chironomus tentans* (diptera: chironomidae).

Developmental and hormonal regulation of direct shoot organogenesis and somatic embryogenesis in sugarcane (*Saccharum* spp. interspecific hybrids) leaf culture.

Epidermal growth factor synergistically enhances interleukin-8 production in human gingival fibroblasts stimulated with interleukin-1beta.

Evaluation of the sensitivity of three sublethal cytotoxicity assays in human HepG2 cell line using water contaminants.

Toxicology and carcinogenesis studies of a mixture of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) (Cas No. 1746-01-6), 2,3,4,7,8-pentachlorodibenzofuran (PeCDF) (Cas No. 57117-31-4), and 3,3',4,4',5-pentachlorobiphenyl (PCB 126) (Cas No. 57465-28-8) in female Harlan Sprague-Dawley rats (gavage studies).

Toxicology and carcinogenesis studies of 2,3,4,7,8-pentachlorodibenzofuran (PeCDF) (Cas No. 57117-31-4) in female Harlan Sprague-Dawley rats (gavage studies).

Gene expression alterations in immune system pathways following exposure to immunosuppressive chemicals.

Results of a long-term carcinogenicity bioassay on Sprague-Dawley rats exposed to sodium arsenite administered in drinking water.

Effects of pesticides on soil invertebrates in model ecosystem and field studies: a review and comparison with laboratory toxicity data.

Replacement surgery with unnatural amino acids in the lock-and-key joint of glutathione transferase subunits.

Biochemical activity of reactive oxygen species scavengers do not predict retinal ganglion cell survival.

Enzymatic mechanisms of ethanol oxidation in the brain.

Effect of protective filters on fire fighter respiratory health during simulated bushfire smoke exposure.

Cigarette smoke toxicants alter growth and survival of cultured mammalian cells.

Regulation of the CYP1A1 gene by 2,3,7,8-tetrachlorodibenzo-p-dioxin but not by beta-naphthoflavone or 3-methylcholanthrene is altered in hepatitis C virus replicon-expressing cells.

Effects of individual and combined exposure to sodium arsenite and sodium fluoride on tissue oxidative stress, arsenic and fluoride levels in male mice.

Toxicology and carcinogenesis studies of a binary mixture of 3,3',4,4',5-pentachlorobiphenyl (PCB 126) (Cas No. 57465-28-8) and 2,2',4,4',5,5'-hexachlorobiphenyl (PCB 153) (CAS No. 35065-27-1) in female Harlan Sprague-Dawley rats (gavage studies).

Psychological determinants of reactions to food risk messages.

Aryl hydrocarbon receptor activation produces heart-specific transcriptional and toxic responses in developing zebrafish.

Pollutant particles enhanced H₂O₂ production from NAD(P)H oxidase and mitochondria in human pulmonary artery endothelial cells.

Effects of hypoxia and limited diffusion in tumor cell microenvironment on bystander effect of P450 prodrug therapy.

Case report: Hydroquinone and/or glutaraldehyde induced acute myeloid leukaemia?

Antioxidants reduce cone cell death in a model of retinitis pigmentosa.

Improved methods for urinary atrazine mercapturate analysis--assessment of an enzyme-linked immunosorbent assay (ELISA) and a novel liquid chromatography-mass spectrometry (LC-MS) method utilizing online solid phase extraction (SPE).

Almond Replant Disease and Its Management with Alternative Pre-Plant Soil Fumigation Treatments and Rootstocks.

Interaction of *Fusarium solani* f. sp. *glycines* and *Heterodera glycines* in Sudden Death Syndrome of Soybean.

Impact of tubing material on the failure of product-specific bubble points of sterilizing-grade filters.

A fatal case of saponated cresol ingestion.

Gene expression profile by 2,3,7,8-tetrachlorodibenzo-p-dioxin in the liver of wild-type (AhR+/+) and aryl hydrocarbon receptor-deficient (AhR-/-) mice.

[Cytoprotective effects of heat shock protein-70 in bronchial epithelium against neutrophil elastase-induced cell injury].

Nonezymatic formation of succinate in mitochondria under oxidative stress.

Sustained aryl hydrocarbon receptor activity attenuates liver regeneration.

Enhanced xenobiotic-induced hepatotoxicity and Kupffer cell activation by restraint-induced stress.

Sodium arsenite impairs insulin secretion and transcription in pancreatic beta-cells.

Hypoxic vasoconstriction of partial muscular intra-acinar pulmonary arteries in murine precision cut lung slices.

Oral administration of lactoferrin increases hemoglobin and total serum iron in pregnant women.

Brief report: embryonic growth and hatching implications of developmental 670-nm phototherapy and dioxin co-exposure.

Tomato QM-like protein protects *Saccharomyces cerevisiae* cells against oxidative stress by regulating intracellular proline levels.

Impairment of testicular function in adult male Japanese quail (*Coturnix japonica*) after a single administration of 3-methyl-4-nitrophenol in diesel exhaust particles.

Exposure of mice to arsenic and/or benzo[a]pyrene does not increase the frequency of Aprt-deficient cells recovered from explanted skin of Aprt heterozygous mice.

Identification of new human pregnane X receptor ligands among pesticides using a stable reporter cell system.

Novel compound 2-methyl-2H-pyrazole-3-carboxylic acid (2-methyl-4-o-tolylazo-phenyl)-amide (CH-223191) prevents 2,3,7,8-TCDD-induced toxicity by antagonizing the aryl hydrocarbon receptor.

Geldanamycin, an inhibitor of Hsp90, potentiates cytochrome P450E1-mediated toxicity in HepG2 cells.

Regulation of human male germ cell death by modulators of ATP production.

Toxicity on crustaceans and endocrine disrupting activity on *Saccharomyces cerevisiae* of eight alkylphenols.

Membrane association, mechanism of action, and structure of Arabidopsis embryonic factor 1 (FAC1).

Chronic exposure to dioxin-like compounds and thyroid function among New York anglers.

Systemic and myelotoxic effects of single administration of 2,3,7,8-tetrabromodibenzo-p-dioxin in rats.

Dioxin cancer risk--example of hormesis?

Prohibitin is involved in mitochondrial biogenesis in plants.

The effect of ethanol, ethanol metabolizing enzyme inhibitors, and Vitamin E on regulating glutathione, glutathione S-transferase, and S-adenosylmethionine in mouse primary hepatocyte.

Suppressive effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin on vascular remodeling that takes place in the normal labyrinth zone of rat placenta during late gestation.

Composition, distribution, and characterization of suspected endocrine-disrupting pesticides in Beijing GuanTing Reservoir (GTR).

Dioxin effects on neonatal and infant thyroid function: routes of perinatal exposure, mechanisms of action and evidence from epidemiology studies.

Interference by 2,3,7,8-tetrachlorodibenzo-p-dioxin with cultured mouse submandibular gland branching morphogenesis involves reduced epidermal growth factor receptor signaling.

Historical approaches to post-combat disorders.

Effect of chlorpromazine on bone sialoprotein (BSP) gene transcription.

Analytical methods for trace levels of reactive carbonyl compounds formed in lipid peroxidation systems.

Regeneration of the liver in mice treated with a mixture of hepatotoxins in delayed periods after bone marrow transplantation.

Assessment by c-Fos immunostaining of changes in brain neural activity induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) and leptin in rats.

Chitosan nanoparticles as a potential drug delivery system for the ocular surface: toxicity, uptake mechanism and in vivo tolerance.

Maize response to acute arsenic toxicity as revealed by proteome analysis of plant shoots.

Inhibition of follicular development, vitellogenesis, and serum 17beta-estradiol concentrations in zebrafish following chronic, sublethal dietary exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Sodium azide dilates coronary arterioles via activation of inward rectifier K⁺ channels and Na⁺-K⁺-ATPase.

Desensitization of platelet-derived growth factor receptor-beta by oxidized lipids in vascular cells and atherosclerotic lesions: prevention by aldehyde scavengers.

Acute poisoning with pesticides in the state of Mato Grosso do Sul, Brazil.

Human response to dioxin: aryl hydrocarbon receptor (AhR) molecular structure, function, and dose-response data for enzyme induction indicate an impaired human AhR.

Biosynthetic requirements for the repair of sublethal membrane damage in Escherichia coli cells after pulsed electric fields.

UVA1 radiation (340-400 nm) interferes with the perforin-granule system of CD8hi+ cytotoxic T lymphocytes in vitro.

Productivity of tree swallows (*Tachycineta bicolor*) exposed to PCBs at the Kalamazoo River superfund site.

The effects of ellagic acid and vitamin E succinate on antioxidant enzymes activities and glutathione levels in different brain regions of rats after subchronic exposure to TCDD.

Acute depletion of reduced glutathione causes extensive carbonylation of rat brain proteins.

Changes in intracellular pH play a secondary role in hydrogen sulfide-induced nasal cytotoxicity.

Epo protects SOD2-deficient mouse astrocytes from damage by oxidative stress.

Acute effects of 3,4-dichloroaniline on biomarkers and spleen histology of the common goby *Pomatoschistus microps*.

Effects of chronic exposure to sodium arsenite on hypothalamo-pituitary-testicular activities in adult rats: possible an estrogenic mode of action.

[Resorption and tolerance of the high doses of ferrous sulfate and ferrous gluconate in the patients on peritoneal dialysis].

Functional changes in bladder tissue from type III collagen-deficient mice.

Phospholipase A2, reactive oxygen species, and lipid peroxidation in cerebral ischemia.

2-Deoxyglucose and NMDA inhibit protein synthesis in neurons and regulate phosphorylation of elongation factor-2 by distinct mechanisms.

Combination of in vitro bioassays encompassing different mechanisms to determine the endocrine-disrupting effects of river water.

Recent female mouse models displaying advanced reproductive aging.

Dynamic gene expression changes precede dioxin-induced liver pathogenesis in medaka fish.

Regulation of bone sialoprotein (BSP) gene transcription by lipopolysaccharide.

Loss of mitochondrial membrane potential is associated with increase in mitochondrial volume: physiological role in neurones.

Antiproliferative and antiangiogenic effects of 3-methylcholanthrene, an aryl-hydrocarbon receptor agonist, in human umbilical vascular endothelial cells.

Scanning cysteine mutagenesis analysis of Abeta-(1-40) amyloid fibrils.

Environmental toxicants and effects on female reproductive function.

670 nanometer light treatment attenuates dioxin toxicity in the developing chick embryo.

Basic fibroblast growth factor promotes melanocyte migration via increased expression of p125(FAK) on melanocytes.

Co-administration of zinc and n-acetylcysteine prevents arsenic-induced tissue oxidative stress in male rats.

The good, the bad, and the ugly: weighing the risks and benefits of seafood consumption.

Manganese enhances peroxynitrite and leukotriene E4 formation in bovine aortic endothelial cells exposed to arsenic.

[Forecasting parameters of acute chemical toxicity according to in vitro conformation changes of proteins].

Biliary excretion of sulfated bile acids and organic anions in zone 1- and zone 3-injured rats.

Arabidopsis and tobacco plants ectopically expressing the soybean antiquitin-like ALDH7 gene display enhanced tolerance to drought, salinity, and oxidative stress.

Involvement of soluble sugars in reactive oxygen species balance and responses to oxidative stress in plants.

Dinitrophenol-induced mitochondrial uncoupling in vivo triggers respiratory adaptation in HepG2 cells.

Enterocyte cytoskeleton changes are crucial for enhanced translocation of nonpathogenic Escherichia coli across metabolically stressed gut epithelia.

CYP2A5-mediated activation and early ultrastructural changes in the olfactory mucosa: studies on 2,6-dichlorophenyl methylsulfone.

Induction of beta3-adrenergic receptor functional expression following chronic stimulation with noradrenaline in neonatal rat cardiomyocytes.

Effects of acute and chronic exposure to the aryl hydrocarbon receptor agonist 2,3,7,8-tetrachlorodibenzo-p-dioxin on the transition to reproductive senescence in female Sprague-Dawley rats.

Toxicity of chlorophenols to *Pseudokirchneriella subcapitata* under air-tight test environment.

New evidences for old biomarkers: effects of several xenobiotics on EROD and AChE activities in Zebra mussel (*Dreissena polymorpha*).

Formation of toxic chemicals including dioxin-related compounds by combustion from a small home waste incinerator.

Transduced human copper chaperone for Cu,Zn-SOD (PEP-1-CCS) protects against neuronal cell death.

[Carbimide overdose: description of a case and review of the literature].

Epidemiology of intentional self-poisoning in rural Sri Lanka.

Rice (*Oryza sativa*) response to drift rates of glyphosate.

Chemistry and phytotoxicity of thaxtomin A alkyl ethers.

Heat shock proteins protect both MPP(+) and paraquat neurotoxicity.

Glyphosate inhibits rust diseases in glyphosate-resistant wheat and soybean.

The bipyridyl herbicide paraquat produces oxidative stress-mediated toxicity in human neuroblastoma SH-SY5Y cells: relevance to the dopaminergic pathogenesis.

Effects of prenatal paraquat and mancozeb exposure on amino acid synaptic transmission in developing mouse cerebellar cortex.

5-(2,6-difluorobenzyl)oxymethyl-5-methyl-3-(3-methylthiophen-2-yl)-1,2-isoxazoline as a useful rice herbicide.

[Paraquat intoxication and hemocarboperfusion].

Applying weight gain in *Pomacea lineata* (SPIX 1824) (Mollusca: Prosobranchia) as a measure of herbicide toxicity.

The need for translational research on antidotes for pesticide poisoning.

Differences in lysine adduction by acrolein and methyl vinyl ketone: implications for cytotoxicity in cultured hepatocytes.

Subacute pulmonary manifestation in a survivor of severe paraquat intoxication.

Triazine herbicides and epithelial ovarian cancer risk in central California.

Myeloperoxidase-generated oxidants modulate left ventricular remodeling but not infarct size after myocardial infarction.

Antioxidant and hepatoprotective effects of *Eucalyptus maculata*.

Systemic exposure to paraquat and maneb models early Parkinson's disease in young adult rats.

Paraquat neurotoxicity is distinct from that of MPTP and rotenone.

Atrazine effects on meiobenthic assemblages of a modular estuarine mesocosm.

Influence of glyphosate and its formulation (Roundup) on the toxicity and bioavailability of metals to *Ceriodaphnia dubia*.

[Toxicity effects of pentachlorophenol on *Brachydanio rerio*].

Functional and structural impact of linuron on a freshwater community of primary producers: the use of immobilized algae.

Paraquat-induced Fanconi syndrome.

Effects of different soil types on the Collembolans *Folsomia candida* and *Hypogastrura assimilis* using the herbicide Phenmedipham.

Evaluation of epidemiologic and animal data associating pesticides with Parkinson's disease.

Neuroprotective effects of *Polygonum multiflorum* on nigrostriatal dopaminergic degeneration induced by paraquat and maneb in mice.

Missing Link?: Alachlor and Semen Quality.

The *Helicobacter pylori* MutS protein confers protection from oxidative DNA damage.

The use of flow cytometric methods in acute and long-term in vitro testing.

Environmental levels of atrazine and its degradation products impair survival skills and growth of red drum larvae.

[Effects of different doses of levodopa on paraquat-induced neurotoxicity: an experiment with mice].

Roles of *Drosophila* DJ-1 in survival of dopaminergic neurons and oxidative stress.

Drosophila DJ-1 mutants are selectively sensitive to environmental toxins associated with Parkinson's disease.

[Cytotoxicity and genotoxicity of human cells exposed in vitro to glyphosate].

Mechanism of acrolein-induced vascular toxicity.

Sorption of hydrophobic organic chemicals to bacteria.

A slowly developing dysfunction of dopaminergic nigrostriatal neurons induced by long-term paraquat administration in rats: an animal model of preclinical stages of Parkinson's disease?

Clinical implications of the ethane in exhaled breath in patients with acute paraquat intoxication.

Effect of metals on herbicides-alpha-synuclein association: a possible factor in neurodegenerative disease studied by capillary electrophoresis.

Developmental pesticide models of the Parkinson disease phenotype.

Intentional self-poisoning with the chlorophenoxy herbicide 4-chloro-2-methylphenoxyacetic acid (MCPA).

Respiratory health effects due to long-term low-level paraquat exposure.

High blood pressure is one of the symptoms of paraquat-induced toxicity in rats.

The polysaccharide antibody response after *Streptococcus pneumoniae* vaccination is differentially enhanced or suppressed by 3,4-dichloropropionanilide and 2,4-dichlorophenoxyacetic acid.

Effects of a low dose of bentazon on spermatogenesis of mice exposed during foetal, postnatal and adult life.

The parkinsonism producing neurotoxin MPP⁺ affects microtubule dynamics by acting as a destabilising factor.

Paraquat induces selective dopaminergic nigrostriatal degeneration in aging C57BL/6 mice.

Acute toxicity of the pesticide dichlorvos and the herbicide butachlor to tadpoles of four anuran species.

Insect repellents, phenoxyherbicide exposure, and non-Hodgkin's lymphoma.

Joint toxicity of triazine herbicides and organophosphate insecticides to the midge *Chironomus tentans*.

Effects of biotechnology on biodiversity: herbicide-tolerant and insect-resistant GM crops.

Melatonin protects against MPTP/MPP⁺ -induced mitochondrial DNA oxidative damage in vivo and in vitro.

Preventive mechanism of cellular glutathione in monomethylarsonic acid-induced cytolethality.

Tellurite effects on *Rhodobacter capsulatus* cell viability and superoxide dismutase activity under oxidative stress conditions.

Granulocyte colony-stimulating factor is not protective against selective dopaminergic cell death in vitro.

Alachlor and carbaryl suppress lipopolysaccharide-induced iNOS expression by differentially inhibiting NF- κ B activation.

Acute arsenic poisoning in two siblings.

Cyanamide-induced aplastic anemia.

Cell type-specific gene expression of midbrain dopaminergic neurons reveals molecules involved in their vulnerability and protection.

Risk factors for acute pesticide poisoning in Sri Lanka.

Sustained exposure to the widely used herbicide atrazine: altered function and loss of neurons in brain monoamine systems.

Cytotoxic effects in mammalian Vero cells exposed to pentachlorophenol.

Postservice mortality of Air Force veterans occupationally exposed to herbicides during the Vietnam War: 20-year follow-up results.

The role of microglia in paraquat-induced dopaminergic neurotoxicity.

Toxicity of redox cycling pesticides in primary mesencephalic cultures.

[Correlation of plasma endothelin and multiple organ dysfunction syndrome caused by acute paraquat poisoning].

Role of oxidative stress in paraquat-induced dopaminergic cell degeneration.

New 2-phenyl-4,5,6,7-tetrahydro-2H-indazole derivatives as paddy field herbicides.

Update: hydrogen cyanamide-related illnesses--Italy, 2002-2004.

Gill modifications in the freshwater fish *Cyprinus carpio* after subchronic exposure to simazine.

Toxicity of organic compounds to marine invertebrate embryos and larvae: a comparison between the sea urchin embryogenesis bioassay and alternative test species.

[Effects of pentachlorophenol on rat sertoli cells].

Hospital-based survey of pesticide poisoning in Japan, 1998--2002.

Rapid analysis method for paraquat and diquat in the serum using ion-pair high-performance liquid chromatography.

Oral exposure to atrazine modulates cell-mediated immune function and decreases host resistance to the B16F10 tumor model in female B6C3F1 mice.

A risk assessment of atrazine use in California: human health and ecological aspects.

Generation and properties of ascorbic acid-overproducing transgenic tobacco cells expressing sense RNA for l-galactono-1,4-lactone dehydrogenase.

Imaging plant cell death: GFP-Nit1 aggregation marks an early step of wound and herbicide induced cell death.

Allergic contact dermatitis from cyanamide.

Genotoxic effects of pentachlorophenol, lindane, transfluthrin, cyfluthrin, and natural pyrethrum on human mucosal cells of the inferior and middle nasal conchae.

Inhaled nitric oxide improves the survival of the paraquat-injured rats.

The toxicity and bioavailability of atrazine and molinate to *Chironomus tepperi* larvae in laboratory and river water in the presence and absence of sediment.

Paraquat poisoning.

Expression of vasoactive mediators during mechanical ventilation in nitrofen-induced diaphragmatic hernia in rats.

Different cytoprotective effect of antioxidants and change in the iron regulatory system in rodent cells exposed to paraquat or formaldehyde.

Promutagen activation of triazine herbicides metribuzin and ametryn through *Vicia faba* metabolism inducing sister chromatid exchanges in human lymphocytes in vitro and in *V. faba* root tip meristems.

Drug-induced hypersensitivity syndrome due to cyanamide associated with multiple reactivation of human herpesviruses.

Pax3 mRNA is decreased in the hearts of rats with experimental diaphragmatic hernia.

Acute exposure to molinate alters neuroendocrine control of ovulation in the rat.

Altered expression of angiotensin II receptor subtypes and transforming growth factor-beta in the heart of nitrofen-induced diaphragmatic hernia in rats.

Assessing contaminant sensitivity of endangered and threatened aquatic species: part II. Chronic toxicity of copper and pentachlorophenol to two endangered species and two surrogate species.

In vivo evaluation of three biomarkers in the mosquitofish (*Gambusia yucatana*) exposed to pesticides.

Nitrofen induces a redox-dependent apoptosis associated with increased p38 activity in P19 teratocarcinoma cells.

Toxicity and bioavailability of atrazine and molinate to the freshwater shrimp (*Paratya australiensis*) under laboratory and simulated field conditions.

Illnesses related to shank application of metam-sodium, Arvin, California, July 2002.

Poisoning due to urea herbicides.

The ecotoxicological effects of Photosystem II herbicides on corals.

Application of an artificial sea salt solution to determine acute toxicity of herbicides to *Proisotoma minuta* (Collembola).

Mother and fetus both survive from severe paraquat intoxication.

Rapid chromatographic methods for the identification and determination of chlorophenoxy herbicides.

Effects of the herbicide diuron on the early life history stages of coral.

Arsenic-induced micronuclei formation in mammalian cells and its counteraction by tea.

Differential effects of vitamin A on fetal lung growth and diaphragmatic formation in nitrofen-induced rat model.

Mortality in New Zealand workers exposed to phenoxy herbicides and dioxins.

Neuropathological studies on cycloate-induced neuronal cell death in the rat brain.

Increased toxicity to *Ceriodaphnia dubia* in mixtures of atrazine and diazinon at environmentally realistic concentrations.

Similar patterns of mitochondrial vulnerability and rescue induced by genetic modification of alpha-synuclein, parkin, and DJ-1 in *Caenorhabditis elegans*.

Antimicrobial activities of Eugenol and Cinnamaldehyde against the human gastric pathogen *Helicobacter pylori*.

Stress-induced alterations in parkin solubility promote parkin aggregation and compromise parkin's protective function.

Transforming growth factor-beta1 upregulation is independent of angiotensin in paraquat-induced lung fibrosis.

Polyamine oxidase and acrolein as novel biochemical markers for diagnosis of cerebral stroke.

Acrolein-induced cell death in PC12 cells: role of mitochondria-mediated oxidative stress.

Long-lived alphaMUPA transgenic mice show reduced SOD2 expression, enhanced apoptosis and reduced susceptibility to the carcinogen dimethylhydrazine.

Regulation of constitutive neutrophil apoptosis by the alpha,beta-unsaturated aldehydes acrolein and 4-hydroxynonenal.

Protein adduct species in muscle and liver of rats following acute ethanol administration.

Acrolein impairs ATP binding cassette transporter A1-dependent cholesterol export from cells through site-specific modification of apolipoprotein A-I.

An alternative Ca²⁺-dependent mechanism of neuroprotection by the metalloporphyrin class of superoxide dismutase mimetics.

Down-regulation of the glial glutamate transporter GLT-1 in rat hippocampus and striatum and its modulation by a group III metabotropic glutamate receptor antagonist following transient global forebrain ischemia.

Nonosmotic release of vasopressin and renal aquaporins in impaired urinary dilution in hypothyroidism.

Abeta-polyacrolein aggregates: novel mechanism of plastic formation in senile plaques.

Arsenic exposure, urinary arsenic speciation, and peripheral vascular disease in blackfoot disease-hyperendemic villages in Taiwan.

Superoxide dismutase/catalase mimetics are neuroprotective against selective paraquat-mediated dopaminergic neuron death in the substantia nigra: implications for Parkinson disease.

Cinnamaldehyde-induced apoptosis in human PLC/PRF/5 cells through activation of the proapoptotic Bcl-2 family proteins and MAPK pathway.

Toxin-induced models of Parkinson's disease.

Acyclic cyanamide-based inhibitors of cathepsin K.

[WITHDRAWN] Overexpression of superoxide dismutase or glutathione peroxidase protects against the paraquat + maneb-induced Parkinson disease phenotype.

Acrolein modifies apolipoprotein A-I in the human artery wall.

Oxidative damage is a potential cause of cone cell death in retinitis pigmentosa.

Analysis of derivatized biogenic aldehydes by LC tandem mass spectrometry.

Long CGG-repeat tracts are toxic to human cells: implications for carriers of Fragile X premutation alleles.

The aldehyde acrolein induces apoptosis via activation of the mitochondrial pathway.

Accumulation of acrolein-protein adducts after traumatic spinal cord injury.

Paraquat poisoning.

Urinary trivalent methylated arsenic species in a population chronically exposed to inorganic arsenic.

Plasma retinoid profile in bullfrogs, *Rana catesbeiana*, in relation to agricultural intensity of sub-watersheds in the Yamaska River drainage basin, Québec, Canada.

Glutathione and ascorbic acid enhance recovery of Guinea pig spinal cord white matter following ischemia and acrolein exposure.

Very-long-chain fatty acids activate lysosomal hydrolases in neonatal human skin tissue.

Re: "Cancer incidence among pesticide applicators exposed to alachlor in the agricultural health study".

Modeling and predicting stress-induced immunosuppression in mice using blood parameters.

Salicylate activity. 1. Protection of plants from paraquat injury.

Folate, homocysteine, and arsenic metabolism in arsenic-exposed individuals in Bangladesh.

Arsenic speciation in human hair: a new perspective for epidemiological assessment in chronic arsenicism.

The diphenylether herbicide lactofen induces cell death and expression of defense-related genes in soybean.

Hemoglobin autoxidation and regulation of endogenous H₂O₂ levels in erythrocytes.

Proteomic analysis of grapevine (*Vitis vinifera* L.) tissues subjected to herbicide stress.

Model study on the effect of 15 phenolic olive mill wastewater constituents on seed germination and *Vibrio fischeri* metabolism.

Bioactive metabolites from the fungus *Nectria galligena*, the main apple canker agent in Chile.

Autotrophic and mixotrophic hydrogen photoproduction in sulfur-deprived *Chlamydomonas* cells.

Humic acid toxicity in biologically treated soil contaminated with polycyclic aromatic hydrocarbons and pentachlorophenol.

Protective role of hydrogen peroxide in oxygen-deprived dopaminergic neurones of the rat substantia nigra.

Development of a method for quantification of acrolein-deoxyguanosine adducts in DNA using isotope dilution-capillary LC/MS/MS and its application to human brain tissue.

Wild-type alpha-synuclein interacts with pro-apoptotic proteins PKCdelta and BAD to protect dopaminergic neuronal cells against MPP+-induced apoptotic cell death.

Protective effect of melatonin on paraquat-induced cytotoxicity in isolated rat hepatocytes.

Cysteine modification by lipid peroxidation products inhibits protein disulfide isomerase.

Complementary interactions between oxidative stress and auxins control plant growth responses at plant, organ, and cellular level.

Mitochondrial behaviour in the early stages of ROS stress leading to cell death in *Arabidopsis thaliana*.

Differential impact of environmental stresses on the pea mitochondrial proteome.

Antisense reduction of thylakoidal ascorbate peroxidase in *Arabidopsis* enhances paraquat-induced photooxidative stress and nitric oxide-induced cell death.

Environmental monitoring and ecological risk assessment for pesticide contamination and effects in Lake Pamvotis, northwestern Greece.

Novel genomic targets in oxidant-induced vascular injury.

A *Caenorhabditis elegans* mutant lacking functional nicotinamide nucleotide transhydrogenase displays increased sensitivity to oxidative stress.

Translation of in vitro inhibition by marine natural products of the C4 acid cycle enzyme pyruvate P(i) dikinase to in vivo C4 plant tissue death.

Acrolein induces Hsp72 via both PKCdelta/JNK and calcium signaling pathways in human umbilical vein endothelial cells.

Tissue distribution and urinary excretion of inorganic arsenic and its methylated metabolites in mice following acute oral administration of arsenate.

Optical microsensors for pesticides identification based on porous silicon technology.

Evaluation of transgenic cotton varieties and a glyphosate application on seedling disease incidence.

Hydrogen peroxide-induced cell death in *Arabidopsis*: transcriptional and mutant analysis reveals a role of an oxoglutarate-dependent dioxygenase gene in the cell death process.

Induction of thioredoxin reductase as an adaptive response to acrolein in human umbilical vein endothelial cells.

[Withdrawal of exogenous auxin induces programmed cell death of cotton embryogenic suspension cultures].

Acrolein induces oxidative stress in brain mitochondria.

Tissue distribution of arsenic species in rabbits after single and multiple parenteral administration of arsenic trioxide: tissue accumulation and the reversibility after washout are tissue-selective.

A novel test for identifying genes involved in aldehyde detoxification in the yeast. Increased sensitivity of superoxide-deficient yeast to aldehydes and their metabolic precursors.

Oxidative metabolites are involved in polyamine-induced microglial cell death.

[Establishment of embryogenic cell suspension culture and plant regeneration of edible banana *Musa acuminata* cv. Mas (AA)].

Eucalyptus ESTs related to genes for oxidative stress.

Evolution of endogenous hormone concentration in embryogenic cultures of carrot during early expression of somatic embryogenesis.

A study of volatile organic compounds evolved from the decaying human body.

Molecular events associated with arsenic-induced malignant transformation of human prostatic epithelial cells: aberrant genomic DNA methylation and K-ras oncogene activation.

Concentrations of environmental chemicals associated with neurodevelopmental effects in U.S. population.

Fibroblast cell lines from young adult mice of long-lived mutant strains are resistant to multiple forms of stress.

Uncoupling of oxidative phosphorylation prevents the urinary alcohol level cycling caused by feeding ethanol continuously at a constant rate.

2,3,7,8-Tetrachlorodibenzo-p-dioxin-induced change in intestinal function and pathology: evidence for the involvement of arylhydrocarbon receptor-mediated alteration of glucose transportation.

Inhibitory effects of vitamin A on TCDD-induced cytochrome P-450 1A1 enzyme activity and expression.

Arsenite delays progression through each cell cycle phase and induces apoptosis following G2/M arrest in U937 myeloid leukemia cells.

Antioxidant properties of cystic fibrosis sputum.

Heart malformation is an early response to TCDD in embryonic zebrafish.

Met5-enkephalin-induced cardioprotection occurs via transactivation of EGFR and activation of PI3K.

Changes in DNA binding pattern of transcription factor YY1 in neuronal degeneration.

Can maternal vitamin e supplementation prevent lung hypoplasia in the nitrofen-induced rat model of congenital diaphragmatic hernia?

Enhanced response to caffeine and 4-chloro-m-cresol in malignant hyperthermia-susceptible muscle is related in part to chronically elevated resting $[Ca^{2+}]_i$.

Transduced Tat-SOD fusion protein protects against ischemic brain injury.

Cell death induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin (2,3,7,8-TCDD) in AtT-20 pituitary cells.

Tyrosine kinase inhibitors attenuate Japanese encephalitis virus-induced neurotoxicity.

Assessment of human contamination of estrogenic endocrine-disrupting chemicals and their risk for human reproduction.

Association of micropenis with Pro185Ala polymorphism of the gene for aryl hydrocarbon receptor repressor involved in dioxin signaling.

Cloning and expression of type III collagen in normal and injured tendons of horses.

The effect of iron supplementation on the level of haemoglobin after lower limb arthroplasty.

Endemic nephropathy: the case for chronic poisoning by aristolochia.

Effects of arsenic and UVB on normal human cultured keratinocytes: impact on apoptosis and implication on photocarcinogenesis.

Role of sulfated glycans in adherence of the microsporidian *Encephalitozoon intestinalis* to host cells in vitro.

Effects of arsenite on cell cycle progression in a human bladder cancer cell line.

Deregulation of cell proliferation by polycyclic aromatic hydrocarbons in human breast carcinoma MCF-7 cells reflects both genotoxic and nongenotoxic events.

Aryl hydrocarbon receptor expression and activity in cerebellar granule neuroblasts: implications for development and dioxin neurotoxicity.

Aminolevulinic acid: from its unique biological function to its star role in photodynamic therapy.

Tetraethylammonium exacerbates ischemic neuronal injury in rat cerebrocortical slice cultures.

Could exposure to methyl bromide cause motor neurone disease?

Pesticide use and breast cancer risk among farmers' wives in the agricultural health study.

[Ferro-folgamma--a good alternative in the treatment of iron deficiency anemia and depleted iron stores in pregnant women].

Fryns syndrome without diaphragmatic hernia. Report on a new case and review of the literature.

In vitro evaluation of the susceptibility of endodontic pathogens to calcium hydroxide combined with different vehicles.

Effect of oral chronic intoxication with sodium arsenite on murine giardiasis.

Portal hypertension: the role of shunting procedures.

Agricultural exposures and non-Hodgkin's lymphoma.

Reduction of alachlor-induced olfactory mucosal neoplasms by the matrix metalloproteinase inhibitor Ro 28-2653.

Use of black tea in modulating clastogenic effects of arsenic in mice in vivo.

Chemical-induced atrial thrombosis in NTP rodent studies.

Characterization of spontaneous and chemically induced cardiac lesions in rodent model systems: the national toxicology program experience.

Environmental cardiovascular disease.

Auditory neurotoxicity and hepatotoxicity after MSMA (monosodium methanarsenate) high dose oral intake.

Pediatric fatality following ingestion of dinitrophenol: postmortem identification of a "dietary supplement".

[Health risk related to municipal waste incineration].

Effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) and leptin on hypothalamic mRNA expression of factors participating in food intake regulation in a TCDD-sensitive and a TCDD-resistant rat strain.

Oxidative stress in mitochondria: decision to survival and death of neurons in neurodegenerative disorders.

Comparison of farmers in the agricultural health study to the 1992 and the 1997 censuses of agriculture.

Various bilateral olfactory deficits in male patients with schizophrenia.

Effect of nitric oxide on the development of nitrofen-induced fetal hypoplastic lung explants.

The epidemiology of pesticide exposure and cancer: A review.

Amelioration of sodium arsenite-induced clastogenicity by tea extracts in Chinese hamster v79 cells.

Olfactory epithelial metaplasia and hyperplasia in female Harlan Sprague-Dawley rats following chronic treatment with polychlorinated biphenyls.

Classification of proliferative hepatocellular lesions in harlan sprague-dawley rats chronically exposed to dioxin-like compounds.

[Development of analysis of drugs and toxic substances that can play an immediate role in emergency medical service: what is to be analyzed?].

[Effects of Tianzhi Keli on extracellular acetylcholine and catecholamine levels in striatum of rats with neuromitochondrial impairment].

[Orthorexia nervosa. A new eating behavior disorder?].

Quantitative analysis of cereulide, an emetic toxin of *Bacillus cereus*, by using rat liver mitochondria.

DNP 2,4-dinitrophenol: a deadly way to lose weight.

Erythrocyte susceptibility to oxidative stress in chronic renal failure patients under different substitutive treatments.

Pesticides and risk of Parkinson disease: a population-based case-control study.

Reduced coronary flow reserve in patients with congestive heart failure assessed by transthoracic Doppler echocardiography.

Protective effects of insulin during ischemia-reperfusion injury in hamster cheek pouch microcirculation.

Gingival carcinogenicity in female Harlan Sprague-Dawley rats following two-year oral treatment with 2,3,7,8-tetrachlorodibenzo-p-dioxin and dioxin-like compounds.

Positive end-expiratory pressure prevents lung mechanical stress caused by recruitment/derecruitment.

A two-generation reproductive toxicity study of 2,4-dichlorophenol in rats.

The epidemiology of non-Hodgkin lymphoma.

Toxicology and carcinogenesis studies of sodium chlorate (Cas No. 7775-09-9) in F344/N rats and B6C3F1 mice (drinking water studies).

Comparison of the efficacy of wheat-based snacks fortified with ferrous sulfate, electrolytic iron, or hydrogen-reduced elemental iron: randomized, double-blind, controlled trial in Thai women.

Aryl hydrocarbon receptor-independent toxicity of weathered crude oil during fish development.

[Risk factors for pediatric malignant bone tumors].

A randomized, controlled trial comparing IV iron sucrose to oral iron in anemic patients with nondialysis-dependent CKD.

Serum soluble transferrin receptor is a valuable diagnostic tool in iron deficiency of breath-holding spells.

In utero and lactational exposure to TCDD; steroidogenic outcomes differ in male and female rat pups.

Review of the toxicology of carbonyl sulfide, a new grain fumigant.

Vitamin E and organoselenium prevent the cocarcinogenic activity of arsenite with solar UVR in mouse skin.

Pericapillary haem-rich deposits: evidence for microhaemorrhages in aging human cerebral cortex.

Drosophila DJ-1 mutants show oxidative stress-sensitive locomotive dysfunction.

Hypothyroidism attenuates protein tyrosine nitration, oxidative stress and renal damage induced by ischemia and reperfusion: effect unrelated to antioxidant enzymes activities.

Validation of Haber's Rule (dose x time = constant) in rats and mice for monochloroacetic acid and 2,3,7,8-tetrachlorodibenzo-p-dioxin under conditions of kinetic steady state.

Sharks do get cancer: few surprises in cartilage research.

[Fractional utilization of reduced iron powder in Chinese child bearing age women with dual stable isotopes].

Tissue Doppler-derived indices predict exercise capacity in patients with apical hypertrophic cardiomyopathy.

Nitrovasodilator responses in pulmonary arterioles from rats with nitrofen-induced congenital diaphragmatic hernia.

Effectiveness of iron supplementation in a young child with attention-deficit/hyperactivity disorder.

Darbepoetin alfa treatment for post-renal transplantation anemia during pregnancy.

Agricultural pesticide use and risk of glioma in Nebraska, United States.

Effects of ferrous sulphate and non-ionic iron-polymaltose complex on markers of oxidative tissue damage in patients with inflammatory bowel disease.

Occupational exposure to pesticides and risk of non-Hodgkin's lymphoma.

Effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin on murine heart development: alteration in fetal and postnatal cardiac growth, and postnatal cardiac chronotropy.

[Application of a 3D reconstruction model for the analysis of nitrofen induced intrathoracic malformations].

[Study on clinical treatment of acute bromoxynil poisoning].

Mild postnatal anemia: is it a problem?

Effect of pollen-mediated oxidative stress on immediate hypersensitivity reactions and late-phase inflammation in allergic conjunctivitis.

Neuritogenesis and neuronal differentiation promoted by 2,4-dinitrophenol, a novel anti-amyloidogenic compound.

Nonsteroidal anti-inflammatory drugs differentially affect the heat shock response in cultured spinal cord cells.

Cutting edge: activation of the aryl hydrocarbon receptor by 2,3,7,8-tetrachlorodibenzo-p-dioxin generates a population of CD4⁺ CD25⁺ cells with characteristics of regulatory T cells.

Antioxidant and biotransformation enzymes in *Myriophyllum quitense* as biomarkers of heavy metal exposure and eutrophication in Suquia River basin (Córdoba, Argentina).

Letter to the editor: treatment of iron deficiency anemia.

Insulin neuroprotection against oxidative stress in cortical neurons--involvement of uric acid and glutathione antioxidant defenses.

A new paradigm in respiratory hygiene: increasing the cohesivity of airway secretions to improve cough interaction and reduce aerosol dispersion.

Ultrastructural findings in feline corneal sequestra.

Induction of the heat shock response in vivo inhibits NF-kappaB activity and protects murine liver from endotoxemia-induced injury.

Acute pesticide poisoning and pesticide registration in Central America.

Early environmental origins of neurodegenerative disease in later life.

Synthesis and reactions of some new substituted pyridine and pyrimidine derivatives as analgesic, anticonvulsant and antiparkinsonian agents.

Time profiles of peritoneal and renal clearances of different uremic solutes in incident peritoneal dialysis patients.

A histochemical and pathological study on the interrelationship between TCDD-induced AhR expression, AhR activation, and hepatotoxicity in mice.

The mitochondrial uncoupler 2,4-dinitrophenol attenuates tissue damage and improves mitochondrial homeostasis following transient focal cerebral ischemia.

Intravenous iron sucrose complex vs. oral ferrous sulfate for postpartum iron deficiency anemia.

Expression of sucrose synthase genes involved in enhanced elongation of pondweed (*Potamogeton distinctus*) turions under anoxia.

Lecozotan (SRA-333): a selective serotonin 1A receptor antagonist that enhances the stimulated release of glutamate and acetylcholine in the hippocampus and possesses cognitive-enhancing properties.

Genomic damage and circulating AGE levels in patients undergoing daily versus standard haemodialysis.

Pharmacological induction of CFTR function in patients with cystic fibrosis: mutation-specific therapy.

Cytochrome P450 1B1 is overexpressed and regulated by hypomethylation in prostate cancer.

Increased mortality associated with TCDD exposure in mice infected with influenza A virus is not due to severity of lung injury or alterations in Clara cell protein content.

Monitoring of hematological, inflammatory and oxidative reactions to acute oral iron exposure in human volunteers: preliminary screening for selection of potentially-responsive biomarkers.

Gene expression changes in human small airway epithelial cells exposed to Delta9-tetrahydrocannabinol.

Low level, long-term inorganic arsenite exposure causes generalized resistance to apoptosis in cultured human keratinocytes: potential role in skin co-carcinogenesis.

Biomarkers of exposure, effect, and susceptibility of arsenic-induced health hazards in Taiwan.

Immortalized mouse mammary fibroblasts lacking dioxin receptor have impaired tumorigenicity in a subcutaneous mouse xenograft model.

[Effect of salidroside on mitochondria injury induced by sodium azide].

Studying toxicants as single chemicals: does this strategy adequately identify neurotoxic risk?

Increased dioxin-like compounds in the serum of women with peritoneal endometriosis and deep endometriotic (adenomyotic) nodules.

Partial purification and characterization of *Ascaridia galli* diagnostic worm antigen.

Effects of prenatal vitamins A, E, and C on the hypoplastic hearts of fetal rats with diaphragmatic hernia.

Mapping and prediction of coal workers' pneumoconiosis with bioavailable iron content in the bituminous coals.

Congenital diaphragmatic hernia: a retinoid-signaling pathway disruption during lung development?

Evaluation of pseudo-affective responses to noxious colorectal distension in rats by manometric recordings.

Glycation of mitochondrial proteins from diabetic rat kidney is associated with excess superoxide formation.

Induction of p53 by urokinase in lung epithelial cells.

Acute illnesses associated with pesticide exposure at schools.

Determination of uric acid and p-aminohippuric acid in human saliva and urine using capillary electrophoresis with electrochemical detection: potential application in fast diagnosis of renal disease.

Loss of mitochondrial membrane potential and caspase activation enhance apoptosis in irradiated K562 cells treated with herbimycin A.

Induction of oxidative stress in the reproductive system of rats after subchronic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Effect of anti-*Helicobacter pylori* therapy on outcome of iron-deficiency anemia: a randomized, controlled study.

Role of mitochondria in the regulation of hypoxia-inducible factor-1 α in the rat carotid body glomus cells.

Reduced expression of progesterone receptor-B in the endometrium of women with endometriosis and in cocultures of endometrial cells exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Neurologic symptoms in licensed private pesticide applicators in the agricultural health study.

Synthesis and in vivo evaluation of [¹¹C]PJ34, a potential radiotracer for imaging the role of PARP-1 in necrosis.

Characterization of the monomethylarsenate reductase and dehydroascorbate reductase activities of Omega class glutathione transferase variants: implications for arsenic metabolism and the age-at-onset of Alzheimer's and Parkinson's diseases.

Tocopherols protect *Synechocystis* sp. strain PCC 6803 from lipid peroxidation.

Carbamylated low-density lipoprotein induces death of endothelial cells: a link to atherosclerosis in patients with kidney disease.

Direct effect of plasma permeability factors from patients with idiopathic FSGS on nephrin and podocin expression in human podocytes.

One agent, many diseases: exposure-response data and comparative risks of different outcomes following silica exposure.

Activation of the aryl hydrocarbon receptor increases pulmonary neutrophilia and diminishes host resistance to influenza A virus.

Congenital diaphragmatic hernia, tracheal occlusion, thyroid transcription factor-1, and fetal pulmonary epithelial maturation.

New paradigms in the treatment of restless legs syndrome.

NF-kappaB and not the MAPK signaling pathway regulates GADD45beta expression during acute inflammation.

Morbidity and mortality following inadvertent poisoning with decanted chemicals.

[Experimental behavioral tests using monkey and rat offspring born from mothers exposed perinatally to EDCs].

Sodium azide and 2-deoxy-D-glucose-induced cellular stress affects phosphorylation-dependent AbetaPP processing.

[Efficacy of complex Hongyibuxue oral solution and ferrous sulfate for iron deficiency anemia].

High susceptibility of human c-Ha-ras proto-oncogene transgenic rats to carcinogenesis: a cancer-prone animal model.

The heat shock protein 90 inhibitor, 17-allylamino-17-demethoxygeldanamycin, enhances osteoclast formation and potentiates bone metastasis of a human breast cancer cell line.

Maternal use of nutritional supplements during the first month of pregnancy and decreased risk of Down's syndrome: case-control study.

Retinal degeneration and other eye disorders in wives of farmer pesticide applicators enrolled in the agricultural health study.

Induction and activation of the aryl hydrocarbon receptor by IL-4 in B cells.

Acute methyl iodide exposure with delayed neuropsychiatric sequelae: report of a case.

Pseudolaminar necrosis in cyanide intoxication: a neuropathology case report.

Common viral infection affects pentabrominated diphenyl ether (PBDE) distribution and metabolic and hormonal activities in mice.

Temporal and dose-dependent hepatic gene expression patterns in mice provide new insights into TCDD-Mediated hepatotoxicity.

[Mortality for non-Hodgkin lymphoma and soft-tissue sarcoma in the surrounding area of an urban waste incinerator. Campi Bisenzio (Tuscany, Italy) 1981-2001].

[Skin symptoms in Yusho patients related to blood dioxin level].

Identification of three mutations in the Cu,Zn-superoxide dismutase (Cu,Zn-SOD) gene with familial amyotrophic lateral sclerosis: transduction of human Cu,Zn-SOD into PC12 cells by HIV-1 TAT protein basic domain.

In vitro assessment of modes of toxic action of pharmaceuticals in aquatic life.

Role of autoimmune gastritis, Helicobacter pylori and celiac disease in refractory or unexplained iron deficiency anemia.

Dioxin: a review of its environmental effects and its aryl hydrocarbon receptor biology.

Reactive oxygen and nitrogen species: weapons of neuronal destruction in models of Parkinson's disease.

Organic anion transporter (Slc22a) family members as mediators of toxicity.

In utero and lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) affects tooth development in rhesus monkeys.

Chronic toxicity and carcinogenicity of 1,2,3,4,6,7,8-heptachlorodibenzo-p-dioxin displays a distinct dose/time toxicity threshold ($c \times t = k$) and a life-prolonging subthreshold effect.

Methyl bromide intoxication causes reversible symmetric brainstem and cerebellar MRI lesions.

Effect of a chemical manufacturing plant on community cancer rates.

Antenatal vitamin A administration attenuates lung hypoplasia by interfering with early instead of late determinants of lung underdevelopment in congenital diaphragmatic hernia.

Kupffer cell ablation improves hepatic microcirculation after trauma and sepsis.

Use of hemoglobin raffimer for postoperative life-threatening anemia in a Jehovah's Witness.

Recovery from iron deficiency in rats by the intake of recombinant yeast producing human H-ferritin.

2,4-Dinitrophenol pharmacologically promotes retinal detachment in rabbits.

Regulation of extracellular signal-regulated protein kinase signaling in human osteosarcoma cells stimulated with nicotine.

Efficient radiosynthesis of carbon-11 labelled uncharged Thioflavin T derivatives using [11C]methyl triflate for beta-amyloid imaging in Alzheimer's Disease with PET.

The role of the NO/NMDA pathways in the development of morphine withdrawal induced by naloxone in vitro.

Peroxynitrite and drug-dependent toxicity.

Chronic toxicological evaluation of dietary NovaSil clay in Sprague-Dawley rats.

Good bug, bad bug: in the case of enteric inflammatory disease does the epithelium decide?

Gastric hamartomatous tumours in a transgenic mouse model expressing an activated dioxin/Ah receptor.

Insulinlike growth factor I gene expression is increased in the fetal lung after tracheal ligation.

Health status and plasma dioxin levels in chloracne cases 20 years after the Seveso, Italy accident.

Is oxidative stress the mechanism of blue sac disease in retene-exposed trout larvae?

Dioxin toxicity and chloracne in the Ukraine.

Acidic fibroblast growth factor (FGF-1) and FGF receptor 1 signaling in human Y79 retinoblastoma.

Developmental pesticide exposures and the Parkinson's disease phenotype.

Amalgam exposure and neurological function.

Structural and functional alterations in mitochondrial membrane in picrotoxin-induced epileptic rat brain.

Prospective protective role of melatonin against arsenic-induced metabolic toxicity in Wistar rats.

A case of erectile dysfunction associated with chronic methyl bromide intoxication.

Reaction orders for thermal mortality of third instars of Mexican fruit fly (Diptera: Tephritidae).

Mitochondrial function in Leydig cell steroidogenesis.

Dioxin-like activity and maternal thyroid hormone levels in second trimester maternal serum.

Protective effects of ellagic and chlorogenic acids against oxidative stress in PC12 cells.

How does human stem cell therapy influence gene expression after liver injury? Microarray evaluation on a rat model.

An assessment of the toxicological significance of anthropogenic contaminants in Canadian arctic wildlife.

Comparative Field Efficacy of Management Strategies Containing Brassica napus Seed Meal or Green Manure for the Control of Apple Replant Disease.

Neurobehavioural evaluation and kinetics of inhalation of constant or fluctuating toluene concentrations in human volunteers.

Sodium arsenite-induced inhibition of eukaryotic translation initiation factor 4E (eIF4E) results in cytotoxicity and cell death.

Intrinsic function of the aryl hydrocarbon (dioxin) receptor as a key factor in female reproduction.

Protection of mitochondrial integrity from oxidative stress by selenium-containing glutathione transferase.

Arsenite induces endothelial cytotoxicity by down-regulation of vascular endothelial nitric oxide synthase.

Thaxtomin A induces programmed cell death in *Arabidopsis thaliana* suspension-cultured cells.

Dose-dependent liver regeneration in chloroform, trichloroethylene and allyl alcohol ternary mixture hepatotoxicity in rats.

Changes in erythrocyte enzymes in humans long-term exposed to pesticides: influence of several markers of individual susceptibility.

First Report of *Sclerotinia minor* on *Sida spinosa* in North Carolina.

Chemicals as tumor-inducing agents.

Mode of action: reduction of testosterone availability--molinate-induced inhibition of spermatogenesis.

[Political poisoning with dioxins--a weapon of chemical "disgracefulness"].

[Investigation on an accident of death induced by bromoxynil poisoning].

[Impact of legislation on registration of acutely toxic pesticides in Brazil].

Distribution of PCDDs/PCDFs and Co-PCBs in human maternal blood, cord blood, placenta, milk, and adipose tissue: dioxins showing high toxic equivalency factor accumulate in the placenta.

The uncoupling agent 2,4-dinitrophenol improves mitochondrial homeostasis following striatal quinolinic acid injections.

Pharmacokinetics of glutathione and its metabolites in normal subjects.

Inhibition of Hsp90 function delays and impairs recovery from heat shock.

Inorganic arsenite potentiates vasoconstriction through calcium sensitization in vascular smooth muscle.

Comparison of the cytotoxicity of the MEIC reference chemicals measured in protein free and in complete culture medium.

Toxicological evaluation of glycerin as a cigarette ingredient.

Accumulation, tissue distribution, and maternal transfer of dietary 2,3,7,8,-tetrachlorodibenzo-p-dioxin: impacts on reproductive success of zebrafish.

Extent of iron pick-up in deferoxamine-coupled polyurethane materials for therapy of chronic wounds.

A cell array biosensor for environmental toxicity analysis.

Effects of AV3V lesion on pilocarpine-induced pressor response and salivary gland vasodilation.

Investigation of acute toxicity of (2,4-dichlorophenoxy)acetic acid (2,4-D) herbicide on larvae and adult Nile tilapia (*Oreochromis niloticus* L.).

Electron paramagnetic resonance investigation of in vivo free radical formation and oxidative stress induced by 2,4-dichlorophenol in the freshwater fish *Carassius auratus*.

Vitamins inhibit oxidant-induced apoptosis of corneal endothelial cells.

Toxicological implications of polymorphisms in receptors for xenobiotic chemicals: the case of the aryl hydrocarbon receptor.

Inter-individual susceptibility to environmental toxicants--a current assessment.

Issues in risk assessment for developmental effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin and related compounds.

Age-associated decline in mitochondrial respiration and electron transport in *Drosophila melanogaster*.

Effects of early prenatal exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on postnatal reproduction in the laying hen (*Gallus gallus*).

Physiological increases in uncoupling protein 3 augment fatty acid oxidation and decrease reactive oxygen species production without uncoupling respiration in muscle cells.

Human CD34-positive hematopoietic stem cells constitute targets for carcinogenic polycyclic aromatic hydrocarbons.

Comparison of murine cirrhosis models induced by hepatotoxin administration and common bile duct ligation.

Soluble branched (1,4)-beta-D-glucans from *Acetobacter* species enhance antitumor activities against MHC class I-negative and -positive malignant melanoma through augmented NK activity and cytotoxic T-cell response.

The toxic effects of pentachlorophenol on rat Sertoli cells in vitro.

Manipulation of plant tolerance to herbicides through co-ordinated metabolic engineering of a detoxifying glutathione transferase and thiol cosubstrate.

Human cordonal stem cell intraperitoneal injection can represent a rescue therapy after an acute hepatic damage in immunocompetent rats.

Improvement of mortality rate and decrease in histologic hepatic injury after human cord blood stem cell infusion in a murine model of hepatotoxicity.

Plasma protein level changes in waste incineration workers exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Expression and purification of a recombinant peptide from the Alzheimer's beta-amyloid protein for solid-state NMR.

Concentrations of persistent organochlorine contaminants in bowhead whale tissues and other biota from northern Alaska: implications for human exposure from a subsistence diet.

EGF receptor-dependent JNK activation is involved in arsenite-induced p21Cip1/Waf1 upregulation and endothelial apoptosis.

Protection against amyloid beta-peptide (1-42)-induced loss of phospholipid asymmetry in synaptosomal membranes by tricyclodecan-9-xanthogenate (D609) and ferulic acid ethyl ester: implications for Alzheimer's disease.

Microplates with integrated oxygen sensors for kinetic cell respiration measurement and cytotoxicity testing in primary and secondary cell lines.

Role of adenosine A1 and A3 receptors in regulation of cardiomyocyte homeostasis after mitochondrial respiratory chain injury.

Brain regional responses in antioxidant system to alpha-lipoic acid in arsenic intoxicated rat.

The gene yggE functions in restoring physiological defects of Escherichia coli cultivated under oxidative stress conditions.

Aspects of dioxin toxicity are mediated by interleukin 1-like cytokines.

Cardiovascular gene expression profiles of dioxin exposure in zebrafish embryos.

Oxidative stress mediates sodium arsenite-induced expression of heme oxygenase-1, monocyte chemoattractant protein-1, and interleukin-6 in vascular smooth muscle cells.

Scope for regulation of cigarette smoke toxicity according to brand differences in published toxicant emissions.

2,3,7,8-Tetrachlorodibenzo-p-dioxin-induced impairment of glucose-stimulated insulin secretion in isolated rat pancreatic islets.

Ascorbic acid and alpha-tocopherol as potent modulators of apoptosis on arsenic induced toxicity in rats.

Tetrachlorodibenzo-p-Dioxin (TCDD) Inhibits Differentiation and Increases Apoptotic Cell Death of Precursor T-Cells in the Fetal Mouse Thymus.

[Differentiation of bone marrow derived Thy-1+ beta2M- cells into liver cells in AA induced liver injury micro-environment].

Platelets can neutralize hydrogen peroxide in an acute toxicity model with cells involved in granulation tissue formation.

Thyroid lesions and dioxin accumulation in the livers of jungle crows (*Corvus macrorhynchos*) in urban and suburban Tokyo.

Comparison of Matrigel and gelatin substrata for feeder-free culture of undifferentiated mouse embryonic stem cells for toxicity testing.

Effects of elastase on the mechanical and failure properties of engineered elastin-rich matrices.

C-reactive protein does not relax vascular smooth muscle: effects mediated by sodium azide in commercially available preparations.

The effects of gestational arsenic exposure and dietary selenium deficiency on selenium and selenoenzymes in maternal and fetal tissues in mice.

An integrated mini biosensor system for continuous water toxicity monitoring.

Dioxins and furans determination in postmortem blood by gas chromatography--high-resolution mass spectrometry.

Inorganic arsenite alters macrophage generation from human peripheral blood monocytes.

Mechanism of TNF- α modulation of Caco-2 intestinal epithelial tight junction barrier: role of myosin light-chain kinase protein expression.

Inhibition of cyclooxygenase activity, platelet aggregation and thromboxane B₂ production by two environmental toxicants: m- and o-cresol.

Glutathione reductase inhibition and methylated arsenic distribution in Cd1 mice brain and liver.

Neurotoxic effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin in cerebellar granule cells.

Phase I study of MetXia-P450 gene therapy and oral cyclophosphamide for patients with advanced breast cancer or melanoma.

MRP-1 expression levels determine strain-specific susceptibility to sodium arsenic-induced renal injury between C57BL/6 and BALB/c mice.

[Differentiation of rat bone marrow derived Thy-1⁺ beta2M⁻ cells into hepatocytes].

Quantitative structure-activity relationships for the toxicity of substituted benzenes to *Cyprinus carpio*.

Acute toxicity of six freshwater mussel species (*Glochidia*) to six chemicals: implications for *Daphnids* and *Utterbackia imbecillis* as surrogates for protection of freshwater mussels (*Unionidae*).

Assessing contaminant sensitivity of endangered and threatened aquatic species: part I. Acute toxicity of five chemicals.

Dual role of vitamin C in an oxygen-sensitive system: discrepancy between DNA damage and cell death.

A carbohydrate fraction, AIP1, from *Artemisia iwayomogi* down-regulates Fas gene expression and suppresses apoptotic death of the thymocytes induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Heme oxygenase expression in cultured human trophoblast cells during in vitro differentiation: effects of hypoxia.

Direct somatic embryogenesis and plant regeneration from leaf, petiole, and stem explants of Golden Pothos.

Attenuation of cyclosporine A toxicity by sublethal heat shock. Role of catalase.

A practical note on the use of cytotoxicity assays.

Differential signatures of protein expression in marmoset liver and thymus induced by single-dose TCDD treatment.

Prostaglandin E1 transport into rat intestinal cryptic cell line IEC-6.

Overview of clinical trials in the treatment of iron deficiency with iron-acetyl-aspartylated casein.

Effect of pesticides on kynurenic acid production in rat brain slices.

Chronic exposure to arsenic sensitizes CD3+ and CD56+ human cells to sodium arsenite-mediated apoptosis.

Effects of N-acetylcysteine, quercetin, and phytic acid on spontaneous hepatic and renal lesions in LEC rats.

A throat lozenge containing amyl meta cresol and dichlorobenzyl alcohol has a direct virucidal effect on respiratory syncytial virus, influenza A and SARS-CoV.

Tissue repair: an important determinant of final outcome of toxicant-induced injury.

Local prevention of oxidative stress in the intestinal epithelium of the rat by adhesive liposomes of superoxide dismutase and tempamine.

Assessing toxicities of hydrophobic organic pollutants in Huaihe River by using two types of sampling.

Toxicity assessment of pesticide mixtures typical of the Sacramento-San Joaquin Delta using *Chironomus tentans*.

2,3,7,8-tetrachlorodibenzo-p-dioxin impairs differentiation of normal human epidermal keratinocytes in a skin equivalent model.

Effect of root death and decay on dissipation of polycyclic aromatic hydrocarbons in the rhizosphere of yellow sweet clover and tall fescue.

Removal of chlorophenols from aquatic systems using the dried and dead fungus *Pleurotus sajor caju*.

Quantitative risk assessment for developmental neurotoxic effects.

Retrospective case series of suspected intentional paraquat poisonings: diagnostic findings and risk factors for death.

Regulatory immunotoxicology: does the published evidence support mandatory nonclinical immune function screening in drug development?

Comparative toxic effects of formulated simazine on *Vibrio fischeri* and gilthead seabream (*Sparus aurata* L.) larvae.

Failure of ethanol and acetaldehyde to alter in vivo norepinephrine release in the striatum and hippocampus of rats.

Paraquat induces oxidative stress and neuronal cell death; neuroprotection by water-soluble Coenzyme Q10.

The effects of sub-chronic exposure of Wistar rats to the herbicide Glyphosate-Biocarb.

[Agricultural pesticide-related poisonings in Italy: cases reported to the Poison Control Centre of Milan in 2000-2001].

[Alzheimer's disease with secondary Parkinson's syndrome. Case report of a patient with dementia and Parkinson's syndrome after long-term occupational exposure to insecticides, herbicides, and pesticides].

Genetic engineering of glycinebetaine synthesis in tomato protects seeds, plants, and flowers from chilling damage.

Pesticides and lung cancer risk in the agricultural health study cohort.

Use of a crop and job specific exposure matrix for estimating cumulative exposure to triazine herbicides among females in a case-control study in the Central Valley of California.

A cross-sectional study of triallate exposure and neurological health among workers at a pesticide manufacturing and formulating facility.

Sensitivity of zebrafish to environmental toxins implicated in Parkinson's disease.

Laboratory investigation into the development of resistance of *Daphnia magna* to the herbicide molinate.

Correlations of patch test reactivity and the repeated open application test (ROAT)/provocative use test (PUT).

Prion protein protects against DNA damage induced by paraquat in cultured cells.

Cigarette suppresses the expression of P4Halpa and vascular collagen production.

[Research advances in wheat (*Triticum aestivum*) allelopathy].

[Biological monitoring and risk assessment].

Fatal paraquat poisoning in seven Portland, Oregon, dogs.

Synthesis and herbicidal activity of new oxazinone herbicides with a long-lasting herbicidal activity against *Echinochloa oryzicola*.

Neurotoxicant-induced animal models of Parkinson's disease: understanding the role of rotenone, maneb and paraquat in neurodegeneration.

G209A mutant alpha synuclein expression specifically enhances dopamine induced oxidative damage.

Pulmonary function and exercise-associated changes with chronic low-level paraquat exposure.

Cancer incidence among pesticide applicators exposed to atrazine in the Agricultural Health Study.

Mitogenic and cytotoxic effects of pentachlorophenol to AML 12 mouse hepatocytes.

Pesticide patch test series for the assessment of allergic contact dermatitis among banana plantation workers in panama.

Effects of refining predicted chronic dietary intakes of pesticide residues: a case study using glyphosate.

Toxicity of dipyrldyl compounds and related compounds.

Characterization of California rice field soils susceptible to delayed phytotoxicity syndrome.

EK-2612, a new cyclohexane-1,3-dione possessing selectivity between rice (*Oryza sativa*) and barnyardgrass (*Echinochloa crus-galli*).

Shortcomings of the laboratory-derived median lethal concentration for predicting mortality in field populations: exposure duration and latent mortality.

Different effects of CSA and CSB deficiency on sensitivity to oxidative DNA damage.

Severe acute hepatitis in a burns patient.

Overexpression of metallothionein protects cultured motor neurons against oxidative stress, but not mutant Cu/Zn-superoxide dismutase toxicity.

Chlorpropham-induced splenotoxicity and its recovery in rats.

Strong protein adduct trapping accompanies abolition of acrolein-mediated hepatotoxicity by hydralazine in mice.

Impacts of carbamate pesticides on olfactory neurophysiology and cholinesterase activity in coho salmon (*Oncorhynchus kisutch*).

Chlorpropham induces mitochondrial dysfunction in rat hepatocytes.

Nutritional assessment and fate of DNA of soybean meal from roundup ready or conventional soybeans using rats.

Toxicity of glyphosate-based pesticides to four North American frog species.

Biokinetics and subchronic toxic effects of oral arsenite, arsenate, monomethylarsonic acid, and dimethylarsinic acid in v-Ha-ras transgenic (Tg.AC) mice.

Chymase is activated in the pulmonary inflammation and fibrosis induced by paraquat in hamsters.

Role of glutathione in dimethylarsinic acid-induced apoptosis.

Mortality and cancer incidence among alachlor manufacturing workers 1968-99.

Comparing aquatic risk assessment methods for the photosynthesis-inhibiting herbicides metribuzin and metamitron.

An in vitro procedure for evaluation of early stage oxidative stress in an established fish cell line applied to investigation of PHAH and pesticide toxicity.

Combined effects of ethanol and cinnamaldehyde in the Japanese medaka embryo-larval assay (MELA).

[Toxic-effects of acetochlor, methamidophos and their combination on bacterial amount and population richness at molecular levels in agricultural black soils].

Comparative toxicity of thiobencarb and deschlorothiobencarb to rice (*Oryza sativa*).

Growth and survival of five amphibian species exposed to combinations of pesticides.

Effects of 2,4-dichlorophenoxyacetic acid exposure on dopamine D2-like receptors in rat brain.

Paraquat-induced apoptotic cell death in cerebellar granule cells.

Acute toxicity assessment of 20 herbicides to the green alga *Scenedesmus quadricauda* (Turp.) Breb.

Glyphosate herbicide formulation: a potentially lethal ingestion.

Acrolein induces axolemmal disruption, oxidative stress, and mitochondrial impairment in spinal cord tissue.

Comparative studies on the spermatotoxic effects of dinoseb and its structurally related chemicals.

Mammalian toxicology overview and human risk assessment for sulfosulfuron.

Attenuation of paraquat-induced motor behavior and neurochemical disturbances by L-valine in vivo.

Gene expression analysis of the lung following paraquat administration in rats using DNA microarray.

Novel 3,3a,5,9b-tetrahydro-2H-furo[3,2-c][2] benzopyran derivatives: synthesis of chiral glycol benzyl ether herbicides.

Low-dose agrochemicals and lawn-care pesticides induce developmental toxicity in murine preimplantation embryos.

Cancer mortality in a cohort of licensed herbicide applicators.

Herbicide exposure and the risk of transitional cell carcinoma of the urinary bladder in Scottish Terriers.

Evaluation of lethality and genotoxicity in the freshwater mussel *Utterbackia imbecillis* (Bivalvia: Unionidae) exposed singly and in combination to chemicals used in lawn care.

Comparative toxicity of glyphosate-based herbicides: aqueous and sediment porewater exposures.

Toxicity of atrazine and molinate to the cladoceran *Daphnia carinata* and the effect of river water and bottom sediment on their bioavailability.

Glyphosate-based pesticides affect cell cycle regulation.

Acute upper-airway obstruction in a two-year-old child who ingested an herbicide preparation.

Chemical and biomonitoring to assess potential acute effects of Vision herbicide on native amphibian larvae in forest wetlands.

Itraconazole-induced acute hepatitis in an agricultural worker: susceptibility or drug interaction?

Association between Agent Orange and prostate cancer: a pilot case-control study.

Studies on lethal concentrations and toxicity stress of some xenobiotics on aquatic organisms.

Toxicity of a mixture of 2,4-dichlorophenoxyacetic acid and monosodium methanearsonate to the red swamp crawfish, *Procambarus clarkii*.

Biotransformation of chlorpropham (CIPC) in isolated rat hepatocytes and xenoestrogenic activity of CIPC and its metabolites by in vitro assays.

Overexpression of the small mitochondrial Hsp22 extends *Drosophila* life span and increases resistance to oxidative stress.

Chlorpyrifos induces apoptosis in rat cortical neurons that is regulated by a balance between p38 and ERK/JNK MAP kinases.

Catalase transgenic mice: characterization and sensitivity to oxidative stress.

NTP toxicology and carcinogenesis studies of trans-cinnamaldehyde (CAS No. 14371-10-9) in F344/N rats and B6C3F1 mice (feed studies).

Proteomic analysis of oxidative stress-resistant cells: a specific role for aldose reductase overexpression in cytoprotection.

A physiological and morphological study on the injury caused by exposure to the air pollutant, peroxyacetyl nitrate (PAN), based on the quantitative assessment of the injury.

15-deoxy prostaglandin J2 enhances allyl alcohol-induced toxicity in rat hepatocytes.

Effects of chronic alcohol consumption on dermal penetration of pesticides in rats.

Evaluation of the genotoxicity of four herbicides in the wing spot test of *Drosophila melanogaster* using two different strains.

Physiologically based pharmacokinetic modeling of arsenic in the mouse.

alpha-Synuclein selectively increases manganese-induced viability loss in SK-N-MC neuroblastoma cells expressing the human dopamine transporter.

Multiple medical problems following agent orange exposure.

Glyphosate poisoning.

Effect of different chemical and mechanical defoliation methods on the skin quality of potatoes.

Differences in responses of plant hairy roots to chemical toxicity compared between primary and ramified roots.

Assessing possible exposures of ground troops to Agent Orange during the Vietnam War: the use of contemporary military records.

Poisoning due to chlorophenoxy herbicides.

External Qi therapy to treat symptoms of Agent Orange Sequelae in Korean combat veterans of the Vietnam War.

Alpha and beta estradiol protect neuronal but not native PC12 cells from paraquat-induced oxidative stress.

Developmental arrest in Japanese medaka (*Oryzias latipes*) embryos exposed to sublethal concentrations of atrazine and arsenic trioxide.

[Poisoning caused by chemicals for plant protection in Poland in 2002].

The involvement of p53 in paraquat-induced apoptosis in human lung epithelial-like cells.

[A case of acute poisoning caused by the inhalation of a nonselective herbicide REBIN GT SC (butafenacil and glyphosate isopropylamine)].

Efficient in vitro paraquat removal via irreversible immobilization into zeolite particles.

[Status of the buccal mucosa in subjects occupationally exposed to chlorophenoxyherbicides].

Protective role of metallothionein (I/II) against pathological damage and apoptosis induced by dimethylarsinic acid.

Antioxidants effectively prevent oxidation-induced protein damage in OLN 93 cells.

A generational study of glyphosate-tolerant soybeans on mouse fetal, postnatal, pubertal and adult testicular development.

The cytotoxic activity of lactoperoxidase: enhancement and inhibition by neuroactive compounds.

Doxycycline-regulated over-expression of hsp22 has negative effects on stress resistance and life span in adult *Drosophila melanogaster*.

The effect of macromolecular crowding on protein aggregation and amyloid fibril formation.

Vanin-1-/- mice exhibit a glutathione-mediated tissue resistance to oxidative stress.

Possible mechanism for medial smooth muscle cell injury in diabetic nephropathy: glycooxidation-mediated local complement activation.

Important role of striatal catalase in aging- and reserpine-induced oral dyskinesia.

Albumin-bound polyacrolein: implications for Alzheimer's disease.

A balanced technique for preparation of specimens from pathogenicity studies for scanning electron microscopy.

Multiple deficiencies in antioxidant enzymes in mice result in a compound increase in sensitivity to oxidative stress.

Impairment of the transcriptional responses to oxidative stress in the heart of aged C57BL/6 mice.

Activities of UDP-glucuronyltransferase, beta-glucuronidase and deiodinase types I and II in hyper- and hypothyroid rats.

Possible enhancing effects of atrazine and nonylphenol on 7,12-dimethylbenz[a]anthracene-induced mammary tumor development in human c-Ha-ras proto-oncogene transgenic rats.

Modulation of phospholipid asymmetry in synaptosomal membranes by the lipid peroxidation products, 4-hydroxynonenal and acrolein: implications for Alzheimer's disease.

Alpha-synuclein up-regulation and aggregation during MPP⁺-induced apoptosis in neuroblastoma cells: intermediacy of transferrin receptor iron and hydrogen peroxide.

Decreasing glutamate buffering capacity triggers oxidative stress and neuropil degeneration in the *Drosophila* brain.

Inducible superoxide dismutase 1 aggregation in transgenic amyotrophic lateral sclerosis mouse fibroblasts.

The vagus and recurrent laryngeal nerves in experimental congenital diaphragmatic hernia.

Protein adduct-trapping by hydrazinophthalazine drugs: mechanisms of cytoprotection against acrolein-mediated toxicity.

Resistance of mitochondrial DNA-depleted cells against cell death: role of mitochondrial superoxide dismutase.

2'-benzoyloxycinnamaldehyde induces apoptosis in human carcinoma via reactive oxygen species.

Cancer incidence among pesticide applicators exposed to alachlor in the Agricultural Health Study.

A fetal risk factor for Parkinson's disease.

Acetaldehyde accumulation suppresses Kupffer cell release of TNF-Alpha and modifies acute hepatic inflammation in rats.

Arsenic speciation in urine from acute promyelocytic leukemia patients undergoing arsenic trioxide treatment.

Transgenic mice overexpressing glutathione peroxidase 4 are protected against oxidative stress-induced apoptosis.

Bcl-2 family members localize to tobacco chloroplasts and inhibit programmed cell death induced by chloroplast-targeted herbicides.

Coordination of oxidized protein hydrolase and the proteasome in the clearance of cytotoxic denatured proteins.

Concentration of TBA-reactive substances in type II pneumocytes exposed to oxidative stress.

Verification of performance with the automated direct optical TIRF immunosensor (River Analyser) in single and multi-analyte assays with real water samples.

Time course of respiratory mechanics and pulmonary structural remodelling in acute lung injury.

Serofendic acid, a sulfur-containing diterpenoid derived from fetal calf serum, attenuates reactive oxygen species-induced oxidative stress in cultured striatal neurons.

Aminomethylphosphonic acid, a metabolite of glyphosate, causes injury in glyphosate-treated, glyphosate-resistant soybean.

Early differential gene expression of rat lung after exposure to paraquat.

A *Neisseria gonorrhoeae* catalase mutant is more sensitive to hydrogen peroxide and paraquat, an inducer of toxic oxygen radicals.

Distinct roles of c-Abl and Atm in oxidative stress response are mediated by protein kinase C delta.

A review of the enzymology of arsenic metabolism and a new potential role of hydrogen peroxide in the detoxication of the trivalent arsenic species.

Catalase-independent early-gene expression in rat brain following acute ethanol exposure.

Oxidative stress in neonates: evaluation using specific biomarkers.

Influence of vitamin E, sodium selenite, and astrocyte-conditioned medium on neuronal survival after chronic exposure to ethanol.

Contamination of honey by the herbicide asulam and its antibacterial active metabolite sulfanilamide.

Molecular determinants of differential pore blocking of kidney CLC-K chloride channels.

Arabidopsis thaliana plants overexpressing thylakoidal ascorbate peroxidase show increased resistance to Paraquat-induced photooxidative stress and to nitric oxide-induced cell death.

Stable compounds of cigarette smoke induce endothelial superoxide anion production via NADPH oxidase activation.

Evidence that atrazine and diaminochlorotriazine inhibit the estrogen/progesterone induced surge of luteinizing hormone in female Sprague-Dawley rats without changing estrogen receptor action.

Proteasome mediates dopaminergic neuronal degeneration, and its inhibition causes alpha-synuclein inclusions.

Ethanol but not acetaldehyde induced changes in brain taurine: a microdialysis study.

An endogenous metabolite of dopamine, 3,4-dihydroxyphenylethanol, acts as a unique cytoprotective agent against oxidative stress-induced injury.

Simultaneous multi-analyte determination of estrone, isoproturon and atrazine in natural waters by the River ANALyser (RIANA), an optical immunosensor.

Signatures of cinnamyl alcohol dehydrogenase deficiency in poplar lignins.

[Techniques of diseases, insect pests and weeds control and their efficacy in bio-rational rice production].

Inhibition of cardiac myocyte contraction by 4-hydroxy-trans-2-nonenal.

Hematoporphyrin monomethyl ether photodynamic damage on HeLa cells by means of reactive oxygen species production and cytosolic free calcium concentration elevation.

Determination of uric acid in human saliva by capillary electrophoresis with electrochemical detection: potential application in fast diagnosis of gout.

2,3,7,8-TCDD effects on visual structure and function in swim-up rainbow trout.

New-onset asthma associated with exposure to 3-amino-5-mercapto-1,2,4-triazole.

Acute pesticide poisoning related deaths in Turkey.

Impairment of small intestinal protein assimilation in patients with end-stage renal disease: extending the malnutrition-inflammation-atherosclerosis concept.

Biosynthesis of FVIII in megakaryocytic cells: improved production and biochemical characterization.

Immunostimulating properties of intragastrically administered Acetobacter-derived soluble branched (1,4)-beta-D-glucans decrease murine susceptibility to *Listeria monocytogenes*.

Brown spots in the bowel.

Environmental factors and Parkinson's disease: a case-control study in the Tuscany region of Italy.

2,3,7,8-Tetrachlorodibenzo-p-dioxin induces suppressor of cytokine signaling 2 in murine B cells.

Chronic beta-adrenoreceptor activation increases cardiac cavity size through chamber remodeling and not via modifications in myocardial material properties.

[Treatment of disorders of iron metabolism].

Arsenic exposure exacerbates atherosclerotic plaque formation and increases nitrotyrosine and leukotriene biosynthesis.

Antigenotoxic potential of glucomannan on four model test systems.

Iron amino acid chelates.

The potential role of NaFeEDTA as an iron fortificant.

Enhancing the absorption of fortification iron. A SUSTAIN Task Force report.

Comparative sensitivity of *Xenopus tropicalis* and *Xenopus laevis* as test species for the FETAX model.

Effects of separate delivery of zinc or zinc and vitamin A on hemoglobin response, growth, and diarrhea in young Peruvian children receiving iron therapy for anemia.

Role of intracellular calcium in acute thermal pain perception.

Review of clinical and toxicological features of acute pesticide poisonings in Crete (Greece) during the period 1991-2001.

Pathogenesis of collagen-induced arthritis: modulation of disease by arthritogenic T-cell epitope location.

Comparative analysis of *Clostridium difficile* clinical isolates belonging to different genetic lineages and time periods.

Design and synthesis of highly potent and selective (2-arylcarbamoyl-phenoxy)-acetic acid inhibitors of aldose reductase for treatment of chronic diabetic complications.

Mitochondria-derived oxidative stress induces a heat shock protein response.

Effects of TGF-beta, TNF-alpha, IL-beta and IL-6 alone or in combination, and tyrosine kinase inhibitor on cyclooxygenase expression, prostaglandin E2 production and bone resorption in mouse calvarial bone cells.

Oral and dermal exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) induces cutaneous papillomas and squamous cell carcinomas in female hemizygous Tg.AC transgenic mice.

The induction of cell cycle regulatory and DNA repair proteins in cisplatin-induced acute renal failure.

Effect of ryanodine receptor mutations on interleukin-6 release and intracellular calcium homeostasis in human myotubes from malignant hyperthermia-susceptible individuals and patients affected by central core disease.

Heparanase uptake is mediated by cell membrane heparan sulfate proteoglycans.

The mitochondrial uncoupling agent 2,4-dinitrophenol improves mitochondrial function, attenuates oxidative damage, and increases white matter sparing in the contused spinal cord.

[Toxicological analyses over the past five years at a single institution].

The putative glutamate receptor 1.1 (AtGLR1.1) in *Arabidopsis thaliana* regulates abscisic acid biosynthesis and signaling to control development and water loss.

Feasibility of "directly observed home-based twice-daily iron therapy" (DOHBIT) for management of anemia in rural patients: a pilot study.

The effects of short-term iron supplementation on iron status in infants in malaria-endemic areas.

A randomized comparison of two anemia treatment regimens in Tanzanian children.

Efficacy of daily vs. weekly supplementation of iron in schoolchildren with low iron status.

Classic toxin-induced animal models of Parkinson's disease: 6-OHDA and MPTP.

Dying to be thin: a dinitrophenol related fatality.

Association of male infertility with Pro185Ala polymorphism in the aryl hydrocarbon receptor repressor gene: implication for the susceptibility to dioxins.

Iron absorption by heterozygous carriers of the HFE C282Y mutation associated with hemochromatosis.

Women and omega-3 Fatty acids.

The expression of P-glycoprotein in AML cells with FLT3 internal tandem duplications is associated with reduced apoptosis in response to FLT3 inhibitors.

Adult 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) exposure and effects on male reproductive organs in three differentially TCDD-susceptible rat lines.

Lack of effects of postnatal exposure to a mixture of aryl hydrocarbon-receptor agonists on the development of methylnitrosourea-induced mammary tumors in sprague-dawley rats.

A chronic Alzheimer's model evoked by mitochondrial poison sodium azide for pharmacological investigations.

Significant association between nonsyndromic oral clefts and arylhydrocarbon receptor nuclear translocator (ARNT).

Protective activity of hesperidin and lipoic acid against sodium arsenite acute toxicity in mice.

Protective effects of vitamin A and vitamin E succinate against 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD)-induced body wasting, hepatomegaly, thymic atrophy, production of reactive oxygen species and DNA damage in C57BL/6J mice.

Response of soluble transferrin receptor and iron-related parameters to iron supplementation in elite, iron-depleted, nonanemic female athletes.

Developmental dental aberrations after the dioxin accident in Seveso.

Reduction of the toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin in mice using an antiulcer drug, geranylgeranylacetone.

Agricultural pesticide use and adenocarcinomas of the stomach and oesophagus.

Trichothiodystrophy: quantification of cysteine in human hair and nails by application of sodium azide-dependent oxidation to cysteic acid.

Chronic inorganic arsenic exposure induces hepatic global and individual gene hypomethylation: implications for arsenic hepatocarcinogenesis.

Metabonomic investigations in mice infected with *Schistosoma mansoni*: an approach for biomarker identification.

Overexpression of collagenase 1 (MMP-1) is mediated by the ERK pathway in invasive melanoma cells: role of BRAF mutation and fibroblast growth factor signaling.

Molecular mechanisms of alcoholic fatty liver: role of sterol regulatory element-binding proteins.

[Synthesis and antitumor activity of 20-O-linked camptothecin ester derivatives].

The modulation of radiation-induced cell death by genistein in K562 cells: activation of thymidine kinase 1.

Male reproductive toxicity of sodium arsenite in mice.

Daily iron supplementation versus intermittent dose.

The accumulation and toxicity of methylated arsenicals in endothelial cells: important roles of thiol compounds.

Arsenic and urinary bladder cell proliferation.

Animal models for arsenic carcinogenesis: inorganic arsenic is a transplacental carcinogen in mice.

Understanding arsenic carcinogenicity by the use of animal models.

Removal of the protein-bound solute p-cresol by convective transport: a randomized crossover study.

The topical application of 2,3,7,8-tetrachlorodibenzo-p-dioxin lacks skin tumor-promoting potency but induces hepatic injury and tumor necrosis factor-alpha expression in ICR male mice.

Combined effects of Matrigel and growth factors on maintaining undifferentiated murine embryonic stem cells for embryotoxicity testing.

Mechanism of hepatic insulin resistance in non-alcoholic fatty liver disease.

In utero effects of chemicals on reproductive tissues in females.

Dioxin alters the human low-density and very low-density lipoprotein structure with evidence for specific quenching of Trp-48 in apolipoprotein C-II.

[Bronchial impairment of main bronchus by aspiration of ferrous sulphate tablet].

[Toxicological significance of metallothionein on environmental harmful factors: verification and suggestions from a metallothionein-I/II null mouse model study].

4-chloro-m-cresol cannot detect malignant hyperthermia equivocal cells in an alternative minimally invasive diagnostic test of malignant hyperthermia susceptibility.

Neuromuscular electric stimulation enhances endothelial vascular control and hemodynamic function in paretic upper extremities of patients with stroke.

Contaminant effects on the teleost fish thyroid.

The relationship of diaphragmatic defect, liver growth, and lung hypoplasia in nitrofen-induced congenital diaphragmatic hernia in the rat.

Intravesical resiniferatoxin decreases spinal c-fos expression and increases bladder volume to reflex micturition in rats with chronic inflamed urinary bladders.

Pulmonary vascular morphology in a fetal rabbit model for congenital diaphragmatic hernia.

P-cresol, a uremic retention solute, alters the endothelial barrier function in vitro.

Helicobacter pylori infection, iron absorption, and gastric acid secretion in Bangladeshi children.

Functional characterization of malignant hyperthermia-associated RyR1 mutations in exon 44, using the human myotube model.

Modeling of methyl isothiocyanate air concentrations associated with community illnesses following a metam-sodium sprinkler application.

Pattern of male reproductive system effects after in utero and lactational 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) exposure in three differentially TCDD-sensitive rat lines.

Expression of hypothalamic neuropeptides after acute TCDD treatment and distribution of Ah receptor repressor.

SUR2A C-terminal fragments reduce KATP currents and ischaemic tolerance of rat cardiac myocytes.

Endocrine disrupting pesticides: a leading cause of cancer among rural people in Pakistan.

Branch retinal artery occlusion: a complication of iron-deficiency anemia in a young adult with a rectal carcinoid.

Association of pesticide exposure with neurologic dysfunction and disease.

Warm or cold ischemia in animal models of lung ischemia-reperfusion injury: is there a difference?

VEGF expression is downregulated in nitrofen-induced congenital diaphragmatic hernia.

Exocrine pancreatic pathology in female Harlan Sprague-Dawley rats after chronic treatment with 2,3,7,8-tetrachlorodibenzo-p-dioxin and dioxin-like compounds.

Ferrous sulfate does not affect mycophenolic acid pharmacokinetics in kidney transplant patients.

Fibroblast growth-stimulating activity of S100A9 (MRP-14).

Consideration of cultural and lifestyle factors in defining susceptible populations for environmental disease.

Mechanisms underlying arsenic carcinogenesis: hypersensitivity of mice exposed to inorganic arsenic during gestation.

Environmental contaminant-mixture effects on CNS development, plasticity, and behavior.

Minocycline up-regulates Bcl-2 and protects against cell death in mitochondria.

The dioxin-like pollutant PCB 126 (3,3',4,4',5-pentachlorobiphenyl) affects risk factors for cardiovascular disease in female rats.

Effects of epidermal growth factor receptor deficiency and 2,3,7,8-tetrachlorodibenzo-p-dioxin on fetal development in mice.

Expression of immunogenic VP2 protein of infectious bursal disease virus in *Arabidopsis thaliana*.

Cytotoxic effects of environmentally relevant chlorophenols on L929 cells and their mechanisms.

Risk of adverse reproductive outcomes associated with proximity to municipal solid waste incinerators with high dioxin emission levels in Japan.

[The effectiveness of three regimens using ferrous sulfate to treat anemia in pregnant women].

NTP toxicology and carcinogenesis studies of triethanolamine (Cas No. 102-71-6) in B6C3F1 mice (dermal studies).

Protective effect of N-acetylcysteine against arsenic-induced depletion in vivo of carbohydrate.

Hypothermia and localized cold injuries.

Pulmonary elastin expression is decreased in the nitrofen-induced rat model of congenital diaphragmatic hernia.

Effect of sodium arsenite on peripheral lymphocytes in vitro: individual susceptibility among a population exposed to arsenic through the drinking water.

Cyp1a1(-/-) male mice: protection against high-dose TCDD-induced lethality and wasting syndrome, and resistance to intrahepatocyte lipid accumulation and uroporphyrin.

BMK1 is activated in glomeruli of diabetic rats and in mesangial cells by high glucose conditions.

Ischemia/reperfusion induces the recruitment of leukocytes from whole blood under flow conditions.

Drosophila parkin mutants have decreased mass and cell size and increased sensitivity to oxygen radical stress.

Herbimycin A inhibits angiogenic activity in endothelial cells and reduces neovascularization in a rat model of retinopathy of prematurity.

Protective effect of methionine supplementation on arsenic-induced alteration of glucose homeostasis.

Synergistic effect of cigarette smoke and saliva on lymphocytes--the mediatory role of volatile aldehydes and redox active iron and the possible implications for oral cancer.

Nitric oxide donor increases osteoprotegerin production and osteoclastogenesis inhibitory activity in bone marrow stromal cells from ovariectomized rats.

Reductions in the incidence of nitrofen-induced diaphragmatic hernia by vitamin A and retinoic acid.

Dioxin-like compounds and endometriosis: a study on Italian and Belgian women of reproductive age.

Crystal structure of protoporphyrinogen IX oxidase: a key enzyme in haem and chlorophyll biosynthesis.

First evidence of endocrine disruption in feral carp from the Ebro River.

Transient mitochondrial permeability transition pore opening mediates preconditioning-induced protection.

Limited effect of selected organic pollutants on cytokine production by peripheral blood leukocytes.

Fatal poisoning in Jamaica: a coroner's autopsy study from the University Hospital of the West Indies.

Epidemiologic characteristics of death by poisoning in 1991-2001 in Korea.

Oxygen-regulated expression of the RNA-binding proteins RBM3 and CIRP by a HIF-1-independent mechanism.

Agricultural pesticide use, familial cancer, and risk of non-Hodgkin lymphoma.

Arsenic-induced enhancement of ultraviolet radiation carcinogenesis in mouse skin: a dose-response study.

How environmental hazards in childhood have been discovered: carcinogens, teratogens, neurotoxicants, and others.

Treating obesity: pharmacology of energy expenditure.

Postnatal development of resistance to short-term high-dose toxic effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin in TCDD-resistant and -semiresistant rats.

Testosterone-stimulated weanlings as an alternative to castrated male rats in the Hershberger anti-androgen assay.

Hypothermia augments reactive oxygen species detected in the guinea pig isolated perfused heart.

Decreased expression of voltage-gated K⁺ channels in pulmonary artery smooth muscles cells in nitrofen-induced congenital diaphragmatic hernia in rats.

Glioma cell antioxidant capacity relative to reactive oxygen species produced by dopamine.

Role of oxidative damage in Friedreich's ataxia.

Histological and lipid peroxidation changes after administration of 2-acetylaminofluorene in a rat liver injury model following selective periportal and pericentral damage.

In utero pesticide exposure, maternal paraoxonase activity, and head circumference.

Rat models of dementia based on reductions in regional glucose metabolism, cerebral blood flow and cytochrome oxidase activity.

Epithelia under metabolic stress perceive commensal bacteria as a threat.

An NADPH quinone reductase of *Helicobacter pylori* plays an important role in oxidative stress resistance and host colonization.

Mechanisms of ischemic brain injury.

Water permeability and TCDD-induced edema in zebrafish early-life stages.

Modulation of AhR-mediated CYP1A1 mRNA and EROD activities by 17beta-estradiol and dexamethasone in TCDD-induced H411E cells.

Arsenic-induced DNA hypomethylation affects chromosomal instability in mammalian cells.

Geldanamycin and herbimycin A induce apoptotic killing of B chronic lymphocytic leukemia cells and augment the cells' sensitivity to cytotoxic drugs.

Role of capsaicin-sensitive afferent nerves in different models of gastric inflammation in rats.

Multiple risk factors for Parkinson's disease.

Intra-strain dioxin sensitivity and morphometric effects in swim-up rainbow trout (*Oncorhynchus mykiss*).

[Study on a new antarthritic injection--O-carboxymethyl chitosan].

Effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on fatty acid availability and neural tube formation in cynomolgus macaque, *Macaca fascicularis*.

Effect of dietary mannanoligosaccharide and sodium chlorate on the growth performance, acute-phase response, and bacterial shedding of weaned pigs challenged with *Salmonella enterica* serotype Typhimurium.

The nematode *Caenorhabditis elegans* as a model of organophosphate-induced mammalian neurotoxicity.

Protective effects of ursodeoxycholic acid against 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced testicular damage in mice.

Pharmacologic evidence for a parasympathetic role in seizure-induced neurocardiac regulatory abnormalities.

Effects of odd-numbered medium-chain fatty acids on the accumulation of long-chain 3-hydroxy-fatty acids in long-chain L-3-hydroxyacyl CoA dehydrogenase and mitochondrial trifunctional protein deficient skin fibroblasts.

Burn injuries resulting from (accidental) airbag inflation.

Endogenous mitochondrial oxidative stress: neurodegeneration, proteomic analysis, specific respiratory chain defects, and efficacious antioxidant therapy in superoxide dismutase 2 null mice.

The uremic solutes p-cresol and indoxyl sulfate inhibit endothelial proliferation and wound repair.

The expression of DJ-1 (PARK7) in normal human CNS and idiopathic Parkinson's disease.

Sodium-azide versus ProClin 300: influence on the morphology of UHMWPE particles generated in laboratory tests.

A comparison of human H295R and rat R2C cell lines as in vitro screening tools for effects on aromatase.

Comparison of the hemolytic activity of isopropoxyethanol and phenoxyethanol.

Neurotoxins and neurotoxic species implicated in neurodegeneration.

Fab antibody fragments: some applications in clinical toxicology.

Effects of airbag deployment: lesions, epidemiology, and management.

Liquid growth hormone: preservatives and buffers.

Treatment of iron deficiency anemia with Ferro-Folgamma.

[Severe toxic liver failure after acute poisoning with paracetamol, ferrous sulphate and naproxen].

The modulatory effects of ellagic acid and vitamin E succinate on TCDD-induced oxidative stress in different brain regions of rats after subchronic exposure.

Antibodies against the CB10 fragment of type II collagen in rheumatoid arthritis.

[Ferro-Folgamma--a drug for treatment and prophylaxis of iron deficiency anemia in pregnant women].

[Dioxin and health--from molecular biology to preventive care].

[Ferro-Folgamma--a drug for treatment and prophylaxis of iron deficiency anemia in pregnant women].

Pesticide exposure in dwellings near bulb growing fields in The Netherlands: an explorative study.

Combined osmotic fragility and dichlorophenol-indolphenol test for hemoglobin disorder screening in Thai pregnant subjects: an appraisal.

Coronary artery bypass grafting in a dialysis-dependent Jehovah's Witness.

[Hygienic standards of the occupational air quality established by the Experts on Chemical Agents, 2002].

Detection of *Erysipelothrix rhusiopathiae* in clinical and environmental samples.

Combined devascularization and proximal splenorenal shunt: is this a better option than either procedure alone?

Acute poisoning in children. Cases hospitalized during a three-year period in Trinidad.

Acute columnaris infection in channel catfish, *Ictalurus punctatus* (Rafinesque): efficacy of practical treatments for warmwater aquaculture ponds.

Treatment of anaemia after joint replacement. A double-blind, randomised, controlled trial of ferrous sulphate versus placebo.

Stimulation of NHE3 in OKP cells by an autocrine mechanism.

Metallic taste and retronasal smell.

The link between exposure to dioxin and endometriosis: a critical reappraisal of primate data.

Characterization of two lipoproteins in *Pasteurella multocida*.

The drug salicylamide is an antagonist of the aryl hydrocarbon receptor that inhibits signal transduction induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Metabolic activation of polycyclic aromatic hydrocarbons to carcinogens by cytochromes P450 1A1 and 1B1.

Follicular epithelial cell hypertrophy induced by chronic oral administration of 2,3,7,8-tetrachlorodibenzo-p-dioxin in female Harlan Sprague-Dawley rats.

Iron supplementation does not affect the susceptibility of LDL to oxidative modification in women with low iron status.

Effect of epidermal growth factor on pulmonary hypoplasia in experimental diaphragmatic hernia.

Nitrofen-induced congenital diaphragmatic hernia in rat embryo: what model?

Role of aryl hydrocarbon receptor in mesencephalic circulation failure and apoptosis in zebrafish embryos exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Mutational analysis of putative calcium binding motifs within the skeletal ryanodine receptor isoform, RyR1.

Antioxidant activity and neuroprotective effects of zolpidem and several synthesis intermediates.

Disruption of rapid, nongenomic steroid actions by environmental chemicals: interference with progestin stimulation of sperm motility in Atlantic croaker.

Comparison between exhaled and sputum oxidative stress biomarkers in chronic airway inflammation.

A tracer study with systemically and locally administered dinitrophenylated osteopontin.

A plant type 2 metallothionein (MT) from cork tissue responds to oxidative stress.

EGR1 is a novel target for AhR agonists in human lung epithelial cells.

Liver regeneration: a critical toxicodynamic response in predictive toxicology.

Toxicity assessment of complex mixtures remains a goal.

Chronic dietary risk for pesticide residues in food in Brazil: an update.

[Effects of cytokinin preparations on the stability of the photosynthetic apparatus of two wheat cultivars under water deficiency].

Subchronic exposure to TCDD, PeCDF, PCB126, and PCB153: effect on hepatic gene expression.

Potential roles of the aryl hydrocarbon receptor in female reproductive senescence.

Alpha-tocotrienol provides the most potent neuroprotection among vitamin E analogs on cultured striatal neurons.

A proteasomal stress response: pre-treatment with proteasome inhibitors increases proteasome activity and reduces neuronal vulnerability to oxidative injury.

BRCA1 induces antioxidant gene expression and resistance to oxidative stress.

Menadione reduces rotenone-induced cell death in cerebellar granule neurons.

Root growth inhibition by aluminum is probably caused by cell death due to peroxidase-mediated hydrogen peroxide production.

Overexpression of short heterodimer partner recovers impaired glucose-stimulated insulin secretion of pancreatic beta-cells overexpressing UCP2.

Zonal ablation of the olfactory sensory neuroepithelium of the mouse: effects on odorant detection.

1,2-dichlorobenzene marine risk assessment with special reference to the OSPARCOM region: North Sea.

Matrix metalloproteinase-1 and tissue inhibitor of metalloproteinase-1 production in human gingival fibroblasts: the role of protein kinase C.

C-reactive protein-induced in vitro vasorelaxation is an artefact caused by the presence of sodium azide in commercial preparations.

Prolonged exercise to fatigue in humans impairs skeletal muscle Na⁺-K⁺-ATPase activity, sarcoplasmic reticulum Ca²⁺ release, and Ca²⁺ uptake.

Redox modulation of chromatin remodeling: impact on histone acetylation and deacetylation, NF- κ B and pro-inflammatory gene expression.

Response characteristics of an aquatic biomonitor used for rapid toxicity detection.

A human umbilical cord stem cell rescue therapy in a murine model of toxic liver injury.

Air bags and the skin.

Once-weekly and 5-days a week iron supplementation differentially affect cognitive function but not school performance in Thai children.

Panax ginseng improves survival and sperm quality in guinea pigs exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Identification of the growth hormone-releasing peptide binding site in CD36: a photoaffinity cross-linking study.

p38 Mitogen-activated protein kinase mediates synergistic induction of inducible nitric-oxide synthase by lipopolysaccharide and interferon-gamma through signal transducer and activator of transcription 1 Ser727 phosphorylation in murine aortic endothelial cells.

Flow cytometry and pigment analyses as tools to investigate the toxicity of herbicides to natural phytoplankton communities.

Comparison of the cytotoxicity induced by different exposure to sodium arsenite in two fish cell lines.

Pesticide intoxications in the Centre of Portugal: three years analysis.

Effect of endocrine disrupting chemicals on lipopolysaccharide-induced tumor necrosis factor-alpha and nitric oxide production by mouse macrophages.

Sequential morphological changes of erythrocyte apoptosis in *Xenopus* larvae exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Effects of magnesium on matrix metalloproteinase-2 production in cultured rat cardiac fibroblasts.

Iron medication-associated gastric mucosal injury.

Spatiotemporal evidence of apoptosis-mediated ischemic injury in organotypic hippocampal slice cultures.

Neutrophils contribute to endotoxin enhancement of allyl alcohol hepatotoxicity.

Interaction between the aryl hydrocarbon receptor and retinoic acid pathways increases matrix metalloproteinase-1 expression in keratinocytes.

Effects of superoxide dismutase and polyclonal tumor necrosis factor-alpha antibodies on chloroacetate-induced cellular death and superoxide anion production by J774.A1 macrophages.

Reduction of DNA fragmentation and hydroxyl radical production by hyaluronic acid and chondroitin-4-sulphate in iron plus ascorbate-induced oxidative stress in fibroblast cultures.

Identification of a polygalacturonase as a major allergen (Pla a 2) from *Platanus acerifolia* pollen.

Platelet-derived growth factor-induced arachidonic acid release for enhancement of prostaglandin E(2) synthesis in human gingival fibroblasts pretreated with interleukin-1beta.

Evidence that inhibited prostatic epithelial bud formation in 2,3,7,8-tetrachlorodibenzo-p-dioxin-exposed C57BL/6J fetal mice is not due to interruption of androgen signaling in the urogenital sinus.

Activation of the aryl hydrocarbon receptor diminishes the memory response to homotypic influenza virus infection but does not impair host resistance.

Protein phosphatase 2A-mediated cross-talk between p38 MAPK and ERK in apoptosis of cardiac myocytes.

Environmental distribution, analysis, and toxicity of organometal(loid) compounds.

A screening-level assessment of the health risks of chronic smoke exposure for wildland firefighters.

Free radicals and brain aging.

Involvement of P-glycoprotein in the transport of saquinavir and indinavir in rat brain microvessel endothelial and microglia cell lines.

Evaluation of 5-(11)C-methyl-A-85380 as an imaging agent for PET investigations of brain nicotinic acetylcholine receptors.

Protein tyrosine kinase is expressed and regulates ROMK1 location in the cortical collecting duct.

Use of genetically manipulated Salmonella typhimurium strains to evaluate the role of sulfotransferases and acetyltransferases in nitrofen mutagenicity.

Work-related pilot fatalities in agriculture--United States, 1992-2001.

Developmental exposure to the potent aryl hydrocarbon receptor agonist 2,3,7,8-tetrachlorodibenzo-p-dioxin Impairs the cell-mediated immune response to infection with influenza a virus, but enhances elements of innate immunity.

Differential susceptibility of fish and rat liver cells to oxidative stress and cytotoxicity upon exposure to prooxidants.

Toxicity assessment of common xenobiotic compounds on municipal activated sludge: comparison between respirometry and Microtox.

Polycyclic aromatic hydrocarbons modulate cell proliferation in rat hepatic epithelial stem-like WB-F344 cells.

Src and Cas are essentially but differentially involved in angiotensin II-stimulated migration of vascular smooth muscle cells via extracellular signal-regulated kinase 1/2 and c-Jun NH2-terminal kinase activation.

Effects of chronic exposure of 2,4-dichlorophenol on the antioxidant system in liver of freshwater fish *Carassius auratus*.

A novel effect of dioxin: exposure during pregnancy severely impairs mammary gland differentiation.

Signaling cascade of ANG II-induced inhibition of alpha-MG uptake in renal proximal tubule cells.

Whole cell-enzyme hybrid amperometric biosensor for direct determination of organophosphorous nerve agents with p-nitrophenyl substituent.

Cell-based assay for the detection of chemically induced cellular stress by immortalized untransformed transgenic hepatocytes.

The zinc finger protein Zat12 is required for cytosolic ascorbate peroxidase 1 expression during oxidative stress in Arabidopsis.

Compartmental inhibition of hepatic glutathione reductase activities by 1,3-bis(2-chloroethyl)-N-nitrosourea (BCNU) in Sprague-Dawley and Fischer-344 rats.

The effect of *Smallanthus sonchifolius* leaf extracts on rat hepatic metabolism.

Polycyclic aromatic hydrocarbon increases mRNA level for interleukin 1 beta in human fibroblast-like synoviocyte line via aryl hydrocarbon receptor.

Evidence for induction of apoptosis in T cells from murine fetal thymus following perinatal exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Altered epithelial density and expansion of bulbar projections of a discrete HSP70 immunoreactive subpopulation of rat olfactory receptor neurons in reconstituting olfactory epithelium following exposure to methyl bromide.

Multipotency of purified, transplanted globose basal cells in olfactory epithelium.

A comparative study on the effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin polychlorinated biphenyl126 and estrogen in human bronchial epithelial cells.

Impact of mitochondrial inhibition on excitability and cytosolic Ca²⁺ levels in brainstem motoneurons from mouse.

[Changes of thioredoxin mRNA level in neurons with mitochondrial dysfunction insulted by H₂O₂].

Risk factors for dopaminergic neuron loss in human alpha-synuclein transgenic mice.

Formation and urinary excretion of arsenic triglutathione and methylarsenic diglutathione.

Blood saving protocol in elective total knee arthroplasty.

Physiological role of mGSTA4-4, a glutathione S-transferase metabolizing 4-hydroxynonenal: generation and analysis of mGsta4 null mouse.

Potential of carbon tetrachloride hepatotoxicity and lethality in type 2 diabetic rats.

Effects of acute postnatal exposure to 3,3',4,4'-tetrachlorobiphenyl on sperm function and hormone levels in adult rats.

Determination of phenol and o-cresol by GC/MS in a fatal poisoning case.

Ultraviolet A-induced production of matrix metalloproteinase-1 is mediated by macrophage migration inhibitory factor (MIF) in human dermal fibroblasts.

Collaborative effects of *Photobacterium* CuZn superoxide dismutase (SODs) and human AP endonuclease in DNA repair and SOD-deficient *Escherichia coli* under oxidative stress.

Odorant receptor expression patterns are restored in lesion-recovered rat olfactory epithelium.

Histological analysis of acute toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in zebrafish.

Complestatin prevents apoptotic cell death: inhibition of a mitochondrial caspase pathway through AKT/PKB activation.

[Prescribed and reported drug use during pregnancy].

A chronic implant to record electroretinogram, visual evoked potentials and oscillatory potentials in awake, freely moving rats for pharmacological studies.

Effect of acute exposure to arsenic on formalin-induced nociception and tramadol-mediated antinociception in mice.

Gene expression profiles of mouse aorta and cultured vascular smooth muscle cells differ widely, yet show common responses to dioxin exposure.

Development and testing of a novel biosynthesized XCell for treating chronic wounds.

Toxicity, histopathological alterations and immunohistochemical CYP1A induction in the early life stages of the seabream, *Sparus aurata*, following waterborne exposure to B(a)P and TCDD.

Xenoestrogen modulation of the immune system: effects of dichlorodiphenyltrichloroethane (DDT) and 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Inhalation of hazardous air pollutants from environmental tobacco smoke in US residences.

Toxicokinetic and genomic analysis of chronic arsenic exposure in multidrug-resistance *mdr1a/1b*(-/-) double knockout mice.

Enhancement of death-receptor induced caspase-8-activation in the death-inducing signalling complex by uncoupling of oxidative phosphorylation.

An assessment of the genotoxicity and human health risk of topical use of kojic acid [5-hydroxy-2-(hydroxymethyl)-4H-pyran-4-one].

Uptake and depuration of toxic halogenated aromatic hydrocarbons by the American oyster (*Crassostrea virginica*): a field study.

Induction of murine NAD(P)H:quinone oxidoreductase by 2,3,7,8-tetrachlorodibenzo-p-dioxin requires the CNC (cap 'n' collar) basic leucine zipper transcription factor Nrf2 (nuclear factor erythroid 2-related factor 2): cross-interaction between AhR (aryl hydrocarbon receptor) and Nrf2 signal transduction.

Urokinase receptor mRNA stability involves tyrosine phosphorylation in lung epithelial cells.

Reproductive and developmental effects of atrazine on the estuarine meiobenthic copepod *Amphiascus tenuiremis*.

2,4-D (chlorophenoxy) herbicide poisoning.

Effects of environmental estrogenic compounds on growth of a transplanted estrogen responsive pituitary tumor cell line in rats.

Acute, chronic and sublethal effects of the herbicide propanil on *Daphnia magna*.

Development, registration and commercialization of microbial pesticides for plant protection.

Severity assessment in acute paraquat poisoning by analysis of APACHE II score.

Chemobehavioral changes induced by short-term exposures to prochloraz, nicosulfuron, and carbofuran in goldfish.

A case of multiple skin cancers after occupational exposure to pesticides.

[Renal and hepatic failure secondary to cyanamide].

Prospects for treatment of paraquat-induced lung fibrosis with immunosuppressive drugs and the need for better prediction of outcome: a systematic review.

Developmental and subcellular effects of chronic exposure to sub-lethal concentrations of ammonia, PAH and PCP mixtures in brown trout (*Salmo trutta f. fario* L.) early life stages.

[Practical analysis of toxic substances useful for clinical toxicology-8-paraquat].

Assessing the impact of triazine herbicides on organophosphate insecticide toxicity to the earthworm *Eisenia fetida*.

Predictability of combined effects of eight chloroacetanilide herbicides on algal reproduction.

Induction of structural and numerical changes of chromosome, centrosome abnormality, multipolar spindles and multipolar division in cultured Chinese hamster V79 cells by exposure to a trivalent dimethylarsenic compound.

The Metropolitan Atlanta Congenital Defects Program: 35 years of birth defects surveillance at the Centers for Disease Control and Prevention.

Use of biosensors to screen urine samples for potentially toxic chemicals.

Caspase-3 dependent proteolytic activation of protein kinase C delta mediates and regulates 1-methyl-4-phenylpyridinium (MPP⁺)-induced apoptotic cell death in dopaminergic cells: relevance to oxidative stress in dopaminergic degeneration.

Toxic nephropathy: environmental chemicals.

Toxicity of cadmium, endosulfan, and atrazine in adrenal steroidogenic cells of two amphibian species, *Xenopus laevis* and *Rana catesbeiana*.

The environment and Parkinson's disease: is the nigrostriatal system preferentially targeted by neurotoxins?

Integrative assessment of multiple pesticides as risk factors for non-Hodgkin's lymphoma among men.

Chronic studies evaluating the carcinogenicity of monomethylarsonic acid in rats and mice.

Fatal overdose of the herbicide bentazone.

Role of chloroplast photosystems II and I in apoptosis of pea guard cells.

Comparative metabolism of 2,4-dichlorophenoxyacetic acid (2,4-D) in rat and dog.

Exposure to animals and selected risk factors among Canadian farm residents with Hodgkin's disease, multiple myeloma, or soft tissue sarcoma.

Age-related irreversible progressive nigrostriatal dopaminergic neurotoxicity in the paraquat and maneb model of the Parkinson's disease phenotype.

Biochemical and histopathological effects of glyphosate herbicide on Nile tilapia (*Oreochromis niloticus*).

Paraquat leads to dopaminergic neural vulnerability in organotypic midbrain culture.

Aquatic toxicity of glyphosate-based formulations: comparison between different organisms and the effects of environmental factors.

Contrasting effects of organic and inorganic toxicants on freshwater periphyton.

Immunotoxicological effects of Agent Orange exposure to the Vietnam War Korean veterans.

Impact of Agent Orange exposure among Korean Vietnam veterans.

Herbicide effects on embryo implantation and litter size.

Birth malformations and other adverse perinatal outcomes in four U.S. Wheat-producing states.

Toxicity of a complex mixture of atmospherically transported pesticides to *Ceriodaphnia dubia*.

Current applications of plasmapheresis in clinical toxicology.

Investigation of acute toxicity and the effect of 2,4-D (2,4-dichlorophenoxyacetic acid) herbicide on the behavior of the common carp (*Cyprinus carpio* L., 1758; Pisces, Cyprinidae).

Protective effect of 3-methyl-1-phenyl-2-pyrazolin-5-one, a free radical scavenger, on acute toxicity of paraquat in mice.

Fatal 2,4-D (ethyl ester) ingestion.

[Ginkgo biloba extract protection in acute paraquat poisoning of rat lung tissue].

Health effects on nearby residents of a wood treatment plant.

Prevention of dual promoting effects of pentachlorophenol, an environmental pollutant, on diethylnitrosamine-induced hepato- and cholangiocarcinogenesis in mice by green tea infusion.

Consecutive administration of paraquat to rats induces enhanced cholesterol peroxidation and lung injury.

Experimental hepatic uroporphyrinemia induced by the diphenyl-ether herbicide fomesafen in male DBA/2 mice.

Effects of metsulfuron methyl and cypermethrin exposure on freshwater model ecosystems.

[Correction of immunodeficiency status caused by herbicide 2,4-D in experiment].

Serum 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) levels and thyroid function in Air Force veterans of the Vietnam War.

Agent Orange: management of patients exposed in Vietnam.

Allyl alcohol activation of protein kinase C delta leads to cytotoxicity of rat hepatocytes.

Ecological risk assessment for aquatic organisms from over-water uses of glyphosate.

Acute toxicity of organic and inorganic compounds on the freshwater cyclopoid copepod *Eucyclops neumani neumani* (Pesta, 1927).

Protective effect of docosahexaenoic acid on oxidative stress-induced apoptosis of retina photoreceptors.

The teratogenic potential of the herbicide glyphosate-Roundup in Wistar rats.

Identification and quantitation of xenobiotics by ¹H NMR spectroscopy in poisoning cases.

Pesticide use among farmers in the Amazon basin of Ecuador.

MacLennan et al report on an elevated incidence of prostate cancer among workers in a triazine manufacturing plant.

Atrazine-induced hermaphroditism at 0.1 ppb in American leopard frogs (*Rana pipiens*): laboratory and field evidence.

Cancer and developmental exposure to endocrine disruptors.

Effects of L-dopa and other amino acids against paraquat-induced nigrostriatal degeneration.

Toxicity of chlorinated phenoxyacetic acid herbicides in the experimental eukaryotic model *Saccharomyces cerevisiae*: role of pH and of growth phase and size of the yeast cell population.

Mortality among triazine herbicide manufacturing workers.

Effect of the lipid peroxidation product acrolein on tau phosphorylation in neural cells.

The effects of acute pesticide exposure on neuroblastoma cells chronically exposed to diazinon.

The restriction of all minerals in the diet enhancing paraquat toxicity is regarded primarily as the shortage of Mg.

Fatal acute poisoning by bentazon.

In vitro studies on the chemical reactivity of 2,4-dichlorophenoxyacetyl-S-acyl-CoA thioester.

Comparative acute toxicity of herbicides to photosynthesis of coral zooxanthellae.

Effect of haemoperfusion on plasma paraquat concentration in vitro and in vivo.

Polyamines reduce paraquat-induced soxS and its regulon expression in *Escherichia coli*.

Serum dioxin and psychological functioning in U.S. Air Force veterans of the Vietnam War.

More evidence that herbicides feminize amphibians.

Thirty-five cases of S-carboxymethylcysteine use in paraquat poisoning.

Link found between Agent Orange and chronic lymphocytic leukaemia.

Response of larval *Xenopus laevis* to atrazine: assessment of growth, metamorphosis, and gonadal and laryngeal morphology.

Lung function and airway inflammation in rats following exposure to combustion products of carbon-graphite/epoxy composite material: comparison to a rodent model of acute lung injury.

The role of oxidative stress in paraquat-induced neurotoxicity in rats: protection by non peptidyl superoxide dismutase mimetic.

Cross resistance to ALS-inhibiting herbicides in *Euphorbia heterophylla* L. biotypes resistant to imazethapyr.

Paraquat and iron exposure as possible synergistic environmental risk factors in Parkinson's disease.

Detection and quantitation of xenobiotics in biological fluids by ¹H NMR spectroscopy.

[Comparative analysis of disorders in duodenal lymphoid tissue of mice treated with azathioprine and herbicide 2,4-dichlorophenoxyacetic acid and their correction by plant and animal origin remedies].

Pentachlorophenol poisoning.

The mitochondrial complex I inhibitor annonacin is toxic to mesencephalic dopaminergic neurons by impairment of energy metabolism.

Effect of airborne bromoxynil-octanoate and metribuzin on non-target plants.

[Poisoning caused by chemicals for plant protection in Poland in 2001].

Methylprednisolone effects on oxygenation and histology in a rat model of acute lung injury.

[The agrochemical arsenal versus the enemies of plants. General considerations].

Focal transmural necrotic tracheitis in commercial meat turkeys.

Acute fatal paraquat poisoning.

Intravenous paraquat poisoning-induced multiple organ failure and fatality--a report of two cases.

Pentachlorophenol (but not phenobarbital) promotes intrahepatic biliary cysts induced by diethylnitrosamine to cholangio cystic neoplasms in B6C3F1 mice possibly due to oxidative stress.

Comparison of cyanamide and placebo in the treatment of alcohol dependence of adolescents.

Mitochondrial complex inhibitors preferentially damage substantia nigra dopamine neurons in rat brain slices.

Ischemic insult exacerbates acrolein-induced conduction loss and axonal membrane disruption in guinea pig spinal cord white matter.

Preferential megalin-mediated transcytosis of low-homologous thyroglobulin: a control mechanism for thyroid hormone release.

Lack of modifying effects of atrazine and/or tamoxifen on thyroid carcinogenesis in rats pretreated with N-bis(2-hydroxypropyl)nitrosamine (DHPN).

Acute and chronic effects of alcohol exposure on skeletal muscle c-myc, p53, and Bcl-2 mRNA expression.

Effects of dietary folate intake and folate binding protein-1 (Folbp1) on urinary speciation of sodium arsenate in mice.

An inhibitor of mitochondrial complex I, rotenone, inactivates proteasome by oxidative modification and induces aggregation of oxidized proteins in SH-SY5Y cells.

Oral bioavailability of pentachlorophenol from soils of varying characteristics using a rat model.

Cigarette smoke triggers macrophage adhesion and activation: role of lipid peroxidation products and scavenger receptor.

Myocardial perfusion imaging versus biochemical markers in acute coronary syndromes.

Alpha-tocopherol content and alpha-tocopherol transfer protein expression in leukocytes of children with acute leukemia.

Acrolein-sequestering ability of endogenous dipeptides: characterization of carnosine and homocarnosine/acrolein adducts by electrospray ionization tandem mass spectrometry.

Formation of advanced glycosylation end products and oxidative stress in young patients with type 1 diabetes.

Differential induction of Mn-containing superoxide dismutase by paraquat in peripheral lymphocytes of normal subjects and gastric cancer patients.

Alcohol potentiates hepatitis C virus replicon expression.

Paraquat induces long-lasting dopamine overflow through the excitotoxic pathway in the striatum of freely moving rats.

Clotrimazole, ketoconazole, and clodinafop-propargyl as potent growth inhibitors of equine Babesia parasites during in vitro culture.

Increase in putrescine, amine oxidase, and acrolein in plasma of renal failure patients.

In vitro activity of dimethylarsinic acid against human leukemia and multiple myeloma cell lines.

Oxidative stress and altered antioxidant defenses in children with acute exacerbation of atopic dermatitis.

Alpha-synuclein overexpression protects against paraquat-induced neurodegeneration.

Endothelium dysfunction in LDL receptor knockout mice: a role for H₂O₂.

Impacts of glutathione peroxidase-1 knockout on the protection by injected selenium against the pro-oxidant-induced liver aponecrosis and signaling in selenium-deficient mice.

Acrolein produced from polyamines as one of the uraemic toxins.

Immediate sensory nerve-mediated respiratory responses to irritants in healthy and allergic airway-diseased mice.

Low levels of glutathione peroxidase 1 activity in selenium-deficient mouse liver affect c-Jun N-terminal kinase activation and p53 phosphorylation on Ser-15 in pro-oxidant-induced aponecrosis.

The selenoprotein GPX4 is essential for mouse development and protects from radiation and oxidative damage insults.

Cell type-specific hypersensitivity to oxidative damage in CSB and XPA mice.

Acrolein inhibits NADH-linked mitochondrial enzyme activity: implications for Alzheimer's disease.

[Occupational risk and evaluation of health damage in workers engaged in organochlorine compound production].

CYP1a1, HSP70, P53, and c-fos expression in human liver carcinoma cells (HepG2) exposed to pentachlorophenol.

The activation of the retinoic acid response element is inhibited in an animal model of congenital diaphragmatic hernia.

Multi-analyte assay for triazines using cross-reactive antibodies and neural networks.

Interactions of paraquat and triadimefon: behavioral and neurochemical effects.

Antioxidant perturbations in the olfactory mucosa of alachlor-treated rats.

p-Chlorophenoxyisobutyric acid impairs auxin response in Arabidopsis root.

Role of glutathione redox cycle and catalase in defense against oxidative stress induced by endosulfan in adrenocortical cells of rainbow trout (*Oncorhynchus mykiss*).

Current internal exposure to pesticides in children and adolescents in Germany: blood plasma levels of pentachlorophenol (PCP), lindane (gamma-HCH), and dichloro(diphenyl)ethylene (DDE), a biostable metabolite of dichloro(diphenyl)trichloroethane (DDT).

Expression of senescence-enhanced genes in response to oxidative stress.

Tissue-specific expression and localization of safener-induced glutathione S-transferase proteins in *Triticum tauschii*.

Enhancement of catalase activity by repetitive low-grade H₂O₂ exposures protects fibroblasts from subsequent stress-induced apoptosis.

Comparative toxicity of ifosfamide metabolites and protective effect of mesna and amifostine in cultured renal tubule cells.

Acrolein-induced vasomotor responses of rat aorta.

Cinnamaldehyde induces apoptosis by ROS-mediated mitochondrial permeability transition in human promyelocytic leukemia HL-60 cells.

Fatty acid profile in skeletal muscle of the rat in response to acute (2.5 hours) and prolonged (6 weeks) ethanol-dosage.

Change in the concentration of vitamins C and E in rat tissues by paraquat administration.

Clustering of microarray data reveals transcript patterns associated with somatic embryogenesis in soybean.

Increased synaptosomal dopamine content and brain concentration of paraquat produced by selective dithiocarbamates.

Formation and removal of pentachlorophenol-derived protein adducts in rodent liver under acute, multiple, and chronic dosing regimens.

Thioredoxin peroxidases can foster cytoprotection or cell death in response to different stressors: over- and under-expression of thioredoxin peroxidase in *Drosophila* cells.

Acute exposure to the nutritional toxin alcohol reduces brain protein synthesis in vivo.

Neuroprotective effects of alpha-tocopherol on oxidative stress in rat striatal cultures.

Characterization of fish Cu/Zn-superoxide dismutase and its protection from oxidative stress.

[Extracellular protein metabolite of *Luteococcus japonicus* subsp. *casei* reactivates cells subjected to oxidative stress].

The role of oxidative stress in the in vitro induction of micronuclei by pesticides in mouse lung fibroblasts.

Altered Cu metabolism and differential transcription of Cu/ZnSod genes in a Cu/ZnSOD-deficient mutant of maize: evidence for a Cu-responsive transcription factor.

Induction of cellular glutathione and glutathione S-transferase by 3H-1,2-dithiole-3-thione in rat aortic smooth muscle A10 cells: protection against acrolein-induced toxicity.

Dose-dependent biotransformation of arsenite in rats--not S-adenosylmethionine depletion impairs arsenic methylation at high dose.

Inhibition of succinic semialdehyde dehydrogenase activity by alkenal products of lipid peroxidation.

Hepatocyte metabolism of coenzyme Q1 (ubiquinone-5) to its sulfate conjugate decreases its antioxidant activity.

An *Azospirillum brasilense* Tn5 mutant with modified stress response and impaired in flocculation.

Study of atrazine effects on Pacific oyster, *Crassostrea gigas*, haemocytes.

Exposure to indoor pesticides during pregnancy in a multiethnic, urban cohort.

[Acute poisoning caused by intravenous arsenic].

Fish tolerance to organophosphate-induced oxidative stress is dependent on the glutathione metabolism and enhanced by N-acetylcysteine.

Dioxins released from incineration plants and mortality from major diseases: an analysis of statistical data by municipalities.

Downregulation of hippocampal NMDA receptor expression by prenatal exposure to dioxin.

'Iron lung': distinctive bronchoscopic features of acute iron tablet aspiration.

Reticulocyte indices rapidly reflect an increase in iron availability for erythropoiesis.

Mild hypothermia reduces expression of heat shock protein 60 in leukocytes from severely head-injured patients.

Cardiac hypertrophy in aryl hydrocarbon receptor null mice is correlated with elevated angiotensin II, endothelin-1, and mean arterial blood pressure.

Evidence for impaired assimilation of protein in chronic renal failure.

Dioxin and cancer: a critical review.

Risk factors for course of posttraumatic stress disorder among Vietnam veterans: a 14-year follow-up of American Legionnaires.

Genetic predisposition to the cytotoxicity of arsenic: the role of DNA damage and ATM.

Lack of expression of EGF and TGF- α in the fetal mouse alters formation of prostatic epithelial buds and influences the response to TCDD.

Effects of mitochondrial inhibitors and uncouplers on hypoxic vasoconstriction in rabbit lungs.

[Eggs shells intake as a form of pica].

Opposing effects of low and high-dose clozapine on survival of transgenic amyotrophic lateral sclerosis mice.

Connective molecular pathways of experimental bladder inflammation.

Experience of the small size (25 mm) Sorin Bicarbon bileaflet prosthetic valve in patients with small mitral annuli.

Effect of endodontic agents on cytotoxicity induction by sodium fluoride.

Fewer CTL, not enhanced NK cells, are sufficient for viral clearance from the lungs of immunocompromised mice.

A comparative study between intramuscular iron dextran and oral ferrous sulphate in the treatment of iron deficiency anaemia in pregnancy.

A double-masked, randomized control trial of iron supplementation in early infancy in healthy term breast-fed infants.

An unusual cause of burn injury: skin exposure to monochloroacetic acid.

Pathophysiology of the optic neuropathy associated with Friedreich ataxia.

Arsenic exposure accelerates atherogenesis in apolipoprotein E(-/-) mice.

T cell receptor transgenic mice provide novel insights into understanding cellular targets of TCDD: suppression of antibody production, but not the response of CD8(+) T cells, during infection with influenza virus.

Cell proliferation arrest within intrathymic lymphocyte progenitor cells causes thymic atrophy mediated by the aryl hydrocarbon receptor.

Measurement of plasma hydroperoxide concentration by FOX-1 assay in conjunction with triphenylphosphine.

Arsenic species contents at aquaculture farm and in farmed mouthbreeder (*Oreochromis mossambicus*) in blackfoot disease hyperendemic areas.

Role of lipid peroxidation as a mechanism of liver injury after acetaminophen overdose in mice.

Pulmonary surfactant protein A, B, and C mRNA and protein expression in the nitrofen-induced congenital diaphragmatic hernia rat model.

Unbalanced collagenases/TIMP-1 expression and epithelial apoptosis in experimental lung fibrosis.

Actin glutathionylation increases in fibroblasts of patients with Friedreich's ataxia: a potential role in the pathogenesis of the disease.

Induction of C-anaphase and diplochromosome through dysregulation of spindle assembly checkpoint by sodium arsenite in human fibroblasts.

T cell-specific disruption of arylhydrocarbon receptor nuclear translocator (Arnt) gene causes resistance to 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced thymic involution.

Cellular heparan sulfate participates in the metabolism of prions.

Systemic effects and skin injury after experimental dermal exposure to monochloroacetic acid.

Protein-bound uremic retention solutes.

Calcium release from sarcoplasmic reticulum is facilitated in human myotubes derived from carriers of the ryanodine receptor type 1 mutations Ile2182Phe and Gly2375Ala.

Useful interventions for intradialytic hypotension.

2,3,7,8-tetrachlorodibenzo-p-dioxin selectively enhances spontaneous IgE production in B cells from atopic patients.

New insights into Parkinson's disease.

Natural product origins of Hsp90 inhibitors.

Iron supplementation during pregnancy, anemia, and birth weight: a randomized controlled trial.

Comparative kinetics of the uremic toxin p-cresol versus creatinine in rats with and without renal failure.

Functional coupling between sulfonylurea receptor type 1 and a nonselective cation channel in reactive astrocytes from adult rat brain.

Effect of corticosteroid on lung parenchyma remodeling at an early phase of acute lung injury.

Policies on screening female athletes for iron deficiency in NCAA division I-A institutions.

Comparative study on the effects of ointments of tinidazole, hydrocortisone and clobetasol on animal models for inflammatory dermatitis in mice.

Mechanisms of TCDD-induced abnormalities and embryo lethality in white leghorn chickens.

[The chimerism and GVT effects on murine mini-transplantation model].

Link between agricultural pesticides and incidence of prostate cancer.

Significant issues raised by meta-analyses of cancer mortality and dioxin exposure.

Medication-induced oesophageal disorders.

Inhibition of energy metabolism down-regulates the Alzheimer related presenilin 2 gene.

Cancer risk for chemical workers exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Association between blood lead concentrations and body iron status in children.

Pretreatment with periodate-oxidized adenosine enhances developmental toxicity of inorganic arsenic in mice.

Attenuation of exposure-response curves in occupational cohort studies at high exposure levels.

Protective effect of fenugreek (*Trigonella foenum graecum*) seeds in experimental ethanol toxicity.

Herbimycin A attenuates apoptosis during heat stress in rats.

The effect of retinyl palmitate added to iron-fortified maize porridge on erythrocyte incorporation of iron in African children with vitamin A deficiency.

Beta-glucuronidase inhibitor tectorigenin isolated from the flower of *Pueraria thunbergiana* protects carbon tetrachloride-induced liver injury.

Protein tyrosine phosphatase 1B inhibition: opportunities and challenges.

The reliability of long-term storage of direct immunofluorescent staining slides at room temperature.

Uncoupling protein-2 prevents neuronal death and diminishes brain dysfunction after stroke and brain trauma.

Cassava cyanogens and free amino acids in raw and cooked leaves.

The Ile2453Thr mutation in the ryanodine receptor gene 1 is associated with facilitated calcium release from sarcoplasmic reticulum by 4-chloro-m-cresol in human myotubes.

Oxidative capacity in failing hearts.

MCSF expression is induced in healing myocardial infarcts and may regulate monocyte and endothelial cell phenotype.

Inhibition of NF-kappaB essentially contributes to arsenic-induced apoptosis.

S-adenosyl-L-methionine is able to reverse micronucleus formation induced by sodium arsenite and other cytoskeleton disrupting agents in cultured human cells.

Lipophilic organic compounds in lake sediment and American coot (*Fulica americana*) tissues, both affected and unaffected by avian vacuolar myelinopathy.

Critical role for microglial NADPH oxidase in rotenone-induced degeneration of dopaminergic neurons.

Evaluation of iron bioavailability from bonito dark muscle using anemic rats.

Mice with targeted mutation of peroxiredoxin 6 develop normally but are susceptible to oxidative stress.

Effect of acute exposure of sodium arsenite (Na_3AsO_3) on some haematological parameters of *Clarias batrachus* (common Indian cat fish) in vivo.

Dioxin: exposure-response analyses and risk assessment.

Short- and long-term morbidity and mortality in the population exposed to dioxin after the "Seveso accident".

Effects of iron(II) salts and iron(III) complexes on trace element status in children with iron-deficiency anemia.

Description of *Enterococcus canis* sp. nov. from dogs and reclassification of *Enterococcus porcinus* Teixeira et al. 2001 as a junior synonym of *Enterococcus villorum* Vancanneyt et al 2001.

Comparison of response between food supplemented with powdered iron and iron in syrup form for iron deficiency anemia.

Multicentre evaluation of in vitro contracture testing with bolus administration of 4-chloro-m-cresol for diagnosis of malignant hyperthermia susceptibility.

Gene expression of fibroblast growth factors 10 and 7 is downregulated in the lung of nitrofen-induced diaphragmatic hernia in rats.

Risk factors for female infertility in an agricultural region.

Role of elastin in pathologic calcification of xenograft heart valves.

Efficacy and tolerability of low-dose iron supplements during pregnancy: a randomized controlled trial.

Urinary excretion of the uraemic toxin p-cresol in the rat: contribution of glucuronidation to its metabolism.

Effects of perinatal exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin on spatial and visual reversal learning in rats.

Effects of dietary habits and CYP1A1 polymorphisms on blood dioxin concentrations in Japanese men.

Polyglutamine protein aggregation and toxicity are linked to the cellular stress response.

Male reproductive hormones and thyroid function in pesticide applicators in the Red River Valley of Minnesota.

Examining the relationship between impaired host resistance and altered immune function in mice treated with TCDD.

[The encapsulation of recombinant adenovirus containing HSP70 cDNA and its oral transfection effects in the rats].

[Neuroimaging abnormalities in parkinsonism: study of five cases].

Combating iodine and iron deficiencies through the double fortification of fish sauce, mixed fish sauce, and salt brine.

Markers of genetic susceptibility in human environmental hygiene and toxicology: the role of selected CYP, NAT and GST genes.

Celecoxib inhibits proliferation and induces apoptosis via prostaglandin E2 pathway in human cholangiocarcinoma cell lines.

Effect of twice weekly versus daily iron treatment in Turkish children with iron deficiency anemia.

Expression and activity of matrix metallo proteinases 2 and 9 and their inhibitors in rat lungs during the perinatal period and in diaphragmatic hernia.

Protective effect of melatonin against mitochondrial injury induced by ischemia and reperfusion of rat liver.

Globose basal cells are required for reconstitution of olfactory epithelium after methyl bromide lesion.

Induction of cytochrome P450 1A is required for circulation failure and edema by 2,3,7,8-tetrachlorodibenzo-p-dioxin in zebrafish.

Environmental dioxins and endometriosis.

[Effects of dioxins on the reproduction and development in mammals and the mechanism: up-to-date progress of study].

Facioscapulohumeral muscular dystrophy (FSHD) myoblasts demonstrate increased susceptibility to oxidative stress.

Human health effects of sodium azide exposure: a literature review and analysis.

Heat shock protein (HSP72) and p38 MAPK involvement in sublethal hemorrhage (SLH)-induced tolerance.

Effects of agricultural pesticides on the immune system of *Rana pipiens* and on its resistance to parasitic infection.

Use of agricultural pesticides and prostate cancer risk in the Agricultural Health Study cohort.

Health impacts of pesticide exposure in a cohort of outdoor workers.

The adrenal cortex in experimental congenital diaphragmatic hernia.

GVS-111 prevents oxidative damage and apoptosis in normal and Down's syndrome human cortical neurons.

Rat thyroid hyperplasia induced by gestational and lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Human RPE-monocyte co-culture induces chemokine gene expression through activation of MAPK and NIK cascade.

Etiology of congenital diaphragmatic hernia: the retinoid hypothesis.

Airway smooth muscle changes in the nitrofen-induced congenital diaphragmatic hernia rat model.

Cases of fatal poisoning in post-mortem examinations at the Institute of Forensic Medicine in Greifswald--analysis of five decades of post-mortems.

Methylated metabolites of arsenic trioxide are more potent than arsenic trioxide as apoptotic but not differentiation inducers in leukemia and lymphoma cells.

Effect of low dose mono-ortho 2,3',4,4',5 pentachlorobiphenyl on thyroid hormone status and EROD activity in rat offspring: consequences for risk assessment.

Evidence for a role of protein tyrosine kinases in cell death induced by gp120 in CHP100 neuroblastoma cells.

The aryl hydrocarbon receptor and its xenobiotic ligands: a fundamental trigger for cardiovascular diseases.

Do we need daily iron supplementation? Comments and controversies.

Preventive strategy to control iron deficiency anemia in children and adults.

Iron deficiency anemia: preventive strategies and controversies.

Validation of the chloramine-T induced oxidation of human serum albumin as a model for oxidative damage in vivo.

Effect of occupational exposures on male fertility: literature review.

Matrix metalloproteinase-9 and tissue inhibitor of metalloproteinase-1: expression in the lung of fetal rats with nitrofen-induced diaphragmatic hernia.

Evidence of oxidative stress in familial amyloidotic polyneuropathy type 1.

Low concentrations of arsenic induce vascular endothelial growth factor and nitric oxide release and stimulate angiogenesis in vitro.

A neuropsychotoxicological assessment of workers in a sodium azide production plant.

The induction of heat shock protein-72 attenuates cisplatin-induced acute renal failure in rats.

Functional alterations in CD11b(+)Gr-1(+) cells in mice injected with allogeneic tumor cells and treated with 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Environmental estrogens alter early development in *Xenopus laevis*.

Toxicokinetics of DL-glufosinate enantiomer in human BASTA poisoning.

Esophageal injury as a result of ingestion of iron tablets.

Tropical chronic pancreatitis: an update.

Studies on dialysate mixing in the Genius single-pass batch system for hemodialysis therapy.

Edaravone protects against ischemia/reperfusion-induced oxidative damage to mitochondria in rat liver.

Comparative effects of some local food condiments on sodium arsenite-induced clastogenicity.

Determination of urinary hippuric acid and o-cresol levels as biological indicators of toluene exposure in shoe-workers and glue sniffers.

[Effectiveness of weekly iron sulfate in the Family Health Program in Caruaru, Pernambuco State, Brazil].

A comparative study on the gastroduodenal tolerance of different antianaemic preparations.

Anemia: when is it iron deficiency?

Prostate cancer risk in California farm workers.

Dose-response analysis of short-term effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin in three differentially susceptible rat lines.

Zinc protoporphyrin/heme as an indicator of iron status in NICU patients.

Immunocapture and microplate-based activity measurement of mammalian pyruvate dehydrogenase complex.

Effects of metronidazole and tinidazole ointments on models for inflammatory dermatitis in mice.

¹²³I-Interleukin-2: biochemical characterization and in vivo use for imaging autoimmune diseases.

Toxicity of free p-cresol: a prospective and cross-sectional analysis.

Competence at the workplace.

Urinary concentrating defect in hypothyroid rats: role of sodium, potassium, 2-chloride co-transporter, and aquaporins.

Up-regulation of cDK5/p35 by oxidative stress in human neuroblastoma IMR-32 cells.

Basis for a proposed reference dose (RfD) for dioxin of 1-10 pg/kg-day: a weight of evidence evaluation of the human and animal studies.

Erythropoietin therapy in pre-dialysis patients with chronic renal failure: lack of need for parenteral iron.

Effects of uremic ultrafiltrate on the regulation of the parathyroid cell cycle by calcitriol.

Escherichia coli O157:H7 populations in sheep can be reduced by chlorate supplementation.

Arsenic species excretion after dimercaptopropanesulfonic acid (DMPS) treatment of an acute arsenic trioxide poisoning.

Intentional poisoning of animals in southeastern Spain: a review of the veterinary toxicology service from Murcia, Spain.

Flow cytometric measurement of reactive oxygen species production by normal and thalassaemic red blood cells.

Retinal dehydrogenase-2 is inhibited by compounds that induce congenital diaphragmatic hernias in rodents.

Dual fortification of salt with iodine and microencapsulated iron: a randomized, double-blind, controlled trial in Moroccan schoolchildren.

Iron deficiency anemia in infancy: long-lasting effects on auditory and visual system functioning.

Different effects of metabolic inhibitors and cyclosporin A on daunorubicin transport in leukemia cells from patients with AML.

Embryological origins and development of the rat diaphragm.

Peroxynitrite generated in the rat spinal cord induces oxidation and nitration of proteins: reduction by Mn (III) tetrakis (4-benzoic acid) porphyrin.

Clinical nutrition: 8. The role of nutrition in the prevention of iron deficiency anemia in infants, children and adolescents.

Prevention of iron deficiency anemia in adolescent and adult pregnancies.

Iron bioavailability and weight gains to iron-deficient rats fed a commonly consumed Tunisian meal 'bean seeds ragout' with or without beef and with green or black tea decoction.

Infertility and environmental pollutants.

Increase in cardiovascular pathology in female Sprague-Dawley rats following chronic treatment with 2,3,7,8-tetrachlorodibenzo-p-dioxin and 3,3',4,4',5-pentachlorobiphenyl.

PPARalpha agonist-induced rodent tumors: modes of action and human relevance.

A framework for human relevance analysis of information on carcinogenic modes of action.

The use of c-src knockout mice for the identification of the main toxic signaling pathway of TCDD to induce wasting syndrome.

[Iron deficiency anemia in pregnant women and its management with gino-tardyferon].

Estrogens and organochlorine xenoestrogens and breast cancer risk.

Neocortical neurons cultured from mice with expanded CAG repeats in the huntingtin gene: unaltered vulnerability to excitotoxins and other insults.

[Pesticide poisoning].

Analysis of urinary N-acetyl-beta-D-glucosaminidase using 2,4-dinitrophenyl-1-thio N-acetyl-beta-D-glucosaminide as the substrate.

[Occupational epidemiology: from analysis of the apparent to investigation of the unknown].

Src tyrosine kinase but not activated Ras augments sensitivity to taxanes through apoptosis in human adenocarcinoma cells.

[Effect of teeth protector on dental injuries during general anesthesia].

Effect of lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin on the susceptibility to Listeria infection.

Antiperoxidative, anti-inflammatory, and antimutagenic activities of ethanol extract of the mycelium of *Ganoderma lucidum* occurring in South India.

Transplacental carcinogenicity of inorganic arsenic in the drinking water: induction of hepatic, ovarian, pulmonary, and adrenal tumors in mice.

Manganese ethylene-bis-dithiocarbamate and selective dopaminergic neurodegeneration in rat: a link through mitochondrial dysfunction.

Pharmacological induction of HSP27 attenuates intimal hyperplasia in vivo.

Crosslinking of fibrinogen and fibronectin by free radicals: a possible initial step in adhesion formation in osteoarthritis of the temporomandibular joint.

2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD)-induced accumulation of biliverdin and hepatic peliosis in rats.

EGF and TGF- α expression influence the developmental toxicity of TCDD: dose response and AhR phenotype in EGF, TGF- α , and EGF + TGF- α knockout mice.

Iron supplementation improves iron status and reduces morbidity in children with or without upper respiratory tract infections: a randomized controlled study in Colombo, Sri Lanka.

Women with low iron stores absorb iron from soybeans.

Oxidative stress-mediated DHEA formation in Alzheimer's disease pathology.

Calpain mediates progressive plasma membrane permeability and proteolysis of cytoskeleton-associated paxillin, talin, and vinculin during renal cell death.

2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD) stimulates gonadotropin secretion in the immature female Sprague-Dawley rat through a pentobarbital- and estradiol-sensitive mechanism but does not alter gonadotropin-releasing hormone (GnRH) secretion by immortalized GnRH neurons in vitro.

Rescue of light responses in the *Drosophila* "null" phospholipase C mutant, norpAP24, by the diacylglycerol kinase mutant, rdgA, and by metabolic inhibition.

Damage to developing mouse skeletal muscle myotubes in culture: protective effect of heat shock proteins.

Pressure-induced activation of extracellular signal-regulated kinase 1/2 in small arteries.

Oxidative stress-induced cell death of human oral neutrophils.

Pre- or post-treatment with the mitochondrial uncoupler 2,4-dinitrophenol attenuates striatal quinolinate lesions.

A tetrazolium-based colorimetric assay for metabolic activity of stored blood platelets.

Randomization of cortical microtubules in root epidermal cells induces root hair initiation in lettuce (*Lactuca sativa* L.) seedlings.

Metabolism of arsenic by sheep chronically exposed to arsenosugars as a normal part of their diet. 1. Quantitative intake, uptake, and excretion.

Hepatocellular injury with hyperaminotransferasemia after cresol ingestion.

Toxicity of 19 adjuvants to juvenile *Lepomis macrochirus* (bluegill sunfish).

Oral treatment of organophosphate poisoning in mice.

Myeloperoxidase-induced formation of chlorohydrins and lysophospholipids from unsaturated phosphatidylcholines.

Relationships between respiration and susceptibility to azole antifungals in *Candida glabrata*.

Bradykinin B2 receptor-mediated proliferation via activation of the Ras/Raf/MEK/MAPK pathway in rat vascular smooth muscle cells.

Expression of aryl hydrocarbon receptor and aryl hydrocarbon receptor nuclear translocator messenger ribonucleic acids and proteins in rat and human testis.

Acutely administered melatonin restores hepatic mitochondrial physiology in old mice.

Elimination of shrimp endogenous peroxidase background in immunodot blot assays to detect white spot syndrome virus (WSSV).

[The regulatory effect of human bone morphogenetic protein 7 gene transfer on the proliferation and differentiation of rabbit bone marrow mesenchymal stem cells].

Characteristics of the hemostatic action of KFA-1411, an inhibitor of coagulation factor Xa (FXa), in humans and various animals.

Effects of magnesium on the production of extracellular matrix metalloproteinases in cultured rat vascular smooth muscle cells.

Hepatic stem cells: existence and origin.

a-Tocopherol Content and a-Tocopherol Transfer Protein Expression in Leukocytes of Children with Acute Leukemia.

Cell death mechanisms in the human opportunistic pathogen *Candida albicans*.

Homocysteine-induced brain lipid peroxidation: effects of NMDA receptor blockade, antioxidant treatment, and nitric oxide synthase inhibition.

3-methylcholanthrene activates human immunodeficiency virus type 1 replication via aryl hydrocarbon receptor.

Determination of patterns of biologically relevant aldehydes in exhaled breath condensate of healthy subjects by liquid chromatography/atmospheric chemical ionization tandem mass spectrometry.

Toxicokinetics and physiologically based toxicokinetics in toxicology and risk assessment.

Herbimycin A induces sympathetic neuron survival and protects against hypoxia.

Generation of aldehyde-derived protein modifications in ethanol-exposed heart.

Polymorphisms in the human monomethylarsonic acid (MMA V) reductase/hGSTO1 gene and changes in urinary arsenic profiles.

Oxidative stress and aging--the use of superoxide dismutase/catalase mimetics to extend lifespan.

Health benefits and potential risks related to consumption of fish or fish oil.

Reversible and irreversible emission of methanethiol and dimethyl disulfide from anaerobically stored broccoli.

[Genotoxic effects of pesticide-treated vegetable extracts using the *Allium cepa* chromosome aberration and micronucleus tests].

Assessment of the probabilistic ecological risk assessment-toxic equivalent combination approach for evaluating pesticide mixture toxicity to zooplankton in outdoor microcosms.

Experimental evidence for the physiological role of bacterial luciferase in the protection of cells against oxidative stress.

[A fatal kiss between estrogen receptor and dioxin].

Evaluation of bioanalytical assays for toxicity assessment and mode of toxic action classification of reactive chemicals.

Oxygen availability during orthotopic liver transplantation.

Low density lipoprotein receptor-related protein (LRP) is a heparin-dependent adhesion receptor for connective tissue growth factor (CTGF) in rat activated hepatic stellate cells.

Implications of glucose transporter protein type 1 (GLUT1)-haplodeficiency in embryonic stem cells for their survival in response to hypoxic stress.

TCDD-induced expression of Ah receptor responsive genes in the pituitary and brain of cellular retinol-binding protein (CRBP-I) knockout mice.

Role of mitochondrial aldehyde dehydrogenase in nitrate tolerance.

The role of antioxidant enzymes in TCDD-induced oxidative stress in various brain regions of rats after subchronic exposure.

TCDD-induced apoptosis in EL-4 cells deficient of the aryl hydrocarbon receptor and down-regulation of IGFBP-6 prevented the apoptotic cell death.

Inhibition of [18F]FP-TZTP binding by loading doses of muscarinic agonists P-TZTP or FP-TZTP in vivo is not due to agonist-induced reduction in cerebral blood flow.

Characterization of a wound-inducible cytochrome P450 gene (CYP72A29) that is down-regulated during crown gall tumorigenesis in potato tuber.

Kinetics of monochloroacetic acid at subtoxic and toxic doses in rats after single oral and dermal administrations.

The role of hepatocellular oxidative stress in Kupffer cell activation during 1,2-dichlorobenzene-induced hepatotoxicity.

Alteration of keratinocyte differentiation and senescence by the tumor promoter dioxin.

Abnormal growth of polyamine-deficient Escherichia coli mutant is partially caused by oxidative stress-induced damage.

The requirement of ammonium or other cations linked with p-cresol sulfate for cross-reactivity with a peptide of myelin basic protein.

NTP toxicology and carcinogenesis Studies of 2,4-hexadienal (89% trans,trans isomer, CAS No. 142-83-6; 11% cis,trans isomer) (Gavage Studies).

Phospholipase A2, hydroxyl radicals, and lipid peroxidation in transient cerebral ischemia.

[Development of the protein therapeutics using the super anti-cell death factor FNK].

Protective effect of benidipine against sodium azide-induced cell death in cultured neonatal rat cardiac myocytes.

Toxicogenomic effects of marine brevetoxins in liver and brain of mouse.

Interaction of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) with induced adipocyte differentiation in mouse embryonic fibroblasts (MEFs) involves tyrosine kinase c-Src.

Decreased enzyme activity of hepatic thioredoxin reductase and glutathione reductase in rabbits by prolonged exposure to inorganic arsenate.

Combined toxicity effects of MTBE and pesticides measured with Vibrio fischeri and Daphnia magna bioassays.

Effects of boron foliar applications on vegetative and reproductive growth of sunflower.

KB130015, a new amiodarone derivative with multiple effects on cardiac ion channels.

Effect of dietary co-administration of sodium selenite on sodium arsenite-induced ovarian and uterine disorders in mature albino rats.

Analysis of tryptophan and tyrosine in cerebrospinal fluid by capillary electrophoresis and "ball lens" UV-pulsed laser-induced fluorescence detection.

Mislocalization of membrane proteins associated with multidrug resistance in cisplatin-resistant cancer cell lines.

Endogenously produced endothelial lipase enhances binding and cellular processing of plasma lipoproteins via heparan sulfate proteoglycan-mediated pathway.

Ischemic preconditioning by caspase cleavage of poly(ADP-ribose) polymerase-1.

Impact of Management Practices on Prevalence of Soybean Sclerotinia Stem Rot in the North-Central United States and on Farmers' Decisions Under Uncertainty.

Acute application of TNF stimulates apical 70-pS K⁺ channels in the thick ascending limb of rat kidney.

On the significance of the role of cellular stress response reactions in the toxic actions of dioxin.

Aberrant utilization of nitric oxide and regulation of soluble guanylate cyclase in rat diabetic retinopathy.

Genetic variation in genes associated with arsenic metabolism: glutathione S-transferase omega 1-1 and purine nucleoside phosphorylase polymorphisms in European and indigenous Americans.

Cell selective cAMP induction of rat CYP1B1 in adrenal and testis cells. Identification of a novel cAMP-responsive far upstream enhancer and a second Ah receptor-dependent mechanism.

Tissue repair plays pivotal role in final outcome of liver injury following chloroform and allyl alcohol binary mixture.

Differential genotoxicity of ethyl methanesulphonate, N-ethyl-N-nitrosourea and maleic hydrazide in tobacco seedlings based on data of the Comet assay and two recombination assays.

Pharmacokinetics of ovarian steroids in Sprague-Dawley rats after acute exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Characterization of a recombinant molecule covalently indistinguishable from human cerebroside-sulfate activator protein (CSAct or Saposin B).

Survey on the health effects of chronic exposure to dioxins and its accumulation on workers of a municipal solid waste incinerator, rural part of Osaka Prefecture, and the results of extended survey afterwards.

Stabilized ferrous gluconate as iron source for food fortification: bioavailability and toxicity studies in rats.

The missing biomarker link: relationships between effects on the cellular energy allocation biomarker of toxicant-stressed *Daphnia magna* and corresponding population characteristics.

Activation and inhibition of cellular calcium and tyrosine kinase signaling pathways identify targets of the HBx protein involved in hepatitis B virus replication.

Zebrafish as a novel experimental model for developmental toxicology.

Mutation or drug-dependent microtubule disruption causes radial swelling without altering parallel cellulose microfibril deposition in Arabidopsis root cells.

A cuvette-based fluorometric analysis of mitochondrial membrane potential measured in cultured astrocyte monolayers.

Quantitative structure toxicity relationships for phenols in isolated rat hepatocytes.

Metabolic analysis in drug design.

Genomic and proteomic profiling of responses to toxic metals in human lung cells.

Selenoprotein metabolism and function: evidence for more than one function for selenoprotein P.

MtsABC is important for manganese and iron transport, oxidative stress resistance, and virulence of *Streptococcus pyogenes*.

The multidrug resistance-associated protein 1 transports methoxychlor and protects the seminiferous epithelium from injury.

Occurrence of *Botrytis cinerea* and Subsequent Disease Expression at Different Positions on Leaves and Bunches of Grape.

Role of reactive oxygen species and antioxidants in plant disease resistance.

Iron toxicity in organotypic cultures of hippocampal slices: role of reactive oxygen species.

Whole-grain rye and wheat foods and markers of bowel health in overweight middle-aged men.

Caveolin-induced activation of the phosphatidylinositol 3-kinase/Akt pathway increases arsenite cytotoxicity.

RNA interference-mediated silencing of Sod2 in *Drosophila* leads to early adult-onset mortality and elevated endogenous oxidative stress.

The chelating treatment is not useful in human's intoxication with acute herbicidal organic arsenic.

Weed control in rose-scented geranium (*Pelargonium* spp).

Exposure to the herbicide acetochlor alters thyroid hormone-dependent gene expression and metamorphosis in *Xenopus laevis*.

Functional activation of peroxisome proliferator-activated receptor alpha (PPARalpha) by environmental chemicals in relation to their toxicities.

Cancer incidence among triazine herbicide manufacturing workers.

Combined methylprednisolone and dexamethasone therapy for paraquat poisoning.

Induction of glutathione S-transferases in Arabidopsis by herbicide safeners.

Developmental toxicity of a commercial herbicide mixture in mice: I. Effects on embryo implantation and litter size.

Amphibian declines. Conflict brewing over herbicide's link to frog deformities.

Herbicides: feminization of male frogs in the wild.

Role of antioxidants in paraquat toxicity.

Differential heat shock gene hsp70-1 response to toxicants revealed by in vivo study of lungs in transgenic mice.

Developmental exposure to the pesticides paraquat and maneb and the Parkinson's disease phenotype.

In vitro myelotoxicity of propanil and 3,4-dichloroaniline on murine and human CFU-E/BFU-E progenitors.

[Genotoxic effect of PCP and lindane on human epithelial tonsil cells].

Synergistic effects of low level stressors in an oxidative damage model of spinal motor neuron degeneration.

Responses of microbial activity and decomposer organisms to contamination in microcosms containing coniferous forest soil.

Fatal intentional poisoning cases admitted to the University Hospitals of Leuven, Belgium from 1993 to 1996.

Impact of four pesticides on the growth and metabolic activities of two photosynthetic algae.

Paraquat-induced gene expression in rat lung tissues using a differential display reverse transcription-polymerase chain reaction.

Herbicide safeners: uses, limitations, metabolism, and mechanisms of action.

A survey of EPA/OPP and open literature on selected pesticide chemicals. III. Mutagenicity and carcinogenicity of benomyl and carbendazim.

Nuclear and nucleolar glutathione reductase, peroxidase, and transferase activities in livers of male and female Fischer-344 rats.

Effect of 2'-benzoyl-oxycinnamaldehyde on RPE cells in vitro and in an experimental proliferative vitreoretinopathy model.

Methylprednisolone does not enhance the surfactant effects on oxygenation and histology in paraquat-induced rat lung injury.

Expression of mutant alpha-synucleins enhances dopamine transporter-mediated MPP+ toxicity in vitro.

A review of animal models for the study of arsenic carcinogenesis.

[An unusual case of toxic hepatitis from paraquat].

A risk assessment of pollution: induction of atrazine tolerance in phytoplankton communities in freshwater outdoor mesocosms, using chlorophyll fluorescence as an endpoint.

Review of 2,4-dichlorophenoxyacetic acid (2,4-D) epidemiology and toxicology.

Environmental agents as cause of health disorders in children presented at an outpatient unit of environmental medicine.

Oral (gavage) two-generation (one litter per generation) reproduction study of pentachlorophenol (penta) in rats.

Environmental risk factors and Parkinson's disease: selective degeneration of nigral dopaminergic neurons caused by the herbicide paraquat.

Increased toxicity to invertebrates associated with a mixture of atrazine and organophosphate insecticides.

Broadening our outlook on sources for corneal donation.

Specific up-regulation of GADD153/CHOP in 1-methyl-4-phenyl-pyridinium-treated SH-SY5Y cells.

Role of hydroxyl radical formation in neurotoxicity as revealed by in vivo free radical trapping.

The effects of atrazine on the sexual maturation of female rats.

The volatile fraction of cigarette smoke induces alterations in the human gingival fibroblast cytoskeleton.

Increased sensitivity in dopamine D(2)-like brain receptors from 2,4-dichlorophenoxyacetic acid (2,4-D)-exposed and amphetamine-challenged rats.

Environmental chemical compounds could induce sensitization to drugs of abuse.

Pathways involved in mild gastrointestinal inflammation induced by a low level exposure to a food contaminant.

Birth defects, season of conception, and sex of children born to pesticide applicators living in the Red River Valley of Minnesota, USA.

Paraquat detoxicative system in the mouse liver postmitochondrial fraction.

Predictors of survival after acute paraquat poisoning.

Testicular changes induced by chronic exposure to the herbicide formulation, Tordon 75D (2,4-dichlorophenoxyacetic acid and picloram) in rats.

Atrazine inhibition of testosterone production in rat males following peripubertal exposure.

Kinetics of paraquat and copper reactions with nitroxides: the effects of nitroxides on the aerobic and anoxic toxicity of paraquat.

A major human arsenic metabolite, dimethylarsinic acid, requires reduced glutathione to induce apoptosis.

Coca-killing controversy.

Amphibian decline. Ubiquitous herbicide emasculates frogs.

Frogs put in the gender blender by America's favourite herbicide.

Hermaphroditic, demasculinized frogs after exposure to the herbicide atrazine at low ecologically relevant doses.

Analysis and toxicity of methomyl and ametryn after biodegradation.

Agent Orange no longer linked to childhood AML.

[Elucidation of paraquat poisoning mechanism and development of the neuronal death model].

Paraquat intoxication in Korea.

Postnatal survival of rat offspring prenatally exposed to pure 2,4-dichlorophenoxyacetic acid (2,4-D).

Occupational voice disorders due to workplace exposure to irritants--a review of the literature.

Differential effects of olfactory toxicants on olfactory regeneration.

Effects of atrazine and cyanazine on chlorpyrifos toxicity in *Chironomus tentans* (Diptera: Chironomidae).

Response of the amphibian tadpole (*Xenopus laevis*) to atrazine during sexual differentiation of the testis.

The ocular surface toxicity of paraquat.

Effects of bensulfuron-methyl and cinosulfuron on growth of four freshwater species of phytoplankton.

Toxicity of 40 herbicides to the green alga *Chlorella vulgaris*.

Absorption, metabolism and excretion of 4-chloro-2-methylphenoxyacetic acid (MCPA) in rat and dog.

A 16-year-old boy with rapidly progressing pulmonary fibrosis.

Predicted impact of transgenic, herbicidetolerant corn on drinking water quality in vulnerable watersheds of the mid-western USA.

Developmental disorders in embryos of the frog *Xenopus laevis* induced by chloroacetanilide herbicides and their degradation products.

Prolonged survival after experimental paraquat intoxication: role of alternative antioxidants.

Effects of paraquat on essential antioxidant elements in osteogenic disorder Shionogi rat.

Acrolein-induced cytotoxicity in cultured human bronchial epithelial cells. Modulation by alpha-tocopherol and ascorbic acid.

Paraquat-induced oxidative stress and dysfunction of the glutathione redox cycle in pulmonary microvascular endothelial cells.

Fate and sublethal effects of isoproturon on mature earthworm (*Lumbricus terrestris* L.).

Recovery of non-target plants affected by airborne herbicides.

Fetotoxic action of 2,4-dichlorophenoxyacetic acid (2,4-D). III. Morphological changes in rat kidneys.

An analysis of glyphosate data from the California Environmental Protection Agency Pesticide Illness Surveillance Program.

Severe propanil [N-(3,4-dichlorophenyl) propanamide] pesticide self-poisoning.

Sunscreens can increase dermal penetration of 2,4-dichlorophenoxyacetic acid.

Radioprotectants: current status and new directions.

A 'single toxin-double lesion' rat model of striatonigral degeneration by intrastriatal 1-methyl-4-phenylpyridinium ion injection: a motor behavioural analysis.

Acrolein inflicts axonal membrane disruption and conduction loss in isolated guinea-pig spinal cord.

Evaluation of the aneugenic potential of the fungicide Ferbam in mice.

In vitro effect of air pollutants on human bronchi.

[Participation of dexamethasone and E and C vitamins in the modulation of the hepatotoxic effect induced by fomesafen and 2,4-D amino herbicides, in rats].

Involvement of N-methyl-D-aspartate receptors in nociception in the cyclophosphamide-induced vesical pain model in the conscious rat.

Comparative toxic and genotoxic effects of chloroacetanilides, formamidines and their degradation products on *Vibrio fischeri* and *Chironomus riparius*.

Toxicological effects of the herbicide oxyfluorfen on acetylcholinesterase in two fish species: *Oreochromis niloticus* and *Gambusia affinis*.

Lesions induced by 2,4-D and chlorpyrifos in tench (*Tinca tinca* L.): implication in toxicity studies.

[Herbicides and congenital malformations in Meta, Colombia].

Changes in urinary bladder cytokine mRNA and protein after cyclophosphamide-induced cystitis.

Effects of nonylphenol, 1,1-dichloro-2,2-bis(p-chlorophenyl)ethylene (p,p'-DDE), and pentachlorophenol on the adult female guinea pig reproductive tract.

[Chlorophenols: intermediate by-products of 2,4-dichlorophenoxyacetic acid synthesis. Toxicity and hazard].

Accident insurance, sickness, and science: New Zealand's no-fault system.

Evaluation of the protective effect of oestradiol against toxicity induced by 6-hydroxydopamine and 1-methyl-4-phenylpyridinium ion (Mpp+) towards dopaminergic mesencephalic neurones in primary culture.

In vivo antioxidant role of glutathione peroxidase: evidence from knockout mice.

Endocrine active agents: implications of adverse and non-adverse changes.

A fatal human intoxication with the herbicide allyl alcohol (2-propen-1-ol).

Pesticide-related symptoms among farm workers in rural Honduras.

[Pesticide poisoning].

Failure of continuous venovenous hemofiltration to prevent death in paraquat poisoning.

Serum protein acrolein adducts: utility in detecting oxidant stress in hemodialysis patients and reversal using a vitamin E-bonded hemodialyzer.

Mutagenesis by acrolein-derived propanodeoxyguanosine adducts in human cells.

Characterization of nitric oxide consumption pathways by normal, chronic granulomatous disease and myeloperoxidase-deficient human neutrophils.

Combined effect of chronic hypoxia and in vitro exposure to gas pollutants on airway reactivity.

Differential susceptibilities of serine/threonine phosphatases to oxidative and nitrosative stress.

Is *Lolium* pollen from an urban environment more allergenic than rural pollen?

Essential role of ferritin Pfr in *Helicobacter pylori* iron metabolism and gastric colonization.

Oxygen metabolites and hypoxic renal injury: effect of mitochondrial electron transport blockade.

Mucin apoprotein expression in COPD.

The restoring effect of trifluralin and benznidazole on the abnormal fatty-acid pattern induced by *Trypanosoma cruzi* in the liver microsomes of infected mice.

In vivo copper-mediated free radical production: an ESR spin-trapping study.

Paraquat- and diquat-induced oxygen radical generation and lipid peroxidation in rat brain microsomes.

Serum SP-D is a marker of lung injury in rats.

Plasmodium: assessment of the antimalarial potential of trifluralin and related compounds using a rat model of malaria, *Rattus norvegicus*.

Acrolein modifies and inhibits cytosolic aspartate aminotransferase.

Analysis of DNA adducts in rats exposed to pentachlorophenol.

Inhibition of cell proliferation and AP-1 activity by acrolein in human A549 lung adenocarcinoma cells due to thiol imbalance and covalent modifications.

Acrolein-induced cell death: a caspase-influenced decision between apoptosis and oncosis/necrosis.

Protection against acetaminophen hepatotoxicity by clofibrate pretreatment: role of catalase induction.

Neuroprotection by adenosine A2A receptor blockade in experimental models of Parkinson's disease.

Lipid peroxidation contributes to immune reactions associated with alcoholic liver disease.

Aldehyde-sequestering drugs: tools for studying protein damage by lipid peroxidation products.

Acrolein activates mitogen-activated protein kinase signal transduction pathways in rat vascular smooth muscle cells.

Ozone-induced ethylene production is dependent on salicylic acid, and both salicylic acid and ethylene act in concert to regulate ozone-induced cell death.

Control of oxidative stress resistance by IP3 kinase in *Drosophila melanogaster*.

A method for assaying the sensitivity of *Drosophila* replication checkpoint mutants to anti-cancer and DNA-damaging drugs.

Generation of protein adducts with malondialdehyde and acetaldehyde in muscles with predominantly type I or type II fibers in rats exposed to ethanol and the acetaldehyde dehydrogenase inhibitor cyanamide.

Metabolic disturbances in fish exposed to sodium pentachlorophenate (NaPCP) and 3,3',4,4',5-pentachlorobiphenyl (PCB126), individually or combined.

Molecular requisites for drug binding to muscle CLC-1 and renal CLC-K channel revealed by the use of phenoxy-alkyl derivatives of 2-(p-chlorophenoxy)propionic acid.

The barley MLO modulator of defense and cell death is responsive to biotic and abiotic stress stimuli.

Acrolein causes transcriptional induction of phase II genes by activation of Nrf2 in human lung type II epithelial (A549) cells.

Involvement of chloroplasts in the programmed death of plant cells.

Combined calcium carbimide and ethanol treatment induces high blood acetaldehyde levels, myocardial apoptosis and altered expression of apoptosis-regulating genes in rat.

9-polylysine protein transduction domain: enhanced penetration efficiency of superoxide dismutase into mammalian cells and skin.

Age-related alteration in hepatic disposition of the neurotoxin 1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine and pesticides.

Hydrogen peroxide protects tobacco from oxidative stress by inducing a set of antioxidant enzymes.

Chemiluminescence of superoxide generated by *Candida albicans*: differential effects of the superoxide generator paraquat on a wild-type strain and a respiratory mutant.

Endogenous Nod-factor-like signal molecules promote early somatic embryo development in Norway spruce.

Resistance against herbicide isoxaben and cellulose deficiency caused by distinct mutations in same cellulose synthase isoform CESA6.

Involvement of the Arabidopsis alpha-DOX1 fatty acid dioxygenase in protection against oxidative stress and cell death.

Role of mitochondria in toxic cell death.

Chemokine-independent preference for T-helper-1 cells in transendothelial migration.

Altered protein profile and possible hypoxia in the placenta of 2,3,7,8-tetrachlorodibenzo-p-dioxin-exposed rats.

Localization of tumor by chemiluminescence probe during photosensitization action.

Phosphorylated alpha-synuclein is ubiquitinated in alpha-synucleinopathy lesions.

Non-genotoxic carcinogens: early effects on gap junctions, cell proliferation and apoptosis in the rat.

[Human neurotoxicity of ethylene-bis-dithiocarbamates (EBDC)].

[Genetics and environmental factors of Parkinson disease].

Operational issues in the control of the vectors of Brugia.

Balancing risks in the management of contaminated first nations fisheries.

No reduction of metabolic rate in food restricted Caenorhabditis elegans.

Effects of ascorbic acid and alpha-tocopherol on arsenic-induced oxidative stress.

Comparative toxicity study of 3-aminophenol in newborn and young rats.

The usefulness of elemental iron for cereal flour fortification: a SUSTAIN Task Force report. Sharing United States Technology to Aid in the Improvement of Nutrition.

Interactive effect of chemical substances and occupational electromagnetic field exposure on the risk of gliomas and meningiomas in Swedish men.

Myoplasmic calcium regulation in myotubes from horses with recurrent exertional rhabdomyolysis.

T lymphocytes are direct, aryl hydrocarbon receptor (AhR)-dependent targets of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD): AhR expression in both CD4+ and CD8+ T cells is necessary for full suppression of a cytotoxic T lymphocyte response by TCDD.

Acute toxicity of carbonyl iron and sodium iron EDTA compared with ferrous sulfate in young rats.

Expression of hsp 27, hsp 60, hsc 70, and hsp 70 stress response genes in cultured human urothelial cells (UROtsa) exposed to lethal and sublethal concentrations of sodium arsenite.

Community exposures to airborne agricultural pesticides in California: ranking of inhalation risks.

Immunologic effects of dioxin: new results from Seveso and comparison with other studies.

Addition of microencapsulated iron to iodized salt improves the efficacy of iodine in goitrous, iron-deficient children: a randomized, double-blind, controlled trial.

Pulmonary effects of ultrafine and fine ammonium salts aerosols in healthy and monocrotaline-treated rats following short-term exposure.

P-cresol, a uremic toxin, decreases endothelial cell response to inflammatory cytokines.

Formation of reactive oxygen species in rat hepatoma-derived Fa32 cells to predict human toxicity.

Associations of dichlorodiphenyltrichloroethane (DDT) 4.4 and dichlorodiphenyldichloroethylene (DDE) 4.4 blood levels with plasma IL-4.

[Modern problems of biodosimetry].

Undersulfation of proteoglycans and proteins alter C6 glioma cells proliferation, adhesion and extracellular matrix organization.

Effects of sodium arsenite exposure on development and behavior in the rat.

Activation of mitogen-activated protein kinases during granulocyte apoptosis in patients with severe sepsis.

Detection of proton release from cultured human myotubes to identify malignant hyperthermia susceptibility.

Patients with malignant hyperthermia demonstrate an altered calcium control mechanism in B lymphocytes.

Iron-induced bronchial injury.

Role of bioavailable iron in coal dust-induced activation of activator protein-1 and nuclear factor of activated T cells: difference between Pennsylvania and Utah coal dusts.

Cell-type specificity of ectonucleotidase expression and upregulation by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Cytoskeletal structure of myoblasts with the mitochondrial DNA 3243A-->G mutation and of osteosarcoma cells with respiratory chain deficiency.

The Coca-Cola incident in Belgium, June 1999.

The clinicopathologic significance of enriching grated cassava mash with red palm oil in the production of gari.

[Photocontact dermatitis due to ketoprofen and photosensitization to tetrachlorosalicylanide and to Fenticlor(R)].

Arsenite cocarcinogenesis: an animal model derived from genetic toxicology studies.

Indirect effects of oral tolerance to ovalbumin interfere with the immune responses triggered by *Schistosoma mansoni* eggs.

Lipid metabolism and neuropsychological follow-up study of workers exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Alcohol-induced increases in insulin-like growth factor binding protein-1 are partially mediated by TNF.

Arsenic induces peroxynitrite generation and cyclooxygenase-2 protein expression in aortic endothelial cells: possible role in atherosclerosis.

Bioavailability of caseinophosphopeptide-bound iron.

Expression of surfactant proteins and thyroid transcription factor 1 in an ovine model of congenital diaphragmatic hernia.

Differential toxicogenomic responses to 2,3,7,8-tetrachlorodibenzo-p-dioxin in malignant and nonmalignant human airway epithelial cells.

[Endemic spastic paraparesis (konzo)].

Clinical approach to chronic beryllium disease and other nonpneumoconiotic interstitial lung diseases.

The effect of iron deficiency anaemia on the levels of haemoglobin subtypes: possible consequences for clinical diagnosis.

On the role of monoamine oxidase-A for the maintenance of the volitional consumption of ethanol in two different rat models.

Effects of chronic dietary exposure to environmentally relevant concentrations to 2,3,7,8-tetrachlorodibenzo-p-dioxin on survival, growth, reproduction and biochemical responses of female rainbow trout (*Oncorhynchus mykiss*).

Impaired axonal transport of cortical neurons in Alzheimer's disease is associated with neuropathological changes.

Increased arylhydrocarbon receptor expression offers a potential therapeutic target for pancreatic cancer.

The rat as a model in developmental immunotoxicology.

The Belgian PCB/dioxin incident: a critical review of health risks evaluations.

Domestic drinking water--an effective way to prevent anemia among low socioeconomic families in Brazil.

The effect of different iron fortificants on iron absorption from iron-fortified rice.

Determination of autofluorescence of red blood cells (RbCs) in uremic patients as a marker of oxidative damage.

Antipruritic and antiinflammatory effects of aqueous extract from Si-Wu-Tang.

Critical windows of vulnerability for effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin on prostate and seminal vesicle development in C57BL/6 mice.

2,3,7,8-tetrachlorodibenzo-p-dioxin causes alterations in lymphocyte development and thymic atrophy in hemopoietic chimeras generated from mice deficient in ARNT2.

Mortality in dioxin-exposed mice infected with influenza: mitochondrial toxicity (reye's-like syndrome) versus enhanced inflammation as the mode of action.

Linking dioxins to diabetes: epidemiology and biologic plausibility.

Molecular analysis of the pathogenicity locus and polymorphism in the putative negative regulator of toxin production (TcdC) among *Clostridium difficile* clinical isolates.

Dioxin stimulates RANTES expression in an in-vitro model of endometriosis.

Nitrofen inhibition of pulmonary growth and development occurs in the early embryonic mouse.

Environmental risk factors of young onset Parkinson's disease: a case-control study.

A study on behavioral, neurotoxicological, and immunotoxicological effects of subchronic arsenic treatment in rats.

Activation of adenosine triphosphate-sensitive potassium channels confers protection against rotenone-induced cell death: therapeutic implications for Parkinson's disease.

Beta 1-integrin protects hepatoma cells from chemotherapy induced apoptosis via a mitogen-activated protein kinase dependent pathway.

Ethanol induces fatty acid synthesis pathways by activation of sterol regulatory element-binding protein (SREBP).

Laboratory safety.

Bioavailability of Petit-Suisse cheese as food vehicle for iron fortification estimated by the prophylactic method.

The role of Akt and RAFK in beta1 integrin mediated survival of precursor B-acute lymphoblastic leukemia cells.

FLT3 in human hematologic malignancies.

Severe hepatic dysfunction following cresol poisoning.

Increased sensitivity to 4-chloro-m-cresol and caffeine in primary myotubes from malignant hyperthermia susceptible individuals carrying the ryanodine receptor 1 Thr2206Met (C6617T) mutation.

Aryl hydrocarbon receptor nuclear translocator 2 (ARNT2): structure, gene mapping, polymorphisms, and candidate evaluation for human orofacial clefts.

Reversal of iron deficiency anemia-induced peripheral neuropathy by iron treatment in children with iron deficiency anemia.

Oxidation-reduction (redox) controls fetal hypoplastic lung growth.

Promotion of altered hepatic foci by 2,3,7,8-tetrachlorodibenzo-p-dioxin and 17beta-estradiol in male Sprague-Dawley rats.

Behavior of non-protein-bound and protein-bound uremic solutes during daily hemodialysis.

Selective apoptosis of tandemly duplicated FLT3-transformed leukemia cells by Hsp90 inhibitors.

Lethal body residue of chlorophenols and mixtures of chlorophenols in benthic organisms.

Experimental study on photodynamic diagnosis of cancer mediated by chemiluminescence probe.

In vivo effects of Panax ginseng extracts on the cytochrome P450-dependent monooxygenase system in the liver of 2,3,7,8-tetrachlorodibenzo-p-dioxin-exposed guinea pig.

[Neurotoxicity in sodium azide poisoning].

Workshop report. Children as a special subpopulation: focus on immunotoxicity. Federal Institute for Health Protection of Consumers and Veterinary Medicine (BgVV), 15-16 November 2001, Berlin, Germany.

Challenging embryological theories on congenital diaphragmatic hernia: future therapeutic implications for paediatric surgery.

Entacapone does not induce conformational changes in liver mitochondria or skeletal muscle in vivo.

Endocrine dismodulation and cancer.

Tyrosinemia I, a model for human diseases mediated by 2-oxoacid-utilizing dioxygenases: hepatotoxin suppression by NTBC does not normalize hepatic collagen metabolism.

Induction of HSP72 by sodium arsenite fails to protect against cholecystokinin-octapeptide-induced acute pancreatitis in rats.

Induction of endolymphatic hydrops by directly infused monoclonal antibody against type II collagen CB11 peptide.

Serum dioxin concentrations and endometriosis: a cohort study in Seveso, Italy.

2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD) induces plasminogen activator inhibitor-1 through an aryl hydrocarbon receptor-mediated pathway in mouse hepatoma cell lines.

Effect of arsenic, cadmium and lead on the induction of apoptosis of normal human mononuclear cells.

Endothelial PAS domain protein 1 (EPAS1) induces adrenomedullin gene expression in cardiac myocytes: role of EPAS1 in an inflammatory response in cardiac myocytes.

Supplemental zinc lowers measures of iron status in young women with low iron reserves.

Does iron have a place in the management of breath holding spells?

Role of ATP in the sensitivity to heat and the induction of apoptosis in mammalian cells.

Effects of in utero exposure to the organophosphate insecticide fenitrothion on androgen-dependent reproductive development in the CrI:CD(SD)BR rat.

Differential activation of the c-Jun N-terminal kinase pathway in arsenite-induced apoptosis and sensitization of chemically resistant compared to susceptible B-lymphoma cell lines.

Mechanisms of 2-butoxyethanol carcinogenicity: studies on Syrian Hamster Embryo (SHE) cell transformation.

Platelet endothelial cell adhesion molecule-1 (PECAM-1/CD31) acts as a regulator of B-cell development, B-cell antigen receptor (BCR)-mediated activation, and autoimmune disease.

Cytoprotective properties of novel nonpeptide calpain inhibitors in renal cells.

Comparison of acute toxicities of indolo[3,2-b]carbazole (ICZ) and 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in TCDD-sensitive rats.

Angiopoietin-1 and VEGF in vascular development and angiogenesis in hypoplastic lungs.

Transformation by inorganic arsenic compounds of normal Syrian hamster embryo cells into a neoplastic state in which they become anchorage-independent and cause tumors in newborn hamsters.

Triplet pregnancy in a Jehovah's witness: recombinant human erythropoietin and iron supplementation for minimising the risks of excessive blood loss.

Low doses of 2,3,7,8-tetrachlorodibenzo-p-dioxin increase transforming growth factor beta and cause myocardial fibrosis in marmosets (Callithrix jacchus).

Clinical inquiries. Are any oral iron formulations better tolerated than ferrous sulfate?

Immunologic biomarkers in relation to exposure markers of PCBs and dioxins in Flemish adolescents (Belgium).

Aryl hydrocarbon receptor-dependent inhibition of AP-1 activity by 2,3,7,8-tetrachlorodibenzo-p-dioxin in activated B cells.

[Iron supplementation in a child with severe burns].

Persistent konzo and cyanogen toxicity from cassava in northern Mozambique.

A single mutation in the E2 glycoprotein important for neurovirulence influences binding of sindbis virus to neuroblastoma cells.

In utero and lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin and 2,3,4,7,8-pentachlorodibenzofuran reduces growth and disrupts reproductive parameters in female rats.

Mechanism of action and development of selective aryl hydrocarbon receptor modulators for treatment of hormone-dependent cancers (Review).

[Dinitrophenol--a dangerous doping agent].

Structure-activity relationships and dose responses of polychlorinated dibenzo-p-dioxins for short-term effects in 2,3,7,8-tetrachlorodibenzo-p-dioxin-resistant and -sensitive rat strains.

Decrease in 4-aminobiphenyl-induced methemoglobinemia in Cyp1a2(-/-) knockout mice.

Alpha-tocopherol protects cultured human cells from the acute lethal cytotoxicity of dioxin.

[Treatment of iron deficiency in preschool children with a weekly dose of ferrous sulfate].

Dinitrophenol pretreatment of rat ventricular myocytes protects against damage by metabolic inhibition and reperfusion.

Effect of caries disclosing agents on bond strengths of total-etch and self-etching primer dentin bonding systems to resin composite.

Primary structure and pathological study of phospholipase A2-I from *Agkistrodon bilineatus* (common cantil) venom.

Algal dermatitis in cichlids.

Transgenic rice is a source of iron for iron-depleted rats.

Relationship between acetaldehyde levels and cell survival in ethanol-metabolizing hepatoma cells.

Changes in haemoglobin levels in infants in Malawi: effect of low birth weight and fetal anaemia.

Short-term effects of forced eccentric contractions on collagen synthesis and degradation in rat skeletal muscle.

Effects of subchronic exposure to a complex mixture of persistent contaminants in male rats: systemic, immune, and reproductive effects.

Proinflammatory and Th1 cytokine alterations following ultraviolet radiation enhancement of disease due to influenza infection in mice.

Persistent abnormalities in the rat mammary gland following gestational and lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Case-control study evaluating the homogeneity and heterogeneity of risk factors between sinonasal and nasopharyngeal cancers.

Recognition and management of acute pesticide poisoning.

A proteasome inhibitor confers cardioprotection.

[The prevalence of iron deficiency anemia among 6- to 18-month-old children in Japan].

Epoetin alpha in elective coronary and valve surgery in Jehovah's Witnesses patients. Experience in 45 patients.

Physiologic levels of epidermal growth factor in saliva stimulate cell migration of an oral epithelial cell line, HO-1-N-1.

Animal models of Parkinson's disease.

Syndrome of iron pill aspiration.

Prediction of rodent nongenotoxic carcinogenesis: evaluation of biochemical and tissue changes in rodents following exposure to nine nongenotoxic NTP carcinogens.

Marginal iron deficiency without anemia impairs aerobic adaptation among previously untrained women.

Developmental stage-specific effects of perinatal 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure on reproductive organs of male rat offspring.

Overexpression of alcohol dehydrogenase exacerbates ethanol-induced contractile defect in cardiac myocytes.

Angiotensin protects cortical neurons from hypoxic-induced apoptosis via the angiotensin type 2 receptor.

An autopsy case of poisoning by massive absorption of cresol a short time before death.

Effects of src-deficiency on the expression of in vivo toxicity of TCDD in a strain of c-src knockout mice procured through six generations of backcrossings to C57BL/6 mice.

Congenital erythrocytosis with increased erythropoietin level.

[Immunoenzyme analysis of natural antibodies to endogenous bioregulators in patients with systemic lupus erythematosus].

Iron-deficiency anemia in young working women can be reduced by increasing the consumption of cereal-based fermented foods or gooseberry juice at the workplace.

The potential role of exposure to environmental toxicants in the pathophysiology of endometriosis.

Impaired cued delayed alternation behavior in adult rat offspring following exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin on gestation day 15.

On the rumors about the silent spring. Review of the scientific evidence linking occupational and environmental pesticide exposure to endocrine disruption health effects.

[Acute effects of methyl bromide gas in rats and mice--studies on survival time].

Recurrent stroke in a young patient with celiac disease and hyperhomocysteinemia.

Bioavailability of microencapsulated ferrous sulfate in milk.

Bioavailability of microencapsulated ferrous sulfate in powdered milk produced from fortified fluid milk: a prophylactic study in rats.

Once weekly is superior to daily iron supplementation on height gain but not on hematological improvement among schoolchildren in Thailand.

Metabolic control analysis in drug discovery and disease.

Chemical predictors of wheeze among farmer pesticide applicators in the Agricultural Health Study.

Non-ahr gene susceptibility Loci for porphyria and liver injury induced by the interaction of 'dioxin' with iron overload in mice.

Heat shock response reduces intestinal permeability in septic mice: potential role of interleukin-10.

Arsenic-induced Mre11 phosphorylation is cell cycle-dependent and defective in NBS cells.

Involvement of protein tyrosine phosphorylation and reduction of cellular sulfhydryl groups in cell death induced by 1'-acetoxychavicol acetate in Ehrlich ascites tumor cells.

Association between chronic exposure to pesticides and recorded cases of human malignancy in Gaza Governorates (1990-1999).

Effects of coxsackievirus B3 infection on the acute-phase protein metallothionein and on cytochrome P-4501A1 involved in the detoxification processes of TCDD in the mouse.

Effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin on trace elements, inflammation and viral clearance in the myocardium during coxsackievirus B3 infection in mice.

In vitro adsorption of lithium by bentonite.

Dioxin in infants--an environmental hazard?

Src tyrosine kinase augments taxotere-induced apoptosis through enhanced expression and phosphorylation of Bcl-2.

Heat stress-induced loss of eukaryotic initiation factor 5A (eIF-5A) in a human pancreatic cancer cell line, MIA PaCa-2, analyzed by two-dimensional gel electrophoresis.

Thyroid status is a key regulator of both flux and efficiency of oxidative phosphorylation in rat hepatocytes.

Increased glycogen content and glucose transporter 3 mRNA level in the placenta of Holtzman rats after exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Role of sarcolemmal K(ATP) channels in cardioprotection against ischemia/reperfusion injury in mice.

Tumor necrosis factor alpha stimulates invasion of Src-activated intestinal cells.

Distinct role for microglia in rotenone-induced degeneration of dopaminergic neurons.

Suspected cresol poisoning in cattle presented for slaughter.

2,3,7,8-Tetrachlorodibenzo-p-dioxin toxicity in the zebrafish embryo: altered regional blood flow and impaired lower jaw development.

Recent advances in understanding the mechanisms of TCDD immunotoxicity.

Mechanism of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD)-induced decrease in anti-CD3-activated CD4(+) T cells: the roles of apoptosis, Fas, and TNF.

Effects of 2-butoxyethanol on hepatic oxidative damage.

Dietary folate deficiency enhances induction of micronuclei by arsenic in mice.

Contaminants in feed for food-producing animals.

[Exposure to selected aldehydes among municipal transport bus drivers].

A possible relationship between bumblefoot responsive to potassium arsenite and micrococci in the blood of three birds of prey.

[Prophylactic efficiency of tietasol and oxymethyluracyl against chlorphenols exposure in experimental and real conditions].

Inhibitory effect of *Carthamus tinctorius* L. seed extracts on bone resorption mediated by tyrosine kinase, COX-2 (cyclooxygenase) and PG (prostaglandin) E2.

Monoclonal antibodies recognizing epitopes of calretinins: dependence on Ca²⁺-binding status and differences in antigen accessibility in colon cancer cells.

Hexachlorobenzene exposure and the proportion of male births in Turkey 1935-1990.

[Relationship between emotional stress in female residents of the city of Chapaevsk and toxicological and genetic values].

The use of quantitative histological and molecular data for risk assessment and biologically based model development.

Phenol toxicity and conjugation in human colonic epithelial cells.

Simple radioactive assay for the estimation of DNA breaks.

Iron deficiency anemia increases nitric oxide production in healthy adolescents.

Dioxins and endometriosis: a plausible hypothesis.

Extracellular signal-regulated kinases and g protein-coupled receptors in megakaryocytic human erythroleukemia cells: selective activation, differential regulation, and dissociation from mitogenesis.

The dioxin crisis as experiment to determine poultry-related campylobacter enteritis.

Genomic analysis of alachlor-induced oncogenesis in rat olfactory mucosa.

2,3,7,8-tetrachlorobenzo-p-dioxin inhibits proliferation of SK-N-SH human neuronal cells through decreased production of reactive oxygen species.

Constitutive and TCDD-induced expression of Ah receptor-responsive genes in the pituitary.

Induction of heat shock proteins (HSPs) by sodium arsenite in cultured astrocytes and reduction of hydrogen peroxide-induced cell death.

Characterization and identification of cytochrome P450 metabolites of arachidonic acid released by human peritoneal macrophages obtained from the pouch of Douglas.

In utero and lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin in the C57BL/6J mouse prostate: lobe-specific effects on branching morphogenesis.

Upregulation of glutathione-related genes and enzyme activities in cultured human cells by sublethal concentrations of inorganic arsenic.

Sodium azide reduces the thermotolerance of respiratively grown yeasts.

Antagonism of NMDA receptors by sigma receptor ligands attenuates chemical ischemia-induced neuronal death in vitro.

Subchronic toxicity of Baltic herring oil and its fractions in the rat I: Fractionation and levels of organohalogen pollutants.

Extravascular collagen in the human epileptic brain: a potential substrate for aberrant cell migration in cases of temporal lobe epilepsy.

Stimulation of carotenoid metabolism in arbuscular mycorrhizal roots.

Impairment of mycophenolate mofetil absorption by calcium polycarbophil.

Methylene blue restores spatial memory retention impaired by an inhibitor of cytochrome oxidase in rats.

Effects of entacapone and tolcapone on mitochondrial membrane potential.

Acute arsenite-induced 8-hydroxyguanine is associated with inhibition of repair activity in cultured human cells.

Determination of arsenic metabolic complex excreted in human urine after administration of sodium 2,3-dimercapto-1-propane sulfonate.

Enhancement of allyl alcohol hepatotoxicity by endotoxin requires extrahepatic factors.

2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD) induces Fas-dependent activation-induced cell death in superantigen-primed T cells.

Oxidative stress tolerance is manganese (Mn(2+)) regulated in *Streptococcus gordonii*.

Atypical mechanism of NF-kappaB activation during reoxygenation stress in microvascular endothelium: a role for tyrosine kinases.

Oxidative stress and gene transcription in asthma and chronic obstructive pulmonary disease: antioxidant therapeutic targets.

Analysis of paraquat, diquat and two diquat metabolites in biological materials by high-performance liquid chromatography.

Evidence that amyloid beta-peptide-induced lipid peroxidation and its sequelae in Alzheimer's disease brain contribute to neuronal death.

Chronic arsenic-exposed human prostate epithelial cells exhibit stable arsenic tolerance: mechanistic implications of altered cellular glutathione and glutathione S-transferase.

Enhanced resistance to salt, cold and wound stresses by overproduction of animal cell death suppressors Bcl-xL and Ced-9 in tobacco cells - their possible contribution through improved function of organelles.

Reconstitution of functional human B lymphocytes in NOD/SCID mice engrafted with ex vivo expanded CD34(+) cord blood cells.

2,3,7,8-tetrachlorodibenzo-p-dioxin toxicity in the zebrafish embryo: local circulation failure in the dorsal midbrain is associated with increased apoptosis.

2,3,7,8-Tetrachlorodibenzo-p-dioxin toxicity in the zebrafish embryo: local circulation failure in the dorsal midbrain is associated with increased apoptosis.

Lipid peroxidation in aging brain and Alzheimer's disease.

Nonylphenol polyethoxylate adjuvant mitigates the reproductive toxicity of fomesafen on the freshwater snail *Lymnaea stagnalis* in outdoor experimental ponds.

Calmodulin binding to the 3614-3643 region of RyR1 is not essential for excitation-contraction coupling in skeletal myotubes.

Resistance of isolated mammalian spinal cord white matter to oxygen-glucose deprivation.

Polyamines regulate beta-catenin tyrosine phosphorylation via Ca(2+) during intestinal epithelial cell migration.

Hypochlorous acid inhibits glutathione S-conjugate export from human erythrocytes.

2,3,7,8-Tetrachlorodibenzo-p-dioxin is a possible activator of human cytomegalovirus replication in a human fibroblast cell line.

Origins and consequences of mitochondrial decline in nucleated erythrocytes.

The role of DDE, PCB, coplanar PCB and eggshell parameters for reproduction in the white-tailed sea eagle (*Haliaeetus albicilla*) in Sweden.

The effect of oxidative stress on ERalpha and ERbeta expression.

Development of a high throughput screening assay for mitochondrial membrane potential in living cells.

Oxidative bioactivation of crotyl alcohol to the toxic endogenous aldehyde crotonaldehyde: association of protein carbonylation with toxicity in mouse hepatocytes.

Inhibition of protein kinases A and C demonstrates dual modes of response in human eosinophils stimulated with platelet-activating factor.

Regulation of endothelin synthesis by extracellular matrix in human endothelial cells.

Risk assessment of dioxin contamination in human food.

Expression of hsp 90 in the human kidney and in proximal tubule cells exposed to heat, sodium arsenite and cadmium chloride.

HPLC measurement of harderoporphyrin in the harderian glands of rodents as a biomarker for sub-lethal or chronic arsenic exposure.

Mechanism of cytotoxicity of paraquat.

[Changes in the level of short-chain volatile fatty acids and their aldehydes in oral air and fluid during inflammation of oral tissues].

Distribution and elimination of polychlorinated dibenzo-p-dioxins, dibenzofurans, biphenyls, and p,p'-DDE in tissues of bald eagles from the Upper Peninsula of Michigan.

Activation of Wiskott-Aldrich syndrome protein and its association with other proteins by stromal cell-derived factor-1alpha is associated with cell migration in a T-lymphocyte line.

Impairment of ciprofloxacin absorption by calcium polycarbophil.

Candida albicans expresses a focal adhesion kinase-like protein that undergoes increased tyrosine phosphorylation upon yeast cell adhesion to vitronectin and the EA.hy 926 human endothelial cell line.

Synthesis and cytotoxic activity of N-(2-diethylamino)ethylcarboxamide and other derivatives of 10H-quindoline.

Induction of oxidative stress in the tissues of rats after chronic exposure to TCDD, 2,3,4,7,8-pentachlorodibenzofuran, and 3,3',4,4',5-pentachlorobiphenyl.

Comparative effects of TCDD, endrin, naphthalene and chromium (VI) on oxidative stress and tissue damage in the liver and brain tissues of mice.

Photoconsumption of oxygen in photosystem II preparations under impairment of the water-oxidizing complex.

Sensory nerve-mediated nasal vasodilatory response to inspired ethyl acrylate.

Chronic acquired dyskeratotic papulosis of the face.

Acute lethal toxicity of environmental pollutants to aquatic organisms.

Lipid peroxidation in neurodegeneration: new insights into Alzheimer's disease.

Thyroid toxicity due to subchronic exposure to a complex mixture of 16 organochlorines, lead, and cadmium.

Effects of benzo[a]pyrene exposure on a fish population resistant to the toxic effects of dioxin-like compounds.

Alteration in ovarian gene expression in response to 2,3,7,8-tetrachlorodibenzo-p-dioxin: reduction of cyclooxygenase-2 in the blockage of ovulation.

Development of an in vitro test battery for the estimation of acute human systemic toxicity: An outline of the EDIT project. Evaluation-guided Development of New In Vitro Test Batteries.

The retinoid signaling system--a target in dioxin toxicity.

Expression of the mediators of dioxin toxicity, aryl hydrocarbon receptor (AHR) and the AHR nuclear translocator (ARNT), is developmentally regulated in mouse teeth.

Changes in gene expression profiles of human fibroblasts in response to sodium arsenite treatment.

Circulating lysozyme and hepatic CYP1A activities during a chronic dietary exposure to tributyltin (TBT) and 3,3',4,4',5-pentachlorobiphenyl (PCB-126) mixtures in channel catfish, *Ictalurus punctatus*.

Toxicity of single and mixed contaminants in seawater measured with acute toxicity bioassays.

Pesticide toxicity assessment using an electrochemical biosensor with *Pseudomonas putida* and a bioluminescence inhibition assay with *Vibrio fischeri*.

Acute toxicity of chlorophenols to earthworms using a simple paper contact method and comparison with toxicities to fresh water organisms.

Complestatin antagonizes the AMPA/kainate-induced neurotoxicity in cultured chick telencephalic neurons.

Merosin-integrin promotion of skeletal myofiber cell survival: Differentiation state-distinct involvement of p60Fyn tyrosine kinase and p38alpha stress-activated MAP kinase.

[Changes of thioredoxin mRNA level in neurons insulted by sodium azide].

The production of macrophage inflammatory protein-2 induced by soluble intercellular adhesion molecule-1 in mouse astrocytes is mediated by src tyrosine kinases and p42/44 mitogen-activated protein kinase.

Arsenic accumulation and metabolism in rice (*Oryza sativa* L.).

Induction of oxidative stress in rat epididymal sperm after exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Mechanism and regulation of vitamin B(6) uptake by renal tubular epithelia: studies with cultured OK cells.

Effect of the new matrix metalloproteinase inhibitor RO-28-2653 on mitochondrial function.

The effects of glutathione and vitamin E on iron toxicity in isolated rat hepatocytes.

Oxidative stress in rat cortical neurons and astrocytes induced by paraquat in vitro.

Toxicity evaluation of new antifouling compounds using suspension-cultured fish cells.

Transplacental effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin on the temporal modulation of Sp1 DNA binding in the developing cerebral cortex and cerebellum.

Derivation, characterization, and phenotypic variation of hepatic progenitor cell lines isolated from adult rats.

Dioxin stimulates synthesis and secretion of IgE-dependent histamine-releasing factor.

Development and evaluation of an immunoassay for biological monitoring chlorophenols in urine as potential indicators of occupational exposure.

Urocortin, but not urocortin II, protects cultured hippocampal neurons from oxidative and excitotoxic cell death via corticotropin-releasing hormone receptor type I.

Multidrug-resistance *mdr1a/1b* double knockout mice are more sensitive than wild type mice to acute arsenic toxicity, with higher arsenic accumulation in tissues.

The major Cu,Zn SOD of the phytopathogen *Claviceps purpurea* is not essential for pathogenicity.

Cytoprotection against thermal injury: evaluation of herbimycin A by cell viability and cDNA arrays.

Contamination and toxic effects of persistent endocrine disrupters in marine mammals and birds.

TNF-alpha suppresses bone sialoprotein (BSP) expression in ROS17/2.8 cells.

Arsenic induces oxidative stress and activates stress gene expressions in cultured lung epithelial cells.

Mammalian cell cytotoxicity and genotoxicity analysis of drinking water disinfection by-products.

Ferritin induction protects cortical astrocytes from heme-mediated oxidative injury.

Neoductular progenitor cells regenerate hepatocytes in severely damaged liver: a comparative ultrastructural study.

Acute sodium arsenite treatment induces Cyp2a5 but not Cyp1a1 in the C57Bl/6 mouse in a tissue (kidney) selective manner.

Acute sodium arsenite administration induces pulmonary CYP1A1 mRNA, protein and activity in the rat.

Toxicity testing and chemical analyses of recycled fibre-based paper for food contact.

The Belgian PCB/dioxin incident: analysis of the food chain contamination and health risk evaluation.

A comparison of 60, 70, and 90 kDa stress protein expression in normal rat NRK-52 and human HK-2 kidney cell lines following in vitro exposure to arsenite and cadmium alone or in combination.

Variation of toxicity during the ozonation of monochlorophenolic solutions.

Sister chromatid exchange and proliferative rate index in the longitudinal risk assessment of occupational exposure to pesticides.

Proliferation and differentiation of ductular progenitor cells and littoral cells during the regeneration of the rat liver to CCl₄/2-AAF injury.

Influence of sodium arsenite on the genotoxicity of potassium dichromate and ethyl methanesulfonate: studies with the wing spot test in *Drosophila*.

Glucocorticoid-induced glucose release is abolished in trout hepatocytes with elevated hsp70 content.

Effect of acute and chronic alcohol treatment and their superimposition on lysosomal, cytoplasmic, and proteosomal protease activities in rat skeletal muscle in vivo.

Ethanol metabolism and transcription factor activation in pancreatic acinar cells in rats.

Dioxin increases reactive oxygen production in mouse liver mitochondria.

From the Centers for Disease Control and Prevention. Pesticide-related illnesses associated with the use of a plant growth regulator--Italy, 2001.

Captopril inhibits the pulmonary toxicity of paraquat in rats.

Vietnamese sisters with Grebe syndrome on a TV program in Japan.

Paraquat poisoning in sheep from contaminated water.

Inhibition of catalase activity with 3-amino-triazole enhances the cytotoxicity of the Alzheimer's amyloid-beta peptide.

Morphological study of 5-HT neurons and astroglial cells on brain of adult rats perinatal or chronically exposed to 2,4-dichlorophenoxyacetic acid.

Changes in plasma antiproteases in paraquat poisoned rats using micro two-dimensional electrophoretic analysis.

Neutropenia induced by paraquat poisoning.

Acute toxicity of the pesticides endosulfan and ametryne to the freshwater prawn *Macrobrachium rosenbergii* De Man.

Subacute toxicity of anilofos, a new organophosphorus herbicide in male rats: effect on lipid peroxidation and ATPase activity.

Subacute toxicity of anilofos, a new organophosphorus herbicide, in male rats: effect on some physical attributes and acetylcholinesterase activity.

A study of the developmental toxicity potential of pentachlorophenol in the rat.

Developmental toxicity study of pentachlorophenol in the rabbit.

Environmental and occupational skin diseases in Taiwan.

Impact of chemical warfare with agent orange on women's reproductive lives in Vietnam: a pilot study.

Toxicity and effects of 2,6-di-tert-butyl-4-methylphenyl N-methylcarbamate (terbutol) on hepatic cytochrome P450 in F344 rats.

Changes in concentrations of type IV collagen and tissue inhibitor of metalloproteinase-1 in patients with paraquat poisoning.

Suspected side effects of a herbicide on dung beetle populations (Coleoptera: Scarabaeidae).

The effect of the herbicide glyphosate on non-target spiders: Part II. Indirect effects on *Lepthyphantes tenuis* in field margins.

Surfactant and corticosteroid effects on lung function in a rat model of acute lung injury.

Glutathione-dependent resistance of the European eel *Anguilla anguilla* to the herbicide molinate.

Degradation in soil and water and ecotoxicity of rimsulfuron and its metabolites.

Pollution-induced community tolerance (PICT) and seasonal variations in the sensitivity of phytoplankton to atrazine in nanocosms.

[Cases of acute poisoning admitted to a medical intensive care unit].

Pesticide-related illnesses associated with the use of a plant growth regulator--Italy, 2001.

Paraquat in developing countries.

Effects of acute exposure to a commercial formulation of glyphosate on the tadpoles of two species of anurans.

Diquat poisoning of dairy cattle by topical application.

A test system to evaluate the susceptibility of Oregon, USA, native stream invertebrates to triclopyr and carbaryl.

Dilute diquat death.

Cardiac gene expression and synthesis of atrial natriuretic peptide in the nitrofen model of congenital diaphragmatic hernia in rats: effect of prenatal dexamethazone treatment.

Mechanisms of MPP(+) incorporation into cerebellar granule cells.

Restoring effects of vitamin A on surfactant synthesis in nitrofen-induced congenital diaphragmatic hernia in rats.

Lung tissue mechanics and extracellular matrix remodeling in acute lung injury.

Role of heat shock protein 60 (HSP60) on paraquat intoxication.

Very-long-chain fatty acid biosynthesis is inhibited by cafenstrole, N,N-diethyl-3-mesitylsulfonyl-1H-1,2,4-triazole-1-carboxamide and its analogs.

Attempted suicide by drug overdose and by poison-ingestion methods seen at the main general hospital in the Fiji islands: a comparative study.

Paraquat poisoning in a burn patient.

Amine metabolism: a novel path to coronary artery vasospasm.

Effects of atrazine on acetylcholinesterase activity in midges (*Chironomus tentans*) exposed to organophosphorus insecticides.

Effects of terbutryn on aufwuchs and *Lumbriculus variegatus* in artificial indoor streams.

Acute toxicity of 12 herbicides to the green algae *Chlorella pyrenoidosa* and *Scenedesmus obliquus*.

Gender difference in cytoprotection induced by estrogen on female and male bovine aortic endothelial cells.

Decreased plasma and cerebrospinal fluid glutamine concentrations in a patient with bialaphos poisoning.

An exploratory analysis of the effect of pesticide exposure on the risk of spontaneous abortion in an Ontario farm population.

Toxic effect caused on microflora of soil by pesticide picloram application.

Glutathione elevation and its protective role in acrolein-induced protein damage in synaptosomal membranes: relevance to brain lipid peroxidation in neurodegenerative disease.

[Genotoxic effect of the insecticides pentachlorophenol and lindane on human nasal mucosal epithelium].

Arsenic induces apoptosis in rat cerebellar neurons via activation of JNK3 and p38 MAP kinases.

Release of dopamine by perfusion with 1-methyl-4-phenylpyridinium ion (MPP(+)) into the striatum is associated with hydroxyl free radical generation.

Unique renal tubule changes induced in rats and mice by the peroxisome proliferators 2,4-dichlorophenoxyacetic acid (2,4-D) and WY-14643.

Assessment of pentachlorophenol-exposed timber workers using a test-of-poisoning model.

Agricultural exposure to carbamate pesticides and risk of non-Hodgkin lymphoma.

Metabolic complications of organophosphate and carbamate poisoning.

Serum dioxin and hepatic abnormalities in veterans of Operation Ranch Hand.

Toxic effects of MPP(+) and MPTP in PC12 cells independent of reactive oxygen species formation.

Decreased expression of the NADH:ubiquinone oxidoreductase (complex I) subunit 4 in 1-methyl-4-phenylpyridinium -treated human neuroblastoma SH-SY5Y cells.

Oxidative stress and liver toxicity in rats and human hepatoma cell line induced by pentachlorophenol and its major metabolite tetrachlorohydroquinone.

Human gingival fibroblast cytoskeleton is a target for volatile smoke components.

Cleavage of Bax is mediated by caspase-dependent or -independent calpain activation in dopaminergic neuronal cells: protective role of Bcl-2.

Designing herbicide formulation characteristics to maximize efficacy and minimize rice injury in paddy environments.

Prenatal exposure to nitrofen induces Fryns phenotype in mice.

Tracheal injury caused by ingested paraquat.

Evaluation of the toxicity of chemical compounds using digestive acini of the bivalve mollusc *Pecten maximus* L. maintained alive in vitro.

Disease associated with exposure to certain herbicide agents: type 2 diabetes. Final rule.

Continuing research into Gulf War illness.

The influence of suspended particles on the acute toxicity of 2-chloro-4-nitro-aniline, cadmium, and pentachlorophenol on the valve movement response of the zebra mussel (*Dreissena polymorpha*).

Effect of sulfosulfuron on the urine and urothelium of male rats.

Parkinsonism after glycine-derivate exposure.

Toxic effects of the herbicide 2,4-dichlorophenoxyacetic acid on lymphoid organs of the rat.

Proteasome inhibition in oxidative stress neurotoxicity: implications for heat shock proteins.

Acute diquat poisoning with intracerebral bleeding.

Differential effects of trivalent and pentavalent arsenicals on cell proliferation and cytokine secretion in normal human epidermal keratinocytes.

L-Deprenyl prevents the cell hypoxia induced by dopaminergic neurotoxins, MPP(+) and beta-carbolinium: a microdialysis study in rats.

Dimethylarsinic acid induces 8-hydroxy-2'-deoxyguanosine formation in the kidney of NCI-Black-Reiter rats.

[Paraquat poisoning: report of two cases and literature review].

Acute toxicity of 33 herbicides to the green alga *Chlorella pyrenoidosa*.

Prosaptide D5, a retro-inverso 11-mer peptidomimetic, rescued dopaminergic neurons in a model of Parkinson's disease.

Attenuation of paraquat-induced dopaminergic toxicity on the substantia nigra by (-)-deprenyl in vivo.

The effects of fluid motion on toxicant sensitivity of the rotifer *Brachionus calyciflorus*.

Evaluation of the mutagenic potential of the principal DNA adduct of acrolein.

Carcinogenicity assays of wood dust and wood additives in rats exposed by long-term inhalation.

Acrolein is increased in Alzheimer's disease brain and is toxic to primary hippocampal cultures.

The role of nitric oxide in paraquat-induced cytotoxicity in the human A549 lung carcinoma cell line.

Proliferation and differentiation of murine haemopoietic progenitor cells in stroma-free culture in the presence of metabolites of chlorinated pesticides.

Centrilobular endothelial cell injury by diquat in the selenium-deficient rat liver.

Paraquat poisoning in a family.

Effect of cigarette smoke extract on neonatal porcine vascular smooth muscle cells.

The toxicological effects of the herbicide 2,4-DCPA on progesterone levels and mortality in Wistar female rats.

Extensive protein carbonylation precedes acrolein-mediated cell death in mouse hepatocytes.

Glutamate is not involved in the MPP+-induced dopamine overflow in the striatum of freely moving C57BL/6 mice.

Effects of vapours of chlorpropham and ethofumesate on wild plant species.

Cytotoxic and genotoxic effects of As, MMA, and DMA on leukocytes and stimulated human lymphocytes.

Effects of atrazine and nicosulfuron on freshwater microalgae.

Chronic toxicity tests with *Daphnia magna* for examination of river water quality.

Effects of thiobencarb herbicide to an alga (*Nannochloris oculata*) and the cladoceran (*Daphnia magna*).

Association of elevated blood levels of pentachlorophenol (PCP) with cellular and humoral immunodeficiencies.

Pesticide poisoning initially suspected as a natural death.

Complications of chronic arsenic poisoning.

Subchronic oral toxicity of a combination of insecticide (HCH) and herbicide (ISP) in male rats.

Grebe syndrome in Vietnamese sisters: not Agent Orange.

Occupational exposure to pesticides and pancreatic cancer.

Pancreatitis induced by environmental toxins.

Urothelial cytotoxicity and regeneration induced by dimethylarsinic acid in rats.

Mortality in chemical workers potentially exposed to 2,4-dichlorophenoxyacetic acid (2,4-D) 1945-94: an update.

Combined effects of pentachlorophenol and salinity stress on chemiluminescence activity in two species of abalone.

Reduction in paraquat embryotoxicity by ascorbic acid in *Xenopus laevis*.

Hsp70 expression in *Enteromorpha intestinalis* (Chlorophyta) exposed to environmental stressors.

Dehydroepiandrosterone inhibits the death of immunostimulated rat C6 glioma cells deprived of glucose.

Arsenic-induced congenital malformations in genetically susceptible folate binding protein-2 knockout mice.

Mitochondria enter the nucleus (one further problem in chronic alcoholism).

Cigarette smoke inhibits human bronchial epithelial cell repair processes.

Substantia nigra neuromelanin: structure, synthesis, and molecular behaviour.

Cytogenetic effects of propyl gallate in CHO-K1 cells.

Inhibition of neutrophil apoptosis by acrolein: a mechanism of tobacco-related lung disease?

Serum dioxin and cognitive functioning among veterans of Operation Ranch Hand.

Serum dioxin and peripheral neuropathy in veterans of Operation Ranch Hand.

Measurement of inhibin A: a modification to an enzyme-linked immunosorbent assay.

Dependence of excitotoxic neurodegeneration on mitochondrial aconitase inactivation.

Pesticides directly accelerate the rate of alpha-synuclein fibril formation: a possible factor in Parkinson's disease.

GAPDH knockdown rescues mesencephalic dopaminergic neurons from MPP+ -induced apoptosis.

Immunohistochemical detection of lipid peroxidation products, protein-bound acrolein and 4-hydroxynonenal protein adducts, in actinic elastosis of photodamaged skin.

Hyperbaric oxygenation pretreatment induces catalase and reduces infarct size in ischemic rat myocardium.

Evaluation of acute sensory--motor effects and test sensitivity using termiticide workers exposed to chlorpyrifos.

Effect of tiagabine and topiramate on porphyrin metabolism in an in vivo model of porphyria.

Hydrogen peroxide removal and glutathione mixed disulfide formation during metabolic inhibition in mesencephalic cultures.

Differential role of superoxide and glutathione in S-nitrosoglutathione-mediated apoptosis: a rationale for mild forms of familial amyotrophic lateral sclerosis associated with less active Cu,Zn superoxide dismutase mutants.

Nitric oxide enhances MPP(+)-induced hydroxyl radical generation via depolarization activated nitric oxide synthase in rat striatum.

Increased susceptibility of copper-deficient neuroblastoma cells to oxidative stress-mediated apoptosis.

Chronic low-level administration of diquat increases the nociceptive response to gastric distension in rats: role of mast cells and tachykinin receptor activation.

Strain-dependent susceptibility to MPTP and MPP(+)-induced parkinsonism is determined by glia.

Overexpression of manganese superoxide dismutase protects lung epithelial cells against oxidant injury.

Glyphosate inhibits melanization of *Cryptococcus neoformans* and prolongs survival of mice after systemic infection.

Impaired spreading of surfactant phospholipids in the lungs of newborn rats with pulmonary hypoplasia as a model of congenital diaphragmatic hernia induced by nitrofen.

1,N(2)-propanodeoxyguanosine adduct formation in aortic DNA following inhalation of acrolein.

Dinitroaniline herbicides against protozoan parasites: the case of *Trypanosoma cruzi*.

Effects of chlorpropham (CIPC) on the hemopoietic system of rats.

Down-regulation of catalase gene expression in the doxorubicin-resistant AML subline AML-2/DX100.

Acrolein inhibits respiration in isolated brain mitochondria.

Biological effects of a nano red elemental selenium.

Influence of caffeine on allyl alcohol-induced hepatotoxicity in rats. I. In vivo study.

Glycerol metabolism in superoxide dismutase-deficient *Escherichia coli*.

Ceramide-mediated apoptosis in lung epithelial cells is regulated by glutathione.

Caspase-3 activation induced by inhibition of mitochondrial complex I is facilitated by glycogen synthase kinase-3 β and attenuated by lithium.

Increasing the glutathione content in a chilling-sensitive maize genotype using safeners increased protection against chilling-induced injury.

Comparative impacts of glutathione peroxidase-1 gene knockout on oxidative stress induced by reactive oxygen and nitrogen species in mouse hepatocytes.

Metabolism of 2-(4-methylsulphonyl-2-nitrobenzoyl)-1,3-cyclohexanedione (mesotrione) in rat and mouse.

Heat shock, copper sulfate and oxidative stress activate the retrotransposon MAGGY resident in the plant pathogenic fungus *Magnaporthe grisea*.

Metabolism of the phosphonate herbicide glyphosate by a non-nitrate-utilizing strain of *Penicillium chrysogenum*.

Auxin herbicides induce H₂O₂ overproduction and tissue damage in cleavers (*Galium aparine* L.).

Sensory-nerve-mediated nasal vasodilatory response to inspired acetaldehyde and acetic acid vapors.

Characterization of high temperature induced stress impairments in thylakoids of rice seedlings.

Identification of impurities in technical anilofos and their effect on transplanted rice.

Regulation of the plant-type 5'-adenylyl sulfate reductase by oxidative stress.

Brain catalase activity is highly correlated with ethanol-induced locomotor activity in mice.

Increased cysteine biosynthesis capacity of transgenic tobacco overexpressing an O-acetylserine(thiol) lyase modifies plant responses to oxidative stress.

Impaired activity of the extraneuronal monoamine transporter system known as uptake-2 in *Orct3/Slc22a3*-deficient mice.

Red blood cells inhibit activation-induced cell death and oxidative stress in human peripheral blood T lymphocytes.

The influence of oxidative stress on catalase and MnSOD gene transcription in astrocytes.

Cigarette smoke impairs neutrophil respiratory burst activation by aldehyde-induced thiol modifications.

Acute effect of ethanol on 7-hydroperoxycholesterol in muscle and liver.

Microtubules and vimentin associated filaments (VIFs) in cultured human gingival fibroblasts (HGFs) after exposure to acrolein and acetaldehyde.

Hyperoxia inhibits oxidant-induced apoptosis in lung epithelial cells.

The transcriptional and DNA binding activity of peroxisome proliferator-activated receptor alpha is inhibited by ethanol metabolism. A novel mechanism for the development of ethanol-induced fatty liver.

Watershed monitoring to address contamination source issues and remediation of the contaminant impairments.

Acrolein induces activation of the epidermal growth factor receptor of human keratinocytes for cell death.

Ion chromatographic analysis of selected free amino acids and cations to investigate the change of nitrogen metabolism by herbicide stress in soybean (glycine max).

Analysis of pesticide runoff from mid-Texas estuaries and risk assessment implications for marine phytoplankton.

Taurine modulates catalase, aldehyde dehydrogenase, and ethanol elimination rates in rat brain.

Role of tyrosine phosphorylation in ligand-independent sequestration of CXCR4 in human primary monocytes-macrophages.

B-lymphocytes from malignant hyperthermia-susceptible patients have an increased sensitivity to skeletal muscle ryanodine receptor activators.

[Effect of sideropenic anemia and its therapy on serum levels of leptin].

Comparative study of toxicity of 4-nitrophenol and 2,4-dinitrophenol in newborn and young rats.

Neurotoxicity of MPTP.

DJ-1 is an indicator for endogenous reactive oxygen species elicited by endotoxin.

Stereospecific antitumor activity of radicicol oxime derivatives.

Industrial chemicals and the horse.

Environmental contaminants as etiologic factors for diabetes.

Macrophage migration inhibitory factor as a redox-sensitive cytokine in cardiac myocytes.

Occupational risks for male fertility: an analysis of patients attending a tertiary referral centre.

Severity of oxidative stress generates different mechanisms of endothelial cell death.

Treatment of anemia with microencapsulated ferrous fumarate plus ascorbic acid supplied as sprinkles to complementary (weaning) foods.

Reduced expression of neuronal nicotinic acetylcholine receptors during the early stages of damage by oxidative stress in PC12 cells.

Developmental dental defects in children who reside by a river polluted by dioxins and furans.

Biochemical, neuropsychological, and neurological abnormalities following 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) exposure.

Decreased lung function associated with perinatal exposure to Dutch background levels of dioxins.

[Acute intoxication in the child].

Effects on levels of glutathione and some related enzymes in tissues after an acute arsenic exposure in rats and their relationship to dietary protein deficiency.

Spontaneous abortion, sex ratio, and paternal occupational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Non-Hodgkin's lymphoma and specific pesticide exposures in men: cross-Canada study of pesticides and health.

Protection by dietary compounds against mutation in a transgenic rodent.

Agricultural risk factors for t(14;18) subtypes of non-Hodgkin's lymphoma.

Identification of genes induced in vivo during *Klebsiella pneumoniae* CG43 infection.

Mast cell regulation of inflammation and gene expression during antigen-induced bladder inflammation in mice.

[Epidemiology of soft tissue sarcomas in adults].

[A case of fatal acute sodium azide poisoning].

Three cases of acute methyl bromide poisoning in a seedling farm family.

p73 is a growth-regulated protein in vascular smooth muscle cells and is present at high levels in human atherosclerotic plaque.

Butylhydroxytoluene (BHT) increases susceptibility of transgenic rasH2 mice to lung carcinogenesis.

T-cell-based immunity counteracts the potential toxicity of glutamate in the central nervous system.

Familial intrahepatic cholestasis 1: studies of localization and function.

Arsenite is a cocarcinogen with solar ultraviolet radiation for mouse skin: an animal model for arsenic carcinogenesis.

The risk of endometriosis and exposure to dioxins and polychlorinated biphenyls: a case-control study of infertile women.

Chronic fatigue syndrome (CFS) associated with *Staphylococcus* spp. bacteremia, responsive to potassium arsenite 0.5% in a veterinary surgeon and his coworking wife, handling with CFS animal cases.

Complestatin is a noncompetitive peptide antagonist of N-methyl-D-aspartate and alpha-amino-3-hydroxy-5-methyl-4-isoxazolepropionic acid/kainate receptors: secure blockade of ischemic neuronal death.

Effects of protein tyrosine kinase and protein tyrosine phosphatase on apical K(+) channels in the TAL.

Risk factors of Parkinson's disease in Indian patients.

Association of c-myc overexpression and hyperproliferation with arsenite-induced malignant transformation.

Methaemoglobinaemia and poisoning.

[Utilization of different iron concentrations on pregnant adolescents also supplemented with zinc and folate].

[Pseudo-Acanthosis nigricans in a 12 year old boy after kidney transplantation].

Social functioning, psychological functioning, and quality of life in epilepsy.

Do cool water or physiologic saline compresses enhance resolution of experimentally-induced irritant contact dermatitis?

Randomized, controlled trial of single versus 3-times-daily ferrous sulfate drops for treatment of anemia.

Risk assessment for 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) based on an epidemiologic study.

Inhibition of tyrosine kinase activity induces caspase-dependent apoptosis in anaplastic large cell lymphoma with NPM-ALK (p80) fusion protein.

Dioxins in adipose tissue of non-occupationally exposed persons in France: correlation with individual food exposure.

Parkinsonism and occupational exposure to pesticides.

Persistent, low-dose 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure: effect on aryl hydrocarbon receptor expression in a dioxin-resistance model.

FLT3 tyrosine kinase as a target molecule for selective antileukemia therapy.

[CD7(+) acute myeloid leukemia (M0) associated with a mediastinal bulky mass lesion].

Severe 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) intoxication: clinical and laboratory effects.

Ecological variation of intake of cassava food and dietary cyanide load in Nigerian communities.

In utero/lactational 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure impairs molar tooth development in rats.

Down-regulation of regulatory proteins for differentiation and proliferation in murine fetal hypoplastic lungs: altered mesenchymal-epithelial interactions.

Late confirmation of acute methyl bromide poisoning using S-methylcysteine adduct testing.

Aromatic hydrocarbon receptor-driven Bax gene expression is required for premature ovarian failure caused by biohazardous environmental chemicals.

Contribution of Mn-cofactored superoxide dismutase (SodA) to the virulence of *Streptococcus agalactiae*.

Absence of Crabtree effect in human melanoma cells adapted to growth at low pH: reversal by respiratory inhibitors.

Dioxin-inducible transactivation in a chromosomal setting. Analysis of the acidic domain of the Ah receptor.

[A case of chronic methyl bromide intoxication showing symmetrical lesions in the basal ganglia and brain stem on magnetic resonance imaging].

Role of metabolism in arsenic toxicity.

Oral administration of collagen conjugated with cholera toxin induces tolerance to type II collagen and suppresses chondritis in an animal model of autoimmune ear disease.

Induction of hepatic 8-oxo-deoxyguanosine adducts by 2,3,7,8-tetrachlorodibenzo-p-dioxin in Sprague-Dawley rats is female-specific and estrogen-dependent.

Concomitant supplemental vitamin A enhances the response to weekly supplemental iron and folic acid in anemic teenagers in urban Bangladesh.

Identification of rab7 as a melanosome-associated protein involved in the intracellular transport of tyrosinase-related protein 1.

Differential effects of circulating IgA isolated from patients with IgA nephropathy on superoxide and fibronectin production of mesangial cells.

Hepatic vitamin a depletion is a sensitive marker of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) exposure in four rodent species.

Teratogenicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in mice lacking the expression of EGF and/or TGF-alpha.

Suppression of allergic immune responses to house dust mite (HDM) in rats exposed to 2,3,7,8-TCDD.

In utero and lactational treatment with 2,3,7,8-tetrachlorodibenzo-p-dioxin impairs mammary gland differentiation but does not block the response to exogenous estrogen in the postpubertal female rat.

Albumin in the mg/l-range activates NF-kappaB in renal proximal tubule-derived cell lines via tyrosine kinases and protein kinase C.

Prenatal testosterone and luteinizing hormone levels in male rats exposed during pregnancy to 2,3,7,8-tetrachlorodibenzo-p-dioxin and diethylstilbestrol.

Environmental xenoestrogens, antiandrogens and disorders of male sexual differentiation.

The hepatitis B virus HBx protein induces adherens junction disruption in a src-dependent manner.

Exposure to the dioxin 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) induces squamous metaplasia in the endocervix of cynomolgus macaques.

Anorectal atresia. An experimental model in the rat.

Transgenic foods, pesticides, dioxin, passive smoke. Consequences on breast milk.

Interaction of estrogen and 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) with hepatic fatty acid synthesis and metabolism of male chickens (*Gallus domesticus*).

Cardioprotective effect of propranolol from alcohol-induced heart muscle damage as assessed by plasma cardiac troponin-t.

Tyrosine kinase inhibitors in the treatment of chronic myeloid leukaemia: so far so good?

The genetic basis of endometriosis.

Health effects of dioxin exposure: a 20-year mortality study.

Protection of the Cyp1a2(-/-) null mouse against uroporphyrin and hepatic injury following exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Chronic toxicity of dietary 2,3,7,8-tetrachlorodibenzo-p-dioxin to mink.

Fetal tracheal occlusion in the rat model of nitrofen-induced congenital diaphragmatic hernia: tracheal occlusion reverses the arterial structural abnormality.

Subchronic Exposure of [³H]- 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in female B6C3F1 mice: relationship of steady-state levels to disposition and metabolism.

Pinacidil prevents membrane depolarisation and intracellular Ca²⁺ loading in single cardiomyocytes exposed to severe metabolic stress.

Pyr c 1, the major allergen from pear (*Pyrus communis*), is a new member of the Bet v 1 allergen family.

Physiological modeling of a proposed mechanism of enzyme induction by TCDD.

3,4-Dichlorophenylhydroxylamine cytotoxicity in renal cortical slices from Fischer 344 rats.

The effects of sodium arsenite exposure on behavioral parameters in the rat.

Differential regulation of cytochrome P450 1A1 and 1B1 by a combination of dioxin and pesticides in the breast tumor cell line MCF-7.

Arrest of rat molar tooth development by lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Regulation of 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced tumor promotion by 17 beta-estradiol in female Sprague-Dawley rats.

Effects of chronic sodium azide on brain and muscle cytochrome oxidase activity: a potential model to investigate environmental contributions to neurodegenerative diseases.

Collagen-induced arthritis.

[The changes of PCBs and PCDFs as well as symptoms in Yusho patients for 30 years].

Neural crest-derived defects in experimental congenital diaphragmatic hernia.

Gene expression of insulin-like growth factor-1 and epidermal growth factor is downregulated in the heart of rats with nitrofen-induced diaphragmatic hernia.

Impaired ovulation by 2,3,7,8 tetrachlorodibenzo-p-dioxin (TCDD) in immature rats treated with equine chorionic gonadotropin.

The effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on weight gain and hepatic ethoxyresorufin-o-deethylase (EROD) induction vary with ovarian hormonal status in the immature gonadotropin-primed rat model.

Tampons, dioxins, and endometriosis.

Environmental pesticide exposure as a risk factor for Alzheimer's disease: a case-control study.

Association between canine malignant lymphoma, living in industrial areas, and use of chemicals by dog owners.

Analysis of gene expression induced by irritant and sensitizing chemicals using oligonucleotide arrays.

Effectiveness of treatment of iron-deficiency anemia in infants and young children with ferrous bis-glycinate chelate.

Presence of autoantibodies in the sera of Meniere's disease.

Fate of PCDF/PCB congeners and change of clinical symptoms in patients with Yusho PCB poisoning for 30 years.

Health risk assessment of dioxin emissions from municipal waste incinerators: the Neerlandquarter (Wilrijk, Belgium).

Method for evaluation of immunotoxicity of dioxin compounds using human T-lymphoblastic cell line, L-MAT.

Rhinotomy is disrupted during the re-innervation of the olfactory bulb that follows transection of the olfactory nerve.

Interaction of estrogen and 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in immature male chickens (*Gallus domesticus*).

Will genetically modified foods be allergenic?

Absence of estrogen receptor-alpha expression in human ovarian clear cell adenocarcinoma compared with ovarian serous, endometrioid, and mucinous adenocarcinoma.

Nephrin redistribution on podocytes is a potential mechanism for proteinuria in patients with primary acquired nephrotic syndrome.

Structural immaturity of the heart in congenital diaphragmatic hernia in rats.

A randomized study of oral vs intravenous iron supplementation in patients with progressive renal insufficiency treated with erythropoietin.

Recent advances in arsenic carcinogenesis: modes of action, animal model systems, and methylated arsenic metabolites.

Parkinson's disease, pesticides and mitochondrial dysfunction.

Disruption of the genes for ClpXP protease in *Salmonella enterica* serovar Typhimurium results in persistent infection in mice, and development of persistence requires endogenous gamma interferon and tumor necrosis factor alpha.

Phosphorylation of xanthine dehydrogenase/oxidase in hypoxia.

Comparative analysis of amyloid-beta chemical structure and amyloid plaque morphology of transgenic mouse and Alzheimer's disease brains.

UCS15A, a non-kinase inhibitor of Src signal transduction.

[Pathogenetic rationale for inclusion of vitamin E in combined correction of iron deficiency anemia].

Autologous blood transfusion in oral and maxillofacial surgery patients with the use of erythropoietin.

Etiologic factors in soft tissue sarcomas.

[Prognostic indexes derived from ventricular morphology in congenital diaphragmatic hernia induced by nitrofen].

Crystallisation properties in stone forming and normal subjects' urine diluted using a standardised procedure to match the composition of urine in the distal part of the distal tubule and the middle part of the collecting duct.

[Chronic arsenicism].

Pesticide-related illness and injuries among banana workers in Costa Rica: a comparison between 1993 and 1996.

Toxicity of PCB-126 in European flounder (*Platichthys flesus*) with emphasis on histopathology and cytochrome P4501A induction in several organ systems.

Toxicity of boron to rainbow trout: a weight-of-the-evidence assessment.

Effect of iron on the virulence of *Trichomonas vaginalis*.

Oxygen-induced vasodilation is blunted in pulmonary arterioles from fetal rats with nitrofen-induced congenital diaphragmatic hernia.

Quantitative relationship between arsenic exposure and AP-1 activity in mouse urinary bladder epithelium.

Relative effectiveness of iron bis-glycinate chelate (Ferrochel) and ferrous sulfate in the control of iron deficiency in pregnant women.

Notification of occupational and work-related diseases and poisonings in Malaysia, 1997-1998.

Subchronic sodium chlorate exposure in drinking water results in a concentration-dependent increase in rat thyroid follicular cell hyperplasia.

A Kampo formulation: Byakko-ka-ninjin-to (Bai-Hu-Jia-Ren-Sheng-Tang) inhibits IgE-mediated triphasic skin reaction in mice: the role of its constituents in expression of the efficacy.

Central retinal vein occlusion and nonarteritic ischemic optic neuropathy in 2 patients with mild iron deficiency anemia.

N-methyl-D-aspartate receptor-mediated mitochondrial Ca(2+) overload in acute excitotoxic motor neuron death: a mechanism distinct from chronic neurotoxicity after Ca(2+) influx.

Acquired resistance to Ah receptor agonists in a population of Atlantic killifish (*Fundulus heteroclitus*) inhabiting a marine superfund site: in vivo and in vitro studies on the inducibility of xenobiotic metabolizing enzymes.

Effect of diesel exhaust particles and their components on the allergen-specific IgE and IgG1 response in mice.

2,3,7,8-tetrachlorodibenzo-p-dioxin and natural immunity: lack of an effect on the complement system in a guinea pig model.

Autism and Parkinson's disease.

Glucosyltransferase inactivation reduces dental caries.

Low ferritin levels indicate the need for iron supplementation: strategy to minimize iron depletion in regular blood donors.

Capacity of mouse mast cells to prime T cells and to induce specific antibody responses in vivo.

Genetic events associated with arsenic-induced malignant transformation: applications of cDNA microarray technology.

Effect of oral administration of excessive iron in adult ponies.

Ethanol activates NFkappaB DNA binding and p56lck protein tyrosine kinase in human osteoblast-like cells.

Dopaminergic cell death induced by MPP(+), oxidant and specific neurotoxicants shares the common molecular mechanism.

BAPS prize-1999: Lung growth induced by prenatal tracheal occlusion and its modifying factors: a study in the rat model of congenital diaphragmatic hernia.

Uremic toxins and peritoneal dialysis.

Improving iron absorption from a Peruvian school breakfast meal by adding ascorbic acid or Na₂EDTA.

Dioxin exposure is an environmental risk factor for ischemic heart disease.

Bioavailability studies of a new iron source by means of the prophylactic-preventive method in rats.

Chemoprotection and interindividual differences in response to biological reactive intermediates.

Successful repigmentation of six cases of herpes-labialis-induced lip leucoderma by micropigmentation.

Bcl-2 overexpression decreases BCNU sensitivity of a human glioblastoma line through enhancement of catalase activity.

Final report on the safety assessment of Juniperus communis Extract, Juniperus oxycedrus Extract, Juniperus oxycedrus Tar, Juniperus phoenicea extract, and Juniperus virginiana Extract.

Iron deficiency anemia.

Insecticidal activity of glufosinate through glutamine depletion in a caterpillar.

Thyroid hormones, acute iron overload and the pathogenesis of cloudy swelling.

Pesticides as a cause of occupational skin diseases in farmers.

Preconditioning with sodium arsenite inhibits apoptotic cell death in rat kidney with ischemia/reperfusion or cyclosporine-induced injuries. The possible role of heat-shock protein 70 as a mediator of ischemic tolerance.

Sodium azide treatment decreases striatal and cortical concentrations of alpha-tocopherol in rats.

History of the development of arsenic derivatives in cancer therapy.

The effectiveness of weekly iron and vitamin supplementation of Malawian preschool children.

[Volatile compounds in air and oral saliva in healthy people, and in periodontitis and gingivitis patients].

Serum levels of TCDD and dioxin-like chemicals in Rhesus monkeys chronically exposed to dioxin: correlation of increased serum PCB levels with endometriosis.

Apolipoproteins prevent glomerular albumin permeability induced in vitro by serum from patients with focal segmental glomerulosclerosis.

Absorption of iron from unmodified maize and genetically altered, low-phytate maize fortified with ferrous sulfate or sodium iron EDTA.

Benzo[a]pyrene-induced toxicity: paradoxical protection in Cyp1a1(-/-) knockout mice having increased hepatic BaP-DNA adduct levels.

Overview of studies on rat sperm motion analysis using a Hamilton-Thorne Sperm Analyzer--collaborative working study.

Cyclic stretch enhances the expression and activity of coronary endothelium-derived hyperpolarizing factor synthase.

Cyclophosphamide induces caspase 9-dependent apoptosis in 9L tumor cells.

Cyclic AMP increases the survival of ganglion cells in mixed retinal cell cultures in the absence of exogenous neurotrophic molecules, an effect that involves cholinergic activity.

Effects of dioxins and polychlorinated biphenyls (PCBs) on thyroid function in infants born in Japan--the second report from research on environmental health.

An in vivo ESR spin-trapping study: free radical generation in rats from formate intoxication--role of the Fenton reaction.

Acute exposure to organochlorine pesticides does not affect striatal dopamine in mice.

Histopathological alterations and induction of cytochrome P-450 1A in the liver and gills of the gilthead seabream (*Sparus aurata*) exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Embryonic development assay with *Daphnia magna*: application to toxicity of aniline derivatives.

Effects of indomethacin on energy metabolism in rat and human jejunal tissue in vitro.

Acute exposure to arsenite induces metallothionein isoform-specific gene expression in human proximal tubule cells.

Cytochrome CYP2E1 phenotyping and genotyping in the evaluation of health risks from exposure to polluted environments.

Vicianin, prunasin, and beta-cyanoalanine in common vetch seed as sources of urinary thiocyanate in the rat.

2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) inhibition of coronary development is preceded by a decrease in myocyte proliferation and an increase in cardiac apoptosis.

Reproductive toxicity in mink (*Mustela vison*) chronically exposed to environmentally relevant polychlorinated biphenyl concentrations.

Melatonin suppresses homocysteine enhancement of serotonin-induced vasoconstriction in the human umbilical artery.

Effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin on bone in two rat strains with different aryl hydrocarbon receptor structures.

Functional expression of P-glycoprotein in rat brain microglia.

Kinetics of the protein-bound, lipophilic, uremic toxin p-cresol in healthy rats.

Methanol toxicity and formate oxidation in NEUT2 mice.

Long-lived polyclonal B-cell lines derived from midgestation mouse embryo lymphohematopoietic progenitors reconstitute adult immunodeficient mice.

Sensitive and specific multiresidue methods for the determination of pesticides of various classes in clinical and forensic toxicology.

Lidocaine and mexiletine inhibit mitochondrial oxidation in rat ventricular myocytes.

Formation of spiroiminodihydantoin nucleoside by reaction of 8-oxo-7,8-dihydro-2'-deoxyguanosine with hypochlorous acid or a myeloperoxidase-H₂O₂-Cl⁻ system.

Toxic effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin and related compounds.

Suitability of the trans/cis ratio of unsaturated fatty acids in *Pseudomonas putida* NCTC 10936 as an indicator of the acute toxicity of chemicals.

Serine proteases increase oxidative stress in lung cells.

Clustering of hepatotoxins based on mechanism of toxicity using gene expression profiles.

Enhanced activation-induced cell death as a mechanism of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD)-induced immunotoxicity in peripheral T cells.

Ascorbate and low concentrations of FeSO₄ induce Ca²⁺-dependent pore in rat liver mitochondria.

The regulation of FasL expression during activation-induced cell death (AICD).

Fatal poisoning by butachlor and chlornitrofen ingested from a bottle marked as nitrofen.

Cytotoxic effects of cigarette smoke extract on an alveolar type II cell-derived cell line.

TAT peptide on the surface of liposomes affords their efficient intracellular delivery even at low temperature and in the presence of metabolic inhibitors.

Involvement of cyclooxygenase-2 in the potentiation of allyl alcohol-induced liver injury by bacterial lipopolysaccharide.

Characteristics of transport of fluoresceinated methotrexate in rat small intestine.

Field Response of Glyphosate-Tolerant Soybean to Herbicides and Sudden Death Syndrome.

Glyoxal and methylglyoxal trigger distinct signals for map family kinases and caspase activation in human endothelial cells.

Toxicity characterisation of organic contaminants in stormwaters from an agricultural headwater stream in south east England.

2,3,7,8-Tetrachlorodibenzo-p-dioxin induces apoptotic cell death and cytochrome P4501A expression in developing *Fundulus heteroclitus* embryos.

Dioxin toxicology and the aryl hydrocarbon receptor: insights from fish and other non-traditional models.

Human eosinophils induce histamine release from antigen-activated rat peritoneal mast cells: a possible role for mast cells in late-phase allergic reactions.

Oxy5, a novel protein from *Arabidopsis thaliana*, protects mammalian cells from oxidative stress.

Biliary excretion of temocapril in zone 1- and zone 3-injured rat.

Renal function, cytogenetic measurements, and sexual development in adolescents in relation to environmental pollutants: a feasibility study of biomarkers.

Strategies for neuroprotection against L-trans-2,4-pyrrolidine dicarboxylate-induced neuronal damage during energy impairment in vitro.

2, 3, 7, 8-tetrachlorodibenzo-p-dioxin induces apoptosis in the dorsal midbrain of zebrafish embryos by activation of arylhydrocarbon receptor.

Contractile activity-induced transcriptional activation of cytochrome C involves Sp1 and is proportional to mitochondrial ATP synthesis in C2C12 muscle cells.

[Effect of perftoran on experimental hepatitis].

Pressure drop and service life predictions for respirator canisters.

Production of superoxide anion, lipid peroxidation and DNA damage in the hepatic and brain tissues of rats after subchronic exposure to mixtures of TCDD and its congeners.

Polychlorinated biphenyls, polychlorinated dibenzo-p-dioxins, and polychlorinated dibenzofurans as endocrine disrupters--what we have learned from Yusho disease.

Inhibition of liver methionine adenosyltransferase gene expression by 3-methylcolanthrene: protective effect of S-adenosylmethionine.

The rinosomes of senescing plant tissue bud from the endoplasmic reticulum.

Delivery of genes encoding cardiac K(ATP) channel subunits in conjunction with pinacidil prevents membrane depolarization in cells exposed to chemical hypoxia-reoxygenation.

Cyclopentenone prostaglandins as potential inducers of intracellular oxidative stress.

Differential requirements for ERK1/2 and P38 MAPK activation by thrombin in T cells. Role of P59Fyn and PKCepsilon.

Potential of arsenic-induced cytotoxicity by sulfur amino acid deprivation (SAAD) through activation of ERK1/2, p38 kinase and JNK1: the distinct role of JNK1 in SAAD-potentiated mercury toxicity.

Leaf optical properties in higher plants: linking spectral characteristics to stress and chlorophyll concentration.

Phenol derivatives accelerate inactivation kinetics in one inactivation-deficient mutant human skeletal muscle Na(+) channel.

Astrocytes overexpressing Cu,Zn superoxide dismutase have increased resistance to oxidative injury.

Aryl hydrocarbon receptor-deficient mice generate normal immune responses to model antigens and are resistant to TCDD-induced immune suppression.

Increase in number and size of kidney concretions as a result of PCP exposure in the freshwater snail *Planorbium corneum* (Gastropoda, Pulmonata).

The use of dogs as second species in regulatory testing of pesticides. Part II: Subacute, subchronic and chronic studies in the dog.

Effects of staurosporine, U-73122, wortmannin, 4-hydroxynonenal and sodium azide upon the release of secreted beta-amyloid precursor protein from human platelets in response to thrombin stimulation.

Src tyrosine kinases and extracellular signal-regulated kinase 1/2 mitogen-activated protein kinases mediate pressure-induced c-fos expression in cannulated rat mesenteric small arteries.

Heterogeneity and plasticity of hepatocyte lineage cells.

The role of time as a quantifiable variable of toxicity and the experimental conditions when Haber's $c \times t$ product can be observed: implications for therapeutics.

Immunomodulation of ABA function affects early events in somatic embryo development.

Potential for Integrated Control of *Sclerotinia sclerotiorum* in Glasshouse Lettuce Using *Coniothyrium minitans* and Reduced Fungicide Application.

[Inhibitory effects of tea polyphenols and vitamin C on lipid peroxidation induced by FeSO₄-cysteine in isolated human plasma and carbon tetrachloride-induced liver free radical injury in mice].

Mitochondrial adaptation to in vivo polyunsaturated fatty acid deficiency: increase in phosphorylation efficiency.

Associations of blood levels of PCB, HCHS, and HCB with numbers of lymphocyte subpopulations, in vitro lymphocyte response, plasma cytokine levels, and immunoglobulin autoantibodies.

Transplantation of fetal liver tissue suspension into the spleens of adult syngenic rats: effects of different cytotoxins on cytochrome P450 mediated monooxygenase functions and on oxidative state.

SoxR-dependent response to oxidative stress and virulence of *Erwinia chrysanthemi*: the key role of SufC, an orphan ABC ATPase.

Ergot alkaloid transport across ruminant gastric tissues.

Prolonged hypoxia during cell development protects mature manganese superoxide dismutase-deficient astrocytes from damage by oxidative stress.

Cytochrome P450 2E1 metabolically activates propargyl alcohol: propionaldehyde-induced hepatocyte cytotoxicity.

Case study on chronic organophosphate poisoning.

Cultured rat vascular smooth muscle cells are resistant to methylamine toxicity: no correlation to semicarbazide-sensitive amine oxidase.

Oral versus intravenous iron supplementation in peritoneal dialysis patients.

Beneficial effect of nitric oxide synthase inhibitor on hepatotoxicity induced by allyl alcohol.

Toxic effects of arsenic (III) on some hematopoietic and central nervous system variables in rats and guinea pigs.

Acclimative changes in root epidermal cell fate in response to Fe and P deficiency: a specific role for auxin?

Full life-cycle toxicity assessment using rotifer resting egg production: implications for ecological risk assessment.

Nitroxide TEMPOL impairs mitochondrial function and induces apoptosis in HL60 cells.

Cepharanthine activates caspases and induces apoptosis in Jurkat and K562 human leukemia cell lines.

Development of quantitative structure-activity relationship (QSAR) models for predicting risk of exposure from carcinogens in animals.

Toxicity of pesticides to aquatic microorganisms: a review.

Development of a free beta-galactosidase in vitro test for the assessment of heavy metal toxicity.

Measurement of plasma metabolites of (S)-5-[123I]iodo-3-(2-azetidylmethoxy)pyridine (5-IA-85380), a nicotinic acetylcholine receptor imaging agent, in nonhuman primates.

Clonal anergy induced in a CD8+ hapten-specific cytotoxic T-cell clone by an altered hapten-peptide ligand.

Effects of tyrosine kinase inhibitors on cell death induced by sodium fluoride and pertussis toxin in the pancreatic beta-cell line, RINm5F.

Inhalation toxicity studies of the alpha,beta-unsaturated ketones: 2-cyclohexene-1-one.

Effects of subchronic exposure to complex mixtures of dioxin-like and non-dioxin-like polyhalogenated aromatic compounds on thyroid hormone and vitamin A levels in female Sprague-Dawley rats.

Associations between laboratory parameters and outcome of paraquat poisoning.

The nigrostriatal dopaminergic system as a preferential target of repeated exposures to combined paraquat and maneb: implications for Parkinson's disease.

Acute and repeated vapor exposure toxicology of 3-(methylthio)propionaldehyde.

The effects of atrazine on female wistar rats: an evaluation of the protocol for assessing pubertal development and thyroid function.

The antioxidant ebselen prevents neurotoxicity and clinical symptoms in a primate model of Parkinson's disease.

Folic acid protects SWV/Fnn embryo fibroblasts against arsenic toxicity.

Cytogenetic studies of three triazine herbicides. II. In vivo micronucleus studies in mouse bone marrow.

Induction of centrosome injury, multipolar spindles and multipolar division in cultured V79 cells exposed to dimethylarsinic acid: role for microtubules in centrosome dynamics.

Evolution of alachlor-induced nasal neoplasms in the Long-Evans rat.

[Paraquat poisoning. A study of 29 cases and evaluation of the effectiveness of the "Caribbean scheme"].

Acrolein, a product of lipid peroxidation, inhibits glucose and glutamate uptake in primary neuronal cultures.

Mortality and cancer incidence among Swedish lumberjacks exposed to phenoxy herbicides.

Evaluation of dietary and environmental risk factors for hyperthyroidism in cats.

Chronic ingestion of a potential food contaminant induces gastrointestinal inflammation in rats: role of nitric oxide and mast cells.

[Toxicity and hazards of the herbicide starane 200].

The molecular effects of acrolein.

Effects of in utero exposure to linuron on androgen-dependent reproductive development in the male CrI:CD(SD)BR rat.

[Poisonings with the herbicides glyphosate and glyphosate-trimesium].

Chronic toxicity and oncogenicity bioassay in rats with the chloro-s-triazine herbicide cyanazine.

Aneugenic effects of some metal compounds assessed by chromosome counting in MRC-5 human cells.

A novel leg-shaking *Drosophila* mutant defective in a voltage-gated K(+) current and hypersensitive to reactive oxygen species.

Lung toxicity of paraquat in the rat.

Potentiated and preferential effects of combined paraquat and maneb on nigrostriatal dopamine systems: environmental risk factors for Parkinson's disease?

Acetochlor-induced rat nasal tumors: further studies on the mode of action and relevance to humans.

A meta-analysis of Parkinson's disease and exposure to pesticides.

Comparative toxicity of trivalent and pentavalent inorganic and methylated arsenicals in rat and human cells.

Roundup inhibits steroidogenesis by disrupting steroidogenic acute regulatory (StAR) protein expression.

Clinical presentations and prognostic factors of a glyphosate-surfactant herbicide intoxication: a review of 131 cases.

The selective toxicity of 1-methyl-4-phenylpyridinium to dopaminergic neurons: the role of mitochondrial complex I and reactive oxygen species revisited.

In vivo cytokine production and resistance to infection after acute exposure to 3,4-dichloropropionaniline.

[The problem of prophylaxis of dioxin intoxication (review of the literature)].

Development of a fish in vitro cell culture model to investigate oxidative stress and its modulation by dietary vitamin E.

Immunodetection of hepatic peroxisomal PMP70 as an indicator of peroxisomal proliferation in the mummichog, *Fundulus heteroclitus*.

Effects of environmental pollutants on airways, allergic inflammation, and the immune response.

Propofol improves recovery from paraquat acute toxicity in vitro and in vivo.

Subchronic toxicity of chlorpropham (CIPC) in ICR mice.

Estrogen reduces acute striatal dopamine responses in vivo to the neurotoxin MPP+ in female, but not male rats.

Correlating the severity of paraquat poisoning with specific hemodynamic and oxygen metabolism variables.

The effect of exposure to a commercial 2,4-D herbicide formulation during gestation on urethan-induced lung adenoma formation in CD-1 mice.

[Pentachlorophenol poisoning. Report of 4 cases and review of the literature].

Occupation and prostate cancer risk in Sweden.

Prolonged cholestasis after acute paraquat poisoning through skin absorption.

Role of glutathione in Thiobencarb resistance in the European eel *Anguilla anguilla*.

Recent advances in understanding the pathogenesis of nitrofen-induced congenital diaphragmatic hernia.

Ethane sulfonate metabolite of alachlor: assessment of oncogenic potential based on metabolic and mechanistic considerations.

No significant paraquat-induced oxidative DNA damage in rats.

NMDA receptor activation: critical role in oxidant tissue injury.

Effects of methacrolein on the respiratory tract in mice.

Air toxics and health risks in California: the public health implications of outdoor concentrations.

Safety evaluation and risk assessment of the herbicide Roundup and its active ingredient, glyphosate, for humans.

Cyanamide-induced liver dysfunction after abstinence in alcoholics: a long-term follow-up study on four cases.

Comparison of cyanamide and disulfiram in effects on liver function.

Effects of L-2-oxothiazolidine-4-carboxylate on the cytotoxic activity and toxicity of cyclophosphamide in mice bearing B16F10 melanoma liver metastases.

Acute metobromuron poisoning with severe associated methemoglobinemia. Identification of four metabolites in plasma and urine by LC-DAD, LC-ESI-MS, and LC-ESI-MS-MS.

[A cluster of doubts].

A fatal case of chlorate poisoning: confirmation by ion chromatography of body fluids.

Volatile components of cigarette smoke: effect of acrolein and acetaldehyde on human gingival fibroblasts in vitro.

Sex differences in diquat-induced hepatic necrosis and DNA fragmentation in Fischer 344 rats.

Quantitative determination of paraquat in a fatal intoxication by HPLC-DAD following chemical reduction with sodium borohydride.

Ligation of the bronchial artery in sheep attenuates early pulmonary changes following exposure to smoke.

Stimulated pulmonary cell hyperplasia underlies resistance to alpha-naphthylthiourea.

Genotoxicity testing of five herbicides in the *Drosophila* wing spot test.

[Pesticide poisoning].

1-Methyl-6,7-dihydroxy-1,2,3,4-tetrahydroisoquinoline (salsolinol) is toxic to dopaminergic neuroblastoma SH-SY5Y cells via impairment of cellular energy metabolism.

Detection of 2,4-dichlorophenoxyacetic acid (2,4-D) residues in neonates breast-fed by 2,4-D exposed dams.

A long-term follow-up of lung function in survivors of paraquat poisoning.

Atrazine disrupts the hypothalamic control of pituitary-ovarian function.

Development of methods for evaluating toxicity to freshwater ecosystems.

Uptake, toxicity, and effects on detoxication enzymes of atrazine and trifluoroacetate in embryos of zebrafish.

Acute and chronic toxicity of the herbicide benzofenap (Taipan 300) to *Chironomus tepperi* Skuse (Diptera: Chironomidae) and *Isidorella newcombi* (Adams and Angas) (Gastropoda: Planorbidae).

A new diquat derivative appropriate for colourimetric measurements of biological materials in the presence of paraquat.

Clinical effects and plasma concentration determination after 2,4-dichlorophenoxyacetic acid 200 mg/kg administration in the dog.

[Liver steatosis and disorders of mitochondrial oxidative phosphorylation after experimental administration of simazine].

Paraquat-induced lipid peroxidation and injury in Ehrlich ascites tumor cells.

Use of the *Drosophila* wing spot test in the genotoxicity testing of different herbicides.

The antihypertensive hydralazine is an efficient scavenger of acrolein.

[The ultrastructural changes in the cellular lining of lymph node sinuses in organochlorine pesticide poisoning].

6-Hydroxydopamine toxicity towards human SH-SY5Y dopaminergic neuroblastoma cells: independent of mitochondrial energy metabolism.

A case of transient diabetes insipidus associated with poisoning by a herbicide containing glufosinate.

A case of fatal diquat poisoning: toxicokinetic data and autopsy findings.

Mechanisms of toxicity, clinical features, and management of diquat poisoning: a review.

Mechanisms of toxicity, clinical features, and management of acute chlorophenoxy herbicide poisoning: a review.

[Acute pesticide poisoning].

Pulmonary protective effects of curcumin against paraquat toxicity.

Disorders of male rat reproductive tract under the influence of atrazine.

Hepatic disposition of neurotoxins and pesticides.

Ethanol potentiates hypoxic liver injury: role of hepatocyte Na(+) overload.

Disrupted mitochondrial electron transport function increases expression of anti-apoptotic bcl-2 and bcl-X(L) proteins in SH-SY5Y neuroblastoma and in Parkinson disease cybrid cells through oxidative stress.

Circulating thyroglobulin transcytosed by thyroid cells in complexed with secretory components of its endocytic receptor megalin.

Nonoxidative protein glycation is implicated in familial amyotrophic lateral sclerosis with superoxide dismutase-1 mutation.

Cephaloridine-induced inhibition of cytochrome c oxidase activity in the mitochondria of cultured renal epithelial cells (LLC-PK(1)) as a possible mechanism of its nephrotoxicity.

Role of reactive oxygen intermediates in the decrease of hepatic cytochrome P450 activity by serum of humans and rabbits with an acute inflammatory reaction.

Seasonal changes in lung function in a farming population.

Results of dental amalgam removal and mercury detoxification using DMPS and neural therapy.

Cyclophosphamide-induced cystitis in freely-moving conscious rats: behavioral approach to a new model of visceral pain.

DMPS-arsenic challenge test. II. Modulation of arsenic species, including monomethylarsonous acid (MMA(III)), excreted in human urine.

Dystrophin mutations predict cellular susceptibility to oxidative stress.

The role of orally administered dimethylarsinic acid, a main metabolite of inorganic arsenics, in the promotion and progression of UVB-induced skin tumorigenesis in hairless mice.

Interaction among mitochondria, mitogen-activated protein kinases, and nuclear factor-kappaB in cellular models of Parkinson's disease.

Time course of changes in endothelium-dependent and -independent relaxation of chronically diabetic aorta: role of reactive oxygen species.

Copper chaperone for superoxide dismutase is essential to activate mammalian Cu/Zn superoxide dismutase.

Reactive oxygen species-specific mechanisms of drug resistance in paraquat-resistant acute myelogenous leukemia sublines.

Evaluation of a novel antimicrobial polymer for the control of porcine postweaning colibacillosis.

Antenatal dexamethasone enhances endothelin receptorB expression in hypoplastic lung in nitrofen-induced diaphragmatic hernia in rats.

Potassium chloride depolarization enhances MPP⁺-induced hydroxyl radical generation in the rat striatum.

Metabolic effects of 1-methyl-4-phenylpyridinium (MPP⁺) in primary neuron cultures.

Preliminary results on embryo rescue for circumventing hybridization barriers in Asparagus.

Protein oxidation and degradation during cellular senescence of human BJ fibroblasts: part I--effects of proliferative senescence.

Acute ethanol decreases NPY mRNA but not POMC mRNA in the arcuate nucleus.

Different cell death mechanisms and gene expression in human cells induced by pentachlorophenol and its major metabolite, tetrachlorohydroquinone.

Prevention of 1-methyl-4-phenylpyridinium- and 6-hydroxydopamine-induced nitration of tyrosine hydroxylase and neurotoxicity by EUK-134, a superoxide dismutase and catalase mimetic, in cultured dopaminergic neurons.

The role of conjugation in hepatotoxicity of troglitazone in human and porcine hepatocyte cultures.

7-Hydroperoxycholesterol as a marker of oxidative stress in rat kidney induced by paraquat.

Deregulated manganese superoxide dismutase expression and resistance to oxidative injury in p53-deficient cells.

MPP⁺ injection into rat substantia nigra causes secondary glial activation but not cell death in the ipsilateral striatum.

Role of phosphoglucomutase of *Bordetella bronchiseptica* in lipopolysaccharide biosynthesis and virulence.

[Toxicity of anti-herbicide gene (BAR) transgenic rice].

Catalases and thioredoxin peroxidase protect *Saccharomyces cerevisiae* against Ca²⁺-induced mitochondrial membrane permeabilization and cell death.

Cyanamide-induced activation of the hypothalamo-pituitary-adrenal axis.

Involvement of CDSP 32, a drought-induced thioredoxin, in the response to oxidative stress in potato plants.

Effects of yukmi, an herbal formula, on the liver of senescence accelerated mice (SAM) exposed to oxidative stress.

A theoretical study on the metabolic requirements resulting from alpha-ketoglutarate-dependent cleavage of phenoxyalkanoates.

The genetic toxicity of 3,3',4,4'-tetrachloroazobenzene and 3,3',4,4'-tetrachloroazoxybenzene: discordance between acute mouse bone marrow and subchronic mouse peripheral blood micronucleus test results.

The human cytochrome P450 1A1 mRNA is rapidly degraded in HepG2 cells.

Liver tumor-promoting activity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in TCDD-sensitive and TCDD-resistant rat strains.

Teratological effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD): induction of cleft palate in the ddY and C57BL/6 mouse.

Bovine embryo culture in vitro: new developments and post-transfer consequences.

The mercapturic acid biotransformation pathway of hexachlorobenzene is not involved in the induction of splenomegaly, or skin and lung lesions in the Brown Norway rat.

Short-term developmental outcome of iron prophylaxis in infants.

[Long-term effects of dioxin on human health and sex ratio].

Failure of Ah receptor to mediate induction of cytochromes P450 in the CYP1 family in the human hepatoma line SK-Hep-1.

Immunologic effects of background exposure to polychlorinated biphenyls and dioxins in Dutch preschool children.

Prenatal dexamethasone rescues heart hypoplasia in fetal rats with congenital diaphragmatic hernia.

Joint effects of nine polychlorinated biphenyl (PCB) congeners on breast cancer risk.

Environmental factors in infertility.

Structure of the primordial diaphragm and defects associated with nitrofen-induced CDH.

Spinotrapezius muscle microcirculatory function: effects of surgical exteriorization.

In vivo labeling of mitochondrial complex I (NADH:ubiquinone oxidoreductase) in rat brain using [(3)H]dihydrorotenone.

Lung hypoplasia in the nitrofen model of congenital diaphragmatic hernia occurs early in development.

Association of the human papillomavirus type 11 E1(E4) protein with cornified cell envelopes derived from infected genital epithelium.

2,2',4,6,6'-pentachlorobiphenyl induces apoptosis in human monocytic cells.

[Bernardino Ramazzini. Ante litteram epidemiologist].

[Membrane disorder and free radical].

Chronic peritoneal inflammation by cyanate in rats.

[Diagnosis of acute poisoning].

Elective coronary and valve surgery without blood transfusion in patients treated with recombinant human erythropoietin (epoetin-alpha).

Induction of lung lesions in female rats following chronic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Pharmacological treatment of obesity. Past, present, and future.

The impact of weekly iron supplementation on the iron status and growth of adolescent girls in Tanzania.

Protective effects of herbimycin A on hepatic reperfusion injury.

Cyanate as a hemolytic factor.

Arsenic methylation capacity and skin cancer.

Iron deficiency due to excessive therapeutic phlebotomy in hemochromatosis.

Punctate keratoderma-like lesions on the palms and soles in a patient with chloracne: a new clinical manifestation of dioxin intoxication?

Urinary excretion of glycosaminoglycans in patients with isolated nocturnal enuresis or combined with diurnal incontinence.

Effect of *Withania somnifera* glycowithanolides on iron-induced hepatotoxicity in rats.

Acceleration of phosphatidylcholine synthesis and breakdown by inhibitors of mitochondrial function in neuronal cells: a model of the membrane defect of Alzheimer's disease.

Syndecan-1-dependent homotypic cell adhesion in HT58 lymphoma cells.

An alternative interpretation of nanobacteria-induced biomineralization.

New substituted 1-(2,3-dihydrobenzo[1,4]dioxin-2-ylmethyl)piperidin-4-yl derivatives with alpha(2)-adrenoceptor antagonist activity.

[Effect of sodium azide on mitochondrial membrane potential in SH-SY5Y human neuroblastoma cells].

SERCA function declines with age in adrenergic nerves from the superior cervical ganglion.

Are ferric compounds useful in treatment of iron deficiency anemia?

Subjective symptoms due to solvent mixtures, dioxin, and toluene: impact of exposure versus personality factors.

Heart-related indices in experimental diaphragmatic hernia.

Injection of iron compounds followed by induction of the stress response causes tissue injury and apoptosis.

Central versus peripheral mediation of naloxone's perfusion effects in endotoxic rats.

Ovarian tumors in rats induced by chronic 2,3,7,8-tetrachlorodibenzo-p-dioxin treatment.

Three truncated forms of serum albumin associated with pancreatic pseudocyst.

Taxol mediates serine phosphorylation of the 66-kDa Shc isoform.

Fewer T lymphocytes and decreased pulmonary influenza virus burden in mice exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Dose-response relationships for induction of CYP1A1 and CYP1A2 enzyme activity in liver, lung, and skin in female mice following subchronic exposure to polychlorinated biphenyls.

Novel oxime derivatives of radicicol induce erythroid differentiation associated with preferential G(1) phase accumulation against chronic myelogenous leukemia cells through destabilization of Bcr-Abl with Hsp90 complex.

Effect of prenatal tetrandrine therapy on pulmonary vascular structural remodeling in the nitrofen-induced CDH rat model.

Effects of polychlorinated biphenyls on the nervous system.

The dioxin in chicken incident in Belgium in 1999: trouble or trifle?

Soft tissue sarcomas in the general population living near a chemical plant in Northern Italy.

[Prophylaxis of anemia of prematurity with erythropoietin. Case control study].

Experts' assessment of probability and level of pesticide exposure in agricultural workers.

Low concentrations of 17beta-estradiol protect single cardiac cells against metabolic stress-induced Ca²⁺ loading.

Changes in free and esterified cholesterol: hallmarks of acute renal tubular injury and acquired cytoresistance.

Effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin on initiation and promotion of GST-P-positive foci in rat liver: A quantitative analysis of experimental data using a stochastic model.

Identification of glycosomes and metabolic end products in pathogenic and nonpathogenic strains of *Cryptobia salmositica* (Kinetoplastida: Bodonidae).

Rapid inhibition by sodium azide of the phosphoinositide-mediated calcium response to serotonin stimulation in human platelets: preservation in Alzheimer's disease.

Acquired progressive kinking of the hair in a Japanese girl.

Alterations of the rat mesentery vasculature in experimental diabetes.

In vivo, in utero microscopic magnetic resonance imaging: application in a rat model of diaphragmatic hernia.

Subchronic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin modulates the pathophysiology of endometriosis in the cynomolgus monkey.

Reproductive, neuroendocrine, and immune consequences of acute exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin in the Siberian hamster.

In vitro evidence that lipopolysaccharide of an oral pathogen leaks from root-end filled teeth.

Endocytic recycling is required for the presentation of an exogenous peptide via MHC class II molecules.

Effect of daily and intermittent iron supplementation on iron status of high school girls.

Soft-tissue sarcoma and non-Hodgkin's lymphoma clusters around a municipal solid waste incinerator with high dioxin emission levels.

Antiplatelet therapy alters iron requirements in hemodialysis patients.

Iron requirements in pregnancy and strategies to meet them.

Gestational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin induces developmental defects in the rat vagina.

A retrospective job exposure matrix for estimating exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Apolipoprotein E allele-dependent antioxidant activity in brains with Alzheimer's disease.

NT2 neurons, a classical model for Alzheimer's disease, are highly susceptible to oxidative stress.

The t(1;12)(q21;p13) translocation of human acute myeloblastic leukemia results in a TEL-ARNT fusion.

Assessment of mitochondrial energy coupling in vivo by ¹³C/³¹P NMR.

Clinical and environmental isolates of *Burkholderia cepacia* exhibit differential cytotoxicity towards macrophages and mast cells.

"Difficult-to-treat" asthma-like symptoms in a 12-yr-old atopic female.

Airbag dermatitis.

Ligation of IgE receptors causes an anaphylactic response and neutrophil infiltration but does not induce eosinophilic inflammation in mice.

Effects of erythropoietin therapy on iron absorption in chronic renal failure.

Iron supplementation affects the production of pro-inflammatory cytokines in IL-10 deficient mice.

Effects of 2,4-dichlorophenol on the net-spinning behavior of *Hydropsyche slossonae* larvae (Trichoptera; Hydropsychidae), an early warning signal of chronic toxicity.

Down-regulation of thyroid transcription factor-1 gene expression in fetal lung hypoplasia is restored by glucocorticoids.

Retinal degeneration in licensed pesticide applicators.

Effect of adenosine on adenosine triphosphate-sensitive potassium channel during hypoxia in rat hippocampal neurons.

Identification of the copper-zinc superoxide dismutase activity in *Mycoplasma hyopneumoniae*.

Response to replacement iron therapy in sideropenic individuals with recrudescing herpes labialis.

Astrocytes generate isoprostanes in response to trauma or oxygen radicals.

Effect of CGS 26303, an endothelin-converting enzyme-neutral endopeptidase inhibitor, on nitrofen-induced congenital diaphragmatic hernia in the rat.

Uncoupling of intestinal mitochondrial oxidative phosphorylation and inhibition of cyclooxygenase are required for the development of NSAID-enteropathy in the rat.

p-Cresol sulfate is the dominant component of urinary myelin basic protein like material.

Occupational exposures and pancreatic cancer: a meta-analysis.

Role of manganese-containing superoxide dismutase in oxidative stress and virulence of *Streptococcus pneumoniae*.

Analysis of difference in vivo effects of TCDD between c-src +/+ mice, c-src deficient, +/- and -/- B6, 129-Src(tm 1 sor) mice and their wild-type littermates.

Dioxins: WHO's tolerable daily intake (TDI) revisited.

Occupational exposure to chlorophenol and the risk of nasal and nasopharyngeal cancers among U.S. men aged 30 to 60.

Transfer factors: identification of conserved sequences in transfer factor molecules.

[An analysis of the immunity indices of patients with iron-deficiency anemia].

Studies of cancer in humans.

Human health effects after exposure to 2,3,7,8-TCDD.

Animal studies addressing the carcinogenicity of TCDD (or related compounds) with an emphasis on tumour promotion.

Non-carcinogenic effects of TCDD in animals.

Caspase-3 protease activation during the process of genistein-induced apoptosis in TM4 testicular cells.

The effectiveness of weekly iron supplementation in pregnant women of rural northern Malawi.

Parkinson's disease mortality and pesticide exposure in California 1984-1994.

Inhibition of UV irradiation-induced oxidative stress and apoptotic biochemical changes in human epidermal carcinoma A431 cells by genistein.

Lower alkaline phosphatase activity and occurrence of an abnormal hybrid intestinal/tissue non-specific isoform in Down's syndrome amniotic fluids.

Paternal employment in agriculture and childhood kidney cancer.

Improved selective, simple, and contrast staining of acidophilic neurons with vanadium acid fuchsin.

Toxicity of chronic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin in diethylnitrosamine-initiated ovariectomized rats implanted with subcutaneous 17 beta-estradiol pellets.

In utero and lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin alters postnatal development of seminal vesicle epithelium.

Expression of dioxin-related transactivating factors and target genes in human eutopic endometrial and endometriotic tissues.

Expression of neuronal nitric oxide synthase/NADPH-diaphorase during olfactory deafferentation and regeneration.

Dual-hit hypothesis explains pulmonary hypoplasia in the nitrofen model of congenital diaphragmatic hernia.

Ah receptor ligands and tumor promotion: survival of neoplastic cells.

Risk factors in the early diagnosis of ALS: North American epidemiological studies. ALS CARE Study Group.

Increase of specific symptoms after long-term use of chlorophenol polluted drinking water in a community.

Effect of TCDD on maternal toxicity and chorionic gonadotropin--bioactivity in the immediate post-implantation period of macaque.

CDC investigations of noninfectious outbreaks of adverse events in hemodialysis facilities, 1979-1999.

[Clinical experience with the use of benzylalcohol and amyl-m-cresol (Strepsils) in stomatological diseases].

Drug-induced oesophageal disorders: pathogenesis, incidence, prevention and management.

In vivo treatment of mutant FLT3-transformed murine leukemia with a tyrosine kinase inhibitor.

Iron supplementation improves endurance after training in iron-depleted, nonanemic women.

Effect of iron therapy on the whole blood platelet aggregation in infants with iron deficiency anemia.

Neurokinin-1 (NK-1) receptor is required in antigen-induced cystitis.

Iron supplementation in goitrous, iron-deficient children improves their response to oral iodized oil.

Chronic mitochondrial inhibition induces selective motoneuron death in vitro: a new model for amyotrophic lateral sclerosis.

Is there a rationale for the use of creatine either as nutritional supplementation or drug administration in humans participating in a sport?

Chronic ethanol ingestion increases efficiency of oxidative phosphorylation in rat liver mitochondria.

Interleukin-1beta regulates CFTR expression in human intestinal T84 cells.

Effects of histone deacetylase inhibitors on the Ah receptor gene promoter.

Organophosphates and their impact on the global environment.

Toxic action/toxicity.

Differential expression of phosphatidylethanol-amine-binding protein in rat hepatoma cell lines: analyses of tumor necrosis factor-alpha-resistant cKDH-8/11 and -sensitive KDH-8/YK cells by two-dimensional gel electrophoresis.

Efficacy and acceptability of two iron supplementation schedules in adolescent school girls in Lima, Peru.

Effects of TCDD on thyroid hormone homeostasis in the rat.

Effect of helicobacter pylori eradication on sideropenic refractory anaemia in adolescent girls with Helicobacter pylori infection.

Mechanisms of parenchymal cell death in-vivo after microvascular hemorrhage.

Responses of transgenic mouse lines p53(+/-) and Tg.AC to agents tested in conventional carcinogenicity bioassays.

Anemia: a cause of intolerance to thyroxine sodium.

Regional differences in hypoxic depolarization and swelling in hippocampal slices.

Analysis of the pathogenicity locus in Clostridium difficile strains.

Differential effect of antiallergic drugs on IgE-mediated cutaneous reaction in passively sensitized mice.

Geographic variation in hematological variables in adult and pre fledgling herring gulls (Larus argentatus) and possible associations with organochlorine exposure.

Selective increase in cellular A beta 42 is related to apoptosis but not necrosis.

Mass psychogenic illness attributed to toxic exposure at a high school.

Macrophage migration inhibitory factor up-regulates expression of matrix metalloproteinases in synovial fibroblasts of rheumatoid arthritis.

Death caused by a letter bomb.

Morphologic, biochemical and molecular mitochondrial changes during reperfusion phase following brief renal ischemia.

Central nervous system toxicity and early peripheral neuropathy following dermal exposure to methyl bromide.

Synthesis of [I-NaI3] thymopietin II and examination of its immunological effect on the uremic T-lymphocytes.

Infusion of total dose iron versus oral iron supplementation in ambulatory peritoneal dialysis patients: a prospective, cross-over trial.

Effect of iron salts, haemosiderins, and chelating agents on the lymphocytes of a thalassaemia patient without chelation therapy as measured in the comet assay.

Antenatal dexamethasone administration inhibits smooth-muscle-cell DNA synthesis in pulmonary-arterial media in nitrofen-induced congenital diaphragmatic hernia in rats.

Linking environmental cancer with occupational epidemiology research: the role of the International Agency for Research on Cancer (IARC).

The hypoplastic heart in congenital diaphragmatic hernia: reduced expression of basic fibroblast growth factor and platelet-derived growth factor.

The future relationship between the media, the food industry and the consumer.

Prognostic significance of anemia and role of erythropoietin in radiation therapy.

Sodium arsenite induces the stress response in the gut and decreases bacterial translocation in a burned mouse model with gut-derived sepsis.

Comparison of solvents for removing pesticides from skin using an in vitro porcine model.

Anti-tumor effect of N-beta-alanyl-5-S-glutathionyl-dihydroxyphenylalanine (5-S-GAD), a novel anti-bacterial substance from an insect.

Iron status in breast-fed full-term infants.

Fumigant-related illnesses: Washington State's five-year experience.

Treatment of iron deficiency anemia and associated protein-losing enteropathy in children.

A randomized, double-blind placebo-controlled trial of iron in restless legs syndrome.

Regulation of microglial tyrosine phosphorylation in response to neuronal injury.

Pathogenesis of cleft palate in mouse embryos exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Cell proliferation and apoptosis in experimental lung hypoplasia.

A multicenter study of 4-chloro-m-cresol for diagnosing malignant hyperthermia susceptibility.

Serum dioxin level in relation to diabetes mellitus among Air Force veterans with background levels of exposure.

Intradialytic removal of protein-bound uraemic toxins: role of solute characteristics and of dialyser membrane.

Induction of cyclooxygenase expression and enhancement of malignant cell transformation by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Effects of iron salts and haemosiderin from a thalassaemia patient on oxygen radical damage as measured in the comet assay.

Role of the aromatic hydrocarbon receptor and [Ah] gene battery in the oxidative stress response, cell cycle control, and apoptosis.

An Historical Review of Steps and Missteps in the Discovery of Anti-Obesity Drugs.

Endocrine Disruptor Chemicals.

Control of *Paratrachodorus allius* and Corky Ringspot Disease of Potato in the Columbia Basin of Oregon.

Influence of metham sodium on suppression of collar rot disease of peanut, in vitro antibiosis, siderophore production and root colonization by a fluorescent pseudomonad strain FPO4.

2,3,7,8-Tetrachlorodibenzo-p-dioxin alters hippocampal astroglia-neuronal gap junctional communication.

Impairment of mycophenolate mofetil absorption by iron ion.

[Hand injuries caused by self-made bombs. Observations and reconstructoin techniques. Report of 7 cases].

Regulation of prostaglandin endoperoxide H synthase-2 induction by dioxin in rat hepatocytes: possible c-Src-mediated pathway.

2,3,7,8-tetrachlorodibenzo-p-dioxin inhibits luminal cell differentiation and androgen responsiveness of the ventral prostate without inhibiting prostatic 5alpha-dihydrotestosterone formation or testicular androgen production in rat offspring.

Effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin on the expression of cytochrome P450 1A1, the aryl hydrocarbon receptor, and the aryl hydrocarbon receptor nuclear translocator in rat brain and pituitary.

Evaluation of Methyl Iodide for Control of Peach Replant Disorder.

Cauliflower somatic embryogenesis and analysis of regenerant stability by ISSRs.

Reproductive success and chlorinated hydrocarbon contamination in tree swallows (*Tachycineta bicolor*) nesting along rivers receiving pulp and paper mill effluent discharges.

Calpain-mediated proteolytic cleavage of troponin I induced by hypoxia or metabolic inhibition in cultured neonatal cardiomyocytes.

Quantification of selected pesticide metabolites in human urine using isotope dilution high-performance liquid chromatography/tandem mass spectrometry.

The effect of cysteine and 2,4-dinitrophenol on heme and nonheme absorption in a rat intestinal model.

A novel aldose/aldehyde reductase protects transgenic plants against lipid peroxidation under chemical and drought stresses.

Arabidopsis *dth9* mutation identifies a gene involved in regulating disease susceptibility without affecting salicylic acid-dependent responses.

Glycosaminoglycan sulfation requirements for respiratory syncytial virus infection.

Chronic toxicity of arsenic in goats: clinicobiochemical changes, pathomorphology and tissue residues.

Acute and chronic life cycle toxicity of acenaphthene and 2,4,6-trichlorophenol to the midge *Paratanytarsus parthenogeneticus* (Diptera: Chironomidae).

Effects of NMDA and ferrous sulfate on oxidation and cell death in primary neuronal cultures.

Do oxidative stress conditions impairing photosynthesis in the light manifest as photoinhibition?

Adrenocorticotropin (ACTH) and corticosterone secretion by perfused pituitary and adrenal glands from rodents exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Differential effects of estrogen and progesterone on AT(1) receptor gene expression in vascular smooth muscle cells.

Biocontrol of Cucumber Diseases in the Field by Plant Growth-Promoting Rhizobacteria With and Without Methyl Bromide Fumigation.

Air bag injury and the dermatologist.

Transplantation of fetal liver tissue suspension into the spleens of adult syngenic rats: effects of different cytotoxins on cytochrome P450 isoforms expression and on glycogen content.

Inhibition of dioxin effects on bone formation in vitro by a newly described aryl hydrocarbon receptor antagonist, resveratrol.

Antiestrogenic effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin in mouse uterus: critical role of the aryl hydrocarbon receptor in stromal tissue.

Tissue disposition of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in maternal and developing long-evans rats following subchronic exposure.

Bioenergetics and mitochondrial transmembrane potential during differentiation of cultured osteoblasts.

Hemodynamic dysfunction and cytochrome P4501A mRNA expression induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin during embryonic stages of lake trout development.

Toxicity of TCDD in European flounder (*Platichthys flesus*) with emphasis on histopathology and cytochrome P450 1A induction in several organ systems.

Pathologic alterations in adult rainbow trout, *Oncorhynchus mykiss*, exposed to dietary 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Effects of arsenite on central monoamines and plasmatic levels of adrenocorticotropin hormone (ACTH) in mice.

Characterization of cardiotoxicity induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin and related chemicals during early chick embryo development.

Portosystemic shunting and persistent fetal vascular structures in aryl hydrocarbon receptor-deficient mice.

Experimental model of hepatic fibrosis following repeated periportal necrosis induced by allyl alcohol.

Molecular mechanisms of apoptosis induced by cytotoxic chemicals.

Differential susceptibility of retinal ganglion cells to reactive oxygen species.

Arsenite-induced apoptosis in cortical neurons is mediated by c-Jun N-terminal protein kinase 3 and p38 mitogen-activated protein kinase.

The role of time in toxicology or Haber's c x t product.

Interleukin-6 negatively regulates the expression of pregnane X receptor and constitutively activated receptor in primary human hepatocytes.

Evidence for a trigger function of valproic acid in xenobiotic-induced hepatotoxicity.

ATP-sensitive potassium channels in freshly dissociated adult rat striatal neurons: activation by metabolic inhibitors and the dopaminergic receptor agonist quinpirole.

Calcium-mediated signaling during sandalwood somatic embryogenesis. Role for exogenous calcium as second messenger.

Endocrine disruptive effects of polychlorinated aromatic hydrocarbons on intestinal cholecystokinin in rats.

Role of the *Pseudomonas aeruginosa* oxyR-recG operon in oxidative stress defense and DNA repair: OxyR-dependent regulation of katB-ankB, ahpB, and ahpC-ahpF.

Physiological role of the aryl hydrocarbon receptor in mouse ovary development.

Determination of the phospholipid precursor of anandamide and other N-acyl ethanolamine phospholipids before and after sodium azide-induced toxicity in cultured neocortical neurons.

Mapping the bimolecular interface of the parathyroid hormone (PTH)-PTH1 receptor complex: spatial proximity between Lys(27) (of the hormone principal binding domain) and leu(261) (of the first extracellular loop) of the human PTH1 receptor.

Protein-tyrosine phosphatase reduces the number of apical small conductance K⁺ channels in the rat cortical collecting duct.

Transformation of mono- and dichlorinated phenoxybenzoates by phenoxybenzoate-dioxygenase in *Pseudomonas pseudoalcaligenes* POB310 and a modified diarylether-metabolizing bacterium.

Health effects of chronic exposure to polychlorinated dibenzo-p-dioxins (PCDD), dibenzofurans (PCDF) and coplanar PCB (Co-PCB) of municipal waste incinerator workers.

Ventricular preexcitation sensitive to flecainide in late stage chick embryo ECGs: 2,3,7,8-tetrachlorodibenzo-p-dioxin impairs inotropic but not chronotropic or dromotropic responses to isoproterenol and confers resistance to flecainide.

Pentoxifylline attenuates bacterial lipopolysaccharide-induced enhancement of allyl alcohol hepatotoxicity.

Pathological lesions in lambs fed raw or processed cottonseed meal.

Synergistic activation of NF-kappaB and inducible isoform of nitric oxide synthase induction by interferon-gamma and tumor necrosis factor-alpha in INS-1 cells.

Occupational fatalities associated with 2,4-dichlorophenol (2,4-DCP) exposure, 1980-1998.

Relative potency values derived from hepatic vitamin A reduction in male and female Sprague-Dawley rats following subchronic dietary exposure to individual polychlorinated dibenzo-p-dioxin and dibenzofuran congeners and a mixture thereof.

Differential response of cellular antioxidant mechanism of liver and kidney to arsenic exposure and its relation to dietary protein deficiency.

Activation of NFkappaB is necessary for IL-1beta-induced cyclooxygenase-2 (COX-2) expression in human gingival fibroblasts.

Vanillin as an antioxidant in rat liver mitochondria: inhibition of protein oxidation and lipid peroxidation induced by photosensitization.

Pathological changes of hepatic artery and portal vein, after allyl-alcohol and carbon tetrachloride administration. An experimental study.

Thyroidal dysfunction and environmental chemicals--potential impact on brain development.

The inhibition of ERK/MAPK not the activation of JNK/SAPK is primarily required to induce apoptosis in chronic myelogenous leukemic K562 cells.

Paternal concentrations of dioxin and sex ratio of offspring.

Cytotoxicity and keratinocyte microsome-mediated mutagenic activation of carcinogens in cultured epidermal cells.

Anti-inflammatory effect of heat shock protein induction is related to stabilization of I kappa B alpha through preventing I kappa B kinase activation in respiratory epithelial cells.

Peroxisomes: biochemistry, molecular biology and genetic diseases- a video programme for teaching students.

Chemical changes in the photoreceptor outer segments due to iron induced oxidative stress: analysis by Fourier transform infrared (FT-IR) microspectroscopy.

The involvement of caspases in the CD95(Fas/Apo-1)- but not swelling-induced cellular taurine release from Jurkat T-lymphocytes.

Altered cell cycle control at the G(2)/M phases in aryl hydrocarbon receptor-null embryo fibroblast.

Chelating agents for uranium(VI): 2. Efficacy and toxicity of tetradentate catecholate and hydroxypyridinonate ligands in mice.

Sphingomyelinase and membrane sphingomyelin content: determinants of Proximal tubule cell susceptibility to injury.

Sodium arsenite-induced dysregulation of proteins involved in proliferative signaling.

The relative abilities of TCDD and its congeners to induce oxidative stress in the hepatic and brain tissues of rats after subchronic exposure.

Mechanisms of fibroblast growth factor 2 intracellular processing: a kinetic analysis of the role of heparan sulfate proteoglycans.

Effect of bioactive tannoid principles of *Emblica officinalis* on iron-induced hepatic toxicity in rats.

Studies on the mechanisms of arsenic-induced self tolerance developed in liver epithelial cells through continuous low-level arsenite exposure.

Oxidative stress in female B6C3F1 mice following acute and subchronic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Tyrosine phosphorylation of the p85 subunit of phosphatidylinositol 3-kinase correlates with high proliferation rates in sublines derived from the Jurkat leukemia.

Bioassays with *Vibrio fischeri* for the assessment of delayed toxicity.

Role of p53 tumor suppressor gene in the toxicity of TCDD, endrin, naphthalene, and chromium (VI) in liver and brain tissues of mice.

Toxicology of environmental chemicals in the flounder (*Platichthys flesus*) with emphasis on the immune system: field, semi-field (mesocosm) and laboratory studies.

Deficiency of the stress kinase p38alpha results in embryonic lethality: characterization of the kinase dependence of stress responses of enzyme-deficient embryonic stem cells.

Determination of the disulfide bond arrangement of Newcastle disease virus hemagglutinin neuraminidase. Correlation with a beta-sheet propeller structural fold predicted for paramyxoviridae attachment proteins.

NTP Toxicology and Carcinogenesis Studies of Pyridine (CAS No. 110-86-1) in F344/N Rats, Wistar Rats, and B6C3F1 Mice (Drinking Water Studies).

Hormonal regulation of fruitlet abscission induced by carbohydrate shortage in citrus.

Tyrosine-kinase dependent TGF-beta and extracellular matrix expression by mechanical stretch in vascular smooth muscle cells.

Bacterial cell death induced by human pro-apoptotic Bax is blocked by an RNase E mutant that functions in an anti-oxidant pathway.

Inhibition of motility of hamster spermatozoa by protein tyrosine kinase inhibitors.

Polyamines in the lung: polyamine uptake and polyamine-linked pathological or toxicological conditions.

Cytoskeletal alterations in lipopolysaccharide-induced bovine vascular endothelial cell injury and its prevention by sodium arsenite.

1,2-Dichlorobenzene-mediated hepatocellular oxidative stress in Fischer-344 and Sprague-Dawley rats.

Seminal plasma reduces exogenous oxidative damage to human sperm, determined by the measurement of DNA strand breaks and lipid peroxidation.

Experimental exposure of rat skin to methyl bromide: a toxicokinetic and histopathological study.

Biliary excretion of bile acids and organic anions in zone 1- and zone 3-injured rats.

Acute administration of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in pregnant Long Evans rats: association of measured tissue concentrations with developmental effects.

Gibberellin requirement for Arabidopsis seed germination is determined both by testa characteristics and embryonic abscisic acid.

Cellular stress inhibits vascular smooth muscle relaxation.

Cytochrome c release from mitochondria of early postimplantation murine embryos exposed to 4-hydroperoxycyclophosphamide, heat shock, and staurosporine.

Candida albicans mutants deficient in respiration are resistant to the small cationic salivary antimicrobial peptide histatin 5.

Systemic indicators of inorganic arsenic toxicity in four animal species.

Effects of Herbicides on Fusarium solani f. sp. glycines and Development of Sudden Death Syndrome in Glyphosate-Tolerant Soybean.

Gulf War Syndrome: the "Agent Orange" of the nineties.

In vitro ocular irritation toxicity study of some pesticides.

UVA-induced oxidative damage in retinal pigment epithelial cells after H₂O₂ or sparfloracin exposure.

Yang-Gan-Wan protects mice against experimental liver damage.

Hydroxy-urea protects erythrocytes against oxidative damage.

Regulation of programmed cell death in maize endosperm by abscisic acid.

Effect of inhibitors and uncouplers of oxidative phosphorylation during compaction and blastulation of bovine embryos cultured in vitro.

Carbonic anhydrase activators - part 21. Novel activators of isozymes I, II and IV incorporating carboxamido and ureido histamine moieties.

Protein tyrosine kinase regulates the number of renal secretory K channels.

Neurotrophic factors protect cortical synaptic terminals against amyloid and oxidative stress-induced impairment of glucose transport, glutamate transport and mitochondrial function.

Pressure-induced upregulation of preproendothelin-1 and endothelin B receptor expression in rabbit jugular vein in situ : implications for vein graft failure?

Contribution of NADH oxidase to aerobic metabolism of *Streptococcus pyogenes*.

Less than 80% of absorbed iron is promptly incorporated into erythrocytes of infants.

Rapid lethal intoxication caused by the herbicide glyphosate-trimesium (Touchdown).

Nitrofen-induced congenital malformations of the heart and great vessels in rats: an animal model.

Chronic dietary toxicity and oncogenicity evaluation of MCPA (4-chloro-2-methylphenoxyacetic acid) in rodents.

Biodegradation in laboratory activated sludge plants and aquatic toxicity of herbicides.

Protective role of germanium-132 against paraquat-induced oxidative stress in the livers of senescence-accelerated mice.

Estrous cycle patterns of Sprague-Dawley rats during acute and chronic atrazine administration.

Determination by ¹H NMR spectroscopy of paraquat in urine from acutely poisoned patients. Comparison with second-derivative spectroscopy method.

Regulation of antioxidant enzyme gene expression in response to oxidative stress and during differentiation of mouse skeletal muscle.

Maternal exposure to atrazine during lactation suppresses suckling-induced prolactin release and results in prostatitis in the adult offspring.

Cellular glutathione peroxidase protects mice against lethal oxidative stress induced by various doses of diquat.

High levels of dietary vitamin E do not replace cellular glutathione peroxidase in protecting mice from acute oxidative stress.

Occupational factors for sarcoma subtypes.

A mechanism of paraquat toxicity involving nitric oxide synthase.

Tobacco smoke in the development and therapy of periodontal disease: progress and questions.

Effect of chloridazone on the animal organism.

Multiple logistic regression analysis of plasma paraquat concentrations as a predictor of outcome in 375 cases of paraquat poisoning.

Associations between stomach cancer incidence and drinking water contamination with atrazine and nitrate in Ontario (Canada) agroecosystems, 1987-1991.

Persistent health effects of dioxin contamination in herbicide production.

Pneumonitis and herbicide exposure.

Glufosinate and a surfactant: which component produces effects on the central nervous system in acute oral BASTA poisoning?

Renal failure and corrosive airway and gastrointestinal injury after ingestion of diluted diquat solution.

Immune parameters in biological monitoring of pesticide exposure: current knowledge and perspectives.

Butachlor is cytotoxic and clastogenic and induces apoptosis in mammalian cells.

Behavioural and histological effects of atrazine on freshwater molluscs (*Physa acuta* Drap. and *Ancylus fluviatilis* MÃ¼ll. Gastropoda).

The mammary tumor response in triazine-treated female rats: a threshold-mediated interaction with strain and species-specific reproductive senescence.

Acute paraquat intoxication: using nuclear pulmonary studies to predict patient outcome.

Aberrant copper chemistry as a major mediator of oxidative stress in a human cellular model of amyotrophic lateral sclerosis.

Effects of a herbicide formulation, Tordon 75D, and its individual components on the oxidative functions of mitochondria.

Fatal paraquat poisoning: report of two cases.

Porphyria and chemicals.

Effect of the in vivo catalase inhibition on aminonucleoside nephrosis.

Acute basagran poisoning mimicking neuroleptic malignant syndrome.

Human ocular effects from self-reported exposures to Roundup herbicides.

Clinical impact of upper gastrointestinal tract injuries in glyphosate-surfactant oral intoxication.

Human isolated airway contraction: interaction between air pollutants and passive sensitization.

Selenium-dependent cellular glutathione peroxidase protects mice against a pro-oxidant-induced oxidation of NADPH, NADH, lipids, and protein.

[Pneumocystis carinii pneumonia in an immunocompetent patient after paraquat spraying].

Homicide by paraquat poisoning.

Behavioral alterations induced in rats by a pre- and postnatal exposure to 2,4-dichlorophenoxyacetic acid.

High rates of paraquat-induced suicide in southern Trinidad.

Long-term respiratory health effects of the herbicide, paraquat, among workers in the Western Cape.

Nitric oxide protects against cellular damage produced by methylviologen herbicides in potato plants.

An evaluation of the carcinogenic potential of the herbicide alachlor to man.

Effects of trifluralin on carp: biochemical and histological evaluation.

Re-analysis of 2,4-D use and the occurrence of canine malignant lymphoma.

Hepato-toxic effect of diuron in albino rats.

A toxicokinetic analysis in a patient with acute glufosinate poisoning.

Pentachlorophenol exposure in women with gynecological and endocrine dysfunction.

Occupational risk factors for sarcoma subtypes.

Acrolein-induced toxicity--defective mitochondrial function as a possible mechanism.

2,4-D treatment in tench (*Tinca tinca* L.): pathological processes on the excretory kidney.

Acrolein toxicity: comparative in vitro study with lung slices and pneumocytes type II cell line from rats.

Dioxin exposure and human leukemias and lymphomas. Lessons from the Seveso accident and studies on industrial workers.

Paraquat myopathy: report on two suicide cases.

National identity and controversy: New Zealand's clean green image and pentachlorophenol.

The first ever report of homicidal poisoning by intramuscular injection of gramoxone (paraquat).

[Effect of beta-carotene oil and bee pollen on ion transport in rat brain slices following radiation-chemical exposure].

Acute pulmonary toxicity of acrolein in rats--underlying mechanism.

Selected phenolic compounds in cultivated plants: ecologic functions, health implications, and modulation by pesticides.

Maternal and developmental toxicity of halogenated 4'-nitrodiphenyl ethers in mice.

The toxicity of glyphosate and several glyphosate formulations to four species of southwestern Australian frogs.

Divergent kinetics of hsp70 induction in *Oniscus asellus* (Isopoda) in response to four environmentally relevant organic chemicals (B[a]P, PCB52, gamma-HCH, PCP): suitability and limits of a biomarker.

Studies on paraquat-induced oxidative stress in rat liver.

Disposition of pesticides and toxicants in the human reproductive system in cases of acute poisoning.

Clinical course of a fatal ingestion of diquat.

Vaginally applied diquat intoxication.

Cytochemical energy-filtering transmission electron microscopy of mitochondrial free radical formation in paraquat cytotoxicity.

Genotoxicity studies on the phenoxyacetates 2,4-D and 4-CPA in the *Drosophila* wing spot test.

[Intoxications caused by plant protection chemicals in 1997].

Model field study of Sumithion 50 EC and Fusilade S on pheasants.

Levels of paraquat in fatal intoxications.

[Effect of 2,4-D ecotoxicants on spermatogenesis and fertility of albino rats].

Reproductive disturbance caused by an S-triazine herbicide in pigs.

Embryonic toxicity of insecticide Sumithion 50 EC and herbicide Fusilade S in pheasants after individual or combined administration.

Endocrine, immune, and behavioral effects of aldicarb (carbamate), atrazine (triazine) and nitrate (fertilizer) mixtures at groundwater concentrations.

Administration of potentially antiandrogenic pesticides (procymidone, linuron, iprodione, chlozolinate, p,p'-DDE, and ketoconazole) and toxic substances (dibutyl- and diethylhexyl phthalate, PCB 169, and ethane dimethane sulphonate) during sexual differentiation produces diverse profiles of reproductive malformations in the male rat.

Acute poisoning with a herbicide containing imazapyr (Arsenal): a report of six cases.

Thiobencarb toxicity and plasma AChE inhibition in the European eel.

Dose-specific production of chlorinated quinone and semiquinone adducts in rodent livers following administration of pentachlorophenol.

The early phase of apoptosis in human neuroblastoma CHP100 cells is characterized by lipoxygenase-dependent ultraweak light emission.

Serological and biochemical follow-up in cattle naturally infected with *Fasciola hepatica*, and comparison with a climate model for predicting risks of fasciolosis.

Arsenic trioxide selectively induces acute promyelocytic leukemia cell apoptosis via a hydrogen peroxide-dependent pathway.

Monocyte inflammation augments acrolein-induced Muc5ac expression in mouse lung.

Loss of heterozygosity in (LewisxF344)F1 rat urinary bladder tumors induced with N-butyl-N-(4-hydroxybutyl)nitrosamine followed by dimethylarsinic acid or sodium L-ascorbate.

Vitamin A decreases the incidence and severity of nitrofen-induced congenital diaphragmatic hernia in rats.

Animal cell-death suppressors Bcl-x(L) and Ced-9 inhibit cell death in tobacco plants.

Current status of acrolein as a lipid peroxidation product.

Increased activity of H₂O₂ in aorta isolated from chronically streptozotocin-diabetic rats: effects of antioxidant enzymes and enzymes inhibitors.

Evidence for site-specific bioactivation of alachlor in the olfactory mucosa of the Long-Evans rat.

Decreased intracellular superoxide levels activate Sindbis virus-induced apoptosis.

Enhanced potential for oxidative stress in hyperinsulinemic rats: imbalance between hepatic peroxisomal hydrogen peroxide production and decomposition due to hyperinsulinemia.

Paraquat elicited neurobehavioral syndrome caused by dopaminergic neuron loss.

Motor neuron degeneration is attenuated in bax-deficient neurons in vitro.

Oxidative stress as a mechanism of chronic cadmium-induced hepatotoxicity and renal toxicity and protection by antioxidants.

Protein-bound acrolein: a novel marker of oxidative stress in Alzheimer's disease.

Selectable viruses and altered susceptibility mutants in *Arabidopsis thaliana*.

Pentachlorophenol and pentachloroanisole in oil samples associated with the toxic oil syndrome.

The p66shc adaptor protein controls oxidative stress response and life span in mammals.

State transitions, cyclic and linear electron transport and photophosphorylation in *Chlamydomonas reinhardtii*.

Attenuation of endogenous oxidative stress-induced cell death by cytochrome P450 inhibitors in primary cultures of rat hepatocytes.

Neisseria gonorrhoeae bacterioferritin: structural heterogeneity, involvement in iron storage and protection against oxidative stress.

Oxidative stress sensitivity and superoxide dismutase of a wild-type parent strain and a respiratory mutant of *Candida albicans*.

Transendothelial permeability changes induced by free radicals in an in vitro model of the blood-brain barrier.

Knockout of cellular glutathione peroxidase gene renders mice susceptible to diquat-induced oxidative stress.

[Effect of alcohol intoxication and aldehyde dehydrogenase inhibitors on lipid peroxidation in rat liver].

Inhibition of human tumor growth by 2'-hydroxy- and 2'-benzoyloxycinnamaldehydes.

Enhancement of cytotoxicity of hydrogen peroxide by hyperthermia in chinese hamster ovary cells: role of antioxidant defenses.

Cloned prokaryotic iron superoxide dismutase protects yeast cells against oxidative stress depending on mitochondrial location.

Signals controlling the expression of cytosolic ascorbate peroxidase during pathogen-induced programmed cell death in tobacco.

The flavohemoglobin of *Escherichia coli* confers resistance to a nitrosating agent, a "Nitric oxide Releaser," and paraquat and is essential for transcriptional responses to oxidative stress.

Acrolein cytotoxicity and glutathione depletion in n-3 fatty acid sensitive- and resistant human tumor cells.

Effect of Shimotsu-to (a Kampo medicine, Si-Wu-Tang) and its constituents on triphasic skin reaction in passively sensitized mice.

Environmental, medical, and family history risk factors for Parkinson's disease: a New England-based case control study.

[Absence of cardiac hypoplasia in an experimental model of congenital diaphragmatic hernia].

Benzene and non-Hodgkin's lymphoma.

Reactive oxygen species in essential hypertension and non-insulin-dependent diabetes mellitus.

Acute arsenic poisoning: clinical and histopathological features.

Thymocyte development in Ah-receptor-deficient mice is refractory to TCDD-inducible changes.

Taurine prevents high-glucose-induced human vascular endothelial cell apoptosis.

Fatal privet (*Ligustrum amurensis*) toxicosis in Tennessee cows.

Rapid diagnosis of tuberculous meningitis by a dot immunobinding assay To detect mycobacterial antigen in cerebrospinal fluid specimens.

Implication of mitochondria-derived reactive oxygen species, cytochrome C and caspase-3 in N-(4-hydroxyphenyl)retinamide-induced apoptosis in cervical carcinoma cells.

Risk of stomach cancer associated with 12 workplace hazards: analysis of death certificates from 24 states of the United States with the aid of job exposure matrices.

Skeletal malformations associated with congenital diaphragmatic hernia: experimental and human studies.

Environmental risk factors in Parkinson's disease.

Interspecies differences in cancer susceptibility and toxicity.

Effect of prenatal exposure to TCDD on the promotion of endometriotic lesion growth by TCDD in adult female rats and mice.

Effects of exposure to 3,3',4,4',5-pentachlorobiphenyl (PCB 126) throughout gestation and lactation on behavior (concurrent random interval-random interval and progressive ratio performance) in rats.

Antenatal dexamethasone suppresses tumor necrosis factor-alpha expression in hypoplastic lung in nitrofen-induced diaphragmatic hernia in rats.

In vitro methylation of arsenite by rabbit liver cytosol: effect of metal ions, metal chelating agents, methyltransferase inhibitors and uremic toxins.

Digoxin delays recovery from tachycardia-induced electrical remodeling of the atria.

Role of Fas-Fas ligand interactions in 2,3,7,8-tetrachlorodibenzo- p-dioxin (TCDD)-induced immunotoxicity: increased resistance of thymocytes from Fas-deficient (lpr) and Fas ligand-defective (gld) mice to TCDD-induced toxicity.

Inhibition of antioxidants and hyperthermia enhance bleomycin-induced cytotoxicity and lipid peroxidation in Chinese hamster ovary cells.

[A technic using MRI. A comparative study of 3 anesthetic technics of the inferior alveolar nerve].

Enhancement of sodium intestinal secretion in relation to absorption in malnourished rats. Hyperosmolar challenge.

[Use of daily and weekly ferrous sulfate to treat anemic childbearing-age women].

Geldanamycin induces heat shock protein expression through activation of HSF1 in K562 erythroleukemic cells.

The significance of excursions above the ADI: duration in relation to pivotal studies.

Blood lipid concentrations of dioxins and dibenzofurans causing chloracne.

Meta-analysis of Hodgkin's disease among farmers.

Heat shock protein suppresses the senescent lung cytokine response to acute endotoxemia.

Quantitative analysis of dose- and time-dependent promotion of four phenotypes of altered hepatic foci by 2,3,7,8-tetrachlorodibenzo-p-dioxin in female Sprague-Dawley rats.

Erosive injury to the upper gastrointestinal tract in patients receiving iron medication: an underrecognized entity.

Multiple antioxidants in the prevention and treatment of Parkinson's disease.

Animal poisonings: the 10-year experience of a veterinary analytical toxicology laboratory.

Inhibition of BRCA-1 expression by benzo[a]pyrene and its diol epoxide.

Prenatal immunotoxicant exposure and postnatal autoimmune disease.

Loss of wild-type carrier-mediated L-carnitine transport activity in hepatocytes of juvenile visceral steatosis mice.

Expression of the soxR gene of *Pseudomonas aeruginosa* is inducible during infection of burn wounds in mice and is required to cause efficient bacteremia.

Cyclic nucleotide phosphodiesterases (PDE) 3 and 4 in normal, malignant, and HTLV-I transformed human lymphocytes.

Iron fortification with special reference to the role of iron EDTA.

[Occupational agents and endocrine function: an update of the experimental and human evidence].

Cytotoxic potential of the phytochemical genistein isoflavone (4',5',7-trihydroxyisoflavone) and certain environmental chemical compounds on testicular cells.

Complementation between HLA-DR4 (DRB1*0401) and specific H2-A molecule in transgenic mice leads to collagen-induced arthritis.

Long term substitution and specific immune responses after transfer of bovine peripheral blood lymphocytes into severe combined immunodeficient mice.

Teratogenic response to arsenite during neurulation: relative sensitivities of C57BL/6J and SWV/Fnn mice and impact of the splotch allele.

Hypoxia induces renal tubular epithelial cell apoptosis in chronic renal disease.

Anti-lactoferrin antibodies and other types of anti-neutrophil cytoplasmic antibodies (ANCA) in reactive arthritis and ankylosing spondylitis.

Ferrous sulfate toxicity: a review of autopsy findings.

Balloon angioplasty induces heat shock protein 70 in human blood vessels.

The stabilization of ferrous iron by a toxic beta-amyloid fragment and by an aluminum salt.

Effects of CYP1A2 on disposition of 2,3,7,8-tetrachlorodibenzo-p-dioxin, 2,3,4,7,8-pentachlorodibenzofuran, and 2,2',4,4',5,5'-hexachlorobiphenyl in CYP1A2 knockout and parental (C57BL/6N and 129/Sv) strains of mice.

Effects of aging on resistance to *Trichinella spiralis* infection in rodents exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Immunocytochemical identification of islet cells containing calcitonin gene-related peptide-like immunoreactivity in the plains rat pancreas (*Pseudomys australis*).

Connective tissue responses to calcium hydroxide-based root canal medicaments.

Characteristics of L-carnitine transport in cultured human hepatoma HLF cells.

Low-dose oral iron absorption test in anaemic patients with and without iron deficiency determined by bone marrow iron content.

Food toxins, ampa receptors, and motor neuron diseases.

Effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on liver phosphoenolpyruvate carboxykinase (PEPCK) activity, glucose homeostasis and plasma amino acid concentrations in the most TCDD-susceptible and the most TCDD-resistant rat strains.

Fetal tracheal occlusion in the rat model of nitrofen-induced congenital diaphragmatic hernia.

Iron enhancement of experimental infection of mice by *Tritrichomonas foetus*.

Secreted form of amyloid precursor protein enhances basal glucose and glutamate transport and protects against oxidative impairment of glucose and glutamate transport in synaptosomes by a cyclic GMP-mediated mechanism.

Altered bcl-2 family expression during non-genotoxic hepatocarcinogenesis in mice.

Arsenic-related Bowen's disease, palmar keratosis, and skin cancer.

A monoclonal antibody reactive with a 40-kDa molecule on fetal thymocytes and tumor cells blocks proliferation and stimulates aggregation and apoptosis.

F-actin as a functional target for retro-retinoids: a potential role in anhydroretinol-triggered cell death.

Pharmacokinetics of TCDD in veterans of Operation Ranch Hand: 15-year follow-up.

Regulation of matrix metalloproteinase-2 (MMP-2) by hepatocyte growth factor/scatter factor (HGF/SF) in human glioma cells: HGF/SF enhances MMP-2 expression and activation accompanying up-regulation of membrane type-1 MMP.

Differential toxicities of TCDD in vivo among normal, c-src knockout, geldanamycin- and quercetin-treated mice.

Dietary restriction and 2-deoxyglucose administration improve behavioral outcome and reduce degeneration of dopaminergic neurons in models of Parkinson's disease.

Comparison of neurotoxic effects and potential risks from oral administration or ingestion of tricresyl phosphate and jet engine oil containing tricresyl phosphate.

Central control of blood pressure by nitrergic mechanisms in organum vasculosum laminae terminalis of rat brain.

74As-arsenate metabolism in Flemish Giant rabbits with renal insufficiency.

Absence of effect of seven functional mutations in the CYP2D6 gene in Parkinson's disease.

Hypoxia potentiates ultraviolet A-induced riboflavin cytotoxicity.

Increased risk of sensory neuropathy in workers with chloracne after exposure to 2,3,7,8-polychlorinated dioxins and furans.

p27(Kip1) induction and inhibition of proliferation by the intracellular Ah receptor in developing thymus and hepatoma cells.

Occult gastrointestinal bleeding.

A chimeric aryl hydrocarbon receptor knockout mouse model indicates that aryl hydrocarbon receptor activation in hematopoietic cells contributes to the hepatic lesions induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Role of Ras/ERK-dependent pathway in the erythroid differentiation of K562 cells.

Prevalence of antinuclear antibodies in a rural population.

Ferrous sulfate tolerance test: a case report.

[Sodium arsenite selectively inducing apoptosis of G2 + M phase NB4 cells].

[Anemia and its treatment with peroral anti-anemia agents in women during the postpartum period].

Analysis of urinary nitric oxide metabolites in healthy subjects.

Genetics, drugs and environmental factors in Parkinson's disease. A case-control study.

Protoporphyrin IX fluorescence kinetics in C6 glioblastoma cells after delta-aminolevulinic acid incubation: effect of a protoporphyrinogen oxidase inhibitor.

Randomized placebo-controlled trial of *Helicobacter pylori* eradication for iron-deficiency anemia in preadolescent children and adolescents.

Toxic equivalency factors of polychlorinated dibenzo-p-dioxins in an ovulation model: validation of the toxic equivalency concept for one aspect of endocrine disruption.

Heat shock protein expression protects against cerebral ischemia and monoamine overload in rat heatstroke.

BPD-MA-mediated photosensitization in vitro and in vivo: cellular adhesion and beta1 integrin expression in ovarian cancer cells.

4-chloro-m-cresol is a trigger of malignant hyperthermia in susceptible swine.

4-chloro-m-cresol triggers malignant hyperthermia in susceptible swine at doses greatly exceeding those found in drug preparations.

Expression of CYP1A1 and CYP1B1 depends on cell-specific factors in human breast cancer cell lines: role of estrogen receptor status.

Biochemistry of hemlock (*Conium maculatum* L.) alkaloids and their acute and chronic toxicity in livestock. A review.

Cancer, heart disease, and diabetes in workers exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Learning and memory in rats gestationally and lactationally exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Delayed acute toxicity of 1,2,3,4,6,7,8-heptachlorodibenzo-p-dioxin (HpCDD), after oral administration, Obeyes Haber's rule of inhalation toxicology.

Increased tropoelastin and procollagen expression in the lung of nitrofen-induced diaphragmatic hernia in rats.

Heart hypoplasia in experimental congenital diaphragmatic hernia.

Involvement of tyrosine protein kinase in IFN-gamma-induced human endothelial cell apoptosis.

Toxicity of 3,3',4,4'-tetrachloroazoxybenzene in rats and mice.

Cytoplasmic elongation and rupture in megakaryoblastic leukemia cells via activation of adhesion and motility by staurosporine on fibronectin-bound substratum.

Evaluation of diabetes mellitus, serum glucose, and thyroid function among United States workers exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Low levels of p53 are associated with resistance to tetrachlorodibenzo-p-dioxin toxicity in DBA/2 mice.

Nitecapone inhibits myeloperoxidase in vitro and enhances functional performance after 8 h of ischemia in experimental heart transplantation.

Cancer incidence in a cohort of licensed pesticide applicators in Florida.

Heat-shock protein-73 protects against small intestinal warm ischemia-reperfusion injury in the rat.

TCDD-induced anorexia and wasting syndrome in rats: effects of diet-induced obesity and nutrition.

Energy metabolism inhibition impairs amyloid precursor protein secretion from Alzheimer's fibroblasts.

The heparin/heparan sulfate-binding site on apo-serum amyloid A. Implications for the therapeutic intervention of amyloidosis.

Ex vivo evaluation of a Taylor-Couette flow, immobilized heparinase I device for clinical application.

Cytochrome P450 CYP1B1 determines susceptibility to 7, 12-dimethylbenz[a]anthracene-induced lymphomas.

Recombinant human erythropoietin alpha in the correction of anaemia in epidermolysis bullosa.

[Oxidative injury and its defense system in vivo].

Cellular and molecular characterization of the scurfy mouse mutant.

Establishment of a double Philadelphia chromosome-positive acute lymphoblastic leukemia-derived cell line, TMD5: effects of cytokines and differentiation inducers on growth of the cells.

Relationships between environmental organochlorine contaminant residues, plasma corticosterone concentrations, and intermediary metabolic enzyme activities in Great Lakes herring gull embryos.

Endocrine biomarkers of early fetal loss in cynomolgus macaques (*Macaca fascicularis*) following exposure to dioxin.

A focused approach to anemia.

Sodium arsenite enhances copper accumulation in human lung adenocarcinoma cells.

The genetics of endometriosis.

Effects of dioxins on human health: a review.

GR-891: a novel 5-fluorouracil acyclonucleoside prodrug for differentiation therapy in rhabdomyosarcoma cells.

Dioxin is a systemic promoter blocker, II.

Arsenic speciation in human organs following fatal arsenic trioxide poisoning--a case report.

Quantification of axonal damage in traumatic brain injury: affinity purification and characterization of cerebrospinal fluid tau proteins.

Hydrogeological investigation of ground water arsenic contamination in south Calcutta.

Imprinting: perinatal exposures cause the development of diseases during the adult age.

Bovine blood components: fractionation, composition, and nutritive value.

The potential role of environmental toxins in the pathophysiology of endometriosis.

Differential response to benzo[A]pyrene in human lung adenocarcinoma cell lines: the absence of aryl hydrocarbon receptor activation.

Human cytochrome P4501A2.

Effect of varied fermentation periods on the diabetogenic potential of toasted cassava granules.

Some risk factors for non-Hodgkin's lymphoma.

Uremic ultrafiltrate inhibits platelet-activating factor synthesis.

Trypanosomosis agglutination card test for *Trypanosoma brucei rhodesiense* sleeping sickness.

[Neuropathy induced by insecticides].

Lung hypoplasia caused by nitrofen is mediated by down-regulation of thyroid transcription factor TTF-1.

Pulmonary neuroendocrine cells in nitrofen-induced diaphragmatic hernia and the effect of prenatal glucocorticoids.

Therapeutic values of different routes of administration of vitamin A with ferrous sulfate in treating deferoxamin-induced iron-deficiency anemia.

Mortality in a cohort of licensed pesticide applicators in Florida.

[A new method for the intravital assessment of the functional activity of the membrane transporters performing the efflux of antitumor preparations from the cells of solid tumor specimens].

Iron-mediated cardiotoxicity develops independently of extracellular hydroxyl radicals in isolated rat hearts.

Improved functional recovery of ischemic rat hearts due to singlet oxygen scavengers histidine and carnosine.

A 63 kDa skeletal muscle protein associated with eye muscle inflammation in Graves' disease is identified as the calcium binding protein calsequestrin.

2,3,7,8-Tetrachlorodibenzo-p-dioxin alters cardiovascular and craniofacial development and function in sac fry of rainbow trout (*Oncorhynchus mykiss*).

Use of indirectly immobilized recombinant p17 antigen for detection of antibodies to HIV-1 by enzyme immunoassay.

Effect of exposure to 3,3',4,4',5-pentachlorobiphenyl (PCB 126) throughout gestation and lactation on development and spatial delayed alternation performance in rats.

Prenatal vitamin E treatment improves lung growth in fetal rats with congenital diaphragmatic hernia.

Inhibitory mechanisms of glycoprotein fraction derived from *Miscanthus sinensis* for the immediate phase response of an IgE-mediated cutaneous reaction.

Poly(ADP ribose) polymerase cleavage precedes neuronal death in the hippocampus and cerebellum following injury to the developing rat forebrain.

A malignant transformation of human cells by 2,3,7,8-tetrachlorodibenzo-p-dioxin exhibits altered expressions of growth regulatory factors.

Hodgkin's disease, work, and the environment. A review.

Trovafloxacin: an overview.

Cytotoxicity of cadmium and characteristics of its transport in cardiomyocytes.

Effect of overproduction of interleukin 5 on dinitrofluorobenzene-induced allergic cutaneous response in mice.

Effect of sodium arsenite on plasma levels of gonadotrophins and ovarian steroidogenesis in mature albino rats: duration-dependent response.

[Changes in the erythropoiesis in normal mice after transplantation of peritoneal cells from syngeneic donors with prolonged sodium arsenite intoxication].

Enzymatic reduction of arsenic compounds in mammalian systems: the rate-limiting enzyme of rabbit liver arsenic biotransformation is MMA(V) reductase.

Activity-dependent neurotrophic factor peptide (ADNF9) protects neurons against oxidative stress-induced death.

Metabolism-based polycyclic aromatic acetylene inhibition of CYP1B1 in 10T1/2 cells potentiates aryl hydrocarbon receptor activity.

Hypoxia upregulates activity and expression of the glucose transporter GLUT1 in alveolar epithelial cells.

Differential protooncogene expression in Sprague Dawley and Fischer 344 rats during 1,2-dichlorobenzene-induced hepatocellular regeneration.

The role of plasma semicarbazide-sensitive amine oxidase in allylamine and beta-aminopropionitrile cardiovascular toxicity: mechanisms of myocardial protection and aortic medial injury in rats.

In vitro plantlet regeneration from mature zygotic embryos of *Pinus wallichiana* A.B. Jacks.

Voltage-dependent block of normal and mutant muscle sodium channels by 4-Chloro-m-Cresol.

Dose-dependent localization of TCDD in isolated centrilobular and periportal hepatocytes.

VEGF stimulates tyrosine phosphorylation of beta-catenin and small-pore endothelial barrier dysfunction.

Inactivation of the tricarboxylic acid cycle aconitase gene from *Streptomyces viridochromogenes* TÅ¼494 impairs morphological and physiological differentiation.

Acute peroxide treatment of rat hippocampal slices induces adenosine-mediated inhibition of excitatory transmission in area CA1.

2,3,7,8-Tetrachlorodibenzo-p-dioxin-mediated oxidative stress in CYP1A2 knockout (CYP1A2^{-/-}) mice.

Energetics of trout hepatocytes during A23187-induced disruption of Ca²⁺ homeostasis.

Different change patterns of the isozymes of cytochrome P450 and glutathione S-transferases in chemically induced liver damage in rat.

Acute iron intoxication: the efficacy of deferiprone and sodium bicarbonate in the prevention of iron absorption from the digestive tract.

Eosinophil apoptosis is mediated by stimulators of cellular oxidative metabolisms and inhibited by antioxidants: involvement of a thiol-sensitive redox regulation in eosinophil cell death.

Reference values and action levels of biological monitoring in occupational exposure.

Changes in mRNAs of inducible nitric oxide synthase and interleukin-1 beta in the liver, kidney and lung tissues of rats acutely exposed to paraquat.

Induction of negative regulators of haematopoiesis in human bone marrow cells by HLA-DR cross-linking.

Inter-organellar crosstalk in higher plants: impaired chloroplast development affects mitochondrial gene and transcript levels.

Oral phosphate binders: phosphate binding capacity of iron (III) hydroxide complexes containing saccharides and their effect on the urinary excretion of calcium and phosphate in rats.

Participation of different cell types in the restitutive response of the rat liver to periportal injury induced by allyl alcohol.

Increased group IV cytosolic phospholipase A2 activity in lungs of sheep after smoke inhalation injury.

Hair concentrations of calcium, iron, and zinc in pregnant women and effects of supplementation.

Hexachlorobenzene, a dioxin-type compound, increases malic enzyme gene transcription through a mechanism involving the thyroid hormone response element.

Role of the outward delayed rectifier K⁺ current in ceramide-induced caspase activation and apoptosis in cultured cortical neurons.

Evidence for the involvement of the fatty acid and peroxisomal beta-oxidation pathways in the inhibition by dehydroepiandrosterone (DHEA) and induction by 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) and benz(a)anthracene (BA) of cytochrome P4501B1 (CYP1B1) in mouse embryo fibroblasts (C3H10T1/2 cells).

Mechanisms of D-aspartate release under ischemic conditions in mouse hippocampal slices.

The chemistry of the metabolites of cyclophosphamide.

LDL stimulates mitogen-activated protein kinase phosphatase-1 expression, independent of LDL receptors, in vascular smooth muscle cells.

Immunotargeting of glucose oxidase: intracellular production of H₂O₂ and endothelial oxidative stress.

Effects of TNF- α and IL-1 β on iron metabolism by A549 cells and influence on cytotoxicity.

Acidic pH enhancement of the fusion of Newcastle disease virus with cultured cells.

The CC-chemokine RANTES increases the attachment of human immunodeficiency virus type 1 to target cells via glycosaminoglycans and also activates a signal transduction pathway that enhances viral infectivity.

Salivary histatin 5 induces non-lytic release of ATP from *Candida albicans* leading to cell death.

Suppression of sclerotinia stem rot of soybean by lactofen herbicide treatment.

UV-B exposure increases acute toxicity of pentachlorophenol and mercury to the rotifer *Brachionus calyciflorus*.

Identification of a novel cytosolic tocopherol-binding protein: structure, specificity, and tissue distribution.

Wild-type and Ras-transformed fibroblasts display differential mitogenic responses to transient sodium arsenite exposure.

Transplantation of fetal liver tissue suspension into the spleens of adult syngenic rats: effects of various mitogens and cytotoxins on cytochrome P450 (P450) isoforms expression and on P450 mediated monooxygenase functions.

Hypoxic hypometabolism in the anesthetized turtle, *Trachemys scripta*.

Hydrogen peroxide stimulates tyrosine phosphorylation of focal adhesion kinase in vascular endothelial cells.

Enzymatic methylation of arsenic compounds. VII. Monomethylarsonous acid (MMAIII) is the substrate for MMA methyltransferase of rabbit liver and human hepatocytes.

Potential of two hydra species as standard toxicity test animals.

Heat shock protein 27 expression in human proximal tubule cells exposed to lethal and sublethal concentrations of CdCl₂.

Injection of encapsulated cells producing an ifosfamide-activating cytochrome P450 for targeted chemotherapy to pancreatic tumors.

Disruption of male sex hormones with regard to pesticides: pathophysiological and regulatory aspects.

Uptake of vitamin A in macrophages from physiologic transport proteins: role of retinol-binding protein and chylomicron remnants.

Perception of dioxin and other risks in Japan: replication and extension.

Chondrocyte death is linked to development of a mitochondrial membrane permeability transition in the growth plate.

p120(ctn) acts as an inhibitory regulator of cadherin function in colon carcinoma cells.

An inhibitor of exported Mycobacterium tuberculosis glutamine synthetase selectively blocks the growth of pathogenic mycobacteria in axenic culture and in human monocytes: extracellular proteins as potential novel drug targets.

The effects of oxidative stress in in vitro cultured astroglial cells.

Photo-oxidative killing of human colonic cancer cells using indocyanine green and infrared light.

Panax ginseng protects the testis against 2,3,7, 8-tetrachlorodibenzo-p-dioxin induced testicular damage in guinea pigs.

Dietary intrinsic phytate protects colon from lipid peroxidation in pigs with a moderately high dietary iron intake.

Gene delivery of Kir6.2/SUR2A in conjunction with pinacidil handles intracellular Ca²⁺ homeostasis under metabolic stress.

Uncouplers of oxidative phosphorylation can enhance a Fas death signal.

Anaerobic formation and degradation of toxic aromatic compounds in agricultural and communal sewage deposits.

Dioxin and dibenzofuran concentrations in adipose tissue of a general population from Tarragona, Spain.

Kinetics of the Reaction of beta-Methoxy-alpha-nitrostilbene with Cyanamide in 50 DMSO-50 Water. Failure to Detect the S(N)V Intermediate.

Inhibition of both Na/H and bicarbonate-dependent exchange is required to prevent recovery of intracellular pH in single cardiomyocytes exposed to metabolic stress.

ECC-1 human endometrial cells as a model system to study dioxin disruption of steroid hormone function.

[Effects of hepatoprotective agents containing phospholipids on cytochrome P-450-dependent antitoxic liver function during experimental toxic hepatitis].

Carbonyl stress in the pathogenesis of diabetic nephropathy.

Toxicant-inflicted injury and stimulated tissue repair are opposing toxicodynamic forces in predictive toxicology.

Immunohistochemical evidence for an increased oxidative stress and carbonyl modification of proteins in diabetic glomerular lesions.

Yolk PCB and plasma retinol concentrations in shag (*Phalacrocorax aristotelis*) hatchlings.

Human immunodeficiency virus-1 infection requires pertussis toxin sensitive G-protein-coupled signalling and mediates cAMP downregulation.

Role of tyrosine phosphorylation of phospholipase C gamma1 in the signaling pathway of HMG-CoA reductase inhibitor-induced cell death of L6 myoblasts.

Inhibition of protoporphyrinogen oxidase expression in Arabidopsis causes a lesion-mimic phenotype that induces systemic acquired resistance.

Response-surface analyses for toxicity to *Tetrahymena pyriformis*: reactive carbonyl-containing aliphatic chemicals.

Simple and sensitive analysis of nereistoxin and its metabolites in human serum using headspace solid-phase microextraction and gas chromatography-mass spectrometry.

Ah receptor and ARNT protein and mRNA concentrations in rat prostate: effects of stage of development and 2,3,7,8-tetrachlorodibenzo-p-dioxin treatment.

Neurons exhibiting dopamine D2 receptor immunoreactivity in the substantia nigra of the mutant weaver mouse.

The Ah receptor and a novel gene determine acute toxic responses to TCDD: segregation of the resistant alleles to different rat lines.

Involvement of tyrosine phosphorylation in HMG-CoA reductase inhibitor-induced cell death in L6 myoblasts.

Effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin or 2,2',4,4',5,5'-hexachlorobiphenyl on vitamin K-dependent blood coagulation in male and female WAG/Rij-rats.

Synergism of energy starvation and dextran-conjugated doxorubicin in the killing of multidrug-resistant KB carcinoma cells.

Low-density lipoprotein enhances platelet secretion via integrin- α IIb β 3-mediated signaling.

Lysophosphatidic acid-induced calcium mobilization and proliferation in kidney proximal tubular cells.

NK1-receptor activation prevents hydrocarbon-induced lung injury in mice.

Forensic analysis of acute fatal poisonings in the southern districts of Trinidad.

Characterization of the dose-response of CYP1B1, CYP1A1, and CYP1A2 in the liver of female Sprague-Dawley rats following chronic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Cytochrome 1A1 induction by primaquine in human hepatocytes and HepG2 cells: absence of binding to the aryl hydrocarbon receptor.

Induction of collagenase-3 (MMP-13) expression in human skin fibroblasts by three-dimensional collagen is mediated by p38 mitogen-activated protein kinase.

The human immunodeficiency virus-1 Tat protein increases cell proliferation, alters sensitivity to zinc chelator-induced apoptosis, and changes Sp1 DNA binding in HeLa cells.

Enantioselective Relieving Activity of $\hat{\pm}$ -Methylbenzylphenylureas toward Bensulfuron-methyl Injury to Rice (*Oryza sativa*).

Potential alterations in gene expression associated with carcinogen exposure in *Mya arenaria*.

Heparinase treatment of bovine smooth muscle cells inhibits fibroblast growth factor-2 binding to fibroblast growth factor receptor but not FGF-2 mediated cellular proliferation.

Novel co-operation between eotaxin and substance-P in inducing eosinophil-derived neurotoxin release.

Effects of in vivo sodium azide administration on the immunohistochemical localization of kynurenine aminotransferase in the rat brain.

Prevention of reactive oxygen-induced endothelial cell injury by blocking its process.

Phosphotyrosine signalling as a regulator of neural crest cell adhesion and motility.

The lipid peroxidation product 4-hydroxynonenal impairs glutamate and glucose transport and choline acetyltransferase activity in NSC-19 motor neuron cells.

Primary hepatic angiosarcoma: report of a case involving environmental arsenic exposure.

Herbicide (Roundup) pneumonitis.

Use of new microbiotests with *Daphnia magna* and *Selenastrum capricornutum* immobilized forms.

Involvement of capsaicin-sensitive nerves in paraquat-induced mortality.

[Nephrotoxicity of pesticides].

Chronic dietary toxicity study on 2,4-dichlorophenoxybutyric acid in the dog.

Chronic dietary toxicity/oncogenicity studies on 2,4-dichlorophenoxybutyric acid in rodents.

Incidence rates of lymphomas and environmental measurements of phenoxy herbicides: ecological analysis and case-control study.

Paraquat-induced cell death in PC12 cells.

Paraquat poisoning.

Postservice mortality of US Air Force veterans occupationally exposed to herbicides in Vietnam: 15-year follow-up.

The nature of antioxidant defense mechanisms: a lesson from transgenic studies.

Airspace configuration at different transpulmonary pressures in normal and paraquat-induced lung injury in rats.

Acute 2,4-D poisoning in tench (*Tinca tinca* L.): lesions in the hematopoietic portion of the kidney.

Chronic effects of the herbicide diuron on freshwater cladocerans, amphipods, midges, minnows, worms, and snails.

Health effects of occupational pentachlorophenol exposure in timber sawmill employees: a preliminary study.

MPP+ toxicity and plasma membrane dopamine transporter: study using cell lines expressing the wild-type and mutant rat dopamine transporters.

Effects of environmental synthetic chemicals on thyroid function.

Low-level exposure to diquat induces a neurally mediated intestinal hypersecretion in rats: involvement of nitric oxide and mast cells.

Homicidal poisoning by paraquat.

Urinary excretion and pharmacokinetics of acrolein and its parent drug cyclophosphamide in bone marrow transplant patients.

Mice with a homozygous null mutation for the most abundant glutathione peroxidase, Gpx1, show increased susceptibility to the oxidative stress-inducing agents paraquat and hydrogen peroxide.

From toxicological problem to therapeutic use: the discovery of the mode of action of 2-(2-nitro-4-trifluoromethylbenzoyl)-1,3-cyclohexanedione (NTBC), its toxicology and development as a drug.

Surfactant therapy restores gas exchange in lung injury due to paraquat intoxication in rats.

Single lung transplantation for adult respiratory distress syndrome after paraquat poisoning.

Paraquat: a useful tool for the in vivo study of mechanisms of neuronal cell death.

The reproductive toxicity of molinate and metabolites to the male rat: effects on testosterone and sperm morphology.

Antioxidant vitamins C and E affect the superoxide-mediated induction of the soxRS regulon of Escherichia coli.

Cellular glutathione peroxidase is the mediator of body selenium to protect against paraquat lethality in transgenic mice.

Herbicide Effects on Sugarcane Growth, Pythium Root Rot, and Pythium arrhenomanes.

Dietary Mg and/or K restriction enhances paraquat toxicity in rats.

Involvement of oxidative stress in paraquat-induced metallothionein synthesis under glutathione depletion.

Paraquat-induced renal injury studied by ¹H nuclear magnetic resonance spectroscopy of urine.

Malicious paraquat poisoning in Oklahoma dogs.

Serum dioxin, chloracne, and acne in veterans of Operation Ranch Hand.

[Structural-functional changes in the thyroid gland after chronic exposure to the dioxin-containing herbicide 2,4-D].

[Solid waste and its effect on health (review)].

[Hygienic significance of environmental accumulation of dioxin (review)].

Dermatotoxicity of agricultural chemicals in the dorsal skin of hairless dogs.

A case-referent study of extrapyramidal signs (preparkinsonism) in rural communities of Israel.

Second follow-up of a Dutch cohort occupationally exposed to phenoxy herbicides, chlorophenols, and contaminants.

Paraquat tolerance and alteration of internal gill structure of *Scinax nasica* tadpoles (Anura: Hylidae).

[Lethal paraquat poisoning caused by spraying in a vinyl greenhouse of causing pulmonary fibrosis with a hepatorenal dysfunction].

Cancer incidence in Danish phenoxy herbicide workers, 1947-1993.

Testicular toxicity of molinate in the rat: metabolic activation via sulfoxidation.

Acute 2,4-dichlorophenoxyacetic acid intoxication in broiler chicks.

Inorganic and methylated arsenic compounds induce cell death in murine macrophages via different mechanisms.

[Paraquat poisoning in children].

Paraquat poisoning: an experimental model of dose-dependent acute lung injury due to surfactant dysfunction.

[An Italian multicenter case-control study on malignant neoplasms of the hematolymphopoietic system. Hypothesis and preliminary results on work-related risks. WILL (Working Group on Hematolymphopoietic Malignancies in Italy)].

Genetic and environmental risk factors in Parkinson's disease.

[Morphofunctional characteristics of the testis of albino rats exposed to dioxin-containing herbicide 2,4-D].

G-protein activation and expression in lung injury.

Acute paraquat poisoning: increased toxicity in one case with high alcohol intake.

A case of paraquat poisoning.

Paternal dioxin, preterm birth, intrauterine growth retardation, and infant death.

Herbicide safener-binding protein of maize. Purification, cloning, and expression of an encoding cDNA.

Mitochondrial NADH-quinone oxidoreductase of the outer membrane is responsible for paraquat cytotoxicity in rat livers.

Augmentation of allergic reactions by several pesticides.

Susceptibility to skin stinging, non-immunologic contact urticaria and acute skin irritation; is there a relationship?

Evaluation of the sensitivity of rapid toxicity tests relative to daphnid acute lethality tests.

Effect of 2,4-dichlorophenoxyacetic acid, trifluralin and triallate herbicides on immune function.

Apoptosis in human lung epithelial cells: triggering by paraquat and modulation by antioxidants.

Morphological changes in mitochondria and lysosomes of hepatocytes in acute intoxication with 2,4-dichlorophenoxyacetic acid (2,4-D).

[Inhibitory effect of green tea infusion of hepatotoxicity].

Ultrastructural changes in rat hepatocytes in acute intoxication with 2,4-dichlorophenoxyacetic acid (2,4-D).

Fetotoxic effect of 2,4-dichlorophenoxyacetic acid (2,4-D) in rats.

Kaposi's sarcoma in dog with acquired immunodeficiency after phosphate poisoning.

Nitric oxide inhalation for paraquat--surviving both poisoning and therapy?

Nitric oxide inhalation for paraquat-induced lung injury.

Acrolein: a respiratory toxin that suppresses pulmonary host defense.

[Use of interferon in hepatic necrosis produced by paraquat and yellow phosphorus: experimental evaluation].

Flucloralin is cytotoxic and genotoxic and induces apoptosis in mammalian cells.

Antioxidant and detoxifying enzymes in the liver and kidney of pheasants after intoxication by herbicides MCPA and ANITEN I.

In vivo dual effects of vitamin C on paraquat-induced lung damage: dependence on released metals from the damaged tissue.

'Golf ball liver': a cause of chronic hepatitis?

Prokaryotic iron superoxide dismutase replaces cytosolic copper, zinc superoxide dismutase in protecting yeast cells against oxidative stress.

Extraperoxisomal targets of peroxisome proliferators: mitochondrial, microsomal, and cytosolic effects. Implications for health and disease.

Neurological effects of glufosinate poisoning with a brief review.

Regional vulnerability to endogenous and exogenous oxidative stress in organotypic hippocampal culture.

Acute and chronic ethanol increases reactive oxygen species generation and decreases viability in fresh, isolated rat hepatocytes.

Paraquat poisoning.

Chlorinated hydrocarbons in women with repeated miscarriages.

Pulmonary arterioles from rats with congenital diaphragmatic hernias are hypoplastic but not hyperresponsive.

Hypoxic pulmonary vasoconstriction is impaired in rats with nitrofen-induced congenital diaphragmatic hernia.

The protective effect of 17 beta-estradiol on vasomotor responses of aorta from cholesterol-fed rabbit is reduced by inhibitors of superoxide dismutase and catalase.

Cytokine-mediated induction of ceramide production is redox-sensitive. Implications to proinflammatory cytokine-mediated apoptosis in demyelinating diseases.

Chloracne and morbidity after dioxin exposure (preliminary results).

Free radicals and antioxidant status following pylorus ligation induced gastric mucosal injury in rats.

Role of tumor necrosis factor-alpha in regulating fibrotic lung repair.

Prolonged swimming, recovery and repeat swimming performance of mature sockeye salmon *Oncorhynchus nerka* exposed to moderate hypoxia and pentachlorophenol.

A morbidity study of former pentachlorophenol-production workers.

Mechanisms of inhibition of aldehyde dehydrogenase by nitroxyl, the active metabolite of the alcohol deterrent agent cyanamide.

Effect of dexamethasone on endothelial nitric oxide synthase in experimental congenital diaphragmatic hernia.

Endothelin-1 pulmonary vasoconstriction in rats with diaphragmatic hernia.

Exposure to dioxin and nonneoplastic mortality in the expanded IARC international cohort study of phenoxy herbicide and chlorophenol production workers and sprayers.

Environmental risk factors for Parkinson's disease in an urban multiethnic community.

Periplasmic superoxide dismutase in meningococcal pathogenicity.

The origin, effects and control of air pollution in laboratories used for human embryo culture.

Substitution of Ala-251 of the D1 reaction centre polypeptide with a charged residue results in impaired function of photosystem II.

Regionally specific changes in central brain monoamine levels by 2,4-dichlorophenoxyacetic acid in acute treated rats.

The renal excretory mechanisms and the role of organic cations in modulating the renal handling of paraquat.

Herbicide residues in leaves of *Erythroxylum coca* var. *coca* plants treated with soil-applied tebuthiuron and hexazinone.

Growth on urea can trigger death and peroxidation of the cyanobacterium *Synechococcus* sp. strain PCC 7002.

Oxidative stress and hypoxia/reoxygenation trigger CD95 (APO-1/Fas) ligand expression in microglial cells.

Clusterin protects against oxidative stress in vitro through aggregative and nonaggregative properties.

Gastric and intestinal ethanol toxicity in the rat. Effect on glutathione level and role of alcohol and acetaldehyde metabolisms.

Muscle cells from mdx mice have an increased susceptibility to oxidative stress.

Activation of hepatic NF-kappaB by the herbicide Dicamba (2-methoxy-3,6-dichlorobenzoic acid) in female and male rats.

Confirmation that magnesium lithospermate B ameliorates paraquat-induced injury in cultured renal epithelial cells.

Intrahippocampal injection of paraquat produces apoptotic cell death which is prevented by the lazaroïd U74389G, in rats.

Ethanol-induced changes of intracellular thiol compartmentation and protein redox status in the rat liver: effect of tauroursodeoxycholate.

Inhibitor and temperature effect on catalase in the liver of adult diploid and haploid *Rana rugosa*.

Periplasmic copper-zinc superoxide dismutase protects *Haemophilus ducreyi* from exogenous superoxide.

Paraquat-induced free radical reaction in mouse brain microsomes.

Peptide modification or blocking of CD8, resulting in weak TCR signaling, can activate CTL for Fas- but not perforin-dependent cytotoxicity or cytokine production.

Expression of mucin-associated sulfo-Lea carbohydrate epitopes on human colon carcinoma cells.

Body weight loss and changes in tryptophan homeostasis by chlorinated dibenzo-p-dioxin congeners in the most TCDD-susceptible and the most TCDD-resistant rat strain.

Antihypertensive and vasodilator actions of antioxidants in spontaneously hypertensive rats.

Interactive toxicity and stress protein expression by vinylidene chloride and monochloroacetate in precision-cut rat liver slices.

Environmental complex mixture toxicity assessment.

Health effects associated with sulfuryl fluoride and methyl bromide exposure among structural fumigation workers.

Expression of adhesion molecules by Ip(a): a potential novel mechanism for its atherogenicity.

Concentrated cresol intoxication.

Enantiomers of flurbiprofen can distinguish key pathophysiological steps of NSAID enteropathy in the rat.

IL-12 enhances antibody responses to T-independent polysaccharide vaccines in the absence of T and NK cells.

Phosphine-induced oxidative stress in Hepa 1c1c7 cells.

Immunological markers among workers exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Effects of in utero and lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on serum androgens and steroidogenic enzyme activities in the male rat reproductive tract.

A sensitive HPLC method for the quantification of free and total p-cresol in patients with chronic renal failure.

Optimized determination of carbohydrate-deficient transferrin isoforms in serum by capillary zone electrophoresis.

Herbimycin-A attenuates ischaemia-reperfusion induced pulmonary neutrophil infiltration.

Modification of tau to an Alzheimer's type protein interferes with its interaction with microtubules.

Induction of heat shock protein-73 reduces ischemia-reperfusion injury in rat small intestine.

Lack of effect of 3,3',4,4',5-pentachlorobiphenyl (PCB 126) throughout gestation and lactation on multiple fixed interval-fixed ratio and DRL performance in rats.

Marked increases of aminotransferase levels after cresol ingestion.

Immunologic cross-reactivity between respiratory chemical sensitizers: reactive dyes and cyanuric chloride.

Oncostatin M up-regulates tissue inhibitor of metalloproteinases-3 gene expression in articular chondrocytes via de novo transcription, protein synthesis, and tyrosine kinase- and mitogen-activated protein kinase-dependent mechanisms.

Irregular patterns of transgene silencing in allohexaploid oat.

PKC and tyrosine kinase involvement in amyloid beta (25-35)-induced chemotaxis of microglia.

Serum transferrin receptor and transferrin receptor-ferritin index identify healthy subjects with subclinical iron deficits.

Heat shock proteins: protective effect and potential therapeutic use (review).

Reptiles as models of contaminant-induced endocrine disruption.

Low-dose oral iron absorption test: establishment of a reference interval.

Molecular and functional aspects of the hairless (hr) gene in laboratory rodents and humans.

Occupational risk factors for cancer of the gastric cardia. Analysis of death certificates from 24 US states.

Metabolic recovery of isolated adult rat cardiomyocytes after energy depletion: existence of an ATP threshold?

Quantitation of CD38 expression using QuantiBRITE beads.

Pathways for eosinophil lipid body induction: differing signal transduction in cells from normal and hypereosinophilic subjects.

S 18126 ([2-[4-(2,3-dihydrobenzo[1,4]dioxin-6-yl)piperazin-1-yl methyl]indan-2-yl]), a potent, selective and competitive antagonist at dopamine D4 receptors: an in vitro and in vivo comparison with L 745,870 (3-(4-[4-chlorophenyl]piperazin-1-yl)methyl-1H-pyrrolo[2, 3b]pyridine) and raclopride.

Role of endothelial carbon monoxide in attenuated vasoreactivity following chronic hypoxia.

Molecular analysis of collagens in bladder fibrosis.

Suicide mortality and pesticide use among Canadian farmers.

Advanced glycation end products induce crosslinking of collagen in vitro.

Claims based on exposure to ionizing radiation (prostate cancer and any other cancer)--VA. Final rule.

Genotoxicity in workers exposed to methyl bromide.

Case-control study of occupational exposures and male breast cancer.

Isolation of a variant which has reduced Src activity from SH-SY5Y neuroblastoma cells.

[Dioxins: current knowledge about health effects].

Sensitivity of reticulocyte indices to iron therapy in an intensely training athlete.

Epidermal Langerhans cell apoptosis is induced in vivo by nonanoic acid but not by sodium lauryl sulphate.

Nitric oxide inhibits stress-induced endothelial cell apoptosis.

Micellar electrokinetic chromatography for the determination of urinary desmosine and isodesmosine in patients affected by chronic obstructive pulmonary disease.

Genesis of the uraemic syndrome: role of uraemic toxins.

Calcium-dependent nitric oxide production is involved in arsenite-induced micronuclei.

Heat shock protein expression protects against death following exposure to heatstroke in rats.

Glucosamine-induced insulin resistance in 3T3-L1 adipocytes is caused by depletion of intracellular ATP.

Agricultural use of DDT and risk of non-Hodgkin's lymphoma: pooled analysis of three case-control studies in the United States.

Meta-analyses of non-Hodgkin's lymphoma and farming.

A case-control study of occupational and environmental risk factors for Parkinson's disease in the Emilia-Romagna region of Italy.

The neurotoxicity of polychlorinated biphenyls.

Calcitonin gene-related peptide expression is altered in pulmonary neuroendocrine cells in developing lungs of rats with congenital diaphragmatic hernia.

Inhibition of guinea pig skin allergic reactions by nonpeptide bradykinin B2 receptor antagonist FR173657.

Diagnosis of von Willebrand disease type 2N: a simplified method for measurement of factor VIII binding to von Willebrand factor.

Acute poisonings and sudden deaths in Crete: a five-year review (1991-1996).

Manganese: a transition metal protects nigrostriatal neurons from oxidative stress in the iron-induced animal model of parkinsonism.

Effects of dietary exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin in adult female mink (*Mustela vison*).

The Ah receptor is not involved in 2,3,7,8-tetrachlorodibenzo-p-dioxin-mediated apoptosis in human leukemic T cell lines.

Oxidative damage induced by the fullerene C60 on photosensitization in rat liver microsomes.

Urinary levels of inorganic and organic arsenic metabolites among residents in an arseniasis-hyperendemic area in Taiwan.

Hemochromatosis presenting as acute liver failure after iron supplementation.

Incorporation of structurally defective type II collagen into cartilage matrix in kniest chondrodysplasia.

Cyclosporin A increases resting mitochondrial membrane potential in SY5Y cells and reverses the depressed mitochondrial membrane potential of Alzheimer's disease cybrids.

Subchronic/chronic toxicity of a mixture of four chlorinated dibenzo-p-dioxins in rats. I. Design, general observations, hematology, and liver concentrations.

Administration of antenatal glucocorticoids prevents pulmonary artery structural changes in nitrofen-induced congenital diaphragmatic hernia in rats.

Developmental and reproductive toxicity of inorganic arsenic: animal studies and human concerns.

Atherosclerotic risks from chemicals: part II. A RASH analysis of in vitro and in vivo bioassay data to evaluate 45 potentially hazardous compounds.

In utero and lactational exposure of the male rat to 2,3,7,8-tetrachlorodibenzo-p-dioxin impairs prostate development. 2. Effects on growth and cytodifferentiation.

In utero and lactational exposure of the male rat to 2,3,7,8-tetrachlorodibenzo-p-dioxin impairs prostate development. 1. Effects on gene expression.

Transgenic mice with elevated level of CuZnSOD are highly susceptible to malaria infection.

Deaths from pesticide poisoning in Spain from 1991 to 1996.

Effects of glucose deprivation, chemical hypoxia, and simulated ischemia on Na⁺ homeostasis in rat spinal cord astrocytes.

[Immunotoxicology in occupational and environmental medicine: prospectives, limitations, and research objectives].

Forms and prevalence of intersexuality and effects of environmental contaminants on sexuality in cricket frogs (*Acris crepitans*).

Sodium arsenite-induced chromosomal aberrations in the Xq arm of Chinese hamster cell lines.

Mechanisms of gender-specific TCDD-induced toxicity in guinea pig adipose tissue.

[The use of benzyl alcohol and amyl-m-cresol (Strepsils) in the oral cavity. (Review of the literature and first clinical experiences)].

Atherogenic lipoproteins enhance mesangial cell expression of platelet-derived growth factor: role of protein tyrosine kinase and cyclic AMP-dependent protein kinase A.

The risk of Parkinson's disease with exposure to pesticides, farming, well water, and rural living.

Iron nutritional status is improved in Brazilian preterm infants fed food cooked in iron pots.

Transgene expression kinetics after transfection with cationic phosphonolipids in hematopoietic non adherent cells.

Mechanism of sodium arsenite-mediated induction of heme oxygenase-1 in hepatoma cells. Role of mitogen-activated protein kinases.

[Clinical experience with iron supplementation in pregnancy].

Bioavailability of the iron formulated as natural ferric protein (TM/FMOA) and natural ferric protein + folic acid (TM/FMOA+FOL).

Agricultural use of *Burkholderia* (*Pseudomonas*) *cepacia*: a threat to human health?

Animal models of human response to dioxins.

Some aspects of the etiology of non-Hodgkin's lymphoma.

Estimation of the cumulated exposure to polychlorinated dibenzo-p-dioxins/furans and standardized mortality ratio analysis of cancer mortality by dose in an occupationally exposed cohort.

Evaluation of cardiovascular outcomes among U.S. workers exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

The Seveso studies on early and long-term effects of dioxin exposure: a review.

Activation of tissue-factor gene expression in breast carcinoma cells by stimulation of the RAF-ERK signaling pathway.

Successful treatment of dinitrophenol poisoning in a child.

Prevention of iron-deficiency anemia: comparison of high- and low-iron formulas in term healthy infants after six months of life.

Developmental differences in response of mesenteric artery to acute hypoxia in vitro.

Epidermal growth factor protects neuronal cells in vivo and in vitro against transient forebrain ischemia- and free radical-induced injuries.

Herbimycin A accelerates the induction of apoptosis following etoposide treatment or gamma-irradiation of bcr/abl-positive leukaemia cells.

Abnormality in catalase import into peroxisomes leads to severe neurological disorder.

Arsenate toxicity in human erythrocytes: characterization of morphologic changes and determination of the mechanism of damage.

Cyanogenic potential of cassava flour: field trial in Mozambique of a simple kit.

A computer-aided 3-D geometry of acute and chronic zonal necrosis: three-D tangent counting applied in an attempt to re-examine the structure of the human liver.

The genetics of endometriosis.

Plasma hydrogen peroxide production in hypertensives and normotensive subjects at genetic risk of hypertension.

Parvovirus B19 infection and unresponsiveness to erythropoietin therapy in haemodialysis patients.

Role of altered arachidonic acid metabolism in 2,3,7, 8-tetrachlorodibenzo-p-dioxin-induced immune suppression in C57Bl/6 mice.

Congenital diaphragmatic hernia--does the side of the defect influence the incidence of associated malformations?

Collagen-induced arthritis in nonhuman primates: multiple epitopes of type II collagen can induce autoimmune-mediated arthritis in outbred cynomolgus monkeys.

Hypoferremia, absent bone marrow macrophage iron, and microcytic anemia with minimal response to iron therapy: an acquired disorder of iron metabolism.

Quantitative assessment of color vision impairment in workers exposed to toluene.

Cellular stimulation via CD95 involves activation of phospho-inositide-3-kinase.

Structurally abnormal type II collagen in a severe form of Kniest dysplasia caused by an exon 24 skipping mutation.

Differential display of genes in normal and hypoplastic fetal murine lungs.

Effective utilization of erythropoietin with intravenous iron therapy.

Dioxin exposure and non-malignant health effects: a mortality study.

Neurotrophic factors decrease the release of creatine kinase and prostaglandin E2 from metabolically stressed muscle.

Cancer chemopreventive and therapeutic activities of red ginseng.

Acute intoxication with trichloroethene: clinical symptoms, toxicokinetics, metabolism, and development of biochemical parameters for renal damage.

Antenatal glucocorticoid therapy suppresses angiotensin-converting enzyme activity in rats with nitrofen-induced congenital diaphragmatic hernia.

The 64-kilodalton eye muscle protein is the flavoprotein subunit of mitochondrial succinate dehydrogenase: the corresponding serum antibodies are good markers of an immune-mediated damage to the eye muscle in patients with Graves' hyperthyroidism.

Arsenic species in drinking water, hair, fingernails, and urine of patients with blackfoot disease.

A useful method to evaluate bone resorption inhibitors, using osteoclast-like multinucleated cells.

[Management of hydatid disease of the lung].

Induction of hydrogen peroxide production and Bax expression by caspase-3(-like) proteases in tyrosine kinase inhibitor-induced apoptosis in human small cell lung carcinoma cells.

The antibiotic ceftazidime is a singlet oxygen quencher as demonstrated by ultra-weak chemiluminescence and by inhibition of AAP consumption.

Protein profiles and identification of high performance liquid chromatography isolated proteins of cancer cell lines using matrix-assisted laser desorption/ionization time-of-flight mass spectrometry.

Sensitive enzyme immunoassay of antibodies to HIV-1 p17 antigen using indirectly immobilized recombinant p17 for diagnosis of HIV-1 infection.

The epidemiology of Parkinson's disease in an Australian population.

An unusual exposure to methyl bromide leading to fatality.

Chromosome aberrations in vitro related to cytotoxicity of nonmutagenic chemicals and metabolic poisons.

Environmental and occupational aspects on the etiology of non-Hodgkin's lymphoma.

[Speciation of metals in occupational medicine].

Chemical warfare agents: estimating oral reference doses.

Protective effects of nicaraven, a new hydroxyl radical scavenger, on the endothelial dysfunction after exposure of pig coronary artery to hydroxyl radicals.

Effects of the nonsteroidal anti-inflammatory drug nimesulide on energy metabolism in livers from adjuvant-induced arthritic rats.

Porphyria and porphyrinology--the past fifteen years.

[Long-term ecological and genetic consequences of use of dioxin-containing environmental agents].

The absorption of iron, calcium, phosphorus, magnesium, copper and zinc in the jejunum-ileum of control and iron-deficient rats.

Pulmonary vascular balance in congenital diaphragmatic hernia: enhanced endothelin-1 gene expression as a possible cause of pulmonary vasoconstriction.

Effect of prenatal glucocorticoids on pulmonary vascular muscularisation in nitrofen-induced congenital diaphragmatic hernia.

Modulation of ovarian follicle maturation and effects on apoptotic cell death in Holtzman rats exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in utero and lactationally.

Fertility among a cohort of male sawmill workers exposed to chlorophenate fungicides.

Collagens in the liver extracellular matrix bind hepatocyte growth factor.

Dioxin causes a sustained oxidative stress response in the mouse.

Metabolic depletion inhibits the uptake of nontransferrin-bound iron by K562 cells.

1,2-Dichlorobenzene-induced lipid peroxidation in male Fischer 344 rats is Kupffer cell dependent.

Dose-response relationships for disposition and hepatic sequestration of polyhalogenated dibenzo-p-dioxins, dibenzofurans, and biphenyls following subchronic treatment in mice.

Vitamin E protects the brain against oxidative injury stimulated by excessive aluminum intake.

Epidermal growth factor receptor as a mediator of developmental toxicity of dioxin in mouse embryonic teeth.

Current approaches toward chemical mixture studies at the National Institute of Environmental Health Sciences and the U.S. National Toxicology Program.

Rapid stimulation of glucose transport by mitochondrial uncoupling depends in part on cytosolic Ca²⁺ and cPKC.

Mannitol at clinical concentrations activates multiple signaling pathways and induces apoptosis in endothelial cells.

Functional consequences of mutations of conserved, polar amino acids in transmembrane sequences of the Ca²⁺ release channel (ryanodine receptor) of rabbit skeletal muscle sarcoplasmic reticulum.

Effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin on the lymphatic absorption of a single oral dose of [³H]retinol and on the intestinal retinol esterification in the rat.

NTP Technical Report on the Toxicity Studies of 3,3',4,4'-Tetrachloroazoxybenzene (CAS No. 21232-47-3) Administered by Gavage to F344/N Rats and B6C3F1 Mice.

NTP Technical Report on the Toxicity Studies of 3,3',4,4'-Tetrachloroazobenzene (CAS No. 14047-09-7) Administered by Gavage to F344/N Rats and B6C3F1 Mice.

Inhibition of oxidant-induced lipid peroxidation in cultured renal tubular epithelial cells (LLC-PK1) by quercetin.

Heat shock protein improves cold preserved small bowel grafts.

Hepatobiliary transport kinetics of HSR-903, a new quinolone antibacterial agent.

Level of HgCl₂-mediated phosphorylation of intracellular proteins determines death of thymic T-lymphocytes with or without DNA fragmentation.

Angiotensin II-stimulated collagen gel contraction by heart fibroblasts: role of the AT1 receptor and tyrosine kinase activity.

Down-regulation of cytochrome P450 1A1 gene promoter by oxidative stress. Critical contribution of nuclear factor 1.

Effect of glutathione depletion and metallothionein gene expression on arsenic-induced cytotoxicity and c-myc expression in vitro.

Toxicokinetics of an environmentally relevant mixture of dioxin-like PHAHs with or without a non-dioxin-like PCB in a semi-chronic exposure study in female Sprague Dawley rats.

Transgenic analysis of the cSOD-null phenotypic syndrome in *Drosophila*.

Evidence for impaired assimilation and increased colonic fermentation of protein, related to gastric acid suppression therapy.

Metabolism of ethanol by rat pancreatic acinar cells.

Contaminants in eggs of colonial waterbirds and hepatic cytochrome P450 enzyme levels in pipped tern embryos, Washington State.

Heparan sulfate proteoglycans control intracellular processing of bFGF in vascular smooth muscle cells.

Morphological, physiological and metabolic comparisons between runner-like and sheet-like inbred lines of a colonial hydroid.

In vivo percutaneous absorption of boric acid, borax, and disodium octaborate tetrahydrate in humans compared to in vitro absorption in human skin from infinite and finite doses.

[State of free radical lipid peroxidation in white rats under chronic effects of dioxin].

Zonal location of compensatory hepatocyte proliferation following chemically induced hepatotoxicity in rats and humans.

Biochemical markers for differentiation of exposures to nonplanar polychlorinated biphenyls, organochlorine pesticides, or 2,3,7, 8-tetrachlorodibenzo-p-dioxin in trout liver.

Induction of heat-shock protein protects the small intestine from preservation injury.

Military history of patients with inflammatory bowel disease: an epidemiological study among U.S. veterans.

S 16924 ((R)-2-[1-[2-(2,3-dihydro-benzo[1,4] dioxin-5-Yloxy)-ethyl]-pyrrolidin-3yl]-1-(4-fluoro-phenyl)-ethanone), a novel, potential antipsychotic with marked serotonin (5-HT)_{1A} agonist properties: I. Receptorial and neurochemical profile in comparison with clozapine and haloperidol.

Ceramide accumulation during oxidant renal tubular injury: mechanisms and potential consequences.

Mutagenesis of human Mel1a melatonin receptor expressed in yeast reveals domains important for receptor function.

Interleukin 3 prevents delayed neuronal death in the hippocampal CA1 field.

Apoptosis, reproductive failure, and oxidative stress in Chinese hamster ovary cells with compromised genomic integrity.

Secretion of a Fungal Extracellular Catalase by *Claviceps purpurea* During Infection of Rye: Putative Role in Pathogenicity and Suppression of Host Defense.

Cytotoxic effects and induction of cytochromes P450 1A1/2 by insecticides, in hepatic or epidermal cells: binding capability to the Ah receptor.

p38 mitogen-activated protein kinase inhibition attenuates intercellular adhesion molecule-1 up-regulation on human pulmonary microvascular endothelial cells.

Stress-induced fractal rearrangement of the endothelial cell cytoskeleton causes apoptosis.

Enhanced oxidative stress and altered antioxidants in brains of Bcl-2-deficient mice.

Interactions between bioenergetics and mitochondrial biogenesis.

Teratogen-induced cell death in postimplantation mouse embryos: differential tissue sensitivity and hallmarks of apoptosis.

Inactivation of mycobacteriophage D29 using ferrous ammonium sulphate as a tool for the detection of viable *Mycobacterium smegmatis* and *M. tuberculosis*.

Serum and urinary boron levels in rats after single administration of sodium tetraborate.

Subchronic/chronic toxicity of a mixture of four chlorinated dibenzo-p-dioxins in rats. II. Biochemical effects.

Effect of acute-phase and heat-shock stress on apoptosis in intestinal epithelial cells (Caco-2).

Expression of cytosolic beta-glucosidase in guinea pig liver cells.

E-C coupling failure in mouse EDL muscle after in vivo eccentric contractions.

Sodium iron EDTA [NaFe(III)EDTA] as a food fortificant does not influence absorption and urinary excretion of manganese in healthy adults.

Src family tyrosine kinase regulates intracellular pH in cardiomyocytes.

Plant regeneration via somatic embryogenesis, and transient gene expression in sweet potato protoplasts.

Cytotoxic Response Profiles of Cultured Renal Epithelial and Mesenchymal Cells to Selected Aromatic Hydrocarbons.

Development of a model for classification of toxin-induced lesions using ¹H NMR spectroscopy of urine combined with pattern recognition.

Suppression of immunoglobulin E-mediated anaphylactic reaction by Hwanglyun-Haedok-Tang water extract.

Tyrosine kinases and calcium dependent activation of endothelial cell phospholipase D by diperoxovanadate.

Treatment of rats during pubertal development with 2,3,7,8-tetrachlorodibenzo-p-dioxin alters both signaling kinase activities and epidermal growth factor receptor binding in the testis and the motility and acrosomal reaction of sperm.

Differentiating and proliferative effects of HGF in renal proximal tubular cells are mediated via different signalling pathways.

Mycobacterium tuberculosis mannose-capped lipoarabinomannan can induce NF-kappaB-dependent activation of human immunodeficiency virus type 1 long terminal repeat in T cells.

Hydrogen peroxide activates mitogen-activated protein kinases and Na⁺-H⁺ exchange in neonatal rat cardiac myocytes.

Metabolism of inorganic arsenic in children with chronic high arsenic exposure in northern Argentina.

Characterization of metabolites in the biotransformation of 2,4,6-trinitrotoluene with anaerobic sludge: role of triaminotoluene.

Suppression of C/EBPalpha and induction of C/EBPbeta by 2,3,7,8-tetrachlorodibenzo-p-dioxin in mouse adipose tissue and liver.

Anti-immunoglobulin E antibody treatment blocks histamine release and tissue contraction in sensitized mice.

AMPA receptor mediated excitotoxicity in neocortical neurons is developmentally regulated and dependent upon receptor desensitization.

Injury of stromal fibroblasts induces phosphorylation of focal adhesion proteins.

Interleukin 1beta and interleukin 6, but not tumor necrosis factor alpha, inhibit insulin-stimulated glycogen synthesis in rat hepatocytes.

Neurotransmitter regulation of MAP kinase signaling in striatal neurons in primary culture.

Buprenorphine hydrochloride induces apoptosis in NG108-15 nerve cells.

Similarities in the metabolism of alloxan and dehydroascorbate in human erythrocytes.

The tyrosine kinase p56lck mediates activation of swelling-induced chloride channels in lymphocytes.

Shoot regeneration and somatic embryogenesis from different explants of Brahmi [*Bacopa monniera* (L.) Wettst.].

Regeneration of coconut (*Cocos nucifera* L.) from plumule explants through somatic embryogenesis.

Myelosuppressive activity of two herbicides, atrazine and dinoterb, on human haematopoietic progenitor cells: An in vitro assay to evaluate the effects of intermediate or long-term exposure.

Cytotoxic response profiles of cultured rat hepatocytes to selected aromatic hydrocarbons.

Immune cell functions in industrial workers after exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin: dissociation of antigen-specific T-cell responses in cultures of diluted whole blood and of isolated peripheral blood mononuclear cells.

Immunologic findings in workers formerly exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin and its congeners.

Cigarette smoke extract inhibits fibroblast-mediated collagen gel contraction.

Hepatic oval cell activation in response to injury following chemically induced periportal or pericentral damage in rats.

Analysis of CD44 interactions with hyaluronan in murine L cell fibroblasts deficient in glycosaminoglycan synthesis: a role for chondroitin sulfate.

Reduced fertility in female mice lacking copper-zinc superoxide dismutase.

The effects of serum iminodipeptides and prednisolone on superoxide generation and tyrosyl phosphorylation of proteins in neutrophils from a patient with prolidase deficiency.

Mechanical strain increases protein tyrosine phosphorylation in airway smooth muscle cells.

Redox regulation of signal transduction in smooth muscle cells: distinct effects of PKC-down regulation and PKC inhibitors on oxidant induced MAP kinase.

[Assay for oxidative stress injury by detection of luminol-enhanced chemiluminescence in a freshly obtained blood sample: a study to follow the time course of oxidative injury].

Toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin to several ecological receptor groups: a short review.

Effects of some thiol chelators on enzymatic activities in blood, liver and kidneys of acute arsenic (III) exposed mice.

Hepatoprotective effect of Fe-TPEN on carbon tetrachloride induced liver injury in rats.

Induction of oxidative stress in brain tissues of mice after subchronic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Induction and localization of cytochrome P450 1B1 (CYP1B1) protein in the livers of TCDD-treated rats: detection using polyclonal antibodies raised to histidine-tagged fusion proteins produced and purified from bacteria.

Accumulation of iron by primary rat hepatocytes in long-term culture: changes in nuclear shape mediated by non-transferrin-bound forms of iron.

Risk assessment of low-level chemical exposures from consumer products under the U.S. Consumer Product Safety Commission chronic hazard guidelines.

Cell-specific differences in the susceptibility of potential cellular targets of human origin derived from blood and lung following treatment with 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Ets-1 is an early response gene activated by ET-1 and PDGF-BB in vascular smooth muscle cells.

Comparison of liver progenitor cells in human atypical ductular reactions with those seen in experimental models of liver injury.

Toxicity of linoleic acid hydroperoxide to *Saccharomyces cerevisiae*: involvement of a respiration-related process for maximal sensitivity and adaptive response.

Na⁺-dependent and phlorizin-inhibitable transport of glucose and cycasin in brain endothelial cells.

Metabolic Study of Isoproturon in Goats Following a Single Oral Administration: Toxicokinetics and Recovery.

Mixed effects of 2,6-dithiopurine against cyclophosphamide mediated bladder and lung toxicity in mice.

Modulating effects of thyroid state on the induction of biotransformation enzymes by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Comparative toxicology of borates.

In vitro percutaneous absorption of boron as boric acid, borax, and disodium octaborate tetrahydrate in human skin: a summary.

Use of c-Src and c-Fos knockout mice for the studies on the role of c-Src kinase signaling in the expression of toxicity of TCDD.

Use of competitive dead-end inhibitors to determine the chemical mechanism of action of yeast alcohol dehydrogenase.

Correlation of 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced apoptotic cell death in the embryonic vasculature with embryotoxicity.

Metabolic inhibition impairs ATP-sensitive K⁺ channel block by sulfonylurea in pancreatic beta-cells.

Mortality of power workers exposed to phenoxy herbicides and polychlorinated biphenyls in waste transformer oil.

p53 protein expression in peripheral lymphocytes from atrazine chronically intoxicated rats.

Respiratory symptoms, spirometry and chronic occupational paraquat exposure.

Chemically reactive intermediates and pulmonary xenobiotic toxicity.

Haemoperfusion treatment in pigs experimentally intoxicated by paraquat.

A review of epidemiologic studies of triazine herbicides and cancer.

Single-dose and chronic dietary neurotoxicity screening studies on 2,4-dichlorophenoxyacetic acid in rats.

Triazine herbicide exposure and breast cancer incidence: an ecologic study of Kentucky counties.

Unintentional fatal paraquat poisonings among agricultural workers in Costa Rica: report of 15 cases.

Evaluation of the mutagenicity of acetochlor to male rat germ cells.

[Survival after accidental poisoning with a triple lethal dose of paraquat (Gramoxon)].

Herbicide-induced experimental variegated porphyria in mice: tissue porphyrinogen accumulation and response to porphyrogenic drugs.

Laryngeal survey in glyphosate intoxication: a pathophysiological investigation.

Sensitivity of macrophyte-dominated freshwater microcosms to chronic levels of the herbicide linuron. II. Community metabolism and invertebrates.

Sensitivity of macrophyte-dominated freshwater microcosms to chronic levels of the herbicide linuron. I. Primary producers.

The cytotoxic effect of paraquat to isolated renal proximal tubular segments from rabbits.

Effects of 2,4-dichlorophenoxyacetic acid on central nervous system of developmental rats. Associated changes in ganglioside pattern.

Successful single-lung transplantation after paraquat intoxication.

Reproductive efficiency in mink (*Mustela vison*) treated with the pesticides lindane, carbofuran and pentachlorophenol.

A case of paraquat poisoning and subsequent fatality presenting to an emergency department.

Nitric oxide- and superoxide-mediated toxicity in cerebral endothelial cells.

Re: "Exposure to polychlorinated dioxins and furans (PCDD/F) and mortality in a cohort of workers from a herbicide-producing plant in Hamburg, Federal, Republic of Germany".

Acute and chronic toxicity of the herbicide Stam M-4 in field and laboratory exposures.

A case-control study of lung cancer among Vietnam veterans.

Cardiovascular effects of a herbicide containing glufosinate and a surfactant: in vitro and in vivo analyses in rats.

Acrolein-induced cell death in human alveolar macrophages.

Effect of roundup and tordon 202C herbicides on antibody production in mice.

Age-associated increase in ferritin content of male rat liver: implication for diquat-mediated oxidative injury.

Mitochondria-mediated cell injury. Symposium overview.

Cancer mortality in workers exposed to phenoxy herbicides, chlorophenols, and dioxins. An expanded and updated international cohort study.

Propanil poisoning.

Arsenate suppression of human keratinocyte programming.

The oral and intratracheal toxicities of ROUNDUP and its components to rats.

Pesticides and cancer.

"Golf ball liver": agent orange hepatitis.

Meta-analyses of prostate cancer and farming.

DNA-protein cross-links produced by various chemicals in cultured human lymphoma cells.

Reproductive and developmental effects of occupational pesticide exposure: the epidemiologic evidence.

A fatal case of drinking and cyanamide intake.

Detection of drugs and poisons in postmortem tissues--determination of paraquat in tissues of rabbits buried underground.

Striking the balance between the role of animal model and human data in hazard assessment.

Acute toxicity, accumulation, and excretion of benthocarb and its degradation products in killifish.

4-Chloro-2-methylphenoxyacetic acid containing compounds. Genotoxicity evaluation by Mutatox assay and comparison with acute (Microtox) and Embryo (FETAX) toxicities.

Homicidal poisoning by paraquat.

In vitro cytotoxic effects of 4,4'-bipyridyl on normal human keratinocytes.

Effects of a diphenyl-ether herbicide, oxyfluorfen, on human BFU-E/CFU-E development and haemoglobin synthesis.

Neurotoxicity of paraquat and triphenyltin in the earthworm, *Eisenia fetida* Sav. A histo- and cytopathological study.

[Ultrastructural changes in the wall and microcirculatory bed of the small intestinal villi of rats exposed to organochlorine toxicant].

Analyses of exposure to polychlorinated dibenzo-p-dioxins, furans, and hexachlorocyclohexane and different health outcomes in a cohort of former herbicide-producing workers in Hamburg, Germany.

Acute poisonings with dipyridil herbicides.

Severe polyneuropathy in a 3-year-old child after dichlorophenoxyacetic herbicide--chwastox intoxication, treated successfully with plasmapheresis (PF).

Inhibition of intracellular Ca²⁺ signalling, cytotoxicity and antitumor activity of the herbicide oryzalin and its analogues.

[Ultrastructure of the kidney in paraquat-poisoned rats. Comparative study with literature data on man and animal].

[Case-control study of hemo-lymphopietic neoplasms and exposure to pesticides in western Liguria].

[Retrospective study of morbidity in a group professionally exposed to chlorotriazine herbicides].

[The effect of the dioxin-containing herbicide 2,4-D on the hormonal status of experimental animals].

Penetration of pesticides in the human reproductive system. Presentation of case reports.

Inhibitory effect of nicotinamide to paraquat toxicity and the reaction site on complex I.

[Nephropathy induced by non-drug chemical agents].

Drug eruption induced by cyanamide (carbimide): a clinical and histopathologic study of 7 patients.

[Late pseudo-appendicular syndrome after Roundup poisoning].

Do reactive oxygen species underlie the mechanism of apoptosis in the tadpole tail?

Paraquat-induced formation of leukotriene B4 in rat lungs: modulation by N-acetylcysteine.

Lipid peroxidation and histopathological changes in the digestive gland of a freshwater snail *Planorbium corneum* L. (Gastropoda, Pulmonata) exposed to chronic and sub-chronic concentrations of PCP.

Comparison of catalase in diploid and haploid *Rana rugosa* using heat and chemical inactivation techniques.

Metabolism of arsenic after acute occupational arsine intoxication.

Performance characteristics of combined haemodialysis/haemoperfusion system for removal of blood toxins.

Liver cell cytoplasmic inclusions in experimental porphyrias: their demonstration with the ferric ferricyanide reduction reaction.

Influence of dietary selenium on the disposition of arsenate in the female B6C3F1 mouse.

Environmental risk factors and Parkinson's disease: a case-control study in Taiwan.

Acceleration of hypertensive cerebral injury by the inhibition of xanthine-xanthine oxidase system in stroke-prone spontaneously hypertensive rats.

Unique expression of HRF20 (CD59) in human nervous tissue.

Selective and transient in vitro effects of heat shock on alveolar type II cell gene expression.

Butylated hydroxyanisole and its metabolite tert-butylhydroquinone differentially regulate mitogen-activated protein kinases. The role of oxidative stress in the activation of mitogen-activated protein kinases by phenolic antioxidants.

[Effect of activity of semicarbazide-sensitive aminooxidases and cellular glutathione on the cytotoxic effect of allylamine, acrolein, and formaldehyde in human cultured endothelial cells].

The massugu1 mutation of *Arabidopsis* identified with failure of auxin-induced growth curvature of hypocotyl confers auxin insensitivity to hypocotyl and leaf.

Reactive oxygen species generated by cyanide mediate toxicity in rat pheochromocytoma cells.

Role of fibronectin and sulfated proteoglycans in endothelial cell migration on a cultured smooth muscle layer.

Superoxide-mediated cytotoxicity in superoxide dismutase-deficient fetal fibroblasts.

[Study of magnetic microspheres for purging cancer cells from bone marrow. II. Preparation of polystyrene magnetic microspheres.].

Prion protein-deficient cells show altered response to oxidative stress due to decreased SOD-1 activity.

Hydrogen peroxide-induced impairment of reactivity in rat isolated aorta: potentiation by 3-amino-1,2,4-triazole.

Cigarette smoke induces interleukin-8 release from human bronchial epithelial cells.

Effect of isoproturon on male reproductive system: clinical, histological and histoenzonological studies in rats.

Hydrogen peroxide (H₂O₂) increases the steady-state mRNA levels of collagenase/MMP-1 in human dermal fibroblasts.

Sustained increase in intracellular free calcium and activation of cyclooxygenase-2 expression in mouse hepatoma cells treated with dioxin.

Signal transduction-mediated activation of the aryl hydrocarbon receptor in rat hepatoma H4IIE cells.

Failure of monochloroacetic acid and trichloroacetic acid administered in the drinking water to produce liver cancer in male F344/N rats.

Entacapone, a novel catechol-O-methyltransferase inhibitor for Parkinson's disease, does not impair mitochondrial energy production.

Beta-estradiol protects hippocampal CA1 neurons against transient forebrain ischemia in gerbil.

Iron pre-load for major joint replacement.

Carcinogens stimulate intrachromosomal homologous recombination at an endogenous locus in human diploid fibroblasts.

From discovery to eradication of schistosomiasis in Japan: 1847-1996.

Abrogation of IL-3 requirements and stimulation of hematopoietic cell proliferation in vitro and in vivo by carboxylic acids.

Immunization with alum-collagen II complex suppresses the development of collagen-induced arthritis in rats by deviating the immune response.

Induction of p53 protein expression by sodium arsenite.

Evidence that singlet oxygen-induced human T helper cell apoptosis is the basic mechanism of ultraviolet-A radiation phototherapy.

Sodium arsenite disturbs mitosis and induces chromosome loss in human fibroblasts.

[Epidemiological and clinical findings in congenital heart diseases during the neonatal period. Report on personal cases].

Changes in collagen phenotypes during progression and regression of cardiac hypertrophy.

Newborn infants diagnosed as neurologically abnormal with relation to PCB and dioxin exposure and their thyroid-hormone status.

Effect of advanced glycation end product-modified albumin on tissue factor expression by monocytes. Role of oxidant stress and protein tyrosine kinase activation.

Thiol modulation inhibits the interleukin (IL)-1-mediated activation of an IL-1 receptor-associated protein kinase and NF-kappa B.

Activation induces apoptosis in Herpesvirus saimiri-transformed T cells independent of CD95 (Fas, APO-1).

Mortality study of pesticide applicators and other employees of a lawn care service company.

Pancreatic carcinomas deposit laminin-5, preferably adhere to laminin-5, and migrate on the newly deposited basement membrane.

Promotion of enzyme altered foci in female rat 2,3,3',4,4',5-hexachlorobiphenyl.

Immune dysfunction in uremia.

Dioxin exposure and cancer risk: a 15-year mortality study after the "Seveso accident".

Mutational evidence for control of cell adhesion through integrin diffusion/clustering, independent of ligand binding.

The role of NAD(P)H:quinone oxidoreductase in quinone-mediated p21 induction in human colon carcinoma cells.

Absorption of iron from grape-molasses and ferrous sulfate: a comparative study in normal subjects and subjects with iron deficiency anemia.

Morphologic characteristics of endometriosis in the mouse model: application to toxicology.

Production of iron-fortified bread employing some selected natural iron sources.

Aryl hydrocarbon receptor-dependent induction of cyp1a1 by bilirubin in mouse hepatoma hepa 1c1c7 cells.

Increased efficacy of in vitro Photofrin photosensitization of human oral squamous cell carcinoma by iron and ascorbate.

Defective endogenous nitric oxide-mediated modulation of cellular respiration in canine skeletal muscle after the development of heart failure.

Iron supplementation in pregnancy: is less enough? A randomized, placebo controlled trial of low dose iron supplementation with and without heme iron.

Hepatic foci in rats after diethylnitrosamine initiation and 2,3,7,8-tetrachlorodibenzo-p-dioxin promotion: evaluation of a quantitative two-cell model and of CYP 1A1/1A2 as a dosimeter.

In utero exposure to low doses of 2,3,7,8-tetrachlorodibenzo-p-dioxin alters reproductive development of female Long Evans hooded rat offspring.

Subchronic/chronic toxicity of 1,2,3,4,6,7,8-heptachlorodibenzo-p-dioxin (HpCDD) in rats. Part I. Design, general observations, hematology, and liver concentrations.

The epidemiology of soft tissue sarcoma.

A sampling and analytical method for the simultaneous determination of multiple organonitrogen pesticides in air.

FK-506 and cyclosporin A potentiate the IgE antibody production by contact sensitization with hapten in mice.

Markers of masked iron deficiency and effectiveness of EPO therapy in chronic renal failure.

Gallium nitrate optic neuropathy.

Haemophilus somnus immunoglobulin binding proteins and surface fibrils.

Iron bioavailability in soybean meal as affected by supplemental phytase and 1 alpha-hydroxycholecalciferol.

Acute iron intoxication: significant differences between sexes.

Reduced stress defense in heme oxygenase 1-deficient cells.

Association of arsenic-induced malignant transformation with DNA hypomethylation and aberrant gene expression.

Randomised placebo-controlled trial of iron supplementation and malaria chemoprophylaxis for prevention of severe anaemia and malaria in Tanzanian infants.

2,3,7,8-Tetrachlorodibenzo-p-dioxin increases mRNA levels for interleukin-1beta, urokinase plasminogen activator, and tumor necrosis factor-alpha in human uterine endometrial adenocarcinoma RL95-2 cells.

Myocardial stiffness is attributed to alterations in cross-linked collagen rather than total collagen or phenotypes in spontaneously hypertensive rats.

Mitochondrial damage: a possible mechanism of the "topical" phase of NSAID induced injury to the rat intestine.

[Acute myeloblastic leukemia showing pronounced skin infiltration during administration of low-dose cytarabine and etoposide with granulocyte colony-stimulating factor].

Thyroid hormones in the pathogenesis of lung hypoplasia and immaturity induced in fetal rats by prenatal exposure to nitrofen.

4-Chloro-m-cresol test--a possible supplementary test for diagnosis of malignant hyperthermia susceptibility.

Catalase mediates acetaldehyde formation from ethanol in fetal and neonatal rat brain.

Induction of apoptosis in megakaryocytic leukemia cell lines by MX2, a morpholino anthracycline.

Mitochondrial toxins in models of neurodegenerative diseases. I: In vivo brain hydroxyl radical production during systemic MPTP treatment or following microdialysis infusion of methylpyridinium or azide ions.

Determination of the p-monochlorophenol residue in the calcium hydroxide + P-monochlorophenol combination used as an intracanal dressing in pulpless teeth of dogs with induced chronic periapical lesion.

Estrogens attenuate neuronal injury due to hemoglobin, chemical hypoxia, and excitatory amino acids in murine cortical cultures.

Upregulation of acidic fibroblast growth factor during development of experimental lung fibrosis.

Effect of 2,4-dinitrophenol on the hypometabolic response to hypoxia of conscious adult rats.

Pathogenesis of nitrofen-induced congenital diaphragmatic hernia in fetal rats.

HDL causes mesangial cell mitogenesis through a tyrosine kinase-dependent receptor mechanism.

Thiamine uptake in human intestinal biopsy specimens, including observations from a patient with acute thiamine deficiency.

Mechanisms involved in Helicobacter pylori-induced interleukin-8 production by a gastric cancer cell line, MKN45.

Differential vulnerability of the CA1 and CA3 subfields of the hippocampus to superoxide and hydroxyl radicals in vitro.

Orthovanadate induces cell death in rat dentate gyrus primary culture.

Mitochondrial proliferation and paradoxical membrane depolarization during terminal differentiation and apoptosis in a human colon carcinoma cell line.

Acute iron poisoning.

Promotion of endometriosis in mice by polychlorinated dibenzo-p-dioxins, dibenzofurans, and biphenyls.

Pneumocystis carinii cysts are susceptible to inactivation by chemical disinfectants.

Maintenance therapy with intravenous iron in hemodialysis patients receiving erythropoietin.

A novel derivatization of phenol after extraction from human serum using perfluorooctanoyl chloride for gas chromatography-mass spectrometric confirmation and quantification.

Membrane-bound protein disulfide isomerase (PDI) is involved in regulation of surface expression of thiols and drug sensitivity of B-CLL cells.

Classification of malignant hyperthermia-equivocal patients by 4-chloro-M-cresol.

Brief communication: childhood leukemia in a residential small town near Barcelona.

Remodeling after myocardial infarction in humans is not associated with interstitial fibrosis of noninfarcted myocardium.

Role of bacterial Mn-cofactored superoxide dismutase in oxidative stress responses, nasopharyngeal colonization, and sustained bacteremia caused by *Haemophilus influenzae* type b.

Antimitotic intervention with colchicine alters the outcome of o-DCB-induced hepatotoxicity in Fischer 344 rats.

Cytosolic Ca²⁺ and protein kinase Calpha couple cellular metabolism to membrane K⁺ permeability in a human biliary cell line.

Iron deficiency anemia in children: prevalence and prevention studies in Ribeirão Preto, Brazil.

[Randomized multi-center trial of the administration of erythropoietin in anemia of prematurity].

Modification of IgH PCR clonal analysis by the addition of sucrose and cresol red directly to PCR reaction mixes.

Effect of hepatic methyl donor status on urinary excretion and DNA damage in B6C3F1 mice treated with sodium arsenite.

Spontaneous and induced sister chromatid exchanges and delayed cell proliferation in peripheral lymphocytes of Bowen's disease patients and matched controls of arseniasis-hyperendemic villages in Taiwan.

Arsenic can mediate skin neoplasia by chronic stimulation of keratinocyte-derived growth factors.

How long before resistance makes it impossible to control some field strains of *Haemonchus contortus* in South Africa with any of the modern anthelmintics?

Ferrous sulfate-induced increase in requirement for thyroxine in a patient with primary hypothyroidism.

P-Cresol, a uremic compound, enhances the uptake of aluminum in hepatocytes.

Tyrosine phosphorylation in DNA damage and cell death in hypoxic injury to LLC-PK1 cells.

Mortality among Army Chemical Corps Vietnam veterans.

Beta 2-integrin-mediated signal up-regulates counterreceptor ICAM-1 expression on human monocytic cell line THP-1 through tyrosine phosphorylation.

Altered in vivo toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in C-SRC deficient mice.

Regulation of dioxin receptor function by omeprazole.

Effects of iron salts in sucrose on dental caries and plaque in rats.

Hyporesponsiveness of inflamed human gingival fibroblasts from patients with chronic periodontal diseases against cell surface components of *Porphyromonas gingivalis*.

Correction of iron deficiency with an iron-fortified fluid whole cow's milk in children: results of a pilot study.

The use of monoclonal antibody for the immunodiagnosis of *Fasciola gigantica* infection in cattle.

Some peculiarities of hepatobiliary diseases in Vietnam.

[Studies on mechanism of wasting syndrome in TCDD-intoxicated rats].

Helicobacter pylori stimulates granulocyte-macrophage colony-stimulating factor (GM-CSF) production from cultured antral biopsies and a human gastric epithelial cell line.

CD40-triggered protein tyrosine phosphorylation on Vav and on phosphatidylinositol 3-kinase correlates with survival of the Ramos-Burkitt lymphoma B cell line.

Induction of human endothelial cell apoptosis requires both heat shock and oxidative stress responses.

Evaluation of bleached kraft mill process water using Microtox(R), *Ceriodaphnia dubia*, and *Menidia beryllina* toxicity tests.

Cell adhesion molecules and insulin-like growth factor-1 in vascular disease.

Altered intracellular distribution of daunorubicin in immature acute myeloid leukemia cells.

Mitochondrial dysfunction in neurodegeneration.

Skin reactions to pesticides.

The aquatic vertebrate embryo as a sentinel for toxins: zebrafish embryo dechoriation and perivitelline space microinjection.

Mechanisms, proof, and unmet needs: the perspective of a cancer activist.

Environmental effects and aquatic organisms: investigations of molecular mechanisms of carcinogenesis.

Co-metabolism of ethanol, ethanol-derived acetaldehyde, and 4-hydroxynonenal in isolated rat hepatocytes.

Effectiveness of iron therapy on breath-holding spells.

Establishment of a novel human acute myeloblastic leukemia cell line (YNH-1) with t(16;21), t(1;16) and 12q13 translocations.

Cancer mortality among rice growers in Novara Province, northern Italy.

Sodium azide induces mitotic recombination in *Drosophila melanogaster* larvae.

Involvement of altered B7 expression in dioxin immunotoxicity: B7 transfection restores the CTL but not the autoantibody response to the P815 mastocytoma.

[Determination of bromide ion by HS-GC with a flame ionization detector and an electron-capture detector].

Pulmonary expression of vascular endothelial growth factor and myosin isoforms in rats with congenital diaphragmatic hernia.

Hydroxyl radical scavenging effect of nicaraven in myocardial and coronary endothelial preservation and reperfusion injury.

Role of iron in ischemia-reperfusion oxidative injury of rat lungs.

Immunological characterization of epitopes on tau of Alzheimer's type and chemically modified tau.

AML1a but not AML1b inhibits erythroid differentiation induced by sodium butyrate and enhances the megakaryocytic differentiation of K562 leukemia cells.

The Canadian Study of Health and Aging: risk factors for vascular dementia.

Free radicals and the ischemia-evoked extracellular accumulation of amino acids in rat cerebral cortex.

Functional characterization of a distinct ryanodine receptor mutation in human malignant hyperthermia-susceptible muscle.

Modulation of macrophage function for defence of the lung against *Pseudomonas aeruginosa*.

Nitrofen dose-dependent gestational day-specific murine lung hypoplasia and left-sided diaphragmatic hernia.

The role of oxygen free radicals in occupational and environmental lung diseases.

Localization of hydrogen peroxide accumulation during the hypersensitive reaction of lettuce cells to *Pseudomonas syringae* pv *phaseolicola*.

[Complete remission achieved by L-asparaginase, vincristine and prednisolone (LVP) therapy in secondary leukemia (M5a type) with an MLL gene rearrangement].

Tyrosine kinase signaling regulates Wiskott-Aldrich syndrome protein function, which is essential for megakaryocyte differentiation.

Oxygen- and dioxin-regulated gene expression in mouse hepatoma cells.

Agricultural and horticultural chemical poisonings: mortality and morbidity in the United States.

Cytokines (IL-1beta and TNFalpha) in relation to biochemical and immunological effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in rats.

Selected other effects and TEFs.

BASF studies: epidemiological and clinical investigations on dioxin-exposed chemical workers.

Pesticides poisonings in clinical and medicolegal aspect.

Acute work-related poisoning by pesticides in The Netherlands; a one year follow-up study.

[Assessment of neurotoxic effects of methyl bromide in exposed workers].

More sensitive immune complex transfer enzyme immunoassay for antibody IgG to p17 of HIV-1 with shorter incubation time for immunoreactions and larger volumes of serum samples.

Structure-activity relationships of potentially neurotoxic PCB congeners in the rat.

Dioxins and the Ah receptor: probes to uncover processes in neuroendocrine development.

Impaired cellular immune response in rats exposed perinatally to Baltic Sea herring oil or 2,3,7,8-TCDD.

Identification of microtubule-associated protein tau isoforms in Alzheimer's paired helical filaments.

2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD) and congeners in infants. A toxicokinetic model of human lifetime body burden by TCDD with special emphasis on its uptake by nutrition.

Effect of subchronic 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure on immune system and target gene responses in mice: calculation of benchmark doses for CYP1A1 and CYP1A2 related enzyme activities.

(G586V) substitutions in the alpha 1 and alpha 2 chains of collagen I: effect of alpha-chain stoichiometry on the phenotype of osteogenesis imperfecta?

Enzymatic methylation of arsenic species and other new approaches to arsenic toxicity.

Effect of source of iron on duodenal absorption of iron, calcium, phosphorous, magnesium, copper and zinc in rats with ferropeenic anaemia.

Rheology of rat basophilic leukemia cells.

Altered profile of urinary arsenic metabolites in adults with chronic arsenicism. A pilot study.

Continuous exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin inhibits the growth of surgically induced endometriosis in the ovariectomized mouse treated with high dose estradiol.

[Chronic diarrhea following ingestion of Tardyferon associated with lymphocytic colitis].

Mortality and cancer incidence among sawmill workers exposed to chlorophenate wood preservatives.

Central and peripheral neurotoxic effects of chronic methyl bromide intoxication.

Mechanism of thiazopyr-induced effects on thyroid hormone homeostasis in male Sprague-Dawley rats.

A novel energy dependent mechanism reducing daunorubicin accumulation in acute myeloid leukemia.

Zinc supplementation reduced morbidity, but neither zinc nor iron supplementation affected growth or body composition of Mexican preschoolers.

Oxidative and chemical stress mimic insulin by selectively inhibiting the expression of phosphoenolpyruvate carboxykinase in hepatoma cells.

Modulation of TCDD-induced fetotoxicity and oxidative stress in embryonic and placental tissues of C57BL/6J mice by vitamin E succinate and ellagic acid.

Protective effects of Propolis extract on allyl alcohol-induced liver injury in mice.

Age-related susceptibility to hepatotoxicants.

Is exposure to bacterial endotoxin a determinant of susceptibility to intoxication from xenobiotic agents?

Dose-response relationships for polyhalogenated dioxins and dibenzofurans following subchronic treatment in mice. I. CYP1A1 and CYP1A2 enzyme activity in liver, lung, and skin.

Heat shock induces κ B-alpha and prevents stress-induced endothelial cell apoptosis.

Odorant threshold following methyl bromide-induced lesions of the olfactory epithelium.

Differential effect of hydrogen peroxide and superoxide anion on apoptosis and proliferation of vascular smooth muscle cells.

Backbone structure and dynamics of a hemolymph protein from the mealworm beetle *Tenebrio molitor*.

Study of regulation of mitochondrial respiration in vivo. An analysis of influence of ADP diffusion and possible role of cytoskeleton.

Factors affecting spermatogenesis in the stallion.

Comparison of hexachlorocyclohexane-induced oxidative stress in the testis of immature and adult rats.

Dioxin and dioxin-like compounds in soil, Part I: ATSDR interim policy guideline. Agency for Toxic Substances and Disease Registry.

Acceleration of unisite catalysis of mitochondrial F1-adenosinetriphosphatase by ATP, ADP and pyrophosphate--hydrolysis and release of the previously bound [γ - 32 P]ATP.

Aging and oxygen toxicity: Relation to changes in melatonin.

2,3,7,8-Tetrachlorodibenzo-p-dioxin-induced activation of a protein tyrosine kinase, pp60src, in murine hepatic cytosol using a cell-free system.

Subchronic/chronic toxicity of 1,2,3,4,6,7,8-heptachlorodibenzo-p-dioxin (HpCDD) in rats. Part II. Biochemical effects.

4-Hydroxynonenal, an aldehydic product of membrane lipid peroxidation, impairs glutamate transport and mitochondrial function in synaptosomes.

Tyrosine phosphorylation modulates current amplitude and kinetics of a neuronal voltage-gated potassium channel.

Pattern analysis of the variation in the sensitivity of aquatic species to toxicants.

Impairment of respiration and oxidative phosphorylation by redox cyclers 2-nitrofluorene and menadione.

c-Src is required for oxidative stress-mediated activation of big mitogen-activated protein kinase 1.

Growing pains in South America.

Involvement of the dorsal paratrigebral nucleus in visceral pain-related phenomena.

Immunochemical, ³²P-postlabeling, and GC/MS detection of 4-aminobiphenyl-DNA adducts in human peripheral lung in relation to metabolic activation pathways involving pulmonary N-oxidation, conjugation, and peroxidation.

Endothelial cell apoptosis is accelerated by inorganic iron and heat via an oxygen radical dependent mechanism.

A physiologically based pharmacokinetic (PB-PK) model for 1,2-dichlorobenzene linked to two possible parameters of toxicity.

Inhibition of protein kinase C prevents asbestos-induced c-fos and c-jun proto-oncogene expression in mesothelial cells.

Neurotoxicity of the 22 kDa thrombin-cleavage fragment of apolipoprotein E and related synthetic peptides is receptor-mediated.

Reactive oxygen species generation by human spermatozoa is induced by exogenous NADPH and inhibited by the flavoprotein inhibitors diphenylene iodonium and quinacrine.

Cellular response to the redox active lipid peroxidation products: induction of glutathione S-transferase P by 4-hydroxy-2-nonenal.

Aryl hydrocarbon receptor knockout mice (AHR^{-/-}) exhibit liver retinoid accumulation and reduced retinoic acid metabolism.

Effects of Herbicides on Sclerotinia Crown and Stem Rot of Alfalfa.

Cytotoxic effects of 2,6-di-tert-butyl-4-methylphenyl N-methylcarbamate (terbutol) herbicide on hepatocytes and mitochondria isolated from male rats.

[Oxidative phosphorylation in liver mitochondria under extremely high frequency electromagnetic radiation in vitro].

Apoptotic cell death of erythrocytes in *Xenopus* larvae exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Undersulfation of proteoglycan sulfate stimulates the expression of basic fibroblast growth factor and protein synthesis but suppresses replication of coronary smooth muscle cells.

Differential effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin, bis(tri-n-butyltin) oxide and cyclosporine on thymus histophysiology.

SEB is cytotoxic and alters EC barrier function through protein tyrosine phosphorylation in vitro.

Expression of liver functions following sub-lethal and non-lethal doses of allyl alcohol and acetaminophen in the rat.

Synaptic physiology and mitochondrial function in crayfish tonic and phasic motor neurons.

Aniline and its metabolites generate free radicals in yeast.

Induction of heat shock proteins by tyrosine kinase inhibitors in rat cardiomyocytes and myogenic cells confers protection against simulated ischemia.

Impairment of the chemical defence of the beetle, *Tenebrio molitor*, by metacestodes (cysticeroids) of the tapeworm, *Hymenolepis diminuta*.

Mitochondrial function is required for resistance to oxidative stress in the yeast *Saccharomyces cerevisiae*.

First Report of Leaf Scald Disease and Ratoon Stunting Disease of Sugarcane in French Guyana.

Sources of Inoculum and Management for *Rhizoctonia solani* Damping-off on Tobacco Transplants under Greenhouse Conditions.

Endothelial cells protect vascular smooth muscle cells from H₂O₂ attack.

Enzymatic methylation of arsenic compounds: IV. In vitro and in vivo deficiency of the methylation of arsenite and monomethylarsonic acid in the guinea pig.

Mobilization of iron from neoplastic cells by some iron chelators is an energy-dependent process.

Protein tyrosine kinase inhibitors synergize with nerve growth factor in embryonic chick sensory neuronal cell survival.

Injury-induced enzymatic methylation of aging collagen in the extracellular matrix of blood vessels.

Bacterial endotoxin enhances the hepatotoxicity of allyl alcohol.

Reassessment of the carcinogenicity of polychlorinated biphenyls (PCBs).

Oxidative stress mediates impairment of muscle function in transgenic mice with elevated level of wild-type Cu/Zn superoxide dismutase.

Can skin cancer in humans be prevented by alleviation of oxidative stress?

Considerations on genetic and environmental factors that contribute to resistance or sensitivity of mammals including humans to toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) and related compounds. Part 1: Genetic factors affecting the toxicity of TCDD.

Involvement of cytochrome P4502E1 in the toxicity of dichloropropanol to rat hepatocyte cultures.

Impairment of antigen-specific antibody production in transgenic mice expressing a dominant-negative form of gp130.

Neuroprotective action of cycloheximide involves induction of bcl-2 and antioxidant pathways.

Environmental xenobiotics may disrupt normal endocrine function by interfering with the binding of physiological ligands to steroid receptors and binding proteins.

Effects of cyclophosphamide and ifosfamide on neuroblastoma cells before and after activation by microsomes.

Reassessment of PCDD/DFs and Co-PCBs toxicity in contaminated rice-bran oil responsible for the disease "Yu-Cheng".

Murine hepatic p53, RB, and CDK inhibitory protein expression following acute 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) exposure.

Lipid extraction from blood and biological samples and concentrations of dioxin-like compounds.

Thrombin stimulates production of transforming growth factor-beta by cultured human mesangial cells.

Time course for the modulation of hepatic cytochrome P450 after administration of ethylbenzene and its correlation with toluene metabolism.

Activation of the aryl hydrocarbon receptor/transcription factor and bone marrow stromal cell-dependent preB cell apoptosis.

Antioxidant defenses of cultured colonic epithelial cells against reactive oxygen metabolites.

Plant regeneration from callus cultures of *Lithospermum erythrorhizon*.

Redox stress and hepatic DNA fragmentation induced by diquat in vivo are not accompanied by increased 8-hydroxydeoxyguanosine contents.

Effects of acute and chronic arsenic exposure of human-derived keratinocytes in an In Vitro human skin equivalent system: a novel model of human arsenicism.

Aldehyde reductase induction: a novel response to oxidative stress of smooth muscle cells.

Death following intentional methyl bromide poisoning: toxicological data and literature review.

Apoptosis induced by glufosinate ammonium in the neuroepithelium of developing mouse embryos in culture.

Regulation by insulin of a unique neuronal Ca²⁺ pool and of neuropeptide secretion.

Effects of arsenite pretreatment on the acute toxicity of parathion.

[Environmental pollutants with hormonal effects. Is estrogen theory a good model?].

Polymerase chain reaction-based cloning of alkyl-dihydroxyacetonephosphate synthase complementary DNA from guinea pig liver.

Site-directed mutations at residue 251 of the photosystem II D1 protein of *Chlamydomonas* that result in a nonphotosynthetic phenotype and impair D1 synthesis and accumulation.

Characterization of hepatic metallothionein expression in channel catfish (*Ictalurus punctatus*) by reverse transcriptase polymerase chain reaction.

Endocrine disrupters in the aquatic environment.

Giant Mitochondria as Possible Bioindicators of Environmental Injuries in Fish Liver.

Immunotoxic effects of TCDD and toxic equivalency factors.

Review and update of the results of the NIOSH medical study of workers exposed to chemicals contaminated with 2,3,7,8-tetrachlorodibenzodioxin.

[Modulation of respiratory activity of renal macrophages in sea bass (*Dicentrarchus labrax*) by chronic exposure to sublethal concentration of ammonia].

Developmental neurotoxicity of environmental agents in the neonate.

Electron microscopic identification of putative liver stem cells and intermediate hepatocytes following periportal necrosis induced in rats by allyl alcohol.

Flow cytometric measurements of neuronal death triggered by PCBs.

N-acetyl-S-(dichlorophenyl)cysteines as suitable biomarkers for the monitoring of occupational exposure to 1,2-dichlorobenzene.

A comparison of the acute neuroactive effects of dichloromethane, 1,3-dichloropropane, and 1,2-dichlorobenzene on rat flash evoked potentials (FEPs).

Occupational chronic exposure to organic solvents. XVI. Ambient and biological monitoring of workers exposed to toluene.

Effects of sodium azide on motor activity, motor coordination, and learning.

Suspected herbicide toxicosis in a dog.

Evaluation of the genotoxicity potential (by Mutatox test) of ten pesticides found as water pollutants in Cyprus.

Allergic contact dermatitis from norflurazon (Predict).

Acute oral toxicity of the herbicide BUREX EKO in pheasants.

Alleviation of paraquat-induced lung injury by pretreatment with bifunctional liposomes containing alpha-tocopherol and glutathione.

Histological changes in rat embryonic blood cells as a possible mechanism for ventricular septal defects produced by an N-phenylimide herbicide.

Action of the herbicide butachlor on cholinesterases in the freshwater snail *Pila globosa* (Swainson).

Effect of paraquat intoxication and ambroxol treatment on hydrogen peroxide production and lipid peroxidation in selected organs of rat.

Acute non-occupational intoxications with pesticides in Romania: a comparative study from 1988 to 1993.

Subchronic, developmental, and genetic toxicology studies with the ethane sulfonate metabolite of alachlor.

Chronic dietary toxicity/oncogenicity studies on 2,4-dichlorophenoxyacetic acid in rodents.

Comparative subchronic studies on 2,4-dichlorophenoxyacetic acid, amine, and ester in rats.

Acute, subchronic and chronic 2,4-dichlorophenoxyacetic acid (2,4-D) intoxication in rats.

Cellular target of cyclophosphamide toxicity in the murine liver: role of glutathione and site of metabolic activation.

An in vitro model for toxicological investigations of environmental neurotoxins in primary neuronal cell cultures.

Photodermatitis from plant derivatives in topical and oral medicaments.

Agent orange and the risk of gestational trophoblastic disease in Vietnam.

Experimental ureterohydronephrosis in fetal rats.

Evaluation of the potential carcinogenicity and genetic toxicity to humans of the herbicide acetochlor.

Pesticide application and increased dioxin body burden in male and female agricultural workers in China.

Cancer incidence among alachlor manufacturing workers.

Mode of action of thyroid tumor formation in the male Long-Evans rat administered high doses of alachlor.

A metalloporphyrin superoxide dismutase mimetic protects against paraquat-induced lung injury in vivo.

In vitro percutaneous absorption of model compounds glyphosate and malathion from cotton fabric into and through human skin.

Reproductive effects of paternal exposure to chlorophenate wood preservatives in the sawmill industry.

Comparative acute toxicity of two herbicides, paraquat and glyphosate, to *Daphnia magna* and *D. spinulata*.

Pulse therapy with cyclophosphamide and methylprednisolone in patients with moderate to severe paraquat poisoning: a preliminary report.

Evaluation of mortality and cancer incidence among alachlor manufacturing workers.

Effect of atrazine on ovarian function in the rat.

No changes in behaviour, nigro-striatal system neurochemistry or neuronal cell death following toxic multiple oral paraquat administration to rats.

Effects of terbuthylazine on soil fauna and decomposition processes.

[Paraquat poisoning. Description of a case].

[Multiple chemical sensitivity disorder in patients with neurotoxic illnesses].

Pulmonary dysfunction in survivors of acute paraquat poisoning.

Cancer mortality in German male workers exposed to phenoxy herbicides and dioxins.

Survival after paraquat poisoning in a HIV positive patient.

Oxidative DNA damage and cell proliferation in the livers of B6C3F1 mice exposed to pentachlorophenol in their diet.

Experience with acute paraquat poisoning in Crete.

Serum biochemical changes associated with cystic ovarian degeneration in pigs after atrazine treatment.

Genetic modification of plants: significant issues and hurdles to success.

A biological index to predict patient outcome in paraquat poisoning.

[Distribution of ventilation-perfusion ratios in paraquat-induced interstitial pneumonia in dogs].

The expressed protein in glyphosate-tolerant soybean, 5-enolpyruvylshikimate-3-phosphate synthase from *Agrobacterium* sp. strain CP4, is rapidly digested in vitro and is not toxic to acutely gavaged mice.

Overexpression of a Rrp1 transgene reduces the somatic mutation and recombination frequency induced by oxidative DNA damage in *Drosophila melanogaster*.

[Fatal paraquat poisoning].

Analysis of 1,000 consecutive cases of acute poisoning in the suburb of Tokyo leading to hospitalization.

Mortality among workers at two triazine herbicide manufacturing plants.

Changes in the nasal epithelium of rats exposed by inhalation to mixtures of formaldehyde, acetaldehyde, and acrolein.

Biochemical and histopathological effects of glyphosate on carp, *Cyprinus carpio* L.

Use of continuous renal replacement therapy for detoxification?

Origins of coronary artery ectasia.

[The use of the amitriptyline analog amizol in depressions].

Developmental and dysmorphic effects of glufosinate ammonium on mouse embryos in culture.

Analysis of structure-toxicity relationships for a series of amide herbicides using statistical methods and neural network.

Biochemical and genetic interactions of two commercial pesticides with the monooxygenase system and chlorophyllin.

The effect of a herbicide--sodium salt of 2,4-dichlorophenoxyacetic acid on guerin carcinoma.

Dimethylarsinic acid causes apoptosis in HL-60 cells via interaction with glutathione.

Comparative subchronic and chronic dietary toxicity studies on 2,4-dichlorophenoxyacetic acid, amine, and ester in the dog.

Characterization of olfactory deficits in the rat following administration of 2,6-dichlorobenzonitrile (dichlobenil), 3,3'-iminodipropionitrile, or methimazole.

Effects of paraquat on mitochondrial electron transport system and catecholamine contents in rat brain.

Effect of dietary paraquat on a rat mutant unable to synthesize ascorbic acid.

Inhibition of NADH oxidation by 1-methyl-4-phenylpyridinium analogs as the basis for the prediction of the inhibitory potency of novel compounds.

Herbicide: fatal ammonium thiocyanate and aminotriazole poisoning.

[Evaluation of toxicity and protective effects of initiators and inhibitors of free radical reactions in a model of wild strains of *Escherichia coli* as well as those deficient in superoxide dismutase].

[Prognostication in chronic pesticide poisoning in agricultural workers: state of lipid metabolism].

The somatic white-ivory eye spot test does not detect the same spectrum of genotoxic events as the wing somatic mutation and recombination test in *Drosophila melanogaster*.

Biotransformation of acrolein in rat: excretion of mercapturic acids after inhalation and intraperitoneal injection.

An interlaboratory evaluation of the Buehler test for the identification and classification of skin sensitizers.

In vivo and in vitro analysis of *Bordetella pertussis* catalase and Fe-superoxide dismutase mutants.

Mortality in a cohort of pentachlorophenol manufacturing workers, 1940-1989.

Accumulation of arsenic species in serum of patients with chronic renal disease.

Increased expression of neuronal nitric oxide synthase in bladder afferent pathways following chronic bladder irritation.

Possible environmental, occupational, and other etiologic factors for Parkinson's disease: a case-control study in Germany.

Effect of 3-aminotriazole on hyperthermia-mediated cardioprotection in rabbits.

Increased activity and sensitivity of mitochondrial respiratory enzymes to tumor necrosis factor alpha-mediated inhibition is associated with increased cytotoxicity in drug-resistant leukemic cell lines.

Cancer incidence in the rural community of Tecumseh, Michigan: a pattern of increased lymphopoietic neoplasms.

Oxidative stress response in an anaerobe, *Bacteroides fragilis*: a role for catalase in protection against hydrogen peroxide.

A maternal requirement for glutamine synthetase I for the mitotic cycles of syncytial *Drosophila* embryos.

Interruption of the *gpxA* gene increases the sensitivity of *Neisseria meningitidis* to paraquat.

Role of manganese superoxide dismutase in a mucoid isolate of *Pseudomonas aeruginosa*: adaptation to oxidative stress.

Assessment of the role of the glutathione and pentose phosphate pathways in the protection of primary cerebrocortical cultures from oxidative stress.

The effects of chronic sidestream cigarette smoke exposure on eicosanoid production by tracheal epithelium.

Philip Morris cigarettes recall, May 1995-March 1996. From the Centers for Disease Control and Prevention.

Assessment of the biochemical effects of percutaneous exposure of sulphur mustard in an in vitro human skin system.

Influence of age on the passage of paraquat through the blood-brain barrier in rats: a distribution and pathological examination.

Failure of chloro-S-triazine-derived compounds to induce estrogen receptor-mediated responses in vivo and in vitro.

Hydrogen peroxide in relation to proliferation and apoptosis in BHK-21 hamster fibroblasts.

Requirement for superoxide in excitotoxic cell death.

[Toxicologic risk assessment and prevention: rational and irrational approaches].

Different pathways in irritant contact eczema? Early differences in the epidermal elemental content and expression of cytokines after application of 2 different irritants.

Emergency response to environmental toxic incidents: the role of the occupational physician.

Effects of the stress response in septic rats and LPS-stimulated alveolar macrophages: evidence for TNF-alpha posttranslational regulation.

Enforced expression of Bcl-XS induces differentiation and sensitizes chronic myelogenous leukemia-blast crisis K562 cells to 1-beta-D-arabinofuranosylcytosine-mediated differentiation and apoptosis.

Methyl iodide poisoning: report of two cases.

Retinoic acid affects the expression rate of the differentiation-related genes aryl hydrocarbon receptor, ARNT and keratin 4 in proliferative keratinocytes only.

The beneficial effect of taurine on the prevention of human endothelial cell death.

Embryology of congenital diaphragmatic hernia.

Effects induced by feeding organochlorine-contaminated carp from Saginaw Bay, Lake Huron, to laying White Leghorn hens. II. Embryotoxic and teratogenic effects.

Bronchial necrosis induced by inhalation of an iron tablet.

Intravenous iron sucrose complex in the treatment of iron deficiency anemia during pregnancy.

Randomised study of cognitive effects of iron supplementation in non-anaemic iron-deficient adolescent girls.

Incidence rates of leukemias, lymphomas and myelomas in Italy: geographic distribution and NHL histotypes.

Increased concentrations of octachlorodibenzo-p-dioxin in cases with breast cancer--results from a case-control study.

The heat-shock protein 70 family reduces ischemia/reperfusion injury in small intestine.

Prostaglandin production via induction of cyclooxygenase-2 by human gingival fibroblasts stimulated with lipopolysaccharides.

Asymptomatic giardiasis does not affect iron absorption in children with iron deficiency anemia.

Monoclonal antibody PHF-9 recognizes phosphorylated serine 404 of tau protein and labels paired helical filaments.

An estimate of the incidence of pesticide poisoning in Hong Kong.

Prenatal glucocorticoid therapy reverses pulmonary immaturity in congenital diaphragmatic hernia in fetal sheep.

Effects of 3,3',4,4',5-pentachlorobiphenyl (PCB 126) and 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) injected into the yolks of chicken (*Gallus domesticus*) eggs prior to incubation.

Functional interference between hypoxia and dioxin signal transduction pathways: competition for recruitment of the Arnt transcription factor.

Missing effects of background dioxin exposure on development of breast-fed infants during the first half year of life.

Inhibition of TC-1 cytokine production, effector cytotoxic T lymphocyte development and alloantibody production by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Undersulfation of glycosaminoglycans reduces the proliferation of a leukemia cell line in vitro.

Acute cyanide poisoning: clinical spectrum, diagnosis, and treatment.

The effect of ethanol or hepatotoxin exposure on rat transferrin desialylation.

Evaluating the antioxidant potential of new treatments for inflammatory bowel disease using a rat model of colitis.

Prenatal hormonal therapy improves pulmonary morphology in rats with congenital diaphragmatic hernia.

Fatal accident resulting from methyl bromide poisoning after fumigation of a neighbouring house; leakage through sewage pipes.

Cause specific mortality and cancer incidence among employees exposed to 2,3,7,8-TCDD after a 1953 reactor accident.

Exposures and health effects: an evaluation of workers at a sodium azide production plant.

Chemical-activated luciferase gene expression (CALUX): a novel in vitro bioassay for Ah receptor active compounds in sediments and pore water.

Definition of a discontinuous immunodominant epitope of intestinal alkaline phosphatase, an autoantigen in acute bacterial infections.

Role of endothelium-derived nitric oxide in the modulation of canine myocardial mitochondrial respiration in vitro. Implications for the development of heart failure.

Contaminant-induced immunotoxicity in harbour seals: wildlife at risk?

[The perioperative use of recombinant erythropoietin (rhEPO) in Jehovah's witnesses].

Chemical sensitivities and the Gulf War: Department of Veterans Affairs Research Center in basic and clinical science studies of environmental hazards.

Chromium allergy in consecutive patients in a country where ferrous sulfate has been added to cement since 1981.

Epoetin alfa--focus on nutritional therapy. Case study of the anemic patient.

Farming, pesticide use and hairy-cell leukemia.

Fulminant malignant hyperthermia associated with ketoacidotic diabetic coma.

Decreased pulmonary nitric oxide synthase activity in the rat model of congenital diaphragmatic hernia.

Pesticide poisonings in the lawn care and tree service industries. A review of cases in the New York State Pesticide Poisoning Registry.

Disturbed host defense in peritoneal cavity during CAPD: characterization of responsible factors in dwell fluid.

Correlation between selected environmental exposures and karyotype in acute myelocytic leukemia.

Does iron therapy benefit children with severe malaria-associated anaemia? A clinical trial with 12 weeks supplementation of oral iron in young children from the Turiani Division, Tanzania.

Mimosine blocks cell cycle progression by chelating iron in asynchronous human breast cancer cells.

Identification of a cell-specific transcription activation domain within the human Ah receptor nuclear translocator.

Monoclonal antibody to single-stranded DNA is a specific and sensitive cellular marker of apoptosis.

Genetic analysis of oxygen defense mechanisms in *Drosophila melanogaster* and identification of a novel behavioural mutant with a Shaker phenotype.

Cytokine-induced nitric oxide synthase gene transcription is blocked by the heat shock response in human liver cells.

Active involvement of catalase during hemolytic crises of favism.

Complementation of Ah receptor deficiency in hepatoma cells: negative feedback regulation and cell cycle control by the Ah receptor.

Activation of mitogen activated protein kinase in dolichyl phosphate-induced apoptosis in U937 cells.

Inhibition of HSP70 expression by calcium ionophore A23187 in human cells. An effect independent of the acquisition of DNA-binding activity by the heat shock transcription factor.

Uncoupling of mitochondrial oxidative phosphorylation alters lipid peroxidation-derived free radical production but not recovery of postischemic rat hearts and post-hypoxic endothelial cells.

Tri-chloroacetic acid: a cause of vulvar vestibulitis.

Implication of tyrosine kinases and protein kinase C in dimethyl sulfoxide-induced apoptosis.

Diagnostic criteria for selenium toxicosis in aquatic birds: dietary exposure, tissue concentrations, and macroscopic effects.

Herbimycin A, a tyrosine kinase inhibitor, impairs hypercalcemia associated with a human squamous cancer producing interleukin-6 in nude mice.

Case control study of neuroblastoma in west-Germany after the Chernobyl accident.

[Occupational asthma in an agricultural setting].

Respiratory activity is essential for post-exponential-phase production of type 5 capsular polysaccharide by *Staphylococcus aureus*.

Simultaneous determination of phenol, cresol, xylenol isomers and naphthols in urine by capillary gas chromatography.

Activation of physiological cell death mechanisms by a necrosis-causing agent.

Target cell-induced apoptosis of interleukin-2-activated human natural killer cells: roles of cell surface molecules and intracellular events.

Lung collagen cross-links in rats with experimentally induced pulmonary fibrosis.

Clinical and radiological evaluation of zinc oxide-eugenol and Maisto's paste as obturating materials in infected primary teeth--nine months study.

[Iron supplementation in Chilean Mapuche infants of the Cautin Province, Chile].

[Powdered milk enriched with iron and ascorbic acid as an intervention measure for treating iron deficiency anemia in children seen at a Basic Health Care Unit].

In vitro effects of a flavonoid-rich extract on LDL oxidation.

Chemical exposures, medical history, and risk of squamous and basal cell carcinoma of the skin.

Studies on the mechanism of hepatotoxicity of 4-methylphenol (p-cresol): effects of deuterium labeling and ring substitution.

Decreased cerebral glucose utilization in rats during the ebb phase of thermal injury.

Evaluation of toxicity and sex-related variation of PCB levels in Mediterranean striped dolphins affected by an epizootic.

Dioxin and cancer: the never-ending story.

Dysfunction of polymorphonuclear leukocytes in uremia.

Iron deficiency and intestinal malabsorption in HIV disease.

Appropriateness of iron prescribing: a retrospective study.

Effects of gestational and lactational exposure to TCDD or coplanar PCBs on spatial learning.

Quantitative analysis of enzyme-altered liver foci in rats initiated with diethylnitrosamine and promoted with 2,3,7,8-tetrachlorodibenzo-p-dioxin or 1,2,3,4,6,7,8-heptachlorodibenzo-p-dioxin.

Modeling the number and size of hepatic focal lesions following exposure to 2,3,7,8-TCDD.

Promotion of endometriosis by 2,3,7,8-tetrachlorodibenzo-p-dioxin in rats and mice: time-dose dependence and species comparison.

The aromatic hydrocarbon receptor modulates the Hepa 1c1c7 cell cycle and differentiated state independently of dioxin.

Exogenous catalase may potentiate oxidant-mediated lung injury in the female Sprague-Dawley rat.

Factors influencing the development of sigmoid colon cancer. Bacteriologic and biochemical studies.

Cells in vivo and in vitro from osteopetrotic mice homozygous for c-src disruption show suppression of synthesis of osteopontin, a multifunctional extracellular matrix protein.

Detection of toluene in an adipoceratus body.

Circulating interleukin-2 receptors are a group of multimeric proteins with immunoreactivity for interleukin-2 receptor alpha, beta, and gamma chains.

Characterization of a chemical anoxia model in cerebellar granule neurons using sodium azide: protection by nifedipine and MK-801.

The involvement of cytochrome P4502E1 in 2-bromoethanol-induced hepatocyte cytotoxicity.

Subcutaneous epoetin alfa as an adjunct to autologous blood donation before elective coronary artery bypass graft surgery.

Perisurgical use of epoetin alfa in orthopedic surgery patients.

Epoetin alfa as an adjunct to autologous blood donation in patients with a low hematocrit scheduled for elective orthopedic surgery.

Potential of epoetin alfa in patients in autologous blood donation programs for orthopedic surgery.

Iron complexation with oral deferoxamine in a swine model.

Incidence and time trends for lymphomas, leukemias and myelomas: hypothesis generation. Working Group on the Epidemiology of Hematolymphopoietic Malignancies in Italy.

Genoprotection by UDP-glucuronosyltransferases in peroxidase-dependent, reactive oxygen species-mediated micronucleus initiation by the carcinogens 4-(methylnitrosamino)-1-(3-pyridyl)-1-butanone and benzo[a]pyrene.

Microcytic anemia with iron malabsorption: an inherited disorder of iron metabolism.

Inhibition of Fc epsilon-RI-mediated activation of rat basophilic leukemia cells by Clostridium difficile toxin B (monoglucosyltransferase).

Target-induced death by apoptosis in human lymphokine-activated natural killer cells.

Enhanced arsenite-induced hepatic morphological and biochemical changes in phenobarbital-pretreated rats.

Supernumerary lumbar rib: manifestation of basic alteration in embryonic development of ribs.

Determination of furosemide in plasma and urine by gas chromatography/mass spectrometry.

Failure of prostatitis treatment secondary to probable ciprofloxacin-sucralfate drug interaction.

[Action duality of nitrogen oxide (NO) in experimental African trypanosomiasis].

Prenatal hormonal therapy improves pulmonary compliance in the nitrofen-induced CDH rat model.

Glutathione transferase activity and formation of macromolecular adducts in two cases of acute methyl bromide poisoning.

Comparative teratological studies on TCDD, endrin and lindane in C57BL/6J and DBA/2J mice.

Autonomic and behavioral thermoregulation in golden hamsters exposed perinatally to dioxin.

Recombinant human erythropoietin: effect on the functional performance of anemic orthopedic patients.

[The Anders Jahres Prize. Intracellular signal transmission via dioxin receptors].

Correlation of impedance response patterns to histological findings in irritant skin reactions induced by various surfactants.

Safety assessment based on irrelevant toxicologic data: an extraordinary case of bromomethane used as a fumigant.

Intravenous iron supplementation for the treatment of the anemia of moderate to severe chronic renal failure patients not receiving dialysis.

Immune system impairment and hepatic fibrosis in mice lacking the dioxin-binding Ah receptor.

Airborne pollutants and the immune system.

Blood and air pollution: state of knowledge and research needs.

Specific induction of the 70-kD heat stress proteins by the tyrosine kinase inhibitor herbimycin-A protects rat neonatal cardiomyocytes. A new pharmacological route to stress protein expression?

Immunity to the G1 globular domain of the cartilage proteoglycan aggrecan can induce inflammatory erosive polyarthritis and spondylitis in BALB/c mice but immunity to G1 is inhibited by covalently bound keratan sulfate in vitro and in vivo.

Cell cycle defect in connection with oxygen and iron sensitivity in Fanconi anemia lymphoblastoid cells.

Activation of type I protein kinase A during receptor-mediated human T lymphocyte activation.

Increased oxidative DNA damage in livers of 2,3,7,8-tetrachlorodibenzo-p-dioxin treated intact but not ovariectomized rats.

Bioavailability of microencapsulated ferrous sulfate in fluid milk studies in human beings.

Occupational exposure and malignant lymphoma.

Cytogenetic biomonitoring of pesticide-exposed farmers in central Italy.

Increased expression of intercellular adhesion molecule 1, CD11/CD18 cell surface adhesion glycoproteins and alpha 4 beta 1 integrin in a rat model of chronic interstitial lung fibrosis.

Evaluation of reactive oxygen species involvement in amiodarone pulmonary toxicity in vivo and in vitro.

The pulmonary uptake of intravenously administered liposomal alpha-tocopherol is augmented in acute lung injury.

Reactive airway dysfunction syndrome due to sodium azide inhalation.

Occupational health data as a basis for process engineering changes: development of a safe work environment in the sodium azide industry.

Incomplete occlusion of central retinal artery in a girl with iron deficiency anemia.

Genetic association between cytochrome P450IA1 gene and susceptibility to Parkinson's disease.

Curcumin induces apoptosis in immortalized NIH 3T3 and malignant cancer cell lines.

Effects of iron replenishment on iron, calcium, phosphorus and magnesium metabolism in iron-deficient rats.

Effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on influenza virus host resistance in mice.

Therapeutic efficacy of povidone-iodine (Betadine) and dichloroxylenol (Septocid) in Holstein cows affected with endometritis and/or cervicitis.

Cancers of skin, bone, connective tissues, brain, eye, thyroid and other specified and unspecified sites in Inuit.

Addition of ferrous sulfate to cement and risk of chromium dermatitis among construction workers.

Mechanism underlying the inhibitory effect of high calcium carbonate intake on iron bioavailability from ferrous sulphate in anaemic rats.

Pesticide applicators with mixed pesticide exposure: G-banded analysis and possible relationship to non-Hodgkin's lymphoma.

Mutation in the carboxy-terminal propeptide of the Pro alpha 1(I) chain of type I collagen in a child with severe osteogenesis imperfecta (OI type III): possible implications for protein folding.

Type II collagen-induced autoimmune ear disease in mice: a preliminary report on an epitope of the type II collagen molecule that induced inner ear lesions.

[Separation of methotrexate-polyglutamates by capillary electrophoresis and its application to the measurement of gamma-glutamyl hydrolase activity in human leukemia cells in culture].

[A case of acute peroral poisoning by the preparation Nitrafen].

Comparative epitope mapping of antibodies to collagen in women with silicone breast implants, systemic lupus erythematosus and rheumatoid arthritis.

Two distinct loci affecting conversion to mucoidy in *Pseudomonas aeruginosa* in cystic fibrosis encode homologs of the serine protease HtrA.

Direct measurement of lipid hydroperoxides in iron-dependent spinal neuronal injury.

Inhibition of mitochondrial respiration and oxygen uptake in isolated rat renal tubular fragments by atractyloside.

Isolation and characterization of a novel gene induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin in rat liver.

Morbidity study of extruder personnel with potential exposure to brominated dioxins and furans. II. Results of clinical laboratory studies.

Effects of metabolic inhibitors and lectins on the menadione-dependent generation of H₂O₂ by rat thymocytes.

Cyclosporine control of recipient lymphocyte traffic to the heart allograft.

Subcellular localization of TCDD differs between the liver, lungs, and kidneys after acute and subchronic exposure: species/dose comparisons and possible mechanism.

Infection of human T lymphoid cells by human herpesvirus 6 is blocked by two unrelated protein tyrosine kinase inhibitors, biochanin A and herbimycin.

Tyrosine kinase inhibitors and cycloheximide inhibit Li⁺ protection of cerebellar granule neurons switched to non-depolarizing medium.

[Bladder neoplasms and cyclophosphamide. Apropos of 3 cases and review of the literature].

Effects induced by feeding organochlorine-contaminated carp from Saginaw Bay, Lake Huron, to laying White Leghorn hens. I. Effects on health of adult hens, egg production, and fertility.

Embryotoxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD): the embryonic vasculature is a physiological target for TCDD-induced DNA damage and apoptotic cell death in Medaka (*Orizias latipes*).

Arsenite induces apoptosis in Chinese hamster ovary cells by generation of reactive oxygen species.

Heat shock response inhibits cytokine-inducible nitric oxide synthase expression in rat hepatocytes.

Effects of tyrosine kinase inhibitors on tyrosine phosphorylations and the insulin-like effects in response to human growth hormone in isolated rat adipocytes.

Independent antioxidant action of vitamins E and C in cultured rat hepatocytes intoxicated with allyl alcohol.

Subchronic dispositional and toxicological effects of arsenate administered in drinking water to mice.

Higher concentrations of specific polychlorinated biphenyl congeners in adipose tissue from non-Hodgkin's lymphoma patients compared with controls without a malignant disease.

Bladder augmentation in the prevention of cyclophosphamide-induced haemorrhagic cystitis in the rat model.

Serum albumin is a specific inhibitor of apoptosis in human endothelial cells.

Alteration of oxytocin-induced calcium oscillations in clone 9 cells by toxin exposure.

Activation of tinidazole, an antiprotozoal drug to a mutagen by mammalian liver S9.

Illumination of therapeutics by toxicology: a personal view.

Dioxin activates human immunodeficiency virus-1 expression in chronically infected promonocytic U1 cells by enhancing NF-kappa B activity and production of tumor necrosis factor-alpha.

Freeze-induced shrinkage of individual cells and cell-to-cell propagation of intracellular ice in cell chains from salivary glands.

Anti-inflammatory properties of human serum IgA: induction of IL-1 receptor antagonist and Fc alpha R (CD89)-mediated down-regulation of tumour necrosis factor-alpha (TNF-alpha) and IL-6 in human monocytes.

Aryl-hydrocarbon receptor-deficient mice are resistant to 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced toxicity.

Epithelium-linked smooth muscle hyperresponsiveness in ferret tracheae exposed to acrolein.

Retro-retinoids in regulated cell growth and death.

Uncoupling effect of polyunsaturated fatty acid deficiency in isolated rat hepatocytes: effect on glycerol metabolism.

Metabolic stress opens K⁺ channels in hepatoma cells through a Ca²⁺- and protein kinase alpha-dependent mechanism.

Dual effect of glyburide, an antagonist of KATP channels, on metabolic inhibition-induced Ca²⁺ loading in cardiomyocytes.

Efficient tissue repair underlies the resiliency of postnatally developing rats to chlordecone + CCl₄ hepatotoxicity.

NES test performance in a large US Army veteran sample: relationships with both demographic factors and traditional neuropsychological measures.

Enzyme induction and acute endocrine effects in prepubertal female rats receiving environmental PCB/PCDF/PCDD mixtures.

Rapid cytotoxicity of human B lymphocytes induced by VH4-34 (VH4.21) gene-encoded monoclonal antibodies.

Interleukin 4 or oncostatin M induces a prolonged increase in P-selectin mRNA and protein in human endothelial cells.

Analysis of the globose basal cell compartment in rat olfactory epithelium using GBC-1, a new monoclonal antibody against globose basal cells.

P-glycoprotein induction in rat liver epithelial cells in response to acute 3-methylcholanthrene treatment.

Induction of *E. coli* oh8Gua endonuclease by oxidative stress: its significance in aerobic life.

Endothelin-1 induces tyrosine phosphorylation in human blood monocytes.

Construction of a ferritin-deficient mutant of *Campylobacter jejuni*: contribution of ferritin to iron storage and protection against oxidative stress.

Role of tumor necrosis factor- α on mesangial cell MCP-1 expression and monocyte migration: mechanisms mediated by signal transduction.

Tyrosine 8 contributes to catalysis but is not required for activity of rat liver glutathione S-transferase, 1-1.

Linoleate impairs collagen synthesis in primary cultures of avian chondrocytes.

Chronic in vivo sodium azide infusion induces selective and stable inhibition of cytochrome c oxidase.

Transduction mechanisms involved in thrombin receptor-induced nerve growth factor secretion and cell division in primary cultures of astrocytes.

Lyn and Fgr protein-tyrosine kinases prevent apoptosis during retinoic acid-induced granulocytic differentiation of HL-60 cells.

Mechanism of Safening Action of Dymuron and Its Two Monomethyl Analogues against Bensulfuron-methyl Injury to Rice (*Oryza sativa*).

Insecticide and Insecticide Metabolite Interactions with Cytochrome P450 Mediated Activities in Maize.

Expression and release of the a and b subunits for human coagulation factor XIII in baby hamster kidney (BHK) cells.

Estrogens attenuate and corticosterone exacerbates excitotoxicity, oxidative injury, and amyloid beta-peptide toxicity in hippocampal neurons.

Characterization of a sodium-dependent magnesium efflux from magnesium-loaded rat pancreatic acinar cells.

Acute ethanol administration induces oxidative changes in rat pancreatic tissue.

Relative potencies of polychlorinated dibenzo-p-dioxins, dibenzofurans, and biphenyls derived from hepatic porphyrin accumulation in mice.

Formation of sodium dodecyl sulfate-stable fibronectin multimers. Failure to detect products of thiol-disulfide exchange in cyanogen bromide or limited acid digests of stabilized matrix fibronectin.

Superoxide is not the proximate cause of paraquat toxicity.

Potency of a complex mixture of polychlorinated dibenzo-p-dioxin, dibenzofuran, and biphenyl congeners compared to 2,3,7,8-tetrachlorodibenzo-p-dioxin in causing fish early life stage mortality.

Persistence of decreased T-helper cell function in industrial workers 20 years after exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Actions of selected hepatotoxicants on freshly isolated and cryopreserved rat hepatocytes.

Inhibition of protein tyrosine kinases impairs axon extension in the embryonic optic tract.

Influence of liver tumor promoters on apoptosis in rat hepatocytes induced by 2-acetylaminofluorene, ultraviolet light, or transforming growth factor beta 1.

Mammalian plasma and tissue-bound semicarbazide-sensitive amine oxidases: biochemical, pharmacological and toxicological aspects.

Analytical findings in a suicide involving sodium azide.

Osteoclast demise in the rat: physiological versus degenerative cell death.

A community-based epidemiologic study of acute health effects from a metam-sodium spill on California's Sacramento River.

Effect of NaN₃ on oxygen-dependent lethality of UV-A in Escherichia coli mutants lacking active oxygen-defence and DNA-repair systems.

Regional differences in the distribution of catalase in the epithelium of the ocular lens.

TNF-alpha participates in an IgE-mediated cutaneous reaction in mast cell deficient, WBB6F1-W/Wv mice.

Mechanisms involved in eosinophil migration. Platelet-activating factor-induced chemotaxis and interleukin-5-induced chemokinesis are mediated by different signals.

4-Chloro-m-cresol, a potent and specific activator of the skeletal muscle ryanodine receptor.

Synergy between chronic corticosterone and sodium azide treatments in producing a spatial learning deficit and inhibiting cytochrome oxidase activity.

Studies on paraquat toxicity on deoxyribonucleic acid of cultured mammalian cells using flow cytometry.

Differential ability of 2,4-dinitrophenol to modulate etoposide cytotoxicity in mammalian tumor cell lines associated with inhibition of macromolecular synthesis.

Sperm auto - antibodies and anti-nuclear antigen antibodies in chronic dioxin - exposed veterans.

Methyl bromide intoxication during grain store fumigation.

Protection against oxidative injury and permeability alteration in cultured alveolar epithelium by transferrin-catalase conjugate.

Oxidation of pyridine nucleotides is an early event in the lethality of allyl alcohol.

Bald eagle mortality and chlorinated hydrocarbon contaminants in livers from British Columbia, Canada, 1989-1994.

The acute and chronic effects of alcohol upon cardiac nucleotide status.

[Purification of the natural 24kd (P24) of the type-1 human immunodeficiency virus (HIV-1) using immunoaffinity].

Role of cell surface glycosaminoglycans of human T cells in human immunodeficiency virus type-1 (HIV-1) infection.

Comparison of the expression of a plastidic chaperonin 60 in different plant tissues and under photosynthetic and non-photosynthetic conditions.

Changes in taurine as an indicator of hepatic dysfunction and biochemical perturbations. Studies in vivo and in vitro.

Effect of verapamil on allyl alcohol hepatotoxicity.

Arsenic induces oxidant stress and NF-kappa B activation in cultured aortic endothelial cells.

Strain differences in tissue repair response to 1,2-dichlorobenzene.

Elucidating the mechanism of cortical microtubule reorientation in plant cells.

Trout liver slices for metabolism and toxicity studies.

Preliminary in vitro cytotoxicity screening of a bead-formed macroporous hydrophilic polymer matrix.

Heat shock factor-1 mediates the transcriptional activation of Alzheimer's beta-amyloid precursor protein gene in response to stress.

Oxidative phenotype polymorphism (P450 2D6) and metabolism of toluene.

Evidence for decline in intracellular calcium buffering in adrenergic nerves of aged rats.

Endogenous reactive oxygen metabolites mediate sublethal endothelial cell dysfunction during reoxygenation.

Involvement of wound-associated factors in rat brain astrocyte migratory response to axonal injury: in vitro simulation.

Modulation of chemical-induced lung and liver toxicity by all-trans-retinol in the male Sprague-Dawley rat.

Intratracheally administered liposomal alpha-tocopherol protects the lung against long-term toxic effects of paraquat.

Estimating variance functions in developmental toxicity studies.

A metalloporphyrin superoxide dismutase mimetic protects against paraquat-induced endothelial cell injury, *in vitro*.

Thiols metabolism is altered by the herbicides paraquat, dinoseb and 2,4-D: a study in isolated hepatocytes.

[Paraquat-induced acute dermatitis in a child after playing with a discarded container].

Subacute toxicity of urea herbicide, isoproturon, in male rats.

Modifications of neurofilament proteins by possible metabolites of allyl chloride *in vitro*.

Recovery of respiratory function in survivors with paraquat intoxication.

Acute toxicity studies with earthworms, *Lumbricus terrestris*.

Antioxidative activity of 5,6,7,8-tetrahydrobiopterin and its inhibitory effect on paraquat-induced cell toxicity in cultured rat hepatocytes.

Radical formation site of cerebral complex I and Parkinson's disease.

Segment specificity of the cytological response in rainbow trout (*Oncorhynchus mykiss*) renal tubules following prolonged exposure to sublethal concentrations of atrazine.

Cyanamide-associated alcoholic liver disease: a sequential histological evaluation.

Acute toxicity tests using *Phyllospora comosa* (Labillardiere) C. Agardh (Phaeophyta: Fucales) and *Allorchestes compressa* Dana (Crustacea: Amphipoda).

Changes in primary and secondary lymphoid organ T-cell subpopulations resulting from acute *in vivo* exposure to propanil.

Epidemiologic research on Vietnam veterans. Difficulties and lessons learned.

Hodgkin's disease and Vietnam service.

A new mask filter cartridge used to determine applicator inhalation exposure to an alachlor herbicide (Lasso) during normal spraying operations.

Risk factors for occupational illnesses associated with the use of paraquat (1,1'-dimethyl-4,4'-bipyridylium dichloride) in California.

Environmental pollutants alter taste responses in the gerbil.

An easy and economical method to prepare cells for cytologic analyses.

[Poisoning by organophosphates and paraquat: apropos 14 cases].

Specific binding of a dichloroacetamide herbicide safener in maize at a site that also binds thiocarbamate and chloroacetanilide herbicides.

Pronounced activation of protein kinase C, ornithine decarboxylase and c-jun proto-oncogene by paraquat-generated active oxygen species in WI-38 human lung cells.

On the association between canine malignant lymphoma and opportunity for exposure to 2,4-dichlorophenoxyacetic acid.

Effects of acute 2,4-dichlorophenoxyacetic acid on cattle serum components and enzyme activities.

Effects of pentachlorophenol and biotic interactions on soil fauna and decomposition in humus soil.

[Evaluation of wood preservative pollutants of indoor air].

[Paraquat poisoning. Treatment and prognosis].

Xanthine oxidase mediates paraquat-induced toxicity on cultured endothelial cell.

Toxicology of 2,4-dichlorophenoxyacetic acid (2,4-D) and its determination in serum and brain tissue using gas chromatography-electron-capture detection.

Toxic effects of carbofuran and glyphosate on semen characteristics in rabbits.

Impaired in-vitro lymphocyte responses in patients with elevated pentachlorophenol (PCP) blood levels.

The role of free radicals in paraquat-induced corneal lesions.

Photodamage and skin cancer among paraquat workers.

Developmental toxicity of dinitroaniline herbicides in rats and rabbits. I. Trifluralin.

A full likelihood procedure for analysing exchangeable binary data.

The herbicide dicamba (2-methoxy-3,6-dichlorobenzoic acid) is a peroxisome proliferator in rats.

Chelation of organoarsenate with dimercaptosuccinic acid.

Toxicity of cotoran (fluometuron) in Desert sheep.

Acrolein mercapturates: synthesis, characterization, and assessment of their role in the bladder toxicity of cyclophosphamide.

Extrathyroidally mediated changes in circulating thyroid hormone concentrations in the male rat following administration of an experimental oxyacetamide (FOE 5043).

Escherichia coli iron superoxide dismutase targeted to the mitochondria of yeast cells protects the cells against oxidative stress.

Paraquat--a superoxide generator--kills neurons in the rat spinal cord.

Acute and chronic toxicity of the thiocarbamate herbicide, molinate, to the cladoceran *Moina australiensis* Sars.

Biological effects of active oxygen on an X-ray-sensitive mutant mouse cell line (SL3-147).

Deaths from pesticide poisoning in England and Wales 1990-1991.

Serum biochemical and histopathological changes related to the hepatic function in pigs following atrazine treatment.

Ifosfamide and mesna: effects on the Na/H exchanger activity in renal epithelial cells in culture (LLC-PK1).

Evaluation of the use of uncertainty factors in deriving RfDs for some chlorinated compounds.

The effects of subchronic chlorate exposure in Sprague-Dawley rats.

Acute and long-term effects of nine chemicals on the Japanese medaka (*Oryzias latipes*).

Detoxification of paraquat poisoning: effects of alkylsulfates and alkylsulfonates on paraquat poisoning in mice and rats.

Enhanced sensitivity to oxidative stress in cultured embryonic cells from transgenic mice deficient in metallothionein I and II genes.

A 2,4-dichlorophenoxyacetic acid induced fatality.

Mutations in PMR1 suppress oxidative damage in yeast cells lacking superoxide dismutase.

Agent Orange down under.

Lung damage in paraquat poisoning and hyperbaric oxygen exposure: superoxide-mediated inhibition of phospholipase A2.

[The effect of bentazone TP, an herbicide, on hematologic indicators in sheep during acute and subchronic poisoning].

Chronotoxicity of glufosinate ammonium in mice.

Overinterpretation of small numbers in the Dow 2,4-D cohort study.

Rapid toxicity assessment using an in vivo enzyme test for *Brachionus plicatilis* (Rotifera).

[Retrospective study of the morbidity in a group occupationally exposed to chlorotriazine herbicides: preliminary results].

[Herbicides and neoplasms of the hemolymphopoietic system].

Fate and effects of acrolein.

Effects of paraquat, dinoseb and 2,4-D on intracellular calcium and on vasopressin-induced calcium mobilization in isolated hepatocytes.

Glyphosate herbicide poisoning: use of a routine aminoacid analyzer appears to be a rapid method for determining glyphosate and its metabolite in biological fluids.

Mixed diquat/paraquat-induced burns.

Paternal serum dioxin and reproductive outcomes among veterans of Operation Ranch Hand.

Potent protective effect of melatonin on in vivo paraquat-induced oxidative damage in rats.

Survival in a case of massive paraquat ingestion.

Pulmonary damage due to paraquat poisoning through skin absorption.

Liposomal alpha-tocopherol alleviates the progression of paraquat-induced lung damage.

[Medico-biological aspects of biochemistry of amines and other nitrogen bases].

[Fatal fibrosing interstitial pneumopathy of uncommon cause].

Mutagenicity testing of nine herbicides and pesticides currently used in agriculture.

Immunohistochemical dynamics of leukotoxin (9,10-epoxy-12-octadecenoic acid) in lungs of rats.

Acute-phase reactant proteins and antioxidants in rats intoxicated chronically with paraquat.

Epidemiology of atrazine.

Effects of repeated oral doses of Dikamin D (2,4-D-amine Na) on rats.

Catalase inhibition with 3-amino-1,2,4-triazole does not abolish infarct size reduction in heat-shocked rats.

Exposure to polychlorinated dioxins and furans (PCDD/F) and mortality in a cohort of workers from a herbicide-producing plant in Hamburg, Federal Republic of Germany.

[The campaign against the spread of ragweed: the Quebec model].

Generation of resistance to the diphenyl ether herbicide acifluorfen by MEL cells.

Dapsone-induced hemolytic anemia: role of glucose-6-phosphate dehydrogenase in the hemolytic response of rat erythrocytes to N-hydroxydapsone.

Cigarette smoke inhibits lung fibroblast proliferation and chemotaxis.

Mutations associated with amyotrophic lateral sclerosis convert superoxide dismutase from an antiapoptotic gene to a proapoptotic gene: studies in yeast and neural cells.

Puromycin aminonucleoside inhibits mesangial cell-induced contraction of collagen gels by stimulating production of reactive oxygen species.

The acute effects of ethanol and acetaldehyde on the synthesis of mixed and contractile proteins of the jejunum.

Pathogenesis of diquat-induced liver necrosis in selenium-deficient rats: assessment of the roles of lipid peroxidation and selenoprotein P.

Antioxidative roles of metallothionein and manganese superoxide dismutase induced by tumor necrosis factor-alpha and interleukin-6.

The effect of protoporphyrinogen oxidase inhibitors on microsomal and mitochondrial cytochromes.

Excretion of F2-isoprostanes in bile: a novel index of hepatic lipid peroxidation.

High susceptibility to paraquat-driven lipid peroxidation of cultured hepatocytes loaded with linolenic acid.

Effects of cigarette smoke extract on bovine bronchial epithelial cell attachment and migration.

A mutant of *Azospirillum brasilense* Sp7 impaired in flocculation with a modified colonization pattern and superior nitrogen fixation in association with wheat.

Oxidant resistance of cadmium-adapted human lung fibroblasts.

The tyramine-labelled vesicular transporter for dopamine: a putative target of pesticides and neurotoxins.

MPP⁺ selectively affects calcium homeostasis in mesencephalic cell cultures from embryonal C57/Bl6 mice.

A comparative study of direct hemoperfusion and hemodialysis for the removal of glufosinate ammonium.

Role of lipid peroxidation in H₂O₂-induced renal epithelial (LLC-PK1) cell injury.

Diquat increases cysteine proteinase inhibitors greatly in rat plasma and tissues.

Review of the interaction between TCDD and glucocorticoids in embryonic palate.

19-Allylaminoherbimycin A, an analog of herbimycin A that is stable against treatment with thiol compounds or granulocyte-macrophage colony-stimulating factor in human leukemia cells.

Toxic equivalency factors do not predict the acute toxicities of dioxins in rats.

2,3,7,8-Tetrachlorodibenzo-p-dioxin-induced anorexia and wasting syndrome in rats: aggravation after ventromedial hypothalamic lesion.

The role of the neurohormone melatonin as a buffer against macromolecular oxidative damage.

Fibroblasts isolated after fibrotic lung injury induce apoptosis of alveolar epithelial cells in vitro.

Histopathology of postpartum placental sites in mink (*Mustela vison*) exposed to polychlorinated biphenyls or fractions thereof.

Induced gene transcription: implications for biomarkers.

Induction of heat shock protein 72 prevents neutrophil-mediated human endothelial cell necrosis.

Oral administration of dihydroartemisinin and ferrous sulfate retarded implanted fibrosarcoma growth in the rat.

Collagen type in dysfunctional temporomandibular joint disks.

Effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin on anti-CD3-induced changes in T-cell subsets and cytokine production.

Transcriptional activation of Alzheimer's beta-amyloid precursor protein gene by stress.

[Fatal sodium azide poisoning in a hospital: a preventable accident].

Quantitative analysis of collagen and collagen subtypes I, III, and V in human pancreatic cancer, tumor-associated chronic pancreatitis, and alcoholic chronic pancreatitis.

Immune response to *Schistosoma mansoni* phosphoglycerate kinase during natural and experimental infection: identification of a schistosome-specific B-cell epitope.

Influence of iron-limited continuous culture on physiology and virulence of *Legionella pneumophila*.

Anti-collagen antibodies in systemic sclerosis and in primary Raynaud's phenomenon.

Persistence of TCDD-induced hepatic cell proliferation and growth of enzyme altered foci after chronic exposure followed by cessation of treatment in DEN initiated female rats.

Promotion of N-nitrosodiethylamine-initiated hepatocellular tumors and hepatoblastomas by 2,3,7,8-tetrachlorodibenzo-p-dioxin or Aroclor 1254 in C57BL/6, DBA/2, and B6D2F1 mice.

[Comparison of the effectiveness and tolerance of Aktiferrin, a ferrous sulfate capsule preparation and Tardyferon pills in patients with uncomplicated sideropenic anemia].

Neurological condition in 18-month-old children perinatally exposed to polychlorinated biphenyls and dioxins.

Cryptosporidiosis at ICAAC.

Altered glycine transport by cerebral tissue and decreased Na⁺ and Ca⁺⁺ pump activities during organophosphorus-ester-induced delayed neurotoxicity development period.

Intestinal rotation in experimental congenital diaphragmatic hernia.

[Comparative study on pharmacological effects of various species of *Pueraria*].

Developmental effects of dioxins.

Immunoresponsiveness in endometriosis: implications of estrogenic toxicants.

Role of sodium azide in reducing nonspecific color development in enzyme immunoassays.

Synthesis of [Phe(4F)₃]thymopoietin II and examination of its immunological effect on the impaired blastogenic response of T-lymphocytes of uremic patients.

Shedding of surface-bound antibody by adult *Dictyocaulus viviparus*.

Deferoxamine treatment for acute iron intoxication in pregnancy.

Increase in chloride-dependent L-glutamate transport activity in synaptic membrane after in vitro ischemic treatment.

Adaptation of Ehrlich ascites carcinoma cells to energy deprivation in vivo can be associated with heat shock protein accumulation.

Dietary exposure of mink to carp from Saginaw Bay, Michigan: 2. Hematology and liver pathology.

Bilateral idiopathic loss of peripheral vestibular function with normal hearing.

A monoclonal antibody against a peptide sequence of fibrinogen gamma chain acts as an inhibitor of factor XIII-mediated crosslinking of human fibrin.

Pesticides--how research has succeeded and failed in informing policy: DDT and the link with breast cancer.

De novo mutation in the mitochondrial ATP synthase subunit 6 gene (T8993G) with rapid segregation resulting in Leigh syndrome in the offspring.

Identification and characterization of a major tolerogenic T-cell epitope of type II collagen that suppresses arthritis in B10.RIII mice.

Induction of macrophage procoagulant activity by murine hepatitis virus strain 3: role of tyrosine phosphorylation.

The effect of iron in formula milk after 6 months of age.

Incorporating cell proliferation kinetics into models for cancer risk assessment.

Different response of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD)-sensitive genes in human breast cancer MCF-7 and MDA-MB 231 cells.

Establishment of a recombinant hepatic cell line stably expressing alcohol dehydrogenase.

Inhibition of oxidative phosphorylation by palmitoyl-CoA in digitonin permeabilized fibroblasts: implications for long-chain fatty acid beta-oxidation disorders.

Reconstitution of the rat olfactory epithelium after methyl bromide-induced lesion.

Free radical formation in autopsy samples of Alzheimer and control cortex.

Impact of nutritional supplements on hematological profile of pregnant women.

Role of lipopolysaccharide and tumor necrosis factor-alpha in induction of hepatocyte necrosis.

Serum erythropoietin levels in patients with severe anemia secondary to inflammatory bowel disease and the use of recombinant human erythropoietin in patients with anemia refractory to treatment.

Inhibition of protein tyrosine kinase alters the effect of serum basic protein I on triacylglycerols and cholesterol differently in normal and hyperapoB fibroblasts.

Spin trapping endogenous radicals in MC-1010 cells: evidence for hydroxyl radical and carbon-centered ascorbyl radical adducts.

Large secretory structures at the cell surface imaged with scanning force microscopy.

Integrin-mediated tyrosine phosphorylation and cytokine message induction in monocytic cells. A possible signaling role for the Syk tyrosine kinase.

Pregnancy associated anemia and iron: a pilot study.

Nutrition and breast-feeding.

Health effects related to releases of hazardous substances on the Superfund priority list.

Agriculture-related injuries in the parkland region of Manitoba.

Ferritin excretion and iron balance in humans.

Inhibition of 4-hydroxyphenylpyruvate dioxygenase by 2-(2-nitro-4-trifluoromethylbenzoyl)-cyclohexane-1,3-dione and 2-(2-chloro-4-methanesulfonylbenzoyl)-cyclohexane-1,3-dione.

Radiosyntheses of labeled beta-pseudothymidine ([C-11]- and [H-3]methyl) and its biodistribution and metabolism in normal and tumored mice.

Hyperresponse in calcium-induced insulin release from electrically permeabilized pancreatic islets of diabetics GK rats and its defective augmentation by glucose.

Herbimycin A inhibits phorbol ester-induced morphologic changes, adhesion, and megakaryocytic differentiation of the leukemia cell line, MEG-01.

Immunomodulatory effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin tested by the popliteal lymph node assay.

Antioxidant and prooxidant roles of copper in Tween 20-induced hemolysis of hamster and pig erythrocytes containing marginal vitamin E.

[Methods for rapid evaluation of the effectiveness of drugs showing promise for urgent prevention and treatment of plague].

The mechanism of action of the two-layer cold storage method in canine pancreas preservation--protection of pancreatic microvascular endothelium.

Inhibition of apoptosis during 2,3,7,8-tetrachlorodibenzo-p-dioxin-mediated tumour promotion in rat liver.

The efficacy of erythropoietin in human immunodeficiency virus-infected end-stage renal disease patients treated by maintenance hemodialysis.

Adipose tissue concentrations of dioxins and dibenzofurans in patients with malignant lymphoproliferative diseases and in patients without a malignant disease.

Dioxin--an analysis of the major human studies: comparison with animal-based cancer risks.

Accidental fatal monochloroacetic acid poisoning.

Hypoxia-induced vascular endothelial growth factor expression in normal rat astrocyte cultures.

Functional aspects of developmental toxicity of polyhalogenated aromatic hydrocarbons in experimental animals and human infants.

An inward rectifier K⁺ current modulates in neuroblastoma cells the tyrosine phosphorylation of the pp125FAK and associated proteins: role in neuritogenesis.

Neonatal lethality associated with respiratory distress in mice lacking cytochrome P450 1A2.

Immune system impairment and hepatic fibrosis in mice lacking the dioxin-binding Ah receptor.

[The use of tardyferon in the combined treatment of patients with chronic atrophic gastritis and peptic ulcer complicated by hemorrhage].

Hepatic microsomal ethoxyresorufin O-deethylase-inducing potency in ovo and cytosolic Ah receptor binding affinity of 2,3,7,8-tetrachlorodibenzo-p-dioxin: comparison of four avian species.

Subchronic dose-response study of 2,3,7,8-tetrachlorodibenzo-p-dioxin in female Sprague-Dawley rats.

Postischemic proximal tubular resistance to oxidant stress and Ca²⁺ ionophore-induced attack. Implications for reperfusion injury.

Dilated cardiomyopathy is associated with an increase in the type I/type III collagen ratio: a quantitative assessment.

Apoptosis: the in vivo mechanism which mediates spontaneous AK-5 tumor regression.

Identity and pathogenesis of stomach tumors in Sprague-Dawley rats associated with the dietary administration of butachlor.

Induction of endometriosis in mice: a new model sensitive to estrogen.

Localization of porcine cardiac myosin epitopes that induce experimental autoimmune myocarditis.

Direct tumorigenic conversion of human gallbladder carcinoma cells by v-src but not by activated c-H-ras oncogene.

Resinifying therapy in endodontics. A clinical and radiological evaluation.

Origin and immunoregulation of autoantibodies against intestinal alkaline phosphatase.

Irritant dermatitis among workers cleaning up a pesticide spill: California 1991.

Workers' response to risk notification.

Dietary exposure of mink to carp from Saginaw Bay, Michigan. 1. Effects on reproduction and survival, and the potential risks to wild mink populations.

Presentation of cartilage proteoglycan to a T cell hybridoma derived from a mouse with proteoglycan-induced arthritis.

The potential utility of animal poisoning data to identify human exposure to environmental toxins.

Environmental and dietary estrogens and human health: is there a problem?

Mechanism of chromium(VI) toxicity in Escherichia coli: is hydrogen peroxide essential in Cr(VI) toxicity?

Antibody reactivity to mycobacterial 65 kDa heat shock protein: relevance to autoimmunity.

Variation in the expression and/or phosphorylation of the human low molecular weight stress protein during in vitro cell differentiation.

Scrapie prions selectively modify the stress response in neuroblastoma cells.

Modulation of TCDD-induced wasting syndrome by portocaval anastomosis and vagotomy in Long-Evans and Han/Wistar rats.

ACTH-(1-24) blocks the decompensatory phase of the haemodynamic response to acute hypovolaemia in conscious rabbits.

Treatment of Philadelphia-chromosome-positive human leukemia in SCID mouse model with herbimycin A, bcr-abl tyrosine kinase activity inhibitor.

Methyl bromide induced neuropathy: a clinical, neurophysiological, and morphological study.

Correlation between toxicity and effects on intermediary metabolism in 2,3,7,8-tetrachlorodibenzo-p-dioxin-treated male C57BL/6J and DBA/2J mice.

Efficacy of oral iron therapy in patients receiving recombinant human erythropoietin.

Acinar cell respiration in experimental acute pancreatitis.

Prenatal hormonal therapy improves pulmonary compliance in the nitrofen-induced CDH rat model.

Pulmonary neuroendocrine cells in neonatal rats with congenital diaphragmatic hernia.

Antithrombin-TRI (Ala382 to Thr) causing severe thromboembolic tendency undergoes the S-to-R transition and is associated with a plasma-inactive high-molecular-weight complex of aggregated antithrombin.

Local and remote matrix responses to chondrocyte-laden collagen scaffold implantation in extensive articular cartilage defects.

Resistance of melanoma cell lines to interferons correlates with reduction of IFN-induced tyrosine phosphorylation. Induction of the anti-viral state by IFN is prevented by tyrosine kinase inhibitors.

Activation of casein kinase II in ML-1 human myeloblastic leukemia cells requires IGF-1 and transferrin.

Unaltered thyroid function in mice responding to a highly immunogenic thyrotropin receptor: implications for the establishment of a mouse model for Graves' disease.

Comparison of expression of aldehyde dehydrogenase 3 and CYP1A1 in dominant and recessive aryl hydrocarbon hydroxylase-deficient mutant mouse hepatoma cells.

A radiographic, morphologic, biochemical and molecular analysis of a case of achondrogenesis type II resulting from substitution for a glycine residue (Gly691-->Arg) in the type II collagen trimer.

Enrichment with arachidonic acid increases the sensitivity of hepatoma cells to the cytotoxic effects of oxidative stress.

Mechanisms of uremic inhibition of phagocyte reactive species production: characterization of the role of p-cresol.

The adverse effects of long-term cassava (*Manihot esculenta* Crantz) consumption.

2,3,7,8-Tetrachlorodibenzo-p-dioxin: molecular mechanism of carcinogenesis and its implication in human in vitro model.

Effects of inhalative exposure to dioxins in wood preservatives on cell-mediated immunity in day-care center teachers.

Embryonic cell death patterns associated with nitrofen-induced congenital diaphragmatic hernia.

Flow cytometric analysis of the granulocyte respiratory burst: a comparison study of fluorescent probes.

The effects of acute exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin on glioma-specific cytotoxic T-cell activity in Fischer 344 rats.

A morphological study of liver lesions in *Xenopus* larvae exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) with special reference to apoptosis of hepatocytes.

Antioxidant effect of a Ginkgo biloba extract (EGb 761) on the retina.

[Medical and biological aspects of the dioxin problem].

[Possibilities of the use of oxymethacil as an antioxidant in the prevention of intoxication in industrial surroundings and ecologically unhealthy areas].

Effect of supplementation with an iron-fortified milk on incidence of diarrhea and respiratory infection in urban-resident infants.

Effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on tryptophan and glucose homeostasis in the most TCDD-susceptible and the most TCDD-resistant species, guinea pigs and hamsters.

A new gastric ulcer model in rats produced by ferrous iron and ascorbic acid injection.

Toxicological and neuropsychological findings in patients presenting to an environmental toxicology service.

Non-Hodgkin's lymphoma.

Survival after a severe iron poisoning treated with intermittent infusions of deferoxamine.

Angiotensin-converting enzyme activity is increased in lungs of rats with pulmonary hypoplasia and congenital diaphragmatic hernia.

[Species-specific toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin upon the acute and chronic effect on the mammalian body].

Mechanisms of the formation and disposition of reactive metabolites that can cause acute liver injury.

Role of the lung in accumulation and metabolism of xenobiotic compounds--implications for chemically induced toxicity.

Characterization of sugar receptor expression by neoglycoproteins in oral and oropharyngeal squamous cell carcinomas.

Differential effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin on the "adipose-type" and "brain-type" glucose transporters in mice.

Nitric oxide. An important signaling mechanism between vascular endothelium and parenchymal cells in the regulation of oxygen consumption.

Tyrosine protein kinase inhibitors prevent activation of cardiac swelling-induced chloride current.

Regional brain effects of sodium azide treatment on cytochrome oxidase activity: a quantitative histochemical study.

Response of [Ah] battery genes to compounds that protect against menadione toxicity.

Loss of mitochondrial membrane potential is not essential to hepatocyte killing by allyl alcohol.

N-acetylcysteine pretreatment attenuates paraquat-induced lung leak in rats.

Kinetics of plasma membrane and mitochondrial alterations in cells undergoing apoptosis.

Evaluation of the significance of polyamines and their oxidases in the aetiology of human cervical carcinoma.

Lipopolysaccharide stimulates the tyrosine phosphorylation of mitogen-activated protein kinases p44, p42, and p41 in vascular endothelial cells in a soluble CD14-dependent manner. Role of protein tyrosine phosphorylation in lipopolysaccharide-induced stimulation of endothelial cells.

Adenosine accumulation as an indicator of cell-specific toxicity in rat lung slices.

[Female workers health: the case of a laundry at a sodium chlorate factory].

Capacitative Ca^{2+} influx and a Ca^{2+} -dependent nonselective cation pathway are discriminated by genistein in mouse pancreatic acinar cells.

Reproductive effects in birds exposed to pesticides and industrial chemicals.

Toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) to the human thymus after implantation in SCID mice.

In utero and lactational exposure of the male rat to 2,3,7,8-tetrachlorodibenzo-p-dioxin: impaired prostate growth and development without inhibited androgen production.

Tyrosine kinase inhibitors inhibit multiple steps of the cell cycle of vascular smooth muscle cells.

A biotechnological method provides access to aggregation competent monomeric Alzheimer's 1-42 residue amyloid peptide.

Impaired cellular immune response in harbour seals (*Phoca vitulina*) feeding on environmentally contaminated herring.

Cytoskeletal regulation of Caco-2 intestinal monolayer paracellular permeability.

Chronic sodium azide treatment decreases membrane-bound protein kinase C activity in the rat hippocampus.

Bivascular liver perfusion in the anterograde and retrograde modes: zonation of the response to inhibitors of oxidative phosphorylation.

Dopamine-induced programmed cell death in mouse thymocytes.

Enhanced phosphorylation of nuclear 21-kDa and 34-kDa proteins in hepatoma cell death induced by tumor-necrosis factor-alpha.

Enhanced effectiveness of dimethyl-4,4'-dimethoxy-5,6,5',6'-dimethylene dioxybiphenyl-2,2'-dicarboxylate in combination with garlic oil against experimental hepatic injury in rats and mice.

Effects of protein tyrosine kinase inhibitors with different modes of action on topoisomerase activity and death of IL-2-dependent CTLL-2 cells.

Cyclophosphamide: review of its mutagenicity for an assessment of potential germ cell risks.

Immunoquantification of type I, III, IV and V collagen in small samples of human lung parenchyma.

Acute toxicity of selected metals and phenols on RTG-2 and CHSE-214 fish cell lines.

Inhibition of tumor necrosis factor alpha- and ceramide-induced internucleosomal DNA fragmentation by herbimycin A in U937 cells.

Octanoate affects 2,4-dinitrophenol uncoupling in intact isolated rat hepatocytes.

Somatic embryogenesis and plant regeneration in tissue cultures of radish (*Raphanus sativus* L.).

Application of high-performance liquid chromatography to a fatality involving azide.

Halogenated aromatic hydrocarbons and toxicity equivalency factors (TEFs) from the public health assessment perspective.

Acute and prolonged toxicity to aquatic organisms of new and existing chemicals and pesticides.

Cytochromes P450 in cynomolgus monkeys mutagenically activate 2-amino-3-methylimidazo[4,5-f]quinoline (IQ) but not 2-amino-3,8-dimethylimidazo[4,5-f]quinoxaline (MeIQx).

Glutathione S-transferase 8-8 is localized in smooth muscle cells of rat aorta and is induced in an experimental model of atherosclerosis.

Temperature regulation and metabolism in rats exposed perinatally to dioxin: permanent change in regulated body temperature?

Xenoestrogens alter mammary gland differentiation and cell proliferation in the rat.

A stereotypic, transplantable liver tissue-culture system.

Chemical speciation of arsenic in urine of patients with blackfoot disease.

Growth inhibition and cell killing by N-methyl-N-nitrosourea: metabolic alterations that accompany poly(ADP-ribosylation).

A novel type of cell death of lymphocytes induced by a monoclonal antibody without participation of complement.

Alterations in thyroid function in female Sprague-Dawley rats following chronic treatment with 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Site-specific crosslinking of 4-thiouridine-modified human tRNA(3Lys) to reverse transcriptase from human immunodeficiency virus type I.

Participation of small intraportal stem cells in the restitutive response of the liver to periportal necrosis induced by allyl alcohol.

Subchronic effects of 2,3,7,8-TCDD or PCBs on thyroid hormone metabolism: use in risk assessment.

A metabolite of carcinogenic 2-acetylaminofluorene, 2-nitrosofluorene, induces redox cycling in mitochondria.

Depletion of neutrophils and modulation of Kupffer cell function in allyl alcohol-induced hepatotoxicity.

Chronic UVB- and all-trans retinoic-acid-induced qualitative and quantitative changes in hairless mouse skin.

Metaanalysis of 4 Swedish case-control studies on exposure to pesticides as risk-factor for soft-tissue sarcoma including the relation to tumor-localization and histopathological type.

Proportionate mortality study of Vietnam-era veterans of Michigan.

Using biological monitoring to assess human exposure to priority toxicants.

[Changes in hematological indices, iron levels and marrow erythroids through autologous blood donation before cardiac surgery--predonation with versus without recombinant human erythropoietin].

Dioxin activates HIV-1 gene expression by an oxidative stress pathway requiring a functional cytochrome P450 CYP1A1 enzyme.

Acute aquatic toxicity of protolyzing substances studied as the microtox effect.

Induction of CYP1A and glutathione S-transferase activities by 2,3,7,8-tetrachlorodibenzo-p-dioxin in human hepatocyte cultures.

Subchronic effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) and their reversibility in male Sprague-Dawley rats.

Effects of magnesium and iron on lipid peroxidation in cultured hepatocytes.

Iron balance in menstruating women.

Protective effect of oleanolic acid against chemical-induced acute necrotic liver injury in mice.

Catalase and hydrogen peroxide cytotoxicity in cultured cardiac myocytes.

Excitatory amino acid release from astrocytes during energy failure by reversal of sodium-dependent uptake.

Irreversible inactivation of glutathione S-transferase- α by a low concentration of naphthoquinones.

Dose-response relationships of tissue distribution and induction of CYP1A1 and CYP1A2 enzymatic activities following acute exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in mice.

Involvement of hydrogen and lipid peroxides in acute tobacco smoking-induced platelet hyperactivity.

Burn injury stimulates multiple proteolytic pathways in skeletal muscle, including the ubiquitin-energy-dependent pathway.

The maize mitochondrial MnSODS encoded by multiple genes are localized in the mitochondrial matrix of transformed yeast cells.

Microvillar cells of the olfactory epithelium: morphology and regeneration following exposure to toxic compounds.

Somaclonal variation in watercress for resistance to crook root disease.

Olfactory toxicity of methyl iodide in the rat.

Stimulation of radial expansion in arabidopsis roots by inhibitors of actomyosin and vesicle secretion but not by various inhibitors of metabolism.

Bioaccumulation and toxic effects of elevated levels of 3,3',4,4'-tetrachloroazobenzene (33'44'-TCAB) towards aquatic organisms. II: Bioaccumulation and toxic effects of dietary 33'44'-TCAB on the Japanese Medaka (*Oryzias latipes*).

Allyl alcohol cytotoxicity in isolated rat hepatocytes: effects of azide, fasting, and fructose.

Phenol and cresol metabolism in *Bacillus pumilus* isolated from contaminated groundwater.

Effects of pesticides on isolated rat hepatocytes, mitochondria, and microsomes II.

BW-755C diminishes smoke-induced pulmonary edema.

Quinone methide formation from para isomers of methylphenol (cresol), ethylphenol, and isopropylphenol: relationship to toxicity.

Toxicology of methyl bromide.

Atypical apoptotic cell death induced in L929 targets by exposure to tumor necrosis factor.

Oxidative stress from environmental pollutants.

Selective increase of rat lung cytochrome P450 1A1 dependent monooxygenase activity after acute sodium arsenite administration.

Analysis of whole-blood cyclosporin G by liquid chromatography in renal transplant recipients.

Iron(II) is a modulator of ryanodine-sensitive calcium channels of cardiac muscle sarcoplasmic reticulum.

Receptor-induced death in human natural killer cells: involvement of CD16.

"Farming and prostate cancer mortality".

The Melkersson-Rosenthal syndrome and food additive hypersensitivity.

Comparison of the toxicity of cinnamaldehyde when administered by microencapsulation in feed or by corn oil gavage.

Mechanism of cytotoxicity of paraquat. III. The effects of acute paraquat exposure on the electron transport system in rat mitochondria.

A fatal case of paraquat poisoning in a Nigerian.

Comparative study of plant growth hormone (herbicide) toxicity in various biological subjects.

Effect of sulfhydryl compounds and glutathione depletion on rat heart myocyte toxicity induced by 4-hydroperoxycyclophosphamide and acrolein in vitro.

Ifosfamide metabolite chloroacetaldehyde causes Fanconi syndrome in the perfused rat kidney.

Primary and immortalized (BEAS 2B) human bronchial epithelial cells have significant antioxidative capacity in vitro.

Sclerodermatous syndrome after occupational exposure to herbicides--response to systemic steroids.

Effects of atrazine on reproductive performance in the rat.

Survival of paraquat intoxication complicated with mediastinal emphysema: a case report.

[Toxicological and hygienic monitoring and toxico-metric assessment of consequences of exposure to herbicides in agricultural enterprises].

Arsenic-related Bowen's disease and paraquat-related skin cancerous lesions show no detectable ras and p53 gene alterations.

[Kidney disorders caused by organic toxic substances].

Chronic effects of atrazine on estrus and mammary tumor formation in female Sprague-Dawley and Fischer 344 rats.

The site of elevated vascular resistance in early paraquat lungs: a morphometric study of pulmonary arteries.

Acute 2,4-dichlorophenoxyacetic acid intoxication in cattle.

Effect of selenium deficiency and glutathione-modulating agents on diquat toxicity and lipid peroxidation in rats.

Chronic histopathological effects of parathion and 2,4-D on female gonads of *Chasmagnathus granulata* (Decapoda, Brachyura).

[Pathologic characteristics of diffuse alveolar damage induced by paraquat in rat lungs].

Effect of aldehyde dehydrogenase and alcohol dehydrogenase inhibitors and ethanol on blood and liver ketone bodies in the rat.

Statistical variability: what does it mean in risk assessment?

Nitric oxide as a mediator of oxidant lung injury due to paraquat.

[A complex of symptoms].

Cyclooxygenase and lipoxygenase inhibition by BW-755C reduces acrolein smoke-induced acute lung injury.

Paraquat poisoning by skin absorption: report of two cases.

Neurodegeneration produced by intrahippocampal injection of paraquat is reduced by systemic administration of the 21-aminosteroid U74389F in rats.

Comparison of effects of margarite extract and recombinant human superoxide dismutase on paraquat-induced superoxide anion radicals in rat lung.

Mortality and cancer morbidity of Finnish chlorophenoxy herbicide applicators: an 18-year prospective follow-up.

Persistent respiratory health effects after a metam sodium pesticide spill.

Atrazine toxicity on hydromineral balance of fish, *Tilapia mossambicus*.

Nematode test to estimate the hazard potential of solved contaminations.

Oxidative mutagens induce intrachromosomal recombination in yeast.

Superoxide dismutase (*sod-1*) null mutants of *Neurospora crassa*: oxidative stress sensitivity, spontaneous mutation rate and response to mutagens.

Interactions of herbicides 2,4-D and dinoseb with liver mitochondrial bioenergetics.

Remodeling of the alveolar structure in the paraquat lung of humans: a morphometric study.

Patterns of sensitivity to cadmium and pentachlorophenol among nematode species from different taxonomic and ecological groups.

Studies on the neuromuscular blocking action of commercial paraquat in mouse phrenic nerve-diaphragm.

Effects of lethal and sublethal concentrations of the herbicide, triclopyr butoxyethyl ester, in the diet of zebra finches.

Evaluation of ocular health among alachlor manufacturing workers.

[Allergic diseases caused by pesticides: 3 case reports].

Diagnosis and treatment of soft tissue sarcomas in adults.

Quaternary ammonium compounds.

Phenoxyacetates.

Substituted ureas.

Triazines.

Carbamate herbicides and fungicides.

Nitric oxide mediates oxidant tissue injury caused by paraquat and xanthine oxidase.

Diquat- and acetaminophen-induced alterations of biliary efflux of iron in rats.

Regulation of antioxidant enzymes in lung after oxidant injury.

[Methemoglobinemia induced by sodium chlorate: value of hyperbaric oxygen therapy].

Neurologic health outcomes and Agent Orange: Institute of Medicine report.

Bilateral spontaneous pneumothoraces, pneumopericardium, pneumomediastinum, and subcutaneous emphysema: a rare presentation of paraquat intoxication.

Exposure to phenoxyacetic acids, chlorophenols, or organic solvents in relation to histopathology, stage, and anatomical localization of non-Hodgkin's lymphoma.

Selective myelotoxicity of propanil.

Chloracne, palmoplantar keratoderma and localized scleroderma in a weed sprayer.

Potentiation of oxidant-induced toxicity in hamster lung slices by dimethylthiourea.

Effect of ethanol on paraquat toxicity in F344 rats.

Toxicological assessment of biotransformation products of pentachlorophenol: Tetrahymena population growth impairment.

Canine exposure to herbicide-treated lawns and urinary excretion of 2,4-dichlorophenoxyacetic acid.

Dose-response assessment of airborne methyl isothiocyanate (MITC) following a metam sodium spill.

Evidence for redox cycling of diquat in rat small intestine.

Fatal overdose of 2,4-dichlorophenoxyacetic acid (2,4-D).

Acute intramuscular injection of oils or the oleic acid component protects mice against paraquat lethality.

Delayed and severe toxicities of a herbicide containing glufosinate and a surfactant.

Non-Hodgkin's lymphoma and agricultural practices in the prairie provinces of Canada.

Deaths from pesticide poisoning in England and Wales: 1945-1989.

Comparison of two methods for determining the toxicokinetics of fluazifop-butyl after intravenous dosing in rats.

[Alteration of lipid peroxidation and the activity of peroxide metabolism enzymes in the liver, kidney and lung following the administration of paraquat in mice].

Risk of testicular cancer associated with surrogate measures of Agent Orange exposure among Vietnam veterans on the Agent Orange Registry.

Metabolic alterations in hepatocytes promoted by the herbicides paraquat, dinoseb and 2,4-D.

[Paraquat lung].

Inhaled nitric oxide in advanced paraquat intoxication.

Direct detection of the intracellular formation of carboxyphosphamides using nuclear magnetic resonance spectroscopy.

Aldehyde dehydrogenase and cytotoxicity of purified bovine serum amine oxidase and spermine in Chinese hamster ovary cells.

The effects of mustard gas, ionizing radiation, herbicides, trauma, and oil smoke on US military personnel: the results of veteran studies.

Methemoglobinemia following ingestion of a monolinuron/paraquat herbicide (Gramonol).

Assessment of oxidative stress to eye in animal model for cataract.

Paraquat poisoning. "State of the art".

Free radicals in the pathophysiology of pulmonary injury and disease.

Detection of oxygen-derived radicals in biological systems using electron spin resonance.

Comparison of dibenzodioxin levels in blood and milk in agricultural workers and others following pentachlorophenol exposure in China.

Histochemical demonstration of hydrogen peroxide production by leukocytes in fixed-frozen tissue sections of inflammatory lesions.

A role for thyroid hormones in cold-induced elevation of blood pressure and cardiac hypertrophy.

A survey of actinic keratoses among paraquat production workers and a nonexposed friend reference group.

Free radical mechanisms for chromosomal instability in Bloom's syndrome.

The acute effects of alcohol and acetaldehyde on cardiac nucleotide levels.

Reactive oxygen metabolite-induced toxicity to cultured bovine endothelial cells: status of cellular iron in mediating injury.

Role of iron and glutathione redox cycle in acetaminophen-induced cytotoxicity to cultured rat hepatocytes.

Toxicity of ifosfamide, cyclophosphamide and their metabolites in renal tubular cells in culture.

Kinetic studies on the removal of extracellular hydrogen peroxide by cultured fibroblasts.

Indolo[3,2-b]carbazole: a dietary-derived factor that exhibits both antiestrogenic and estrogenic activity.

Inhibition of degranulation of polymorphonuclear leukocytes by angiogenin and its tryptic fragment.

Short-term toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin in laboratory animals: effects, mechanisms, and animal models.

Antibodies to collagen: comparative epitope mapping in women with silicone breast implants, systemic lupus erythematosus and rheumatoid arthritis.

The importance of biological realism in dioxin risk assessment models.

Inhibition of mammalian protoporphyrinogen oxidase by acifluorfen.

[Treatment with prophylactic doses of ferrous sulphate as an intervention measure in the campaign++ against iron deficiency in children cared for in basic health units].

[Respiratory disease in the tertiary emergency hospital].

Characterization of a triple opioid system in the human neuroblastoma NMB cell line.

Growth of erythroid colonies in chronic myelogenous leukemia is independent of erythropoietin only in the presence of steel factor.

Acycloguanosine and herbimycin A co-operatively inhibit proliferation and induce erythrodifferentiation of human myeloid leukemia K562 cells.

Mammalian toxicology of organophosphorus pesticides.

Alveolar epithelial composition and architecture of the late fetal pulmonary acinus: an immunocytochemical and morphometric study in a rat model of pulmonary hypoplasia and congenital diaphragmatic hernia.

Subchronic (13-week) toxicity of heptachlorodibenzo-p-dioxin in male Sprague-Dawley rats.

[Mechanisms for cell damage in acute pancreatitis using isolated acinar cells].

Stressor-specific induction of heat shock proteins in rat hepatoma cells.

Total and specific IgE levels in human hydatid disease determined by enzyme immunoassay: serological follow-up after surgery.

[Erythropoietin].

Integrin alpha v beta 3 differentially regulates adhesive and phagocytic functions of the fibronectin receptor alpha 5 beta 1.

T cell regulation of collagen-induced arthritis in mice. III. Is T cell vaccination a valuable therapy?

The role of DNA damage in the resistance of human chronic myeloid leukemia cells to cyclophosphamide analogues.

TCDD carcinogenicity in humans.

Tyrosine kinase activation by Newcastle disease virus is required for TNF-alpha gene induction in astrocytes.

Modelling of human acute toxicity from physicochemical properties and non-vertebrate acute toxicity of the 38 organic chemicals of the MEIC priority list by PLS regression and neural network.

Regulation of [Ah] gene battery enzymes and glutathione levels by 5,10-dihydroindeno[1,2-b]indole in mouse hepatoma cell lines.

Menière's disease: role of antibodies against basement membrane antigens.

Therapy with recombinant human erythropoietin in patients with myelodysplastic syndromes.

Extracellular matrix remodeling after balloon angioplasty injury in a rabbit model of restenosis.

In vitro phototoxic activities of new quinolone antibacterial agents: lipid peroxidative potentials.

Polymorphonuclear leukocytes increase glomerular albumin permeability via hypohalous acid.

Aftermath of a chemical spill: psychological and physiological sequelae.

Can cohort studies detect any human cancer excess that may result from exposure to dioxin? Maybe.

Reaction of inflamed periapical tissue to intracanal medicaments and root canal sealers.

Treatment of methyl bromide poisoning with haemodialysis.

Neurotoxins: a neuroscience nursing challenge.

Psychological, psychosocial, and psychophysiological sequelae in a community affected by a railroad chemical disaster.

Dust exposure indices and lung function changes in longshoremen and dock workers.

Possible functional groups responsible for inhibition of in vivo angiogenesis by herbimycin A.

A protective effect of glutathione-dextran macromolecular conjugates on acetaminophen-induced hepatotoxicity dependent on molecular size.

A case of germinal center formation by CD45RO T and CD20 B lymphocytes in rheumatoid arthritic subchondral bone: proposal for a two-compartment model of immune-mediated disease with implications for immunotherapeutic strategies.

[Shock caused by poisoning. Use of cardiotropic agents].

Evidence for involvement of tyrosine phosphorylation in taxol-induced apoptosis in a human ovarian tumor cell line.

Comparative in vitro effects of sodium arsenite and sodium arsenate on neuroblastoma cells.

Bronchial necrosis and granuloma induced by the aspiration of a tablet of ferrous sulphate.

The effects of iron supplementation during pregnancy, given by traditional birth attendants, on the prevalence of anaemia and malaria.

Survey of health and use characterization of pesticide applicators in Minnesota.

Mortality among workers of three thermoelectric power plants in northern Italy: a retrospective cohort study.

[Assessment of iron absorption in children with chronic renal insufficiency].

Detection of apoptosis in leukemic and breast cancer cells with monoclonal antibody to single-stranded DNA.

Cytoplasmic transfer of the mtDNA nt 8993 T→G (ATP6) point mutation associated with Leigh syndrome into mtDNA-less cells demonstrates cosegregation with a decrease in state III respiration and ADP/O ratio.

Fighting myths.

Time-response necessary in validation for extraction of pesticides from cloth patches used in field exposure studies.

Alteration of intracellular Ca²⁺ transients in COS-7 cells transfected with the cDNA encoding skeletal-muscle ryanodine receptor carrying a mutation associated with malignant hyperthermia.

Acute inflammatory response to sheep red blood cells in mice treated with 2,3,7,8-tetrachlorodibenzo-p-dioxin: the role of proinflammatory cytokines, IL-1 and TNF.

Toxic potency of 3,3',4,4',5-pentachlorobiphenyl relative to and in combination with 2,3,7,8-tetrachlorodibenzo-p-dioxin in a subchronic feeding study in the rat.

Iron deficiency in two adolescents with conduct, dysthymic and movement disorders.

Deaths from primary brain cancers, lymphatic and haematopoietic cancers in agricultural workers in the Republic of Ireland.

The use of zinc protoporphyrin in screening young children for iron deficiency.

Cancer incidence and mortality among Swedish leather tanners.

Radiographic and microbiologic evaluation of posttreatment apical and periapical repair of root canals of dogs' teeth with experimentally induced chronic lesion.

Erythropoietin increases hemoglobin during radiation therapy for cervical cancer.

Synthesis and tissue biodistribution of [ω -¹¹C]palmitic acid. A novel PET imaging agent for cardiac fatty acid metabolism.

Surveillance for emergency events involving hazardous substances--United States, 1990-1992.

Activation of protein kinase C down-regulates leukotriene C₄ synthase activity and attenuates cysteinyl leukotriene production in an eosinophilic substrain of HL-60 cells.

Morbidity follow up study of BASF employees exposed to 2,3,7, 8-tetrachlorodibenzo-p-dioxin (TCDD) after a 1953 chemical reactor incident.

Psychological characteristics and subjective intolerance for xenobiotic agents of normal young adults with trait shyness and defensiveness. A parkinsonian-like personality type?

Iron supplementation in children after cardiopulmonary bypass for surgical repair of congenital heart disease.

Fc epsilon RI-stimulated Ca(2+)-dependent secretion from rat basophilic leukemia (RBL-2H3) cells permeabilized with Staphylococcal alpha-toxin: Fc epsilon RI-operated signals are not mimicked by the actions of GTP gamma S.

Effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on pulmonary influenza virus titer and natural killer (NK) activity in rats.

Protein binding of itraconazole and fluconazole in patients with chronic renal failure.

Time to discontinue the use of solutions A and B as a cyanide 'antidote'.

Increased in vitro tumour necrosis factor-alpha production in iron deficiency anemia.

Effect of ethanol and sodium arsenite on HSP-72 formation and on survival in a murine endotoxin model.

Effect of scavengers of active oxygen species on cell damage caused in CHO-K1 cells by phenylhydroquinone, an o-phenylphenol metabolite.

Tyrosine kinase inhibitor-induced differentiation of K-562 cells: alterations of cell cycle and cell surface phenotype.

Posttranslational sulfation of factor V is required for efficient thrombin cleavage and activation and for full procoagulant activity.

Toxic potency of 2,3,3',4,4',5-hexachlorobiphenyl relative to and in combination with 2,3,7,8-tetrachlorodibenzo-p-dioxin in a subchronic feeding study in the rat.

Urea-derived cyanate forms epsilon-amino-carbamoyl-lysine (homocitrulline) in leukocyte proteins in patients with end-stage renal disease on peritoneal dialysis.

Postischemic inhibition of cerebral cortex pyruvate dehydrogenase.

Bioavailability of iron from oral ferric polymaltose in humans.

Treatment of deeply infiltrating endometriosis.

Tendon degeneration and chronic shoulder pain: changes in the collagen composition of the human rotator cuff tendons in rotator cuff tendinitis.

Apoptosis and chemical carcinogenesis.

Effects of 2,3,7,8-tetrachloro- and 1,2,3,4,6,7,8-heptachlorodibenzo-p-dioxin on the proliferation of preneoplastic liver cells in the rat.

Carcinogenesis and initiation of cell cycling by charge-induced membrane clusters may be due to mitogen receptors and Na⁺/H⁺ antiports.

Enalapril reduces collagen type IV synthesis and expansion of the interstitium in the obstructed rat kidney.

The function of heat-shock proteins in stress tolerance.

Sodium arsenite induces heat shock protein-72 kilodalton expression in the lungs and protects rats against sepsis.

Effects of various drugs (staurosporine, herbimycin A, ketotifen, theophylline, FK506 and cyclosporin A) on eosinophil viability.

Coxsackievirus B3 infection alters the uptake of 2,3,7,8-tetrachlorodibenzo-p-dioxin into various tissues of the mouse.

An increased percentage of long amyloid beta protein secreted by familial amyloid beta protein precursor (beta APP717) mutants.

Adverse effect of iron supplementation on weight gain of iron-replete young children.

Mutation in the COL2A1 gene in a patient with hypochondrogenesis. Expression of mutated COL2A1 gene is accompanied by expression of genes for type I procollagen in chondrocytes.

Possible risk of endometriosis for Seveso, Italy, residents: an assessment of exposure to dioxin.

Radiopacity study of extended-release formulations using digitalized radiography.

Craniofacial surgery in the Jehovah's Witness patient.

Iron supplementation improves appetite and growth in anemic Kenyan primary school children.

Failure of recombinant human interleukin-3 therapy to induce erythropoiesis in patients with refractory Diamond-Blackfan anemia.

Post mortem diagnosis of Mycobacterium bovis infection in cattle.

Anaemia, iron deficiency and malaria in a rural community in Brazilian Amazon.

Leukemia mortality and farming in the prairie provinces of Canada.

Antenatal glucocorticoid corrects pulmonary immaturity in experimentally induced congenital diaphragmatic hernia in rats.

Identification of antibody epitopes in the CB-11 peptide of bovine type II collagen recognized by sera from arthritis-susceptible and -resistant rhesus monkeys.

Benzo[a]pyrene-resistant MCF-7 human breast cancer cells. A unique aryl hydrocarbon-nonresponsive clone.

Cell proliferation status, cytokine action and protein tyrosine phosphorylation modulate leukotriene biosynthesis in a basophil leukaemia and a mastocytoma cell line.

Severe iron deficiency anaemia in Fiji children.

[Methanol poisoning in alcohol abusers].

An epidemic ignored. Endometriosis linked to dioxin and immunologic dysfunction.

Functional consequences of iron supplementation in iron-deficient female cotton mill workers in Beijing, China.

A cellular factor stimulates ligand-dependent release of hsp90 from the basic helix-loop-helix dioxin receptor.

Induction of heat-shock protein synthesis and thermotolerance in EL-4 ascites tumor cells by transient ATP depletion after ischemic stress.

Receptor-mediated binding of IgE-sensitized rat basophilic leukemia cells to antigen-coated substrates under hydrodynamic flow.

Identification of heat shock proteins binding to an immunodominant uveitopathogenic peptide of IRBP.

Iron deficiency and infant development.

Evaluation of porphyria cutanea tarda in U.S. workers exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Evidence that c-src is involved in the process of osteoclastic bone resorption.

Potent activation of phospholipase D by phenylarsine oxide in rat basophilic leukemia (RBL-2H3) cells.

Characterization of the T cell determinants in the induction of autoimmune arthritis by bovine alpha 1(II)-CB11 in H-2q mice.

Effects of herbimycin A and ST638 on Fc epsilon receptor-mediated histamine release and Ca²⁺ signals in rat basophilic leukemia (RBL-2H3) cells.

Effects of herbimycin A and its derivatives on growth and differentiation of Ph1-positive acute lymphoid leukemia cell lines.

[Effect of iron deficiency on attention capacity among school children].

Effect of herbimycin A, an inhibitor of tyrosine kinase, on protein tyrosine kinase activity and phosphotyrosyl proteins of Ph1-positive leukemia cells.

Regulation of human dioxin receptor function by indolocarbazoles, receptor ligands of dietary origin.

On the formation of neuromata in the primary olfactory projection.

[Determination of serum ferritin: ideas for avoiding induced ferropenia in blood donors].

Effects of oral iron therapy on serum copper and serum ceruloplasmin in children.

TCDD-induced hypophagia is not explained by nausea.

Developmental toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in the most TCDD-resistant and -susceptible rat strains.

Induction of a heat shock response (HSP 72) in rat embryos exposed to selected chemical teratogens.

High passage T47D human breast cancer cells: altered endocrine and 2,3,7,8-tetrachlorodibenzo-p-dioxin responsiveness.

Difference in energy metabolism between fresh and warm ischemic canine pancreases during preservation by the two-layer method.

Human intestinal alkaline phosphatase-binding IgG in patients with severe bacterial infections.

Dose-response relationship in multistage carcinogenesis: promoters.

Multiple mechanisms are responsible for altered expression of gap junction genes during oncogenesis in rat liver.

[High altitude anemia: validity of definition criteria].

Neuropsychological sequelae of methyl bromide: a case study.

Surveillance of hazardous substance releases and related health effects.

Age- and feeding-dependent production of carbonyl compounds in hypoxic heart. The role of carbonyls produced in connective tissue modification.

Porphyrin studies in TCDD-exposed workers.

Liver iron quantification: studies in aqueous iron solutions, iron overloaded rats, and patients with hereditary hemochromatosis.

Histochemical demonstration of free radicals (H₂O₂) in ischemic brain edema and protective effects of human recombinant superoxide dismutase on ischemic neuronal damage.

Evidence for the role of the Ah receptor in response to dioxin.

Combining estimates of the odds ratio: the state of the art.

Thyroid hormones and regulation of cell reliability systems.

The rice culture filtrate of *Bacillus cereus* isolated from emetic-type food poisoning causes mitochondrial swelling in a HEp-2 cell.

[A comparative study of the effectiveness of iron preparations in the treatment of iron deficiency anemias in pregnant women].

[Effect of organic solvents on functional nervous system disorders].

Tumor necrosis factor involvement in the toxicity of TCDD: the role of endotoxin in the response.

[Prevention of infectious endocarditis].

Relationship between acute toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) and disturbance of intermediary metabolism in the Long-Evans rat.

Hodgkin's and non-Hodgkin's lymphomas.

Mechanisms of chemical injury of thyroid gland.

A targeting model of boron neutron-capture therapy to hepatoma cells in vivo with a boronated anti-(alpha-fetoprotein) monoclonal antibody.

Are oxygen radicals implicated in the calcium paradox of the rat heart?

NTP Toxicology and Carcinogenesis Studies of 4,4'-Thiobis(6-*t*-butyl-*m*-cresol) (CAS No. 96-69-5) in F344/N Rats and B6C3F1 Mice (Feed Studies).

Inhibition of protein tyrosine phosphorylation prevents T-cell-mediated cytotoxicity.

Altered impulse activity modifies synaptic physiology and mitochondria in crayfish phasic motor neurons.

Endothelin-1 stimulates cytosolic phospholipase A2 activity and gene expression in rat glomerular mesangial cells.

Influence of 2,3,7,8-tetrachlorodibenzo-*p*-dioxin (TCDD) on TNF- α levels in the skin of congenic haired and hairless mice.

Posttraumatic stress disorder and the risk of traumatic deaths among Vietnam veterans.

Induction in vitro of 72-kD heat shock protein in a continuous culture of rat thyroid cells, FRTL5.

Laboratory results for selected target organs in 138 individuals occupationally exposed to TCDD.

Effect on tissue vitamin A levels in the rat following subchronic exposure to four individual PCB congeners (IUPAC 77, 118, 126, and 153).

Iron induces lipid peroxidation in cultured macrophages, increases their ability to oxidatively modify LDL, and affects their secretory properties.

Characterisation of oxidative injury to an intestinal cell line (HT-29) by hydrogen peroxide.

Heat shock-induced cell death in murine microvascular endothelial cells depends on priming with tumor necrosis factor- α or interferon- γ .

Identification of a biochemical lesion, and characteristic response to lipopolysaccharide (LPS) of a cultured macrophage-like cell mutant with defective LPS-binding.

Role of ATP and sodium in polyamine transport in bovine pulmonary artery smooth cells.

Cytotoxicity of chlorophenols to goldfish GFS cells with the MTT and LDH assays.

Accumulation of polychlorinated dibenzo-*p*-dioxins and dibenzofurans in liver of control laboratory rats.

Systemic or local administration of azide produces striatal lesions by an energy impairment-induced excitotoxic mechanism.

Iron-induced fluorescence in the retina: dependence on vitamin A.

Detection of oxidation products in individual neurons by fluorescence microscopy.

Evidence of two mechanisms of prostaglandin release in an in vitro model of muscle damage. Possible therapeutic implications.

[Colony formation of mouse primitive hemopoietic progenitors with interleukin-6 and phorbol ester, and their signal transduction].

Lack of response of the rat liver "class 3" cytosolic aldehyde dehydrogenase to toxic chemicals, glutathione depletion, and other forms of stress.

Biochemical mechanism of irreversible cell injury caused by free radical-initiated reactions.

Comparative study of the hepatoprotective effect of silymarin and silybin on isolated rat hepatocytes.

Role of neutrophils and nitric oxide in lung alveolar injury from smoke inhalation.

Pathological findings in rabbits and sheep following the subacute administration of triphenyltin acetate.

Suspected paediatric pesticide poisoning in the UK. II--Home Accident Surveillance System 1989-1991.

Suspected paediatric pesticide poisoning in the UK. I--Home Accident Surveillance System 1982-1988.

Nuclear-organelle interactions: the immutans variegation mutant of Arabidopsis is plastid autonomous and impaired in carotenoid biosynthesis.

Thiol reducing agents modulate induced apoptosis in porcine endothelial cells.

Ecotoxicological studies with the freshwater rotifer *Brachionus calyciflorus*. IV. Rotifer behavior as a sensitive and rapid sublethal test criterion.

Dithio-bis-mercaptoethanesulphonate (DIMESNA) does not prevent cellular damage by metabolites of ifosfamide and cyclophosphamide in LLC-PK1 cells.

A proteolytic activity enhanced by arsenite in Chinese hamster ovary cells: possible involvement in arsenite-induced cell killing.

Inhibitory Effects of Turf Pesticides on *Bacillus popilliae* and the Prevalence of Milky Disease.

A deficiency for nucleotide excision repair strongly potentiates the mutagenic effectiveness of methyl bromide in *Drosophila*.

Specific determination of cyanide in blood by headspace gas chromatography.

Effect of pretreatment of rats with uracil on liver injuries induced by D-galactosamine and allyl alcohol.

K(+)-linked release of oxidized glutathione induced by tert-butyl hydroperoxide in perfused rat liver is independent of lipid peroxidation and cell death.

VIP enhances and nitric oxide synthase inhibitor reduces survival of rat lungs perfused ex vivo.

Congener-specific data of polychlorinated biphenyl residues in human adipose tissue in Poland.

Oxidative stress-induced apoptosis prevented by Trolox.

Cross-linking of dermal collagen induced by singlet oxygen.

Acetaldehyde exposure causes growth inhibition in a Chinese hamster ovary cell line that expresses alcohol dehydrogenase.

Cyclosporine enhances the synthesis of selected extracellular matrix proteins by renal cells "in culture". Different cell responses and phenotype characterization.

Inhibition of energy metabolism alters the processing of amyloid precursor protein and induces a potentially amyloidogenic derivative.

Ah receptor in embryonic mouse palate and effects of TCDD on receptor expression.

The anti-tumour activity of ifosfamide on heterotransplanted testicular cancer cell lines remains unaltered by the uroprotector mesna.

Mechanisms of impaired hepatic fatty acid metabolism in rats with long-term bile duct ligation.

Stimulation of collagen alpha 1(I) gene expression is associated with lipid peroxidation in hepatocellular injury: a link to tissue fibrosis?

Hepatic uptake and metabolism of 2,3,7,8-tetrachlorodibenzo-p-dioxin and 2,3,7,8-tetrachlorodibenzofuran.

The effect of Chinese hepatoprotective medicines on experimental liver injury in mice.

The interaction of immunosuppressive compounds in tandem stimulated peripheral human lymphocytes.

Role of P-selectin and leukocyte activation in polymorphonuclear cell adhesion to surface adherent activated platelets under physiologic shear conditions (an injury vessel wall model).

The substituted benzimidazolone NS004 is an opener of the cystic fibrosis chloride channel.

Acetylsalicylate (ASA)-induced mitochondrial dysfunction and its potentiation by Ca²⁺.

Comparative cytotoxicity between butylated hydroxytoluene and its methylcarbamate derivative, terbucarb, on isolated rat hepatocytes.

[Synthesis, function, and evolutionary origin of secondary metabolites produced by micro-organisms].

Modified par j I allergen from P judaica pollen and its rate of absorption in rats.

Isolation and characterization of a novel acetyl-CoA carboxylase kinase from rat liver.

Investigation of dirithromycin and erythromycylamine uptake by human neutrophils in vitro.

Protection by ascorbic acid against oxidative injury of isolated hepatocytes.

Purification and characterization of bothrombin, a fibrinogen-clotting serine protease from the venom of Bothrops jararaca.

Geographical distribution of organochlorine contaminants and reproductive parameters in Herring Gulls on Lake Superior in 1983.

Acute cytotoxicity of ten chemicals in human and rat cultured hepatocytes and in cell lines: Correlation between in vitro data and human lethal concentrations.

Controversial role of intracellular iron in the mechanisms of chemically-induced hepatotoxicity.

The effects of anti-TNF-alpha antibody and dexamethasone on TCDD-induced oxidative stress in mice.

Biotests using unicellular algae and ciliates for predicting long-term effects of toxicants.

Dithiothreitol reversal of allyl alcohol cytotoxicity in isolated rat hepatocytes.

Effect of Paraquat Administration on Antioxidative Enzyme Activities and Oxidative Damage in the Blood and Liver of Senescence-accelerated Mice.

Dietary and environmental estrogens and antiestrogens and their possible role in human disease.

NTP Toxicology and Carcinogenesis Studies of o-Benzyl-p-Chlorophenol (CAS No. 120-32-1) in F344/N Rats and B6C3F1 Mice (Gavage Studies).

Intracellular calcium and pH as sensitive parameters of toxicity in neural cell culture.

Mechanism of riboflavine uptake by Caco-2 human intestinal epithelial cells.

Cyclophosphamide-induced lung toxicity: mechanism of endothelial cell injury.

Dose-response relationships in mice following subchronic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin: CYP1A1, CYP1A2, estrogen receptor, and protein tyrosine phosphorylation.

Lipid peroxidation and oxidative stress during acute allylamine-induced cardiovascular toxicity.

Obesity decreases hepatic glutathione concentrations and markedly potentiates allyl alcohol-induced periportal necrosis in the overfed rat.

Dose-dependent disposition of sodium arsenate in mice following acute oral exposure.

Aryl hydrocarbon or dioxin receptor: biologic and toxic responses.

Pharmacological classification and renal actions of diuretics.

Toxicology of selected nitric oxide-donating xenobiotics, with particular reference to azide.

[The assessment of combined exposure to radiation and chemical factors based on the study of the morbidity of personnel in radiation-chemical manufacture].

Allyl alcohol cytotoxicity in isolated rat hepatocytes: mechanism of cell death does not involve an early rise in cytosolic free calcium.

Effect of low-intensity argon laser irradiation on mitochondrial respiration.

Lack of alachlor induced DNA damage as assayed in rodent liver by the alkaline elution test.

Permeability changes in the blood-brain barrier of neonate and adult rats after thiobencarb exposure.

AB5046A and B, novel chlorosis-inducing substances from *Nodulisporium* sp.

Mortality in forestry and construction workers in Finland.

An update of mortality among chemical workers potentially exposed to the herbicide 2,4-dichlorophenoxyacetic acid and its derivatives.

Arsenic poisoning in central Kentucky: a case report.

[The place of pentachlorophenol in general medicinal practice].

Cancer incidence and mortality in women occupationally exposed to chlorophenoxy herbicides, chlorophenols, and dioxins.

A serine-to-threonine substitution in the triazine herbicide-binding protein in potato cells results in atrazine resistance without impairing productivity.

Human pentachlorophenol poisoning.

Non-Hodgkin's lymphoma in the older person: a review.

The interaction of 2,4-dichlorophenoxyacetic acid, ribosomes and polyamines in *Azospirillum brasilense*.

Bronchiectasis in a child after acrolein inhalation.

Hepatic alterations in experimental paraquat intoxication.

Neonatal exposure to paraquat or MPTP induces permanent changes in striatum dopamine and behavior in adult mice.

Viral infections and chemical exposures as risk factors for hepatocellular carcinoma in Vietnam.

Risk factors for Parkinson's disease.

Risk factors in young-onset Parkinson's disease.

Acrolein-induced injury to cultured pulmonary artery endothelial cells.

[Binding of toxic substances and suppression of their toxicities by albumin--studies on psychosine and pentachlorophenol].

Groundwater pesticides: interactive effects of low concentrations of carbamates aldicarb and methomyl and the triazine metribuzin on thyroxine and somatotropin levels in white rats.

Some occupational exposures as risk factors for malignant lymphomas.

Phototoxic contact dermatitis with toxic hepatitis due to the percutaneous absorption of paraquat.

The role of agricultural pesticide use in the development of non-Hodgkin's lymphoma in women.

Induction of hepatic drug metabolizing enzymes and interaction with carbon tetrachloride in rats after a single oral exposure to atrazine.

The pneumotoxicant paraquat induces IL-8 mRNA in human mononuclear cells and pulmonary epithelial cells.

The toxicologic interactions resulting from inhalation of carbon black and acrolein on pulmonary antibacterial and antiviral defenses.

Paraquat causes chronic ocular surface toxicity.

Effects of 2,4-dichlorophenoxyacetic acid (2,4-D) on open-field behaviour and neurochemical parameters of rats.

Effect of in vitro exposure to acrolein on carbachol responses in rat trachealis muscle.

A health survey of workers in the pentachlorophenol section of a chemical manufacturing plant.

Implications for the presence of transforming genes in gonadal tumors in two bivalve mollusk species.

Genotoxic and teratogenic effect of pentachlorophenol, pollutant present in continental water bodies in the south of Chile.

[Fatal poisoning with paraquat: report of a new case].

Herbicides to curb human parasitic infections: in vitro and in vivo effects of trifluralin on the trypanosomatid protozoans.

Paraquat.

Effects of carbon tetrachloride, menadione, and paraquat on the urinary excretion of malondialdehyde, formaldehyde, acetaldehyde, and acetone in rats.

Expression of human Mn SOD in Chinese hamster ovary cells confers protection from oxidant injury.

Parkinson's disease: a test of the multifactorial etiologic hypothesis.

[Some parameters of Guerin cancer growth after exposure to Pielik (sodium salt of 2,4-dichlorophenoxyacetate)].

Effects of paraquat on Mg(2+)-ATPase activity in rat liver.

Thiol status and cytopathological effects of acrolein in normal and xeroderma pigmentosum skin fibroblasts.

N-acetylcysteine delays the infiltration of inflammatory cells into the lungs of paraquat-intoxicated rats.

Cancer in phenoxy herbicide manufacturing workers in Denmark, 1947-87--an update.

Mutagenic and carcinogenic pesticides used in the agricultural environment of Gaza Strip.

A review of potential human carcinogenicity of the chlorophenoxy herbicides MCPA, MCPP, and 2,4-DP.

Effects on thyroid hormone metabolism and depletion of lung vitamin A in rats by airborne particulate matter.

Haemotoxic effect of phenylurea herbicides in rats: role of haemoglobin-adduct formation in splenic toxicity.

Role of the herbicide atrazine in the development of non-Hodgkin's lymphoma.

[Experimental research on the toxicity of the product orthochlorobenzene sulfur chloride].

Acute and subacute toxicity of atrazine to carp (*Cyprinus carpio* L.).

[Intoxications by a weedkiller preparation containing glyphosate].

Cell proliferation in the respiratory tract of the rat after acute inhalation of formaldehyde or acrolein.

Neurotoxicity of 2,4-dichlorophenoxyacetic butyl ester in chick embryos.

Toxicological and immune findings in workers exposed to pentachlorophenol (PCP).

An epidemiological study of the health of Sri Lankan tea plantation workers associated with long term exposure to paraquat.

Nitrofen-induced congenital diaphragmatic defects in CD1 mice.

Occupational exposure to phenoxy herbicides and chlorophenols and cancer mortality in The Netherlands.

Evaluation of acute immunotoxicity of alachlor in male F344/N rats.

Atrazine in plasma and tissue following atrazine-aminotriazole-ethylene glycol-formaldehyde poisoning.

Kinetics of toxic doses of paraquat and the effects of hemoperfusion in the dog.

[Acute oral toxicity of bentazon, an herbicide developed in Czechoslovakia, in pheasants and rabbits and the clinical symptoms of poisoning].

Endoscopic evaluation of paraquat-induced upper gastrointestinal injury.

Community exposure to a paraquat drift.

Role of free radicals in toxic hepatic injury. II. Are free radicals the cause of toxin-induced liver injury?

Allergic contact dermatitis from the herbicide Alachlor.

[Accidental paraquat poisoning].

Renal lesions induced in F344/DuCrj rats by 4-weeks oral administration of dimethylarsinic acid.

High-dose chemotherapy-induced platelet defect: inhibition of platelet signal transduction pathways.

Patterns of pesticide use among farmers: implications for epidemiologic research.

Organophosphate poisoning.

Ascorbate radical levels in human sera and rat plasma intoxicated with paraquat and diquat.

Ocular injury caused by Preeglox-L, a herbicide containing paraquat, diquat and surfactants.

Reproductive risks from contaminants in drinking water.

Environmental fate and effects of dicamba: a Canadian perspective.

Immunohistochemical localization and dynamics of paraquat in the stomach and esophagus of rats.

Morphological pattern of the hypothalamo-neurohypophyseal system in acute intoxication with 2,4-dichlorophenoxyacetic acid [2,4-D].

[Cytokines and pulmonary fibroses].

The protective effect of heat stress against reperfusion arrhythmias in the rat.

Alterations of peroxisomal function in ischemia-reperfusion injury of rat kidney.

Paraquat-induced lung injury: prevention by vasoactive intestinal peptide and related peptide helodermin.

Role of catalase and heat shock protein on recovery of cardiac endothelial and mechanical function after ischemia.

The analysis of ifosfamide and its metabolites (review).

Fire fighting: how safe are firefighters.

Hyperbaric oxygen treatment for experimental cyclophosphamide-induced hemorrhagic cystitis.

Body packing with a twist.

Effect of excess alpha-hemoglobin chains on cellular and membrane oxidation in model beta-thalassemic erythrocytes.

Ethanol-induced inhibition of ventricular protein synthesis in vivo and the possible role of acetaldehyde.

Lung growth and maturation in the rat model of experimentally induced congenital diaphragmatic hernia.

Acridine orange-mediated photodamage to cultured cells.

Effect of indomethacin, aspirin, nordihydroguaiaretic acid, and piperonyl butoxide on cyclophosphamide-induced bladder damage.

Hydrogen peroxide production by monoamine oxidase during ischemia-reperfusion in the rat brain.

[The effect of bentazone, an herbicide produced in Czechoslovakia, on the invasiveness of intestinal nematodes in sheep].

c-N-ras is activated infrequently in canine malignant lymphoma.

Intracellular catalase inhibition does not predispose rat heart to ischemia-reperfusion and hydrogen peroxide-induced injuries.

Protective role for neuropeptides in acute pulmonary response to acrolein in guinea pigs.

Detection of paraquat-induced in vivo lipid peroxidation by gas chromatography/mass spectrometry and high-pressure liquid chromatography.

Effect of ifosfamide metabolites on sodium-dependent phosphate transport in a model of proximal tubular cells (LLC-PK1) in culture.

Toxicokinetics and metabolism of linuron in rabbit: in vivo and in vitro studies.

[N-demethylation and denitrosation activity of the rat liver, thymus lymphocytes and spleen after exposure to simazine and sodium nitrite].

Mutation of histidine residues in CP47 leads to destabilization of the photosystem II complex and to impairment of light energy transfer.

Failure of the 5-HT₂ receptor antagonist, ritanserin, to alter preference for alcohol in drinking rats.

PGI₂ production and angiotensin converting enzyme activity in cultured porcine pulmonary artery endothelial cells treated with paraquat.

Eosinophils increase lung microvascular permeability via the peroxidase-hydrogen peroxide-halide system. Bronchoconstriction and vasoconstriction unaffected by eosinophil peroxidase inhibition.

Modulation of the fumarases of *Escherichia coli* in response to oxidative stress.

Lung glutathione reductase induction in aging catalase-depleted frogs correlates with early survival throughout the life span.

Electron spin resonance spin-trapping investigation into the effects of paraquat and desferrioxamine on hydroxyl radical generation during acute iron poisoning.

[Studies on quantitative analysis of paraquat in whole blood--the evaluation of pre-treatments and analytical methods].

Metabolism of 2-chloro-4-methylphenoxyacetate by *Alcaligenes eutrophus* JMP 134.

Evidence for peroxidase-mediated metabolism of cyclophosphamide.

Characterization of amyloid fibril beta-peptide in familial Alzheimer's disease with APP717 mutations.

Imaging of activated natural killer cells in mice by positron emission tomography: preferential uptake in tumors.

Tyrphostin-induced inhibition of p210^{bcr-abl} tyrosine kinase activity induces K562 to differentiate.

Comparison of the pharmacokinetics of 1,2-dimethyl-3-hydroxypyrid-4-one (L1) in healthy volunteers, with and without co-administration of ferrous sulfate, to thalassemia patients.

Protection of the rat jejunal mucosa against oxidative injury by cationized superoxide dismutase.

Kinetics and cellular localisation of putrescine uptake in human lung tissue.

The long term durability of bond strengths to dentin.

New insight into oncoprotein-targeted antitumor effect: herbimycin A as an antagonist of protein tyrosine kinase against Ph1-positive leukemia cells.

Cancer in a young population in a dioxin-contaminated area.

Dose response for TCDD promotion of hepatocarcinogenesis in rats initiated with DEN: histologic, biochemical, and cell proliferation endpoints.

Effect of dietary iron on the course of *Plasmodium berghei* malaria in young rats.

In vitro study of pesticide hematotoxicity in human and rat progenitors.

Hospitalizations due to acute pesticide poisoning in Hong Kong.

Endometriosis in rhesus monkeys (*Macaca mulatta*) following chronic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Tumor cell heme uptake induces ferritin synthesis resulting in altered oxidant sensitivity: possible role in chemotherapy efficacy.

Expression of cathepsin B and aryl hydrocarbon hydroxylase activities, and of apolipoprotein B in human hepatoma cells maintained long-term in a serum-free medium.

Effect of oral iron therapy on physical growth.

Subchronic toxicity of 2,3,7,8-tetrabromodibenzo-p-dioxin in rats.

Genistein exhibits preferential cytotoxicity to a leukemogenic variant but induces differentiation of a non-leukemogenic variant of the mouse monocytic leukemia Mm cell line.

Superoxide dismutase activity of *Mycobacterium avium* complex (MAC) strains isolated from AIDS patients.

Experimental Parkinson's disease in monkeys. Effect of ergot alkaloid derivative on lipid peroxidation in different brain areas.

Medical hypothesis: xenoestrogens as preventable causes of breast cancer.

[Iron deficiency anemia is not always simple].

Role of p21 RAS in p210 bcr-abl transformation of murine myeloid cells.

TCDD-mediated changes in hepatic epidermal growth factor receptor may be a critical event in the hepatocarcinogenic action of TCDD.

Potential confounding of associations involving occupational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Cancer incidence in a population accidentally exposed to 2,3,7,8-tetrachlorodibenzo-para-dioxin.

[Anticancer agents targeting oncogene products].

Phototoxicity of lumidoxycycline.

Changes in iron status during competitive season in female collegiate swimmers.

Collagen studies in newborn rat kidneys with incomplete ureteric obstruction.

The characteristics, capacity and receptor regulation of inositol uptake in 1321N1 astrocytoma cells.

Dermatitis on construction sites.

The substitution of glycine 661 by arginine in type III collagen produces mutant molecules with different thermal stabilities and causes Ehlers-Danlos syndrome type IV.

Isomer-specific analysis and toxic evaluation of polychlorinated biphenyls in striped dolphins affected by an epizootic in the western Mediterranean sea.

Collagen characterization in volume-overload- and pressure-overload-induced cardiac hypertrophy in minipigs.

A two-generation reproduction study in rats with methyl bromide-fumigated diets.

Pesticide poisonings in Costa Rica.

Angiosarcoma, porphyria cutanea tarda, and probable chloracne in a worker exposed to waste oil contaminated with 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Thyroxine binding in a TTR Met 119 kindred.

Iron for chronic and persistent akathisia?

Characterization of an arginine 789 to cysteine substitution in alpha 1 (II) collagen chains of a patient with spondyloepiphyseal dysplasia.

Exposure to 2,3,7,8-tetrachlorodibenzo-para-dioxin leads to defective dentin formation and pulpal perforation in rat incisor tooth.

AIDS and agricultural production. Report of a land utilization survey, Masaka and Rakai districts of Uganda.

Inactivation of alpha 1-antitrypsin by aqueous coal solutions: possible relation to the emphysema of coal workers.

Sodium azide protects against ischemia-induced acute renal failure in rats.

Correlation of in vitro and in vivo growth suppression of MCF-7 human breast cancer by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Comparative acute lethality of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD), 1,2,3,7,8-pentachlorodibenzo-p-dioxin and 1,2,3,4,7,8-hexachlorodibenzo-p-dioxin in the most TCDD-susceptible and the most TCDD-resistant rat strain.

Liver damage due to free radicals.

BCR/ABL oncoprotein-targeted antitumor activity of antisense oligodeoxynucleotides complementary to bcr/abl mRNA and herbimycin A, an antagonist of protein tyrosine kinase: inhibitory effects on in vitro growth of Ph1-positive leukemia cells and BCR/ABL oncoprotein-associated transformed cells.

T cell epitopes of type II collagen that regulate murine collagen-induced arthritis.

Effects of small doses of dioxins on the immune system of marmosets and rats.

Human health effects of agrichemical use.

Peripheral neuropathy after occupational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Increased formation of 8-hydroxydeoxyguanosine, an oxidative DNA damage, in lymphoblasts from Fanconi's anemia patients due to possible catalase deficiency.

Multiple myeloma mortality and agricultural practices in the Prairie provinces of Canada.

Environmental antecedents of young-onset Parkinson's disease.

An acute model for IgA-mediated glomerular inflammation in rats induced by monoclonal polymeric rat IgA antibodies.

Renal and hepatic toxicity of monochloroacetanilides in the Fischer 344 rat.

Identification and purification of a novel serine proteinase inhibitor.

Growth factors prevent mitochondrial dysfunction, loss of calcium homeostasis, and cell injury, but not ATP depletion in hippocampal neurons deprived of glucose.

Mouse Hepa 1c1c7 hepatoma cells produce complement component C3; 2,3,7,8-tetrachlorodibenzo-p-dioxin fails to modulate this capacity.

Effectiveness of iron-fortified infant cereal in prevention of iron deficiency anemia.

Opioid peptides in the rabbit carotid body: identification and evidence for co-utilization and interactions with dopamine.

Relationship between aryl hydrocarbon receptor binding, induction of aryl hydrocarbon hydroxylase and 7-ethoxyresorufin O-deethylase enzymes, and toxic activities of aromatic xenobiotics in animals. A new model.

Severe anemia in the Jehovah's Witness: case report and discussion.

Hyperoxic lung injury in Fischer-344 and Sprague-Dawley rats in vivo.

Nitrofen-induced diaphragmatic hernias in rats: an animal model.

Toxicological evaluation of mixtures of ten widely used pesticides.

Chronic iron intake and diarrhoeal disease in infants. A field study in a less-developed country.

Aortic collagen alterations in human diabetes mellitus. Changes in basement membrane collagen content and in the susceptibility of total collagen to cyanogen bromide solubilisation.

Combined oestrogen-progestin treatment of vaginal haemorrhage following gonadotrophin-releasing hormone agonist therapy of uterine myomas.

Increased serum catalase activity in rats subjected to thermal skin injury.

The primary structure of rabbit serum amyloid A protein isolated from acute phase serum.

Environmental toxicology of polychlorinated dibenzo-p-dioxins and polychlorinated dibenzofurans.

Ligand-dependent recruitment of the Arnt coregulator determines DNA recognition by the dioxin receptor.

DNA topoisomerases and the DNA lesion in human genetic instability syndromes.

Desensitization of beta-1 and beta-2, but not beta-3, adrenoceptor-mediated lipolytic responses of adipocytes after long-term norepinephrine infusion.

Enhanced phosphorylation of a 65 kDa protein is associated with rapid induction of stress proteins in 9L rat brain tumor cells.

[Neurotoxicity of methyl bromide--neuropathologic evaluation--preliminary study].

Iron protein succinylate in the treatment of iron deficiency: controlled, double-blind, multicenter clinical trial on over 1,000 patients.

Misclassified sarcomas and confounded dioxin exposure.

A role for heparan sulfate in androgen-induced deoxyribonucleic acid synthesis of mouse mammary carcinoma (Shionogi carcinoma 115)-derived SC-3 cells.

Calcium ions are required for cell fusion mediated by the CD4-human immunodeficiency virus type 1 envelope glycoprotein interaction.

Electrophysiologic evidence for a toxic polyneuropathy in rats after exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Important aspects of the evidence for TCDD carcinogenicity in man.

Prevention of experimental autoimmune arthritis with a peptide fragment of type II collagen.

Stoichiometric analysis of internalization, recycling, and redistribution of photoaffinity-labeled guanylate cyclase/atrial natriuretic factor receptors in cultured murine Leydig tumor cells.

Structural alterations in the peptide backbone of beta-amyloid core protein may account for its deposition and stability in Alzheimer's disease.

Red blood cell regeneration induced by subcutaneous recombinant erythropoietin: iron-deficient erythropoiesis in iron-replete subjects.

Effect of intracanal dressings on repair and apical bridging of teeth with incomplete root formation.

The effect of ischaemia on xanthine oxidase activity in rat intestine and liver.

Farming and prostate cancer mortality.

Systemic effects of inhalational methyl bromide poisoning: a study of nine cases occupationally exposed due to inadvertent spread during fumigation.

Health risks of "dioxins": a review of environmental and toxicological considerations.

Role of tyrosine phosphorylation in radiation-induced activation of c-jun protooncogene in human lymphohematopoietic precursor cells.

Modeling receptor-mediated processes with dioxin: implications for pharmacokinetics and risk assessment.

Cell-surface heparan sulfate proteoglycan mediates HIV-1 infection of T-cell lines.

Osteogenesis imperfecta and type-I collagen mutations. A lethal variant caused by a Gly910-->Ala substitution in the alpha 1 (I) chain.

Metabolism of iron from (3,5,5-trimethylhexanoyl)ferrocene in rats. A dietary model for severe iron overload.

Augmentation by erythropoietin of the fetal-hemoglobin response to hydroxyurea in sickle cell disease.

Reversal of developmental delays in iron-deficient anaemic infants treated with iron.

Chronic arsenicism: criminal poisoning or drug-intoxication? Report of two cases.

Modification of clastogenicity of three known clastogens by garlic extract in mice in vivo.

Coplanar polychlorinated biphenyl congener levels and patterns and the identification of separate populations of harbor seals (*Phoca vitulina*) in Denmark.

[2 cases report of open heart surgery with non-blood transfusion in severe valvular heart disease with cardiac cachexia--the efficacy of recombinant human erythropoietin].

Microinjection of a monoclonal antibody against SPN antigen, now identified by peptide sequences as the NuMA protein, induces micronuclei in PtK2 cells.

Unchanged protein binding of penbutolol in renal insufficiency: a possible role of carbamylation.

[Iron deficiency anemia: a current problem].

The mortality experience of workers exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin in a trichlorophenol process accident.

Identification of soft tissue sarcoma deaths in cohorts exposed to dioxin and to chlorinated naphthalenes.

F reticulocyte response in sickle cell anemia treated with recombinant human erythropoietin: a double-blind study.

Ten and ninety-day toxicity studies of 2-chlorophenol in Sprague-Dawley rats.

Assessment of past occupational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin using blood lipid analyses.

Malignant lymphomas and leukemias, and exposures in the wood industry: an industry-based case-referent study.

Toxicokinetic mixture interactions between chlorinated aromatic hydrocarbons in the liver of the C57BL/6J mouse: 2. Polychlorinated dibenzo-p-dioxins (PCDDs), dibenzofurans (PCDFs) and biphenyls (PCBs).

Synthesis of deacetyl-thymosin beta 12 and examination of its immunological effects on the impaired T and B lymphocytes in uremic patients.

Synthesis of prothymosin alpha deduced from nucleotide sequence of the murine cDNA and its effect on the impaired T lymphocytes of uremic patients.

Cytogenetic studies in lymphocytes of workers exposed to 2,3,7,8-TCDD.

Developmental and reproductive toxicity of dioxins and related compounds: cross-species comparisons.

Comparative bioavailability of ferric polymaltose and ferrous sulphate in iron-deficient blood donors.

Prenatal risks deriving from environmental chemicals.

[Intracerebral-ventricular injection of 4-aminopyridine induced convulsion in rabbits].

Supernormal histamine release and normal cytotoxic activity of beige (ChÅ©diak-Higashi syndrome) rat mast cells with giant granules.

Acute 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure results in enhanced tyrosylphosphorylation and expression of murine hepatic cyclin dependent kinases.

Protein tyrosine kinase activation is required for lipopolysaccharide induction of cytokines in human blood monocytes.

2,3,7,8-tetrachlorodibenzo-p-dioxin increases cardiac myocyte intracellular calcium and progressively impairs ventricular contractile responses to isoproterenol and to calcium in chick embryo hearts.

T-cell activation influences initial DNA synthesis of simian immunodeficiency virus in resting T lymphocytes from macaques.

Quantitative assay of S-100 protein in mouse brain cortex synaptosomes.

Roles of catalase and cytochrome c in hydroperoxide-dependent lipid peroxidation and chemiluminescence in rat heart and kidney mitochondria.

Cadmium induces interleukin-8 production in human peripheral blood mononuclear cells with the concomitant generation of superoxide radicals.

Glucuronidation of thyroid hormone in rat liver: effects of in vivo treatment with microsomal enzyme inducers and in vitro assay conditions.

Relationship of oxypurine release to contractile failure in dinitrophenol-treated rat skeletal muscle.

Assessment of ram sperm mitochondrial function by quantitative determination of sperm rhodamine 123 accumulation.

Specificity of ATP for the initiation of flagellar motility of hamster sperm.

Sublethal effects of three pesticides on Japanese medaka.

Discrimination between periportal and pericentral necrosis of rat liver by determination of glutamine synthetase and other enzyme activities in serum.

Response of mouse liver coumarin 7-hydroxylase activity to hepatotoxins: dependence on strain and agent and comparison to other monooxygenases.

Multiple end point procedure to evaluate risk from pesticides.

Measurement of chromosomal aberrations, sister chromatid exchange, hprt mutations, and DNA adducts in peripheral lymphocytes of human populations at increased risk for cancer.

A ferro-heme protein senses oxygen levels, which modulate the glucagon-dependent activation of the phosphoenolpyruvate carboxykinase gene in rat hepatocyte cultures.

Bacillus subtilis mutant deficient in the major autolytic amidase and glucosaminidase is impaired in motility.

Comparative cytotoxic responses of cultured avian and rodent aortic smooth muscle cells to allylamine.

Influence of medium components and metabolic inhibitors on citric acid production by Penicillium simplicissimum.

The toxicity of chlorophenols in V79 Chinese hamster cells.

Histopathologic approaches to chemical toxicity using primary cultures of dissociated neural cells grown in chamber slides.

Costimulation with integrin ligands intercellular adhesion molecule-1 or vascular cell adhesion molecule-1 augments activation-induced death of antigen-specific CD4+ T lymphocytes.

2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD) induced ethoxyresorufin-O-deethylase (EROD) and aldehyde dehydrogenase (ALDH3) activities in the brain and liver. A comparison between the most TCDD-susceptible and the most TCDD-resistant rat strain.

Stimulation of lipid peroxidation or 4-hydroxynonenal treatment increases procollagen alpha 1 (I) gene expression in human liver fat-storing cells.

Differing effects of the inhibition of poly(ADP-ribose) polymerase on the course of oxidative cell injury in hepatocytes and fibroblasts.

NTP technical report on the toxicity studies of Pesticide/Fertilizer Mixtures Administered in Drinking Water to F344/N Rats and B6C3F1 Mice.

[Toxicity of polychlorinated biphenyls (PCB)--indoor air pollution by PCB-containing durable elastic sealants].

The relevance of fat content in toxicity of lipophilic chemicals to terrestrial animals with special reference to dieldrin and 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Allyl compounds selectively killed human immunodeficiency virus (type 1)-infected cells.

Modulatory effect of hyperthermia on hepatic microsomal cytochrome P450 in mice.

Potent intracellular oxidative stress exerted by the carcinogen 4-nitroquinoline-N-oxide.

Oxidative tyrosylation of high density lipoprotein by peroxidase enhances cholesterol removal from cultured fibroblasts and macrophage foam cells.

Measurement of the epithelial barrier integrity in tracheal cell cultures exposed to irritant compounds.

Analysis of polychlorinated dioxins and furans in samples of the toxic oil syndrome.

Activation with superantigens induces programmed death in antigen-primed CD4+ class II+ major histocompatibility complex T lymphocytes via a CD11a/CD18-dependent mechanism.

Tyrosyl radical generated by myeloperoxidase catalyzes the oxidative cross-linking of proteins.

Enhancement of neutrophil-mediated injury to bovine pulmonary endothelial cells by *Pasteurella haemolytica* leukotoxin.

2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD) alters pancreatic membrane tyrosine phosphorylation following acute treatment.

Modification of P450 activity and its effect on 1,2-dichlorobenzene toxicity in Fischer 344 rats.

Gene expression and cell proliferation in rat liver after 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure.

[Toxicology of tobacco].

[Study of acute toxicity of antifreeze Asol].

Iron-initiated tissue oxidation: lipid peroxidation, vitamin E destruction and protein thiol oxidation. Inhibition by a novel antioxidant, U-78517F.

NTP Toxicology and Carcinogenesis Studies of Pentachloroanisole (CAS No. 1825-21-4) in F344 Rats and B6C3F1 Mice (Feed Studies).

Characterization of vitamin A potentiation of carbon tetrachloride-induced liver injury.

Acute inflammatory response to sheep red blood cell challenge in mice treated with 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD): phenotypic and functional analysis of peritoneal exudate cells.

Modulation of 1,2-dichlorobenzene hepatotoxicity in the Fischer-344 rat by a scavenger of superoxide anions and an inhibitor of Kupffer cells.

Mitochondria as a source of reactive oxygen species during reductive stress in rat hepatocytes.

Stimulatory effect of the CYP1A1 inducer 2,3,7,8-tetrachlorodibenzo-p-dioxin on the reproduction of HIV-1 in human lymphoid cell culture.

Reduction of hepatic phosphoenolpyruvate carboxykinase (PEPCK) activity by 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) is due to decreased mRNA levels.

Recovery of plants from "Near-Lethal" stress.

The amino terminal sequence of VP60 from rabbit hemorrhagic disease virus supports its putative subgenomic origin.

Occupational physicians and environmental medicine.

Dioxin toxicity. Agency for Toxic Substances and Disease Registry.

Enhanced glutathione S-transferase 7-7 expression in rat hepatic cytosol following treatment with pyrrole.

Differential effects of extracellular calcium on lipid peroxidation dependent (ethacrynic acid and allyl alcohol) and lipid peroxidation independent (disulfiram)-induced cytotoxicity in normal and vitamin E-deficient rat hepatocytes.

Evaluation of collagen cross-linking techniques for the stabilization of tissue matrices.

Semicarbazide protection from in vivo oxidant injury of vascular tissue by allylamine.

Mutagenesis in Escherichia coli K-12 mutants defective in superoxide dismutase or catalase.

In vitro toxicity screening using cultured rat skeletal muscle cells. I. Surfactants and mitochondrial poisons.

Investigations into the effects of various hepatotoxic compounds on urinary and liver taurine levels in rats.

Gastrointestinal effects of single and repeated doses of ferrous sulphate in rats.

Neuropsychological effects of chronic exposure to environmental dioxins and furans.

Effects of acute sodium arsenite administration on the pulmonary chemical metabolizing enzymes, cytochrome P-450 monooxygenase, NAD(P)H:quinone acceptor oxidoreductase and glutathione S-transferase in guinea pig: comparison with effects in liver and kidney.

Neutrophil-mediated damage to human vascular endothelium. Role of cytokine activation.

Effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on plasma and tissue beta-endorphin-like immunoreactivity in the most TCDD-susceptible and the most TCDD-resistant rat strain.

In vivo correlation of Doppler waveform analysis with arterial input impedance parameters.

In vivo response of the rat's retinal pigment epithelium to azide: changes induced by light damage.

Electrical responses of the rat's retinal pigment epithelium to azide and thiocyanate.

Resistance of murine lung tumors to xenobiotic-induced cytotoxicity.

Occupational risk factors for acute leukaemia: a case-control study.

Production of limbic motor seizures and brain damage by systemic and intracerebral injections of paraquat in rats.

Toxicology and hazard potential of trifluralin.

Nephrotoxicity of the 1:1 acrolein-glutathione adduct in the rat.

Effects of different dilution water types on the acute toxicity to juvenile Pacific salmon and rainbow trout of fluroxypyr formulated product XRM-5084.

Review of a study reporting an association between 2,4-dichlorophenoxyacetic acid and canine malignant lymphoma: report of an expert panel.

Process of building biologically based dose-response models for developmental defects.

The immune response of sheep to subclinical chronic exposure to the herbicide Bentazon TP.

Protective effect of liposome-associated alpha-tocopherol against paraquat-induced acute lung toxicity.

Neurotoxic effects induced by intracerebral and systemic injection of paraquat in rats.

Simazine toxicosis in sheep.

The Ca(2+)-transport-ATPase of human erythrocytes as an in vitro toxicity test system--acute effects of some chlorinated compounds.

One-year toxicity of orally administered acrolein to the beagle dog.

Nitrofen-induced diaphragmatic hernias in rats: pulmonary antioxidant enzyme activities.

Tissue-binding and toxicity of compounds structurally related to the herbicide dichlobenil in the mouse olfactory mucosa.

Chronic liver injury in phenoxy herbicide-exposed Vietnam veterans.

Association of asthma with use of pesticides. Results of a cross-sectional survey of farmers.

The kidney in the fetal rat model of congenital diaphragmatic hernia induced by nitrofen.

Acute toxicity of pesticides to *Gobius* sp., *Palaemonetes africanus*, and *Desmocariss trispimosa*.

Genotoxicity of four herbicides in the *Drosophila* wing spot test.

Prevalence of glioblastoma multiforme subjects with prior herbicide exposure.

[Acute acrolein poisoning from exposure to the thermal degradation products of a vegetable fat].

Inhibition of lipid peroxidation and cholesterol levels in mice by curcumin.

Effect of ambient oxygen concentration upon the acute toxicity of chlorophenols and heavy metals to the groundwater copepod *Parastenocaris germanica* (Crustacea).

Toxicity assessment of atrazine, alachlor, and carbofuran and their respective environmental metabolites using Microtox.

Pulmonary hemodynamics and lung function during chronic paraquat poisoning in sheep. Possible role of reactive oxygen species.

Anger and anxiety responses to m-chlorophenylpiperazine in generalized anxiety disorder.

Methyl isothiocyanate in wine.

A novel pharmacological approach for paraquat poisoning in rat and A549 cell line using ambroxol, a lung surfactant synthesis inducer.

Soft tissue sarcoma, aplastic anaemia, and exposure to pesticides.

Expression of the maize MnSod (*Sod3*) gene in MnSOD-deficient yeast rescues the mutant yeast under oxidative stress.

Developmental toxicity of 2,4,5-trichlorophenoxyacetic acid (2,4,5-T). I. Multireplicated dose-response studies in four inbred strains and one outbred stock of mice.

Reproductive study of acrolein on two generations of rats.

Antioxidant-dependent inhibition of diquat-induced toxicity in vivo.

Acute renal failure in a case of paraquat poisoning with relative absence of pulmonary toxicity.

Protective effects of antioxidants on paraquat-induced acute renal failure in mice.

[Hepatopathy from cyanamide. Presentation of a new case].

Investigations of the acute toxic, cytogenetic, and embryotoxic activity of buminafos.

[A cardiac lesion secondary to paraquat].

Dioxin intoxication from chronic exposure of horses to pentachlorophenol-contaminated wood shavings.

NTP technical report on the toxicity studies of Glyphosate (CAS No. 1071-83-6) Administered In Dosed Feed To F344/N Rats And B6C3F1 Mice.

Tracheal epithelium in culture: a model for toxicity testing of inhaled molecules.

Prevention of acrolein-induced bladder injury by pentosanpolysulfate.

Effects of concentration reduction and partial replacement of paraquat by diquat on human toxicity: a clinical survey.

Age-associated enhancement of diquat-induced lipid peroxidation and cytotoxicity in isolated rat hepatocytes.

'No longer nineteen'. A review of Vietnam veterans in everyday practice.

Cancer mortality among licensed herbicide applicators.

[The toxicity of herbicide Asulam].

Mitochondrial breakage induced by the herbicide paraquat in cultured human lung cells.

Effects of the herbicides hexazinone and triclopyr ester on aquatic insects.

Excretion of formaldehyde, malondialdehyde, acetaldehyde and acetone in the urine of rats in response to 2,3,7,8-tetrachlorodibenzo-p-dioxin, paraquat, endrin and carbon tetrachloride.

[Toxic and drug-induced lesions of the pulmonary parenchyma].

Effects of glutathione-modulating agents on the covalent binding and toxicity of dichlobenil in the mouse olfactory mucosa.

[Rapid evaluation of embryotoxic properties of substances in the culture of preimplantation zygote].

[Appearance of different panmyelopathies in the same patient].

The acrolein cytotoxicity and cytoprotective action of alpha-tocopherol in primary cultured rat hepatocytes.

Two-year toxicity and carcinogenicity study of acrolein in rats.

Alveolar damage due to inhalation of amitrole-containing herbicide.

Paraquat poisoning in children: survival of three cases.

Acute toxicological studies on paraquat: pathological findings in beagle dogs following single subcutaneous injections.

[The effect of Bentazone, a Czechoslovak developmental herbicide, on health status indicators in sheep during subchronic poisoning].

Correlations of developmental end points observed after 2,4,5-trichlorophenoxyacetic acid exposure in mice.

Acute effects of acrolein on breathing: role of vagal bronchopulmonary afferents.

Upper gastrointestinal injury caused by diquat.

Phenoxy herbicides and chlorophenols: a case control study on soft tissue sarcoma and malignant lymphoma.

Preferential increase of heterochromatin in venular endothelium of lung in mice after administration of dimethylarsinic acid, a major metabolite of inorganic arsenics.

Effect of lung irradiation on mice following paraquat intoxication.

High-dose cyclophosphamide and dexamethasone in paraquat poisoning: a prospective study.

Canine malignant lymphoma and 2,4-dichlorophenoxyacetic acid herbicides.

Role of lipid peroxidation and DNA damage in paraquat toxicity and the interaction of paraquat with ionizing radiation.

Subacute toxicity of paraquat in beagle dogs: clinicopathology and pathologic examinations.

Effects of 4-hydroperoxycyclophosphamide (4-OOH-CP) and 4-hydroperoxydechlorocyclophosphamide (4-OOH-deClCP) on the cell cycle of post implantation rat embryos.

[A successful treatment of patient with paraquat poisoning].

Smoke aldehyde component influences pulmonary edema.

Lung protection against paraquat is calcium dependent.

Self-reported health status of Vietnam veterans in relation to perceived exposure to herbicides and combat.

The effect of pesticides on carp (*Cyprinus carpio* L). Acetylcholinesterase and its biochemical characterization.

Morphological changes on nerves and histopathological effects on liver and kidney of rats by pentachlorophenol (PCP).

Mechanisms of aldehyde-induced bronchial reactivity: role of airway epithelium.

Acute and persistent parkinsonism after use of diquat.

Cytogenetic effects of alachlor and/or atrazine in vivo and in vitro.

A comparison of the acute toxicity, neuropathology, and electrophysiology of N,N-diethyl-m-toluamide and N,N-dimethyl-2,2-diphenylacetamide in rats.

Lung injury induced by paraquat, hyperoxia and cobalt chloride: effects of ambroxol.

Distribution of paraquat into the brain after its systemic injection in rats.

[Drug-induced acute renal failure].

Chronic toxicity of ethyl parathion and isobutoxyethanol ester of 2,4-dichlorophenoxyacetic acid to estuarine juvenile and adult crabs.

Occupation and soft-tissue sarcoma in northeastern Italy.

Fatal paraquat poisoning: a light microscopic study in eight autopsy cases.

Taurine protection of lungs in hamster models of oxidant injury: a morphologic time study of paraquat and bleomycin treatment.

Immunocytochemical observation of paraquat-induced alveolitis with special reference to class II MHC antigens.

Paraquat damage of rat liver mitochondria by superoxide production depends on extramitochondrial NADH.

Brain cancer and farming in western Canada.

Effect of iron chelators on paraquat toxicity in rats and alveolar type II cells.

[Rainbow trout and zebrafish, two models for continuous toxicity tests: relative sensitivity, species and organ specificity in cytopathologic reaction of liver and intestines to atrazine].

[Data on establishing the maximum permissible concentration of the herbicide levanyl in the air of a work area].

[Use of bacterial toximeters with separate cell cultures for continuous water monitoring].

Platelet prevention of oxidant lung oedema is not mediated through scavenging of hydrogen peroxide.

Pathophysiological consequences of enhanced intracellular superoxide formation in isolated perfused rat liver.

Oxygen yield and thermoluminescence characteristics of a cyanobacterium lacking the manganese-stabilizing protein of photosystem II.

Spermine dialdehyde, a novel ex vivo purging agent for both allogenic and autologous bone marrow transplantations.

Cyclophosphamide decreases O⁶-alkylguanine-DNA alkyltransferase activity in peripheral lymphocytes of patients undergoing bone marrow transplantation.

No evidence of intracellular oxidative stress during ischemia-reperfusion damage in rat liver in vivo.

Fumarase C, the stable fumarase of *Escherichia coli*, is controlled by the soxRS regulon.

The effects of goitrogenesis, involution, and goitrogenic rechallenge on the clonogenic cell content of the rat thyroid.

Renal cadmium deposition and injury as a result of accumulation of cadmium-metallothionein (CdMT) by the proximal convoluted tubules--A light microscopic autoradiography study with ¹⁰⁹CdMT.

Short-term hypothyroidism and vasopressin gene expression in the rat.

The plateau phase rat goiter contains a sub-population of TSH-responsive follicular cells capable of proliferation following transplantation.

Chemical contamination and the annual summer die-off of striped bass (*Morone saxatilis*) in the Sacramento-San Joaquin Delta.

Preservation of keratin expression in oral mucosa using a novel transport medium.

Endothelial dysfunction of resistance arteries of spontaneously hypertensive rats.

Inhibition of sodium-dependent transport systems in LLC-PK1 cells by metabolites of ifosfamide.

Selection and analysis of superoxide dismutase mutants of *Neurospora*.

Toxicity of 1-methyl-4-phenylpyridinium derivatives in *Escherichia coli*.

X-ray studies on phospholipid bilayers. XII. Interactions of pentachlorophenol with myelin.

The S-thiolation of hepatocellular protein thiols during diquat metabolism.

Responses of vascular endothelial oxidant metabolism to lipopolysaccharide and tumor necrosis factor- α .

The acute effects of ethanol and acetaldehyde on rates of protein synthesis in type I and type II fibre-rich skeletal muscles of the rat.

Paraquat-induced lung injury: prevention by N-tert-butyl-alpha-phenylnitronone, a free-radical spin-trapping agent.

1-Methyl-tetrahydro-beta-carboline-3-carboxylic acid is present in the rat brain and is not increased after acute ethanol injection with cyanamide treatment.

Mechanisms of cellular resistance to hydrogen peroxide, hyperoxia, and 4-hydroxy-2-nonenal toxicity: the significance of increased catalase activity in H₂O₂-resistant fibroblasts.

Effect of atrazine on hemopoietic system.

Decreased stress inducibility of the HSP68 protein in a rat hepatoma variant clone.

The pyrimido-pyrimidine derivative RA-642 protects from brain injury in a combined model of permanent focal ischemia and global ischemia reperfusion.

Case report: neuropathology of methyl bromide intoxication.

Methyl bromide intoxication and acute energy deprivation syndromes.

Effects of eating an uncooked vegetable diet for 1 week.

Localization of protein-acetaldehyde adducts on cell surface of hepatocytes by flow cytometry.

Mitochondrial ATP-synthase deficiency in a child with 3-methylglutaconic aciduria.

Reduced Leydig cell volume and function in adult rats exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin without a significant effect on spermatogenesis.

Alzheimer's disease and control brain contain soluble derivatives of the amyloid protein precursor that end within the beta amyloid protein region.

An amino acid substitution (Gly853-->Glu) in the collagen alpha 1(II) chain produces hypochondrogenesis.

Development of monoclonal antibodies that identify *Vibrio* species commonly isolated from infections of humans, fish, and shellfish.

Effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin or 2,2',4,4',5,5'-hexachlorobiphenyl on vitamin K-dependent blood coagulation in female germfree WAG/Rij-rats.

Mucosal reactive oxygen metabolite production in duodenal ulcer disease.

Inhibition of acute TCDD toxicity by treatment with anti-tumor necrosis factor antibody or dexamethasone.

Structure of dietary pectin, iron bioavailability and hemoglobin repletion in anemic rats.

Alkaline chemical keratitis: eye injury from airbags.

Health effects of military service. Lessons learned from the Vietnam experience.

Integrated approach for evaluating species and interindividual differences in responsiveness to dioxins and structural analogs.

Mechanism of the increase in intracellular sodium during metabolic inhibition: direct evidence against mediation by voltage-dependent sodium channels.

Cytosolic and intranuclear calcium signals in rat basophilic leukemia cells as revealed by a confocal fluorescence microscope.

Acute neurobehavioural effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in Han/Wistar rats.

Increased serum catalase activity in septic patients with the adult respiratory distress syndrome.

Myalgia and elevated creatine kinase activity associated with subcutaneous injections of diluent.

Non-Hodgkin's lymphoma and occupational exposure.

Pesticides and non-Hodgkin's lymphoma.

Immunosuppressive therapy and acquired immunological disorders.

Hematopoietic cytokines inhibit apoptosis induced by transforming growth factor beta 1 and cancer chemotherapy compounds in myeloid leukemic cells.

[Urinary N-acetyl-beta-D-glucosaminidase and gamma-glutamyl-transpeptidase activities for evaluation of renal disturbance in patients with multiple myeloma].

Control of growth and differentiation of Philadelphia chromosome-positive leukemia cells by tyrosine kinase inhibitors.

Iron deficiency and anemia of chronic disease. Clues to differentiating these conditions.

Photosensitization by anticancer agents. 11. Mechanisms of photosensitization of human leukemic cells by diaminoanthraquinones: singlet oxygen and radical reactions.

A comparison of sodium arsenite- and hyperthermia-induced stress responses and abnormal development in cultured postimplantation rat embryos.

Hepatotoxic interactions of ethanol with allyl alcohol or carbon tetrachloride in rats.

Effect of herbimycin A, an antagonist of tyrosine kinase, on bcr/abl oncoprotein-associated cell proliferations: abrogative effect on the transformation of murine hematopoietic cells by transfection of a retroviral vector expressing oncoprotein P210bcr/abl and preferential inhibition on Ph1-positive leukemia cell growth.

Acute iron intoxication in pregnancy: case report and review of the literature.

Ingested arsenic, keratoses, and bladder cancer.

Amyotrophic lateral sclerosis: increased solubility of skin collagen.

Endoscopic treatment of vesicoureteral reflux with a self-detachable balloon system.

In vitro oxygen consumption and motility of *Cryptobia salmositica*, *Cryptobia bullocki*, and *Cryptobia catostomi* (Sarcomastigophora: Kinetoplastida).

Collagen-induced arthritis in rats. Examination of the epitope specificities of circulating and cartilage-bound antibodies produced by outbred and inbred rats using cyanogen bromide-derived peptides purified from heterologous and homologous type II collagens.

Bioavailability to rats and toxicity of bound residues in bean seeds fumigated with ¹⁴C-methyl bromide.

A dominant mutation in the COL1A1 gene that substitutes glycine for valine causes recurrent lethal osteogenesis imperfecta.

Comparative assessment of the cytotoxic effects of different xenobiotics in three hepatoma cell lines.

A case of ulcerative colitis induced by oral ferrous sulfate.

The effects of beraprost Na, a stable prostacyclin analog, on animal models of stroke.

Herbimycin A, an inhibitor of tyrosine kinase, prolongs survival of mice inoculated with myeloid leukemia C1 cells with high expression of v-abl tyrosine kinase.

A Danish kindred with familial amyloid cardiomyopathy revisited: identification of a mutant transthyretin-methionine111 variant in serum from patients and carriers.

Parkinson's disease and exposure to agricultural work and pesticide chemicals.

Development of acute thermotolerance in L929 cells: lack of HSP28 synthesis and phosphorylation.

Dynamic changes in the functional characteristics of the interstitial fibroblast during lung repair.

Effect of iron supplementation on endurance capacity in iron-depleted female runners.

Persistent brominated and chlorinated dioxin blood levels in a chemist. 35 years after dioxin exposure.

Urinary ortho-cresol concentrations as an indicator of toluene inhalation in glue-sniffers.

Chronic sodium azide treatment impairs learning of the Morris water maze task.

Chemiluminescence assay of mucosal reactive oxygen metabolites in inflammatory bowel disease.

Anti-Ro autoantibody with cross-reactive binding to the heavy chain of immunoglobulin G.

Neoplastic transformation of immortalized human keratinocytes by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Dose-response relationships for chronic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin in a rat tumor promotion model: quantification and immunolocalization of CYP1A1 and CYP1A2 in the liver.

Comparative studies on the extractability of collagen from aortas of stroke-prone spontaneously hypertensive and normotensive rats.

Detection and characterisation of an overmodified type III collagen by analysis of non-cutaneous connective tissues in a patient with Ehlers-Danlos syndrome IV.

A case of fatal methyl bromide poisoning.

Effect of environmental pollutants on taste and smell.

Radiological case of the month. Acute iron poisoning and gastrointestinal decontamination procedure.

American Academy of Pediatrics Committee on Nutrition: The use of whole cow's milk in infancy.

Reduced activity of the electron transport chain in liver mitochondria isolated from rats with secondary biliary cirrhosis.

Hepatotoxicity and carcinogenicity in female Sprague-Dawley rats treated with 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD): a pathology working group reevaluation.

Protein-linked isoprenoid lipids in dexamethasone-treated human lymphoid lines in culture.

Localization of the reflex pathway responsible for the vasodepressor reaction induced by inferior vena caval occlusion and isoproterenol.

[Differentiation therapy of hematologic malignancies: principles, current status and perspectives].

Influence of stepwise uncoupling and temporary anoxia on pancreatic enzyme secretion by isolated rat acini.

Amelioration by BAL (2,3-dimercapto-1-propanol) and DMPS (sodium 2,3-dimercapto-1-propanesulfonic acid) of arsenite developmental toxicity in mice.

A single base mutation in the gene for type III collagen (COL3A1) converts glycine 847 to glutamic acid in a family with Ehlers-Danlos syndrome type IV. An unaffected family member is mosaic for the mutation.

Neutrophils contribute to TNF induced myocardial tolerance to ischaemia.

A case of methyl bromide poisoning.

Effects of acid-base status on acute hypoxic pulmonary vasoconstriction and gas exchange.

Large hiatal hernias, anemia, and linear gastric erosion: studies of etiology and medical therapy.

In utero and lactational exposure of male rats to 2,3,7,8-tetrachlorodibenzo-p-dioxin. 1. Effects on androgenic status.

In utero and lactational exposure of male rats to 2,3,7,8-tetrachlorodibenzo-p-dioxin. 2. Effects on sexual behavior and the regulation of luteinizing hormone secretion in adulthood.

Relationship between thermal tolerance and protein degradation in temperature-sensitive mouse cells.

Pesticides and other agricultural risk factors for non-Hodgkin's lymphoma among men in Iowa and Minnesota.

The role of occupational exposure and immunodeficiency in B-cell malignancies. Working Group on the Epidemiology of Hematolymphopoietic Malignancies in Italy.

Hepatic and gastrointestinal effects in an occupational cohort exposed to 2,3,7,8-tetrachlorodibenzo-para-dioxin.

Mitochondrial dysfunction observed in situ in cardiomyocytes of rats in experimental diabetes.

Risk factors for adult soft tissue sarcoma in northern Italy.

Chemicals trophic for the thymus: risk for immunodeficiency and autoimmunity.

Sodium monochloroacetate poisoning of greenfinches.

Common poisons in Singapore--past and present.

Integration of the human lymphocyte into immunotoxicological investigations.

Chemical burn with cresol intoxication and multiple organ failure.

The effect of ethanol metabolism on ferritin uptake by freshly isolated rat hepatocytes: is acetaldehyde responsible for this alteration?

Cancer risk among Danish and Italian farmers.

Inhibition of intestinal glucose absorption in rats treated with 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Growth inhibition by anchorage-deficiency is associated with increased level but reduced phosphorylation of mutant p53.

Neutrophil accumulation in ischemic reperfused rat liver: evidence for a role for superoxide free radicals.

Cytochrome oxidase inhibition: a novel animal model of Alzheimer's disease.

[Phenazon metabolism in children with liver diseases].

[Mortality of cattle following feeding of moldy flower bulbs].

[Amounts of urinary metabolites of p-chloroaniline and their half lives in a patient with acute poisoning].

Toxicity and reproductive effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin in ring-necked pheasant hens.

Permeation and destructive effects of disinfectants on protective gloves.

Monoclonal antibodies specific to porin of Haemophilus influenzae type b: localization of their cognate epitopes and tests of their biological activities.

Altered ratio of collagen chains in bone of a patient with non-lethal osteogenesis imperfecta.

Molecular cloning of the human Goodpasture antigen demonstrates it to be the alpha 3 chain of type IV collagen.

An osteopenic nonfracture syndrome with features of mild osteogenesis imperfecta associated with the substitution of a cysteine for glycine at triple helix position 43 in the pro alpha 1(I) chain of type I collagen.

Mortality of a young population after accidental exposure to 2,3,7,8-tetrachlorodibenzodioxin.

Antioxidant activity of bronchoalveolar lavage fluid in the adult respiratory distress syndrome.

Cassava cyanogens and konzo, an upper motoneuron disease found in Africa.

A tradition of testing ironclad practices.

Soluble aggregates of the human PiZ alpha 1-antitrypsin variant are degraded within the endoplasmic reticulum by a mechanism sensitive to inhibitors of protein synthesis.

Transcriptional derepression of the murine Cyp1a-1 gene by mevinolin.

The mechanism of action of the two-layer (Euro-Collins' solution/perfluorochemical) cold storage method in canine pancreas preservation.

Comparisons of the effects of TCDD and hydrocortisone on growth factor expression provide insight into their interaction in the embryonic mouse palate.

Metabolically dependent blood-brain barrier breakdown in chronic relapsing experimental allergic encephalomyelitis.

A new threat to public health: organochlorines and food.

Sex differences in monochloroacetate pretreatment effects on chloroform toxicity in rats.

Differential ability of occupational chemical contact and respiratory allergens to cause immediate and delayed dermal hypersensitivity reactions in mice.

Toxicity of 2,3,7,8-tetrabromodibenzo-p-dioxin in rats after single oral administration.

Tardyferon therapy in hyposiderosis of infancy and childhood.

Influence of ethanol on survival of acinar cells isolated from rat pancreas.

Effects of herbimycin A derivatives on growth and differentiation of K562 human leukemic cells.

Old and new reflections on dioxin.

Reconciling old and new findings on dioxin.

The heat shock response: potential to screen teratogens.

Limited PCB antagonism of TCDD-induced malformations in mice.

Toxicity of monochloroacetic acid administered by gavage to F344 rats and B6C3F1 mice for up to 13 weeks.

Placental transport of dioxins from mother to fetus. II. PCBs, dioxins and furans and vitamin K metabolism.

[Results of therapy of anemia in pregnancy].

Internal exposure to organic substances in a municipal waste incinerator.

Comparative toxicity of four chlorinated dibenzo-p-dioxins (CDDs) and their mixture. Part I: Acute toxicity and toxic equivalency factors (TEFs).

Fatal systemic poisoning after skin exposure to monochloroacetic acid.

Epitope specificity of antibodies to type II collagen in rheumatoid arthritis and systemic lupus erythematosus.

Methylbromide intoxication: a case report.

A 27-bp deletion from one allele of the type III collagen gene (COL3A1) in a large family with Ehlers-Danlos syndrome type IV.

Fragmented DNA and apoptotic bodies document the programmed way of cell death in hybridoma cultures.

Extracellular matrix formation by epithelial cells from human polycystic kidney cysts in culture.

A prospective open-label study evaluating the efficacy and adverse reactions of the use of Niferex-150 in ESRD patients receiving EPOGEN.

[The effect of 2,4-dichlorophenol on enzyme activities and other parameters in parenchymatous organs of rats].

Amelioration of dermal lesions in streptozotocin-induced diabetic rats by aminoguanidine.

Reactive oxygen metabolites in toxic acute renal failure.

Amyloid enhancing factor activity is associated with ubiquitin.

Enhanced suppression of humoral immunity in DBA/2 mice following subchronic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Siderophore production and membrane alterations by *Bordetella pertussis* in response to iron starvation.

Endpoints of spermatotoxicity in the rat after short duration exposures to fourteen reproductive toxicants.

Induction of somatic embryogenesis and caulogenesis from cotyledon and leaf protoplast-derived colonies of melon (*Cucumis melo* L.).

Toxicity of pentachlorophenol to six species of white rot fungi as a function of chemical dose.

Identification of urinary metabolites of human subjects acutely poisoned by p-chloronitrobenzene.

Vascular smooth muscle cell detachment from elastin and migration through elastic laminae is promoted by chondroitin sulfate-induced "shedding" of the 67-kDa cell surface elastin binding protein.

Antibody epitopes sensitive to the state of human immunodeficiency virus type 1 gp41 oligomerization map to a putative alpha-helical region.

Murine strain differences in metabolism and bladder toxicity of cyclophosphamide.

Disulfide bond structure of glycoprotein D of herpes simplex virus types 1 and 2.

2,3,7,8-Tetrachlorodibenzo-p-dioxin causes reduction of glucose transporting activities in the plasma membranes of adipose tissue and pancreas from the guinea pig.

Use of multiple-cause mortality data in epidemiologic analyses: US rate and proportion files developed by the National Institute for Occupational Safety and Health and the National Cancer Institute.

Synergism among oxidants, proteinases, phospholipases, microbial hemolysins, cationic proteins, and cytokines.

Ionizing radiation stimulates unidentified tyrosine-specific protein kinases in human B-lymphocyte precursors, triggering apoptosis and clonogenic cell death.

Two-stage control of an oxidative stress regulon: the Escherichia coli SoxR protein triggers redox-inducible expression of the soxS regulatory gene.

Primary chemical and physical characterization of acute toxic components in wastewaters.

Ferritin: a cytoprotective antioxidant strategem of endothelium.

The potentiation of 2,3,7,8-tetrachlorodibenzo-p-dioxin toxicity by tamoxifen in female CD1 mice.

Plasma alpha 1-acid glycoprotein concentration in rats with chemical liver injury.

Initial hydrogenation during catabolism of picric acid by Rhodococcus erythropolis HL 24-2.

Degradation of 2,4-dinitrophenol by two Rhodococcus erythropolis strains, HL 24-1 and HL 24-2.

Risk, statistical inference, and the law of evidence: the use of epidemiological data in toxic tort cases.

Antioxidant defense mechanisms of endothelial cells and renal tubular epithelial cells in vitro: role of the glutathione redox cycle and catalase.

Reduction in heat shock gene expression correlates with increased thermosensitivity in senescent human fibroblasts.

Morbidity study of extruder personnel with potential exposure to brominated dioxins and furans. I. Results of blood monitoring and immunological tests.

Effects of antibacterial agents on in vitro ovine ruminal biotransformation of the hepatotoxic pyrrolizidine alkaloid jacobine.

Studies of collagen in bone and dentin matrix of a Columbian mammoth (late Pleistocene) of central Utah.

Human fibrinogen heterogeneity: the COOH-terminal residues of defective A alpha chains of fibrinogen II.

The effect of chronic radiation on the humoral immune response of rainbow trout (*Onchorhynchus mykiss* Walbaum).

Surgical and pharmacological dissociation of cardiovascular and emetic responses to intragastric CuSO₄.

NTP technical report on the toxicity studies of para-Chloro-alpha,alpha,alpha Trifluorotoluene (CAS NO: 98-56-6) Administered in Corn Oil and alpha-Cyclodextrin to F344/N Rats and B6C3F1 Mice in 14-Day Comparative Gavage Studies.

Health status and needs of migrant farm workers in the United States: a literature review.

Involvement of nonparenchymal cells in oxygen-dependent hepatic injury by allyl alcohol.

Quantitative light microscopic demonstration of increased pallidal and striatal met5-enkephalin-like immunoreactivity in rats following chronic treatment with haloperidol but not with clozapine: implications for the pathogenesis of neuroleptic-induced movement disorders.

Arsenic concentrations in tissues and body fluids of dogs on chronic low-level dietary sodium arsenite.

Mitochondrial glutathione and methyl iodide-induced neurotoxicity in primary neural cell cultures.

Skin photosensitizing agents and the role of reactive oxygen species in photoaging.

Artificial liver.

Lipid peroxidation in rod outer segments. Role of hydroxyl radical and lipid hydroperoxides.

Stimulus-secretion coupling in beta-cells of transplantable human islets of Langerhans. Evidence for a critical role for Ca²⁺ entry.

Lipid peroxidation and irreversible damage in the rat hepatocyte model. Protection by the silybin-phospholipid complex IdB 1016.

Mechanisms of extracellular reactive oxygen species injury to the pulmonary microvasculature.

The mechanism of action of the two-layer (Euro-Collins' solution/perfluorochemical) cold-storage method in canine pancreas preservation--the effect of 2,4 dinitrophenol on graft viability and adenosine triphosphate tissue concentration.

Studies on curare-like action of 2,2',2''-tripyridine in the mouse phrenic nerve-diaphragm.

Participation of tyrosine phosphorylation in the cytopathic effect of human immunodeficiency virus-1.

Physiological effects of sublethal atrazine on barley chloroplast thylakoid membranes.

Photodynamic effects of chloroaluminum phthalocyanine tetrasulfonate are mediated by singlet oxygen: in vivo and in vitro studies utilizing hepatic microsomes as a model membrane source.

[Use of 2,4-dinitrophenol for immunosuppressive action on the recipient in implantation of fetal organs in mice].

Comparison of sublethal and lethal criteria for nine different chemicals in standardized toxicity tests using the earthworm *Eisenia andrei*.

Tricarboxylic acid cycle activity in perfused rat lungs after O₂ exposure.

Proline uptake by monolayers of human intestinal absorptive (Caco-2) cells in vitro.

NTP Toxicology and Carcinogenesis Studies of Methyl Bromide (CAS: 74-83-9) in B6C3F1 Mice (Inhalation Studies).

Effects of chronic atropine administration on regional vasoactive intestinal polypeptide concentrations in rat brain.

The effect of oral iron supplementation on erythropoiesis in autologous blood donors.

Cellular basis for interactions between catecholaminergic afferents and neurons containing Leu-enkephalin-like immunoreactivity in rat caudate-putamen nuclei.

Iron supplementation after femoral head replacement for patients with normal iron stores.

NTP Toxicology and Carcinogenesis Studies of Monochloroacetic Acid (CAS No. 79-11-8) in F344/N Rats and B6C3F1 Mice (Gavage Studies).

NADH-dependent reductive stress and ferritin-bound iron in allyl alcohol-induced lipid peroxidation in vivo: the protective effect of vitamin E.

Association of blebbing with assembly of cytoskeletal proteins in ATP-depleted EL-4 ascites tumour cells.

The influence of erythrocyte shape on suspension viscosities.

Accidental death caused by the absorption of 2,4-dichlorophenol through the skin.

Polyhalogenated dibenzo-p-dioxins and dibenzofurans and the immune system. 4. Effects of multiple-dose treatment with 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on peripheral lymphocyte subpopulations of a non-human primate (*Callithrix jacchus*).

Decreased hepatic phosphoenolpyruvate carboxykinase gene expression after 2,3,7,8-tetrachlorodibenzo-p-dioxin treatment: implications for the acute toxicity of chlorinated dibenzo-p-dioxins in the rat.

The barrier function in atopic dry skin. Disturbance of membrane-coating granule exocytosis and formation of epidermal lipids?

Cellular sequence of tracheal repair in sheep after smoke inhalation injury.

Microbiological and biotechnological aspects of metabolism of carbamates and organophosphates.

Failure of CAPD patients to respond to an oral iron absorption test.

Comparative toxicity of four chlorinated dibenzo-p-dioxins (CDDs) and their mixture. Part II: Structure-activity relationships with inhibition of hepatic phosphoenolpyruvate carboxykinase, pyruvate carboxylase, and gamma-glutamyl transpeptidase activities.

Comparative toxicity of four chlorinated dibenzo-p-dioxins (CDDs) and their mixture. Part III: Structure-activity relationship with increased plasma tryptophan levels, but no relationship to hepatic ethoxyresorufin o-deethylase activity.

Reduced expression of manganese superoxide dismutase in cells resistant to cytolysis by tumor necrosis factor.

Survival from severe paraquat intoxication in heavy drinkers.

Weight of the evidence on the human carcinogenicity of 2,4-D.

[Effect of almitrine in acute canine lung injury induced by paraquat].

[Immunomorphological analysis of prolonged intoxication by low doses of herbicide simazine].

Lethality, hexobarbital narcosis and behavior in rats exposed to atrazine, bentazon or molinate.

Conjugates of superoxide dismutase with the Fc fragment of immunoglobulin G.

The evaluation of *Escherichia coli* as a model for oxidant stress in mammalian hepatocytes: role of glutathione.

Occupational exposure to chlorophenoxy herbicides and chlorophenols.

The upper respiratory tract: mucous membrane irritation.

Toxic exposure to betamix.

Marijuana and tobacco smoke gas-phase cytotoxins.

Fructose 1,6-diphosphate augments paraquat injury in isolated dog lungs.

Posttraumatic stress disorder among Vietnam veterans on the Agent Orange Registry. A case-control analysis.

Cancer mortality in workers exposed to chlorophenoxy herbicides and chlorophenols.

Failure of radiotherapy to resolve fatal lung damage due to paraquat poisoning.

Paraquat poisoning: findings on chest radiography and CT in 42 patients.

[Biochemical and histological changes after acute oral poisoning with the acetanilide herbicide acetochlor].

Evidence that paraquat is able to cross the blood-brain barrier to a different extent in rats of various age.

Acute toxicity of parathion and 2,4-D to larval and juvenile stages of *Chasmagnathus granulata* (Decapoda, Brachyura).

2,4-D toxicosis.II: A pilot study of clinical pathologic and electroencephalographic effects and residues of 2,4-D in orally dosed dogs.

[Is it appropriate to consider wood preservative poisoning in the differential diagnosis of chronic recurrent respiratory tract infections?].

Superoxide is involved in the pathogenesis of paraquat-induced injury in cultured rat liver slices.

[Fatal voluntary poisoning by parenteral paraquat].

Case-control study of canine malignant lymphoma: positive association with dog owner's use of 2,4-dichlorophenoxyacetic acid herbicides.

Chronic toxicity of a pure and technical grade pentachlorophenol to *Daphnia magna*.

Effect of ethanol on the disposition of paraquat.

Acute toxicity to juvenile Pacific northwest salmonids of basacid blue NB755 and its mixture with formulated products of 2,4-D, glyphosate, and triclopyr.

Liver high performance liquid chromatographic porphyrin profiles in experimental porphyria induced by peroxidizing herbicides.

[Arachidonic acid metabolism and angiotensin converting enzyme activity by cultured porcine pulmonary artery endothelial cells are affected with paraquat].

Reduction of paraquat and related bipyridylium compounds to free radical metabolites by rat hepatocytes.

Free radical-induced carbonyl content in protein of estrogen-treated hamsters assayed by sodium boro[3H]hydride reduction.

Assessment of lawn care worker exposure to dithiopyr.

Age- and sex-related effects on hepatic drug metabolism in rats chronically exposed to dietary atrazine.

Intra-nigral infusion of Cu-free superoxide dismutase prevents paraquat-induced behavioural stimulation and ECoG epileptogenic discharges in rats.

Betamethasone effects on paraquat lung toxicity.

Relationships between ascorbic acid and alpha-tocopherol during diquat-induced redox cycling in isolated rat hepatocytes.

Immunological consequences of exposure to pentachlorophenol.

Effects of agricultural pesticides on humans, animals, and higher plants in developing countries.

[Cholestatic hepatitis caused by cyanamide].

Genotoxicity of p-nitrocinnamaldehyde and related alpha, beta-unsaturated carbonyl compounds in two bacterial assays.

Non-Hodgkin's lymphoma among Vietnam veterans.

Non-Hodgkin's lymphoma in a cohort of Vietnam veterans.

Suicide by poisoning.

Mechanism for enterohepatic injury caused by circulatory disturbance of hepatic vessels in the rat.

Hemolytic activity of ethylene glycol phenyl ether (EGPE) in rabbits.

Iron supplementation and running performance in female cross-country runners.

Induction of hepatic metallothionein by nonmetallic compounds associated with acute-phase response in inflammation.

The differential effects of hepatotoxicants on the sulfation pathway in rats.

Inhibitory effect of interleukin-4 on the in vitro growth of Ph1-positive acute lymphoblastic leukemia cells.

Toxic and neoplastic responses in the nasal passages: future research needs.

The epidemiology of Parkinson's disease. A case-control study of young-onset and old-onset patients.

Tolerability of iron: a comparison of bis-glycino iron II and ferrous sulfate.

Influence of anoxia, reoxygenation, and uncoupling on survival, respiration, and trypsin-inhibiting capacity of isolated pancreatic acinar cells.

Chloracne caused by ingestion of olive oil contaminated with PCDDs and PCDFs.

Retrospective cohort mortality study of workers at an aircraft maintenance facility. II. Exposures and their assessment.

Great Lakes embryo mortality, edema, and deformities syndrome (GLEMEDS) in colonial fish-eating birds: similarity to chick-edema disease.

Randomized, placebo-controlled trial of iron supplementation in infants with low hemoglobin levels fed iron-fortified formula.

Laboratory evaluation of B-2 as a molluscicide in the control of the snail intermediate hosts of schistosomiasis in South Africa.

Ninety day toxicity study of chloroacetic acids in rats.

The transient appearance of small blastoid cells in the marrow after bone marrow transplantation.

Intracellular calcium concentrations during "chemical hypoxia" and excitotoxic neuronal injury.

Engagement of interleukin-7 receptor stimulates tyrosine phosphorylation, phosphoinositide turnover, and clonal proliferation of human T-lineage acute lymphoblastic leukemia cells.

Occupation and risk of Hodgkin's disease in north-east Italy.

Exact cleavage site of Alzheimer amyloid precursor in neuronal PC-12 cells.

Mechanism of action of 2,3,7,8-tetrachlorodibenzo-p-dioxin on intermediary metabolism in the rat.

Do new hypotheses on the mechanism of action of dioxins help in risk evaluation?

The acute effects of S-(1,2-dichlorovinyl)-L-cysteine and related chemicals on renal function and ultrastructure in the pentobarbital-anesthetized dog: structure-activity relationships, biotransformation, and unique site-specific nephrotoxicity.

Acute neurotoxicity of sodium azide and nitric oxide.

Scanning electron microscopic observations on muscle cells of experimental mitochondrial myopathy produced by 2, 4-dinitrophenol.

Characterisation of a glycine to valine substitution at amino acid position 910 of the triple helical region of type III collagen in a patient with Ehlers-Danlos syndrome type IV.

Agricultural disorders of the lung.

In-vivo epidermal nuclear reactions: a selective process.

Long-term effects of chemical disasters. Lessons and results from Seveso.

H4IIE rat hepatoma cell bioassay-derived 2,3,7,8-tetrachlorodibenzo-p-dioxin equivalents in colonial fish-eating waterbird eggs from the Great Lakes.

Symptoms among workers with long-term exposure to methyl bromide. An epidemiological study.

[Reports on medico-legal data from the massive-investigation performed by the Medico-Legal Society of Japan--a statistical study of death by poisoning. Investigation Committee of the Medico-Legal Society of Japan].

Glutathione depletion during experimental damage to rat skeletal muscle and its relevance to Duchenne muscular dystrophy.

2,3,7,8-Tetrachlorodibenzo-p-dioxin inhibits steroidogenesis in the rat testis by inhibiting the mobilization of cholesterol to cytochrome P450_{sc}.

Bioavailability of carbonyl iron: a randomized, double-blind study.

Effect of modulators of glutathione synthesis on the hepatotoxicity of 2-methylfuran.

Effects of ATP-sensitive K⁺ channel blockers on the action potential shortening in hypoxic and ischaemic myocardium.

Mechanisms of disruption of the articular cartilage surface in inflammation. Neutrophil elastase increases availability of collagen type II epitopes for binding with antibody on the surface of articular cartilage.

[Intestinal obstruction caused by non-absorbable tablets and Budd-Chiari syndrome in a patient with Crohn's disease].

Engraftment and development of human T and B cells in mice after bone marrow transplantation.

Ninety-day toxicity study of sodium monochloroacetate in Sprague-Dawley rats.

Metabolism of deuterium-labeled nonanoic acids in the riboflavin-deficient rat model of multiple acyl-CoA dehydrogenase deficiency.

Comparison of 2,3,7,8-tetrachlorodibenzo-p-dioxin-mediated hepatotoxicity in C57BL/6J and DBA/2J mice.

Pathogen-specific humoral response in *Treponema pallidum*-infected humans, rabbits, and guinea pigs.

Absorption of low and therapeutic doses of ferric maltol, a novel ferric iron compound, in iron deficient subjects using a single dose iron absorption test.

An initiation-promotion assay in rat liver as a potential complement to the 2-year carcinogenesis bioassay.

Increased phagocytic activity of polymorphonuclear leukocytes of chronic granulomatous disease as determined with flow cytometric assay.

Serum concentrations of 2,3,7,8-tetrachlorodibenzo-p-dioxin and test results from selected residents of Seveso, Italy.

Virus-specific B-lymphocytes are probably the primary targets for Aleutian disease virus.

[Experience of the Toxicology Information Center in Prague with pesticides].

Cot death and selenium deficiency.

Washed human platelets prevent ischemia-reperfusion edema in isolated rabbit lungs.

Hypothyroidism and acquired von Willebrand disease.

Dioxin contamination and growth and development in great blue heron embryos.

Environmental risk factors in siblings with Parkinson's disease.

Oxidation of articular cartilage glyceraldehyde-3-phosphate dehydrogenase (G3PDH) occurs in vivo during carrageenin-induced arthritis.

[A new milk formula: iron bioavailability and effect on prevention of iron deficiency in infants].

Association of the crosslinked IgE receptor with the membrane skeleton is independent of the known signaling mechanisms in rat basophilic leukemia cells.

Ovarian hormones enhance 2,3,7,8-tetrachlorodibenzo-p-dioxin-mediated increases in cell proliferation and preneoplastic foci in a two-stage model for rat hepatocarcinogenesis.

Modulation of 2,3,7,8-tetrachlorodibenzo-p-dioxin and phenobarbital-induced promotion of hepatocarcinogenesis in rats by the type of diet and vitamin A deficiency.

TCDD exposure of human embryonic palatal shelves in organ culture alters the differentiation of medial epithelial cells.

Transfusion of type-A and type-B blood to cats.

Studies of controlled reperfusion after ischemia. XXI. Reperfusate composition: superiority of blood cardioplegia over crystalloid cardioplegia in limiting reperfusion damage--importance of endogenous oxygen free radical scavengers in red blood cells.

Reduced activities of key enzymes of gluconeogenesis as possible cause of acute toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in rats.

Cancer mortality in workers exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Respective roles of free radicals and energy supply in hypoxic rat liver injury after reoxygenation.

Long-term carcinogenesis studies on 2,3,7,8-tetrachlorodibenzo-p-dioxin and hexachlorodibenzo-p-dioxins.

Mass poisoning by sodium arsenite.

Reversibility of thymic atrophy induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) and bis(tri-n-butyltin)oxide (TBTO).

A one-year carcinogenicity study with 2,6-dichlorobenzonitrile (Dichlobenil) in male Swiss mice: preliminary note.

Reproductive toxicity and toxicokinetics of 2,3,7,8-tetrachlorodibenzo-p-dioxin. 2. Problem of paternally-mediated abnormalities in the progeny of rat.

Immunotherapy in acute arsenic poisoning.

Allergic contact dermatitis to two antioxidants in latex gloves: 4,4'-thiobis(6-tert-butyl-meta-cresol) (Lowinox 44S36) and butylhydroxyanisole. Allergen alternatives for glove-allergic patients.

Vitamin A deficiency and the induction of cutaneous toxicity in murine skin by TCDD.

Mechanisms of cell death.

Inhalation exposure of mice to trimellitic anhydride induces both IgG and IgE anti-hapten antibody.

Association of hyperglycemia with dietary cyanogen and socio-economic level. The study of rural communities in south-east Nigeria.

An exploratory study of environmental and medical factors potentially related to childhood cancer.

Diethyldithiocarbamate, copper and neurological disorders.

Blood levels of 2,3,7,8-tetrachlorodibenzo-p-dioxin in chemical workers after chloracne and in comparison groups.

Chronic inhalation toxicity and carcinogenicity study of methyl bromide in Wistar rats.

The epidemiology of populations exposed to dioxin.

Tear volume in early and late phases of ocular anaphylaxis in guinea pigs.

Human exposure to 2,3,7,8-TCDD and risk of cancer.

Intra- and inter-individual variations in cornified envelope peptide composition in normal and psoriatic skin.

Pyridine derivatives: structure-activity relationships causing parkinsonism-like symptoms.

[Massive hemoptysis ten days after bronchial extraction of an accidentally inhaled tablet of ferrous sulfate].

Effects of salicylate on hepatocyte lactate metabolism.

[Parkinson's disease and environmental factors].

Altered metabolic response of iron-deficient women during graded, maximal exercise.

Influence of aprotinin and promazine on survival of isolated pancreatic acinar cells.

Structure-function studies of S-antigen: use of proteases to reveal a dominant uveitogenic site.

Identification of antibody epitopes within the CB-11 peptide of type II collagen. I: Detection of antibody binding sites by epitope scanning.

Investigation on the dosage/efficacy relationship of iron dextran in veal calves.

Vitamin B12 deficiency and infertility: report of a case.

Reduced cortisol secretion in patients with iron deficiency.

[The effect of finoptin on the metabolism and pharmacological action of cyclophosphane in vivo and in vitro].

A new method to monitor Kupffer cell phagocytosis continuously in perfused rat liver.

Single-dose cyclophosphamide for the prevention of bladder tumor implantation in F344 rats: site of drug activity.

Rapid and sensitive quantitation of cyanide in blood and its application to fire victims.

2,3,7,8-Tetrachlorodibenzo-p-dioxin increases reliance on fats as a fuel source independently of diet: evidence that diminished carbohydrate supply contributes to dioxin lethality.

Protection against acute paraquat toxicity by ambroxol.

NTP technical report on the toxicity studies of Cresols (CAS Nos. 95-48-7, 108-39-4, 106-44-5) in F344/N Rats and B6C3F1 Mice (Feed Studies).

The toxicity of waterborne boron to *Daphnia magna* and *Chironomus decorus* and the effects of water hardness and sulfate on boron toxicity.

Iron lung: bronchoscopic and pathological consequences of aspiration of ferrous sulphate.

Biochemical study of repair of induced osteochondral defects of the distal portion of the radial carpal bone in horses by use of periosteal autografts.

Effect of rat liver cytosolic enzymes and cofactors on mutagenicity of 1-amino-8-nitropyrene.

Evaluation of potential chemoprotectants against microcystin-LR hepatotoxicity in mice.

Detection and characterization of Ah receptor in tissue and cells from human tonsils.

Evaluation of metabolic endpoints of acute cytotoxicity in V79 fibroblasts.

Primary cultures of tracheal epithelial cells for the evaluation of respiratory toxicity.

Choice and standardization of test protocols in cytotoxicology: A multicentre approach.

Effects of chlornitrofen, a herbicide, on reproduction of *Brachionus urceolaris* (Rotatoria) through water and food (*Chlorella*).

Biologically based pharmacodynamic models: tools for toxicological research and risk assessment.

[Experimental study on methyl bromide poisoning in mice. Acute inhalation study and the effect of glutathione as an antidote].

Effect of arsenicals on biliary excretion of endogenous glutathione and xenobiotics with glutathione-dependent hepatobiliary transport.

The acute and chronic toxicity of ten chlorinated organic compounds to the American flagfish (*Jordanella floridae*).

Cell-type-specific recognition of allogeneic cells by alloreactive cytotoxic T cells: a consequence of peptide-dependent allorecognition.

The effect of interleukin-1 on iron metabolism in rats.

Effect of aclarubicin and doxorubicin on rat liver mitochondrial oxidative phosphorylation.

Increased copper concentrations in rat tissues after acute intoxication with 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Glutathione redox cycle is an important defense system of endothelial cells against chronic hyperoxia.

Ten- and ninety-day toxicity studies of 1,2-dichlorobenzene administered by oral gavage to Sprague-Dawley rats.

Drug interaction effects on antitumour drugs (VIII): prevention of ifosfamide-induced urotoxicity by disulfiram and its effect on antitumour activity and acute toxicity of alkylating agents in mice.

Toxic interactions in the rat nose: pollutants from soiled bedding and methyl bromide.

In vitro effects of trace elements on blood clotting and platelet function. A--Iron, copper, and gold.

TCDD decreases rapidly and persistently serum melatonin concentration without morphologically affecting the pineal gland in TCDD-resistant Han/Wistar rats.

The stress protein response in cultured neurons: characterization and evidence for a protective role in excitotoxicity.

bcl-2 transgene inhibits T cell death and perturbs thymic self-censorship.

Hexose uptake in primary cultures of bovine brain microvessel endothelial cells. I. Basic characteristics and effects of D-glucose and insulin.

[Comparative study of the effectiveness of the classical and modified Cooper protocol for breast cancer chemotherapy].

Human serum catalase decreases endothelial cell injury from hydrogen peroxide.

The liver, kidney, and thyroid toxicity of chlorinated benzenes.

NTP Toxicology and Carcinogenesis Studies of Sodium Azide (CAS: 26628-22-8) in F344 Rats (Gavage Studies).

Effect of allyl alcohol on xanthine dehydrogenase activity in the perfused rat liver.

Inhibition of human immunodeficiency virus type-1-induced syncytium formation and cytopathicity by complestatin.

Effect of hepatotoxic chemicals and hypoxia on hepatic nonparenchymal cells: impairment of phagocytosis by Kupffer cells and disruption of the endothelium in rat livers perfused with colloidal carbon.

Glutathione depletion: its effects on other antioxidant systems and hepatocellular damage.

Uptake of glutathione by renal cortical mitochondria.

meso-2,3-Dimercaptosuccinic acid and prevention of arsenite embryotoxicity and teratogenicity in the mouse.

Human chorionic gonadotropin treatment prevents depressed 17 alpha-hydroxylase/C17-20 lyase activities and serum testosterone concentrations in 2,3,7,8-tetrachlorodibenzo-p-dioxin-treated rats.

Potential of the toxicity of model hepatotoxicants by acetaminophen.

Effects of environmental toxins on lymphocyte function: studies in rhesus and man.

Interaction between dietary vitamin A and single oral doses of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on the TCDD-induced toxicity and on the vitamin A status in the rat.

In vitro cytotoxicity studies with the fish hepatoma cell line, PLHC-1 (*Poeciliopsis lucida*).

Acute toxicity tests using rotifers. IV. Effects of cyst age, temperature, and salinity on the sensitivity of *Brachionus calyciflorus*.

Reconstitution of the ethanol oxidase respiratory chain in membranes of quinoprotein alcohol dehydrogenase-deficient *Gluconobacter suboxydans* subsp. alpha strains.

[Acute toxicity, inductive effects of liver enzymes and distribution in the liver of 1,2,3,7,8-pentachlorodibenzo-p-dioxin in rats].

The inhibition of rat liver threonine dehydratase by carbamoyl-phosphate. The formation of carbamoylpyridoxal 5'-phosphate.

Metabolism and toxicity of methyl iodide in primary dissociated neural cell cultures.

Nature of plant stimulators in the production of *Acetobacter xylinum* ("tea fungus") biofilm used in skin therapy.

Cytotoxicity of alkylating agents in isolated rat kidney proximal tubular and distal tubular cells.

The possible role of phospholipase A2 in hepatic microsomal lipid peroxidation induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin in rats.

IgG response is impaired in H2-c-fos transgenic mice.

Lichen planus-like eruption with esophageal involvement as a result of cyanamide.

Effects of chemically induced maternal toxicity on prenatal development in the rat.

Toxicity of lindane, atrazine, and deltamethrin to early life stages of zebrafish (*Brachydanio rerio*).

Adsorption to dipalmitoylphosphatidylcholine membranes in gel and fluid state: pentachlorophenolate, dipicrylamine, and tetraphenylborate.

Pre-embarkment prognostication for acute paraquat poisoning.

Genetic toxicity of six carcinogens and six non-carcinogens in the *Drosophila* wing spot test.

Italian multicentre case-control study of hematolymphopoietic malignancies.

[Experimental study of cardiotoxic effect of the pesticide sulfocarbathione].

Acute and sub-acute paraquat poisoning in a pack of foxhounds.

Chronic effect of atrazine on hydromineral balance in the crab.

Acute toxicity to juvenile Pacific salmonids and rainbow trout of butoxyethyl esters of 2,4-D, 2,4-DP and their formulated product: Weedone CB and its carrier.

Acute toxicity of the natural algicide, cyanobacterin, to *Daphnia magna*.

Dermal toxicity to rats of isoproturon technical and formulation.

Oxygen radicals in lung pathology.

Comparison of the toxicology of the herbicide roundup by oral and pulmonary routes of exposure.

Health status of Air Force veterans occupationally exposed to herbicides in Vietnam. II. Mortality.

Health status of Air Force veterans occupationally exposed to herbicides in Vietnam. I. Physical health.

Induction of superoxide dismutase in leukocytes by paraquat: correlation with age and possible predictor of longevity.

Acquisition and decay of heat-shock-enhanced postischemic ventricular recovery.

Environmental risk factors in Parkinson's disease.

Chronic effects of arsenic on American red crayfish, *Procambarus clarkii*, exposed to monosodium methanearsonate (MSMA) herbicide.

Interleukin 1 pretreatment decreases ischemia/reperfusion injury.

[Study of the effect of carbathione on embryogenesis in albino rats].

Tyrosine kinase activation during lung injury, fibrosis, and compensatory lung growth.

Role of sulfidopeptide leukotrienes in synthetic smoke inhalation injury in sheep.

Energetic metabolism and fatigability in experimental myotonia.

Xanthine oxidase-derived H₂O₂ contributes to reperfusion injury of ischemic skeletal muscle.

Derecruitment of filtration surface area in paraquat-injured isolated dog lungs.

Co-existence of hepatocyte ground-glass inclusions from several causes.

Possible role of acetaldehyde in ethanol-related rectal cocarcinogenesis in the rat.

Inhibitory effects of cobalt chloride and cinnamaldehyde on 5-azacytidine-induced digital malformations in rats.

Acid-base balance and cardiac index in SO₂-bronchitic, papaine-emphysematous and paraquat-fibrotic rats after isoproterenol treatment.

Effects of skin preapplication treatments and postapplication cleansing agents on dermal absorption of 2,4-dichlorophenoxyacetic acid dimethylamine by Fischer 344 rats.

Relationship between growth of *Escherichia coli* and susceptibility to the lethal effect of paraquat.

Human phagocytic cells as oxygen metabolite scavengers.

Detection and isolation of pentachlorophenol in oil samples associated with the Spanish toxic oil syndrome.

Behavioral and neurochemical changes associated with chronic exposure to low-level concentration of pesticide mixtures.

Effects of sulfur-containing metabolites of hexachlorobenzene on the heme metabolic enzymes in rat liver.

Influence of oxidative stress on the age-linked alterations of the cerebral glutathione system.

Neutrophil-mediated cytotoxicity induced by secretory IgA.

Effects of dose, age, inhibition of metabolism and elimination on the toxicokinetics of 2-butoxyethanol and its metabolites.

Paraquat toxicity is increased in *Escherichia coli* defective in the synthesis of polyamines.

Formation of the 37-kD protein-acetaldehyde adduct in primary cultured rat hepatocytes exposed to alcohol.

Assay of the human leukocyte enzymes myeloperoxidase and eosinophil peroxidase.

Aminotriazole effects on lung and heart H₂O₂ detoxifying enzymes and TBA-RS at two pO₂.

Influence of aging on ethanol and acetaldehyde oxidation in female rat liver.

Effects of acrolein on human platelet aggregation.

A role for a new vascular enzyme in the metabolism of xenobiotic amines.

[The effect of histamine H₁ receptors on the secretory function and blood flow in the gastric mucosa].

Correlation between acute toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) and total body fat content in mammals.

Inhibition of growth by 2,3,7,8-tetrachlorodibenzo-p-dioxin in 5L rat hepatoma cells is associated with the presence of Ah receptor.

Multiple DNA-binding factors interact with overlapping specificities at the aryl hydrocarbon response element of the cytochrome P450IA1 gene.

Antigen-induced cross-linking of the IgE receptor leads to an association with the detergent-insoluble membrane skeleton of rat basophilic leukemia (RBL-2H3) cells.

Reactive oxygen metabolites in endotoxin-induced acute renal failure in rats.

[Experimental study of combined effects of benzo(a)pyrene and ortho-cresol on the body].

Hydrogen peroxide-induced alterations in prostaglandin secretion in the rat colon in vitro.

A critical review of the developmental toxicity and teratogenicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin: recent advances toward understanding the mechanism.

Acetaldehyde-collagen adducts in CCl₄-induced liver injury in rats.

Towards a more effective management of pregnancy related anaemias in Africa.

Therapeutic effects of fengabine, a new GABAergic agent, in depressed outpatients: a double-blind study versus clomipramine.

Autologous blood transfusions in children and young adults with low body weight undergoing spinal surgery.

Human body burden of polychlorinated dibenzofurans associated with toxicity based on the yusho and yucheng incidents.

Inhibition of abl oncogene tyrosine kinase induces erythroid differentiation of human myelogenous leukemia K562 cells.

Embryotoxic effects of sodium azide infusions in the Syrian hamster.

Examination of immune parameters and host resistance mechanisms in B6C3F1 mice following adult exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Human HLA-DR beta gene hypervariable region homology in the biobreeding BB rat: selection of the diabetic-resistant subline as a rheumatoid arthritis research tool to characterize the immunopathologic response to human type II collagen.

Substitution of arginine for glycine at position 847 in the triple-helical domain of the alpha 1 (I) chain of type I collagen produces lethal osteogenesis imperfecta. Molecules that contain one or two abnormal chains differ in stability and secretion.

Pesticide exposures and other agricultural risk factors for leukemia among men in Iowa and Minnesota.

A base substitution at a splice site in the COL3A1 gene causes exon skipping and generates abnormal type III procollagen in a patient with Ehlers-Danlos syndrome type IV.

Sinemet-ferrous sulphate interaction in patients with Parkinson's disease.

The effect of TCDD on acyl CoA:retinol acyltransferase activity and vitamin A accumulation in the kidney of male Sprague-Dawley rats.

Remarkable residual alterations in responses to feeding regulatory challenges in Han/Wistar rats after recovery from the acute toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Poppy tea drinking in East Anglia.

Formation of the 37KD protein-acetaldehyde adduct in liver during alcohol treatment is dependent on alcohol dehydrogenase activity.

2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD)-induced appetite suppression in the Sprague-Dawley rat is not a direct effect on feed intake regulation in the brain.

Inhibition of testicular steroidogenesis in 2,3,7,8-tetrachlorodibenzo-p-dioxin-treated rats: evidence that the key lesion occurs prior to or during pregnenolone formation.

Thermogenesis and thermoregulatory function of iron-deficient women without anemia.

Confirmation by peptide sequence and co-expression on various cell types of the identity of CD44 and P85 glycoprotein.

Two modes of idiotypic stimulation of T lymphocytes from patients with Chagas' disease: correlations with clinical forms of infection.

Potassium accumulation in the globally ischemic mammalian heart. A role for the ATP-sensitive potassium channel.

Enhanced deposition of predominantly type I collagen in myocardial disease.

Specificity of antibodies to type II collagen in rheumatoid arthritis.

Human immunodeficiency virus I-induced expression of P-glycoprotein.

[Excretion of phenol and p-cresol in the urine in fasting obese individuals and in persons treated with total enteral nutrition].

Prevalence of iron deficiency in children aged 9-24 mo from a large urban area of Argentina.

Photosensitizing potential of benzanthrone.

Oxidative injury mediated by the hepatic cytochrome P-450 system in conjunction with cellular iron. Effects on the pathway of haem biosynthesis.

2,3,7,8-Tetrachlorodibenzo-p-dioxin enhances responsiveness to post-ingestive satiety signals.

Reversible focal neurologic deficits in severe iron deficiency anemia.

Immunoglobulin heavy-chain-associated amyloidosis.

Epitopes of Escherichia coli alpha-hemolysin: identification of monoclonal antibodies that prevent hemolysis.

Preliminary report: furunculosis and hypoferraemia.

Inhibition of high-density growth arrest in human squamous carcinoma cells by 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Neutral and acidic human tracheobronchial mucin. Isolation and characterization of core protein.

Diversity of antibodies to type II collagen in patients with rheumatoid arthritis: detection by binding to alpha-chains and to cyanogen bromide peptides.

Contact sensitization by pesticides in farmers.

Another mechanism for the defect in type III collagen accumulation in Ehlers-Danlos syndrome type IV: increased intracellular degradation of the procollagen.

Influence of latent iron deficiency on generation of oxygen species in polymorphonuclear leucocytes.

Ontogeny of mitochondrial calcium transport in spontaneously hypertensive (SHR) and WKY rats.

Detection of point mutations in type I collagen by RNase digestion of RNA/RNA hybrids.

Effect of rhein on the glucose metabolism of Ehrlich ascites tumor cells.

Differential toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in C57BL/6J mice congenic at the Ah Locus.

Identification of cytochrome P450IA2 as a human autoantigen.

[Iron deficiency and pregnancy. A survey in a Mother and Child Care Center in Niamey (Niger)].

Altered calcium homeostasis in irreversibly injured P388D1 macrophages.

[Treatment of pulp diseases in milk teeth with chlorocamphomenthol].

[Hemolytic anemia following surgical repair of mitral valve insufficiency in children].

Excess of seminomas observed in Vietnam service U.S. military working dogs.

[Evolution of autotransfusion: effect of a diet with and without the ingestion of iron].

Two cases of acute toluene intoxication.

Occupation and the risk of bladder cancer.

Influence of dissolution rate and pH of oral medications on drug-induced esophageal injury.

Lack of I-compounds in DNA from a spectrum of Morris hepatomas.

[Development of the concept of antidotes: the contribution of clinical toxicology].

[The nature, severity and distribution of obstructive airway lesions in COPD studied by morphometry and computer-assisted 3-D reconstruction].

Effect of sodium azide on hydrogen peroxide production by zymosan-activated human neutrophils.

Treatment of the endodontic emergency: a decade later.

Hepatic steatosis in zebra fish (*Brachydanio rerio*) induced by long-term exposure to gamma-hexachlorocyclohexane.

Characterization of ATP and calmodulin-binding properties of a truncated form of *Bacillus anthracis* adenylate cyclase.

Mechanism of the toxicity of 2,3,7,8-TCDD.

Studies on the role of lipid peroxidation in the acute toxicity of TCDD in rats.

Cellular fatty acid compositions of an unidentified organism and a bacterium associated with cat scratch disease.

Appropriateness of DSM-III-R criteria for posttraumatic stress disorder.

Isoproterenol-induced maximal heart rate in normothermic and hyperthermic horses.

Identification of 2-(2'-octenyl) succinic acid in urine.

Targeted deletion mutagenesis of the beta subunit of cytochrome b559 protein destabilizes the reaction center of photosystem II.

[Effect of monoamine neurotransmitters in the hypothalamus in a cortisol-induced rat model of yang-deficiency].

Decreased survival rate of pancreatic acinar cells isolated from rats with acute pancreatitis.

Antitumor activity of T-2 toxin-conjugated monoclonal antibody to murine thymoma.

Influence of habitat modification on the intestinal helminth community ecology of cottontail rabbit populations.

Fibril in senile systemic amyloidosis is derived from normal transthyretin.

Intradural granulocytic sarcoma presenting as a lumbar radiculopathy. Case report.

Role of the Ah locus in suppression of cytotoxic T lymphocyte activity by halogenated aromatic hydrocarbons (PCBs and TCDD): structure-activity relationships and effects in C57Bl/6 mice congenic at the Ah locus.

Molecular cloning of a cDNA encoding a major pathogenic domain of the Heymann nephritis antigen gp330.

Modification of membrane permeability measured by Texas-Red during cell cycle progression and differentiation.

Evaluation of national nutritional anemia prophylaxis programme.

A latent Mr 94,000 gelatin-degrading metalloprotease induced during differentiation of HL-60 promyelocytic leukemia cells: a member of the collagenase family of enzymes.

Cytosolic-nuclear tumor promoter-specific binding protein (CN-TPBP) in human promyelocytic leukemia cells HL-60.

Two-year oral chronic toxicity and carcinogenicity study in rats of diets fumigated with methyl bromide.

Synthesis of human splenin (hSP) and examination of its immunological effects on the impaired T- and B-lymphocytes in uremic patients.

[Acute myelomonocytic leukemia with mastocytosis in bone marrow].

Histological examination of the temporal bone in medicolegal cases of asphyxia.

Ethylene dichloride: the influence of disulfiram or ethanol on oncogenicity, metabolism, and DNA covalent binding in rats.

Relative toxicity and tumor-promoting ability of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD), 2,3,4,7,8-pentachlorodibenzofuran (PCDF), and 1,2,3,4,7,8-hexachlorodibenzofuran (HCDF) in hairless mice.

Spontaneous formation of pigmentary precipitates in bile salt-depleted rat bile and its prevention by micelle-forming bile salts.

The effect of mitochondrial inhibitors on calcium homeostasis in tumor mast cells.

Neurogenic inflammation, vascular permeability, and mast cells. Capsaicin desensitization fails to influence IgE-anti-DNP induced vascular permeability in rat airways.

Unintentional methyl bromide gas release--Florida, 1988.

Cornified envelopes in congenital disorders of keratinization.

Illness, injuries, and deaths from pesticide exposures in California 1949-1988.

Methemoglobinemia with oxidized hemoglobins and modified hemoglobins found in bloods of workers handling aromatic compounds and in those of a man who drank cresol solution.

Death following accidental sodium azide ingestion.

Parkinson's disease: a case-control study of occupational and environmental risk factors.

Methyl bromide intoxication in four field-workers during removal of soil fumigation sheets.

Embryotoxic effects of sodium arsenite and sodium arsenate on mouse embryos in culture.

Epidemic hypotension in a dialysis center caused by sodium azide.

Cross-antigenicity between the major surface proteins (ospA and ospB) and other proteins of *Borrelia burgdorferi*.

Urinary levels of proteins and metabolites in workers exposed to toluene. A cross-sectional study.

Mortality and morbidity among Army Chemical Corps Vietnam veterans: a preliminary report.

Cancer in Iowa farmers: recent results.

Epidemiologic studies of cancer in agricultural workers.

The specific DNA binding activity of the dioxin receptor is modulated by the 90 kd heat shock protein.

Uptake and release of calcium ions by heavy sarcoplasmic reticulum fraction of normal and malignant hyperthermia-susceptible human skeletal muscle.

Kinetics of internalization and cytotoxicity of transferrin-neocarzinostatin conjugate in human leukemia cell line, K562.

Thirty-four-year mortality follow-up of BASF employees exposed to 2,3,7,8-TCDD after the 1953 accident.

Marfan syndrome: absence of type I or III collagen structural defects in 25 patients.

Comparative studies on the action of 7-N-[2-[[2-(gamma-L-glutamylamino)ethyl]dithio]ethyl]mitomycin C and of mitomycin C on cultured HL-60 cells and isolated phage and plasmid DNA.

Canadian Farm Operator Study: methodology.

Local mechanical oscillations of the cell surface within the range 0.2-30 Hz.

Reversible alteration in the expression of the gap junctional protein connexin 32 during tumor promotion in rat liver and its role during cell proliferation.

A new perspective of S-antigen from immunochemical analysis.

Golgi-like demonstration of "dark" neurons with an argyrophil III method for experimental neuropathology.

Occupational and environmental hygiene assessment of fumigations with methyl bromide.

Lung injury in Fischer but not Sprague-Dawley rats after short-term hyperoxia.

Effects of glutathione depletion on the acute nephrotoxic potential of arsenite and on arsenic metabolism in hamsters.

Alteration in protein synthesis in primary cultures of rat kidney proximal tubule epithelial cells by exposure to gallium, indium, and arsenite.

The association of selected cancers with service in the US military in Vietnam. III. Hodgkin's disease, nasal cancer, nasopharyngeal cancer, and primary liver cancer. The Selected Cancers Cooperative Study Group.

The association of selected cancers with service in the US military in Vietnam. II. Soft-tissue and other sarcomas. The Selected Cancers Cooperative Study Group.

The association of selected cancers with service in the US military in Vietnam. I. Non-Hodgkin's lymphoma. The Selected Cancers Cooperative Study Group.

Changes in disposition kinetics of sulphadimidine in response to acute regional liver damage in sheep.

Cloning of the E. coli O-acetylserine sulfhydrylase gene: ability of the clone to produce a mutagenic product from azide and O-acetylserine.

Hepatic aryl hydrocarbon hydroxylase and cytochrome P450 induction following the transpulmonary absorption of TCDD from intratracheally instilled particles.

Prothymocyte activity is reduced by perinatal 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure.

Drug-induced esophageal injury. Histopathological study in a rabbit model.

Consideration of both genotoxic and nongenotoxic mechanisms in predicting carcinogenic potential.

Comparison of the intoxication pathways of tumor necrosis factor and diphtheria toxin.

Tissue uptake of lithium in guinea-pig isolated intestinal mucosa after chronic lithium ingestion.

Priming the system that causes the release of cytosolic proteins in the perfused rat heart.

Incorporation of a subacute test with zebra fish into a hierarchical system for evaluating the effect of toxicants in the aquatic environment.

Gas chromatographic determination of cresols in the biological fluids of a non-fatal case of cresol intoxication.

Flow cytometric analysis of lymphocyte subpopulations in the spleen and thymus of mice exposed to an acute immunosuppressive dose of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

[Morphofunctional status of blood and bone marrow cells in acute experimental hepatitis induced by allyl alcohol].

Expression and biochemical characterization of human immunodeficiency virus type 1 nef gene product.

Halothane impairs the bioenergetic functions of isolated rat liver mitochondria.

The rapid detection of direct-acting DNA mutagens by electrical impedance with a DNA repair-deficient strain of *Escherichia coli*.

2,3,7,8-tetrachlorodibenzo-p-dioxin increases the potency of androgens and estrogens as feedback inhibitors of luteinizing hormone secretion in male rats.

Glutathione enhancement in various mouse organs and protection by glutathione isopropyl ester against liver injury.

Lipid peroxidation and antioxidant systems in the liver injury produced by glutathione depleting agents.

Collagen biosynthesis in rabbit intraarticular patellar tendon transplants.

Acute toxicity of cadmium, copper, zinc, ammonia, 3,3'-dichlorobenzidine, 2,6-dichloro-4-nitroaniline, methylene chloride, and 2,4,6-trichlorophenol to juvenile grass shrimp and killifish.

Age-related DNA modifications (I-compounds): modulation by physiological and pathological processes.

Protein degradation in cultured fetal hepatocytes. Absence of an inhibitory effect of insulin.

The involvement of the photoinhibition of photosystem II and impaired membrane energization in the reduced quantum yield of carbon assimilation in chilled maize.

Malformed fetuses and karyotype abnormalities in the offspring of cyclophosphamide and allyl alcohol-treated male rats.

Lipid peroxidation effects of a novel iron compound, ferric maltol. A comparison with ferrous sulphate.

Thionamides and arsenite inhibit specific T3 binding to the hepatic nuclear receptor.

Role of nerve growth factor in oxidant-antioxidant balance and neuronal injury. I. Stimulation of hydrogen peroxide resistance.

Influence of dietary zinc and iron on zinc retention in pregnant rhesus monkeys and their infants.

Impairment of prothymocyte activity by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Herpes simplex virus type 1 ribonucleotide reductase: selective and synergistic inactivation by A1110U and its iron complex.

Isolation and sequencing of NOP1. A yeast gene encoding a nucleolar protein homologous to a human autoimmune antigen.

CO(2) Incorporation and 4-Hydroxy-2-Methylbenzoic Acid Formation during Anaerobic Metabolism of m-Cresol by a Methanogenic Consortium.

Ionic imbalances in the CNS of neonate rat during induced benthocarb stress.

Molecular cloning of human protein 4.2: a major component of the erythrocyte membrane.

Two evolutionary models for the interactions of dietary organic cyanogens, hemoglobins, and falciparum malaria.

Preservatives in insulin preparations impair leukocyte function. In vitro study.

Ascorbate- and hemoglobin-dependent brain chemiluminescence.

Evaluation of a 14-day static renewal toxicity test with *Daphnia magna* straus.

Effects of perfluoro-n-decanoic acid on the respiratory activity of isolated rat liver mitochondria.

Dioxin levels in adipose tissues of hospitalized women living in the south of Vietnam in 1984-89 with a brief review of their clinical histories.

Effects of selected chemicals on the glutathione status in the male reproductive system of rats.

Limitations of the erythropoietic response to serial phlebotomy: implications for autologous blood donor programs.

Agrobacterium in plant disease, biological disease control and plant genetic engineering.

High molecular weight forms of deferoxamine: novel therapeutic agents for treatment of iron-mediated tissue injury.

The role of vitamin E in the hepatotoxicity by glutathione depleting agents.

Oxidative stress induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Metabolism and pulmonary toxicity of cyclophosphamide.

Persistence of gluconeogenesis in *Escherichia coli* poisoned by oxidant stress.

Hepatotoxin-induced hypertaurinuria: a proton NMR study.

On the molecular interactions between fibrin, tissue-type plasminogen activator and plasminogen.

Differences in time course of hepatocyte and pancreocyte damage after incubation with trypsin, chymotrypsin and 2,4-dinitrophenol.

Metabolism of chloronitrobenzenes by isolated rat hepatocytes.

[Hematologic parameters in repeated autologous blood donation].

[The effect of 2,3,7,8-tetrachlorodibenzo-para-dioxin on the reproduction of human immunodeficiency virus in lymphoid cell cultures].

Multiple, spatially distinct T cell epitopes within a pathogenic 123 residue cyanogen bromide peptide of bovine retinal s-antigen.

Inhibitory effect of paraquat on biotransformation of halothane in rabbit liver microsomes.

Effect of herbicide banvel on rabbit vaginal mucus membrane.

Development of a standardized reproduction toxicity test with the earthworm species *Eisenia fetida andrei* using copper, pentachlorophenol and 2,4-dichloroaniline.

ICRF 187 and polyhydroxyphenyl derivatives fail to protect against bleomycin induced lung injury.

Diquat hepatotoxicity in the Fischer-344 rat: the role of covalent binding to tissue proteins and lipids.

Paraquat resistance associated with reduced NADPH reductase in an energy-dependent paraquat-accumulating cell line.

Calcium carbimide in alcoholism treatment. Part 2: Medical findings of a short-term, placebo-controlled, double-blind clinical trial.

Behavioural, ECoG and neuropathological effects after intracerebral injection of MPP+ and paraquat in rats.

The effects of atrazine on microcosms developed from four natural plankton communities.

Paraquat poisoning: per vagina.

Acute health effects of community exposure to cotton defoliant.

[Photoallergic dermatitis caused by the herbicide phenmedipham].

Exposure to paraquat through skin absorption: clinical and laboratory observations of accidental splashing on healthy skin of agricultural workers.

Total exclusion from external respiration protects lungs from development of fibrosis after paraquat intoxication.

Oral and dermal pharmacokinetics of triclopyr in human volunteers.

[Hepatotoxicity induced by cyanamide. A review of the anatomicopathological changes apropos a case].

[Structural changes in the rat cerebral cortex induced by alcohol in combination with aldehyde dehydrogenase inhibitors].

Effect of paraquat on serum and lung angiotensin I converting enzyme (AICE) activity in beagle dogs.

The boring story of Agent Orange already is outdated.

[Acute poisoning by herbicide compounds].

Carcinogenicity and teratogenicity vs. psychogenicity: psychological characteristics associated with self-reported Agent Orange exposure among Vietnam combat veterans who seek treatment for substance abuse.

Toxicity test procedures for *Hyalella azteca*, and chronic toxicity of cadmium and pentachlorophenol to *H. azteca*, *Gammarus fasciatus*, and *Daphnia magna*.

Bronchial artery ligation modifies pulmonary edema after exposure to smoke with acrolein.

Effects of different dilution water types on the acute toxicity to juvenile Pacific salmonids and rainbow trout of glyphosate and its formulated products.

Gardening and young onset Parkinson disease.

Testing of genotoxic effects of 2,4-dichlorophenoxyacetic acid (2,4-D) using multiple genetic assay systems of plants.

Effectiveness of sodium sugar sulfates on acute toxicity of paraquat in mice.

Dioxin and health. Agent Orange study blasted.

A morphologic study of Vietnam veterans.

HPLC measurement of chlorophenoxy herbicides, bromoxynil, and ioxynil, in biological specimens to aid diagnosis of acute poisoning.

The epidemiology of paraquat intoxications in Surinam.

[Failure of a cyclophosphamide-dexamethasone combination in paraquat poisoning].

[Clinical studies on paraquat poisoning; prognosis and severity index of paraquat poisoning using the urine levels].

[Evaluation of the capability of 1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine and pyridine derivatives to evoke parkinsonism].

Cancer risk in a cohort of licensed pesticide users.

Preventive effect of taurine against acute paraquat intoxication in beagles.

Parkinson disease in farm workers.

Quantitative evaluation of chlortoluran-induced splenic hemosiderosis by means of an image analyzer.

Comparative toxicity of allylamine and acrolein in cultured myocytes and fibroblasts from neonatal rat heart.

Acute vapour inhalation toxicity of acrolein and its influence as a trace contaminant in 2-methoxy-3,4-dihydro-2H-pyran.

Effect of acute propanil exposure on the immune response of C57Bl/6 mice.

Urological complications of cyclophosphamide.

Paraquat poisoning with acute renal failure--a case report.

[Paraquat poisoning. Pulmonary lesions].

[Anabolic effects of sodium selenite, vitamin E and retabolil in experimental hypotrophy induced by a pesticide].

Production and toxicological application of anti-paraquat antibodies.

A variant of mass (epidemic) psychogenic illness in the agricultural work setting.

Effects of paraquat on canine bronchoalveolar lavage fluid.

Null mutation of copper/zinc superoxide dismutase in *Drosophila* confers hypersensitivity to paraquat and reduced longevity.

The effects of 24% paraquat (1,1'-dimethyl-4,4'-bipyridylium dichloride) on hemodynamics, blood gases, plasma lactate and plasma catecholamines in dogs.

[A 73-year-old patient with discrete changes in hepatic biochemistry].

Immunotherapy for the treatment of acute paraquat poisoning.

Rat urinary bladder epithelial lesions induced by acrolein.

Effects of paternal subacute exposure to Tordon 202c on fetal growth and development in CD-1 mice.

Continuous intravenous infusion of deferoxamine reduces mortality by paraquat in vitamin E-deficient rats.

Free radical effects on lung metabolism.

Contact leucoderma from paraquat dichloride?

[Paraquat poisoning: clinical and anatomopathologic aspects in 3 cases].

Dinoseb toxicosis in two dogs.

Phenoxy herbicides and non-Hodgkin's lymphoma in New Zealand: frequency and duration of herbicide use.

Triazine herbicides and ovarian epithelial neoplasms.

Effectiveness of vitamin E and colchicine in amelioration of paraquat lung injuries using an experimental model.

Acute arsenic toxication of a free-ranging white-tailed deer in New York.

The logic of a controversy: the case of Agent Orange in Australia.

[Characteristics of the development of cataract models against a background of poisoning].

The ratio of oxidized/reduced glutathione as an index of oxidative stress in various experimental models of shock syndrome.

A new method for predicting the outcome and survival period in paraquat poisoning.

Environmental fate of alachlor and metolachlor.

Mechanistic studies: their role in the toxicological evaluation of pesticides.

Phenoxy herbicides and cancer: insufficient epidemiologic evidence for a causal relationship.

[Lung changes in rats under the action of paraquat and the importance of antioxidants].

Effects of gestational exposure to Tordon 202c on fetal growth and development in CD-1 mice.

[Problem of correlating the effect of carbon fiber dust on the body and the degree of migration of residual monomers and the products of their thermal destruction in a model biological media].

Determination of paraquat in raw and formalin-fixed tissues by electron spin resonance (ESR) spectroscopy.

An immunohistochemical study of the fibrosing process in paraquat lung injury.

Phenoxyacetic acid herbicides and chlorophenols and the etiology of lymphoma and soft-tissue neoplasms.

[Toxicological and hygienic characteristics of sulfocarbathione].

Elevated superoxide dismutase in Bloom's syndrome: a genetic condition of oxidative stress.

The relation between the oxidative biotransformation of hexachlorobenzene and its porphyrinogenic activity.

Enhanced in vivo H₂O₂ generation by rat kidney in glycerol-induced renal failure.

An evaluation of purified reconstituted type 1 collagen fibers.

A new activity of herbimycin A: inhibition of angiogenesis.

Mitochondria and xanthine oxidase both generate reactive oxygen species in isolated perfused rat liver after hypoxic injury.

The coincidence of myocardial reperfusion injury and hydrogen peroxide production in the isolated rat heart.

Experimental pulmonary fibrosis induced by paraquat plus oxygen in rats: a morphologic and biochemical sequential study.

Endotoxin pretreatment increases endogenous myocardial catalase activity and decreases ischemia-reperfusion injury of isolated rat hearts.

Erythrocyte catalase decreases cardiac reperfusion injury.

Bronchial responsiveness and inflammation in guinea pigs exposed to acrolein.

Cyanamide and its calcium form: do they differ with respect to their action on the liver cell? Experimental study in the rat.

Inhibition of brain dopa-decarboxylase by RO 4-4602 infused ICV blocks alcohol drinking induced in rats by cyanamide.

Relationship between changes in alveolar surfactant levels and lung defence mechanisms.

Nuclearly inherited diuron-resistant mutations conferring a deficiency in the NADH--or succinate--ubiquinone oxidoreductase activity in *Saccharomyces cerevisiae*.

Resistance of rat pulmonary alveolar epithelial cells to neutrophil- and oxidant-induced injury.

Relative importance of intracellular glutathione peroxidase and catalase in vivo for prevention of peroxidation to the heart.

Methoxyflurane enhances allyl alcohol hepatotoxicity in rats. Possible involvement of increased acrolein formation.

Effects of MPTP, MPP⁺ and paraquat on mitochondrial potential and oxidative stress.

Effect of chronic ethanol, catalase inhibitor 3-amino-1,2,4-triazole and clofibrate treatment on lipid peroxidation in rat myocardium.

Catalase is needed to avoid tissue peroxidation in *Rana perezi* in normoxia.

[Effects of IPO-63, Carbaryl, Foschlor and Reglone on Newcastle disease virus replication in chick embryo and chick embryo cell cultures].

NADPH-dependent drug redox cycling and lipid peroxidation in microsomes from human term placenta.

Biological activity of 2,4,8-trichlorodibenzofuran: promotion of rat liver foci and induction of cytochrome P-450-dependent monooxygenases.

[Preventing iron deficiency in breast-fed infants by suitable supplementary food. A prospective, controlled study].

Hemoglobin as a predictor of response to iron therapy and its use in screening and prevalence estimates.

Alteration of the acute toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) by estradiol and tamoxifen.

The adrenocorticotrophic hormone (ACTH)-induced reversal of hemorrhagic shock.

Identification of an immunosuppressive epitope of type II collagen that confers protection against collagen-induced arthritis.

A highly potent antiangiogenic activity of retinoids.

Epidermal damage induced by irritants in man: a light and electron microscopic study.

Induction of endonucleolytic DNA cleavage in human acute myelogenous leukemia cells by etoposide, camptothecin, and other cytotoxic anticancer drugs: a cautionary note.

[In vivo study of the analgesic action of different methods and drugs in endodontics].

Acute toxicity of perfluorodecanoic acid in C57BL/6 mice differs from 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Teratogenic assessment of 2,4-dichlorophenol in Fischer 344 rats.

Biological monitoring of arsenic exposure of gallium arsenide- and inorganic arsenic-exposed workers by determination of inorganic arsenic and its metabolites in urine and hair.

Medical monitoring of dioxin clean-up workers.

Effects of hypoxia, elevated K⁺ and acidosis on the potency of verapamil, diltiazem and nifedipine in the guinea-pig isolated papillary muscle.

Characterization of mammalian type IX collagen fragments from limited pepsin digests of a transplantable swarm rat chondrosarcoma.

Effects of the beta-isomer of hexachlorocyclohexane on estrogen-sensitive human mammary tumor cells.

[Noncirrhotic liver fibrosis after chronic arsenic poisoning].

Identification of T cell recognition sites in S-antigen: dissociation of proliferative and pathogenic sites.

Fibrinogen Baltimore IV: congenital dysfibrinogenemia with a gamma 275 (Arg----Cys) substitution.

Effect of tetrachlorodibenzo-p-dioxin (TCDD) on the glucuronidation of retinoic acid in the rat.

The central nervous system may be involved in TCDD toxicity.

Albumin decreases hydrogen peroxide and reperfusion injury in isolated rat hearts.

Interaction of mammalian cells with polymorphonuclear leukocytes: relative sensitivity to monolayer disruption and killing.

Fatal azide-induced cardiomyopathy presenting as acute myocardial infarction.

Epidemiologic study of Parkinson's disease in Hong Kong.

Collagen types and matrix protein content in human abdominal aortic aneurysms.

Effect of subacute low level dietary sodium arsenite on dogs.

Mitochondrial myopathies: morphological and biochemical studies in human muscle cultures.

Stabilization of ornithine decarboxylase in erythroleukemia cells depleted of ATP.

Prediction and evaluation of the effect of iron treatment in anaemic RA patients.

Occupation and lymphoid neoplasms.

Species differences in estrogen receptors and in the response to 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure.

2,3,7,8-Tetrachlorodibenzo-p-dioxin-induced porphyria in genetically inbred mice: partial antagonism and mechanistic studies.

Cottonseed meal (gossypol) toxicosis in a swine herd.

Preliminary findings on iron supplementation and learning achievement of rural Indonesian children.

Iron deficiency and educational achievement in Thailand.

Estimation of the body burden of arsenic in a child fatally poisoned by arsenite weedkiller.

Intracellular distribution and pharmacokinetics of daunorubicin in anthracycline-sensitive and -resistant HL-60 cells.

Structure-dependent induction of aryl hydrocarbon hydroxylase in human breast cancer cell lines and characterization of the Ah receptor.

Nigexine, a phospholipase A2 from cobra venom with cytotoxic properties not related to esterase activity. Purification, amino acid sequence, and biological properties.

[Oral iron therapy. Bioavailability and therapeutic effectiveness of ferrous iron in effervescent tablets in posthemorrhagic iron deficiency anemia].

Suppression of aryl hydrocarbon hydroxylase activity in human primary lung carcinoma x mouse hepatoma somatic cell hybrids.

Iron management during recombinant human erythropoietin therapy.

[Study on the effects of Dobells' solution].

Effect of sodium arsenite on the induction and turnover of ornithine decarboxylase activity in erythroleukemia cells.

Induction of in vitro differentiation of mouse embryonal carcinoma (F9) and erythroleukemia (MEL) cells by herbimycin A, an inhibitor of protein phosphorylation.

Type II collagen defects in the chondrodysplasias. I. Spondyloepiphyseal dysplasias.

Eimeria tenella: local antibodies and interactions with the sporozoite surface.

Mortality in an area contaminated by TCDD following an industrial incident.

General method for site-directed mutagenesis in Escherichia coli O18ac:K1:H7: deletion of the inducible superoxide dismutase gene, sodA, does not diminish bacteremia in neonatal rats.

Powerful antiangiogenic activity of herbimycin A (named angiostatic antibiotic).

Characteristics of 2,3,7,8-tetrachlorodibenzo-p-dioxin induced endotoxin hypersensitivity: association with hepatotoxicity.

Cellular alterations and enhanced induction of cleft palate after coadministration of retinoic acid and TCDD.

Pattern of poisoning in rural Sri Lanka.

A base substitution in the exon of a collagen gene causes alternative splicing and generates a structurally abnormal polypeptide in a patient with Ehlers-Danlos syndrome type VII.

Iron deficiency among active men.

The effects of prelatent/latent iron deficiency on physical work capacity.

Ten-year mortality study of the population involved in the Seveso incident in 1976.

Simplified method for screening populations at risk for transthyretin Met30-associated familial amyloidotic polyneuropathy.

Effect of TCDD on the density of Langerhans cells in murine skin.

Sex-linked differences in susceptibility of cynomolgus monkeys to type II collagen-induced arthritis. Evidence that epitope-specific immune suppression is involved in the regulation of type II collagen autoantibody formation.

Mitochondrial function in carbon tetrachloride-induced cirrhosis in the rat. Qualitative and quantitative defects.

Chronic arsenicism with vitiligo, hyperthyroidism, and cancer.

Effects of trypsin, chymotrypsin, and uncoupling on survival of isolated acinar cells from rat pancreas.

Retinoic acid and 2,3,7,8-tetrachlorodibenzo-p-dioxin selectively enhance teratogenesis in C57BL/6N mice.

Skin reactions to irritants assessed by non-invasive bioengineering methods.

A critical view of the mechanism(s) of toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin. Implications for human safety assessment.

Characterization of MB creatine kinase isoform conversion in vitro and in vivo in dogs.

A case-control study of multiple myeloma nested in the American Cancer Society prospective study.

Structural characterization of kappa II Inc, a new amyloid immunoglobulin.

[Histologic evaluation of gastric tolerability in rats of ferritin compared with ferrous sulfate].

Effect of hepatic failure toxins on regenerative enzymes in the liver after injury with galactosamine in the rat.

Separation methods for the study of collagen and treatment of collagen disorders.

Reperfusion-induced calcium gain after ischemia.

In vivo susceptibility of *Campylobacter pylori*.

The effect of a chalcogenapyrylium dye with and without photolysis on mitochondrial function in normal and tumor cells.

Role of differential drug uptake, efflux, and binding of etoposide in sensitive and resistant human tumor cell lines: implications for the mechanisms of drug resistance.

Cyanide and arsenic poisoning by intravenous injection.

Cancer incidence of workers in a Finnish sawmill.

Histopathological effects of monosodium methanearsonate (MSMA) on New Zealand white rabbits (*Oryctolagus cuniculus*).

Erythrocytes decrease myocardial hydrogen peroxide levels and reperfusion injury.

Reversible downregulation of thiazide diuretic receptors by acute renal ischemia.

A lethal variant of osteogenesis imperfecta has a single base mutation that substitutes cysteine for glycine 904 of the alpha 1(I) chain of type I procollagen. The asymptomatic mother has an unidentified mutation producing an overmodified and unstable type I procollagen.

Basal lipid peroxidation in substantia nigra is increased in Parkinson's disease.

[A case of remarkable bronchial stenosis due to aspiration of delayed-release iron tablet].

Hematotoxic effects in the rat of a toluene dinitro derivative after short-term exposure.

Iron status in patients receiving erythropoietin for dialysis-associated anemia.

Update of mortality among chemical workers with potential exposure to the higher chlorinated dioxins.

Characterization of a developmental toxicity dose-response model.

The role of "negative" epidemiology data in the evaluation of risk.

Loss of a calcium requirement for protein synthesis in pituitary cells following thermal or chemical stress.

Detection of activated lymphocyte subsets by fluorescence and MTT staining.

Induction of erythroid differentiation of K562 human leukemic cells by herbimycin A, an inhibitor of tyrosine kinase activity.

Psychosocial determinants of compliance in adolescents with iron deficiency.

[The specific effects of new phenoxyacetic acid derivatives at the cellular membrane level].

Development and validation of a cellular transplant model for leukemia in Fischer rats: a short-term assay for potential anti-leukemic chemicals.

Levels of polychlorinated dibenzo-p-dioxins and dibenzofurans in workers exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Follow-up of subjects who developed chloracne following TCDD exposure at Seveso.

The epidemiology of non-Hodgkin's lymphoma in the north-east of Italy: a hospital-based case-control study.

Monitoring of genetic instability in subjects with increased risk of cancer.

Ehlers-Danlos syndrome type IV (EDS IV) as model of a defective biopolymer composite material.

Minnesota Highway Maintenance Worker Study: cancer mortality.

Three models of free radical-induced cell injury.

Fengabine, a new GABA-mimetic agent in the treatment of depressive disorders: an overview of six double-blind studies versus tricyclics.

The effect of iron therapy on malarial infection in Papua New Guinean schoolchildren.

Dioxins and furans in the mother and possible effects on the fetus and newborn breast-fed baby.

Biological exposure monitoring of methyl bromide workers by determination of hemoglobin adducts.

Amino acid sequence variations in protein AA of cats with high and low incidences of AA amyloidosis.

Assessment of hazards to workers applying pesticides.

Iodine-131 MIBG scintigraphy in small cell lung cancer.

Oxygen free radicals and corneal endothelium.

Ligand-dependent interaction of the dioxin receptor with target DNA.

Radicals involved in photoallergen/protein interactions.

Specific protein-DNA interactions at a xenobiotic-responsive element: copurification of dioxin receptor and DNA-binding activity.

Studies on phagocytosis in patients with acute bacterial infections.

The effect of oxidants on biomembranes and cellular metabolism.

Myoinositol inhibits proliferation of cultured Schwann cells: evidence for neurotoxicity of myoinositol.

Prevention of iron deficiency by milk fortification. The Chilean experience.

Cell kinetic evidence suggests elevated oxidative stress in cultured cells of Bloom's syndrome.

[A radioisotope method for assessing the anaphylactogenicity of polymer drugs].

Achilles tendon replacement by a collagen fiber prosthesis: morphological evaluation of neotendon formation.

Extracellular calcium alleviates cell toxicity due to hepatotoxins that induce lipid peroxidation, but has no effect on toxins that do not cause lipid peroxidation. A study in isolated rat hepatocytes.

Biphasic response for hepatic microsomal enzyme induction by 2,3,7,8-tetrachlorodibenzo-p-dioxin in C57BL/6J and DBA/2J mice.

Further studies on the 37 kD liver protein-acetaldehyde adduct that forms in vivo during chronic alcohol ingestion.

[Effects of FeSO₄ on electrical and mechanical activity of guinea pig papillary muscles].

Enhanced cytotoxicity in simultaneous and sequential drug-heat treatments of cultured Chinese hamster V79 cells.

The interactions of desferrioxamine and hydroxypyridone compounds with haemoglobin and erythrocytes.

Microspore mutagenesis and selection: Canola plants with field tolerance to the imidazolinones.

Autologous blood transfusions and plastic surgery.

Uncoupler resistance in *Escherichia coli*: the role of cellular respiration.

Assessing risks and preventing disease from environmental chemicals.

Plasma concentrations of pituitary hormones in 2,3,7,8-tetrachlorodibenzo-p-dioxin-treated male rats.

Prolonged aerobic exercise: physiological studies in rat gastrocnemius with additional observations on the effects of acute mitochondrial blockade.

Microcontaminants and reproductive impairment of the Forster's tern on Green Bay, Lake Michigan--1983.

Methods of microphotometric assay of succinate dehydrogenase and cytochrome c oxidase activities for use on human skeletal muscle.

Lethal hydroxyl radical production in paraquat-treated plants.

Experimental zinc deficiency: effects on cellular responses and the affinity of humoral antibody.

Villus contraction aids repair of intestinal epithelium after injury.

2,3,7,8-Tetrachlorodibenzo-p-dioxin alters embryonic palatal medial epithelial cell differentiation in vitro.

Detection of an amino acid substitution in the mutant enzyme for a special type of adenine phosphoribosyltransferase (APRT) deficiency by sequence-specific protein cleavage.

Collagen metabolism in ultraviolet irradiated hairless mouse skin and its correlation to histochemical observations.

Sodium arsenite induced alterations in bilirubin excretion and heme metabolism.

Effects of anticholinergic drugs on regional brain neurotensin concentrations.

NTP Toxicology and Carcinogenesis Studies of 2,4-Dichlorophenol (CAS No. 120-83-2) in F344/N Rats and B6C3F1 Mice (Feed Studies).

Management of acute iron overdose.

Three fatal sodium azide poisonings.

[The effect of hepatotoxins on the activity of organelle-specific enzymes and metabolism of liver lipids].

[Tissue distribution, inductive effect on liver enzymes and acute toxicity of 2,3,4,7,8-pentachlorodibenzofuran in Golden Syrian hamsters].

Molecular cloning and characterization of protective outer membrane protein P.69 from *Bordetella pertussis*.

[Acute poisoning caused by sodium azide].

Substrate variability as a factor in enzyme inhibitor design: inhibition of ovine brain glutamine synthetase by alpha- and gamma-substituted phosphinothricins.

Synergistic toxicity between arsenic and methylated selenium compounds.

NTP Toxicology and Carcinogenesis Studies of Two Pentachlorophenol Technical-Grade Mixtures (CAS No. 87-86-5) in B6C3F1 Mice (Feed Studies).

Use of primary cultures of human hepatocytes in toxicology studies.

[Histochemical study on the mucosubstances of the calculi of the main excretory duct of the human submandibular gland].

Stimulated human neutrophils damage cardiac sarcoplasmic reticulum function by generation of oxidants.

Rat aglycotransferrin and human monoglycotransferrin: production and metabolic properties.

Interaction of human eosinophils or neutrophils with *Trypanosoma cruzi* in vitro causes bystander cardiac cell damage.

Rat lung glucose metabolism after 24 h of exposure to 100% oxygen.

Effect of calmodulin on sarcoplasmic reticular Ca^{2+} -transport in the aging heart.

Comparative dermal absorption of 2,3,7,8-tetrachlorodibenzo-p-dioxin and three polychlorinated dibenzofurans.

[Effectiveness of hepatoprotective agents in experimental allyl alcohol poisoning].

Effect of splenectomy on hepasor treatment in allyl-alcohol-traumatized rat liver.

Embryotoxicity of phenyl ketone analogs of cyclophosphamide.

The use of multiple endpoints to define the mechanism of action of reproductive toxicants and germ cell mutagens.

The value of multiple endpoint data in male reproductive toxicology: revelations in the rat.

Influence of aging on chemically induced hepatotoxicity: role of age-related changes in metabolism.

Steroid and xenobiotic effects on the adrenal cortex: mediation by oxidative and other mechanisms.

[The microsurgical treatment of penetrating wounds of the cornea with the use of collagenous materials].

[Modification of the toxic effects of phenylmercury by adaptive reactions of the rat kidney. 2. Adaptation to phenylmercury acetate, cadmium chloride and cupric chloride].

[The modification of the toxic effects of phenyl mercury by the adaptive reactions of the rat kidney. 1. Timely development of adaptation].

[The effect of pollen on the changes in the liver of laboratory rats evoked by ethionine, carbon tetrachloride, allyl alcohol and galactosamine].

The inhibition of lipid peroxidation by disulfiram prevents the killing of cultured hepatocytes by allyl alcohol, tert-butyl hydroperoxide, hydrogen peroxide and diethyl maleate.

Lipid peroxidation-dependent and -independent protein thiol modifications in isolated rat hepatocytes: differential effects of vitamin E and disulfiram.

Cationic polyelectrolytes: potent opsonic agents which activate the respiratory burst in leukocytes.

Dimethylthiourea prevents hydrogen peroxide and neutrophil mediated damage to lung endothelial cells in vitro and disappears in the process.

Sodium-azide-evoked noradrenaline and catecholamine release from peripheral sympathetic nerves and chromaffin cells.

Aspects of allyl alcohol toxicity.

Identification of the main immunogenic region of retinal S-antigen: subordinate influence of MHC, IGH, species or strain differences on the specificity of the antibody response.

Determination of biologically active region in toxic shock syndrome toxin 1.

Neuropathological lesions after microinfusion of paraquat and MPP+ into different areas of the rat brain.

Health and reproductive outcomes among American Legionnaires in relation to combat and herbicide exposure in Vietnam.

Neonatal paraquat poisoning: a case report.

Reproductive behaviour and consistent patterns of abnormality in offspring of Vietnam veterans.

Light and electron microscopic study of the liver in paraquat poisoning.

[No Parkinsonian syndrome following acute paraquat poisoning].

[The influence of long-term utilization of some herbicides on oral cavity tissues of white rats].

Effect of temperature on the chronic toxicity of Hydrothol-191 to the fathead minnow (*Pimephales promelas*).

Susceptibility in Parkinson's disease. 'Of mice and men'.

[A case of bullous contact dermatitis caused by butifos].

[Morphologic and histoenzymatic studies of rat kidneys after acute 2,4-dichlorophenoxyacetic acid (2,4-D) poisoning].

Herbicidal triazines: acute toxicity on *Daphnia*, fish, and plants and analysis of its relationships with structural factors.

Evaluation of the acute toxicity to juvenile pacific salmonids of hexazinone and its formulated products: Pronone 10G, Velpar L, and their carriers.

Functional teratogens of the rat kidney. II. Nitrofen and ethylenethiourea.

Functional teratogens of the rat kidney. I. Colchicine, dinoseb, and methyl salicylate.

Serum 2,3,7,8-tetrachlorodibenzo-p-dioxin levels in US Army Vietnam-era veterans. The Centers for Disease Control Veterans Health Studies.

Lethal injury by diquat redox cycling in an isolated hepatocyte model.

Inter-rater agreement in the assessment of occupational exposure to herbicides.

Delayed sudden death after ingestion of MCPP and ioxynil: an unusual presentation of hormonal weedkiller intoxication.

Mutagenesis of xeroderma pigmentosum fibroblasts by acrolein.

Liver membrane calcium transport in diquat-induced oxidative stress in vivo.

Current perspectives on clinical and experimental single lung transplantation.

Allylamine-induced vascular toxicity in vitro: prevention by semicarbazide-sensitive amine oxidase inhibitors.

Brain damage due to paraquat poisoning: a fatal case with neuropathological examination of the brain.

Prolonged, intravenous paraquat infusion in the rat. II. Paraquat-induced alterations in lung polyamine metabolism.

Acclimatization of roach, *Rutilus rutilus* (L.), to toxic components of kraft pulp mill effluents.

Acute MCPP intoxication: report of two cases.

Poisoning treatment centre admissions following acute incidents involving pesticides.

Early radiotherapy in the treatment of paraquat poisoning.

Pulmonary effects of repeated exposures to paraquat aerosol in guinea pigs.

Paraquat poisoning: biological presentation.

Oxidant stress following renal ischemia: changes in the glutathione redox ratio.

Neurobehavioral toxicity and tolerance to the herbicide 2,4-dichlorophenoxyacetic acid-n-butyl ester (2,4-D ester).

Relationships between intracellular vitamin E, lipid peroxidation, and chemical toxicity in hepatocytes.

Agent Orange exposure and posttraumatic stress disorder.

Alveolar cell carcinoma in a cook.

[Lysosomal hydrolase activity in the liver of rats with chronic sulfocarbathione poisoning].

An enzyme-linked immunosorbent assay for plasma-paraquat levels of poisoned patients.

[Penta-chlorophenol (Xylophene) poisoning].

Lipid peroxidation and tissue injury by ferric citrate in paraquat-intoxicated mice.

2,4-Dichlorophenoxyacetic acid intoxication increases its accumulation within the brain.

Probable toxicity of surface-active agent in commercial herbicide containing glyphosate.

[Paraquat poisoning. Apropos of a case with poor outcome].

Behavioural and electrocortical changes induced by paraquat after injection in specific areas of the brain of the rat.

Cause specific mortality among employees engaged in the manufacture, formulation, or packaging of 2,4-dichlorophenoxyacetic acid and related salts.

Adverse effects of (15S)-15-methyl-prostaglandin E1 in normal and paraquat-exposed rats.

Limited dermal ossification: a case report.

Marked hypocalcemia in a fatal poisoning with chlorinated phenoxy acid derivatives.

Chronic studies in rodents of vinyl acetate and compounds related to acrolein.

Toxicokinetics of paraquat through the heart-lung block. Six cases of acute human poisoning.

Mechanisms of fetal alcohol effects: role of acetaldehyde.

Pulmonary elastic fiber degradation in paraquat toxicity. An electron microscopic immunohistochemical study.

[Failure of chemotherapy and radiotherapy in pulmonary fibrosis caused by paraquat].

2,4-D-n-butyl ester (2,4-D ester) induced ataxia in rats: role for n-butanol formation.

Immune-mediated glomerulonephritis after exposure to paraquat.

Risk of malignant lymphoma in Swedish agricultural and forestry workers.

Agrochemical poisoning in Sri Lanka.

Failure of haemoperfusion and haemodialysis to prevent death in paraquat poisoning. A retrospective review of 42 patients.

Evaluation of monoclonal antibody against human pulmonary surfactant apoprotein.

Paraquat poisoning by skin absorption: a review.

[Pathomorphology of lung changes caused by gramoxone poisoning. Human pathologic and animal experimental studies].

Effects of methylprednisolone on acute lung paraquat toxicity in sheep.

Effects of Gramoxone-induced reactive oxygen radicals on eicosanoid synthesis of mouse lung.

Protective role of sulfhydryl reagents in oxidant lung injury.

Collective judicial management of mass toxic tort controversies: lessons and issues from the Agent Orange litigation.

Science and persuasion: environmental disease in U.S. courts.

Prevention of occupational skin disease.

Toxicity of 2-hydrazinoethanol in turkey poults.

Comparative study on cerebrovascular injuries by three chlorophenoxyacetic acids (2,4-D, 2,4,5-T and MCPA).

The impairment of mobility and development in freshwater snails (*Physa fontinalis* and *Lymnaea stagnalis*) caused by herbicides.

Hydrogen peroxide mediates reperfusion injury in the isolated rat heart.

Host defence mechanisms in the bladder. II. Disruption of the layer of mucus.

Autoradiography of [¹⁴C]paraquat or [¹⁴C]diquat in frogs and mice: accumulation in neuromelanin.

Increased oxygen radical-dependent inactivation of metabolic enzymes by liver microsomes after chronic ethanol consumption.

pH homeostasis in promyelocytic leukemic HL60 cells.

Intramuscular pH and endurance are abnormal in skeletal muscles from rats with experimental myotonia.

Effects of cyclophosphamide and a metabolite, acrolein, on *Naegleria fowleri* in vitro and in vivo.

Prolonged, intravenous paraquat infusion in the rat. I. Failure of coinfused putrescine to attenuate pulmonary paraquat uptake, paraquat-induced biochemical changes, or lung injury.

Reactive oxygen species during ischemia-reflow injury in isolated perfused rat liver.

Xanthine oxidase produces hydrogen peroxide which contributes to reperfusion injury of ischemic, isolated, perfused rat hearts.

The effect of iron overload on the mitochondrial porphyrin level in the hexachlorobenzene induced experimental porphyria.

Effect of pesticides (atrazine and lindane) on the replication of spring viremia of carp virus in vitro.

Toxic consequence of the abrupt depletion of glutathione in cultured rat hepatocytes.

Oxidative cell injury in the killing of cultured hepatocytes by allyl alcohol.

Significance of alterations in hepatic antioxidant enzymes. Primacy of glutathione peroxidase.

Mutagenicity and in vitro covalent DNA binding of 2-hydroxyamino-3-methylimidazo[4,5-f]quinoline.

Acute effects of the aldehyde dehydrogenase inhibitors, disulfiram, pargyline and cyanamide, on circulating ketone body levels in the rat.

Spontaneous lung chemiluminescence upon paraquat administration.

Effect of chronic ethanol treatment under partial catalase inhibition on the activity of enzymes related to peroxide metabolism in rat liver and heart.

Membrane permeability and oxidant induced injury.

Social and behavioral consequences of the Vietnam experience among American Legionnaires.

Effect of aerosol challenge with sensitising antigen on the permeability of the surface of the rat trachea in life.

Type II achondrogenesis-hypochondrogenesis: identification of abnormal type II collagen.

Organ-specific effects of long term feeding of 2,3,7,8-tetrachlorodibenzo-p-dioxin and 1,2,3,7,8-pentachlorodibenzo-p-dioxin on I-compounds in hepatic and renal DNA of female Sprague-Dawley rats.

Investigation of the effects of heat shock and agents which induce a heat shock response on the induction of differentiation of HL-60 cells.

Familial amyloidotic polyneuropathy: transthyretin (prealbumin) variants in kindreds of Italian origin.

Toxicology and pathology of methyl bromide in F344 rats and B6C3F1 mice following repeated inhalation exposure.

Endogenous opiate modulation of baroreflexes in normotensive and hypertensive rats.

Blocking action of parenteral desferrioxamine on iron absorption in rodents and men.

Increases in cytochrome P-450 mediated 17 beta-estradiol 2-hydroxylase activity in rat liver microsomes after both acute administration and subchronic administration of 2,3,7,8-tetrachlorodibenzo-p-dioxin in a two-stage hepatocarcinogenesis model.

Cutaneous manifestations of tetrachlorodibenzo-p-dioxin in children and adolescents. Follow-up 10 years after the Seveso, Italy, accident.

Steroid hormones and medications that alter cancer risks.

A case-control study of brain gliomas and occupational exposure to chemical carcinogens: the risk to farmers.

Immunological abnormalities 17 years after accidental exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Soft tissue sarcoma risk in Swedish licensed pesticide applicators.

Corticosterone modulates acute toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in male Sprague-Dawley rats.

Fibronectin: source of mannose in a highly purified respiratory mucin.

Comparative acute systemic toxicity of sodium arsenite and dichloro(2-chlorovinyl)arsine in rabbits.

Isolation and sequence analysis of amyloid protein AA from a patient with cystic fibrosis.

Molecular diversity in the abdominal aortic aneurysm phenotype.

Intraglomerular deposition of fibrin/fibrinogen-related antigen in children with various renal diseases.

Screening of pharmacological agents given peripherally with respect to TCDD-induced wasting syndrome in Long-Evans rats.

Kappa/lambda immunoglobulin distribution in Graves' thyroid-stimulating antibodies. Simultaneous analysis of C lambda gene polymorphisms.

Suppression of keratinocyte differentiation in SSC-9 human squamous carcinoma cells by benzo[a]pyrene, 12-O-tetradecanoylphorbol-13-acetate and hydroxyurea.

Biochemical and functional effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on the heart of female rats.

[Respiratory distress syndrome in a case of ferrous sulfate poisoning].

Effect of D,L-alpha-difluoromethyl ornithine on cleft palate induced by the TCDD congener, 3,3',4,4'-tetrachloroazoxybenzene, in the fetuses of mice.

Clinical toxicology--past, present and future.

Atypical myoglobinuria: an acute myopathy in grazing horses.

A proposed occupational exposure limit for 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Reproductive outcomes of mothers with potential exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

The association between soft tissue sarcomas and exposure to phenoxyacetic acids. A new case-referent study.

The acute toxicity of 2,3,4,7,8-pentachlorodibenzofuran (4PeCDF) in the male Fischer rat.

[Preventive use of iron in pregnancy--a luxury or a necessity?].

Demonstration and characterization of a transient arthritis in rats following sensitization of synovial mast cells with antigen-specific IgE and parenteral challenge with specific antigen.

Partial sequence of MAP2 in the region of a shared epitope with Alzheimer neurofibrillary tangles.

A third genetic locus affecting the Ah (dioxin) receptor.

Type X collagen alterations in rachitic chick epiphyseal growth cartilage.

Virucidal efficacy of physico-chemical treatments against coronaviruses and parvoviruses of laboratory animals.

[Acute reversible cataract due to nitrocompounds in Japanese quail (*Coturnix coturnix japonica*)].

Synthetic peptides derived from IRBP induce EAU and EAP in Lewis rats.

[Health survey on morbidity and accidents in various productive agricultural sectors].

Degrading process of acute ischemic myocardial cells.

Dermal dysplasia characterized by collagen disorder-related skin fragility in a cow.

Developmental toxicity evaluation of Bendectin in CD rats.

Hepatic failure toxins depress liver regenerative enzymes after periportal injury with allyl alcohol in the rat.

Iron deficiency in adolescent female dancers.

Differentiation of erythroid progenitor (CFU-E) cells from mouse fetal liver cells and murine erythroleukemia (TSA8) cells without proliferation.

Skin lesions due to exposure to methyl bromide.

[Antibacterial effectiveness of camphorated parachlorophenol].

[Diabetogenic tropical pancreatitis].

Photoallergic contact dermatitis from fentichlor.

Selective alteration in blood-brain barrier and insulin transport in iron-deficient rats.

Comparison of gene expression in preneoplastic and neoplastic rat liver to adult, fetal, regenerating, and tumor-promoted liver.

Single amino acid substitutions in the reactive site of antithrombin leading to thrombosis. Congenital substitution of arginine 393 to cysteine in antithrombin Northwick Park and to histidine in antithrombin Glasgow.

DNA binding properties of dioxin receptors in wild-type and mutant mouse hepatoma cells.

Monochloroacetic acid and 60% salicylic acid as a treatment for simple plantar warts: effectiveness and mode of action.

Evaluation of spermatogenesis and sperm quality in the rat following acute inhalation exposure to methyl bromide.

Iron deficiency in female athletes: its prevalence and impact on performance.

Toxicity and disposition of 2,3,4,7,8-pentachlorodibenzofuran (4PeCDF) in the rhesus monkey (*Macaca mulatta*).

Alteration of methyl dopa absorption, metabolism, and blood pressure control caused by ferrous sulfate and ferrous gluconate.

Calcium gain during postischemic reperfusion. The effect of 2,4-dinitrophenol.

Cyanogen bromide fragments of bovine interphotoreceptor retinoid-binding protein induce experimental autoimmune uveoretinitis in Lewis rats.

HIV infection and dioxin exposure: risk factors for Kaposi sarcoma and malignant lymphoma?

A crucial role of ongoing anaerobic glycolysis in attenuating acute ischemia-induced release of myocardial noradrenaline.

Catalase prevents increased lung vascular permeability during air emboli in unanesthetized sheep.

Iron supplementation and physical growth of rural Indonesian children.

Species differences in 2,3,7,8-tetrachlorodibenzo-p-dioxin toxicity and biotransformation in fish.

The effect of iron therapy on the exercise capacity of nonanemic iron-deficient adolescent runners.

Prevention of iron deficiency by milk fortification. II. A field trial with a full-fat acidified milk.

Effect of catalase on endotoxin-induced acute lung injury in unanesthetized sheep.

Laboratory and field assessment of molluscicidal activity of B-2 against *Oncomelania hupensis*, the vector snail of schistosomiasis in China.

Heart as a target organ in 2,3,7,8-tetrachlorodibenzo-p-dioxin toxicity: decreased beta-adrenergic responsiveness and evidence of increased intracellular calcium.

Impaired secretion of type III procollagen in Ehlers-Danlos syndrome type IV fibroblasts: correction of the defect by incubation at reduced temperature and demonstration of subtle alterations in the triple-helical region of the molecule.

Variants of human tissue-type plasminogen activator. Fibrin binding, fibrinolytic, and fibrinogenolytic characterization of genetic variants lacking the fibronectin finger-like and/or the epidermal growth factor domains.

2,4-Dinitrophenol, muscle biopsy, and McArdle's disease.

Acute effects of amiodarone on action potentials of isolated guinea-pig ventricular muscle exposed to simulated ischemic solution and metabolic inhibitors.

Evidence that 2,3,7,8-tetrachlorodibenzo-p-dioxin induces NADPH cytochrome c (P-450) reductase in rat hepatoma cells in culture.

Treatment of gestational iron deficiency disease with tardyferon; monitoring the effectivity of treatment.

Abnormal methylation capacity in human liver cirrhosis.

Dietary iron and 2,3,7,8-tetrachlorodibenzo-p-dioxin induced alterations in hepatic lipid peroxidation, glutathione content and body weight.

Body iron stores in patients subjected to surgery of the large bowel.

Mortality among California highway workers.

A death-certificate case-control study of non-Hodgkin's lymphoma and occupation in men in North Carolina.

2,3,7,8-Tetrachlorodibenzo-p-dioxin toxicity in yellow perch (*Perca flavescens*).

Morphologic lesions and acute toxicity in rainbow trout (*Salmo gairdneri*) treated with 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Farming and exposure to chemicals in male lung cancer patients and their siblings.

Acute toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin to mink.

Thrombocytopenia associated with repletion of iron in iron-deficiency anemia.

Arsenic poisoning. Ongoing diagnostic and social problem.

In vitro (organ culture) studies of the toxicity of specific A-gliadin peptides in celiac disease.

Validity and reliability of a method for retrospective evaluation of chlorophenate exposure in the lumber industry.

Experimental studies on the mechanism of ethanol formation in corpses.

Corticosterone decreases toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in hypophysectomized rats.

[Experimental specific immunotherapy of acute poisoning by dinitrophenol compounds].

Some endocrine and morphological aspects of the acute toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Forestomach carcinogens: pathology and relevance to man.

Observations on the intracellular accumulation of methotrexate and 5-methyltetrahydrofolate in uninduced, dimethylsulphoxide-induced and 1,25-dihydroxyvitamin D₃-induced HL60 cells, and blood-monocyte-derived human macrophages.

Long-term effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin on the peripheral nervous system. Clinical and neurophysiological controlled study on subjects with chloracne from the Seveso area.

Characterization of trimetrexate transport in human lymphoblastoid cells and development of impaired influx as a mechanism of resistance to lipophilic antifolates.

Quantitative evaluation of collagen fractions separated by acrylamide gel electrophoresis: its application for collagen typing in normal and pathological tissues.

NTP Toxicology and Carcinogenesis Studies of C.I. Acid Orange 3 (CAS No. 6373-74-6) in F344/N Rats and B6C3F1 Mice (Gavage Studies).

Subchronic metabolic effects and toxicity of a simulated pulp mill effluent on juvenile lake trout, *Salmo trutta m. lacustris*.

Early changes in dermal collagen of mice exposed to chronic UVB irradiation and the effects of a UVB sunscreen.

Assessment of the relative hazard involved with airborne irritants with additional hepatotoxic or nephrotoxic properties in mice.

Xenopus spermatozoon: is there any correlation between motility and oxygen consumption?

Site-directed mutagenesis in photosystem II of the cyanobacterium *Synechocystis* sp. PCC 6803: Donor D is a tyrosine residue in the D2 protein.

2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD)-induced alterations in lipid peroxidation, enzymes, and divalent cations in rat testis.

Micromethods in single muscle fibers. 1. Determination of catalase and superoxide dismutase.

Heat-shock induction of the human immunodeficiency virus long terminal repeat.

Ifosfamide and mesna: marginally active in patients with advanced carcinoma of the pancreas.

Intracoronary infusion of prostaglandin I₂ attenuates arterial baroreflex control of heart rate in conscious dogs.

Transplacental induction of cytochromes P-450IA1 and P-450IA2 by polycyclic aromatic carcinogens: TCDD-binding protein level as the rate-limiting step.

Metabolism and excretion of etoposide in isolated, perfused rat liver models.

The metabolism of acetaldehyde and not acetaldehyde itself is responsible for in vivo ethanol-induced lipid peroxidation in rats.

The effects of perfluorodecanoic acid on hepatic stearyl-coenzyme A desaturase and mixed function oxidase activities in rats.

Teratogenic effects of nitrofen on cellular and functional maturation of the rat lung.

Characterization of an apparently lower molecular weight gamma-chain variant in fibrinogen Kyoto I. The replacement of gamma-asparagine 308 by lysine which causes accelerated cleavage of fragment D1 by plasmin and the generation of a new plasmin cleavage site.

Catalase-dependent ethanol oxidation in perfused rat liver. Requirement for fatty-acid-stimulated H₂O₂ production by peroxisomes.

Acute toxicity of cresols, xylenols, and trimethylphenols to *Daphnia magna* Straus 1820.

Studies on the neuropsychopharmacological profile of fengabine (SL 79229) in mice.

Acute toxicity of cyanogen chloride to *Daphnia magna*.

Evidence for immunoglobulin Fc receptor-mediated prostaglandin₂ and platelet-activating factor formation by cultured rat mesangial cells.

Localization of a biologically important epitope on toxic-shock-syndrome toxin-1.

4-Hydroxynonenal and other lipid peroxidation products are formed in mouse liver following intoxication with allyl alcohol.

Hepatotoxicity of cyclophosphamide in man: pharmacokinetic analysis.

Requirement of one functional RAS gene and inability of an oncogenic ras variant to mediate the glucose-induced cyclic AMP signal in the yeast *Saccharomyces cerevisiae*.

Metabolic processes involved in repair of Escherichia coli cells damaged by exposure to acid mine water.

Stress symptomatology among Vietnam veterans. Analysis of the Veterans Administration Survey of Veterans. II.

Degeneration and regeneration of the olfactory epithelium following inhalation exposure to methyl bromide: pathology, cell kinetics, and olfactory function.

Inhibitory effect of salicylate on 2,4-dinitrophenol and diethyl maleate in isolated rat intestinal epithelial cells.

Partial characterization of specific cantharidin binding sites in mouse tissues.

Toxicity and bioaccumulation of chlorophenols in earthworms, in relation to bioavailability in soil.

Photophysiology and phytochrome content of long-hypocotyl mutant and wild-type cucumber seedlings.

Role of transferrin and ceruloplasmin in antioxidant activity of lung epithelial lining fluid.

Induction of heat shock proteins in short-term cultured hepatocytes derived from normal and chronically griseofulvin-treated mice.

Glycogenolysis in the rat isolated perfused liver as a measure of chemically induced liver toxicity.

Effect of extracellular Ca^{++} omission on isolated hepatocytes. II. Loss of mitochondrial membrane potential and protection by inhibitors of uniport Ca^{++} transduction.

Distinction between major chloroquine-inhibitable and adrenergic-responsive pathways of protein degradation and their relation to tissue ATP content in the Langendorff isolated perfused rat heart.

Respiratory Properties of Mitochondria from Rice Seedlings Germinated under Water and Their Changes during Air Adaptation.

Antidotal effects of deferoxamine in experimental liver injury--role of lipid peroxidation.

Mitochondria mediate amplification of luteinizing hormone action by adenosine in luteal cells.

Effects of SH-modifying reagents on the rat hepatic Ah receptor: inhibition of ligand binding and transformation, and disruption of the ligand-receptor complex.

[Acute methylbromide poisoning].

[Cardiac relaxation and distensibility in energy deficit].

Role of the 4-hydroxy intermediate in the in vitro embryotoxicity of cyclophosphamide and dechlorocyclophosphamide.

Protein co-isolated with human tissue factor impairs recovery of activity.

An apparently higher molecular weight gamma-chain variant in a new congenital abnormal fibrinogen Tochigi characterized by the replacement of gamma arginine-275 by cysteine.

Application of linear integration in the morphometric study of mild and severe pulmonary alveolar injury.

Metabolic activation of the mutagen azide in biological systems.

The permeability of grafted human transplant skin in athymic mice.

Mutagenicity, comutagenicity, and antimutagenicity of erythrosine (FD and C red 3), a food dye, in the Ames/Salmonella assay.

Assignment of several epitopes to cyanogen bromide peptides of bovine retinal S-antigen by immunoblotting with peptide-specific antibodies.

Purification and characterization of two kinds of low molecular weight kininogens from rat (non-inflamed) plasma. One resistant and the second sensitive to rat glandular kallikreins.

Hepatic toxicity of paraquat in primary cultures of rat hepatocytes.

Cardiac transplantation in a Jehovah's witness.

Acute effects of methyl bromide on electroencephalographic activity and sleep-wakefulness in rats.

[Cases of severe methyl bromide poisoning residing above a warehouse].

Accumulation of aluminum by rabbit renal cortex.

Chronic toxicity of aniline and 2,4-dichlorophenol to *Daphnia magna* Straus.

Pleurotus mushrooms. Part IB. Pathology, in vitro and in vivo growth requirements, and world status.

Antigenic contraction of guinea pig tracheal preparations passively sensitized with monoclonal IgE: pharmacological modulation.

Predeposit autologous blood donation.

Effect of monooxygenase inducers and inhibitors on the hepatic metabolism of 2,3,7,8-tetrachlorodibenzo-p-dioxin in the rat and hamster.

Inhibition of lipid peroxidation by disulfiram and diethyldithiocarbamate does not prevent hepatotoxin-induced cell death in isolated rat hepatocytes. A study with allyl alcohol, tert-butyl hydroperoxide, diethyl maleate, bromoisovalerylurea and carbon tetrachloride.

Allyl alcohol cytotoxicity and glutathione depletion in isolated periportal and perivenous rat hepatocytes.

A flowthrough fecundity test with *Nitocra spinipes* (Harpacticoida Crustacea) for aquatic toxicity.

The pathologic and immunologic effects of inhaled acrolein in rats.

Acute toxicity of Roundup and Rodeo herbicides to rainbow trout, chinook, and coho salmon.

Hepatotoxicity induced by the herbicide atrazine in the rat.

[Anesthetic management for surgical patients with paraquat intoxication--case report and literature review].

[Kidney damage after peroral poisoning with herbicides].

Paraquat and Parkinson's disease.

Neoplastic transformation of Chinese hamster cells in vitro after treatment with flavoring agents.

[Effect of ethanol and the catalase inhibitor aminotriazole on the activity of antioxidative enzymes in the rat liver and heart].

Effectiveness of dextran sulfate on acute toxicity of paraquat in mice and rats.

Human copper-zinc superoxide dismutase complements superoxide dismutase-deficient Escherichia coli mutants.

The evaluation of trends in soft tissue sarcoma according to diagnostic criteria and consumption of phenoxy herbicides.

Selective pancreatic toxicity of palmitoylpentachlorophenol.

Acute, pharmacokinetic, and subchronic toxicological studies of 2,4-dichlorophenoxyacetic acid.

Acute toxicity to juvenile Pacific salmonids of Garlon 3A, Garlon 4, triclopyr, triclopyr ester, and their transformation products: 3,5,6-trichloro-2-pyridinol and 2-methoxy-3,5,6-trichloropyridine.

Risk of malignant lymphoma in Swedish pesticide applicators.

Paraquat-induced cytoskeletal injury in cultured cells.

Acute sensitivity of BHT-induced alveolar toxicity to a diquat challenge in murine lungs.

Agent Orange study hits brick wall.

Effect of paraquat on the oral mucosa.

Chronic carcinogenesis studies of acrolein and related compounds.

Evidence for participation of lipid peroxidation and iron in diquat-induced hepatic necrosis in vivo.

Pentachlorophenol and the peripheral nervous system: a longitudinal study in exposed workers.

Effect of paraquat on plasma fibronectin, serum free hydroxyproline, serum ceruloplasmin and lung collagen content in monkeys.

Cyanamide hepatotoxicity. Incidence and clinico-pathological features.

Geography, drinking water chemistry, pesticides and herbicides and the etiology of Parkinson's disease.

Temperature-dependence of cytotoxicity of several genotoxicants in Chinese hamster V79 cells: bleomycin, paraquat, and some N-alkyl-N-nitrosoureas.

[Physiopathologic data on the action of selected fungicides and herbicides in carp].

Acute toxicity of Garlon 4 and Roundup herbicides to salmon, Daphnia, and trout.

Exposure of non-applicator personnel and adjacent areas to aerially applied propanil.

Protection of rat embryos in culture against the embryotoxicity of acrolein using exogenous glutathione.

Principles of industrial toxicology.

Enhancement of the embryotoxicity of acrolein, but not phosphoramidate mustard, by glutathione depletion in rat embryos in vitro.

Evaluation of paraquat concentrations in paraquat poisoning.

[Congenital malformations in Sweden].

Eighty-five day postexposure follow-up study in Fischer 344 rats after repeated exposures to methyl isocyanate vapor.

Paraquat (gramoxone) poisoning in south-west Hungary, 1977-1984. Toxicological and histopathological aspects of group intoxication cases.

Suicide by ingestion of 2,4-D: a case history demonstrating the prudence of using GC/MS as an investigative rather than a confirmatory tool.

[Clinicopathological evaluation of the lungs with unusual distribution of paraquat lesions].

Operator exposure from closed system loading and application of alachlor herbicide.

Neuromuscular effects of acute 2,4-dichlorophenoxyacetic acid (2,4-D) exposure in dogs.

Soft tissue sarcoma and non-Hodgkin's lymphoma in relation to phenoxyherbicide and chlorinated phenol exposure in western Washington.

Cohort mortality study of chemical workers with potential exposure to the higher chlorinated dioxins.

Effect of BCNU pretreatment on diquat-induced oxidant stress and hepatotoxicity.

[Low-dose radiotherapy of pulmonary complications resulting from paraquat intoxication: report of a case].

A rapid and sensitive HPLC procedure for the determination of atrazine residues in soil-water extracts.

Primary cultures of rat aortic endothelial and smooth muscle cells: I. An in vitro model to study xenobiotic-induced vascular cytotoxicity.

Acute toxicity of Brestan and fentin acetate on some freshwater organisms.

Occupational risk and the development of premalignant skin lesions among paraquat manufacturers.

Cytogenetic toxicity of paraquat and streptonigrin in Fanconi's anemia.

Non-Hodgkin's lymphoma and farming: an expanded case-control study.

Quantifiable morphologic evaluation of paraquat pulmonary toxicity in rats.

Toxicity of 3,4-dichloroaniline to fathead minnows, *Pimephales promelas*, in acute and early life-stage exposures.

Histopathological effects of paraquat and gill function of *Puntius gonionotus*, Bleeker.

Phenoxy herbicides and soft-tissue sarcomas in female rice weeders. A population-based case-referent study.

Worker exposure to a herbicide applied with ground sprayers in the United Kingdom.

Teratogenic potential of purified pentachlorophenol and pentachloroanisole in subchronically exposed Sprague-Dawley rats.

[Gastrectomy in a rare caustic injury].

Effects of pentachlorophenol on the in vitro and in vivo antibody response.

Prognostic value of plasma and urine paraquat concentration.

Haemodialysis for paraquat poisoning.

Paraquat poisoning: the rationale for current treatment regimes.

Unilateral paraquat-induced lung fibrosis: evolution of changes in lung fibronectin and collagen after graded degrees of lung injury.

[Studies of lung damage by paraquat. 2. Effect of vitamin E on acute lung damage caused by paraquat].

Lung hydrolases in paraquat poisoning: early response of alkaline phosphatase.

[Role of peroxisomal enzymes and lipid peroxidation in the pathogenesis of alcoholic cardiomyopathy].

Repeated hemoperfusion and continuous arteriovenous hemofiltration in a paraquat poisoned patient.

[Clinico-experimental research on acute isoproteron poisoning in sheep].

[Toxic environmental factors in sudden infant death (SIDS)].

Background and design of a Danish cohort study of workers in phenoxy herbicide manufacture.

Bipyridylium herbicide toxicity: effects of paraquat and diquat on isolated rat hepatocytes.

Paraquat poisoning: clinical features and immediate general management.

Mechanism of paraquat toxicity in lung and its relevance to treatment.

The epidemiology and prevention of paraquat poisoning.

Paraquat--a review of safety in agricultural and horticultural use.

The search for ideal antidote treatment in Gramoxone intoxication.

Metabolic basis of ethylene glycol monobutyl ether (2-butoxyethanol) toxicity: role of alcohol and aldehyde dehydrogenases.

Pharmacological treatment of alcohol intoxication, withdrawal and dependence: a critical review.

[Experimental model of the peroxide toxicity of peroxisomes].

Treatment of adverse digitalis effects by hemoperfusion through columns with antidigoxin antibodies bound to agarose polyacrolein microsphere beads.

Allyl alcohol liver injury: suppression by ethanol and relation to transient glutathione depletion.

Initiation of hepatocarcinogenesis in infant male B6C3F1 mice by N-hydroxy-2-aminofluorene or N-hydroxy-2-acetylaminofluorene depends primarily on metabolism to N-sulfooxy-2-aminofluorene and formation of DNA-(deoxyguanosin-8-yl)-2-aminofluorene adducts.

[A case of acute occupational poisoning by 2-4-6 trichloro-1-triazine (cyanuric chloride)].

Analysis of pentachlorophenol in water and urine by enrichment with Lipidex 5000.

Oxygen toxicity and chromosomal breakage in ataxia telangiectasia.

Putrescine and 5-hydroxytryptamine accumulation in rat lung slices: cellular localization and responses to cell-specific lung injury.

Blood acetaldehyde and the ethanol-induced increase in splanchnic circulation.

Hyperoxia increases H₂O₂ production by brain in vivo.

Role of acetaldehyde in the ethanol-induced impairment of hepatic glycoprotein secretion in the rat in vivo.

[Effect of ethanol and the catalase inhibitor aminotriazole on lipid peroxidation in the rat myocardium].

Uptake, efflux and metabolism of the polyamine putrescine in rabbit lung slices.

The role of acrolein in allyl alcohol-induced lipid peroxidation and liver cell damage in mice.

Ethanol metabolism in alcohol dehydrogenase deficient deermice is mediated by the microsomal ethanol oxidizing system, not by catalase.

Evidence that herbicides relaxing smooth and oblique-striated muscles affect the muscle cell membrane.

Changes of the liver UDP-glucuronosyltransferase activity in trout (*Salmo gairdneri* Rich.) acutely exposed to selected aquatic toxicants.

Effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on thermogenesis in brown adipose tissue of rats.

Biochemically damaged erythroblasts bind natural serum antibodies and activate complement.

High-dose carbonyl iron for iron deficiency anemia: a randomized double-blind trial.

The effect of saccharin ingestion on the excretion of microbial amino acid metabolites in rat and man.

In vivo and in vitro interactions of TCDD and other ligands of the Ah-receptor: effect on embryonic and fetal tissues.

Mortality among flavour and fragrance chemical plant workers in the United States.

Biosynthesis and degradation of collagen in X-irradiated mouse lung.

Teratogenic effects of polychlorinated dibenzofurans in combination in C57BL/6N mice.

Collagen type III deficiency in patients with rupture of intracranial saccular aneurysms.

Treatment of iron deficiency conditions in blood donors: controlled study of iron sulphate versus iron protein succinylate.

The experimental and clinical pathology of diene conjugation.

Pleiotropic drug resistance in hepatocytes induced by carcinogens administered to rats.

Effects of vitamin A and/or thyroidectomy on liver microsomal enzymes and their induction in 2,3,7,8-tetrachlorodibenzo-p-dioxin-treated rats.

Significance of mirex-caused hypoglycemia and hyperlipidemia in rats.

Recognition of a purified Mr-40,000 organ-specific immunogen of human lung cancer by class II-restricted T-cells.

Effect of chronic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin on sister chromatid exchange levels in peripheral lymphocytes of the rhesus monkey.

Achondrogenesis type II, abnormalities of extracellular matrix.

Prealbumin variants in the amyloid fibrils of Swedish familial amyloidotic polyneuropathy.

The impairment of retention induced by pentylentetrazol in mice may be mediated by a release of opioid peptides in the brain.

Regulation of cytochrome P-450c in differentiated and dedifferentiated rat hepatoma cells: role of the Ah receptor.

Differential endocytosis of fluorescein iso-thiocyanate-concanavalin A by normal and chronic myeloid leukemic granulocytes.

Inactivation of *Bacillus piliformis* spores by heat and certain chemical disinfectants.

Different cholinergic pathways are involved in the improvement induced by CCK-8 and by ACTH-(1-24) in massive acute hemorrhage, in rats.

Pleiotropic effect of the gene hairless on hepatotoxicity of 2, 3, 7, 8-tetrachlorodibenzo-p-dioxin in mice.

Pulmonary interstitial fibrosis induced in hapten-immune hamsters.

Antigenicity and uveitogenicity of partially purified peptides of a retinal autoantigen, S-antigen.

[Dinitrophenol compounds: toxicology, therapy and prevention of poisoning (review of the literature)].

Cellular action of arginine vasopressin in the isolated renal tubules of hypothyroid rats.

Reproductive tract lesions resulting from subchronic administration (63 days) of tri-o-cresyl phosphate in male rats.

Erythrocyte lysis by monocytes: investigations on the mechanism and role of the target cell hydrogen peroxide catabolizing pathways.

Studies of phagocytosis in chronic granulomatous disease.

Hydroxyl radical generation by microsomes after chronic ethanol consumption.

Iron deficiency anemia and iron therapy effects on infant developmental test performance.

⁵¹Cr-uptake assay. A sensitive and reliable method to quantitate cell viability and cell death.

[A simple determination method of bromide ion in plasma of methyl bromide workers by head space gas chromatography].

Glycolytic activity and enhancement of serotonin uptake by endothelial cells exposed to hypoxia/anoxia.

Structure-activity studies of the hepatocarcinogenicities of alkenylbenzene derivatives related to estragole and safrole on administration to preweanling male C57BL/6J x C3H/HeJ F1 mice.

Carcinogenic effects of infantile and long-term 2,3,7,8-tetrachlorodibenzo-p-dioxin treatment in the mouse.

Suicidal poisoning deaths in Singapore 1975-1984.

The effect of arsenic on urethan-induced adenoma formation in Swiss mice.

[Relation between glutamate and adenine nucleotide levels of heart mitochondria during hypoxia].

Fengabine, a novel antidepressant GABAergic agent. I. Activity in models for antidepressant drugs and psychopharmacological profile.

Immunochemical characterization of fibrinogen, fibrin I, and fibrin II in human thrombi and atherosclerotic lesions.

Catalase in cultured skin fibroblasts from patients with the cerebro-hepato-renal (Zellweger) syndrome: normal maturation in peroxisome-deficient cells.

Skeletal muscle glucocorticoid receptor and glutamine synthetase activity in the wasting syndrome in rats treated with 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Quantitative cancer risk assessments for 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Drug-induced cholestasis.

Acute methyl bromide toxicity.

Central nervous system intoxications other than lead.

Evaluation of a program to overcome vitamin A and iron deficiencies in areas of poverty in Minas Gerais, Brazil.

Clinical reports on plasma exchange in the Kidney Center, Tokai University School of Medicine.

O-phenylenediamine oxidation by phorbol myristate acetate-stimulated human polymorphonuclear leukocytes: characterization of two distinct oxidative mechanisms.

Orientation staining for the demonstration of Mycobacterium leprae in semithin sections.

A serine proteinase inhibitor produced by an HTLV I virus-transformed human T lymphocyte line.

Acute pesticide poisoning in England and Wales.

Incidence of ethylene glycol intoxication in dogs and cats seen at Colorado State University Veterinary Teaching Hospital.

Emergency gastrotomy: treatment of choice for iron bezoar.

Oral toxicity of trichlorobenzyl chloride and its acid derivative.

Embryotoxicity and fetotoxicity of orally administered tridiphane in mice and rats.

[Experimental studies of the inflammation-inducing action of various agents used in the treatment of pulp diseases in deciduous teeth].

Sendai-viral HN and F glycoproteins as probes of plasma-membrane protein catabolism in HTC cells. Studies with fusogenic reconstituted Sendai-viral envelopes.

Hepatic encephalopathy. Application of visual evoked responses to test hypotheses of its pathogenesis in rats.

Analysis of mechanisms responsible for the bradycardic action of naloxone after haemorrhage in the conscious rabbit.

Epitope mapping of the von Willebrand factor subunit distinguishes fragments present in normal and type IIA von Willebrand disease from those generated by plasmin.

Effect of inhibitors of arachidonic acid metabolism on efflux of intracellular enzymes from skeletal muscle following experimental damage.

Carbonyl iron for short-term supplementation in female blood donors.

Induction of photoallergy in guinea-pigs by injection of photoallergen-protein conjugates.

Health effects of pesticides: a review of epidemiologic research from the perspective of developing nations.

Fatal iron intoxication in late pregnancy.

Urinary chlorophenols in sawmill workers.

Survival rates and properties of sickle cell anemia red cells treated with nitrogen mustard.

Hippuric acid and ortho-cresol as biological indicators of occupational exposure to toluene.

[Changes in brain energy metabolism in experimental cerebral hemorrhage].

A canine model for the study of hapten-specific suppression of IgE-mediated bronchoconstriction and anaphylaxis.

Bioavailability and therapeutic efficacy of bivalent and trivalent iron preparations.

Equivalent bioavailability of iron from ferrous salts and a ferric polymaltose complex. Clinical and experimental studies.

Differential effects of acute changes in cell Ca^{2+} concentration on myofibrillar and non-myofibrillar protein breakdown in the rat extensor digitorum longus muscle in vitro. Assessment by production of tyrosine and N tau-methylhistidine.

Potent effects of the monoclonal antibody-mitomycin C conjugate on human colon cancers.

Exposure to hair dyes and polychlorinated dibenzo-p-dioxins in AIDS patients with Kaposi sarcoma: an epidemiological investigation.

Assessment of the systemic distribution and toxicity of formaldehyde following pulpotomy treatment: Part two.

No evidence for reactive oxygen damage in ischemia-reflow injury.

[Dynamic aspects of mineral metabolism in dry cows, puerperants and calves].

Antineoplastic activity of azacarbazoles. II. Effect of alpha-carboline and its derivatives on transplantable animal neoplasms.

Development of resistance and characteristics of a human colon carcinoma subline resistant to mitoxantrone in vitro.

[Intracanal medications].

Porphyriurias and occupational disease.

Pesticides and cancer risks in agriculture.

[Acute lung failure--a critical analysis].

[Experimental studies on the bactericidal activity of various agents used in the treatment of dental pulp diseases in deciduous teeth].

The role of necrosis in hepatocellular proliferation and liver tumors.

Dystonia and tremor following exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Phototoxic potential of afloqualone, a quinazolinone derivative, as determined by photosensitized inactivation of bacteriophage.

Medical, life-style, and occupational risk factors for prostate cancer.

The heparin binding site of human antithrombin III. Selective chemical modification at Lys114, Lys125, and Lys287 impairs its heparin cofactor activity.

Suicidal sodium azide ingestion.

Reactivation of inhibited bone acid phosphatase and its significance in bone histomorphometry.

Triazene metabolism. VI. 3-Azidomethyl-3-alkyl-1-aryltriazenes, a new class of anti-tumour triazene with potential pro-drug applications.

Alteration of intestinal tight junction structure and permeability by cytoskeletal contraction.

A dose-response curve for yusho syndrome.

Ah receptor: relevance of mechanistic studies to human risk assessment.

An increase in cerebral benzodiazepine receptors induced by a subacute administration of ammonia, mercaptans and short-chain fatty acids in rats.

Effects of methyl (+)(3S)-1,2,3,4-tetrahydro-3-hydroxy-methyl-beta-carboline-2- carbodithioate (THC), a new hepatoprotective agent, on acute liver injuries induced by various hepatotoxic substances in mice and rats.

Peroxide alters neuronal excitability in the CA1 region of guinea-pig hippocampus in vitro.

Monochloroacetic acid toxicity in the mouse associated with blood-brain barrier damage.

Effect of age and sex on allyl alcohol hepatotoxicity in rats: role of liver alcohol and aldehyde dehydrogenase activities.

Thermal degradation products from an ethylene methacrylic acid copolymer-partial metal salt as the cause of industrial bronchitis.

[Emotional behavior disorders in rats during the formation of a generator of pathologically enhanced excitation in the basomedial nuclei of the amygdaloid complex].

Neutrophil-mediated cytotoxicity triggered by immune complexes: the role of reactive oxygen metabolites.

Regulation of fructose 2,6-bisphosphate levels in *Neurospora crassa*.

A QSAR study of the acute toxicity of some industrial organic chemicals to goldfish. Narcosis, electrophile and proelectrophile mechanisms.

Histopathology of acute toxic responses in selected tissues from rats exposed by inhalation to methyl bromide.

ADP-induced platelet aggregation depends on the conformation or availability of the terminal gamma chain sequence of fibrinogen. Study of the reactivity of fibrinogen Paris 1.

An improved method for the inhibition of endogenous peroxidase non-deleterious to lymphocyte surface markers. Application to immunoperoxidase studies on eosinophil-rich tissue preparations.

Amino Acid Metabolism of *Lemna minor* L. : II. Responses to Chlorsulfuron.

Acute symptoms in persons residing near a field treated with the soil fumigants methyl bromide and chloropicrin.

3,3',4,4'-Tetrachlorobiphenyl in pregnant mice: embryotoxicity, teratogenicity, and toxic effects on the cultured embryonic thymus.

Oxygen metabolite-induced cytotoxicity to cultured rat gastric mucosal cells.

Liposome-mediated augmentation of catalase in alveolar type II cells protects against H₂O₂ injury.

Comparison of the acute toxicity of endothal and cantharidic acid on mouse liver in vivo.

Effect of allyl alcohol-induced sublethal hepatic damage upon doxorubicin metabolism and toxicity in the rabbit.

Enhancement of rat liver microsomal metabolism of azoxymethane to methylazoxymethanol by chronic ethanol administration: similarity to the microsomal metabolism of N-nitrosodimethylamine.

Age-related failure of endocytosis may be the pathogenetic mechanism responsible for "cold" follicle formation in the aging mouse thyroid.

Involvement of ack-pta operon products in alpha-ketobutyrate metabolism by *Salmonella typhimurium*.

Dose-dependent elevation of Ah receptor binding by TCDD in rat liver.

Hepatic cyclic GMP formation is regulated by similar factors that modulate activation of purified hepatic soluble guanylate cyclase.

Ultrastructural changes in the respiratory tract of rats following methyl isocyanate inhalation.

Effects of aquatic humus on accumulation and acute toxicity of some organic micropollutants.

Fengabine, a novel antidepressant GABAergic agent. II. Effect on cerebral noradrenergic, serotonergic and GABAergic transmission in the rat.

Dexamethasone impairs growth and collagen synthesis in condylar cartilage in vitro.

In vitro cytotoxicity of allyl alcohol and bromobenzene in a novel organ culture system.

A critical evaluation of the use of mutagenesis, carcinogenesis, and tumor promotion data in a cancer risk assessment of 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Health-risk estimates for 2,3,7,8-tetrachloro-dibenzodioxin: an overview.

Spontaneous quantal and subquantal transmitter release at the Torpedo nerve-electroplaque junction.

ATP depletion causes a reversible redistribution and inactivation of a subpopulation of galactosyl receptors in isolated rat hepatocytes.

Chilling-Enhanced Photooxidation : The Peroxidative Destruction of Lipids during Chilling Injury to Photosynthesis and Ultrastructure.

Mutagenicity of the C-nitroso analog of fenitrothion.

Bacterial carbon-phosphorus lyase: products, rates, and regulation of phosphonic and phosphinic acid metabolism.

In vitro cytotoxicity of organic pollutants to bluegill sunfish (BF-2) cells.

Induction of respiratory deficiency in yeast by salts of chromium, arsenic, cobalt and lead.

Combinations of mesna with cyclophosphamide or adriamycin in the treatment of mice with tumors.

Characterization of the in vitro stability of the rat hepatic receptor for 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Claims of injury: agent orange on trial.

Impaired calcium sequestration activity in liver microsomes from fasted rats.

Acute toxicity in the guinea pig and in vitro "dioxin-like" activity of the environmental contaminant 1,2,4,5,7,8-hexachloro (9H)xanthene.

Output of bacterial metabolites as a diagnostic means.

Central nervous system toxicity of some common environmental residues in the mouse.

[Excretory function of the liver with an allyl alcohol lesion and the antioxidant correction of the disorders].

Mechanisms of 1,2,3,4,6,7,8-heptachlorodibenzo-p-dioxin (HpCDD)-induced humoral immune suppression: evidence of primary defect in T-cell regulation.

A dynamic liver culture system: a tool for studying chemical biotransformation and toxicity.

Composition of diet modifies toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in cold-adapted rats.

Effect of thyroidectomy on 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced lipid peroxidation.

Exochelin-mediated iron acquisition by the leprosy bacillus, *Mycobacterium leprae*.

Metabolism and distribution of [¹⁴C]glucose in rats treated with 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

7-ethoxycoumarin O-deethylation in perfused livers from ethanol-fed rats: evidence for an important role of mitochondrial reducing equivalents.

Ca-dependent ADPase--the possible regulator of calcium channel during the deficiency of ATP.

Physiological, anatomic and behavioural changes in the respiratory system of *Salmo gairdneri* Rich. On acute and chronic exposure to chlorothalonil.

Protection against paraquat-induced injury by exogenous GSH in pulmonary alveolar type II cells.

Changing motivation in severely suicidal patients.

Synthetic seleno-organic compound with glutathione peroxidase-like activity in the chick.

Acute effect of paraquat on lung fluid balance and prostanoid production in awake sheep.

Tissue levels of atrazine in a case of bovine poisoning.

Correlated biochemical and ultrastructural studies on the lung in isolated and combined acute treatment with ethanol and paraquat.

Factors affecting the exposure of ground-rig applicators to 2,4-D dimethylamine salt.

Oxygenation during ventilation by high-frequency oscillation in dogs with acute lung injury.

[The degree of toxicity of the combined effects of chlorophenoxy derivative herbicides on reproductive function of warm-blooded animals, and the problems of their hygienic regulation].

Mortality of workers exposed to 2-methyl-4-chlorophenoxyacetic acid.

Acute, 14-day repeated dosing, and 90-day subchronic toxicity studies of potassium picloram.

The embryoletality and teratogenicity of acrolein in cultured rat embryos.

Failure of radiotherapy to reverse progressive pulmonary fibrosis caused by paraquat.

Follow-up chest radiographs in Vietnam veterans: are they useful?

Toxicity of 2-methyl-4-chlorophenoxyacetic acid to the adult crested newt.

Cytotoxic effects of paraquat and inhibition of them by vitamin E.

The pharmacology of the parkinsonian syndrome producing neurotoxin MPTP (1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine) and structurally related compounds.

Hepatic disease associated with ground-glass inclusions in hepatocytes after cyanamide therapy.

Mutagenic and cytotoxic effects of oxygen free radicals generated by methylviologen (paraquat) on *Escherichia coli* with different DNA-repair capacities.

[Effect of "huoxue huayu" injections on pulmonary pathological changes caused by paraquat in the rat].

Paraquat and two endogenous analogues of the neurotoxic substance N-methyl-4-phenyl-1,2,3,6-tetrahydropyridine do not damage dopaminergic nigrostriatal neurons in the mouse.

Agricultural herbicide use and risk of lymphoma and soft-tissue sarcoma.

Herbicide exposure and cancer.

Severe acute oxidant exposure: morphological damage and aerobic metabolism in the lung.

Irritation, sensitization, photoirritation and photosensitization assays with a glyphosate herbicide.

Comparative studies on the mechanisms of paraquat and 1-methyl-4-phenylpyridine (MPP+) cytotoxicity.

The role of mitochondrial glutathione and cellular protein sulfhydryls in formaldehyde toxicity in glutathione-depleted rat hepatocytes.

Altered lung function and structure in the rat after subchronic exposure to acrolein.

5-Hydroxyindoleacetic acid and 5-hydroxytryptophol levels in rat brain: effects of ethanol, pyrazole, cyanamide and disulfiram treatment.

Bipyridylium herbicide toxicity in vitro: comparative study of the cytotoxicity of paraquat and diquat toward the pulmonary alveolar macrophage.

Collagen defects in lethal perinatal osteogenesis imperfecta.

Three abnormal fibrinogen variants with the same amino acid substitution (γ 275 Arg \rightarrow His): fibrinogens Bergamo II, Essen and Perugia.

Induction of experimental allergic neuritis in the BN rat: P2 protein-specific T cells overcome resistance to actively induced disease.

Toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin in cold-adapted rats.

Impaired odor perception in tank cleaners.

Poisoning by chemical non-medicinal products in Brazil: clinical and laboratory findings in 132 patients.

Ventilatory impairment from pre-harvest retted flax.

Kinetics of uptake and intracellular binding of Cyclosporine A in RAJI cells, in vitro.

Effect of iron therapy on phagocytosis and bactericidal activity in neutrophils of iron-deficient infants.

O₂ metabolites and neutrophil elastase synergistically cause edematous injury in isolated rat lungs.

Successful treatment of aplastic anemia associated with chronic thyroiditis and Sjögren's syndrome.

S-antigen: identification of the MAbA9-C6 monoclonal antibody binding site and the uveitopathogenic sites.

[Prevention of iron deficiency in infants by fortified milk. Field study of a low-fat milk].

Effect of chloroacetic acids on the kidneys.

Impaired ketogenesis in iron-deficient rat pups.

Two automated procedures for N-acetyl-beta-D-glucosaminidase determination evaluated for detection of drug-induced tubular nephrotoxicity.

Lipid peroxidative potency of photosensitized thiazide diuretics.

Hyperferremia in immunosuppressed patients with acute nonlymphocytic leukemia and the risk of infection.

Neurobehavioral evaluation of soil and structural fumigators using methyl bromide and sulfur dioxide.

Comparative study of Baralgin and hyoscine-N-methyl bromide in the treatment of intestinal and renal colic pain.

Bioavailability of iron in goat milk compared with cow milk fed to anemic rats.

Effects of BHA and related phenols on the forestomach of rats.

Hematotoxic effects of 3,5-dinitro-4-chloro-alpha,alpha,alpha-trifluorotoluene, a water contaminant.

Methyl isocyanate subchronic vapor inhalation studies with Fischer 344 rats.

The effects of Love Canal soil extracts on maternal health and fetal development in rats.

Effects of prenatal nitrofen exposure on cardiac structure and function in the rat.

Regression of methyl bromide-induced forestomach lesions in the rat.

Bioavailability of iron in soy-based formula and its effect on iron nutrition in infancy.

Seizures and action myoclonus after occupational exposure to methyl bromide.

Mitochondrial phototoxicity sensitized by doxycycline in cultured human carcinoma cells.

Tumor killing by human alveolar macrophages and blood monocytes. Decreased cytotoxicity of human alveolar macrophages.

Reversible inactivation of the Ah receptor associated with changes in intracellular ATP levels.

Chronic hypoxaemia and decompensated erythrocytosis in cyanotic congenital heart disease.

Fatal methyl bromide poisoning.

Ascorbic acid does not augment the restoration effect of iron treatment for empty iron stores in patients after gastrointestinal surgery.

The heart rate slowing effect of pindolol in patients with digitalis resistant atrial fibrillation and heart failure.

A novel biologically active seleno-organic compound--VI. Protection by ebselen (PZ 51) against galactosamine/endotoxin-induced hepatitis in mice.

In vitro determination of intestinal amino acid (¹⁴C-L-glycine) absorption during cholera.

Chemically induced resistance to heat treatment and stress protein synthesis in cultured mammalian cells.

Antibody responses in protein-energy restricted beef cows and their cold stressed progeny.

Toxicity and evidence for metabolic alterations in 2,3,7,8-tetrachlorodibenzo-p-dioxin-treated guinea pigs fed by total parenteral nutrition.

Effects of adenine and its isomer 4-aminopyrazolo-[3,4-d]-pyrimidine on 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced mortality in rats.

Modulation of serum complement levels following exposure to polychlorinated dibenzo-p-dioxins.

[Effect of environmental pollutants on the spermatogram].

Competitive interaction of iron and zinc in the diet: consequences for human nutrition.

The effects of nonadecafluoro-n-decanoic acid on serum retinol and hepatic retinyl palmitate hydrolase activity in male Sprague-Dawley rats.

Trypanosoma cruzi: isolate dependence in the induction of lytic antibodies in the mouse and rabbit.

Immunosuppression without liver induction by subchronic exposure to 2,7-dichlorodibenzo-p-dioxin in adult female B6C3F1 mice.

[Compensatory factors in acute failure of the isolated heart].

A monoclonal antibody preventing binding of tissue-type plasminogen activator to fibrin: useful to monitor fibrinogen breakdown during t-PA infusion.

Evaluating toxin-induced hepatic injury in rats by laboratory results and discriminant analysis.

[Pneumonitis with fatal pulmonary fibrosis (Hamman-Rich syndrome) due to parathion-(E-605-) poisoning].

Mediation of IgA induced lung injury in the rat. Role of macrophages and reactive oxygen products.

Modulation of IgM anti-lymphocyte antibody-reactive T cell surface antigens in systemic lupus erythematosus.

Effect of ischemia-related metabolic factors on thallium exchange in cultured rat myocardial cells.

Alcohol and acetaldehyde in rat's milk following ethanol administration.

Deletion of 24 amino acids from the pro-alpha 1(I) chain of type I procollagen in a patient with the Ehlers-Danlos syndrome type VII.

Health effects of long-term exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Dioxin exposure at Monsanto.

S-antigen-specific rat T cell lines recognize peptide fragments of S-antigen and mediate experimental autoimmune uveoretinitis and pinealitis.

Collagen in human aorta. Changes in the type III/I ratio and concentration of the reducible crosslink, dehydrohydroxylysino-norleucine in ascending aorta from healthy subjects of different age and patients with annulo-aortic ectasia.

Iron deficiency and behavioral development in infants and preschool children.

Identification of ferrous sulfate toxicity in a commercial broiler flock.

[Methyl bromide poisoning].

Syntheses and effects of [Glu34]-thymopoietin II fragment 32-45 and its analogs on the impaired T-cell transformation in a patient with common variable immunodeficiency.

Suppression of B cell differentiation by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Comparative uptake, retention and cytotoxicity of daunorubicin by human myeloid cells.

Plasma membrane potential of murine erythroleukemia cells: approach to measurement and evidence for cell-density dependence.

Subchronic oral toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin in the guinea pig: comparisons with a PCB-containing transformer fluid pyrolysate.

Anisakis simplex: uncoupling of oxidative phosphorylation in the muscle mitochondria of infected fish.

Iron deficiency in the elderly.

The effect of antacids on the absorption of simultaneously ingested iron.

Histopathology of interscapular brown adipose tissue, thyroid, and pancreas in 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD)-treated rats.

Carbonyl iron therapy for iron deficiency anemia.

Further discussion concerning porphyria cutanea tarda and TCDD exposure.

The diagnosis of dioxin-associated illness.

[Guanylate cyclase activity of the rabbit myocardium in normal conditions and in allergic states].

The effect of sodium tetraborate and alum in the management of acute childhood diarrhoea.

1-Methyl-4-phenylpyridine (MPP+) induces oxidative stress in the rodent.

Electrophysiological correlates of peroxide damage in guinea pig hippocampus in vitro.

Relationship of the wasting syndrome to lethality in rats treated with 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Synergistic interaction of 2,3,7,8-tetrachlorodibenzo-p-dioxin and hydrocortisone in the induction of cleft palate in mice.

The use of renal tubule fragments isolated from the rat to investigate aspects of gentamicin nephrotoxicity.

A pilot epidemiologic study of possible health effects associated with 2,3,7,8-tetrachlorodibenzo-p-dioxin contaminations in Missouri.

Changes in the physical and chemical properties of skin collagen from broiler chickens exhibiting oily bird syndrome.

Eosinophil-mediated cellular cytotoxicity induced by zymosan-activated serum.

Toxic myoclonus.

Postmortem studies on posthypoxic and post-methyl bromide intoxication: case reports.

CCl₄-induced toxicity in isolated hepatocytes: the importance of direct solvent injury.

Zinc tolerance test in uremia. Effect of ferrous sulfate and aluminum hydroxide.

Lung neoplasms in rodents after chronic administration of dimethyl hydrogen phosphite.

Acute effect of methyl bromide on sleep-wakefulness and its circadian rhythms in rats.

Bovine amyloid protein AA: isolation and amino acid sequence analysis.

[Alkyldinitrophenol poisoning].

Subacute inhalation experiment for methyl bromide in rats.

A case of fatal sodium azide ingestion.

Liver histology in chronic metribuzin poisoning of the guinea-pig.

Porphyrogenic effect of hexachlorobenzene and 2,3,7,8-tetrachlorodibenzo-para-dioxin: is an inhibitor involved in uroporphyrinogen decarboxylase inactivation?

Synergistic neurotoxicity of carbon tetrachloride/carbon disulfide (80/20 fumigants) and other pesticides in grain storage workers.

Drug-induced myoclonus.

Occupational exposures to chlorophenols.

A review of porphyria and cancer and the missing link with human exposure to hexachlorobenzene.

The role of contaminants in hexachlorobenzene toxicity.

Effects on the fetal rat intestine of maternal malnutrition and exposure to nitrofen (2,4-dichlorophenyl-p-nitrophenyl ether).

Cell number and size in selected organs of fetuses of rats malnourished and exposed to nitrofen.

Inhibition of the low-K_m mitochondrial aldehyde dehydrogenase by diethyl maleate and phorone in vivo and in vitro. Implications for formaldehyde metabolism.

Localization of biologic functions of toxic shock syndrome toxin-1 by use of monoclonal antibodies and cyanogen bromide-generated toxin fragments.

Nifedipine attenuates both alpha-1 and alpha-2 adrenoceptor-mediated pressor and vasoconstrictor responses in conscious dogs and primates.

The nucleotide and partial amino acid sequence of toxic shock syndrome toxin-1.

The effects of pyridinium salts, structurally related compounds of 1-methyl-4-phenylpyridinium ion (MPP⁺), on tyrosine hydroxylation in rat striatal tissue slices.

[Changes in intercellular contact as a parameter of hepatotoxicity of industrial substances].

Hepatic regenerative enzyme activity after pericentral and periportal lobular toxic injury.

Semisynthesis of the native sequence of horse heart cytochrome c-(66-104)-nonatriacontapeptide.

Reproductive toxicology of disinfection by-products.

Acute toxicity and QSAR of chlorophenols on *Daphnia magna*.

The metabolism of fungicides.

A quantitative evaluation of the extent of inner mitochondrial membrane destruction after freezing-thawing based on functional studies.

Effects of heparin on prostacyclin binding and platelet adenylate cyclase activity stimulated by iloprost and forskolin.

Binding of a metabolite of 3,4,3',4'-tetrachlorobiphenyl to transthyretin reduces serum vitamin A transport by inhibiting the formation of the protein complex carrying both retinol and thyroxin.

Metabolism and disposition of 2,3,7,8-tetrachlorodibenzo-p-dioxin in guinea pigs.

A critical examination of assumptions used in risk assessments of dioxin contaminated soil.

In vivo ³¹P nuclear magnetic resonance studies of arsenite induced changes in hepatic phosphate levels.

[Protective effect of malotilate (diisopropyl 1,3-dithiol-2-ylidenemalonate) on chemical-induced hepatotoxicity].

Acute toxicity of pesticides in adult and weanling rats.

Rat lung microsomal lipid peroxidation: effects of vitamin E and reduced glutathione.

Concentration and chemical status of arsenic in the blood of pregnant hamsters during critical embryogenesis. 1. Subchronic exposure to arsenate utilizing constant rate administration.

Influence of extracellular calcium on allyl alcohol-induced hepatotoxicity.

Interactive effects of estradiol and 2,3,7,8-tetrachlorodibenzo-p-dioxin on hepatic cytochrome P-450 and mouse uterus.

Thyroid status and thermogenesis in rats treated with 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Characterization of fibrinogen Milano I: amino acid exchange gamma 330 Asp----Val impairs fibrin polymerization.

Neurotensin in the rat parabrachial region: ultrastructural localization and extrinsic sources of immunoreactivity.

Occupational exposure to chlorophenates. Renal, hepatic and other health effects.

The in situ perfused spinal cord of the rat. Applicability of drugs and chemicals, sodium-lithium exchange, and calcium reduction to functional intact central nervous system tissue.

Functional hepatocellular heterogeneity determined by the hepatotoxins allyl alcohol and bromobenzene in immature and adult Fischer 344 rats.

Screening for the ability of hexachlorobenzene metabolites to decrease rat liver porphyrinogen carboxylase.

Chemotactic activity of collagen-like polypeptides for human peripheral blood neutrophils.

The effect of inhibitors of mitochondrial energy production on hepatic glutathione, UDP-glucuronic acid, and adenosine 3'-phosphate-5'-phosphosulfate concentrations.

Studies of gene transcription and translation in regenerating rat liver.

Campylobacter jejuni in Foods: Its Occurrence, Isolation from Foods, and Injury.

Ingestion of soil contaminated with 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) alters hepatic enzyme activities in rats.

Effect of fasting and acute ethanol administration on the energy state of in vivo liver as measured by ³¹P-NMR spectroscopy.

The increase of body iron stores estimated by the increase of serum ferritin concentration during ferrous sulphate treatment after gastrointestinal surgery.

Relevance of gas and particulate phases of tobacco smoke for lung cancer formation: an experimental study in Syrian golden hamsters.

Enzyme release from the perfused rat heart. The functions of the cytoskeleton under cell-pathological conditions.

Iron-induced peroxidative injury to isolated rat hepatic mitochondria.

Functional derangement of liver mitochondria from hexachlorobenzene-treated rats.

The effect of some hepatotoxins on the sulphoxidation of cimetidine in rat.

Paraquat toxicity.

Amitrole: strain differences in morphological response of the liver following subchronic administration to mice.

Cardio-respiratory effects of paraquat with and without emetics on Wistar rats.

Acute toxicity of monochlorophenols, dichlorophenols and pentachlorophenol in the mouse.

The duration of the pulmonary paraquat toxicity--enhancement effect of O₂ in the rat.

Pulmonary dysfunction during paraquat-induced lung injury: a model of acute alveolar injury.

Assessment of pentachlorophenol toxicity in newborn calves: clinicopathology and tissue residues.

A new model of diffuse interstitial pulmonary fibrosis in the rat.

Acute toxicity of pentachlorophenol to the freshwater snail, *Gillia altilis*.

Herbicides and congenital malformations: a review for the paediatrician.

Comparative behavioral, biochemical and pigmentary effects of MPTP, MPP⁺ and paraquat in *Rana pipiens*.

Cytotoxicity, thiol depletion and inhibition of O6-methylguanine-DNA methyltransferase by various aldehydes in cultured human bronchial fibroblasts.

Carcinogenic and mutagenic properties of chemicals in drinking water.

NTP Toxicology and Carcinogenesis Studies of Dimethyl Hydrogen Phosphite (CAS No. 868-85-9) in F344/N Rats and B6C3F1 Mice (Gavage Studies).

Hepatic metabolism of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in the rat and guinea pig.

Studies on the effects of copper deficiency on rat liver mitochondria. II. Effects on oxidative phosphorylation.

NTP Toxicology and Carcinogenesis Studies of 1,2-Dichlorobenzene (o-Dichlorobenzene) (CAS No. 95-50-1) in F344/N Rats and B6C3F1 Mice (Gavage Studies).

Reasons for possible failure of inoculation to enhance biodegradation.

Acute polybrominated biphenyl toxicosis alters vitamin A homeostasis and enhances degradation of vitamin A.

Acute myelotoxic responses in mice exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Subacute physiological effects of bleached kraft mill effluent (BKME) on the liver of trout, *Salmo gairdneri*.

A light-enhanced metabolism of sulfite in cells of *Cucumis sativus* L. cotyledons.

An evaluation of the role of ethylene in herbicidal injury induced by picloram or clopyralid in rapeseed and sunflower plants.

Collagen types in neocartilage tissue resulting from rib perichondrial graft in an articular defect--a rapid semi-quantitative methodology.

beta-Ketoadipate pathway in *Trichosporon cutaneum* modified for methyl-substituted metabolites.

Influence of extracellular phosphate concentrations on the regulation of hepatic glucose output.

¹¹C-labeled 4-isopropylantipyrine: preparation and biological evaluation as a blood flow tracer in positron emission tomography (PET).

Properties and biochemical characterization of NADH 5 alpha-reductase from rat liver microsomes.

Elevation of hepatic microsomal epoxide hydrolase activity by 2-acetylaminofluorene: role of metabolism.

N-sulfoxy-2-aminofluorene is the major ultimate electrophilic and carcinogenic metabolite of N-hydroxy-2-acetylaminofluorene in the livers of infant male C57BL/6J x C3H/HeJ F1 (B6C3F1) mice.

Joint toxicity of mixtures of groups of organic aquatic pollutants to the guppy (*Poecilia reticulata*).

Pili of *Neisseria meningitidis*. Analysis of structure and investigation of structural and antigenic relationships to gonococcal pili.

Effect of anion-specific inhibitors on the utilization of sugar nucleotides for N-linked carbohydrate unit assembly by thyroid endoplasmic reticulum vesicles.

Urinary D-glucaric acid excretion in the Seveso area, polluted by tetrachloro-dibenzo-p-dioxin (TCDD): five years of experience.

Conversion of 5-aminolaevulinic acid into haem by homogenates of human liver. Comparison with rat and chick-embryo liver homogenates.

Induction of thermotolerance and heat shock protein synthesis in normal and respiration-deficient chick embryo fibroblasts.

Iron poisoning--a preventable hazard of childhood.

Absence of lipid peroxidation as determined by ethane exhalation in rats treated with 2, 3, 7, 8-tetrachlorodibenzo-p-dioxin (TCDD).

Calcium dependent modulation of histamine release from mast cells by sodium and potassium.

Selective depression of thymus-independent anti-DNP antibody responses induced by adult but not neonatal splenectomy.

The ATP dependence of the degradation of short- and long-lived proteins in growing fibroblasts.

Comparative toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in four (sub)strains of adult male rats.

Enhanced reactivation of UV-irradiated adenovirus 2 in HeLa cells treated with non-mutagenic chemical agents.

Use of a new citrulline incorporation assay to investigate inhibition of intercellular communication by 1,1,1-trichloro-2,2-bis(p-chlorophenyl)ethane in human fibroblasts.

Subacute effects of methyl bromide dosed by inhalation exposure to rats.

Determination of acute toxic effects in mice following exposure to methyl bromide.

Ammonia, octanoate and a mercaptan depress regeneration of normal rat liver after partial hepatectomy.

Aminopyrine breath test and zonal hepatic damage in rats.

Metabolic fate and cardiovascular effects of arsenic in rats and rabbits chronically exposed to trivalent and pentavalent arsenic.

Alcohol dehydrogenase: a new sensitive marker of hepatic centrilobular damage.

Allyl alcohol toxicity in isolated renal epithelial cells: protective effects of low molecular weight thiols.

The protective effect of pollen extracts against allyl alcohol damage of the liver.

Carbohydrate, protein and glycoprotein metabolism by the guinea-pig liver in chronic metribuzin poisoning.

[Paraquat poisoning in the Netherlands, 1972-1982].

Phenoxy and picolinic acid herbicides and small-intestinal adenocarcinoma in sheep.

Chronic toxicity, reproductive, and teratogenic studies of hexazinone.

Ascorbic acid and riboflavin in the treatment of acute intoxication by paraquat.

Plasma glutathione disulfide as an index of oxidant stress in vivo: effects of carbon tetrachloride, dimethylnitrosamine, nitrofurantoin, metronidazole, doxorubicin and diquat.

Determination and measurement of human exposure to the dibenzo-p-dioxins.

Human effects of TCDD exposure.

The epidemiology and toxicology of TCDD.

Pharmacologic treatment of chronic alcoholism.

VA study of twins may be canceled.

Soft tissue sarcoma and exposure to phenoxyherbicides and chlorophenols in New Zealand.

Sarcomas of soft tissues after Vietnam service.

[Allergy to decorative plants].

Recovery from severe pulmonary damage due to paraquat administered intravenously and orally.

Ascorbic acid nutritional status does not affect the biochemical response to paraquat.

Toxicologic studies in a fatal overdose of 2,4-D, mecoprop, and dicamba.

Phototoxicity of a weedkiller: a correction.

Paraquat poisoning.

Experimental paraquat poisoning--histological, electron microscopic and autoradiographic changes in the lung.

[A fatal case of herbicide poisoning: nursing of the patient and her family].

[Acute poisoning with the herbicide diquat].

Occupational exposure and drift hazard during aerial application of paraquat to cotton.

Effect of suspended bentonite clay on the acute toxicity of glyphosate to *Daphnia pulex* and *Lemna minor*.

[Diagnostic problems of paraquat poisoning].

[Embryotoxic effect of diuron in animal experiments].

Acute and environmental toxicity studies with hexazinone.

Paraquat ingestion.

[Plasmapheresis by adsorption. a. Physico-chemical adsorption method].

Radiotherapy for paraquat lung toxicity.

Cancer and occupational exposure to chlorophenols.

An assessment of the treatment needs of Vietnam-era veterans.

Acute toxicity of chromate, DDT, PCP, TPBS, and zinc to *Daphnia magna* cultured in hard and soft water.

Effects of vitamin E and selenium on the toxicity of paraquat.

A fatal case of 2,4-D toxicity?

Lung morphology in experimental acute paraquat poisoning. SEM observations.

Tissue slices in the study of lung metabolism and toxicology.

Human health effects of 2,4,5-T and its toxic contaminants.

Selected responses of hypertension-sensitive and resistant rats to inhaled acrolein.

Effects of dietary methionine, methylmercury, and atrazine on ex-vivo synthesis of prostaglandin E1 and thromboxane B2.

[Liver function in alcoholic patients treated with cyanamide].

Acute toxic effects of paraquat on ultrastructure of rat liver.

Usefulness of *Cyprinodon variegatus* and *Fundulus grandis* in carcinogenicity testing: advantages and special problems.

Collagen stimulating factors from lung in experimental paraquat poisoning demonstrated in vitro and in vivo.

Resolution after radiotherapy of severe pulmonary damage due to paraquat poisoning.

Acute and chronic toxicity of triclopyr triethylamine salt to *Daphnia magna* Straus.

Paraquat: model for oxidant-initiated toxicity.

Agent Orange study is like a chameleon.

The effectiveness of N-acetylcysteine in isolated hepatocytes, against the toxicity of paracetamol, acrolein, and paraquat.

Ready evaluation of lung alveolar toxic damage with histological sections morphometry.

[Fatal paraquat poisoning].

Plasma pentachlorophenol concentrations in calves exposed to treated wood in the environment.

Severe mental retardation and multiple congenital anomalies of uncertain cause after extreme parental exposure to 2,4-D.

Single lung transplantation in paraquat intoxication.

The role of drugs in the treatment of alcoholism.

Structural hepatic changes associated with cyanamide treatment: cholangiolar proliferation, fibrosis and cirrhosis.

Oral intubation of dogs with combinations of fertilizer, herbicide, and insecticide chemicals commonly used on lawns.

Pathogenesis of paraquat-induced pulmonary hemorrhage in hamsters with special reference to arterial constriction.

Renal involvement in paraquat poisoning.

Non-mutagenicity of some wood-related compounds in the bacterial/microsome plate incorporation and microsuspension assays.

The acute effects of single and repeated injections of acrolein and other aldehydes.

Toxicity studies in isolated hepatocytes from selenium-deficient rats and vitamin E-deficient rats.

Phototoxicity of glyphosate in a weedkiller.

[Mechanical properties of the lung in paraquat-poisoned rats. Histopathologic correlates].

Paraquat-induced pulmonary fibrosis. Role of the alveolitis in modulating the development of fibrosis.

Acute effects of environmental tobacco smoke.

Herbicides, miracle agents or? Fatal Danish cases.

Acute diquat intoxication. Interest of its repeated determination in urine and the evaluation of renal proximal tubule integrity.

Tailor-made agarose-based reactive beads for hemoperfusion and plasma perfusion.

The effects of hypolipidemic peroxisome proliferators on the induction of sister chromatid exchanges.

Human exposure to DEF/merphos.

Prolonged coma and delayed peripheral neuropathy after ingestion of phenoxyacetic acid weedkillers.

Health status of workers with past exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin in the manufacture of 2,4,5-trichlorophenoxyacetic acid: comparison of findings with and without chloracne.

Tobacco smoke in the workplace: an occupational health hazard.

Paraquat and radiation effects on mouse C3H 10T1/2 cells.

Efficacy of calcium carbimide after failure of disulfiram to cause a reaction to alcohol.

Antibody-dependent cytotoxicity of human and mouse mononuclear cells against *Trypanosoma cruzi* epimastigotes.

Release of amino-terminal procollagen peptides in paraquat-induced acute pulmonary fibrosis.

[Changes in the lung tissue of newborn rats after paraquat as a model of respiratory distress].

Cyanamide-induced liver cell injury. Experimental study in the rat.

Penetration of some compounds through blood-brain and blood-testis barriers in chronically hypertensive rats.

Quantitative liver functions after administration of allyl alcohol to rats.

Role of acrolein in cyclophosphamide teratogenicity in rat embryos in vitro.

Properties of the lysosomes from liver and gill of rainbow trout, *Salmo gairdnerii* R.: effect of starvation, salinity and 2,4,5-T.

[Effect of herbazin 50 on the course of suppurative surgical infection in sheep].

Extracorporeal removal of specific antibodies by hemoperfusion through the immunosorbent agarose-polyacrolein microsphere beads: removal of anti-bovine serum albumin in animals.

Effects of metals and organic compounds on hepatic glutathione, cysteine, and acid-soluble thiol levels in mullet (*Mugil cephalus* L.).

Hyperoxia and paraquat alter the kinetics of platelet serotonin uptake.

Paraquat-induced injury of type II alveolar cells. An in vitro model of oxidant injury.

Superoxide dismutase and chilling injury in *Chlorella ellipsoidea*.

A simple reliable assay for myeloperoxidase activity in mixed neutrophil-eosinophil cell suspensions: application to detection of myeloperoxidase deficiency.

Chlorinated compounds in tissues of chickens raised on pentachlorophenol-contaminated litter.

Hexadecane increases the toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD): is brown adipose tissue the primary target in TCDD-induced wasting syndrome?

Frequency of reproductive dysfunction in Hawaii by race and judicial district 1968-1982.

A novel human myelomonocytoid cell line, P39/Tsugane, derived from overt leukemia following myelodysplastic syndrome.

9 alpha- and 9 beta-Hydroxyphenylmorphans.

[Absorption of iron from milk enriched with ferrous sulfate for the prevention of anemia in pregnancy].

Exposure to hydrogen sulfide, mercaptans and sulfur dioxide in pulp industry.

Histologic changes produced by 2,3,7,8-tetrachlorodibenzo-p-dioxin in the skin of mice carrying mutations that affect the integument.

Evaluation of pesticides which pose carcinogenicity potential in animal testing. II. Consideration of human exposure conditions for regulatory decision making.

[Inhibitor interaction in the suppression of ribosomal RNA synthesis in Ehrlich ascites carcinoma cells].

[Derivatives of 2-thiocyanobenzoic acid with antifungal activity].

Role of acidosis in early contractile dysfunction during ischemia: evidence from pH_o measurements.

Possible role for a human adenovirus in the pathogenesis of celiac disease.

Oxygen metabolism in phagocytes of leprotic patients: enhanced endogenous superoxide dismutase activity and hydroxyl radical generation by clofazimine.

Prevention of TCDD toxicity in laboratory rodents by addition of charcoal or cholic acids to chow.

Cobalt--from bacteria to borax bead test.

An evaluation of reports of dioxin exposure and soft tissue sarcoma pathology among chemical workers in the United States.

Teratogenicity of 2,3,7,8-tetrachlorodibenzofuran in BXD recombinant inbred strains.

Experimental skeletal muscle damage: the nature of the calcium-activated degenerative processes.

An isozyme-specific selective system for the recovery of mammalian cells deficient in hepatic alcohol dehydrogenase activity.

Immunosuppression in weanling and adult Sprague-Dawley rats induced by acute exposure to 3,3',4,4'-tetrachloroazoxybenzene.

Cysteine in the triple-helical domain of one allelic product of the alpha 1(I) gene of type I collagen produces a lethal form of osteogenesis imperfecta.

[Hodgkin's disease and occupation].

The influence of liver disease on the methylation of arsenite in humans.

Studies of stools from pseudomembranous colitis, rotaviral, and other diarrheal syndromes by frequency-pulsed electron capture gas-liquid chromatography.

Separation of wasting syndrome and lethality caused by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Suppression of type II collagen-induced arthritis by the intravenous administration of type II collagen or its constituent peptide alpha 1 (II) CB10.

Frequency of apolipoprotein A-I mutants in the German population.

Cutaneous signs of dioxin exposure.

The pharmacological profile of the thromboxane A₂ antagonist BM 13.177. A new anti-platelet and anti-thrombotic drug.

Isolation and characterization of revertants from four different classes of aryl hydrocarbon hydroxylase-deficient hepa-1 mutants.

Increased plasma and aortic triglycerides in rabbits after acute administration of 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Acute lung injury in rat caused by immunoglobulin A immune complexes.

Glomerulonephritis induced by pre-formed immune complexes containing monoclonal antibodies of defined affinity and isotype.

Radioimmunoassay for detecting abnormal prealbumin in the serum for diagnosis of familial amyloidotic polyneuropathy (Japanese type).

[The most common diseases caused by the adverse effect of phenols and chlorophenols].

Nasal cancer and chlorophenols.

Parallel temperature dependence of contracture-associated enzyme release due to anoxia, 2,4-dinitrophenol (DNP), or caffeine and the calcium paradox.

Amyloid fibril protein in familial amyloidotic polyneuropathy, Portuguese type. Definition of molecular abnormality in transthyretin (prealbumin).

Autoradiographic and biochemical studies of drug distribution in the liver. I. [¹⁴C]Dehydrocorydaline.

[Effect of hypoxia and hypoperfusion on the contractile function of the isolated heart working under various loads].

Pathogenic mechanisms in osteochondrodysplasias.

Digestible energy and efficiency of feed utilization in rats treated with 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Soft tissue sarcomas in agriculture and forestry workers.

Effect of iron-deficiency anemia on percent blood volume in growing rats.

Analysis of collagen from normal and abnormal human bone.

Sodium glycolate absorption in rat intestine.

[Comparative evaluation of the effectiveness of iron preparations in iron deficiency anemia].

Connective tissue antigens stimulate collagenase production in arthritic diseases.

Evidence for a role of hydroxyl radical in immune-complex-induced vasculitis.

Glomerulonephritis: the use of grafted hybridomas to investigate the role of epitope density, antibody affinity and antibody isotype in active serum sickness.

Acute Heinz-body anemia due to severe cresol poisoning: successful treatment with erythrocytapheresis.

Dermatitis in a dog associated with exposure to an arsenic compound.

General principles of the evaluation and therapy of anemias.

Teratogenicity of TCDD and the congener 3,3',4,4'-tetrachloroazoxybenzene in sensitive and nonsensitive mouse strains after reciprocal blastocyst transfer.

Glucose-6-phosphate-dehydrogenase-deficient erythrocytes have an impaired shape recovery mechanism.

Modification of sialic acid carboxyl group of ganglioside.

[Kinetics of the change in the level of metalloproteins and free radicals in the liver of rats with acute poisoning by alkyl derivatives of 2, 4-dinitrophenol].

Naloxone improves, and morphine exacerbates, experimental shock induced by release of endogenous histamine by compound 48/80.

Characterization of the wasting syndrome in rats treated with 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Iron absorption and utilization in maintenance hemodialysis patients: oral and intravenous routes.

Coprophagy in iron-deficient rats: II. 2 novel methods of prevention.

Ruminal metabolism of plant toxins with emphasis on indolic compounds.

Known occupational carcinogens and their significance.

Cutaneous signs of systemic toxicity due to dioxins and related chemicals.

Hyperthermia, Na⁺K⁺ATPase and lactic acid production in some human tumour cells.

Leads from the MMWR. Porphyria cutanea tarda and sarcoma in a worker exposed to 2,3,7,8-tetrachlorodibenzodioxin-Missouri.

Dioxin in soil: bioavailability after ingestion by rats and guinea pigs.

Purification of soluble specific antigens of systemic candidiasis by antibody affinity chromatography.

Porphyria cutanea tarda and sarcoma in a worker exposed to 2, 3, 7, 8-tetrachlorodibenzodioxin--Missouri.

Teratological studies on the TCDD congener 3,3',4,4'-tetrachloroazoxybenzene in sensitive and nonsensitive mouse strains: evidence for direct effect on embryonic tissues.

Erythrocyte membrane alterations as the basis of chlorate toxicity.

Benoxaprofen photosensitization of cell membrane disruption.

Visual evoked potentials in a rabbit model of hepatic encephalopathy. II. Comparison of hyperammonemic encephalopathy, postictal coma, and coma induced by synergistic neurotoxins.

[Experimental studies of root canal therapy for infected nonvital permanent teeth with incompletely formed apices].

Pesticides: the good and the bad.

Identification of an anti-monocyte monoclonal antibody that is specific for membrane complement receptor type one (CR1).

The differential effects of dimethylnitrosamine and ethionine on mitochondrial and extramitochondrial dehydrogenases in single intact cells.

Neutrophil-mediated cellular cytotoxicity induced by zymosan-activated serum.

Acute effects of 12-O-tetradecanoylphorbol-13-acetate, teleocidin B, or 2,3,7,8-tetrachlorodibenzo-p-dioxin on cultured normal human bronchial epithelial cells.

Mortality of workers potentially exposed to organic and inorganic brominated chemicals, DBCP, TRIS, PBB, and DDT.

Acute iron poisoning in children.

Development of chronic hepatic porphyria (porphyria cutanea tarda) with inherited uroporphyrinogen decarboxylase deficiency under exposure to dioxin.

The assessment of iron stores in children on regular dialysis treatment.

Long-term consequences of exposure to ozone. I. Lung collagen content.

The effects of sucrose loading on lysosomal hydrolases.

Calcium is a competitive inhibitor of gentamicin-renal membrane binding interactions and dietary calcium supplementation protects against gentamicin nephrotoxicity.

Oral iron therapy in human subjects, comparative absorption between ferrous salts and iron polymaltose.

On the absorption of divalent and trivalent iron in living rats.

Agriculturally-related carcinogenic risk.

Occupational exposure to chlorophenates: toxicology and respiratory effects.

Toxicologic, pathologic, and immunotoxic effects of 2,4-dichlorophenol in rats.

Prostanoids and cell injury.

Transplantation studies on induced and spontaneous nodules from B6C3F1 mouse liver.

Teratogenicity of 2,3,7,8-tetrachlorodibenzofuran in the mouse.

Neurobehavioral assessment of chronic low-level methyl bromide exposure in the rabbit.

On the application of cultured neuroblastoma cells in chemical toxicity screening.

Combined use of a water-insoluble chemical delivery system and a metabolic activation system in whole embryo culture.

Improved red cell survival in patients with chronic subclinical haemolysis due to artificial heart valve. Observations after in vitro treatment of the cells with potassium cyanate.

Biochemical activity of intestinal microflora in adult coeliac disease.

The gamma 1 heavy-chain disease FOR protein is present in two molecular forms.

An acquired inhibitor of factor XIII with a qualitative abnormality of fibrin cross-linking.

The primary structure of mu-chain-disease protein BOT. Peculiar amino-acid sequence of the N-terminal 42 positions.

Application of an enzyme-linked immunosorbent assay for detection of Brucella antigens in vaginal discharge of cows.

Occupational influences on male fertility and sexuality. I.

Molecular mechanism of cataractogenesis: III. Toxic metabolites of oxygen as initiators of lipid peroxidation and cataract.

[Experimental porphyria induced by chlorinated hydrocarbons. Studies of porphyrinogen carboxy-lyase in the experimental model of human cutaneous delayed porphyria].

Decreased induction of aryl hydrocarbon hydroxylase activity in hyperproliferative hairless mouse epidermis.

Family studies of the genetic abnormality in transthyretin (prealbumin) in Portuguese patients with familial amyloidotic polyneuropathy.

Polychlorinated biphenyls (PCBs) and polybrominated biphenyls (PBBs): biochemistry, toxicology, and mechanism of action.

N-Hydroxy-N-arylamides. I. Toxicity of certain polycyclic and monocyclic N-hydroxy-N-arylamides in rats.

Triiodothyronine production by isolated rat hepatocytes: characterization and lack of glucoregulatory hormone effects.

Sequence comparison of rat liver phenylalanine hydroxylase and its cDNA clones.

Lead flux through the kidney and salivary glands of rats.

Intracellular calcium storage and release in the human platelet. Chlorotetracycline as a continuous monitor.

Immunogenicity of tick-borne encephalitis virus glycoprotein fragments: epitope-specific analysis of the antibody response.

Blood glutathione as a measure of exposure to toxic compounds.

Oxalate accumulation in rat renal cortical slices.

Peripheral and central actions of sodium azide on circulatory and respiratory homeostasis in anesthetized cats.

Biochemical indices of cyclophosphamide-induced lung toxicity.

Production of chemotactic activity for polymorphonuclear leukocytes by cultured rat hepatocytes exposed to ethanol.

Location of neutralizing epitopes defined by monoclonal antibodies generated against the outer capsid polypeptide, VP1, of foot-and-mouth disease virus A12.

Human liver mitochondrial aldehyde dehydrogenase: a C-terminal segment positions and defines the structure corresponding to the one reported to differ in the Oriental enzyme variant.

Amino acid sequence of NADH-cytochrome b5 reductase of human erythrocytes.

Plasminogens Tochigi II and Nagoya: two additional molecular defects with Ala-600----Thr replacement found in plasmin light chain variants.

Serum gamma glutamyl transferase as a specific indicator of bile duct lesions in the rat liver.

Identification of the essential tyrosine residue in the beta subunit of bovine heart mitochondrial F1-ATPase that is modified by 7-chloro-4-nitro[14C]benzofurazan.

Sustained Photoproduction of Ammonia from Dinitrogen and Water by the Nitrogen-Fixing Cyanobacterium *Anabaena* sp. Strain ATCC 33047.

Respiratory tract lesions induced by sensory irritants at the RD50 concentration.

Toxicity evaluation of sub-chronic exposures to cyanogen in monkeys and rats.

Effects of allyl alcohol and bromobenzene on trimethadione metabolism in the rat.

In vitro interaction of *Mycobacterium avium* with intestinal epithelial cells.

2,4-Dinitrophenol (DNP)-induced injury in calcium-free hearts.

Effects of leukotrienes and f-Met-Leu-Phe on oxidative metabolism of neutrophils and eosinophils.

Effects of H2 receptor antagonists on the hepatotoxicity of various chemicals.

[Effect of hepatotoxic industrial substances on contact interactions of rat hepatocytes].

[Determination of the ecological niche of *Bacteroides* in the gastrointestinal tract--a study of a model of sterile intestines in germ-free animals].

The use of sodium 2-mercaptoethane sulfonate to prevent cyclophosphamide cystitis.

Processing of human growth hormone by rat hepatocytes in monolayer culture.

Influence of aging on the susceptibility of rats to hepatotoxic injury.

Blood coagulation and acute iron toxicity. Reversible iron-induced inactivation of serine proteases in vitro.

Acceptors for botulinum neurotoxin reside on motor nerve terminals and mediate its internalization.

Nippostrongylus brasiliensis: the effect of mitochondrial inhibitors on life-cycle stages.

Different susceptibility of mouse tissues to porphyrinogenic effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Depression of contractility in isolated rabbit myocardium following exposure to iron: role of free radicals.

Induction of cytoplasmically inherited respiration-deficient ('petite') mutants by photodynamic action of acridine compounds.

Effect of oral iron supplementation during pregnancy on maternal and fetal iron status.

Prolonged red cell survival following in vitro treatment with potassium cyanate. A study in patients undergoing open-heart surgery.

Immunosuppression by D-penicillamine in vitro. Inhibition of human T lymphocyte proliferation by copper- or ceruloplasmin-dependent generation of hydrogen peroxide and protection by monocytes.

Enhancement of Newcastle disease virus-induced fusion of mouse L cells by sodium vanadate.

Cytological changes occurring in the liver of coturnix quail with an acute arsenic exposure.

Effect of aging on liver glutathione levels and hepatocellular injury from carbon tetrachloride, allyl alcohol or galactosamine.

Observations on the effects of cyclophosphamide, phosphoramidate mustard and some activated oxazaphosphorines on murine L1210 leukemia.

Polyamine oxidase-mediated intraerythrocytic killing of *Plasmodium falciparum*: evidence against the role of reactive oxygen metabolites.

Effects of auxiliary liver transplantation on oxygen consumption in the graft and recipient's liver mitochondria. Possible inter-liver regulating mechanism.

Purification of F₁-ATPase with impaired catalytic activity from partial revertants of *Escherichia coli* uncA mutant strains.

A study of androgen-stimulated L-leucine transport by the intestine of rainbow trout (*Salmo gairdneri* Richardson) in vitro.

Assay and biochemical characterization of angiotensin-I-converting enzyme in cerebrospinal fluid.

Environmental hazards of interest to the forensic pathologist.

Nitrofen: a review and perspective.

[Glutathione-ascorbic acid system function in dithiocarbamate workers].

The effect of nitrofen [4-(2,4-dichlorophenoxy)nitrobenzene] on the reproductive performance of male rats.

Fatality due to paraquat intoxication: confirmation by postmortem tissue analysis.

Strong evidence from studies with brachymorphic mice and pentachlorophenol that 1'-sulfoxyxyafrole is the major ultimate electrophilic and carcinogenic metabolite of 1'-hydroxyafrole in mouse liver.

[Paraquat poisoning treated with simultaneous hemoperfusion and hemodialysis].

[Acute paraquat poisoning. A single treatment: prevention].

Subacute toxicity of paraquat in rats--biochemical effects.

Inhibition of collagen synthesis as a treatment for paraquat poisoning.

Effect of phenolic compounds on in vivo activity of transaminases in certain tissues of the fish, *Notopterus notopterus*.

Maternal hepatic effects of 1,2,4,5-tetrachlorobenzene in the rat.

[Fatal paraquat poisoning. Presentation of 2 new cases and review of the literature].

[Microinjuries and suppurative diseases of the fingers among rural inhabitants].

Positive correlation between superoxide dismutase and resistance to paraquat toxicity in the green alga *Chlorella sorokiniana*.

[Fibrotic changes of the lung in ARDS].

[Pathology in firemen].

Chronic intoxication by an herbicide, 2,4,5-trichlorophenoxyacetic acid, in the pond snail, *Lymnaea stagnalis* L.

Medical and morbidity surveillance findings among employees potentially exposed to TCDD.

Subacute toxicity of Basalin in rats.

Malathion and phenthoate carboxylesterase activities in pulmonary alveolar macrophages as indicators of lung injury.

Potential of ethanol toxicity by cyanamide in relation to acetaldehyde accumulation.

Selective action of prostaglandin F₂ alpha during paraquat-induced pulmonary edema in the perfused lung.

Cyanamide-induced liver injury. A predictable lesion.

Teratogens and the male. An analysis with special reference to herbicide exposure.

Severe transient idiopathic neutropenia and liver damage in a pony.

Near fatal percutaneous paraquat poisoning.

Pentachlorophenol poisoning.

Hemoperfusion in a child who ingested diquat and died from pontine infarction and hemorrhage.

[Prognostic factors in acute paraquat poisoning. A retrospective study of cases registered by the Poison Control Center of Paris in 1981].

Fish and amphibian embryos--a model system for evaluating teratogenicity.

[Clinical findings and treatment of paraquat poisoning in childhood].

Modification of chemical toxicity by selenium deficiency.

The effects of acetaldehyde and acrolein on blood pressure in guanethidine-pretreated hypertensive rats.

Diquat intoxication.

More questions, not answers, emerge from Agent Orange studies.

Paraquat poisoning: evidence of systemic toxicity after dermal exposure.

[Electromyographic characteristics of acute poisonings with chlorine derivatives of phenoxy acids].

Survival and condition of rainbow trout (*Salmo gairdneri*) after acute exposures to methyl parathion, triphenyl phosphate, and DEF.

Effect of chronic herbicide intoxication on in vivo activities of certain enzymes in the liver of freshwater fish *Nemachelius denisonii* (day).

Herbicide exposure and pulmonary disease.

[Acute paraquat poisoning: prognostic and therapeutic significance of blood assay].

[Deliberate poisoning with paraquat, death in less than 24 hours].

Toxicologic studies in a fatal overdose of 2,4-D, MCP, and chlorpyrifos.

A paraquat fatality--the dilemma of multiple analyses.

Paraquat myocarditis and adrenal cortical necrosis.

Nephrotoxicity of paraquat in the sheep and the associated reduction in paraquat secretion.

Postnatal evaluation of morphological and functional effects of prenatal exposure to nitrofen in the Long-Evans rat.

Post concussion syndrome hypoglycemia and Agent Orange.

[Experimental study on paraquat-induced pneumonitis--therapeutic effects of prednisolone and elastase].

Review of the effects of Agent Orange: a psychiatric perspective on the controversy.

Circadian rhythms of RNA, DNA and protein in the rat thyroid, adrenal and testis in chronic pesticide exposure. II. Effects of the herbicides Aminotriazole and Alachlor.

A case of fatal paraquat poisoning and a rapid method for analysis of paraquat in biological material.

Protection against acute paraquat toxicity by dietary selenium in the chick.

[Experimental studies of certain aspects of the hepatotoxicity of allyl alcohol].

[Hypo-oxygenation in paraquat poisoning. Apropos of 6 cases].

Vietnam veterans.

Embryotoxic effects of acrolein, methacrylates, guanidines and resorcinol on three day chicken embryos.

Effects of paraquat on plasma glucose, cortisol, catecholamines, and insulin in the beagle.

Lipid peroxidation: a possible mechanism of cephaloridine-induced nephrotoxicity.

The effects of acrolein exposure on pulmonary antibacterial defenses.

Postnatal developmental alterations following prenatal exposure to the herbicide 2,4-dichlorophenyl-p-nitrophenyl ether: a dose response evaluation in the mouse.

Toxic anti-GBM glomerulonephritis.

Aplastic anemia and red cell aplasia due to pentachlorophenol.

[Comparative studies on the embryotoxicity of 2-methyl-4-chlorophenoxyacetic acid, mecoprop and dichlorprop in NMRI mice].

[Toxicologic characteristics of several pesticides and standards for them in water].

[The authors' experience in treating acute paraquat poisoning].

Cancer epidemiology of pesticide manufacturers, formulators and users.

Effects of a dermal dose of S,S,S,-tri-n-butyl phosphorotrithioate on brain acetylcholinesterase, acid phosphatase, and 2',3'-cyclic nucleotide-3' phosphohydrolase and plasma butyrylcholinesterase in hens.

Hepatitis induced by drugs used as alcohol aversion therapy.

Morphological and biochemical studies on liver, kidney and gill of fishes affected by pesticides.

Fume inhalation chloracne.

[Hepatotoxicity of 2,4,5-trichlorophenoxyacetic acid. Cytologic and biochemical study in quail embryos].

[Pulmonary toxicity of free radicals of oxygen].

Correlates of self-reported and objectively determined exposure to Agent Orange.

Prevention of thiourea-induced pulmonary edema by hydroxyl-radical scavengers.

Correlation between brain tissue and cerebrospinal fluid concentrations of selected compounds in rats with intact and injured blood-brain barrier.

Preparation and investigation of cross-linked copolymers containing antitumour agents.

Cardiovascular effects of acetaldehyde accumulation after ethanol ingestion: their modification by beta-adrenergic blockade and alcohol dehydrogenase inhibition.

Exposure of pesticide applicators to nitrofen: influence of formulation, handling systems, and protective garments.

Ether link cleavage is the major pathway of iodothyronine metabolism in the phagocytosing human leukocyte and also occurs in vivo in the rat.

Studies in occupational epidemiology: the case for international collaboration.

Effect of increasing carbon chain length on organic acid transport by the choroid plexus: a potential factor in Reye's syndrome.

[Effect of heavy metals and pesticides on the antigenic behavior of mastitis staphylococci isolated from cows and sheep].

Detection of renal dysfunction in neonatal rats: methodologies and applications.

Histochemical demonstration of enteropeptidase activity. New method with a synthetic substrate and its comparison with the trypsinogen procedure.

Formal genesis of pulmonary fibrosis: experimental investigations.

Acute toxicity of fluorinated ether anesthetics: role of 2,2,2-trifluoroethanol and other metabolites.

[Effect of chlorine-containing pesticides on the hemolytic stability and acetylcholinesterase activity of erythrocytes].

Circadian rhythms of RNA, DNA and protein in the rat thyroid, adrenal and testis, in chronic pesticide exposure. IV. Effects of the herbicide 2,4-dichlorophenoxyacetic acid.

Myeloperoxidase-mediated modulation of chemotactic peptide binding to human neutrophils.

Effects of intravenous acetaldehyde, acrolein, formaldehyde and propionaldehyde on arterial blood pressure following acute guanethidine treatment.

Effects of monocrotaline and monocrotaline pyrrole on 5-hydroxytryptamine and paraquat uptake by lung slices.

Specificity of hepatic aldehyde dehydrogenase inhibition by calcium carbimide (calcium cyanamide) in the rat.

Paraquat inhibits mixed-function oxidation by rat lung.

The effect of ethanol on the absorption, accumulation and biotransformation of xenobiotics by the isolated perfused rabbit lung.

Analysis of the antimutagenic effect of cinnamaldehyde on chemically induced mutagenesis in *Escherichia coli*.

A new era of exploitation of microbial metabolites.

Iron-storage deficiency and iron supplementation in pregnancy.

The relative effectiveness of iron and iron with riboflavin in correcting a microcytic anaemia in men and children in rural Gambia.

Mechanism of enzyme release in the calcium paradox.

Biochemical modulation of angiogenesis in the chorioallantoic membrane of the chick embryo.

Effects of chronic ethanol feeding and acetaldehyde metabolism on calcium transport by rat liver mitochondria.

Identification of amyloid prealbumin variant in familial amyloidotic polyneuropathy (Japanese type).

Isolation and characterization of the cyanogen bromide peptides of the collagen 2 alpha chain from a transplantable rat chondrosarcoma.

Lymphocyte transformation to connective tissue antigens in adult and juvenile rheumatoid arthritis, osteoarthritis, ankylosing spondylitis, systemic lupus erythematosus, and a nonarthritic control population.

Inhibitory effect of triethyltin on taurine transport by glioma cells.

Bioavailability of different sources of ferrous sulfate iron fed to anemic rats.

Different levels of glycosylation contribute to the heterogeneity of alpha 1(II) collagen chains derived from a transplantable rat chondrosarcoma.

Decreased liver delta-aminolaevulinic acid dehydratase activity in porphyria cutanea tarda and in alcoholism.

Short-term inhalation test for evaluating industrial hepatotoxicants in rats.

Simple, rapid spectrophotometry of urinary N-acetyl-beta-D-glucosaminidase, with use of a new chromogenic substrate.

International illicit drug traffic: the United States response.

The acute toxicity of perfluorooctanoic and perfluorodecanoic acids in male rats and effects on tissue fatty acids.

Modulation of human granulocyte and monocyte chemiluminescence responses: evidence for distinct free radical generating systems.

[Brain death in secondary brain lesion].

Chronic boric acid poisoning in infants.

Sodium monochloroacetate poisoning of cattle and sheep.

Epidemiological study of socioeconomic factors and clinical findings in Hodgkin's disease, and reanalysis of previous data regarding chemical exposure.

The respiration-linked limiting step of tumor cell transition from the non-cycling to the cycling state: its inhibition by oxidizable substrates and its relationships to purine metabolism.

The covalent structure of amyloid-related serum protein SAA from two patients with inflammatory disease.

Biochemical and biosynthetic studies of a crystallizable human gamma 1 heavy-chain disease protein.

Selected cancer mortality and farm practices in Iowa.

[Acute poisonings in relation to circadian biorhythms].

Dioxin exposure and sarcoma.

Relationship between hyperthermia-induced heat-shock proteins and thermotolerance in Morris hepatoma cells.

Analysis of cyanogen bromide peptides of type I collagen from a patient with lethal osteogenesis imperfecta.

Mushroom poisoning caused by species of the genus *Cortinarius* Fries.

Effects of parathyroid hormone on skeletal muscle protein and amino acid metabolism in the rat.

Type I collagen content is increased in lungs of patients with adult respiratory distress syndrome.

Molecular basis of hypoxanthine-guanine phosphoribosyltransferase deficiency in a patient with the Lesch-Nyhan syndrome.

Iron deficiency and sickle cell anemia.

The role of growth of normal and preneoplastic cell populations for tumor promotion in rat liver.

Encephalopathic effect of phenol in rats.

Clusters of malformations in Sweden: a study with central registers.

Suppression of unprimed T and B cells in antibody responses by irradiation-resistant and plastic-adherent suppressor cells in *Toxoplasma gondii*-infected mice.

Experimental allergic neuritis. Humoral and cellular immune responses to the cyanogen bromide peptides of the P2 protein.

The effect of acute inflammation on iron metabolism in rats.

[Protective effect of extracellular K⁺ in the myocardium in disorders of energy metabolism].

Bioavailability to anemic rats of iron from fresh, cooked or nitrosylated hemoglobin and myoglobin.

[Role of iron in infant nutrition. 2nd part].

[Treatment of incomplete developed roots of non-vital pulp teeth with a camphorated parachlorophenol paste].

Identification of collagens synthesized by cultures of normal human corneal and keratoconus stromal cells.

[Fundamental studies on the measurement of urinary NAG and determination of the normal values for NAG activity in various age groups].

Evaluation of an enzymic procedure for the measurement of acetaminophen.

A high affinity, calmodulin-responsive ($\text{Ca}^{2+} + \text{Mg}^{2+}$)-ATPase in isolated bone cells.

[The significance of serum ferritin determination for the evaluation of preventive iron treatment of anemia in premature infants].

Assessment of hazards associated with pesticide container disposal and of rinsing procedures as a means of enabling disposal of pesticide containers in sanitary landfills.

Procaine hydrolysis defect in uraemia does not appear to be due to carbamylation of plasma esterases.

Dimethyl disulphide in the blood of cattle fed on brassicas.

Anencephaly: agent orange implications?

Adaptation of the ektacytometer to automated continuous pO_2 changes: determination of erythrocyte deformability in sickling disorders.

Decline of blood and alveolar toluene concentration following two accidental human poisonings.

Localization of intrarenal cross-linked fibrin in children with various renal diseases.

Impairment of blastogenic response of splenic lymphocytes from iron-deficient mice: in vivo repletion.

Purification and properties of human erythrocyte uroporphyrinogen decarboxylase: immunological demonstration of the enzyme defect in porphyria cutanea tarda.

Oxygen radicals and vascular damage.

[Heart function and the mechanisms of its regulation in modelling adaptation to hypoxia by 2,4-dinitrophenol administration].

Morphometric, biochemical, and physiological assessment of perinatally induced renal dysfunction.

Presence of an abnormal transthyretin (prealbumin) in Portuguese patients with familial amyloidotic polyneuropathy.

[Pharmacological and clinico-pharmacological studies of a combination preparation for calves having antianemia and general tonic action].

Relative mutagenicity and teratogenicity of cyclophosphamide and two of its structural analogs.

Acute dermal toxicity of tetrachlorophenols in the rat.

Interaction of metals and carbon tetrachloride on lipid peroxidation and hepatotoxicity.

Freezing injury and root development in winter cereals.

Inhalation of products of combustion.

Chlorobenzene-impaired lindane metabolism and the effect of pretreatment with chlorobenzene, lindane, or chlorobenzene plus lindane.

Membrane biogenesis in the sprouting neuron. I. Selective transfer of newly synthesized phospholipid into the growing neurite.

Effects of pH on bone calcium and proton fluxes in vitro.

The acute toxicity of penta-, hexa-, and heptachlorohydroxydiphenyl ethers in mice.

Induction of humoral immunity to protein antigen without adjuvant in rats exposed to immunosuppressive chemicals.

Cellular and genetic basis for suppression of cytotoxic T cell generation by haloaromatic hydrocarbons.

[Organization of first-aid in acute poisoning caused by methyl bromide].

Chronobiologic fluctuation of cyclophosphamide induced urinary bladder damage in mice.

Death and injury caused by methyl bromide, an insecticide fumigant.

Oxygen and redox-active drugs: shared toxicity sites.

The alteration of hepatic cytochrome P-450 subpopulations of phenobarbital-induced and uninduced rat by regioselective hepatotoxins.

Iron Deficiency in Adolescent Cross-Country Runners.

Volatile compounds from the red deer (*Cervus elaphus*) Secretion from the tail gland.

Toxicity of rubber chemicals towards three-day chicken embryos.

[Clinico-pathological studies on endodontic medicaments, with special reference to agents containing iodoform].

Generation of IgG aggregates by the myeloperoxidase-hydrogen peroxide system.

Lipid peroxidation as a possible cause of TCDD toxicity.

Higher Chlorinated Dioxins Implicated in the Mortality of Young Pigs Kept on a Pentachlorophenol-treated Wooden Floor.

Metabolism of palmitate by anoxic and reoxygenated heart cell cultures.

Suicidal poisoning by endothall.

[Role of changes in oxygen concentration during modification of cell reproductive death in vitro. 2. Modification of radiosensitivity during changes in the rate of oxygen consumption by cells].

Cow's urine concoction: its chemical composition, pharmacological actions and mode of lethality.

Role of myeloperoxidase in the respiratory burst of human neutrophils.

Axonal transport of thiamine in frog sciatic nerves in vitro.

Comparison of hepatic biotransformation and toxicity of allyl alcohol and [1,1-2H₂]allyl alcohol in rats.

Specific mixed disulfide formation with purified bovine cardiac glycogen synthase I and glutathione.

Failure of atractyloside to inhibit synaptosomal mitochondrial energy transduction.

Enhanced recovery of injured *Escherichia coli* by compounds that degrade hydrogen peroxide or block its formation.

Analytical subcellular fractionation of normal human skeletal muscle by sucrose density gradient centrifugation.

Cell water content in carp kidney tissue slices as influenced by various osmotic agents.

Effect of lidocaine on hepatic prostanoid production in vitro following 2,4-dinitrophenol administration.

The morphological transformation of Syrian hamster embryo cells by chemicals reportedly nonmutagenic to *Salmonella typhimurium*.

[Migration and adhesiveness of human and rabbit blood leukocytes under the influence of metabolic blocking agents and hirudin].

Uptake and dissimilation of glycerol by wild type and glycerol nonutilizing strains of *Neurospora crassa*.

Extensive labelling of injured insect neurons with seven different heme peptides.

Characterization of pulmonary cellular influx differentials to known toxic agents between species.

Methemoglobin formation by paraquat.

Paraquat-poisoned victims in guarded condition.

[Paraquat poisoning. Prognostic and therapeutic evaluation in 28 cases].

The pathophysiology of paraquat nephrotoxicity in the sheep.

Untractable fecalith's and hypercalcemia, both associated with Fuller's earth therapy in fatal case of paraquat poisoning.

[Experimental chronic paraquat poisoning. Functional and histopathological pulmonary changes].

Pentachlorophenol, an assessment of the occupational hazard.

[Acute renal failure (ARF) secondary to paraquat poisoning].

Health effects of Agent Orange and dioxin contaminants. Council on scientific affairs.

Paraquat intoxication: report of a fatal case. Discussion of pathophysiology and rational treatment.

The acute toxicity of nonachloropredioxin and 3- and 4-hydroxynonachlorodiphenyl ether in mice.

Accumulation of radionuclide-labeled platelets and fibrinogen in paraquat-damaged rat lungs.

Paraquat--the weed and people killer.

Paraquat poisoning: a clinical and epidemiological review of 30 cases.

[Measurement of V/Q distribution by inert gas elimination method].

Metaldehyde and paraquat poisoning.

[Severe diquat poisoning].

Pesticide poisoning of livestock: a review of cases investigated.

Combined paraquat and acetaminophen toxicity.

Prognosis and treatment of paraquat poisoning: a review of 28 cases.

Herbicides, occupation, and cancer.

Poisoning after illegal use of paraquat bait.

Fatal paraquat poisonings after skin absorption.

[Experimental chronic respiratory failure induced with paraquat in rats--evaluated by growth rate of rats and lung histopathology].

Neuropsychiatric effects of herbicides.

Analysis of neutral steroid sulfates by glass capillary gas chromatography-mass spectrometry (GC-MS) from blood of a patient with paraquat poisoning.

Do phenoxy herbicides cause cancer in man?

Operator exposure measurements during application of the herbicide diallate.

Herbicides and coronary ectasia.

PEEP-induced airspace overdistension complicating paraquat lung.

Pathophysiological effects of paraquat intoxication in domestic ruminants: low dose studies.

Jumping chickens: relevance to hazard in humans.

Influence of body size and developmental stage of coho salmon (*Oncorhynchus kisutch*) on lethality of several toxicants.

Mortality of 2,4-dichlorophenoxyacetic acid and 2,4,5-trichlorophenoxyacetic acid herbicide applicators in Finland: first report of an ongoing prospective cohort study.

Influence of a purified grade of pentachlorophenol on the immune response of chickens.

Immunotoxicity of technical pentachlorophenol (PCP-T): depressed humoral immune responses to T-dependent and T-independent antigen stimulation in PCP-T exposed mice.

Pentachlorophenol pancreatitis.

Efficacy of charcoal hemoperfusion in paraquat poisoning.

[Length of time off from work after application of carbamates and thiocarbamates in the course of irrigation farming].

Dinitrophenol poisoning: a diagnosis to consider in undiagnosed fever.

Potential mutagenic evaluation of the bentazone.

Texas Agent Orange Act takes effect.

Neurotoxicological investigation of the new Hungarian pesticide Toxurazine.

[Hepatotoxicity of selected polychlorinated aromatic hydrocarbons].

Chromosome analyses of workers from a pentachlorophenol plant.

[Enzyme histochemical studies of the intestinal tract of the rat in acute paraquat poisoning and therapeutic use of vitamins E and C].

[Massive poisoning by paraquat with early death (19 hours). Apropos of a case with ultrastructure study].

[Paraquat intoxication, an ultra-structural study of lung lesions. In connection with a case study (author's transl)].

Ultrastructural evidence of pulmonary capillary endothelial damage from paraquat.

Alteration of toxicity to paraquat in mice fed a purified or cereal-based diet.

[Toxicity and certain physiopathologic effects of 2,4,5-trichlorophenoxyacetic acid, an organo-chlorine herbicide, in the adult domestic quail (*Coturnix coturnix japonica*)].

Effects of lindane, paraquat, toxaphene, and 2,4,5-trichlorophenoxyacetic acid on mallard embryo development.

Urinary enzymes, nephrotoxicity and renal disease.

Mutagenicity studies with 2,4,5-T on bacteria and mammalian germ cells.

Effects of transplacental exposure to chlorinated phenols.

Ciguatera poisoning and herbicides.

Determination of total pentachlorophenol in the urine of workers. A method incorporating hydrolysis, an internal standard and measurement by liquid chromatography.

[Etiological aspects on fibrosis--tissue damage and repair of pulmonary tissue (author's transl)].

The effect of paraquat on the incorporation of radiolabelled proline into acid-extractable lung proteins and collagens.

Pharmacokinetics of [14C]-paraquat and associated biochemical and pathologic changes in Beagle dogs following intravenous administration.

A simple method for the estimation of paraquat in tissue.

Depression of serotonin uptake by rat lungs exposed to paraquat.

Possible cardiovascular hazards of the alcohol-calcium carbimide interaction.

Temperature-sensitive carrot variants impaired in somatic embryogenesis.

Allylamine cardiotoxicity--IV. Metabolism to acrolein by cardiovascular tissues.

Failure of *Legionella pneumophila* sensitivities to predict culture results from disinfectant-treated air-conditioning cooling towers.

Antimutators of mitochondrial and nuclear DNA in *Saccharomyces cerevisiae*. Relationship with gamma-ray sensitivity.

Active oxygen metabolites and their action in the hepatocyte. Studies on chemiluminescence responses and alkane production.

Altered removal of vasoactive substances in the injured lung: detection of lung microvascular injury.

Effect of albumin, low temperature and metabolic inhibitors on transport of fatty acids into cultured human leukemic myeloid cells.

Evaluation of mutagenicity and other adverse effects of occupational exposure to sodium azide.

[Middle cerebral artery occlusion with Moyamoya phenomenon.--2nd report: report of an autopsy case].

The effect of ionophore A23187 and 2,4-dinitrophenol on the structure and function of cultured liver cells.

Bacteria and zymosan opsonized with histone, dextran sulfate, and polyanetholesulfonate trigger intense chemiluminescence in human blood leukocytes and platelets and in mouse macrophages: modulation by metabolic inhibitors in relation to leukocyte-bacteria interactions in inflammatory sites.

Immunoreactive uroporphyrinogen decarboxylase is unchanged in porphyria caused by TCDD and hexachlorobenzene.

[Drug-induced lesions of the esophagus].

Inability of niacin to protect from in vivo hyperoxia or in vitro microsomal lipid peroxidation.

Acute oral toxicity of TCDD-metabolites in male guinea pigs.

[Myoclonus of toxic origin].

Gliomas and occupational exposure to carcinogens: case-control study.

Neurotoxicity of the pesticidal carbamates.

Monocyte-mediated damage to *Rhizopus oryzae* hyphae in vitro.

[A new test for hemolysis related to tocopherol deficiency: hemolysis caused by sodium azide (NaN_3). Results in cholestasis in children].

In vitro penetration and absorption of chemicals into the ovine hoof.

[Structural differences of C-terminal fragment of the alpha-subunits of rabbit muscle aldolase in normal animals and in experimental atherosclerosis].

Visual evoked potentials in encephalopathy induced by galactosamine, ammonia, dimethyldisulfide, and octanoic acid.

Effect of long-term ethanol feeding on rat liver interstitial collagens.

Sodium azide poisoning in five laboratory technicians.

Toxic effect of human polymorphonuclear leukocytes on *Chlamydia trachomatis*.

Aluminum absorption in the rat everted gut sac.

Morphogenesis of the mitochondrial alterations in muscle diseases.

Arsenic-induced developmental defects and mitotic abnormalities in sea-urchin development.

TCDD embryotoxicity in the mouse may be enhanced by beta-naphthoflavone, another ligand of the Ah-receptor.

Soft-tissue sarcoma, malignant lymphoma, and exposure to phenoxyacids or chlorophenols.

[Prevention of iron-deficiency anemia in infants in Family Health Centers].

Medicinal arsenic and internal malignancies.

Comparison of the structure and aspects of the proteinase-binding properties of cystic fibrotic alpha-macroglobulin with normal alpha 2-macroglobulin.

Effect of cholinergic drugs on acute and chronic morphine dependence.

Leukemia and farm practices in Iowa.

Survey of reproductive events of wives of employees exposed to chlorinated dioxins.

Anemias in the elderly: physiologic or pathologic?

Severe peripheral neuropathy after exposure to monosodium methyl arsonate.

Tetrachlorodibenzodioxin: a survey of subjects ten years after exposure.

Increased urinary D-glucaric acid excretion by children living in an area polluted with tetrachlorodibenzoparadioxin (TCDD).

Induction of porphyria in the rat by chronic versus acute exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

[Artificial hypothermia in acute poisoning by 1,2-dichloroethane and its probable metabolites].

Anemia of pregnancy in Liberia, West Africa: a therapeutic trial.

Evaluation of three immunodiagnostic procedures for porcine strongyloidiasis.

Structural and enzymatic comparison of human cardiac muscle myosins isolated from infants, adults, and patients with hypertrophic cardiomyopathy.

Iron and rheumatoid disease.

A new combined assay of phagocytosis and intracellular killing of *Escherichia coli* by polymorphonuclear leukocytes.

[Determination of bromine contents in the blood and hair of workers exposed to methyl bromide by radioactivation analysis method].

Misonidazole-induced biochemical alterations of mammalian cells: effects on glycolysis.

Collagen polymorphism in the normal and diseased blood vessel wall. Investigation of collagens types I, III and V.

Studies on the control of iron uptake by rabbit small intestine.

Immunity to homologous type III collagen after partial meniscectomy and sham surgery in rabbits.

Mechanism of tissue Ca^{2+} gain during reoxygenation after hypoxia in rabbit myocardium.

Comparative uptake of adriamycin and daunorubicin in sensitive and resistant friend leukemia cells measured by flow cytometry.

Treatment and prophylaxis of anaemia of pregnancy with 'Fefol Spansule'.

Data on dioxin.

Nutritional iron and dopamine binding sites in the rat brain.

[Values of various blood components in guinea pigs after acute 2,3,7,8-tetrachlorodibenzo-P-dioxin (TCDD) poisoning].

[Localization of *Campylobacter foetus* in genital organs of cows and its sensitivity to antibiotics and chemotherapeutic agents].

Serum ferritin in haemodialysis.

Ascorbic acid and iron levels in plasma and liver of vitamin C deficient guinea pigs after iron overload and desferrioxamine administration.

The type of collagen made by the articular cartilage in joints of dogs with degenerative joint disease.

Cancer risks associated with agriculture: epidemiologic evidence.

Studies in neuronal ceroid lipofuscinosis: enzymes of liver and brain tissues involved in the defense against oxidative damage.

[Coronary perfusion rate as a factor determining the degree of heart contractile function decrease in an energy formation disorder].

Quantitation of red cell deformability during progressive deoxygenation and oxygenation in sickling disorders (the use of an automated Ektacytometer).

Persistent tissue levels of TCDD in the mouse and their reduction as related to prevention of toxicity.

Potential 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure of Seveso decontamination workers: a controlled prospective study.

Clinical and laboratory findings in Metation EK-50.

Experimental and clinical results in shock lung treatment with vitamin E.

A study of oxidative phosphorylative activity and calcium-induced respiration of rat liver mitochondria following living *Escherichia coli* injection.

Epidemiological study of nasal and nasopharyngeal cancer and their relation to phenoxy acid or chlorophenol exposure.

Free radicals and activated oxygen.

Acnegenic activity of 3-methylcholanthrene and benzo[a]pyrene, and a comparative study with 2,3,7,8-tetrachlorodibenzo-p-dioxin in the rabbit and hairless mouse.

The functional and ultrastructural changes of hepatic mitochondria in acute experimental pancreatitis in dogs treated with prostacyclin.

Health effects of chlorophenol wood preservatives on sawmill workers.

Mortality study of persons exposed to dioxin in a trichlorophenol-process accident that occurred in the BASF AG on November 17, 1953.

Toxicity of 2, 3, 7, 8-tetrachlorodibenzo-p-dioxin (TCDD).

Met- and leu-enkephalin immuno- and bio-reactivity in human stomach and pancreas.

[Ability to redistribute surface receptors in transplantable cell lines].

Subchronic toxicity of chlorine dioxide and related compounds in drinking water in the nonhuman primate.

Intracellular inactivation, reactivation and dynamic status of prostate androgen receptors.

Effects of PAM, proPAM, and DFP on behavior, thermoregulation, and brain AChE in rats.

Volatile alkanes produced by erythrocytes: an assay for in vitro studies on lipid peroxidation.

Use of high doses of deferoxamine (Desferal) in an adult patient with acute iron overdose.

Synaptosomal calcium uptake systems: prostaglandins are probably not involved in the regulation of calcium fluxes into and within the nerve endings.

Attachment of gonococcal pili to lectin-resistant clones of Chinese hamster ovary cells.

Effect of certain pesticides on active sodium transport in the epithelium of isolated frog skin.

Foot-and-mouth disease virus: immunogenicity and structure of fragments derived from capsid protein VP and of virus containing cleaved VP.

An oligomycin-resistant Mg^{2+} -dependent ATPase in rabbit bone marrow mitochondria.

2,4-dinitrophenol stimulation of renal ammoniogenesis.

Role of individual phosphorylation sites in inactivation of pyruvate dehydrogenase complex in rat heart mitochondria.

Suppression of natural killing in vitro by monocytes and polymorphonuclear leukocytes: requirement for reactive metabolites of oxygen.

Increases in choline levels in rat brain elicited by meclufenoxate.

Pesticide effects upon the circadian time structure in the thyroid, adrenal and testis in rats.

Human corneal stroma contains three distinct collagens.

Carcinogenesis Bioassay of 2,3,7,8-Tetrachlorodibenzo-p-dioxin (CAS No. 1746-01-6) in Swiss-Webster Mice (Dermal Study).

Comparative evaluation of different pairs of DNA repair-deficient and DNA repair-proficient bacterial tester strains for rapid detection of chemical mutagens and carcinogens.

Mitochondrial bioenergetics during the initiation of mercuric chloride-induced renal injury. II. Functional alterations of renal cortical mitochondria isolated after mercuric chloride treatment.

Mitochondrial bioenergetics during the initiation of mercuric chloride-induced renal injury. I. Direct effects of in vitro mercuric chloride on renal mitochondrial function.

Inhibition of Respiration in Sea Urchin Spermatozoa following Interaction with Fixed Unfertilized Eggs VI. Probable Difference between the Species in the Mechanism for the Fixed-Egg-Induced Inhibition of Sperm Respiration: (respiration/sperm/sea urchin/carnitine/sperm-egg interaction).

Therapeutic properties of dihydroxy-dibutylether on sub-acute liver damage induced by several hepatotoxic agents in rats.

Light, fluorescence and electron microscopic observations on vitamin A storing cells in allyl-alcohol induced liver damage.

Induction of rat liver cytoplasmic aldehyde dehydrogenase by phenobarbital and polycyclic hydrocarbons. Comparison of different isoenzyme types.

Effect of phospholipase A2 on calcium transport in brain synaptosomes.

Embryotoxicity of 3,3',4,4'-tetrachloroazobenzene and 3,3',4,4'-tetrachloroazoxybenzene in the chick embryo.

Histamine release from rat peritoneal mast cells exposed to ultraviolet light.

Reviewers pan Agent Orange study plan.

The enhancement of paraquat toxicity in rats by 85% oxygen: lethality and cell-specific lung damage.

Effects of acute paraquat toxicity on circulating levels of arachidonic acid, PGF2 alpha and PGE2 in the beagle.

Drug therapy: Drugs to decrease alcohol consumption.

[Experimental models of lung diseases pulmonary fibrosis (idiopathic interstitial pneumonia) (author's transl)].

Development and viability of offspring of male mice treated with chlorinated phenoxy acids and 2,3,7,8-tetrachlorodibenzo-p-dioxin.

[Does alcohol enhance the toxicity of paraquat (author's transl)].

A review of the clinical use of disulfiram and calcium carbimide in alcoholism treatment.

Subchronic administration of technical pentachlorophenol to lactating dairy cattle: immunotoxicologic evaluation.

The disulfiram (Antabuse)-Alcohol reaction in male alcoholics: its efficient management by 4-methylpyrazole.

Non-Hodgkin's lymphoma of the skin and occupational exposure to herbicides.

Hepatic injury associated with paraquat toxicity in humans.

[A case of lacrimal duct stenosis due to a herbicide paraquat (author's transl)].

Role of glutathione in the metabolism-dependent toxicity and chemotherapy of cyclophosphamide.

Paraquat poisoning in Papua New Guinea.

Effect of phenolic compounds on in vivo activity of glucose-6-phosphatase in certain tissues of *Notopterus notopterus*.

Paraquat poisoning: toxicologic and pathologic findings in three fatal cases.

A comparative study on the effects of paraquat and diquat on cultured human cells.

Acceleration of lipid peroxidation in human paraquat poisoning.

Soft-tissue sarcomas, phenoxy herbicides, and chlorinated phenols.

[Fatal hypoglycemia in a case of paraquat poisoning].

The effects of paraquat and superoxide dismutase on pulmonary vascular permeability and edema in mice.

Niacin Reduces Paraquat Toxicity in Rats.

An investigation of suspected dinoseb poisoning after the agricultural use of a herbicide.

Diquat intoxication: report of two cases and review of the literature.

A study of the health of Malaysian plantation workers with particular reference to paraquat spraymen.

Inhalation toxicity of acrylic acid.

[Kidney changes in the acute phase of paraquat poisoning in rats (author's transl)].

Preliminary report of reproductive outcomes among pesticide applicators using 2,4,5-T.

Paraquat poisoning in dogs and cats--differences between accidental and malicious poisoning.

Intrabronchial instillation of paraquat in rats: lung morphology and retention study.

Soft-tissue sarcomas and exposure to chemical substances: a case-referent study.

Malignant lymphoma and exposure to chemicals, especially organic solvents, chlorophenols and phenoxy acids: a case-control study.

Pseudodiphtheria: prominent pharyngeal membrane associated with fatal paraquat ingestion.

Kinetics of paraquat elimination in the dog.

Responses of serum transaminases in *Notopterus notopterus* chronically exposed to phenolic compounds and their combinations.

Carcinogenicity of picloram.

2,4,5-T, trichlorophenol, and soft tissue sarcoma.

Cardiovascular changes during the calcium carbimide-ethanol interaction.

Repeated exposure to alpha-ethylacrolein vapour: subacute toxicity study in rats.

[Effect of the pesticide fundazol on induced sclerotic processes].

[Assessment of the potential risk for progeny in work with endodan (experimental studies)].

[Field study of workers with longterm exposure to calcium cyanamide (author's transl)].

The heart and diaphragm: target organs in the neonatal death induced by nitrofen (2,4-dichlorophenyl-p-nitrophenyl ether).

Effects of phenolic compounds on in vivo blood parameters of a fish *Notopterus notopterus*.

Serum protein and glycoprotein changes in chronic paraquat intoxication.

Health hazard alert... pentachlorophenol.

Subchronic administration of technical pentachlorophenol to lactating dairy cattle: performance, general health, and pathologic changes.

[Experimental studies for the hygienic standardization of Lasso in water].

Glycoprotein metabolism in the guinea-pig gastric mucosa in chronic metribuzin poisoning.

Changes in renal function associated with paraquat dichloride toxicity in the domestic fowl.

[Acute toxicity of two phenylcarbamates: propham and chloroprotham].

In vitro stimulation by paraquat of reactive oxygen-mediated lipid peroxidation in rat lung microsomes.

Determination of pentachlorophenol in urine.

Histological considerations of direct pulp capping agents.

Reye's syndrome simulacra in liver of mice after treatment with chemical agents and encephalomyocarditis virus.

Prevention of the hepatotoxic action of N-hydroxy-2-acetylaminofluorene in the rat by inhibition of N-O-sulfation by pentachlorophenol.

Mutagenic activity of diallate and triallate determined by a battery of in vitro mammalian and microbial tests.

Arsenic-induced axial skeletal (dysraphic) disorders.

[Lung changes after paraquat as an experimental model of the respiratory distress in the newborn and diffuse interstitial fibrosis of the lung].

The influence of putrefactive changes on the determination of Paraquat in autopsy materials.

Chronic effects of ethanol under partial inhibition of catalase activity in the rat heart: light and electron microscopic observations.

Pulmonary fibrosis in experimental acute respiratory disease.

Oxidant injury of lung parenchymal cells.

Pharmacokinetics of 2,4,5-T PGBE ester applied dermally to rats.

2,4,5-T effects on cardiac and serum lactic dehydrogenase (LDH) and creatine kinase (CK) isozymes. II. Neonatal enzyme activities and isozyme profiles.

2,4,5-T effects on cardiac and serum lactic dehydrogenase (LDH) and creatine kinase (CK) isozymes. I. Maternal enzyme activities and isozyme profiles.

The rapidly metabolized 32,000-dalton polypeptide of the chloroplast is the "proteinaceous shield" regulating photosystem II electron transport and mediating diuron herbicide sensitivity.

Arterial effects of palmitic, linoleic and acetoacetic acid.

[Pentachlorophenol concentrations in tissues and body fluids of normal persons (author's transl)].

Acute toxicity testing of some herbicides-, alkaloids-, and antibiotics-metabolizing soil bacteria in the rat.

[Serum ferritin in hemodialysis. I. Study in populations treated with iron or untreated].

Marfan syndrome: abnormal alpha 2 chain in type I collagen.

Relationship between clinical and electrophysiological findings and indicators of heavy exposure to 2,3,7,8-tetrachlorodibenzo-dioxin.

Severe chlorate poisoning: report of a case.

Influence of 2,4-dinitrophenol on the susceptibility of rats to hepatotoxic injury.

Quantitation of differences between spontaneous and induced liver tumors in mice with an automated image analyzer.

The Marfan syndrome: a deficiency in chemically stable collagen cross-links.

Biological evaluation of hemoperfusion in acute poisoning.

The role of iron in the toxicity of 2,3,7,8-tetrachlorodibenzo-(p)-dioxin (TCDD).

Nonspecific suppression of initiation of memory cells in *Toxoplasma gondii*-infected mice.

Disulphide exchange reactions in the control of enzymic activity. Evidence for the participation of dimethyl disulphide in exchanges.

[Experimental studies on metabolism of iron overload in dogs with carbon tetrachloride induced chronic hepatic injury (author's transl)].

The metabolism of arsenic in humans acutely intoxicated by As₂O₃. Its significance for the duration of BAL therapy.

Synthesis of pro-collagen type II by a xenotransplanted human chondroblastic osteosarcoma.

Whole blood luminol-dependent chemiluminescence.

Specific hypo-responsive granulomatous tissue reactions in *Brugia pahangi*-infected jirds.

Insulin secretion by a transplantable rat islet cell tumour.

Non-Hodgkin's lymphoma of the scalp in workers exposed to dioxins.

Methyl bromide poisoning seen initially as psychosis.

Reduced secretion of structurally abnormal type I procollagen in a form of osteogenesis imperfecta.

Detection of experimentally produced acute pulmonary arterial occlusion by methyl iodide-131 inhalation imaging.

[Human embryonic haemoglobins. The primary structure of the zeta chains (author's transl)].

Soft tissue sarcomas and chlorinated phenols.

Acute and subchronic toxicity studies of rats exposed to vapors of methyl mercaptan and other reduced-sulfur compounds.

Basal processes on duodenal epithelial cells of man, mouse and rat.

Enzymatic alterations in mouse hepatic nodules induced by a chlorinated hydrocarbon pesticide.

2,3,7,8-tetrachlorodibenzo-p-dioxin: acute oral toxicity in hamsters.

Relation of soft-tissue sarcoma, malignant lymphoma and colon cancer to phenoxy acids, chlorophenols and other agents.

Acute and short-term toxicity of 2,3,4,6-tetrachlorophenol in rats.

Iron deficiency: diagnosis and treatment.

Experimental siderosis of articular chondrocytes cultured in vitro.

Chloracne following environmental contamination by TCDD in Seveso, Italy.

Contribution of cyanate to the albumin binding defect of uremia.

Effect of sodium azide upon normal and pathological granulocyte function.

Immunoabsorbent chromatography of hypoxanthine-guanine phosphoribosyltransferase.

Suppression of cellular immunity in rats and mice by maternal treatment with 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Evidence for a common synthetic origin for secretory and serum IgA.

Liver biopsy in psoriatics previously treated with potassium arsenite. A controlled study.

Transport of rubidium and sodium in pancreatic islets.

Pseudomonas putida mutants defective in the metabolism of the products of meta fission of catechol and its methyl analogues.

Dynamics of functional and ultrastructural changes in the liver cells during the development of allyl alcohol necrosis.

Development of a selective enterococcus medium based on manganese ion deficiency, sodium azide, and alkaline pH.

Lung collagen heterogeneity.

[Thin layer electrophoretic determination of biogenic amines in fishes and fish products in connection with food poisoning].

Glycoprotein biosynthesis by the guinea pig liver in chronic 4,6-dinitro-o-cresol poisoning.

Table 2A-17 – Titles of Pubmed Records Related to Allergy Adverse Events Following Herbicide Exposure

ALLERG; *ANAPHYL*; *CELIAC*; *MASTOCYTOSIS*; *ANGIOEDEMA*; *HISTAMINE*; *URTICARIA* (793)
--

Degradation study of the trans-cinnamaldehyde and limonene biopesticides and their metabolites in cucumber by GC and UHPLC-HRMS: Laboratory and greenhouse studies.

Vitellin/Vitellogenin Is an Important Allergen in German Cockroach.

Safety Assessment of the CP4 EPSPS and NPTII Proteins in Eucalyptus.

Allergic contact dermatitis caused by herbicide containing glyphosate-isopropylamine salt.

Suppressor of cytokine signaling 3-derived peptide as a therapeutic for inflammatory and oxidative stress-induced damage to the retina.

CKBA suppresses mast cell activation via ERK signaling pathway in murine atopic dermatitis.

4,4'-Thiobis(2-tert-butyl-5-methylphenol), an antioxidant in medical devices that may cause allergic contact dermatitis.

DPP4 Inhibitor Sitagliptin Reduces Inflammatory Responses and Mast Cell Activation in Allergic Rhinitis.

Indoor metabolites and chemicals outperform microbiome in classifying childhood asthma and allergic rhinitis.

A critical review on environmental risk and toxic hazards of refractory pollutants discharged in chlorolignin waste of pulp and paper mills and their remediation approaches for environmental safety.

Protective effects of *Acetobacter ghanensis* against gliadin toxicity in intestinal epithelial cells with immunoregulatory and gluten-digestive properties.

Changes of Gut Microbiome in Adolescent Patients with Chronic Spontaneous Urticaria After Omalizumab Treatment.

Mulberry leaf extract improves intestinal barrier function and displays beneficial effects on colonic microbiota and microbial metabolism in weaned piglets.

Glyphosate differentially affects the allergic immune response across generations in mice.

Neurotoxicological Profiling of Paraquat in Zebrafish Model.

The immediate patch test reaction to fragrance in patients with allergic contact dermatitis to fragrance: A prospective study.

Lab meets field: Accelerated selection and field monitoring concur that non-target-site-based resistance evolves first in the dicotyledonous, allergenic weed *Ambrosia artemisiifolia*.

Contact allergy to the Dexcom G6 glucose monitoring system-Role of 2,2'-methylenebis(6-tert-butyl-4-methylphenol) monoacrylate in the new adhesive.

Nano-silica particles synergistically IgE-mediated mast cell activation exacerbating allergic inflammation in mice.

Further Evidence of Allergic Contact Dermatitis Caused by 2,2'-Methylenebis(6-tert-Butyl-4-Methylphenol) Monoacrylate, a New Sensitizer in the Dexcom G6 Glucose Sensor.

Flavoring agent dihydrocoumarin alleviates IgE-mediated mast cell activation and allergic inflammation.

False-negative chemicals in ESR-based photosafety test (ESR-PT) and their significance for photosafety evaluations: examples of bithionol, fenticlor and cilnidipine.

The environmental pollutant 3-methyl-4-nitrophenol reduces the regulatory T cells in the intestine.

Suspected gut barrier disruptors and development of food allergy: Adjuvant effects and early immune responses.

Allergic and non-allergic wheeze among farm women in the Agricultural Health Study (2005-2010).

Microbiome profiling of nasal extracellular vesicles in patients with allergic rhinitis.

Functional and Allergenic Properties Assessment of Conalbumin (Ovotransferrin) after Oxidation.

Daily versus every other day oral iron supplementation in patients with iron deficiency anemia (DEODO): study protocol for a phase 3 multicentered, pragmatic, open-label, pilot randomized controlled trial.

Plant-Derived Molecule 4-Methylumbelliferone Suppresses Fc ϵ RI-Mediated Mast Cell Activation and Allergic Inflammation.

Contact allergy to fragrance mix I and its components in individuals with photocontact allergy to ketoprofen.

Subchronic exposure to a glyphosate-based herbicide causes dysplasia in the digestive tract of Wistar rats.

CD34+ derived macrophage and dendritic cells display differential responses to paraquat.

Evaluation of the potential teratogenic and toxic effect of the herbicide 2,4-D (DMA[®] 806) in bullfrog embryos and tadpoles (*Lithobates catesbeianus*).

Fragrance- and Botanical-Related Allergy and Associated Concomitant Reactions: A Retrospective Analysis of the North American Contact Dermatitis Group Data 2007-2016.

[A case of allergic cutaneous vasculitis caused by glyphosate].

Assessment of the different skin sensitization potentials of irritants and allergens as single substances and in combination using the KeratinoSens assay.

Development of Multiplex PCR Coupled DNA Chip Technology for Assessment of Endogenous and Exogenous Allergens in GM Soybean.

Chemical constituents and medicinal properties of *Allium* species.

Bikini textile contact dermatitis: A Sherlockian approach revealing 2,4-dichlorophenol as a potential textile contact allergen.

Iron preparations for women of reproductive age with iron deficiency anaemia in pregnancy (FRIDA): a systematic review and network meta-analysis.

[Aryl hydrocarbon receptor modulates airway inflammation in mice with cockroach allergen-induced asthma by regulating Th17/Treg differentiation].

Benzo(a)pyrene Enhanced Dermatophagoides Group 1 (Der f 1)-Induced TGF β 1 Signaling Activation Through the Aryl Hydrocarbon Receptor-RhoA Axis in Asthma.

Ephedra Herb, Mao, Inhibits Antigen-Induced Mast Cell Degranulation by Induction of the Affinity Receptor for IgE Internalization.

Microbial metabolism of L-tyrosine protects against allergic airway inflammation.

The conformational structural change of β -lactoglobulin via acrolein treatment reduced the allergenicity.

Reducing the Allergenicity of β -Lactalbumin after Lipid Peroxidation.

2,4-Dichlorophenoxyacetic Acid Poisoning Mimicking as Organophosphorus Poisoning.

Is Gluten the Only Culprit for Non-Celiac Gluten/Wheat Sensitivity?

Evaluation of buccal damage associated with acute inhalation exposure to 2,4-dichlorophenoxyacetic acid (2,4-D) in mice.

An integrated transcriptomic- and proteomic-based approach to evaluate the human skin sensitization potential of glyphosate and its commercial agrochemical formulations.

Chronic pesticide mixture exposure including paraquat and respiratory outcomes among Colombian farmers.

Evaluation of antifungal activity of cinnamaldehyde against *Cryptococcus neoformans* var. *grubii*.

Anti-Allergic Potential of Cinnamaldehyde via the Inhibitory Effect of Histidine Decarboxylase (HDC) Producing *Klebsiella pneumoniae*.

Cinnamon extract inhibits allergen-specific immune responses in human and murine allergy models.

Transient receptor potential ankyrin-1 causes rapid bronchodilation via nonepithelial PGE₂.

Efficacy of a High-Iron Dietary Intervention in Women with Celiac Disease and Iron Deficiency without Anemia: A Clinical Trial.

Eckol from *Ecklonia cava* Suppresses Immunoglobulin E-mediated Mast Cell Activation and Passive Cutaneous Anaphylaxis in Mice.

Alcohol-Related Dermatitis: A Review.

Allergy to metacresol in a type 2 diabetes patient.

Streptococcal H₂O₂ inhibits IgE-triggered degranulation of RBL-2H3 mast cell/basophil cell line by inducing cell death.

Genetically modified crops: current status and future prospects.

Skin application of glutathione and iron sulfate can inhibit elicitation of allergic contact dermatitis from hexavalent chromium.

Contact sensitization to cosmetic series of allergens in patients with rosacea: A prospective controlled study.

The Metabolomics of Childhood Atopic Diseases: A Comprehensive Pathway-Specific Review.

Separating the Empirical Wheat From the Pseudoscientific Chaff: A Critical Review of the Literature Surrounding Glyphosate, Dysbiosis and Wheat-Sensitivity.

Not All Fun and Games: A Case Report of Contact Dermatitis Related to Slime and Play-Doh.

A role of heparan sulphate proteoglycan in the cellular uptake of lipocalins α_2 -lactoglobulin and allergen Fel d 4.

Uroprotective mechanisms of natural products against cyclophosphamide-induced urinary bladder toxicity: A comprehensive review.

Factors adversely influencing neurodevelopment.

"Pink Sign": The Importance of Short-Term Occlusive Testing in Suspected Cases of Contact Urticaria.

Claudins, VEGF, Nrf2, Keap1, and Nonspecific Airway Hyper-Responsivity Are Increased in Mice Co-Exposed to Allergen and Acrolein.

Extracorporeal treatment in children with acute severe poisoning.

Food as medicine: Selenium enriched lentils offer relief against chronic arsenic poisoning in Bangladesh.

CDK4/6 inhibitor palbociclib suppresses IgE-mediated mast cell activation.

Fecal Changes Following Introduction of Milk in Infants With Outgrowing Non-IgE Cow's Milk Protein Allergy Are Influenced by Previous Consumption of the Probiotic LGG.

Allergic contact dermatitis caused by isopropyl methylphenol, a new hapten.

Slime dermatitis.

3-Methyl-4-nitrophenol triggers nasal allergy by modulating dendritic cell properties.

Exposure to 3-methyl-4-nitrophenol facilitates development of intestinal allergy.

Allergic contact dermatitis to slime: The epidemic of isothiazolinone allergy encompasses school glue.

Novel metabolites from *Trichoderma atroviride* against human prostate cancer cells and their inhibitory effect on *Helicobacter pylori* and Shigella toxin producing *Escherichia coli*.

Immunomodulatory effects of synthetic endocrine disrupting chemicals on the development and functions of human immune cells.

Study of the Potential Endocrine-Disrupting Effects of Phenylurea Compounds on Neurohypophysis Cells In Vitro.

TRPA1 Channel as a Regulator of Neurogenic Inflammation and Pain: Structure, Function, Role in Pathophysiology, and Therapeutic Potential of Ligands.

Characterization and safety evaluation of HPPD W336, a modified 4-hydroxyphenylpyruvate dioxygenase protein, and the impact of its expression on plant metabolism in herbicide-tolerant MST-FG \tilde{A} 72-2 soybean.

Allergenicity of acrolein-treated shrimp tropomyosin evaluated using RBL-2H3 cell and mouse model.

On the metabolites produced by *Colletotrichum gloeosporioides* a fungus proposed for the *Ambrosia artemisiifolia* biocontrol; spectroscopic data and absolute configuration assignment of colletochlorin A.

Chronic adriamycin treatment impairs CGRP-mediated functions of meningeal sensory nerves.

Pesticide contact dermatitis in agricultural workers of Himachal Pradesh (India).

Sucrosomial Iron Supplementation in Anemic Patients with Celiac Disease Not Tolerating Oral Ferrous Sulfate: A Prospective Study.

Prenatal exposure to TCDD and atopic conditions in the Seveso second generation: a prospective cohort study.

Pesticide use, allergic rhinitis, and asthma among US farm operators.

[Importance of Two Birth Cohorts (n=20,926 and n=514): 15 Years' Experience of the Hokkaido Study on Environment and Children's Health: Malformation, Development and Allergy].

Prenatal exposure to dioxin-like compounds is associated with decreased cord blood IgE and increased risk of wheezing in children aged up to 7years: The Hokkaido study.

In vitro detection of allergen sensitized basophils by HSA-DNP antigen-anchored liquid crystal microdroplets.

Determination of a major allergen in fish samples by simple and effective label-free capillary electrophoretic analysis after background suppression in ion-exchange chromatography.

Apical-to-basolateral transepithelial transport of cow's milk caseins by intestinal Caco-2 cell monolayers: MS-based quantitation of cellularly degraded $\hat{1}\pm$ - and $\hat{1}^2$ -casein fragments.

Residential proximity to agricultural fumigant use and respiratory health in 7-year old children.

Novel Biosensors for the Rapid Detection of Toxicants in Foods.

A novel zebrafish-based model of nociception.

Dendritic cells' death induced by contact sensitizers is controlled by Nrf2 and depends on glutathione levels.

Pesticides are Associated with Allergic and Non-Allergic Wheeze among Male Farmers.

Immunotoxic effects of atrazine and its main metabolites at environmental relevant concentrations on larval zebrafish (*Danio rerio*).

Contact sensitizers trigger human CD1-autoreactive T-cell responses.

Janus-faced Acrolein prevents allergy but accelerates tumor growth by promoting immunoregulatory Foxp3+ cells: Mouse model for passive respiratory exposure.

Antipruritic Effect of Cold-induced and Transient Receptor Potential-agonist-induced Counter-irritation on Histaminergic Itch in Humans.

Conjugation of nitrated acetaminophen to Der p1 amplifies peripheral blood monocyte response to Der p1.

Increased Frequency of Rheumatoid Arthritis and Allergic Rhinitis among Pesticide Sprayers and Associations with Pesticide Use.

Indole-3-carbinol, a plant nutrient and AhR-Ligand precursor, supports oral tolerance against OVA and improves peanut allergy symptoms in mice.

The unusual presentation of a burn from methyl bromide exposure: A case report and review of the literature.

Tyrosine kinase inhibition is an important factor for gene expression of CRTH2 in human eosinophils and lymphocytes: A novel mechanism for explaining eosinophils recruitment by the neuro-immune axis in allergic rhinitis.

Genome Editing with Engineered Nucleases in Economically Important Animals and Plants: State of the Art in the Research Pipeline.

Toxicity of *Juniperus oxycedrus* oil constituents and related compounds and the efficacy of oil spray formulations to *Dermatophagoides farinae* (Acari: Pyroglyphidae).

Pinocembrin, a novel histidine decarboxylase inhibitor with anti-allergic potential in in vitro.

Detection Methodologies for Pathogen and Toxins: A Review.

Uncovering the Molecular Mechanism of Anti-Allergic Activity of Silkworm Pupa-Grown *Cordyceps militaris* Fruit Body.

Possible health impacts of Bt toxins and residues from spraying with complementary herbicides in genetically engineered soybeans and risk assessment as performed by the European Food Safety Authority EFSA.

Occupational allergic airborne contact dermatitis caused by pethoxamid - a new herbicide.

Inhalation of the reactive aldehyde acrolein promotes antigen sensitization to ovalbumin and enhances neutrophilic inflammation.

Intra-laboratory study to determine the reproducibility of LLNA:BrdU-ELISA for the prediction of the skin sensitizing potential of chemicals.

Cinnamaldehyde derivatives inhibit degranulation and inflammatory mediator production in rat basophilic leukemia cells.

Cinnamaldehyde is an effective anti-inflammatory agent for treatment of allergic rhinitis in a rat model.

Acrolein and thiol-reactive electrophiles suppress allergen-induced innate airway epithelial responses by inhibition of DUOX1 and EGFR.

Hypothalamic L-Histidine Decarboxylase Is Up-Regulated During Chronic REM Sleep Deprivation of Rats.

Inhibitory effects of norlignans isolated from *Anemarrhena asphodeloides* on degranulation of rat basophilic leukemia- $\%2H3$ Cells.

Rapid simulated gastric fluid digestion of in-seed/grain proteins expressed in genetically engineered crops.

Separation of Key Biogenic Amines by Capillary Electrophoresis and Determination of Possible Indicators of Sport Fatigue in Athlete's Urine.

Skin testing of gallic acid-based hair dye in paraphenylenediamine/paratoluenediamine-reactive patients.

Hypersensitivity Pneumonitis.

TCDD-Induced Activation of Aryl Hydrocarbon Receptor Inhibits Th17 Polarization and Regulates Non-Eosinophilic Airway Inflammation in Asthma.

Prenatal exposure to persistent organic pollutants and offspring allergic sensitization and lung function at 20 \hat{A} years of age.

Sesamin attenuates mast cell-mediated allergic responses by suppressing the activation of p38 and nuclear factor- \hat{I}^{α} B.

Oxidative stress-related liver dysfunction by sodium arsenite: Alleviation by *Pistacia lentiscus* oil.

Click-Chemistry Based Allergen Arrays Generated by Polymer Pen Lithography for Mast Cell Activation Studies.

Nanoallergens: A multivalent platform for studying and evaluating potency of allergen epitopes in cellular degranulation.

Genetically Modified Foods: A Brief Overview of the Risk Assessment Process.

Prime and boost aerosol exposure via fog machine or shisha smoke followed by cinnamon hypersensitivity and anaphylaxis to spiced food.

Dual regulation of skin sensitizer-induced HMOX1 expression by Bach1 and Nrf2: Comparison to regulation of the AKR1C2-ARE element in the KeratinoSens cell line.

A Dose-Response Modeling Approach Shows That Effects From Mixture Exposure to the Skin Sensitizers Isoeugenol and Cinnamal Are in Line With Dose Addition and Not With Synergism.

Cinnamon spice and everything not nice: many features of intraoral allergy to cinnamic aldehyde.

Allergic contact dermatitis to hexyl cinnamaldehyde, cinnamaldehyde, and 3,4 methylbenzylidene camphor in a patient with previous photoallergic contact dermatitis to dexketoprofen.

The Biomarkers of Exposure and Effect in Agriculture (BEEA) Study: Rationale, Design, Methods, and Participant Characteristics.

North American contact dermatitis group patch test results: 2011-2012.

Gingiva Equivalents Secrete Negligible Amounts of Key Chemokines Involved in Langerhans Cell Migration Compared to Skin Equivalents.

Aryl Hydrocarbon Receptor Protects Lungs from Cockroach Allergen-Induced Inflammation by Modulating Mesenchymal Stem Cells.

Activation of the Prostaglandin E2 receptor EP2 prevents house dust mite-induced airway hyperresponsiveness and inflammation by restraining mast cells' activity.

Evaluation of Bar, Barnase, and Barstar recombinant proteins expressed in genetically engineered Brassica juncea (Indian mustard) for potential risks of food allergy using bioinformatics and literature searches.

Allergic contact dermatitis to nickel is characterized by a specific micro-RNA signature.

Application of the KeratinoSens[®] assay for assessing the skin sensitization potential of agrochemical active ingredients and formulations.

Environmental immune disruptors, inflammation and cancer risk.

Urinary amino acid alterations in 3-year-old children with neurodevelopmental effects due to perinatal dioxin exposure in Vietnam: a nested case-control study for neurobiomarker discovery.

World Health Organization estimates of the global and regional disease burden of four foodborne chemical toxins, 2010: a data synthesis.

Fluorescent magnetic bead-based mast cell biosensor for electrochemical detection of allergens in foodstuffs.

Contraction of gut smooth muscle cells assessed by fluorescence imaging.

Synthesis of 3H, 13C,2H3,15N and 14C-labelled SCH 466036, a histamine 3 receptor antagonist.

Erythema multiforme-like eruption following acute allergic contact dermatitis after exposure to the emulsified herbicide acetochlor.

Acrolein induction of oxidative stress and degranulation in mast cells.

Tempest in a tea pot: How did the public conversation on genetically modified crops drift so far from the facts?

Exacerbation of symptoms in agricultural pesticide applicators with asthma.

Allergic dermatitis from cyanamide for chronic alcoholism detoxification.

Cytoprotective effect of kaempferol on paraquat-exposed BEAS-2B cells via modulating expression of MUC5AC.

An efficient in vitro process for cyclic clonal production of shoots from adult tree of *Cassia alata* L. and evaluation of genetic stability using DNA-based markers.

Monitoring chlorinated persistent organic pollutants in adolescents in Flanders (Belgium): concentrations, trends and dose-effect relationships (FLEHS II).

Microvascular dysfunction with increased vascular leakage response in mice systemically exposed to arsenic.

The involvement of the Mid1/Cch1/Yvc1 calcium channels in *Aspergillus fumigatus* virulence.

Homoisoflavanone prevents mast cell activation and allergic responses by inhibition of Syk signaling pathway.

Aryl hydrocarbon receptor (AhR) modulates cockroach allergen-induced immune responses through active TGF β 1 release.

Rapid iron desensitization after generalized urticaria and facial angioedema.

Two-allergen model reveals complex relationship between IgE crosslinking and degranulation.

Epoxyalcohols: bioactivation and conjugation required for skin sensitization.

Application of response function methodology for the simultaneous determination of potential fragrance allergens and preservatives in personal care products using micellar electrokinetic chromatography.

Inhaled environmental allergens and toxicants as determinants of the asthma phenotype.

[Cyanamide-ethanol reaction induced shock: report of a case and literature review].

Mechanisms involved in oxidative stress regulation.

Evaluation of selected biomarkers for the detection of chemical sensitization in human skin: a comparative study applying THP-1, MUTZ-3 and primary dendritic cells in culture.

The sensitivity of the KeratinoSens[®] assay to evaluate plant extracts: a pilot study.

Allergic contact dermatitis due to dazomet absorbed by agricultural rubber boots.

Fluridone as a new anti-inflammatory drug.

Acrolein exposure suppresses antigen-induced pulmonary inflammation.

Bronchoconstriction induced by increasing airway temperature in ovalbumin-sensitized rats: role of tachykinins.

Evaluation of non-radioactive endpoints of ex vivo local lymph node assay-BrdU to investigate select contact sensitizers.

Contact sensitizing potential of pyrogallol and 5-amino-o-cresol in female BALB/c mice.

Induction of thymic stromal lymphopoietin production by nonanoic acid and exacerbation of allergic inflammation in mice.

Ten years of progress in the Hokkaido birth cohort study on environment and children's health: cohort profile--updated 2013.

Association between blood levels of PCDDs/PCDFs/dioxin-like PCBs and history of allergic and other diseases in the Japanese population.

Rapid desensitization induces internalization of antigen-specific IgE on mouse mast cells.

Individuals' half-lives for 2,3,4,7,8-penta-chlorodibenzofuran (PeCDF) in blood: correlation with clinical manifestations and laboratory results in subjects with Yusho.

Aryl hydrocarbon receptor activation affects the dendritic cell phenotype and function during allergic sensitization.

Sensitizing capacity of Disperse Orange 1 and its potential metabolites from azo reduction and their cross-reactivity pattern.

The aryl hydrocarbon receptor and food allergy.

The weeding of *Ambrosia artemisiifolia* and sanitary risks.

Fentichlor photocontact dermatitis: a persistent enigma.

Mast cell-based electrochemical biosensor for quantification of the major shrimp allergen Pen a 1 (tropomyosin).

Glyphosate, pathways to modern diseases II: Celiac sprue and gluten intolerance.

Activation of aryl hydrocarbon receptor prolongs survival of fully mismatched cardiac allografts.

Pesticide use, immunologic conditions, and risk of non-Hodgkin lymphoma in Canadian men in six provinces.

Immunotoxicity induced by acute subtoxic doses of paraquat herbicide: implication of shifting cytokine gene expression toward T-helper (T(H))-17 phenotype.

Paraquat application and respiratory health effects among South Korean farmers.

Whiskey congeners suppress LPS/IFN γ -induced NO production in murine macrophage RAW 264 cells by inducing heme oxygenase-1 expression.

Stability of selected volatile contact allergens in different patch test chambers under different storage conditions.

Molecular characterization of the putative transcription factor SebA involved in virulence in *Aspergillus fumigatus*.

PANC-1 cells proliferative response to ionizing radiation is related to GSK-3 β phosphorylation.

Activation of the aryl hydrocarbon receptor reduces the number of precursor and effector T cells, but preserves thymic CD4+CD25+Foxp3+ regulatory T cells.

Immunomodulatory potential of partially hydrolyzed β -lactoglobulin and large synthetic peptides.

Patch testing with the textile dyes Disperse Orange 1 and Disperse Yellow 3 and some of their potential metabolites, and simultaneous reactions to para-amino compounds.

Glutamine suppresses dinitrophenol fluorobenzene-induced allergic contact dermatitis and itching: inhibition of contact dermatitis by glutamine.

FICZ, a tryptophan photoproduct, suppresses pulmonary eosinophilia and Th2-type cytokine production in a mouse model of ovalbumin-induced allergic asthma.

Non-dioxin-like AhR ligands in a mouse peanut allergy model.

Pulmonary function reductions among potentially susceptible subgroups of agricultural workers in Colorado and Nebraska.

Assessment of the sensitizing potential of textile disperse dyes and some of their metabolites by the loose-fit coculture-based sensitization assay (LCSA).

Environment and T regulatory cells in allergy.

A proteomics approach to the study of the molecular consequence of IgE-mediated cell signalling in RBL-2H3.1 cells and 2D reference map preparation for the RBL-2H3.1 cell line.

Prospects for malaria elimination in non-Amazonian regions of Latin America.

Enhancing effects of trichloroethylene and tetrachloroethylene on type I allergic responses in mice.

Fully automated production of ^{11}C -doxepin for PET imaging histamine H1 receptor.

Poor air quality in classrooms related to asthma and rhinitis in primary schoolchildren of the French 6 Cities Study.

Suppressive effects of Schizandra chinensis Baillon water extract on allergy-related cytokine generation and degranulation in IgE-antigen complex-stimulated RBL-2H3 cells.

Transient receptor potential ankyrin 1 channel localized to non-neuronal airway cells promotes non-neurogenic inflammation.

Role of the Arylhydrocarbon Receptor (AhR) in the Pathology of Asthma and COPD.

Enhanced sensitization and elicitation responses caused by mixtures of common fragrance allergens.

Systemic contact dermatitis in children: how an avoidance diet can make a difference.

Complement inhibition alleviates paraquat-induced acute lung injury.

Measuring the penetration of a skin sensitizer and its delivery vehicles simultaneously with confocal Raman spectroscopy.

Patch testing for food-associated allergies in orofacial granulomatosis.

Occupational hand dermatitis among cement workers in Taiwan.

Methodologies to anchor dendrimeric nanoconjugates to solid phase: toward an efficient in vitro detection of allergy to β -lactam antibiotics.

Discovery of potent, selective, and orally bioavailable alkynylphenoxyacetic acid CRTH2 (DP2) receptor antagonists for the treatment of allergic inflammatory diseases.

Activation of the aryl hydrocarbon receptor suppresses sensitization in a mouse peanut allergy model.

Long-term effects on humoral immunity among workers exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Insulin allergy.

Effects of prenatal exposure to dioxin-like compounds on allergies and infections during infancy.

Central and peripheral mechanisms underlying gastric distention inhibitory reflex responses in hypercapnic-acidotic rats.

Metam sodium intoxication: the specific role of degradation products--methyl isothiocyanate and carbon disulphide--as a function of exposure.

Prior exposure to organophosphorus and organochlorine pesticides increases the allergic potential of environmental chemical allergens in a local lymph node assay.

Occupational allergy to cinnamal in a baker.

Identification of PDL-1 as a novel biomarker of sensitizer exposure in dendritic-like cells.

Systemic contact dermatitis presenting as lichen planus of the lip.

Quantitative risk assessment of contact sensitization: clinical data to assess utility of the model.

Tacrolimus modulates dendritic cell activation in the sensitization phase of allergic contact dermatitis.

Effects of strain differences and vehicles on results of local lymph node assays.

Investigation of endogenous soybean food allergens by using a 2-dimensional gel electrophoresis approach.

Environmental stressors and neurobiological features of marine teleosts: histamine receptors as targets.

The genome-wide expression profile of electroacupuncture in DNP-KLH immunized mice.

[Chemical contamination of the environment and development of allergic and autoimmune diseases].

Effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin on scratching behavior in mice.

Perinatal exposure of mice to TCDD decreases allergic sensitisation through inhibition of IL-4 production rather than T regulatory cell-mediated suppression.

Microemulsion electrokinetic chromatography: an application for the simultaneous determination of suspected fragrance allergens in rinse-off products.

2,3,7,8-Tetrachlorodibenzo-p-dioxin impairs stable establishment of oral tolerance in mice.

The effect of multigenerational diet containing genetically modified triticale on immune system in mice.

The new generation of intravenous iron: chemistry, pharmacology, and toxicology of ferric carboxymaltose.

Case-control study on risk factors for leukaemia and brain tumours in children under 5 years in Germany.

Intraoral contact mucositis induced by cinnamon-flavored chewing gum--a case report.

[Improvement of local lymph node assay for cosmetics safety evaluation].

Allergic reaction induced by dermal and/or respiratory exposure to low-dose phenoxyacetic acid, organophosphorus, and carbamate pesticides.

Safety evaluation of the double mutant 5-enol pyruvylshikimate-3-phosphate synthase (2mEPSPS) from maize that confers tolerance to glyphosate herbicide in transgenic plants.

Herbicide-treated hay as a possible cause of dermatitis in horses.

TRPV1-mediated itch in seasonal allergic rhinitis.

Safety assessment of leaf curl virus resistant tomato developed using viral derived sequences.

Ethnicity and incidence of Hodgkin lymphoma in Canadian population.

Evaluation of irritancy and sensitization potential of metalworking fluid mixtures and components.

Children's immunology, what can we learn from animal studies (3): Impaired mucosal immunity in the gut by 2,3,7,8-tetraclorodibenzo-p-dioxin (TCDD): a possible role for allergic sensitization.

Therapeutic surfactants modulate the viability of eosinophils and induce inflammatory mediator release.

11C-GSK189254: a selective radioligand for in vivo central nervous system imaging of histamine H3 receptors by PET.

Transepithelial transport of macromolecular substances in IL-4 treated human intestinal T84 cell monolayers.

Inhibitory effects of guarana seed extract on passive cutaneous anaphylaxis and mast cell degranulation.

A gene-shuffled glyphosate acetyltransferase protein from *Bacillus licheniformis* (GAT4601) shows no evidence of allergenicity or toxicity.

Contact dermatitis in dairy cattle caused by calcium cyanamide.

Erythema multiforme-like eruption due to an irritant contact dermatitis from a glyphosate pesticide.

Prevalence of patch test results from 1970 to 2002 in a multi-centre population in North America (NACDG).

[Medical and biological safety assessment of genetically modified maize event MON 88017. Report 2. Genotoxicologic, immunologic and allergologic examinations].

Allergic contact dermatitis with a fertilizer containing hydrogen cyanamide (Dormex).

Pesticide-related dermatitis in Saku district, Japan, 1975-2000.

Tyrosine phosphatase SHP-1 in oxidative stress and development of allergic airway inflammation.

Development of a modified in vitro skin absorption method to study the epidermal/dermal disposition of a contact allergen in human skin.

A comprehensive review of mercury provoked autism.

Effect of hand dermatitis on the total body burden of chromium after ferrous sulfate application in cement among cement workers.

High prevalence of celiac disease in Mexican Mestizo adults with type 1 diabetes mellitus.

Capillary electrophoretic studies on the photogenotoxic potential of pharmaceutical substances.

Acute induction of epileptiform discharges by pilocarpine in the in vitro isolated guinea-pig brain requires enhancement of blood-brain barrier permeability.

[Outdoor work-related health hazards].

Anaphylaxis to oral iron salts. desensitization protocol for tolerance induction.

Pesticides and atopic and nonatopic asthma among farm women in the Agricultural Health Study.

Date palm pollen allergoid: characterization of its chemical-physical and immunological properties.

Involvement of the pyrilamine transporter, a putative organic cation transporter, in blood-brain barrier transport of oxycodone.

Successful desensitization with human insulin in a patient with an insulin allergy and hypersensitivity to protamine: a case report.

Enhancing effect of chlorinated organic solvents on histamine release and inflammatory mediator production.

Anti-allergic properties of a new all-D synthetic immunoglobulin-binding peptide.

Murine bone marrow-derived dendritic cells as a potential in vitro model for predictive identification of chemical sensitizers.

Cutaneous reactions simulating erythema multiforme and Stevens Johnson syndrome due to occupational exposure to a plant-growth regulator.

Plasma cell gingivitis among herbal toothpaste users: a report of three cases.

Tongue erosions and diet cola.

Fragrances as a cause of food allergy.

Parthenium: a wide angle view.

Skin contact transfer of three fragrance residues from candles to human hands.

The skin sensitization potential of resorcinol: experience with the local lymph node assay.

Enhancement of allergic responses in vivo and in vitro by butylated hydroxytoluene.

Association of allergic rhinitis with pesticide use among grape farmers in Crete, Greece.

Occupational exposure to methyl iodide.

Involvement of cannabinoid CB2 receptors in the IgE-mediated triphasic cutaneous reaction in mice.

Involvement of substance P and neurogenic inflammation in arsenic-induced early vascular dysfunction.

Identification of phenolic dermal sensitizers in a wound closure tape.

Cross-reactions in patch testing with ketoprofen, fragrance mix and cinnamic derivatives.

[Sick building syndrome due to exposure to pentachlorophenol in the office: a case report].

Advantage of using CBA/N strain mice in a non-radioisotopic modification of the local lymph node assay.

Simultaneous sensitivity to fragrances.

Effects of alpha tocopherol and probucol supplements on allergen-induced airway inflammation and hyperresponsiveness in a mouse model of allergic asthma.

Novel selective orally active CRTH2 antagonists for allergic inflammation developed from in silico derived hits.

Endocrine disrupters--potential modulators of the immune system and allergic response.

Severe adverse cutaneous reaction to insulin due to cresol sensitivity.

Improved ELISA method for screening human antigen-specific IgE and its application for monitoring specific IgE for novel proteins in genetically modified foods.

[Exposure to endocrine disrupting chemicals and children's health: problems in epidemiological studies].

Design, synthesis and pharmacological screening of a series of N1-(substituted) aryl-5,7-dimethyl-2-(substituted)pyrido(2,3-d)-pyrimidin-4(3H)-ones as potential histamine H1-receptor antagonists.

Rapid determination of histamine and its metabolites in mice hair by ultra-performance liquid chromatography with time-of-flight mass spectrometry.

[Public perceptions of the risk of Asian dust storms in Seoul and its metropolitan area].

Sensitising potential of four textile dyes and some of their metabolites in a modified local lymph node assay.

A stomatitis due to artificial cinnamon-flavored chewing gum.

Fragrance material review on cinnamaldehyde.

Patch testing with a new fragrance mix - reactivity to the individual constituents and chemical detection in relevant cosmetic products.

Patch testing with a new fragrance mix detects additional patients sensitive to perfumes and missed by the current fragrance mix.

Allergic contact dermatitis from cyanamide.

Ragweed (Ambrosia) progression and its health risks: will Switzerland resist this invasion?

Chloracne due to o-dichlorobenzene in a laboratory worker.

The epidemiology of non-Hodgkin lymphoma.

LAIS Allergoid.

Effect of pollen-mediated oxidative stress on immediate hypersensitivity reactions and late-phase inflammation in allergic conjunctivitis.

Bitterness and toxicity in wild yam (*Dioscorea* spp.) tubers of Nepal.

The European standard series in 9 European countries, 2002/2003 -- first results of the European Surveillance System on Contact Allergies.

Reply to the comments by Coenraads and Tang 'Chloracne due to o-dichlorobenzene in a laboratory worker', *Contact Dermatitis* 2005; 52: 108.

An epidemiological study of poisoning cases reported to the National Poisons Information Centre, All India Institute of Medical Sciences, New Delhi.

Induction and activation of the aryl hydrocarbon receptor by IL-4 in B cells.

Role of autoimmune gastritis, *Helicobacter pylori* and celiac disease in refractory or unexplained iron deficiency anemia.

Efficacy of sublingual coseasonal immunotherapy with a monomeric allergoid in Cupressaceae pollen allergy--preliminary data.

Gaining perspective on the allergenicity assessment of genetically modified food crops.

Inhibition of IgE-dependent mouse triphasic cutaneous reaction by a boiling water fraction separated from mycelium of *Phellinus linteus*.

Strongyloides stercoralis recombinant NIE antigen shares epitope with recombinant Ves v 5 and Pol a 5 allergens of insects.

3D molecular modeling, free radical modulating and immune cells signaling activities of the novel peptidomimetic L-glutamyl-histamine: possible immunostimulating role.

Carrier mediated transport of chlorpheniramine and chlorcyclizine across bovine olfactory mucosa: implications on nose-to-brain transport.

Regulatory immunotoxicology: does the published evidence support mandatory nonclinical immune function screening in drug development?

Allergic contact dermatitis from cinnamic aldehyde found in an industrial odour-masking agent.

Correlations of patch test reactivity and the repeated open application test (ROAT)/provocative use test (PUT).

Pesticide patch test series for the assessment of allergic contact dermatitis among banana plantation workers in panama.

A comparative study of the allergenic potency of wild-type and glyphosate-tolerant gene-modified soybean cultivars.

[Treatment of disorders of iron metabolism].

Assessing the allergenicity of proteins introduced into genetically modified crops using specific human IgE assays.

Contact urticaria due to p-chloro-m-cresol.

Arsenic-induced alterations in the contact hypersensitivity response in Balb/c mice.

Limited effect of selected organic pollutants on cytokine production by peripheral blood leukocytes.

[Interdisciplinary diagnostics in the outpatient treatment department of an environmental medical centre - report on experience with 400 patients].

Evaluation of the allergenicity and antigenicity of bovine-milk alphas1-casein using extensively purified synthetic peptides.

Hair analysis of histamine after fluorescence labeling by column-switching reversed-phase liquid chromatography with electrospray ionization mass spectrometry and application to human hair.

Identification of a polygalacturonase as a major allergen (Pla a 2) from *Platanus acerifolia* pollen.

The role of the chorda tympani nerve and histaminergic system in TCDD toxicity.

Development, registration and commercialization of microbial pesticides for plant protection.

Assessment of statistical analysis in non-radioisotopic local lymph node assay (non-RI-LLNA) with alpha-hexylcinnamic aldehyde as an example.

Occupational airborne contact allergy to cyanamide and dibenzyl phosphite.

Assessment of cumulative allergen-activated lymph node cell proliferation using flow cytometry.

The 5-enolpyruvylshikimate-3-phosphate synthase of glyphosate-tolerant soybean expressed in *Escherichia coli* shows no severe allergenicity.

Contact urticaria from cinnamal leading to anaphylaxis.

Cinnamic compound metabolism in human skin and the role metabolism may play in determining relative sensitisation potency.

Deodorants: an experimental provocation study with cinnamic aldehyde.

Immediate sensory nerve-mediated respiratory responses to irritants in healthy and allergic airway-diseased mice.

Histamine-immunoreactive neurons of the tuberomammillary nucleus are innervated by alpha-melanocyte stimulating hormone-containing axons. Generation of a new histamine antiserum for ultrastructural studies.

Tolerogenic role of Kupffer cells in allergic reactions.

Human health concerns with GM crops.

2,3,7,8-tetrachlorodibenzo-p-dioxin selectively enhances spontaneous IgE production in B cells from atopic patients.

Nonanoic acid--an experimental irritant.

Persistent hematologic and immunologic disturbances in 8-year-old Dutch children associated with perinatal dioxin exposure.

Allergenicity evaluation of p-chloro-m-cresol and p-chloro-m-xyleneol by non-radioactive murine local lymph-node assay and multiple-dose guinea pig maximization test.

Comparative study of in vitro digestibility of food proteins and effect of preheating on the digestion.

Antiallergic activity of ginseng and its ginsenosides.

Spectrum of cross-photosensitization in 18 consecutive patients with contact photoallergy to ketoprofen: associated photoallergies to non-benzophenone-containing molecules.

¹²³I-Interleukin-2: biochemical characterization and in vivo use for imaging autoimmune diseases.

Increased expression of IgE-dependent histamine-releasing factor in endometriotic implants.

Tyrosine phosphorylation is involved in Ca(2+) entry in human gingival fibroblasts.

In vitro effect of air pollutants on human bronchi.

Is *Lolium* pollen from an urban environment more allergenic than rural pollen?

Allergenic relevance of *Cupressus arizonica* pollen extract and biological characterization of the allergoid.

Contact allergy to o-cresol--a sensitizer in phenol-formaldehyde resin.

The influence of a residual group in low-molecular-weight allergoids of *Artemisia vulgaris* pollen on their allergenicity, IgE- and IgG-binding properties.

[Photocontact dermatitis due to ketoprofen and photosensitization to tetrachlorosalicylanide and to Fenticlor(R)].

Antipruritic and antiinflammatory effects of aqueous extract from Si-Wu-Tang.

Workshop report. Children as a special subpopulation: focus on immunotoxicity. Federal Institute for Health Protection of Consumers and Veterinary Medicine (BgVV), 15-16 November 2001, Berlin, Germany.

Immunologic biomarkers in relation to exposure markers of PCBs and dioxins in Flemish adolescents (Belgium).

Recurrent stroke in a young patient with celiac disease and hyperhomocysteinemia.

Screening of transgenic proteins expressed in transgenic food crops for the presence of short amino acid sequences identical to potential, IgE - binding linear epitopes of allergens.

Inhibition of protein kinases A and C demonstrates dual modes of response in human eosinophils stimulated with platelet-activating factor.

Dioxin stimulates synthesis and secretion of IgE-dependent histamine-releasing factor.

Understanding fragrance allergy using an exposure-based risk assessment approach.

Environmental and occupational skin diseases in Taiwan.

Langerhans cells and immature dendritic cells as model systems for screening of skin sensitizers.

Release of markedly increased quantities of prostaglandin D2 from the skin in vivo in humans after the application of cinnamic aldehyde.

The suitability of hexyl cinnamic aldehyde as a calibrant for the murine local lymph node assay.

Chronic low-level administration of diquat increases the nociceptive response to gastric distension in rats: role of mast cells and tachykinin receptor activation.

Dermal exposure to cinnamaldehyde alters lymphocyte subpopulations, number of interferon-gamma-producing cells, and expression of B7 costimulatory molecules and cytokine messenger RNAs in auricular lymph nodes of B6C3F1 mice.

Non-Hodgkin's lymphoma and specific pesticide exposures in men: cross-Canada study of pesticides and health.

Mast cell regulation of inflammation and gene expression during antigen-induced bladder inflammation in mice.

Suppression of allergic immune responses to house dust mite (HDM) in rats exposed to 2,3,7,8-TCDD.

Transgenic foods, pesticides, dioxin, passive smoke. Consequences on breast milk.

Pyr c 1, the major allergen from pear (*Pyrus communis*), is a new member of the Bet v 1 allergen family.

Analysis of gene expression induced by irritant and sensitizing chemicals using oligonucleotide arrays.

Will genetically modified foods be allergenic?

A randomized study of oral vs intravenous iron supplementation in patients with progressive renal insufficiency treated with erythropoietin.

IgE binding properties of the recombinant ovomucoid third domain expressed in *Escherichia coli*.

A Kampo formulation: Byakko-ka-ninjin-to (*Bai-Hu-Jia-Ren-Sheng-Tang*) inhibits IgE-mediated triphasic skin reaction in mice: the role of its constituents in expression of the efficacy.

Effect of diesel exhaust particles and their components on the allergen-specific IgE and IgG1 response in mice.

Pesticides as a cause of occupational skin diseases in farmers.

Allergenicity testing of supermethrin, phenoxyacetic acid and DNCB using in vivo and in vitro modifications of the local lymph node assays, maximization and epicutaneous testing.

Fusarium solani major allergen peptide IV-1 binds IgE but does not release histamine.

Human eosinophils induce histamine release from antigen-activated rat peritoneal mast cells: a possible role for mast cells in late-phase allergic reactions.

Toxicology of metam sodium.

Chronic ingestion of a potential food contaminant induces gastrointestinal inflammation in rats: role of nitric oxide and mast cells.

Effects of environmental pollutants on airways, allergic inflammation, and the immune response.

Comparison of mouse strains using the local lymph node assay.

The expression of surface markers on dendritic cells as indicators for the sensitizing potential of chemicals.

Human skin absorption and metabolism of the contact allergens, cinnamic aldehyde, and cinnamic alcohol.

The frequency of fragrance allergy in a patch-test population over a 17-year period.

Immunologic effects of background exposure to polychlorinated biphenyls and dioxins in Dutch preschool children.

Negative regulation of FcεRI signaling by FcγRII costimulation in human blood basophils.

Anaphylaxis to chlorhexidine. Case report. Implication of immunoglobulin E antibodies and identification of an allergenic determinant.

A method to study apoptosis in eosinophils by flow cytometry.

Airbag dermatitis.

Ligation of IgE receptors causes an anaphylactic response and neutrophil infiltration but does not induce eosinophilic inflammation in mice.

Immobilization of plant histaminase for medical applications.

CDC investigations of noninfectious outbreaks of adverse events in hemodialysis facilities, 1979-1999.

Inhibition of irritation and contact hypersensitivity by phenoxyacetic acid methyl ester in mice.

Differential effect of antiallergic drugs on IgE-mediated cutaneous reaction in passively sensitized mice.

Health effects of chronic exposure to polychlorinated dibenzo-P-dioxins (PCDD), dibenzofurans (PCDF) and coplanar PCB (Co-PCB) of municipal waste incinerator workers.

Transport, catabolism and release of histamine in the ruminal epithelium of sheep.

Orosomucoid has a cAMP-dependent effect on human endothelial cells and inhibits the action of histamine.

Carbonic anhydrase activators - part 21. Novel activators of isozymes I, II and IV incorporating carboxamido and ureido histamine moieties.

Fragrance and contact allergens in vitro modulate the HLA-DR and E-cadherin expression on human epidermal Langerhans cells.

Human isolated airway contraction: interaction between air pollutants and passive sensitization.

Eczematous erythroderma induced by cyanamide.

Fragrance sensitivity in allergic contact dermatitis.

Effect of Shimotsu-to (a Kampo medicine, Si-Wu-Tang) and its constituents on triphasic skin reaction in passively sensitized mice.

Allergy to bovine beta-lactoglobulin: specificity of human IgE to tryptic peptides.

[Anemia and its treatment with peroral anti-anemia agents in women during the postpartum period].

Immunochemical detection of egg-white antigens and allergens in meat products.

Inhibitory mechanisms of glycoprotein fraction derived from *Miscanthus sinensis* for the immediate phase response of an IgE-mediated cutaneous reaction.

Effect of overproduction of interleukin 5 on dinitrofluorobenzene-induced allergic cutaneous response in mice.

Comparison of differential plating media and two chromatography techniques for the detection of histamine production in bacteria.

Molecular cloning and characterization of a birch pollen minor allergen, Bet v 5, belonging to a family of isoflavone reductase-related proteins.

Anaphylaxis inhibitory factor in IgE-dependent mast cell stimulation.

Cellular signalling and free-radical modulating activities of the novel peptidomimetic L-glutamyl-histamine.

Novel co-operation between eotaxin and substance-P in inducing eosinophil-derived neurotoxin release.

Airborne contact dermatitis from cacodylic acid.

Allergic contact dermatitis from ethoxymethylenemalononitrile in an agrochemical chemist.

Augmentation of allergic reactions by several pesticides.

Susceptibility to skin stinging, non-immunologic contact urticaria and acute skin irritation; is there a relationship?

The utility of patch tests using larger screening series of allergens.

Comparison of sex differences in guinea-pig maximization test for detection of skin-sensitizing potential using OECD recommended positive control sensitizers.

Deodorants on the European market: quantitative chemical analysis of 21 fragrances.

Clinical morphology of sodium lauryl sulfate (SLS) and nonanoic acid (NAA) irritant patch test reactions at 48 h and 96 h in 152 subjects.

Immunologic cross-reactivity between respiratory chemical sensitizers: reactive dyes and cyanuric chloride.

Allergy to bovine beta-lactoglobulin: specificity of human IgE using cyanogen bromide-derived peptides.

Inhibition of guinea pig skin allergic reactions by nonpeptide bradykinin B2 receptor antagonist FR173657.

Alterations of signal transduction pathways involved in 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced malignant transformation of human cells in culture.

Contact sensitivity to chromate: comparison at a London contact dermatitis clinic over a 10-year period.

Determinant analysis of IgE and IgG4 antibodies and T cells specific for bovine alpha(s)1-casein from the same patients allergic to cow's milk: existence of alpha(s)1-casein-specific B cells and T cells characteristic in cow's-milk allergy.

Effect of *Rehmannia glutinosa* on immediate type allergic reaction.

Endothelial cell intracellular Ca²⁺ concentration is increased upon breast tumor cell contact and mediates tumor cell transendothelial migration.

Possible role of nitric oxide in IgE-mediated allergic cutaneous reaction in mice.

Transient and prolonged increase in endothelial permeability induced by histamine and thrombin: role of protein kinases, calcium, and RhoA.

Anaphylatoxins C5a and C3a induce nuclear factor kappaB activation in human peripheral blood monocytes.

Murine local lymph node assay for predictive testing of allergenicity: two irritants caused significant proliferation.

Cytochrome P450 1B1: a major P450 isoenzyme in human blood monocytes and macrophage subsets.

Suppression of immunoglobulin E-mediated anaphylactic reaction by Hwanglyun-Haedok-Tang water extract.

Anti-immunoglobulin E antibody treatment blocks histamine release and tissue contraction in sensitized mice.

The effect of tyrosine kinase inhibitors on IgE-mediated histamine release from human lung mast cells and basophils.

Molecular characterization of a cytokinin-inducible periwinkle protein showing sequence homology with pathogenesis-related proteins and the Bet v 1 allergen family.

Interleukin 1 beta and tumour necrosis factor alpha inhibit acid secretion in cultured rabbit parietal cells by multiple pathways.

Vascular endothelial growth factor/vascular permeability factor enhances vascular permeability via nitric oxide and prostacyclin.

Occupational allergic contact dermatitis from 2-tert-butylamino-4-cyclopropylamino-6-methylthio-1,3,5-triazine.

Drug eruption induced by cyanamide (carbimide): a clinical and histopathologic study of 7 patients.

Xenobiotics and food allergy: in vivo and in vitro studies in patients with apple allergy.

Allergy to cocamidopropyl betaine may be due to amidoamine: a patch test and product use test study.

Lateral hypothalamic injection of GABA(A) antagonist induces gastric vagus-mediated hypocalcemia in the rat.

Cross-reaction patterns in patients with contact allergy to simple methylol phenols.

Sodium butyrate decreases histamine-stimulated calcium mobilization in C6 glioma cells.

Skin reactions to pesticides.

Simultaneous quantitation of specific IgE against 20 purified allergens in allergic patients sera by checkerboard immunoblotting (CBIB).

Nitric oxide decreases intestinal haemorrhagic lesions in rat anaphylaxis independently of mast cell activation.

Allergic contact dermatitis from norflurazon (Predict).

Cross-reactions in patch testing and photopatch testing with ketoprofen, thiaprophenic acid, and cinnamic aldehyde.

Natural ingredients based cosmetics. Content of selected fragrance sensitizers.

[Multiple chemical sensitivity disorder in patients with neurotoxic illnesses].

Genetic modification of plants: significant issues and hurdles to success.

Threshold responses in cinnamic-aldehyde-sensitive subjects: results and methodological aspects.

The expressed protein in glyphosate-tolerant soybean, 5-enolpyruvylshikimate-3-phosphate synthase from *Agrobacterium* sp. strain CP4, is rapidly digested in vitro and is not toxic to acutely gavaged mice.

Environmental chemicals and experimental allergic conjunctivitis.

An interlaboratory evaluation of the Buehler test for the identification and classification of skin sensitizers.

[Toxicologic risk assessment and prevention: rational and irrational approaches].

Purification and characterization of a 93 kDa *Aspergillus fumigatus* antigen with diagnostic potential.

Chromium allergy in consecutive patients in a country where ferrous sulfate has been added to cement since 1981.

[Occupational asthma in an agricultural setting].

Surface expression of CD63 antigen (AD1 antigen) in P815 mastocytoma cells by transfected IgE receptors.

Airborne pollutants and the immune system.

Addition of ferrous sulfate to cement and risk of chromium dermatitis among construction workers.

Antibodies released from immunoabsorbents: effect of support, activation and elution conditions.

Synthesis and in vitro reactivity of 3-carbamoyl-2-phenylpropionaldehyde and 2-phenylpropenal: putative reactive metabolites of felbamate.

Inhibitory effect of tyrosine kinase inhibitors on antigen-induced tracheal contraction and histamine release in guinea pigs.

Identification and characterization of the major allergens of velvet grass (*Holcus lanatus*), Hol I 1 and Hol I 5.

Interleukin 4 or oncostatin M induces a prolonged increase in P-selectin mRNA and protein in human endothelial cells.

Ferrous sulfate does not reduce serum levels of famotidine or cimetidine after concurrent ingestion.

Mechanisms involved in eosinophil migration. Platelet-activating factor-induced chemotaxis and interleukin-5-induced chemokinesis are mediated by different signals.

Signaling by hemolytically inactive C5b67, an agonist of polymorphonuclear leukocytes.

Monomeric chemically modified allergens: immunologic and physicochemical characterization.

Patch testing with fragrances: results of a multicenter study of the European Environmental and Contact Dermatitis Research Group with 48 frequently used constituents of perfumes.

[Eating cinnamon in cinnamaldehyde allergy].

Fate and effects of acrolein.

Contact allergy to cinnamic aldehyde and cinnamic alcohol in Olã©ophyal.

Assessment of the endogenous allergens in glyphosate-tolerant and commercial soybean varieties.

The guinea pig maximization test--with a multiple dose design.

[New legislation from the Politique Agricole Commune passed in 1994 and its impact on the spread of ragweed. The public health laws are the responsibility of the mayor, the health department, the General Council and the State Council].

[The campaign against the spread of ragweed: the Quebec model].

Large secretory structures at the cell surface imaged with scanning force microscopy.

Triclosan inhibits histamine-induced inflammation in human skin.

Alpha-subunit of beta-conglycinin, an allergenic protein recognized by IgE antibodies of soybean-sensitive patients with atopic dermatitis.

Modulation of TCDD-induced wasting syndrome by portocaval anastomosis and vagotomy in Long-Evans and Han/Wistar rats.

Image processing of 20 MHz B-scan recordings of irritant reactions.

Toxicological and neuropsychological findings in patients presenting to an environmental toxicology service.

Identification of the major phosphorylation sites in human C5a anaphylatoxin receptor in vivo.

Immunochemical characterization of recombinant and native tropomyosins as a new allergen from the house dust mite, *Dermatophagoides farinae*.

Substrate-specificity of mammalian tissue-bound semicarbazide-sensitive amine oxidase.

Allergic contact dermatitis from the herbicides trifluralin and benefin.

Allergic contact dermatitis from cyanamide: report of 3 cases.

Contact urticaria from cinnamic aldehyde and benzaldehyde in a confectioner.

[Allergic diseases caused by pesticides: 3 case reports].

Characterization of the capsaicin-sensitive component of cyclophosphamide-induced inflammation in the rat urinary bladder.

Patch testing with fragrance mix and its constituents in a Hungarian population.

Human bronchial smooth muscle responsiveness after in vitro exposure to acrolein.

Immunogold electron microscopic localization of timothy grass (*Phleum pratense*) pollen major allergens Phl p I and Phl p V after anhydrous fixation in acrolein vapor.

Contact sensitization induces proliferation of heterogeneous populations of hapten-specific T cells.

Study of the effector mechanism involved in the production of haemorrhagic necrosis of the small intestine in rat passive anaphylaxis.

Effects of various drugs (staurosporine, herbimycin A, ketotifen, theophylline, FK506 and cyclosporin A) on eosinophil viability.

Effects of herbimycin A and ST638 on Fc epsilon receptor-mediated histamine release and Ca²⁺ signals in rat basophilic leukemia (RBL-2H3) cells.

[Prevention of infectious endocarditis].

Interaction between the central histaminergic and the muscarinic cholinergic systems.

Evidence for histamine uptake by murine hematopoietic progenitors.

Modified par j I allergen from *P. judaica* pollen and its rate of absorption in rats.

Purification and characterization of Fus sI3596*, a 65 kd allergen of *Fusarium solani*.

Skin symptoms among workers in a spice factory.

Phototoxic contact dermatitis with toxic hepatitis due to the percutaneous absorption of paraquat.

Results with OECD recommended positive control sensitizers in the maximization, Buehler and local lymph node assays.

Allergic contact dermatitis from the herbicide Alachlor.

Aggravation of experimental allergic conjunctivitis by environmental chemical and physical factors.

Gastric vagus mediates immobilization-induced hypocalcemia in rats.

The characteristics, capacity and receptor regulation of inositol uptake in 1321N1 astrocytoma cells.

Selective removal of beta-lactoglobulin directly from cow's milk and preparation of hypoallergenic formulas: a bioaffinity method.

Contact dermatitis due to Metasol D3T in a Jay cushion.

Dermatitis in bulb growers.

Effect of processing cement to concrete on hexavalent chromium levels.

[Participation of environmental chemicals in experimental allergic conjunctivitis].

An arm immersion model of compromised skin (I). Influence on irritation reactions.

A study of the binding of immunoglobulin G and immunoglobulin E from children with bronchial asthma to peptides derived from group II antigen of *Dermatophagoides pteronyssinus*.

Potentiation of IgE responses to third-party antigens mediated by *Ascaris suum* soluble products.

Peptide mapping analysis of group I allergens of grass pollens.

Supernormal histamine release and normal cytotoxic activity of beige (ChÅ©diak-Higashi syndrome) rat mast cells with giant granules.

A sensitive colorimetric assay for the release of tryptase from human lung mast cells in vitro.

Intra-species cross-reactivity of house dust mite allergens separated by protein blotting and detected by selective elution of mite components and IgE antibodies.

Influence of some biological response modifiers on swelling of rat liver mitochondria in vitro.

Association of asthma with use of pesticides. Results of a cross-sectional survey of farmers.

Studies of the quenching phenomenon.

[Toxic and drug-induced lesions of the pulmonary parenchyma].

Immunocytochemical observation of paraquat-induced alveolitis with special reference to class II MHC antigens.

Skin sensitization to cinnamic alcohol: the role of skin metabolism.

Selective eosinophil leukocyte recruitment by transendothelial migration and not by leukocyte-endothelial cell adhesion.

Evidence of a neurogenic component during IgE-mediated inflammation in mouse skin.

Detection of contact sensitivity of metal salts using the murine local lymph node assay.

Identification of *Candida albicans* antigens reactive with immunoglobulin E antibody of human sera.

[Problems and eradication of *Ambrosia artemisiifolia* L. in Quebec in the urban and suburban environments].

Glycosylation-inhibiting factor from human T cell hybridomas constructed from peripheral blood lymphocytes of a bee venom-sensitive allergic patient.

Allergic contact dermatitis from dazomet.

Metabolically dependent blood-brain barrier breakdown in chronic relapsing experimental allergic encephalomyelitis.

Differential ability of occupational chemical contact and respiratory allergens to cause immediate and delayed dermal hypersensitivity reactions in mice.

Tardyferon therapy in hyposiderosis of infancy and childhood.

Clinical and cytologic aspects of ocular late-phase reaction in the guinea pig.

[Contact fenchlor photoallergy from soap for handwashing].

IgE-mediated inhalant allergy in inhabitants of a building infested by the rice weevil (*Sitophilus oryzae*).

Environmental monitoring in Lithuania. Environmental distress signals: gastrointestinal epithelial barrier after exposure to chemical agents.

[Occupational asthma caused by scented gravel in cat litter boxes].

Studies of the quenching phenomenon in delayed contact hypersensitivity reactions.

The identification of photoallergic potential in the local lymph node assay.

A continuously rotating passive agglutination method using rapidly precipitable latex particles and its application.

The sensitized liver represents a rich source of endogenous leukotrienes.

Transfusion of type-A and type-B blood to cats.

Allergic contact dermatitis to two antioxidants in latex gloves: 4,4'-thiobis(6-tert-butyl-meta-cresol) (Lowinox 44S36) and butylhydroxyanisole. Allergen alternatives for glove-allergic patients.

Inhalation exposure of mice to trimellitic anhydride induces both IgG and IgE anti-hapten antibody.

Tear volume in early and late phases of ocular anaphylaxis in guinea pigs.

Structural analysis of the glycoprotein allergen Art v II from the pollen of mugwort (*Artemisia vulgaris* L.).

Epitope mapping of allergens and antigens of timothy pollen extract.

Human aldehyde dehydrogenase. Activity with aldehyde metabolites of monoamines, diamines, and polyamines.

Effect of a single dose of TCDD on the level of histamine in discrete nuclei in rat brain.

Immediate contact reactions to chemicals in the fragrance mix and a study of the quenching action of eugenol.

The spectrum of contact urticaria. Wheals, erythema, and pruritus.

[The effect of histamine H1 receptors on the secretory function and blood flow in the gastric mucosa].

Late pulmonary allergic responses in actively but not passively IgE-sensitized rats.

[Diagnosis of dermatitis due to plants].

Contact sensitization by pesticides in farmers.

Preparation of triazolo[1,5-c]pyrimidines as potential antiasthma agents.

[Acute myelomonocytic leukemia with mastocytosis in bone marrow].

[The intensification of lipid peroxidation in the skin for the suppression of experimental dermatitis].

[Effect of inflammatory mediators on respiration in rat liver mitochondria].

Changes in rat brain monoamines, monoamine metabolites and histamine after a single administration of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Characteristics of histamine release from rat mast cells induced by a bracken toxin, braxin A1.

Identification of the binding sites of benzyl penicilloyl, the allergenic metabolite of penicillin, on the serum albumin molecule.

Attempts to identify the causative allergen in cases of allergic contact dermatitis using an in vitro lymphocyte transformation test.

[Photoallergic dermatitis caused by the herbicide phenmedipham].

Contact dermatitis in children.

Aspects of pharmaceutical and chemical standardization of patch test materials.

Cross-sensitization patterns in guinea pigs between cinnamaldehyde, cinnamyl alcohol and cinnamic acid.

Epidermal damage induced by irritants in man: a light and electron microscopic study.

Follow-up of workers from the prefabricated concrete industry after the addition of ferrous sulphate to Danish cement.

Mast cell chymase. A potent secretagogue for airway gland serous cells.

Complestatin, a potent anti-complement substance produced by *Streptomyces lavendulae*. I. Fermentation, isolation and biological characterization.

Characterization of grass pollen-specific IgE, IgA, IgM classes and IgG subclasses in allergic patients.

Antigen-induced bronchopulmonary alterations in the guinea pig: a new model of passive sensitization mediated by mouse IgE antibodies.

Prevalence of cement eczema in Denmark before and since addition of ferrous sulfate to Danish cement.

Radicals involved in photoallergen/protein interactions.

[Contact eczema caused by pesticides in East Germany].

A pharmacological approach to cellular mechanisms of PGI₂-induced gastric cytoprotection on ethanol-induced gastric mucosal damage in rats.

[Recent experience with mites in stored products].

[A radioisotope method for assessing the anaphylactogenicity of polymer drugs].

Complete amino acid sequence of a *Lolium perenne* (perennial rye grass) pollen allergen, Lol p II.

Structural alterations in fibroblast monolayers caused by mast cell degranulation.

Perturbations of the immune system by xenobiotics.

Analysis of the hyperpolarizing effect of catecholamines on canine cardiac Purkinje fibres.

Characterization of a receptor for C5a anaphylatoxin on human eosinophils.

Allergenic fragments of ryegrass (*Lolium perenne*) pollen allergen Lol p IV.

Monitoring of active groups of cyanogen-bromide-activated paper discs used as allergosorbent.

Dimethylthiourea prevents hydrogen peroxide and neutrophil mediated damage to lung endothelial cells in vitro and disappears in the process.

Spectroscopic studies of cutaneous photosensitizing agents--XIII. pH dependence of the photochemistry of photoallergens bithionol and fentichlor: an electron spin resonance study of the free radical photoproducts.

[Hygienic standardization of monochloroacetic acid chloranhydride in the air of the work area].

Immunotoxicology--1986.

Induction of an allergic reaction to alcohol metabolites by immunization.

Prostaglandin D2 generation in mouse bone marrow-derived mast cells exposed to dexamethasone is associated with endogenous peroxidase activity.

Chemically induced inflammation in rat oral mucosa.

Demonstration and characterization of a transient arthritis in rats following sensitization of synovial mast cells with antigen-specific IgE and parenteral challenge with specific antigen.

[Effects of traxanox sodium on experimental nasal allergy].

Skin lesions due to exposure to methyl bromide.

Photoallergic contact dermatitis from fentichlor.

In vitro (organ culture) studies of the toxicity of specific A-gliadin peptides in celiac disease.

Retained T-cell reactivity of rye grass pollen extract following cleavage with cyanogen bromide and nitrothiocyanobenzoic acid.

Anaphylactic shock: catecholamine actions in the responses to opioid antagonists.

Regulation of human basophil and lung mast cell function by cyclic adenosine monophosphate.

Antigenic contraction of guinea pig tracheal preparations passively sensitized with monoclonal IgE: pharmacological modulation.

Amino acid sequence of guinea pig C3a anaphylatoxin.

[Evaluation of allergic activity of zenkor for its regulation in the reservoir water].

Acetylsalicylic acid inhibits non-immunologic contact urticaria.

Irritation and sensitization potential of pesticides.

Irritant dermatitis from tri-butyl tin oxide and contact allergy from chlorocresol.

[Toxico-allergic dermatitis induced by ethylenediamine in the manufacture of the herbicide zineb].

Renal anaphylaxis. I. Antigen-initiated responses from isolated perfused rat kidney.

The effect of IgE-mediated mast cell degranulation on the expression of experimental contact sensitivity in the mouse.

Phorbol ester-induced inhibition of cyclic GMP formation mediated by muscarinic receptors in murine neuroblastoma cells.

Endogenous peroxidase activity in human cutaneous and adenoidal mast cells.

Induction of photoallergy in guinea-pigs by injection of photoallergen-protein conjugates.

A canine model for the study of hapten-specific suppression of IgE-mediated bronchoconstriction and anaphylaxis.

Non cytotoxic guinea-pig mesenteric mast cell stimulation by protamine.

Spectroscopic studies of cutaneous photosensitizing agents--XII. Spin trapping study of the free radicals generated during the photolysis of photoallergens bithionol and fentichlor.

Gas chromatographic, liquid chromatographic, and titrimetric procedures for determination of glycerin in allergenic extracts and diagnostic antigens: comparative study.

Immunochemical observations of antigen 5, a major venom allergen of hornets, yellowjackets and wasps.

Linamarin and histamine in the defense of adult *Zygaena filipendulae*.

Urticaria from contact with pentachlorophenate.

Irritation, sensitization, photoirritation and photosensitization assays with a glyphosate herbicide.

Cheilitis: occult allergy to cinnamic aldehyde.

Management of acute childhood poisonings caused by selected insecticides and herbicides.

Allergic contact dermatitis from aminotriazole.

Chronic progredient diffuse alveolar damage probably related to exposure to herbicides.

Skin lesions as a sign of subacute pentachlorophenol intoxication.

Diphenhydramine and the calcium carbimide-ethanol reaction: a placebo-controlled clinical study.

Histamine action in paraquat-induced lung injury.

Induction of experimental allergic neuritis in the BN rat: P2 protein-specific T cells overcome resistance to actively induced disease.

Desensitization of contact allergy to DNFB in mice. III. Characteristics of immediate desensitization induced by haptenated spleen cells.

[Guanylate cyclase activity of the rabbit myocardium in normal conditions and in allergic states].

Interaction of monoclonal antibodies with the IgE-receptor on rat mast cells and rat basophilic leukemia (RBL) cells.

Distribution of 2,4-dinitrophenyl groups on the epidermal Langerhans cells of guinea pigs following skin painting with 2,4-dinitrochlorobenzene.

[Evaluation of the biological effect of polishing powders].

Contact sensitivity to arsenical compounds. Clinical and experimental studies.

[Occurrence of drug reactions].

Antigenic and allergenic determinants of ovalbumin. I. Peptide mapping, cleavage at the methionyl peptide bonds and enzymic hydrolysis of native and carboxymethyl OA.

Transport of cimetidine by the rat choroid plexus in vitro.

Allergens in Hymenoptera venom. XVI: Studies of the structures and cross-reactivities of vespid venom phospholipases.

Antigen-stimulated metabolism of inositol phospholipids in the cloned murine mast-cell line MC9.

Proliferative responses by immune murine popliteal lymph node cells to high-molecular-weight basic allergen of ryegrass pollen and its cyanogen bromide fragments.

Human assay for identifying substances which induce non-allergic contact urticaria: the NICU-test.

Allergic contact dermatitis due to a herbicide (barban).

Health hazards of natural and introduced chemical components of boatbuilding woods.

Perfume dermatitis.

Long refractory period after one application of nonimmunologic contact urticaria agents to the guinea pig ear.

The cumulative contact enhancement test.

Surface functions during mitosis in rat basophilic leukemia cells.

Membrane and cytoskeletal changes associated with IgE-mediated serotonin release from rat basophilic leukemia cells.

Skin irritancy from nonanoic acid.

Monoclonal murine anti-DNP IgE: in vitro histamine release of rat mast cells in the presence of reaginic rat and mouse sera.

Relationship between 3H-histamine uptake and H₂-receptors in the human promyelocytic leukemia cell line HL-60.

Cyanide and sulfide interact with nitrogenous compounds to influence the relaxation of various smooth muscles.

Characterization of long-lasting histaminergic inhibition in a beating pacemaker neuron of *Onchidium*.

Standardization of house dust mite extracts. Liberation of allergenic and antigenic components in relation to extraction conditions.

Calcium dependent modulation of histamine release from mast cells by sodium and potassium.

Evidence for a role of the amino-terminal region in the biological activity of the classical anaphylatoxin, porcine C5a des-Arg-74.

Investigation of the allergenicity of beta-lactoglobulin and its cleavage fragments.

[Allergy to decorative plants].

Diminution of immediate reactions to cinnamic aldehyde by eugenol.

The effect of quenching agents on contact urticaria caused by cinnamic aldehyde.

Possible role for a human adenovirus in the pathogenesis of celiac disease.

Characterization of the enhanced paw edema response to carrageenan and dextran in 2,3,7,8-tetrachlorodibenzo-p-dioxin-treated rats.

Naloxone improves, and morphine exacerbates, experimental shock induced by release of endogenous histamine by compound 48/80.

Opiate antagonists reverse the hypoactivity associated with systemic anaphylaxis in mice.

Biochemical activity of intestinal microflora in adult coeliac disease.

Allergen discs prepared from nitrocellulose: detection of IgE binding to soluble and insoluble allergens.

Effects of H₂ receptor antagonists on the hepatotoxicity of various chemicals.

Metabolism of leukotriene D₄ by porcine alveolar macrophages.

Pharmacologic modulation in vitro of human histamine-induced suppressor cell activity.

Histochemical demonstration of enteropeptidase activity. New method with a synthetic substrate and its comparison with the trypsinogen procedure.

Biochemical modulation of angiogenesis in the chorioallantoic membrane of the chick embryo.

Morphine exacerbates anaphylactic shock in mice by stimulating central opiate receptors.

Langerhans cell--mononuclear cell contacts are not specific for allergy in patch tests.

Experimental allergic neuritis. Humoral and cellular immune responses to the cyanogen bromide peptides of the P2 protein.

Evidence for lipoxygenase activity in induction of histamine release from rat peritoneal mast cells by chelated iron.

Transport of histidine into synaptosomes of the rat central nervous system.

Sensitivity of passive cutaneous anaphylaxis in rats. I. Inverse relationship between PCA sensitivity and amount of IgE present on mast cells.

Allergic contact dermatitis to chloridazon.

Allergic hypersensitivity to the herbicide 2,4-D in BALB/c mice.

Polyacrolein microspheres as a new tool in cell biology.

Primary structure of bovine complement activation fragment C4a, the third anaphylatoxin. Purification and complete amino acid sequence.

Dual effect of verapamil on rat peritoneal mast cells: inhibition or induction of histamine release.

Association of ⁴⁵calcium with rat mast cells stimulated by 48/80: effects of inactivation, calcium and metabolic inhibition.

Histamine release from rat peritoneal mast cells exposed to ultraviolet light.

Allergic contact dermatitis to cyanamide (carbodiimide).

Allergen replacement (alternatives) in the management of contact dermatitis.

Factors affecting the efflux of paraquat from rat lung slices.

Effects of hypoxia and metabolic inhibitors on the electrical and mechanical activities of isolated guinea pig papillary muscles.

Structure of bovine P2 basic protein: sequence of a carboxyterminal segment that is a neuritogen in rabbits.

Antigen-induced and non-antigen-induced histamine release from rat mast cells sensitized with mouse antiserum.

Complete primary structure of human C4a anaphylatoxin.

Quantitative correlation between histamine and ³⁵S release from isolated rat mast cells due to the beta-adrenergic blocking drug KÅ¶ 1124.

Perioral leukoderma simulating vitiligo from use of a toothpaste containing cinnamic aldehyde.

Contact urticaria from cinnamic aldehyde.

Bovine peripheral nervous system myelin P2 protein: chemical and immunological characterization of the cyanogen bromide peptides.

Allergic encephalomyelitis induced in guinea pigs by a peptide from the NH₂-terminus of bovine P2 protein.

Allergic contact dermatitis from methylisothiocyanate in soil disinfectants.

Antigen-induced suppression of experimental allergic neuritis in the guinea pig.

Amino acid sequence of the anaphylatoxin from the fifth component of porcine complement.

Movement of calcium ions and release of histamine from rat mast cells.

Chronic lung disease. Pulmonary fibrosis.

Allergic contact dermatitis from Betanal (phenmedipham).

[Allergic contact dermatitis due to propachlor (author's transl)].

Influence of histamine on estrogen-induced inhibition of compensatory ovarian hypertrophy in hemiovariectomized rats.

The inhibitory effect of paraquat on histamine and isoproterenol induced changes of cyclic nucleotides in rat lung slices.

Longitudinal study of tolyl-reactive IgE antibodies in workers hypersensitive to TDI.

Contact dermatitis from hydrazine derivatives.

Specific IgE antibodies to platinum salts in sensitized workers.

An immunoperoxidase method for the demonstration of allergen-specific IgE in serum.

[Parthenium hysterophorus allergy. A weed problem in India (author's transl)].

Antisecretory effect of imidazole and its derivatives in an isolated gastric mucosa preparation and an anesthetized young chicken preparation; comparison with a histamine H₂-receptor antagonist.

Purification, characterization, and amino acid sequence of rat anaphylatoxin (C3a).

[Neuropsychopharmacological effects of TCDD].

Effects of inhibitors on the plasma membrane and mitochondrial adenosine triphosphatases of *Neurospora crassa*.

Effect of Ca²⁺, Mg²⁺, NaN₃, cholinergic agents, and gastrointestinal hormones on the guanylate cyclase from guinea pig gastric mucosa.

Effect of chemical defoliation on leaf and bract content in raw cotton.

Allergic contact dermatitis to herbicides.

Contact urticarial skin responses to cinnamaldehyde.

Human dander in house dust allergy.

[Suppression of the anaphylactic response of isolated smooth muscle organs by potassium arsenite].

The inhibition of histamine release from rat peritoneal mast cells by non-steroid anti-inflammatory drugs and its reversal by calcium.

Melittin: an allergen of honeybee venom.

Effects of vehicles and elicitation concentration in contact dermatitis testing. I. Experimental contact sensitization in humans.

Allergy tests against formaldehyde, cresol, and eugenol in children with formocresol pulp-tomized primary teeth.

[Determining hypersensitivity to antigens by computing cells migrating from capillary tubes].

[Pharmacological studies on basic ethers (R111 and R97) with antispasmodic activity].

Value of urinary simple phenol and indican determinations in the diagnosis of the stagnant loop syndrome.

The primary structure of porcine C3a anaphylatoxin.

Histamine release by exocytosis from rat mast cells on reduction of extracellular sodium: a secretory response inhibited by calcium, strontium, barium or magnesium.

Differential histamine release by dextran and the ionophore A23187: the actions of inhibitors.

Sensitivity to cinnamic aldehyde in a toothpaste. 2. Further studies.

Cinnamic aldehyde allergy.

Ionophore A-23187 induced histamine release from rat mast cells and rat basophil leukemia (RBL-1) cells.

Influence of IgG antibody and glycopeptide allergens on the correlation between the radioallergosorbent test (RAST) and skin testing or bronchial challenge with alternaria.

Immunoglobulin E antibody formation in response to homologous rabbit albumin heavily substituted with dinitrophenol: effect of adjuvant.

Allergic encephalomyelitis. Isolation of an encephalitogenic peptide active in the monkey.

Antigenic activity, in humans, of purified low molecular weight fractions of timothy pollen.

Asthma in the highlands of New Guinea Total IgE levels and incidence of IgE antibodies to house dust mite and *Ascaris lumbricoides*.

Serum IgE levels during the potentiated reagin response to egg albumin in rats infected with *Nippostrongylus brasiliensis*.

Antigen-induced inhibition of experimental allergic encephalomyelitis. III. Localization of an inhibitory site distinct from the major encephalitogenic determinant of myelin basic protein.

Human anaphylatoxin (C3a) from the third component of complement. Primary structure.

Oxygen and cyclic nucleotides in human umbilical artery.

A radioimmunoassay for chemically modified grass pollen allergen.

Studies on the species-variability of experimental allergic encephalomyelitis in guinea pigs and rats.

Detection of human reagins with rat peritoneal mast cells by histamine release.

Allergens of mammalian origin. III. Properties of a major feline allergen.

Non-immunogenicity of purified hyaluronic acid preparations tested by passive cutaneous anaphylaxis.

[Thin layer electrophoretic determination of biogenic amines in fishes and fish products in connection with food poisoning].

Table 2A-18 – Titles of Pubmed Records Related to Psychological Adverse Events Following Herbicide Exposure

ANOREXIA; *ANXIETY*; *CATAPLEXY*; *DEPRESSION*; *LETHARG*; *MANIA*; *PSYCHIATRIC*; *PSYCHOLOGIC*; *PSYCHOSIS*; *PSYCHOSOCIAL*; *SCHIZOPHRENI* (856)
--

Melatonin increased antioxidant capacity to ameliorate growth retardation and intestinal epithelial barrier dysfunction in diquat-challenged piglets.

Glyphosate: Impact on the microbiota-gut-brain axis and the immune-nervous system, and clinical cases of multiorgan toxicity.

Abalone peptide increases stress resilience and cost-free longevity via SKN-1-governed transcriptional metabolic reprogramming in *C. elegans*.

From dysbiosis to neuropathologies: Toxic effects of glyphosate in zebrafish.

Redox imbalance and inflammation: A link to depression risk in Brazilian pesticide-exposed farmers.

The characteristics of suicide attempters in Chinese patients: Comparison of adolescents, youths, middle-aged and elderly.

Effect of Cenobamate on Cognition in Patients with Drug-Resistant Epilepsy with Focal Onset Seizures: An Exploratory Study.

Cognitive and psychiatric adverse events during adjunctive cenobamate treatment in phase 2 and phase 3 clinical studies.

Prospective study of cenobamate on cognition, affectivity, and quality of life in focal epilepsy.

[Analysis on early predictors of respiratory depression in patients with glufosinate poisoning].

Switching from zonisamide to perampanel improved the frequency of seizures caused by hyperthermia in Dravet syndrome: a case report.

Fungicides as a risk factor for the development of neurological diseases and disorders in humans: a systematic review.

Single-cell RNA-sequencing of cellular heterogeneity and pathogenic mechanisms in paraquat-induced Parkinson's disease with depression.

Association of pesticide exposure with neurobehavioral outcomes among avocado farmworkers in Mexico.

Toxic effects of organophosphate pesticide monocrotophos in aquatic organisms: A review of challenges, regulations and future perspectives.

Early and transitory hypoactivity and olfactory alterations after chronic atrazine exposure in female Sprague-Dawley rats.

Occupational exposure to polychlorinated biphenyls: Development of neuropsychological functions over time.

Neuroprotective responses of quercetin in regulation of biochemical, structural, and neurobehavioral effects in 28-day oral exposure of iron in rats.

Maternal exposure of mice to glyphosate induces depression- and anxiety-like behavior in the offspring via alterations of the gut-brain axis.

Behavioral and neuroinflammatory changes caused by glyphosate: Base herbicide in mice offspring.

Global warming and glyphosate toxicity (I): Adult zebrafish modelling with behavioural, immunohistochemical and metabolomic approaches.

Evaluation of acute toxicity and histology effect on liver of glyphosate and atrazine in the African catfish *Clarias gariepinus* (Burchell 1822).

Systematic literature review of the epidemiology of glyphosate and neurological outcomes.

106 Cases of homicide poisoning in China-A retrospective study.

Genetic Susceptibility to Neurotoxicity Related to Prenatal Inorganic Arsenic Exposure in Young Spanish Children.

Proximity to residential and workplace pesticides application and the risk of progression of Parkinson's diseases in Central California.

Prenatal exposure to pesticides and domain-specific neurodevelopment at age 12 and 18 months in Nanjing, China.

Assessing farmer's exposure to pesticides and the risk for non-communicable diseases: A biomonitoring study.

Deciphering migraine pain mechanisms through electrophysiological insights of trigeminal ganglion neurons.

Occupational exposure to pesticides and symptoms of depression in agricultural workers. A systematic review.

Surveillance of pesticide poisoning in an East and a West Malaysian hospital: characteristics of pesticide poisoning and the early impact of a national Paraquat ban.

Environmentally Mediated Health Disparities.

Recovery rates of selected body odor substances in different textiles applying various work-up and storage conditions measured by gas chromatography-mass spectrometry.

Chronic exposure to metam sodium-based pesticide in mice during adulthood elevated anxiety and depression-like behaviors: Involvement of serotonergic depletion and gut microbiota dysbiosis.

Gestational organophosphate ester exposure and preschool attention-deficit/hyperactivity disorder in the Norwegian Mother, Father, and Child cohort study.

Supplementation with sesame oil suppresses genotoxicity, hepatotoxicity and enterotoxicity induced by sodium arsenite in rats.

Exposure to bisphenol A or its phenolic analogs during early life induces different types of anxiety-like behaviors after maturity in male mice.

The Mechanisms Underlying the Pharmacological Effects of GuiPi Decoction on Major Depressive Disorder based on Network Pharmacology and Molecular Docking.

Ioxynil and diethylstilbestrol impair cardiac performance and shell growth in the mussel *Mytilus coruscus*.

Buspironone Enhances Cell Survival and Preserves Structural Integrity during Oxidative Injury to the Retinal Pigment Epithelium.

Management of Acute Ferrous Sulfate Poisoning Using Activated Charcoal Monotherapy: A Case Report.

Association between glyphosate exposure and cognitive function, depression, and neurological diseases in a representative sample of US adults: NHANES 2013-2014 analysis.

Neurotoxicity Assessment in Adult *Danio rerio* using a Battery of Behavioral Tests in a Single Tank.

Early-Life Exposure to Paraquat Aggravates Sex-Specific and Progressive Abnormal Non-Motor Neurobehavior in Aged Mice.

Parkinson's disease updates: Addressing the pathophysiology, risk factors, genetics, diagnosis, along with the medical and surgical treatment.

Impact of dioxin exposure on brain morphometry and social anxiety in men living in the most dioxin-contaminated area in Vietnam.

Internet-Purchased Sodium Azide Used in a Fatal Suicide Attempt: A Case Report and Review of the Literature.

Risk evaluation and prioritization of contaminants of emerging concern and other organic micropollutants in two river basins of central Argentina.

The herbicides glyphosate and glufosinate and the cyanotoxin \hat{I}^2 -N-methylamino-L-alanine induce long-term motor disorders following postnatal exposure: the importance of prior asymptomatic maternal inflammatory sensitization.

Mobitz type I as manifestation of acute lithium cardiotoxicity.

Urine Metabolomic Signature of People Diagnosed with Balkan Endemic Nephropathy and Other Types of Chronic Kidney Disease Compared with Healthy Subjects in Romania.

[Development and Psychometric Evaluation of a Short Questionnaire on Self-Efficacy Expectations in Dealing with Psychologically Difficult Situations (SWEPE)].

ROS downregulate TCA activity to modulate energy metabolism via the HIF/miR-34/ACS-PK pathway for lifespan extension in *Helicoverpa armigera*.

Inorganic arsenic alters the development of dopaminergic neurons but not serotonergic neurons and induces motor neuron development via Sonic hedgehog pathway in zebrafish.

[Preliminary study on the effect of fecal microbiota transplantation on neurobehavior and gut microbiota of offspring rats exposed to arsenic].

Gestational arsenic exposure induces anxiety-like behaviors in F1 female mice by dysregulation of neurological and immunological markers.

Anxiety-related behavior and associated brain transcriptome and epigenome alterations in adult female zebrafish exposed to atrazine during embryogenesis.

[Study on the Protective effect and mechanism of Nicotinamide Riboside on lung injury in paraquat intoxicated mice].

Developmental and behavioral toxicity assessment of glyphosate and its main metabolite aminomethylphosphonic acid (AMPA) in zebrafish embryos/larvae.

Pesticides and farmers' health: an analysis of variables related to management and property.

Farmers' Intended Weed Management after a Potential Glyphosate Ban in Austria.

Attenuating effect of *Prosopis cineraria* against paraquat-induced toxicity in prepubertal mice, *Mus musculus*.

Analysis of serum levels of organochlorine pesticides and related factors in Parkinson's disease.

Acrolein, an endogenous aldehyde induces Alzheimer's disease-like pathologies in mice: A new sporadic AD animal model.

Association of urinary arsenic and sleep disorder in the US population: NHANES 2015-2016.

Pesticide exposure and cortical brain activation among farmworkers in Costa Rica.

Cinnamaldehyde prevents intergenerational effect of paternal depression in mice via regulating GR/miR-190b/BDNF pathway.

A Deadly Herbicide 'Paraquat Poisoning' and Miserable Death of a 19 Years Boy.

Prenatal arsenic exposure, arsenic methylation efficiency, and neuropsychological development among preschool children in a Spanish birth cohort.

Comparison of modes of action between fish, cell and mitochondrial toxicity based on toxicity correlation, excess toxicity and QSAR for class-based compounds.

[Expression and Regulatory Mechanism of Autophagy-related Genes in Synovial Tissues of Patients with Rheumatoid Arthritis].

Bacterial neurotoxic metabolites in multiple sclerosis cerebrospinal fluid and plasma.

Gut mobilization improves behavioral symptoms and modulates urinary p-cresol in chronically constipated autistic children: A prospective study.

Comparative Biochemical Profiling of Aluminum Chloride and Sodium Azide Induced Neuroinflammation and Cardiometabolic Disturbance.

Ryanodine receptor-active non-dioxin-like polychlorinated biphenyls cause neurobehavioral deficits in larval zebrafish.

Anxiety and Gene Expression Enhancement in Mice Exposed to Glyphosate-Based Herbicide.

Atrazine and Diuron Effects on Survival, Embryo Development, and Behavior in Larvae and Adult Zebrafish.

Is the Use of Glyphosate in Modern Agriculture Resulting in Increased Neuropsychiatric Conditions Through Modulation of the Gut-brain-microbiome Axis?

Disulfiram Produces Potent Anxiolytic-Like Effects Without Benzodiazepine Anxiolytics-Related Adverse Effects in Mice.

Rare co-inherited alpha-thalassemia minor and beta-thalassemia minor with heterozygous H63D mutation mistaken as iron deficiency anemia: a case report.

Effects of 2,4-dichlorophenoxyacetic acid on the expression of NLRP3 inflammasome and autophagy-related proteins as well as the protective effect of Lycium barbarum polysaccharide in neonatal rats.

A subchronic low-dose exposure of a glyphosate-based herbicide induces depressive and anxious-like behavior in mice: quercetin therapeutic approach.

Thoracic radiographic features of fatal paraquat intoxication in eleven dogs.

Variable inbreeding depression may explain associations between the mating system and herbicide resistance in the common morning glory.

Transient glyphosate encephalopathy due to a suicide attempt.

Associations between pesticide mixtures applied near home during pregnancy and early childhood with adolescent behavioral and emotional problems in the CHAMACOS study.

Glyphosate-based herbicides affect behavioural patterns of the livebearer *Jenynsia multidentata*.

Agent Orange Exposure and Dementia Diagnosis in US Veterans of the Vietnam Era.

Protective effects of black seed (*Nigella sativa*) diet supplementation in common carp (*Cyprinus carpio*) against immune depression, oxidative stress and metabolism dysfunction induced by glyphosate.

Glyphosate targets fish monoaminergic systems leading to oxidative stress and anxiety.

Psychosocial impairment following mild blast-induced traumatic brain injury in rats.

Reasons for under-reporting of paraquat poisoning in India.

The Keap1/Nrf2-ARE signaling pathway is involved in atrazine induced dopaminergic neurons degeneration via microglia activation.

The Herbicide Atrazine Potentiates Angiotensin II-Induced Aldosterone Synthesis and Release From Adrenal Cells.

Behavioural responses of *Phlebotomus duboscqi* to plant-derived volatile organic compounds.

The Pharmacology and Clinical Efficacy of Antiseizure Medications: From Bromide Salts to Cenobamate and Beyond.

The microbial metabolite p-Cresol induces autistic-like behaviors in mice by remodeling the gut microbiota.

Metam sodium exposure during pregnancy and lactation in mice caused behavioral abnormalities and oxidative stress in offspring.

"That's Not His Regular Formula": A Case of Organophosphate Poisoning in an Infant.

The ups and downs of alkyl-carbamates in epilepsy therapy: How does cenobamate differ?

Neurobehavioural and cognitive effects of prenatal exposure to organochlorine compounds in three year old children.

Gestational and lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin in mice: Neurobehavioral effects on female offspring.

An enriched biosignature of gut microbiota-dependent metabolites characterizes maternal plasma in a mouse model of fetal alcohol spectrum disorder.

Protein-Bound Uremic Toxins and Immunity.

Why is the Incidence of Type 1 Diabetes Increasing?

Rapid Glomerulotubular Nephritis as an Initial Presentation of a Lethal Diquat Ingestion.

Chronic exposure to environmentally realistic levels of diuron impacts the behaviour of adult marine medaka (*Oryzias melastigma*).

Prolonged cognitive dysfunction in patient with splenial lesion of the corpus callosum caused by glufosinate ammonium poisoning.

The Association between Child and Parent Psychiatric Disorders in Families Exposed to Flood and/or Dioxin.

2,4-Dichlorophenoxyacetic Acid Poisoning Mimicking as Organophosphorus Poisoning.

Lethality-Associated Factors in Deliberate Self-Poisoning.

Brain alterations in GABA, glutamate and glutamine markers after chronic atrazine exposure in the male albino rat.

Behavioural toxicity of environmental relevant concentrations of a glyphosate commercial formulation - RoundUp® UltraMax - During zebrafish embryogenesis.

Control of the neuroprotective Lipocalin Apolipoprotein D expression by alternative promoter regions and differentially expressed mRNA 5' UTR variants.

Environmental Pollution, Oxidative Stress and Thioretinaco Ozonide: Effects of Glyphosate, Fluoride and Electromagnetic Fields on Mitochondrial Dysfunction in Carcinogenesis, Atherogenesis and Aging.

Paternal exposure to a common herbicide alters the behavior and serotonergic system of zebrafish offspring.

Intranasal glyphosate-based herbicide administration alters the redox balance and the cholinergic system in the mouse brain.

Toxic effects of fluridone on early developmental stages of Japanese Medaka (*Oryzias latipes*).

[Effects of acute paraquat poisoning on cognitive ability in humans].

Long-term spatial tracking of cells affected by environmental insults.

Evaluation of the effectiveness of valproic acid for treating cyanotic breath holding spells: A Pilot prospective study.

p-Cresol Sulfate Caused Behavior Disorders and Neurodegeneration in Mice with Unilateral Nephrectomy Involving Oxidative Stress and Neuroinflammation.

Synthesis and biological evaluation of thioadatanserin and its dialkylated products as partial 5-HTR(1A) agonists and 5-HTR(2A) antagonists for potential use in depression and anxiety disorders.

Water Exercise and Quality of Life in Pregnancy: A Randomised Clinical Trial.

Prenatal exposure to the pesticide metam sodium induces sensorimotor and neurobehavioral abnormalities in mice offspring.

Health effects of nutrients and environmental pollutants in Baltic herring and salmon: a quantitative benefit-risk assessment.

The developmental neurotoxicity of legacy vs. contemporary polychlorinated biphenyls (PCBs): similarities and differences.

Quantitative seasonal variation of the falcarinol-type polyacetylene (3S)-16,17-didehydrofalcarinol and its spatial tissue distribution in *Tridax procumbens*.

Cyclophosphamide-induced cystitis results in NLRP3-mediated inflammation in the hippocampus and symptoms of depression in rats.

Modulating microbiota metabolism via bioaugmentation with *Lactobacillus casei* and *Acetobacter pasteurianus* to enhance acetoin accumulation during cereal vinegar fermentation.

Skin burns from monochloroacetic acid leak in a chemical plant: a case report.

Devil's claw (*Harpagophytum procumbens*) ameliorates the neurobehavioral changes and neurotoxicity in female rats exposed to arsenic.

P-cresol Alters Brain Dopamine Metabolism and Exacerbates Autism-Like Behaviors in the BTBR Mouse.

Resident risk attitude analysis in the decision-making management of waste incineration construction.

Lactobacillus probiotics improved the gut microbiota profile of a *Drosophila melanogaster* Alzheimer's disease model and alleviated neurodegeneration in the eye.

Neuropsychiatric manifestations of methyl iodide toxicity.

Bacopa monnieri Supplements Offset Paraquat-Induced Behavioral Phenotype and Brain Oxidative Pathways in Mice.

Trans-cinnamaldehyde shows anti-depression effect in the forced swimming test and possible involvement of the endocannabinoid system.

Inorganic arsenic exposure and neuropsychological development of children of 4-5 years of age living in Spain.

The effects of cinnamaldehyde on acute or chronic stress-induced anxiety-related behavior and locomotion in male mice.

Lesion of the Locus Coeruleus Damages Learning and Memory Performance in Paraquat and Maneb-induced Mouse Parkinson's Disease Model.

The effect of chronic vitamin deficiency and long term very low dose exposure to 6 pesticides mixture on neurological outcomes - A real-life risk simulation approach.

Occupational Health and Safety in the Palm Oil Industry: A Systematic Review.

Protective effect of gallic acid against arsenic-induced anxiety-/depression- like behaviors and memory impairment in male rats.

Cardioprotective properties of opioid receptor agonists in rats with stress-induced cardiac injury.

Extragenital cutaneous warts - clinical presentation, diagnosis and treatment.

Comparative liver function assessment of natural and available drug (Ferrous sulfate) for iron-deficiency anemia in rat model.

Prenatal dioxin exposure and neuropsychological functioning in the Seveso Second Generation Health Study.

Moderate Physical Activity in an Aquatic Environment During Pregnancy (SWEF Study) and Its Influence in Preventing Postpartum Depression.

Effects of Simvastatin on Fetal Cardiac Impairment in the Diaphragmatic Experimental Hernia Model.

Chronic unpredictable stress influenced the behavioral but not the neurodegenerative impact of paraquat.

Severe ARDS Complicating an Acute Intentional Cresol Poisoning.

Development of a carbon-11 PET radiotracer for imaging TRPC5 in the brain.

DISC1 promotes translation maintenance during sodium arsenite-induced oxidative stress.

Relative Importance of Posttraumatic Stress Disorder and Depression in Predicting Risk of Suicide among a Cohort of Vietnam Veterans.

Depressive Symptoms After PCB Exposure: Hypotheses for Underlying Pathomechanisms via the Thyroid and Dopamine System.

The effects of hesperidin on sodium arsenite-induced different organ toxicity in rats on metabolic enzymes as antidiabetic and anticholinergics potentials: A biochemical approach.

Synthesis and evaluation of 4-(2-fluoro-4-[(11)C]methoxyphenyl)-5-((2-methylpyridin-4-yl)methoxy)picolinamide for PET imaging of the metabotropic glutamate receptor 2 in the rat brain.

Microscopic structure of albino rats' small intestine.

Mice exposure to haloxyfop-p-methyl ester at predicted environmentally relevant concentrations leads to anti-predatory response deficit.

LC3-II may mediate ATR-induced mitophagy in dopaminergic neurons through SQSTM1/p62 pathway.

Perinatal Glyphosate-Based Herbicide Exposure in Rats Alters Brain Antioxidant Status, Glutamate and Acetylcholine Metabolism and Affects Recognition Memory.

Glyphosate based- herbicide exposure affects gut microbiota, anxiety and depression-like behaviors in mice.

[Analysis of pesticide poisoning in Ji'nan during 2012-2016].

From TBT to booster biocides: Levels and impacts of antifouling along coastal areas of Panama.

Sodium Selenite Prevents Paraquat-Induced Neurotoxicity in Zebrafish.

Evidence the U.S. autism epidemic initiated by acetaminophen (Tylenol) is aggravated by oral antibiotic amoxicillin/clavulanate (Augmentin) and now exponentially by herbicide glyphosate (Roundup).

Neurological and Neurophysiological Findings in Workers with Chronic 2,3,7,8-Tetrachlorodibenzo-p-Dioxin Intoxication 50 Years After Exposure.

Glyphosate ingestion causing multiple organ failure: a near-fatal case report.

Treatment Outcome of Combined Continuous Venovenous Hemofiltration and Hemoperfusion in Acute Paraquat Poisoning: A Prospective Controlled Trial.

Administration of cinnamaldehyde promotes osteogenesis in ovariectomized rats and differentiation of osteoblast in *in vitro*.

Short communication: Investigation of antibiotic alternatives to improve health and growth of veal calves.

Sociodemographic and clinical characteristics of old-old suicide attempters compared with young-old and middle-aged attempters.

Prenatal exposure to persistent organic pollutants and cognition and motor performance in adolescence.

Defining the viability of tardigrades with a molecular sensor related to death.

A Prospective Randomised Controlled Trial of a Single Intravenous Infusion of Ferric Carboxymaltose vs Single Intravenous Iron Polymaltose or Daily Oral Ferrous Sulphate in the Treatment of Iron Deficiency Anaemia in Pregnancy.

Risk of Alzheimer's disease with metal concentrations in whole blood and urine: A case-control study using propensity score matching.

The association of adverse mental health effects with repeated exposure to disasters.

Risk perceptions of public health and food safety hazards in poultry husbandry by citizens, poultry farmers and poultry veterinarians.

[Importance of Two Birth Cohorts (n=20,926 and n=514): 15 Years' Experience of the Hokkaido Study on Environment and Children's Health: Malformation, Development and Allergy].

Psychic euosmia and obsessive compulsive personality disorder.

Early-life stress induces motor coordination dysfunction in adult mice.

Distinct psychopathology of patients who attempted suicide with rodenticide in Taiwan: a comparative study with patients of suicide with paraquat.

Modulation of the Oxidative Stress and Lipid Peroxidation by Endocannabinoids and Their Lipid Analogues.

Dietary cyanogen exposure and early child neurodevelopment: An observational study from the Democratic Republic of Congo.

Clostridium Bacteria and Autism Spectrum Conditions: A Systematic Review and Hypothetical Contribution of Environmental Glyphosate Levels.

Neurocognitive and physical functioning in the Seveso Women's Health Study.

Mixture Toxicity of Bensulfuron-Methyl and Acetochlor to Red Swamp Crayfish (*Procambarus clarkii*): Behavioral, Morphological and Histological Effects.

Behavioral impairments following repeated intranasal glyphosate-based herbicide administration in mice.

Effects of the herbicide triclopyr on metamorphic northern red-legged frogs.

Developmental exposure to glyphosate-based herbicide and depressive-like behavior in adult offspring: Implication of glutamate excitotoxicity and oxidative stress.

Role of TRPA1 in acute cardiopulmonary toxicity of inhaled acrolein.

Phenelzine Protects Brain Mitochondrial Function In Vitro and In Vivo following Traumatic Brain Injury by Scavenging the Reactive Carbonyls 4-Hydroxynonenal and Acrolein Leading to Cortical Histological Neuroprotection.

Neuropsychological effects of occupational exposure to polychlorinated biphenyls.

Occupational exposure to pesticides are associated with fixed airflow obstruction in middle-age.

Use of anthropogenic nitrogen fertilizers in agriculture is associated with per capita ethanol consumption.

Thiamine and benfotiamine prevent stress-induced suppression of hippocampal neurogenesis in mice exposed to predation without affecting brain thiamine diphosphate levels.

Prenatal Exposure to Glycol Ethers and Neurocognitive Abilities in 6-Year-Old Children: The PELAGIE Cohort Study.

Severe Self-Inflicted Acute Ocular Siderosis Caused by an Iron Tablet in the Conjunctival Fornix.

A Method for Diagnosing Alzheimer's Disease Based on Salivary Amyloid- β^2 Protein 42 Levels.

[(11)C]PF-3274167 as a PET radiotracer of oxytocin receptors: Radiosynthesis and evaluation in rat brain.

The Burden of Mental Illness Among Veterans: Use of VHA Health Care Services by Those With Service-connected Conditions.

Polychlorinated biphenyls and depression: cross-sectional and longitudinal investigation of a dopamine-related Neurochemical path in the German HELPCB surveillance program.

The effect of adding ferrous sulfate to methylphenidate on attention-deficit/hyperactivity disorder in children.

Behavioral and Immunohistochemical Study of the Effects of Subchronic and Chronic Exposure to Glyphosate in Mice.

Absence of genotoxic effects of the chalcone (E)-1-(2-hydroxyphenyl)-3-(4-methylphenyl)-prop-2-en-1-one) and its potential chemoprevention against DNA damage using in vitro and in vivo assays.

Synthesis and evaluation of 1-(cyclopropylmethyl)-4-(4-[(11)C]methoxyphenyl)-piperidin-1-yl-2-oxo-1,2-dihydropyridine-3-carbonitrile ([11C]CMDC) for PET imaging of metabotropic glutamate receptor 2 in the rat brain.

Correlation between brain damage, associated biomarkers, and medication in psychiatric inpatients: A cross-sectional study.

Prenatal Paraquat exposure induces neurobehavioral and cognitive changes in mice offspring.

Does nitrate co-pollution affect biological responses of an aquatic plant to two common herbicides?

Exposure to a glyphosate-based herbicide during pregnancy and lactation induces neurobehavioral alterations in rat offspring.

Neurology in the Vietnam War.

Reversal of diabetes-induced behavioral and neurochemical deficits by cinnamaldehyde.

Structural and biochemical abnormalities in the absence of acute deficits in mild primary blast-induced head trauma.

Appetite-enhancing Effects of trans-Cinnamaldehyde, Benzylacetone and 1-Phenyl-2-butanone by Inhalation.

Attempted Suicide: A Cross-Sectional Survey 2015.

Prenatal dioxin exposure and neurocognitive development in Hong Kong 11-year-old children.

Paired suicide in a young refugee couple on the Thai-Myanmar border.

The influence of maternal dietary exposure to dioxins and PCBs during pregnancy on ADHD symptoms and cognitive functions in Norwegian preschool children.

Effects of Perinatal Dioxin Exposure on Development of Children during the First 3 Years of Life.

METABOLIC DYSBIOSIS OF THE GUT MICROBIOTA AND ITS BIOMARKERS.

Indoxyl sulfate, not p-cresyl sulfate, is associated with cognitive impairment in early-stage chronic kidney disease.

[Not Available].

Impacts of Perinatal Dioxin Exposure on Motor Coordination and Higher Cognitive Development in Vietnamese Preschool Children: A Five-Year Follow-Up.

Melatonergic System in Parkinson's Disease: From Neuroprotection to the Management of Motor and Nonmotor Symptoms.

Delayed cognitive and psychiatric symptoms following methyl iodide and manganese poisoning: Potential for misdiagnosis.

Risk Factors for Herpes Zoster Among Adults.

Signaling mechanisms underlying the glioprotective effects of resveratrol against mitochondrial dysfunction.

Synthesis, Cytotoxic Activity on Leukemia Cell Lines and Quantitative Structure-Activity Relationships (QSAR) Studies of Morita-Baylis-Hillman Adducts.

The impact of combined administration of paraquat and maneb on motor and non-motor functions in the rat.

Cinnamaldehyde in a Novel Intravenous Submicrometer Emulsion: Pharmacokinetics, Tissue Distribution, Antitumor Efficacy, and Toxicity.

Effects of dietary supplementation with glutamate and aspartate on diquat-induced oxidative stress in piglets.

Glyphosate, pathways to modern diseases III: Manganese, neurological diseases, and associated pathologies.

Neurobehavioral effects of concurrent exposure to cesium-137 and paraquat during neonatal development in mice.

Use of In Vivo and In Vitro Data to Derive a Chronic Reference Value for Crotonaldehyde Based on Relative Potency to Acrolein.

Cinnamic aldehyde treatment alleviates chronic unexpected stress-induced depressive-like behaviors via targeting cyclooxygenase-2 in mid-aged rats.

Perinatal dioxin exposure and psychosocial and behavioral development in school-aged children.

Effect of correction of anemia on echocardiographic and clinical parameters in patients with aortic stenosis involving a three-cuspid aortic valve and normal left ventricular ejection fraction.

Pregnant women in Timis County, Romania are exposed primarily to low-level (10^{-4}g/l) arsenic through residential drinking water consumption.

Health related quality of life and polychlorinated biphenyls and dibenzofurans exposure: 30 years follow-up of Yucheng cohort.

[Development of Higher Brain Function Tests in Rodents and Its Application to Neurotoxicity Assessment of Environmental Chemicals].

Paraquat and psychological stressor interactions as pertains to Parkinsonian co-morbidity.

Paralytic ileus induced by glyphosate intoxication successfully treated using Kampo medicine.

Contribution of impaired myofibril and ryanodine receptor function to prolonged low-frequency force depression after in situ stimulation in rat skeletal muscle.

Effects of combined ferrous sulfate administration and exposure to static magnetic field on brain oxidative stress and emotional behavior.

Lactational exposure to low levels of the six indicator non-dioxin-like polychlorinated biphenyls induces DNA damage and repression of neuronal activity, in juvenile male mice.

Effect of occupational polychlorinated biphenyls exposure on quality-adjusted life years over time at the HELPCB surveillance program.

Psychiatric comorbidity and its impact on mortality in patients who attempted suicide by paraquat poisoning during 2000-2010.

Unilateral hippocampal infarction associated with an attempted suicide: a case report.

Effects of glyphosate on growth rate, metabolic rate and energy reserves of early juvenile crayfish, *Cherax quadricarinatus* M.

Long-term exposure to paraquat alters behavioral parameters and dopamine levels in adult zebrafish (*Danio rerio*).

Lithium prevents acrolein-induced neurotoxicity in HT22 mouse hippocampal cells.

In vitro biological activity of decoction of Joshanda.

Clinico-hematological and tissue changes induced by butachlor in male Japanese quail (*Coturnix japonica*).

Hemodialysis clearance of glyphosate following a life-threatening ingestion of glyphosate-surfactant herbicide.

The blockade of transient receptor potential ankirin 1 (TRPA1) signalling mediates antidepressant- and anxiolytic-like actions in mice.

Parkinson's disease, lights and melanocytes: looking beyond the retina.

Neurological and neurophysiological examinations of workers exposed to arsenic levels exceeding hygiene standards.

2,3,7,8-Tetrachlorodibenzo-p-dioxin in breast milk increases autistic traits of 3-year-old children in Vietnam.

Pesticide exposure and depression among male private pesticide applicators in the agricultural health study.

Neurodevelopmental retardation, as assessed clinically and with magnetoencephalography and electroencephalography, associated with perinatal dioxin exposure.

Role of the autonomic nervous system and baroreflex in stress-evoked cardiovascular responses in rats.

Disruption of paired-associate learning in rat offspring perinatally exposed to dioxins.

Elevated blood pressure in offspring of rats exposed to diverse chemicals during pregnancy.

Synthesis and evaluation of novel 2,3-dihydrobenzo[b][1,4]dioxin- and indolealkylamine derivatives as potential antidepressants.

Ammonium increases Ca(2+) signalling and up-regulates expression of TRPC1 gene in astrocytes in primary cultures and in the in vivo brain.

^{11}C -ORM-13070, a novel PET ligand for brain α_1 -adrenoceptors: radiometabolism, plasma pharmacokinetics, whole-body distribution and radiation dosimetry in healthy men.

A PET Tracer for Brain α_2 Adrenoceptors, ^{11}C -ORM-13070: Radiosynthesis and Preclinical Evaluation in Rats and Knockout Mice.

No requirement of TRPV1 in long-term potentiation or long-term depression in the anterior cingulate cortex.

The environmental neurotoxicant PCB 95 promotes synaptogenesis via ryanodine receptor-dependent miR132 upregulation.

Antioxidative effect of rice bran oil and medium chain fatty acid rich rice bran oil in arsenite induced oxidative stress in rats.

Pesticide exposure and depression among agricultural workers in France.

Short-term atrazine exposure causes behavioral deficits and disrupts monoaminergic systems in male C57BL/6 mice.

Effects of chemical and handling exposure on fatty acids, oxidative stress and morphological welfare indicators in gilt-head sea bream (*Sparus aurata*).

Depressive symptoms and severity of acute occupational pesticide poisoning among male farmers.

Opposite motor responses elicited by ethanol in the posterior VTA: the role of acetaldehyde and the non-metabolized fraction of ethanol.

The relationships between pesticide metabolites and neurobehavioral test performance in the third National Health and Nutrition Examination Survey.

Role of the Toll Like receptor (TLR) radical cycle in chronic inflammation: possible treatments targeting the TLR4 pathway.

Multiple micronutrient supplementation reduces anemia and anxiety in rural China's elementary school children.

Deletion or activation of the aryl hydrocarbon receptor alters adult hippocampal neurogenesis and contextual fear memory.

Teratogenic effects of 4-nonylphenol on early embryonic and larval development of the catfish *Heteropneustes fossilis*.

Urinary p-cresol in autism spectrum disorder.

[Reduction in alcohol consumption: therapeutic goal in alcohol dependence treatment].

Association between uremic toxins and depression in patients with chronic kidney disease undergoing maintenance hemodialysis.

p-Cresol sulfate and indoxyl sulfate induce similar cellular inflammatory gene expressions in cultured proximal renal tubular cells.

Glyphosate, pathways to modern diseases II: Celiac sprue and gluten intolerance.

Effects of oral anorexiant sibutramine on the expression of cytochromes P450s in human hepatocytes and cancer cell lines.

Rodent models of Parkinson's disease: beyond the motor symptomatology.

Military risk factors for cognitive decline, dementia and Alzheimer's disease.

Histopathological changes in the liver of rabbits exposed to high nitrate ingestion in drinking water.

MRI brain in monohalomethane toxic encephalopathy: A case report.

Histopathological changes induced by paraquat on some tissues of gourami fish (*Trichogaster trichopterus*).

Hepatic protein expression networks associated with masculinization in the female fathead minnow (*Pimephales promelas*).

Sensory irritation response in rats II: recovery and dose-dependence.

[Effects of ulinastatin on myocardial injury induced by acute paraquat poisoning].

Atrazine does not induce pica behavior at doses that increase hypothalamic-pituitary-adrenal axis activation and cause conditioned taste avoidance.

Intrastriatal pre-treatment with L-NAME protects rats from diquat neurotoxicity.

Attenuation of mouse somatic and emotional inflammatory pain by hydralazine through scavenging acrolein and inhibiting neuronal activation.

Increased protein-conjugated acrolein and amyloid- β 40/42 ratio in plasma of patients with mild cognitive impairment and Alzheimer's disease.

Increased expression of SVCT2 in a new mouse model raises ascorbic acid in tissues and protects against paraquat-induced oxidative damage in lung.

Bath salt intoxication causing acute kidney injury requiring hemodialysis.

[Chronic central nervous system effects of pesticides: state-of-the-art].

Formulation of oryzalin (ORZ) liposomes: in vitro studies and in vivo fate.

Mental health in Alberta grain farmers using pesticides over many years.

Effect of iron supplementation on fatigue in nonanemic menstruating women with low ferritin: a randomized controlled trial.

Fetal exposure to propoxur and abnormal child neurodevelopment at 2 years of age.

Inorganic arsenic and basal cell carcinoma in areas of Hungary, Romania, and Slovakia: a case-control study.

Sustained NMDA receptor activation by spreading depolarizations can initiate excitotoxic injury in metabolically compromised neurons.

Neuropsychiatric manifestations of methyl iodide.

Paraquat induces behavioral changes and cortical and striatal mitochondrial dysfunction.

The effects of paraquat on regional brain neurotransmitter activity, hippocampal BDNF and behavioural function in female mice.

In situ aquatic bioassessment of pesticides applied on rice fields using a microalga and daphnids.

Protective effects of atypical antipsychotic drugs against MPP(+)-induced oxidative stress in PC12 cells.

Intermittent iron supplementation for reducing anaemia and its associated impairments in menstruating women.

Surprises perilous: toxic health hazards for employees unloading fumigated shipping containers.

Exposure to iodomethane and dichloromethane associated with a confusional state.

Metabolic stress modulates motor patterning via AMP-activated protein kinase.

NTP toxicity studies of toxicity studies of 2,4-decadienal (CAS No. 25152-84-5) administered by gavage to F344/N Rats and B6C3F1 mice.

Effect of glyphosate on the microbial activity of two Romanian soils.

Weed control in conventional and transgenic maize with resistance to glyphosate.

Increased levels of 4-hydroxynonenal and acrolein in the brain in preclinical Alzheimer disease.

Transgenerational memory effect of ageing in *Drosophila*.

Effect of dietary tea polyphenols on growth performance and cell-mediated immune response of post-weaning piglets under oxidative stress.

Environmental and familial risk factors of Parkinsons disease: case-control study.

Early onset of neurological symptoms in fragile X premutation carriers exposed to neurotoxins.

Developmental exposure to polychlorinated biphenyls 52, 138 or 180 affects differentially learning or motor coordination in adult rats. Mechanisms involved.

Withdrawal symptoms after gabapentin discontinuation.

Complex gene-chemical interactions: hepatic uroporphyrin as a paradigm.

5-FU for genital warts in non-immunocompromised individuals.

Out-of-hospital cardiac arrest caused by acute intoxication.

[Neurodevelopmental disorders in response to hormonally active environmental pollutants].

Attenuation of rotenone-induced mitochondrial oxidative damage and neurotoxicity in *Drosophila melanogaster* supplemented with creatine.

A study of neurologic symptoms on exposure to organophosphate pesticides in the children of agricultural workers.

Aldehyde dehydrogenase 2 knockout accentuates ethanol-induced cardiac depression: role of protein phosphatases.

Sensory detection and responses to toxic gases: mechanisms, health effects, and countermeasures.

Maternal exposure to dioxin reduces hypothalamic but not pituitary metabolome in fetal rats: a possible mechanism for a fetus-specific reduction in steroidogenesis.

Distribution of PCBs, their hydroxylated metabolites, and other phenolic contaminants in human serum from two European countries.

High-resolution imaging of brain 5-HT 1B receptors in the rhesus monkey using [¹¹C]P943.

[Epigenetic mechanism of depression].

Lipid oxidation and peroxidation in CNS health and disease: from molecular mechanisms to therapeutic opportunities.

Interferon-gamma deficiency modifies the motor and co-morbid behavioral pathology and neurochemical changes provoked by the pesticide paraquat.

Morbidity in former sawmill workers exposed to pentachlorophenol (PCP): a cross-sectional study in New Zealand.

Regional differences in time to pregnancy among fertile women from five Colombian regions with different use of glyphosate.

[Analysis of bialaphos and its active metabolite L-glufosinate in biological specimens by HPLC].

Effects of prolonged iron overload and low frequency electromagnetic exposure on spatial learning and memory in the young rat.

Lysozyme, a mediator of sepsis that intrinsically generates hydrogen peroxide to cause cardiovascular dysfunction.

Fetal and neonatal exposure to three typical environmental chemicals with different mechanisms of action: mixed exposure to phenol, phthalate, and dioxin cancels the effects of sole exposure on mouse midbrain dopaminergic nuclei.

Chronic health impairment due to 2,3,7,8-tetrachloro-dibenzo-p-dioxin exposure.

Prenatal exposure to organohalogenes, including brominated flame retardants, influences motor, cognitive, and behavioral performance at school age.

Metabolic effects of dark chocolate consumption on energy, gut microbiota, and stress-related metabolism in free-living subjects.

A forward genetic screen in *Drosophila* implicates insulin signaling in age-related locomotor impairment.

Analysis of PCB congeners related to cognitive functioning in adolescents.

Role of the bed nucleus of the stria terminalis in the cardiovascular responses to acute restraint stress in rats.

Acute alachlor and butachlor herbicide poisoning.

[Effect of Atrazine on the content of calcium and expression of calmodulin in splenocytes of mice].

Effect of long-term exposure to simazine on brain and muscle acetylcholinesterase activity of common carp (*Cyprinus carpio*).

Metabolic acidosis in prometryn (triazine herbicide) self-poisoning.

Developmental immunotoxicity of atrazine in rodents.

Reduction in the anxiolytic effects of ethanol by centrally formed acetaldehyde: the role of catalase inhibitors and acetaldehyde-sequestering agents.

Cyclooxygenase-2 deficiency modifies the neurochemical effects, motor impairment and co-morbid anxiety provoked by paraquat administration in mice.

New insights into uremic toxicity.

Recent progress and diverse effects in developmental immunotoxicology: overview of a symposium at the 46th Annual SOT Meeting, Charlotte, NC.

Impairment of short-term memory associated with low iron stores in a volunteer multidose plateletpheresis donor.

Blockade of the aryl hydrocarbon receptor pathway triggered by dioxin, polycyclic aromatic hydrocarbons and cigarette smoke by *Phellinus linteus*.

Chronic exposure to glufosinate-ammonium induces spatial memory impairments, hippocampal MRI modifications and glutamine synthetase activation in mice.

Influences of perinatal dioxin load to visual motion and oddball stimuli examined with an EEG and MEG analysis.

Relationship of impaired olfactory function in ESRD to malnutrition and retained uremic molecules.

Epidemiologic evidence of relationships between reproductive and child health outcomes and environmental chemical contaminants.

Neuropharmacological profile of novel and selective 5-HT₆ receptor agonists: WAY-181187 and WAY-208466.

Neurological manifestation of methyl bromide intoxication.

Effects of dimethylarsinic and dimethylarsinous acid on evoked synaptic potentials in hippocampal slices of young and adult rats.

3,4-dichloropropionaniline suppresses normal macrophage function.

Cortical spreading depression releases ATP into the extracellular space and purinergic receptor activation contributes to the induction of ischemic tolerance.

Randomized trial of early versus late enteral iron supplementation in infants with a birth weight of less than 1301 grams: neurocognitive development at 5.3 years' corrected age.

Hostility, anger, and depression predict increases in C3 over a 10-year period.

The menace of endocrine disruptors on thyroid hormone physiology and their impact on intrauterine development.

Neurological and neurophysiological examinations on workers with chronic poisoning by 2,3,7,8-TCDD: follow-up 35 years after exposure.

[Sodium azide--clinical course of the poisoning and treatment].

SLV313 (1-(2,3-dihydro-benzo[1,4]dioxin-5-yl)-4-[5-(4-fluoro-phenyl)-pyridin-3-ylmethyl]-piperazine monohydrochloride): a novel dopamine D2 receptor antagonist and 5-HT1A receptor agonist potential antipsychotic drug.

Effect of 2,4-dinitrophenol under non-oxygenated condition in pons-medulla-spinal cord preparations in newborn rats: comparison with medulla-spinal cord preparations.

NTP Technical Report on the comparative toxicity studies of allyl acetate (CAS No. 591-87-7), allyl alcohol (CAS No. 107-18-6) and acrolein (CAS No. 107-02-8) administered by gavage to F344/N rats and B6C3F1 mice.

Increased resistance to free radical damage induced by low-level sound conditioning.

Effects of self-fertilization, environmental stress and exposure to xenobiotics on fitness-related traits of the freshwater snail *Lymnaea stagnalis*.

The residual effect of imazethapyr applied in soybean to barley and winter wheat in Romania.

Follow-up of 180 alcoholic patients for up to 7 years after outpatient treatment: impact of alcohol deterrents on outcome.

[Disulfiram-induced delirium: a case report].

Covariation of psychological attributes and incident coronary heart disease in U.S. Air Force veterans of the Vietnam war.

Mental health status of municipal solid waste incinerator workers compared with local government office workers.

Clozapine bioactivation induces dose-dependent, drug-specific toxicity of human bone marrow stromal cells: a potential in vitro system for the study of agranulocytosis.

Perinatal exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin suppresses contextual fear conditioning-accompanied activation of cyclic AMP response element-binding protein in the hippocampal CA1 region of male rats.

Adverse health effects in humans exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Bothrops moojeni myotoxin-II, a Lys49-phospholipase A2 homologue: an example of function versatility of snake venom proteins.

Blockade of intracellular calcium release induces an antidepressant-like effect in the mouse forced swimming test.

Arsenic exposure in Hungary, Romania and Slovakia.

Role of the medial prefrontal cortex in cardiovascular responses to acute restraint in rats.

Psychological determinants of reactions to food risk messages.

Historical approaches to post-combat disorders.

Effect of chlorpromazine on bone sialoprotein (BSP) gene transcription.

Effect of dissolved organic matter on the toxicity of chlorotoluron to *Triticum aestivum*.

Comparative effects of the Roundup and glyphosate on mitochondrial oxidative phosphorylation.

Risk factors for acute pesticide poisoning in Sri Lanka.

Modeling and predicting stress-induced immunosuppression in mice using blood parameters.

Various bilateral olfactory deficits in male patients with schizophrenia.

[Orthorexia nervosa. A new eating behavior disorder?].

Acute methyl iodide exposure with delayed neuropsychiatric sequelae: report of a case.

Good bug, bad bug: in the case of enteric inflammatory disease does the epithelium decide?

Formulated glyphosate activates the DNA-response checkpoint of the cell cycle leading to the prevention of G2/M transition.

Kerry & Agent Orange.

Poisoning due to chlorophenoxy herbicides.

External Qi therapy to treat symptoms of Agent Orange Sequelae in Korean combat veterans of the Vietnam War.

Inhibition of cardiac myocyte contraction by 4-hydroxy-trans-2-nonenal.

Women and omega-3 Fatty acids.

Expression of hypothalamic neuropeptides after acute TCDD treatment and distribution of Ah receptor repressor.

Fatal poisoning in Jamaica: a coroner's autopsy study from the University Hospital of the West Indies.

Effects of perinatal exposure to PCBs on neuropsychological functions in the Rotterdam cohort at 9 years of age.

Effect of epidermal growth factor on pulmonary hypoplasia in experimental diaphragmatic hernia.

Characteristics of 3,5,3'-triiodothyronine (T3)-uptake system of tadpole red blood cells: effect of endocrine-disrupting chemicals on cellular T3 response.

The herbicide dicamba (2-methoxy-3,6-dichlorobenzoic acid) interacts with mitochondrial bioenergetic functions.

Health effects on nearby residents of a wood treatment plant.

Serum dioxin and psychological functioning in U.S. Air Force veterans of the Vietnam War.

Pentachlorophenol poisoning.

Comparison of cyanamide and placebo in the treatment of alcohol dependence of adolescents.

Risk factors for course of posttraumatic stress disorder among Vietnam veterans: a 14-year follow-up of American Legionnaires.

Opposing effects of low and high-dose clozapine on survival of transgenic amyotrophic lateral sclerosis mice.

Effects of perinatal exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin on spatial and visual reversal learning in rats.

Iron supplementation for unexplained fatigue in non-anaemic women: double blind randomised placebo controlled trial.

Higher susceptibility of newborn than young rats to 3-methylphenol.

Health impacts of pesticide exposure in a cohort of outdoor workers.

Effect of occupational exposures on male fertility: literature review.

A neuropsychotoxicological assessment of workers in a sodium azide production plant.

Toxicokinetics of DL-glufosinate enantiomer in human BASTA poisoning.

Expression of aryl hydrocarbon receptor and aryl hydrocarbon receptor nuclear translocator messenger ribonucleic acids and proteins in rat and human testis.

NTP toxicology and carcinogenesis Studies of 2,4-hexadienal (89% trans,trans isomer, CAS No. 142-83-6; 11% cis,trans isomer) (Gavage Studies).

Lethal and sublethal effects of atrazine, carbaryl, endosulfan, and octylphenol on the streamside salamander (*Ambystoma barbouri*).

[Effects of pesticides on cytokines production by human peripheral blood mononuclear cells--fenitrothion and glyphosate].

Severe propanil [N-(3,4-dichlorophenyl) propanamide] pesticide self-poisoning.

Comparative toxicity study of 3-aminophenol in newborn and young rats.

Lipid metabolism and neuropsychological follow-up study of workers exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

[Dinitrophenol--a dangerous doping agent].

Overexpression of alcohol dehydrogenase exacerbates ethanol-induced contractile defect in cardiac myocytes.

An autopsy case of poisoning by massive absorption of cresol a short time before death.

Suspected cresol poisoning in cattle presented for slaughter.

Mechanism of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD)-induced decrease in anti-CD3-activated CD4(+) T cells: the roles of apoptosis, Fas, and TNF.

[Relationship between emotional stress in female residents of the city of Chapaevsk and toxicological and genetic values].

Constitutive and TCDD-induced expression of Ah receptor-responsive genes in the pituitary.

Cyclosporin A-sensitive permeability transition pore is involved in Cd(2+)-induced dysfunction of isolated rat liver mitochondria: doubts no more.

Urocortin, but not urocortin II, protects cultured hippocampal neurons from oxidative and excitotoxic cell death via corticotropin-releasing hormone receptor type I.

A comparison of 60, 70, and 90 kDa stress protein expression in normal rat NRK-52 and human HK-2 kidney cell lines following in vitro exposure to arsenite and cadmium alone or in combination.

Attempted suicide by drug overdose and by poison-ingestion methods seen at the main general hospital in the Fiji islands: a comparative study.

Intracerebral administration of 2,4-dichlorophenoxyacetic acid induces behavioral and neurochemical alterations in the rat brain.

Serum dioxin and cognitive functioning among veterans of Operation Ranch Hand.

Dinitroaniline herbicides against protozoan parasites: the case of *Trypanosoma cruzi*.

Influence of caffeine on allyl alcohol-induced hepatotoxicity in rats. I. In vivo study.

Metabolism of the herbicide glufosinate-ammonium in plant cell cultures of transgenic (rhizomania-resistant) and non-transgenic sugarbeet (*Beta vulgaris*), carrot (*Daucus carota*), purple foxglove (*Digitalis purpurea*) and thorn apple (*Datura stramonium*).

Biochemical, neuropsychological, and neurological abnormalities following 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) exposure.

Risk factors of Parkinson's disease in Indian patients.

Social functioning, psychological functioning, and quality of life in epilepsy.

Prenatal testosterone and luteinizing hormone levels in male rats exposed during pregnancy to 2,3,7,8-tetrachlorodibenzo-p-dioxin and diethylstilbestrol.

Chronic toxicity of dietary 2,3,7,8-tetrachlorodibenzo-p-dioxin to mink.

Human emotional stress, dioxin blood content and genetic damage in Chapaevsk town.

Skin surface electric potential induced by ion-flux through epidermal cell layers.

Hemopoietic cell kinetics after intraperitoneal single injection of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in mice.

Correlating the severity of paraquat poisoning with specific hemodynamic and oxygen metabolism variables.

No significant paraquat-induced oxidative DNA damage in rats.

Mechanisms of toxicity, clinical features, and management of acute chlorophenoxy herbicide poisoning: a review.

Results of dental amalgam removal and mercury detoxification using DMPS and neural therapy.

Subjective symptoms due to solvent mixtures, dioxin, and toluene: impact of exposure versus personality factors.

Immunological and in-vivo neurological studies on a benzoic acid-specific T cell-derived antigen-binding molecule from the serum of a toluene-sensitive patient.

Metabolic control of sodium transport in streptozotocin-induced diabetic rat hearts.

Increase of specific symptoms after long-term use of chlorophenol polluted drinking water in a community.

Regional differences in hypoxic depolarization and swelling in hippocampal slices.

Mass psychogenic illness attributed to toxic exposure at a high school.

Effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin on the expression of cytochrome P450 1A1, the aryl hydrocarbon receptor, and the aryl hydrocarbon receptor nuclear translocator in rat brain and pituitary.

Maternal exposure to atrazine during lactation suppresses suckling-induced prolactin release and results in prostatitis in the adult offspring.

Porphyria and chemicals.

High rates of paraquat-induced suicide in southern Trinidad.

Flow cytometric analysis of the toxicity of nitrofen in cultured keratinocytes.

Long-term exposure to wood-preserving chemicals containing pentachlorophenol and lindane is related to neurobehavioral performance in women.

Vaginally applied diquat intoxication.

Environmental, medical, and family history risk factors for Parkinson's disease: a New England-based case control study.

Fatal privet (*Ligustrum amurese*) toxicosis in Tennessee cows.

Maternal occupational exposure to chemical substances and the risk of infants small-for-gestational-age.

TCDD-induced anorexia and wasting syndrome in rats: effects of diet-induced obesity and nutrition.

Dioxin-induced perturbations in tryptophan homeostasis in laboratory animals.

Cortical NADH during pharmacological manipulations of the respiratory chain and spreading depression in vivo.

[Effect of protoporphyrin on digestive tract absorption of dioxins in rats].

Health effects of occupational pentachlorophenol exposure in timber sawmill employees: a preliminary study.

Effects of edifenphos and glyphosate on the immune response and protein biosynthesis of bolti fish (*Tilapia nilotica*).

Synthesis and evaluation of dinitroanilines for treatment of cryptosporidiosis.

Health effects associated with sulfuryl fluoride and methyl bromide exposure among structural fumigation workers.

Respiratory and cardiovascular effects of the mu-opioid receptor agonist [Lys7]dermorphin in awake rats.

The Seveso studies on early and long-term effects of dioxin exposure: a review.

The epidemiology of Parkinson's disease in an Australian population.

Effects of varied fatigue protocols on sarcoplasmic reticulum calcium uptake and release rates.

Interleukin 1 beta and tumour necrosis factor alpha inhibit acid secretion in cultured rabbit parietal cells by multiple pathways.

[Epidemiology of suicide attempts in Reunion Island].

Drug eruption induced by cyanamide (carbimide): a clinical and histopathologic study of 7 patients.

[Behavior therapy of patients with alcoholism].

Effect of 2,4-dinitrophenol on the hypometabolic response to hypoxia of conscious adult rats.

Induction of human endothelial cell apoptosis requires both heat shock and oxidative stress responses.

[Assessment of neurotoxic effects of methyl bromide in exposed workers].

Mechanism of thiazopyr-induced effects on thyroid hormone homeostasis in male Sprague-Dawley rats.

Dialkylquinoneimine metabolites of chloroacetanilide herbicides induce sister chromatid exchanges in cultured human lymphocytes.

Actions of 4-chloro-3-ethyl phenol on internal Ca²⁺ stores in vascular smooth muscle and endothelial cells.

Functional recovery of retina after sodium iodate injection in mice.

Synaptic physiology and mitochondrial function in crayfish tonic and phasic motor neurons.

Review and update of the results of the NIOSH medical study of workers exposed to chemicals contaminated with 2,3,7,8-tetrachlorodibenzodioxin.

Suspected herbicide toxicosis in a dog.

Acute non-occupational intoxications with pesticides in Romania: a comparative study from 1988 to 1993.

[The use of the amitriptyline analog amizol in depressions].

Effect of dietary paraquat on a rat mutant unable to synthesize ascorbic acid.

Increased activity and sensitivity of mitochondrial respiratory enzymes to tumor necrosis factor alpha-mediated inhibition is associated with increased cytotoxicity in drug-resistant leukemic cell lines.

Depression of liver microsomal glucose 6-phosphatase activity in carbon tetrachloride-poisoned rats. Potential synergistic effects of lipid peroxidation and of covalent binding of haloalkane-derived free radicals to cellular components in the process.

Methyl iodide poisoning: report of two cases.

Chemical sensitivities and the Gulf War: Department of Veterans Affairs Research Center in basic and clinical science studies of environmental hazards.

Disturbed host defense in peritoneal cavity during CAPD: characterization of responsible factors in dwell fluid.

Recombinant human erythropoietin: effect on the functional performance of anemic orthopedic patients.

Effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin, 12-O-tetradecanoylphorbol-13-acetate and 17 beta-estradiol on estrogen receptor regulation in MCF-7 human breast cancer cells.

Homology modeling of the structure of bacterial acetohydroxy acid synthase and examination of the active site by site-directed mutagenesis.

Illumination of therapeutics by toxicology: a personal view.

NES test performance in a large US Army veteran sample: relationships with both demographic factors and traditional neuropsychological measures.

The nature of uncoupling by n-hexane, 1-hexanethiol and 1-hexanol in rat liver mitochondria.

Tyrosine kinase is required for long-term depression in the cerebellum.

Glycosylphosphatidylinositol toxin of Plasmodium up-regulates intercellular adhesion molecule-1, vascular cell adhesion molecule-1, and E-selectin expression in vascular endothelial cells and increases leukocyte and parasite cytoadherence via tyrosine kinase-dependent signal transduction.

Developmental toxicity of dinitroaniline herbicides in rats and rabbits. I. Trifluralin.

Mitochondrial bioenergetics is affected by the herbicide paraquat.

Fate and effects of acrolein.

Acute-phase reactant proteins and antioxidants in rats intoxicated chronically with paraquat.

Diquat increases cysteine proteinase inhibitors greatly in rat plasma and tissues.

Nerve growth factor prevents apoptosis of rat peritoneal mast cells through the trk proto-oncogene receptor.

2,3,7,8-Tetrachlorodibenzo-p-dioxin-induced anorexia and wasting syndrome in rats: aggravation after ventromedial hypothalamic lesion.

Dietary exposure of mink to carp from Saginaw Bay, Michigan: 2. Hematology and liver pathology.

Modulation of TCDD-induced wasting syndrome by portocaval anastomosis and vagotomy in Long-Evans and Han/Wistar rats.

Mechanisms of uremic inhibition of phagocyte reactive species production: characterization of the role of p-cresol.

Toxicological and neuropsychological findings in patients presenting to an environmental toxicology service.

[The kinetics of rhodamine 123 efflux from cells with multiple drug resistance under the action of energy metabolism inhibitors].

Cardiovascular responses to cigarette smoke exposure in restrained conscious rats.

Inhibition of cardiac sarcolemma Na(+)-K+ ATPase by oxyradical generating systems.

Biochemical effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) and related compounds on the central nervous system.

Effects of scopolamine and its quaternary analogue in the murine elevated plus-maze test of anxiety.

Acute 2,4-dichlorophenoxyacetic acid intoxication in cattle.

Neurologic health outcomes and Agent Orange: Institute of Medicine report.

The effects of mustard gas, ionizing radiation, herbicides, trauma, and oil smoke on US military personnel: the results of veteran studies.

Effect of paraquat on the malondialdehyde level in rat liver microsomes (in vitro).

Aftermath of a chemical spill: psychological and physiological sequelae.

Treatment of methyl bromide poisoning with haemodialysis.

Psychological, psychosocial, and psychophysiological sequelae in a community affected by a railroad chemical disaster.

Survey of health and use characterization of pesticide applicators in Minnesota.

Psychological characteristics and subjective intolerance for xenobiotic agents of normal young adults with trait shyness and defensiveness. A parkinsonian-like personality type?

Characterization of 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced brain serotonin metabolism in the rat.

[Effect of iron deficiency on attention capacity among school children].

Neuropsychological sequelae of methyl bromide: a case study.

Altered impulse activity modifies synaptic physiology and mitochondria in crayfish phasic motor neurons.

Astrocytic glycogenolysis energizes memory processes in neonate chicks.

Lack of direct immunosuppressive effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on human peripheral blood lymphocyte subsets in vitro.

Effect of a mixture of 15 commonly used pesticides on DNA levels of 8-hydroxy-2-deoxyguanosine and xenobiotic metabolizing enzymes in rat liver.

Risk factors for Parkinson's disease.

Herbicides to curb human parasitic infections: in vitro and in vivo effects of trifluralin on the trypanosomatid protozoans.

Fetotoxic and teratogenic potential of substituted phenylurea herbicide, isoproturon, in rats.

Synergic lung changes in rats receiving combined exposure to paraquat and ionizing radiation.

High-dose chemotherapy-induced platelet defect: inhibition of platelet signal transduction pathways.

Ethanol-induced inhibition of ventricular protein synthesis in vivo and the possible role of acetaldehyde.

Identification and characterization of an acidic major surface glycoprotein from procyclic stage *Trypanosoma congolense*.

Isomer-specific analysis and toxic evaluation of polychlorinated biphenyls in striped dolphins affected by an epizootic in the western Mediterranean sea.

Iron for chronic and persistent akathisia?

[Effects of disinfectants on erythrocytes and isolated hepatocytes from rats and surface tension].

Metabolic inhibition enhances Ca²⁺-activated K⁺ current in smooth muscle cells of rabbit portal vein.

2,3,7,8-tetrachlorodibenzo-p-dioxin increases cardiac myocyte intracellular calcium and progressively impairs ventricular contractile responses to isoproterenol and to calcium in chick embryo hearts.

Effects of oral administration of brassica secondary metabolites, allyl cyanide, allyl isothiocyanate and dimethyl disulphide, on the voluntary food intake and metabolism of sheep.

Modulatory effect of hyperthermia on hepatic microsomal cytochrome P450 in mice.

Free radical induction in the brain and liver by products of toluene catabolism.

Effects of transgalactosylated disaccharides on the human intestinal microflora and their metabolism.

[Toxicology of tobacco].

Neuropsychological effects of chronic exposure to environmental dioxins and furans.

Anger and anxiety responses to m-chlorophenylpiperazine in generalized anxiety disorder.

Two-year toxicity and carcinogenicity study of acrolein in rats.

Self-reported health status of Vietnam veterans in relation to perceived exposure to herbicides and combat.

Ethanol-induced motor activity in normal and acatalasemic mice.

Health effects of military service. Lessons learned from the Vietnam experience.

Acute neurobehavioural effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in Han/Wistar rats.

Protein-linked isoprenoid lipids in dexamethasone-treated human lymphoid lines in culture.

Methylbromide intoxication: a case report.

Health status and needs of migrant farm workers in the United States: a literature review.

Quantitative light microscopic demonstration of increased pallidal and striatal met5-enkephalin-like immunoreactivity in rats following chronic treatment with haloperidol but not with clozapine: implications for the pathogenesis of neuroleptic-induced movement disorders.

[A stereoscopic analysis of centrosome structure in the cells of a tissue culture under the action of energy metabolism inhibitors. I. 2,4-Dinitrophenol, deoxyglucose, sodium azide and the calcium ionophore A23187].

Posttraumatic stress disorder among Vietnam veterans on the Agent Orange Registry. A case-control analysis.

Suicide by poisoning.

A fatal case of parenteral paraquat poisoning.

Inhibition of platelet aggregation and thromboxane A2 production by chlorophenoxy acid herbicides.

1,8-Naphthalic anhydride antidote enhances the toxic effects of captan and thiram fungicides on *Azospirillum brasilense* cells.

Release of intact endothelium-derived relaxing factor depends on endothelial superoxide dismutase activity.

Depletion of brain serotonin does not alter 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD)-induced starvation syndrome in the rat.

Myocardial calcium cycling defect in furazolidone cardiomyopathy.

Inhibition of mitochondrial respiratory function by an organic solvent extractable component from an extract of burn eschar.

Do new hypotheses on the mechanism of action of dioxins help in risk evaluation?

Dioxin contamination and growth and development in great blue heron embryos.

Transfusion of type-A and type-B blood to cats.

Cytosolic free Ca^{2+} in daunorubicin and vincristine resistant Ehrlich ascites tumor cells. Drug accumulation is independent of intracellular Ca^{2+} changes.

[The efficiency of the action of alpha-tocopherol and its homologs on luminol-dependent chemiluminescence induced by ($Fe^{2+} + NADP.H$) and ($Fe^{2+} + ascorbate$) systems in rat liver microsomes].

NTP Toxicology and Carcinogenesis Studies of Sodium Azide (CAS: 26628-22-8) in F344 Rats (Gavage Studies).

Human chorionic gonadotropin treatment prevents depressed 17 alpha-hydroxylase/C17-20 lyase activities and serum testosterone concentrations in 2,3,7,8-tetrachlorodibenzo-p-dioxin-treated rats.

[Acute toxicity, inductive effects of liver enzymes and distribution in the liver of 1,2,3,7,8-pentachlorodibenzo-p-dioxin in rats].

Effect of a single dose of TCDD on the level of histamine in discrete nuclei in rat brain.

Association between exposure to a stenching agent in a herbicide packing plant and the occurrence of headache and lethargy.

Sublethal and acute toxicity of the ethylene glycol butyl ether ester formulation of triclopyr to juvenile coho salmon (*Oncorhynchus kisutch*).

Clinical presentation and management of acute 2,4-D oral ingestion.

Long-term carcinogenicity bioassay of the herbicide atrazine in F344 rats.

[Disulfiram and calcium carbimide. Mode of action, adverse effects and clinical use].

Therapeutic effects of fengabine, a new GABAergic agent, in depressed outpatients: a double-blind study versus clomipramine.

Human body burden of polychlorinated dibenzofurans associated with toxicity based on the yusho and yucheng incidents.

Lead exposure lowers the set point for food consumption and growth in weanling rats.

Gastric delivery system for iron supplementation.

Appropriateness of DSM-III-R criteria for posttraumatic stress disorder.

Two-year oral chronic toxicity and carcinogenicity study in rats of diets fumigated with methyl bromide.

Methyl bromide intoxication in four field-workers during removal of soil fumigation sheets.

Reduction of phosphate-induced dysfunction in rat heart mitochondria by carnitine.

2,3,7,8-Tetrachlorodibenzo-p-dioxin inhibition of 17 beta-estradiol-induced increases in rat uterine epidermal growth factor receptor binding activity and gene expression.

Transient inotropic effects of low extracellular sodium in perfused rat heart.

The role of cGMP in the extinction of the reactions of identified neurons of the edible snail in response to acetylcholine.

Chemically induced hepatic cytosol from the Sprague-Dawley rat: evidence for specific binding of 2,3,7,8-tetrachlorodibenzo-p-dioxin to components kinetically distinct from the Ah receptor.

Effect of polymorphonuclear leukocyte-derived oxygen free radicals and hypochlorous acid on cardiac function and some biochemical parameters.

Effect of PO₂ and metabolic inhibitors on ionic fluxes across the isolated rabbit corneal endothelium.

Metabolism and pulmonary toxicity of cyclophosphamide.

Evidence in vivo for elevation of intracellular free Ca²⁺ in the liver after diquat, acetaminophen, and CCl₄.

Carcinogenicity and teratogenicity vs. psychogenicity: psychological characteristics associated with self-reported Agent Orange exposure among Vietnam combat veterans who seek treatment for substance abuse.

Effects of preconceptional and gestational exposure to Tordon 202c on fetal growth and development in CD-1 mice.

Effect of cyanamide on transaminases and other serum proteins in the rat.

Calcium carbimide in alcoholism treatment. Part 1: A placebo-controlled, double-blind clinical trial of short-term efficacy.

Effects of 3-amino-1,2,4-triazole on ethanol-induced open-field activity: evidence for brain catalase mediation of ethanol's effects.

2,3,7,8-Tetrachlorodibenzo-p-dioxin-induced porphyria in genetically inbred mice: partial antagonism and mechanistic studies.

Psychosocial determinants of compliance in adolescents with iron deficiency.

Development and validation of a cellular transplant model for leukemia in Fischer rats: a short-term assay for potential anti-leukemic chemicals.

Fengabine, a new GABA-mimetic agent in the treatment of depressive disorders: an overview of six double-blind studies versus tricyclics.

Reduction of calcium channel antagonist binding sites by oxygen free radicals in rat heart.

Effect of retraining trials on memory consolidation in weakly reinforced learning.

[The role of cGMP in extinguishing the reactions of identified neurons in the edible snail to acetylcholine].

[Enhanced inhibition of splenic lymphocyte proliferation by 2,3,7,8-tetrachlorodibenzo-p-dioxin in C57B1/10 (Ah+Ah+) mice compared to DBA/2 (AhAh) mice].

[Centrosome behavior in the exposure of tissue culture cells to energy metabolism inhibitors].

Health and reproductive outcomes among American Legionnaires in relation to combat and herbicide exposure in Vietnam.

Reproductive behaviour and consistent patterns of abnormality in offspring of Vietnam veterans.

Agent Orange exposure and posttraumatic stress disorder.

2,4-D-n-butyl ester (2,4-D ester) induced ataxia in rats: role for n-butanol formation.

Neurobehavioral toxicity of 2,4-D-n-butyl ester (2,4-D ester): tolerance and lack of cross-tolerance.

Toxicity of 2-hydrazinoethanol in turkey poults.

Social and behavioral consequences of the Vietnam experience among American Legionnaires.

Screening of pharmacological agents given peripherally with respect to TCDD-induced wasting syndrome in Long-Evans rats.

Clinical toxicology--past, present and future.

Reduction of adipose tissue lipoprotein lipase activity as a result of in vivo administration of 2,3,7,8-tetrachlorodibenzo-p-dioxin to the guinea pig.

Observations on the intracellular accumulation of methotrexate and 5-methyltetrahydrofolate in uninduced, dimethylsulphoxide-induced and 1,25-dihydroxyvitamin D₃-induced HL60 cells, and blood-monocyte-derived human macrophages.

Ifosfamide and mesna: marginally active in patients with advanced carcinoma of the pancreas.

Renal handling of amino acid ^{99m}technetium chelates.

Depression in gene expression for poly(ADP-ribose) synthetase during the interferon-gamma-induced activation process of murine macrophage tumor cells.

Determination of growth rate depression of some green algae by atrazine.

Formulation and food deprivation affects 2,4-D neurobehavioral toxicity in rats.

Eighty-five day postexposure follow-up study in Fischer 344 rats after repeated exposures to methyl isocyanate vapor.

Neuromuscular effects of acute 2,4-dichlorophenoxyacetic acid (2,4-D) exposure in dogs.

Alterations in brain aldehyde dehydrogenase activity modify ethanol-induced conditioned taste aversion.

Ethanol metabolism in alcohol dehydrogenase deficient deermice is mediated by the microsomal ethanol oxidizing system, not by catalase.

Phorbol ester-induced inhibition of cyclic GMP formation mediated by muscarinic receptors in murine neuroblastoma cells.

Cell cycle-specific effects of sodium arsenite and hyperthermic exposure on incorporation of radioactive leucine and phosphate by stress proteins from mouse lymphoma cell nuclei.

Suicidal sodium azide ingestion.

[Emotional behavior disorders in rats during the formation of a generator of pathologically enhanced excitation in the basomedial nuclei of the amygdaloid complex].

Chemically-induced formation of an inhibitor of hepatic uroporphyrinogen decarboxylase in inbred mice with iron overload.

[Effects of phenol and related compounds on erythrocytes and hepatocytes from rats and dipalmitoyl phosphatidylcholine-liposomes].

Depression of rat testicular 17-hydroxylase and 17,20-lyase after administration of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Na⁺-linked active transport of ascorbate into cultured bovine retinal pigment epithelial cells: heterologous inhibition by glucose.

Relationship of basic research in toxicology to environmental standard setting: the case of polybrominated biphenyls in Michigan.

Changing motivation in severely suicidal patients.

Health needs of the Vietnam veteran exposed to agent orange.

Acute, 14-day repeated dosing, and 90-day subchronic toxicity studies of potassium picloram.

The Agent Orange controversy after the Evatt Royal Commission.

The effect of topically applied n-butylester of 2,4-dichlorophenoxyacetic acid on the immune response in mice.

Methyl isocyanate subchronic vapor inhalation studies with Fischer 344 rats.

Effects of prenatal nitrofen exposure on cardiac structure and function in the rat.

--

Co-exposure to environmental microplastic and the pesticide 2,4-dichlorophenoxyacetic acid (2,4-D) induce distinctive alterations in the metabolome and microbial community structure in the gut of the earthworm Eisenia andrei.

Impact of exposure to glyphosate-based herbicide on morphological and physiological parameters in embryonic and larval development of zebrafish.

Transcriptomic and behavioral analyses reveal unique target tissues and molecular pathways associated with embryonic exposure to low level glyphosate and metal mixtures in zebrafish.

Atrazine exposure caused oxidative stress in male rats and inhibited brain-pituitary-testicular functions.

A mixture of glyphosate and 2,4-D herbicides enhances the deleterious reproductive outcomes induced by Western diet in obese male mice.

Exposure to pesticides during pregnancy and the risk of neural tube defects: A systematic review.

Association Between Urinary Glyphosate Exposure and Cognitive Impairment in Older Adults from NHANES 2013-2014.

Perioperative exposure to volatile organic compounds in neonates undergoing cardiac surgery.

Associations of maternal exposure to 2,4-dichlorophenoxyacetic acid during early pregnancy with steroid hormones among one-month-old infants.

Diuron-induced fetal Leydig cell dysfunction in in vitro organ cultured fetal testes.

Proteomic insight towards key modulating proteins regulated by the aryl hydrocarbon receptor involved in ovarian carcinogenesis and chemoresistance.

Congenital diaphragmatic hernia: phosphodiesterase-5 and Arginase inhibitors prevent pulmonary vascular hypoplasia in rat lungs.

The association between polychlorinated dibenzo-p-dioxin exposure and cancer mortality in the general population: a cohort study.

Agricultural exposure and risk of ovarian cancer in the AGRiculture and CANcer (AGRICAN) cohort.

Effect of Cenobamate on Cognition in Patients with Drug-Resistant Epilepsy with Focal Onset Seizures: An Exploratory Study.

Dose addition in mixtures of compounds with dissimilar endocrine modes of action in in vitro receptor activation assays and the zebrafish sexual development test.

Risk factors for childhood brain tumours: A systematic review and meta-analysis of observational studies from 1976 to 2022.

m-Cresol, a pesticide intermediate, induces hepatotoxicity and behavioral abnormalities in zebrafish larvae through oxidative stress, apoptosis.

Differential Formation of Stress Granules in Radiosensitive and Radioresistant Head and Neck Squamous Cell Carcinoma Cells.

Dysregulation of CITED2 in abnormal lung development in the nitrofen rat model.

Prenatal treprostinil improves pulmonary arteriolar hypermuscularization in the rabbit model of congenital diaphragmatic hernia.

Toxic effects of organophosphate pesticide monocrotophos in aquatic organisms: A review of challenges, regulations and future perspectives.

Impact of a glyphosate-based herbicide on the longevity, fertility, and transgenerational effects on *Chrysopa pallens* (Rambur) (Neuroptera: Chrysopidae).

The urinary metabolites of volatile organic compounds and asthma in young children: NHANES 2011-2018.

Occupational farm work activities influence workers' indoor home microbiome.

Metabolites and MRI-Derived Markers of AD/ABR Risk in a Puerto Rican Cohort.

Pesticide use and inflammatory bowel disease in licensed pesticide applicators and spouses in the Agricultural Health Study.

Decrease in Sperm Parameters in the 21st Century: Obesity, Lifestyle, or Environmental Factors? An Updated Narrative Review.

Embryonic Exposure to the Benzotriazole Ultraviolet Stabilizer 2-(2H-benzotriazol-2-yl)-4-methylphenol Decreases Fertility of Adult Zebrafish (*Danio rerio*).

Positive Association of Urinary Dimethylarsinic Acid (DMA(V)) with Serum 25(OH)D in Adults Living in an Area of Water-Borne Arsenicosis in Shanxi, China.

Somatic embryogenesis from mature sorghum seeds: An underutilized genome editing recipient system.

Degradation kinetics of veterinary antibiotics and estrogenic hormones in a claypan soil.

Influence of nutrient, toxic metal and herbicide contents on the soil bacterial communities in tropical vegetable growing areas.

Association between combined exposure to dioxins and arthritis among US adults: a cross-sectional study.

Health effects of herbicides and its current removal strategies.

Glyphosate decreases survival, increases fecundity, and alters the microbiome of the natural predator *Harmonia axyridis* (ladybird beetle).

Involvement of glyphosate in disruption of biotransformation P450 enzymes and hepatic lipid metabolism in chicken.

Effect of perinatal exposure to glyphosate and its mixture with 2,4-D and dicamba on rat dam kidney and thyroid function and offspring's health.

Maternal impacts of pre-conceptional glyphosate exposure.

Integrating morphological, biochemical, behavioural, and molecular approaches to investigate developmental toxicity triggered by tebuthiuron in zebrafish (*Danio rerio*).

Exposure to pesticides and risk of Hodgkin lymphoma in an international consortium of agricultural cohorts (AGRICOH).

Hydrolysis of propyrisulfuron in water: Kinetics, influence of 34 environmental factors, transformation products identification, mechanisms and toxicities.

Effects of glyphosate-based herbicides and glyphosate exposure on sex hormones and the reproductive system: From epidemiological evidence to mechanistic insights.

High doses of clethodim-based herbicide GrassOut Max poses reproductive hazard by affecting male reproductive function and early embryogenesis in Swiss albino mice.

Plantain-based diet decreases oxidative stress and inflammatory markers in the testes of rats exposed to atrazine.

Exposure to fipronil, 2,4-D and vinasse influences macroinvertebrate assemblage structure: An experimental mesocosm approach.

Subacute exposure to Roundup® changes steroidogenesis and gene expression of the glutathione-glutaredoxin system in rat ovaries: Implications for ovarian toxicity of this glyphosate-based herbicide.

Exposure to herbicides mixtures in relation to type 2 diabetes mellitus among Chinese rural population: Results from different statistical models.

An analysis of reproductive outcomes for conceptions of participants of the Air Force Health Study.

Urinary glyphosate and AMPA levels in a cross-sectional study of postmenopausal women: Associations with organic eating behavior and dietary intake.

Maternal pre-conceptional glyphosate exposure impacts the offspring hepatic and ovarian proteome.

Herbicides widely used in the world: an investigation of toxic effects on *Caenorhabditis elegans*.

Glyphosate Interference in Follicular Organization in the Wall Lizard *Podarcis siculus*.

Sulforaphane suppresses paraquat-induced oxidative damage in bovine in vitro-matured oocytes through Nrf2 transduction pathway.

An analysis of birth defects and developmental disabilities for children of participants of the Air Force Health Study.

Combined toxicity of Cd and 2,4-dichlorophenoxyacetic acid on the earthworm *Eisenia andrei* under biochar amendment.

Noval bio-organic fertilizer containing *Arthrobacter* sp. DNS10 alleviates atrazine-induced growth inhibition on soybean by improving atrazine removal and nitrogen accumulation.

Responses of *Chironomus sancticaroli* to the simulation of environmental contamination by sugarcane management practices: Water and sediment toxicity.

Exposure to the pesticides linuron, dimethomorph and imazalil alters steroid hormone profiles and gene expression in developing rat ovaries.

DNA methylation and histone methylation involved in multi-/trans-generational reproductive effects in *Caenorhabditis elegans* induced by Atrazine.

Glyphosate-based herbicide (GBH) causes damage in embryo-larval stages of zebrafish (*Danio rerio*).

Atrazine alters early sexual development of the South American silverside, *Odontesthes bonariensis*.

Associations between urinary glyphosate and diabetes mellitus in the US general adult: a cross-sectional study from NHANES 2013-2016.

A bifunctional selectable marker for wheat transformation contributes to the characterization of male-sterile phenotype induced by a synthetic Ms2 gene.

Exposure to Volatile Organic Compounds Is Associated with Hypertension in Black Adults: The Jackson Heart Study.

Dose ingested, vomiting, and outcome in patients ingesting a standard paraquat 20SL formulation.

Ovaries of guppies (*Poecilia reticulata*) investigated in pre-embryonic, embryonic and post-embryonic stages after exposure to maghemite nanoparticles ($\gamma\text{-Fe(2)O(3)}$) associated with Roundup® and glyphosate, followed by recovery period evaluation.

Associations of arsenic exposure with liver injury in US adults: NHANES 2003-2018.

Dose-dependent inhibitory effects of glyphosate on invasive *Pomacea canaliculata* reproductive and developmental growth under oxidative deposition.

Molecular and behavioral toxicity assessment of tiafenacil, a novel PPO-inhibiting herbicide, in zebrafish embryos/larvae.

Impact of Chronic Multi-Generational Exposure to an Environmentally Relevant Atrazine Concentration on Testicular Development and Function in Mice.

Multi-site field trials demonstrate the effectiveness of silicon fertilizer on suppressing dimethylarsenate accumulation and mitigating straighthead disease in rice.

Does prenatal exposure to multiple airborne and tap-water pollutants increase neonatal thyroid-stimulating hormone concentrations? Data from the Picardy region, France.

Arsenic exposure caused male infertility indicated by testis and sperm metabolic dysfunction in SD rats.

Association of urinary arsenic, polycyclic aromatic hydrocarbons, and metals with cancers among the female population in the US.

Refrigerated multi-dose insulin vials remain sterile through 6 months of use.

Characterization of the congenital diaphragmatic hernia model in C57BL/6J fetal mice: a step toward lineage tracing experiments.

Developmental and neurobehavioral toxicity of 2,2'-methylenebis(6-tert-butyl-4-methylphenol) (antioxidant AO2246) during the early life stage of zebrafish.

Anti-inflammatory effects of antenatal administration of stem cell derived extracellular vesicles in the brain of rat fetuses with congenital diaphragmatic hernia.

Overactivated Epithelial NF- κ B Disrupts Lung Development in Congenital Diaphragmatic Hernia.

2,3,7,8-tetrachlorodibenzo-p-dioxin induces multigenerational testicular toxicity and biosynthetic disorder of testosterone in BALB/C mice: Transcriptional, histopathological and hormonal determinants.

Lung proliferation is dependent on the duration not the timepoint of tracheal occlusion in nitrofen rats with diaphragmatic hernia.

Proteomic Profiling of Hypoplastic Lungs Suggests an Underlying Inflammatory Response in the Pathogenesis of Abnormal Lung Development in Congenital Diaphragmatic Hernia.

Exposure to p-dichlorobenzene and prevalent endocrine-related reproductive cancers among US women.

Resveratrol ameliorates ortho- polychlorinated biphenyls' induced toxicity in ovary cells.

Association between polychlorinated biphenyls exposure and incident type 2 diabetes mellitus: A nested case-control study.

Single-cell transcriptomic profiling of microvascular endothelial cell heterogeneity in congenital diaphragmatic hernia.

Transcriptional, hormonal and histological alterations in the ovaries of BALB/c mice exposed to TCDD in connection with multigenerational female infertility.

Long-term reproductive effects in male rats prenatally exposed to sodium arsenite.

A Tracheal Aspirate-derived Airway Basal Cell Model Reveals a Proinflammatory Epithelial Defect in Congenital Diaphragmatic Hernia.

Fetal lung hypoxia and energetic cell failure in the nitrofen-induced congenital diaphragmatic hernia rat model.

Associations of metal mixtures with metabolic-associated fatty liver disease and non-alcoholic fatty liver disease: NHANES 2003-2018.

Combined exposure to multiple dioxins and dioxin-like polychlorinated biphenyls on hypertension among US adults in NHANES: a cross-sectional study under three statistical models.

A screening test proposal for congenital defects based on maternal serum metabolomics profile.

Neighborhood Deprivation, Indoor Chemical Concentrations, and Spatial Risk for Childhood Leukemia.

A Comprehensive Investigation on Potential Risk Factors for NSCL/P in a Rural District of Hebei Province, China.

Paternal occupational exposures and infant congenital heart defects in the Japan Environment and Children's Study.

Upregulated TSP1 and CD47 expression in the lung in nitrofen-induced congenital diaphragmatic hernia.

Endocrine disruptors and endometriosis.

Early functional analysis on the pulmonary hemodynamic effects of Transamniotic Stem Cell Therapy (TRASCET) in the nitrofen model of congenital diaphragmatic hernia.

Temporal decline of sperm concentration: role of endocrine disruptors.

"Cocktail" of environmental chemicals and early reproductive outcomes of IVF: The insight from paternal and maternal exposure.

Arsenic-Induced Thyroid Hormonal Alterations and Their Putative Influence on Ovarian Follicles in Balb/c Mice.

Studies on Improving the Efficiency of Somatic Embryogenesis in Grapevine (*Vitis vinifera* L.) and Optimising Ethyl Methanesulfonate Treatment for Mutation Induction.

Uroprotective Potential of Campesterol in Cyclophosphamide Induced Interstitial Cystitis; Molecular Docking Studies.

Endocrine disrupting chemicals in wastewater treatment plants in Kenya, East Africa: Concentrations, removal efficiency, mass loading rates and ecological impacts.

Exposure to the aryl hydrocarbon receptor agonist dioxin disrupts formation of the muscle, nerves, and vasculature in the developing jaw.

The synergy of microplastics with the heavy metal zinc has resulted in reducing the toxic effects of zinc on lentil (*Lens culinaris*) seed germination and seedling growth.

Atrazine: cytotoxicity, oxidative stress, apoptosis, testicular effects and chemopreventive Interventions.

Effect of TCDD exposure in adult female and male mice on the expression of miRNA in the ovaries and testes and associated reproductive functions.

Attenuation of sodium arsenite mediated ovarian DNA damage, follicular atresia, and oxidative injury by combined application of vitamin E and C in post pubertal Wistar rats.

Effects of Chronic Roundup Exposure on Medaka Larvae.

Exposure to arsenic, polycyclic aromatic hydrocarbons, metals, and association with skin cancers in the US adults.

Occupational Farm Work Activities Influence Workers' Indoor Home Microbiome.

Lycopene supplementation: effects on oxidative stress, sex hormones, gonads and thyroid tissue in tilapia *Oreochromis niloticus* during Harness(®) exposure.

Bensulide-induced oxidative stress causes developmental defects of cardiovascular system and liver in zebrafish (*Danio rerio*).

Intra-amniotic sildenafil treatment improves lung blood flow and pulmonary hypertension in congenital diaphragmatic hernia rats.

Therapeutic effects of avocado (*Persea americana* Mill.) seed powder against reproductive toxicity induced by Mancozeb (herbicide) in female rabbits.

Exposure to low-dose arsenic caused teratogenicity and upregulation of proinflammatory cytokines in zebrafish embryos.

Biogenic polymer-based patches for congenital cardiac surgery: a feasibility study.

The exposure to volatile organic chemicals associates positively with rheumatoid arthritis: a cross-sectional study from the NHANES program.

Exposure to the persistent organic pollutant 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD, dioxin) disrupts development of the zebrafish inner ear.

Agrobacterium-mediated direct transformation of wheat mature embryos through organogenesis.

In-silico analysis of atmospheric diffusion, crop planting degrading scheme, and health risk of dioxins from a domestic waste incineration plant.

Contaminants of Emerging Concern (CECs) and Male Reproductive Health: Challenging the Future with a Double-Edged Sword.

Endometriosis: Update of Pathophysiology, (Epi) Genetic and Environmental Involvement.

Exposure to the persistent organic pollutant 2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD, dioxin) disrupts development of the zebrafish inner ear.

Biosynthesis and characterization of nanoparticles, its advantages, various aspects and risk assessment to maintain the sustainable agriculture: Emerging technology in modern era science.

SIRT1/PGC-1 α is involved in arsenic-induced male reproductive damage through mitochondrial dysfunction, which is blocked by the antioxidative effect of zinc.

Urinary excretion of phthalates and the substitutes DINCH and DEHTP in Danish young men and German young adults between 2000 and 2017 - A time trend analysis.

Autophagy and its mediated mitochondrial quality control maintain pollen tube growth and male fertility in Arabidopsis.

Vineyard Management and Physicochemical Parameters of Soil Affect Native Trichoderma Populations, Sources of Biocontrol Agents against Phaeoacremonium minimum.

Melatonin Ameliorates Diquat-Induced Testicular Toxicity via Reducing Oxidative Stress, Inhibiting Apoptosis, and Maintaining the Integrity of Blood-Testis Barrier in Mice.

Melatonin alleviates arsenic (As) toxicity in rice plants via modulating antioxidant defense system and secondary metabolites and reducing oxidative stress.

Inorganic arsenic alters the development of dopaminergic neurons but not serotonergic neurons and induces motor neuron development via Sonic hedgehog pathway in zebrafish.

Effects of Pollution on Pregnancy and Infants.

Ameliorating effect of Mucuna pruriens seed extract on sodium arsenite-induced testicular toxicity and hepato-renal histopathology in rats.

Assessment of exposure to volatile organic compounds through urinary concentrations of their metabolites in pet dogs and cats from the United States.

Environmentally relevant uptake, elimination, and metabolic changes following early embryonic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin in zebrafish.

Glyphosate effects on the female reproductive systems: a systematic review.

Anxiety-related behavior and associated brain transcriptome and epigenome alterations in adult female zebrafish exposed to atrazine during embryogenesis.

Pre-Conceptional Exposure to Glyphosate Affects the Maternal Hepatic and Ovarian Proteome.

Use of plant growth regulators to reduce 2-methyl-4-chlorophenoxy acetic acid-Na (MPCA-Na) damage in cotton (*Gossypium hirsutum*).

Oocyte Development and Quality in Young and Old Mice following Exposure to Atrazine.

Mechanism of 2,4-Dichlorophenoxyacetic acid-induced damage to rat testis via Fas/FasL pathway and the protective effect of *Lycium barbarum* polysaccharides.

Glyphosate decreases bovine oocyte quality by inducing oxidative stress and apoptosis.

Potential Mechanisms Involved in Chronic Kidney Disease of Unclear Etiology.

Oxidative stress of glyphosate, AMPA and metabolites of pyrethroids and chlorpyrifos pesticides among primary school children in Cyprus.

Adverse effects of dioxins on cognitive ability and motor performance of 5-year-old children residing in a hotspot of dioxin contamination originating from Agent Orange in Vietnam: A prospective cohort study.

Changes in fatty acid composition as a response to glyphosate toxicity in *Pseudomonas fluorescens*.

Chronic dietary exposure to a glyphosate-based herbicide results in reversible increase early embryo mortality in chicken.

Mass Spectrometry-Based Peptide Profiling of Haemolymph from *Pterostichus melas* Exposed to Pendimethalin Herbicide.

Ameliorative effects of endogenous and exogenous indole-3-acetic acid on atrazine stressed paddy field cyanobacterial biofertilizer *Cylindrospermum stagnale*.

Developmental and behavioral toxicity assessment of glyphosate and its main metabolite aminomethylphosphonic acid (AMPA) in zebrafish embryos/larvae.

Atrazine exposure in zebrafish induces aberrant genome-wide methylation.

Impaired initial development and behavior in zebrafish exposed to environmentally relevant concentrations of widely used pesticides.

Ameliorative potential of vitamin C and E against Roundup-glyphosate induced genotoxicity triggering apoptosis in caprine granulosa cells.

A biochemical, physiological and molecular evaluation of how the herbicide 2, 4-dichlorophenoxyacetic acid intercedes photosynthesis and diazotrophy in the cyanobacterium *Nostoc muscorum* Meg 1.

Do commonly used herbicides (atrazine and glyphosate) have the potential to impair the contractions, prostaglandin releasing and conducting of oxytocin signal at the bovine cervix *in vitro*?

Realistic exposure to fipronil, 2,4-D, vinasse and their mixtures impair larval amphibian physiology.

Mitigative effect of biosynthesized SeNPs on cyanobacteria under paraquat toxicity.

Toxicity of the herbicides used on herbicide-tolerant crops, and societal consequences of their use in France.

Impact of glyphosate and its formulation Roundup® on stallion spermatozoa.

Prolonged atrazine exposure beginning in utero and adult uterine morphology in mice.

Induced Hepatic Glutathione and Metabolomic Alterations Following Mixed Pesticide and Fertilizer Exposures in Juvenile Leopard Frogs (*Lithobates sphenoccephala*).

Effects on reproductive, biochemical and genotoxic parameters of herbicides 2,4-D and glyphosate in silver catfish (*Rhamdia quelen*).

Assessing sub-lethal effects of the dinitroaniline herbicide pendimethalin in zebrafish embryos/larvae (*Danio rerio*).

Arsenic exposure and respiratory outcomes during childhood in the INMA study.

Antagonism of Cyanamide-3-O-glucoside and protocatechuic acid on Aflatoxin B(1)-induced toxicity in zebrafish larva (*Danio rerio*).

A triphenylphosphine coordinated cinnamaldehyde-derived copper(I) Fenton-like agent with mitochondrial aggregation damage for chemodynamic therapy.

FARGO-360: a multi-disciplinary survey of practice and perspectives on provision of care for patients with frailty presenting with gynecological cancers in the UK and Ireland.

Efficacy of N-acetyl- l-cysteine against glyphosate induced oxidative stress and apoptosis in testicular germ cells preventing infertility.

Concentrations of blood and urinary arsenic species and their characteristics in general Korean population.

Occupation and Semen Parameters in a Cohort of Fertile Men.

Responses of soil fertility and microbiomes of atrazine contaminated soil to remediation by hydrochar and persulfate.

Effects of genotype and nutrient medium on obtaining haploid plants through ovary culture in cucumber.

Parental diuron exposure causes lower hatchability and abnormal ovarian development in offspring of medaka (*Oryzias melastigma*).

The combination of organic and inorganic fertilizers influence the weed growth, productivity and soil fertility of monsoon rice.

Glyphosate damages blood-testis barrier via NOX1-triggered oxidative stress in rats: Long-term exposure as a potential risk for male reproductive health.

The effect of tracheal occlusion in congenital diaphragmatic hernia in the nitrofen rat lung explant model.

Flurochloridone induced abnormal spermatogenesis by damaging testicular Sertoli cells in mice.

Association between trichlorophenols and neurodegenerative diseases: A cross-sectional study from NHANES 2003-2010.

Treatment with Amniotic Fluid Stem Cell Extracellular Vesicles Promotes Fetal Lung Branching and Cell Differentiation at Canalicular and Saccular Stages in Experimental Pulmonary Hypoplasia Secondary to Congenital Diaphragmatic Hernia.

Autophagy Is Impaired in Fetal Hypoplastic Lungs and Rescued by Administration of Amniotic Fluid Stem Cell Extracellular Vesicles.

Identification of the shared gene signatures and pathways between polycystic ovary syndrome and endometrial cancer: An omics data based combined approach.

Arsenic Speciation and Metallomics Profiling of Human Toenails as a Biomarker to Assess Prostate Cancer Cases: Atlantic PATH Cohort Study.

Characterization of Developmental Neurobehavioral Toxicity in a Zebrafish MPTP-Induced Model: A Novel Mechanism Involving Anemia.

Prenatal treprostinil reduces the pulmonary hypertension phenotype in the rat model of congenital diaphragmatic hernia.

Neonatal rodent ventilation and clinical correlation in congenital diaphragmatic hernia.

A novel surgical toxicological-free model of diaphragmatic hernia in fetal rats.

Quercetin Reduces the Development of 2,3,7,8-Tetrachlorodibenzo-p-dioxin-Induced Cleft Palate in Mice by Suppressing CYP1A1 via the Aryl Hydrocarbon Receptor.

Aryl Hydrocarbon Receptor Promotes Cell Growth, Stemness Like Characteristics, and Metastasis in Human Ovarian Cancer via Activation of PI3K/Akt, β -Catenin, and Epithelial to Mesenchymal Transition Pathways.

Yes-associated protein is dysregulated during nitrofen-induced hypoplastic lung development due to congenital diaphragmatic hernia.

Flumioxazin, a PPO inhibitor: A weight-of-evidence consideration of its mode of action as a developmental toxicant in the rat and its relevance to humans.

2, 3, 7, 8-Tetrachlorodibenzo-p-dioxin potential impacts on peripheral blood mononuclear cells of endometriosis women.

Oxidative Stress and Toxicity in Reproductive Biology and Medicine: A Comprehensive Update on Male Infertility Volume II - Conclusion.

Gut Microbiome-Dependent Metabolic Pathways and Risk of Lethal Prostate Cancer: Prospective Analysis of a PLCO Cancer Screening Trial Cohort.

Associations between persistent organic pollutants and endometriosis: A multiblock approach integrating metabolic and cytokine profiling.

Toluene: correlation between occupational exposure limits and biological exposure indices.

Roundup in the Reproduction of Crucian Carp (*Carassius carassius*): An In Vitro Effect on the Pituitary Gland and Ovary.

Urinary volatile organic compound metabolites and reduced lung function in U.S. adults.

Determination of the relative potencies of brominated dioxins for risk assessment in aquatic environments using the early-life stage of Japanese medaka.

Exposure to pyrazosulfuron-ethyl induces immunotoxicity and behavioral abnormalities in zebrafish embryos.

Chemical mutagenesis: role in breeding and biofortification of lentil (*Lens culinaris* Medik) mutant lines.

Chemical compositions, antibacterial, antifungal and cytotoxic effects of *Alhagi mannifera* five extracts.

Extracellular matrix and cyclic stretch alter fetal cardiomyocyte proliferation and maturation in a rodent model of heart hypoplasia.

The potential benefits of dinitrophenol combination with chemotherapy in the treatment of ovarian cancer.

Elevated congenital heart disease birth prevalence rates found in Central Vietnam and dioxin TCDD residuals from the use of 2, 4, 5-T herbicides (Agent Orange) in the Da Nang region.

Ryanodine receptor-active non-dioxin-like polychlorinated biphenyls cause neurobehavioral deficits in larval zebrafish.

Assessment of Semen Respiratory Activity of Domesticated Species before and after Cryopreservation: Boars, Bulls, Stallions, Reindeers and Roosters.

Levels of anti-cyclic citrullinated peptide and antinuclear antibodies in Brazilian agricultural workers exposed to pesticides and fertilizers.

Fungi-derived agriculturally important nanoparticles and their application in crop stress management - Prospects and environmental risks.

Life Cycle Exposure to Cyhalofop-Butyl Induced Reproductive Toxicity in Zebrafish.

Transcriptomic analysis of deceptively pollinated *Arum maculatum* (Araceae) reveals association between terpene synthase expression in floral trap chamber and species-specific pollinator attraction.

The effect of 3-Methyl-4-Nitrophenol on the early ovarian follicle development in mice by disrupting the clock genes expression.

Experimental evaluation of biological regeneration of arable soil: The effects of grass-clover leys and arbuscular mycorrhizal inoculants on wheat growth, yield, and shoot pathology.

Agent Orange Exposure, Transformation From MGUS to Multiple Myeloma, and Outcomes in Veterans.

Arsenic exposure diminishes ovarian follicular reserve and induces abnormal steroidogenesis by DNA methylation.

Tetrachlorobisphenol A mediates reproductive toxicity in *Caenorhabditis elegans* via DNA damage-induced apoptosis.

Drosophila ecdysone receptor activity-based ex vivo assay to assess the endocrine disruption potential of environmental chemicals.

Insight into 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced disruption of zebrafish spermatogenesis via single cell RNA-seq.

Effects of dietary 2-(2H-benzotriazol-2-yl)-4-methylphenol (UV-P) exposure on Japanese medaka (*Oryzias latipes*) in a short-term reproduction assay.

Effects of the Herbicide Atrazine on Crustacean Reproduction. Mini-Review.

Interference of Arabidopsis N-Acetylglucosamine-1-P Uridyltransferase Expression Impairs Protein N-Glycosylation and Induces ABA-Mediated Salt Sensitivity During Seed Germination and Early Seedling Development.

Comparative Toxicotranscriptomics of Single Cell RNA-Seq and Conventional RNA-Seq in TCDD-Exposed Testicular Tissue.

Distinct Epithelial Cell Profiles in Normal Versus Induced-Congenital Diaphragmatic Hernia Fetal Lungs.

Associations of total urinary arsenic with total cholesterol and high-density lipoprotein among 12-17-year-old participants from the 2009-2016 NHANES cycles: A cross-sectional study.

Rice straw biochar in combination with farmyard manure mitigates bromoxynil toxicity in wheat (*Triticum aestivum* L.).

Optimized Transformation and Gene Editing of the B104 Public Maize Inbred by Improved Tissue Culture and Use of Morphogenic Regulators.

The Potential Role of Mitochondrial Acetaldehyde Dehydrogenase 2 in Urological Cancers From the Perspective of Ferroptosis and Cellular Senescence.

Breath chemical markers of sexual arousal in humans.

Atrazine and Diuron Effects on Survival, Embryo Development, and Behavior in Larvae and Adult Zebrafish.

Agent Orange Reviewed: Potential Role in Peripheral Neuropathy and Neurodegeneration.

Sodium arsenite accelerates D-galactose-induced aging in the testis of the rat: Evidence for mitochondrial oxidative damage, NF- κ B, JNK, and apoptosis pathways.

$\hat{\alpha}$ -Tocopherol restores semen quality in rats exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Correlations of gestational hemoglobin level, placental trace elements content, and reproductive performances in pregnant sows.

Glutathione protects against the meiotic defects of ovine oocytes induced by arsenic exposure via the inhibition of mitochondrial dysfunctions.

Hormonal interactions underlying parthenocarpic fruit formation in horticultural crops.

Effects of glufosinate-ammonium on male reproductive health: Focus on epigenome and transcriptome in mouse sperm.

Inflammatory, Oxidative Stress, and Apoptosis Effects in Zebrafish Larvae after Rapid Exposure to a Commercial Glyphosate Formulation.

Review: Mechanisms of Glyphosate and Glyphosate-Based Herbicides Action in Female and Male Fertility in Humans and Animal Models.

Exposure to Atrazine through gestation and lactation period led to impaired sexual maturation and subfertility in F1 male rats with congenital deformities in F2 progeny.

The effect of Roundup on embryonic development, early foxr1 and hsp70 gene expression and hatching of common carp (*Cyprinus carpio* L.).

Ecotoxicological effects of commercial herbicides on the reproductive system of aquatic arthropod *Limnocoris submontandoni* (Hemiptera: Naucoridae).

Influences of Agrochemicals on Health and Ecology in Vietnamese Mango Cultivation.

Widespread agrochemicals differentially affect zooplankton biomass and community structure.

Prenatal exposure to organophosphate and pyrethroid insecticides and the herbicide 2,4-dichlorophenoxyacetic acid and size at birth in urban pregnant women.

Glyphosate: A Review on the Current Environmental Impacts from a Brazilian Perspective.

Effects of sulfometuron-methyl on zebrafish at early developmental stages.

Glyphosate exposure attenuates testosterone synthesis via NR1D1 inhibition of StAR expression in mouse Leydig cells.

Survival on railway tracks of *Geranium robertianum*-a glyphosate-tolerant plant.

Toxicity and risk assessment of six widely used pesticides on embryo-larval development of the Pacific oyster, *Crassostrea gigas*.

Glyphosate Herbicide: Reproductive Outcomes and Multigenerational Effects.

Exposure to multiple pesticides and neurobehavioral outcomes among smallholder farmers in Uganda.

Meta-analysis and experimental validation identified atrazine as a toxicant in the male reproductive system.

Inflammatory state and autism-like behavioral phenotype of offspring induced by maternal exposure to low-dose chemical mixtures during pregnancy in mice.

Changes in soil microbial community and activity caused by application of dimethachlor and linuron.

Embryonic atrazine exposure and later in life behavioral and brain transcriptomic, epigenetic, and pathological alterations in adult male zebrafish.

Synergistic effects of glyphosate and multiwall carbon nanotubes on *Arabidopsis thaliana* physiology and metabolism.

Carryover effect of atrazine and its metabolite from treated bovine spermatozoa to the embryo's transcriptome.

Developmental atrazine exposure in zebrafish produces the same major metabolites as mammals along with altered behavioral outcomes.

Mutation of the Cytochrome P450 CYP360A8 Gene Increases Sensitivity to Paraquat in *Daphnia magna*.

An Experimental Approach to Study the Effects of Realistic Environmental Mixture of Linuron and Propamocarb on Zebrafish Synaptogenesis.

Reproductive activation in honeybee (*Apis mellifera*) workers protects against abiotic and biotic stress.

Queen loss increases worker survival in leaf-cutting ants under paraquat-induced oxidative stress.

In vitro Interference of a Glyphosate Commercial Formulation with the Stimulation of Ovarian Maturation by Progesterone, in the Estuarine Crab *Neohelice granulata*.

Melatonin rescues the reproductive toxicity of low-dose glyphosate-based herbicide during mouse oocyte maturation via the GPER signaling pathway.

Prenatal exposure to atrazine induces cryptorchidism and hypospadias in F1 male mouse offspring.

Developmental toxicity and transcriptome analysis of zebrafish (*Danio rerio*) embryos following exposure to chiral herbicide safener benoxacor.

Differential impact of dose-range glyphosate on locomotor behavior, neuronal activity, gliocerebrovascular structures, and transcript regulations in zebrafish larvae.

Effects of glyphosate-based herbicide-contaminated diets on reproductive organ toxicity and hypothalamic-pituitary-ovarian axis hormones in weaned piglets.

Reproductive toxicity of Roundup WG® herbicide: impairments in ovarian follicles of model organism *Danio rerio*.

Functional responses of *Hyalella meinerti* after exposure to environmentally realistic concentrations of 2,4-D, fipronil, and vinasse (individually and in mixture).

Evaluation of dietary dose administration as an alternative to oral gavage in the rodent uterotrophic and Hershberger assays.

Paraquat exposure over generation affects lifespan and reproduction through mitochondrial disruption in *C. elegans*.

Melatonin alleviates the deterioration of oocytes and hormonal disorders from mice subjected to glyphosate.

Effect of Fertiactyl(®) on the absorption and translocation of (14)C-glyphosate in young eucalyptus plants.

Fragrance- and Botanical-Related Allergy and Associated Concomitant Reactions: A Retrospective Analysis of the North American Contact Dermatitis Group Data 2007-2016.

Impact of chronic exposure of rainbow trout, *Oncorhynchus mykiss*, to low doses of glyphosate or glyphosate-based herbicides.

Changes induced by atrazine in *Clarias gariepinus* provide insight into alterations in ovarian histoarchitecture and direct effects on oogenesis.

Agrochemicals in freshwater systems and their potential as endocrine disrupting chemicals: A South African context.

Risk in the circular food economy: Glyphosate-based herbicide residues in manure fertilizers decrease crop yield.

Diquat poisoning in a pregnant woman resulting in a miscarriage and maternal death.

Differences in epithelial-mesenchymal-transition in paraquat-induced pulmonary fibrosis in BALB/C and BALB/C (nu/nu) nude mice.

The Stage at Presentation and Oncologic Outcomes for Agent Orange Exposed and Non-Exposed United States Veterans Diagnosed With Prostate Cancer.

Effects of low-concentration glyphosate and aminomethyl phosphonic acid on zebrafish embryo development.

Maternal urinary levels of glyphosate during pregnancy and anogenital distance in newborns in a US multicenter pregnancy cohort.

Coexisting antibiotic changes the persistence and metabolic profile of atrazine in the environment.

The Effect of Glyphosate on the Reproduction of Estuarine Crabs: *Neohelice granulata* as a Study Model.

Low Doses of Glyphosate/Roundup Alter Blood-Testis Barrier Integrity in Juvenile Rats.

Metabolomic Profiling of Poor Ovarian Response Identifies Potential Predictive Biomarkers.

Cardiac toxicity assessment of pendimethalin in zebrafish embryos.

The Aryl hydrocarbon receptor mediates reproductive toxicity of polychlorinated biphenyl congener 126 in rats.

Effects of the prenatal environment on cryptorchidism: A narrative review.

Fluroxypyr-1-methylheptyl ester interferes with the normal embryogenesis of zebrafish by inducing apoptosis, inflammation, and neurovascular toxicity.

Prenatal Molecular Hydrogen Administration Ameliorates Several Findings in Nitrofen-Induced Congenital Diaphragmatic Hernia.

Multi- and Transgenerational Outcomes of an Exposure to a Mixture of Endocrine-Disrupting Chemicals (EDCs) on Puberty and Maternal Behavior in the Female Rat.

Oxidative stress inducers potentiate 2,3,7,8-tetrachlorodibenzo-p-dioxin-mediated pre-cardiac edema in larval zebrafish.

Associations between Exposure to Organochlorine Chemicals and Endometriosis: A Systematic Review of Experimental Studies and Integration of Epidemiological Evidence.

Effects of 2,4-dichlorophenol exposure on zebrafish: Implications for the sex hormone synthesis.

Iron overload during the embryonic period develops hyperactive like behavior and dysregulation of biogenic amines in *Drosophila melanogaster*.

Metam sodium exposure during pregnancy and lactation in mice caused behavioral abnormalities and oxidative stress in offspring.

Developmental and lifelong dioxin exposure induces measurable changes in cardiac structure and function in adulthood.

The role of MEG3 in the proliferation of palatal mesenchymal cells is related to the TGF β /Smad pathway in TCDD inducing cleft palate.

Circulating short and medium chain fatty acids are associated with normoalbuminuria in type 1 diabetes of long duration.

Vitamin D improves pulmonary function in a rat model for congenital diaphragmatic hernia.

Environmental exposures to endocrine disrupting chemicals (EDCs) and their role in endometriosis: a systematic literature review.

Impact of congenital diaphragmatic hernia on diaphragm muscle function in neonatal rats.

Pbx1, Meis1, and Runx1 Expression Is Decreased in the Diaphragmatic and Pulmonary Mesenchyme of Rats with Nitrofen-Induced Congenital Diaphragmatic Hernia.

Adverse effects of iron deficiency anemia on pregnancy outcome and offspring development and intervention of three iron supplements.

Impact of prenatal arsenic exposure on the testes and epididymides of prepubertal rats.

Transamniotic Stem Cell Therapy for Experimental Congenital Diaphragmatic Hernia: Structural, Transcriptional, and Cell Kinetics Analyses in the Nitrofen Model.

Epithelial cell-adhesion protein cadherin 26 is dysregulated in congenital diaphragmatic hernia and congenital pulmonary airway malformation.

Association of urinary chlorophenols with central obesity in Korean girls.

Differences in exposure to toxic and/or carcinogenic volatile organic compounds between Black and White cigarette smokers.

A Glyphosate-Based Herbicide in Soil Differentially Affects Hormonal Homeostasis and Performance of Non-target Crop Plants.

Genetic Control of MAP3K1 in Eye Development and Sex Differentiation.

Transformation of Teosinte (*Zea mays* ssp. *parviglumis*) via Biolistic Bombardment of Seedling-Derived Callus Tissues.

Chronic Dietary Exposure of Roosters to a Glyphosate-Based Herbicide Increases Seminal Plasma Glyphosate and AMPA Concentrations, Alters Sperm Parameters, and Induces Metabolic Disorders in the Progeny.

Reproductive toxicological changes in avian embryos due to a pesticide and an environmental contaminant.

A novel dominant selection system for plant transgenics based on phosphite metabolism catalyzed by bacterial alkaline phosphatase.

Animal Toxicology Studies on the Male Reproductive Effects of 2,3,7,8-Tetrachlorodibenzo-p-Dioxin: Data Analysis and Health Effects Evaluation.

A mixture of 15 phthalates and pesticides below individual chemical no observed adverse effect levels (NOAELs) produces reproductive tract malformations in the male rat.

Provision of folic acid for reducing arsenic toxicity in arsenic-exposed children and adults.

Arsenic exposure induces a bimodal toxicity response in zebrafish.

ABA signalling promotes cell totipotency in the shoot apex of germinating embryos.

In vitro effect of ferrous sulphate on bovine spermatozoa motility parameters, viability and Annexin V-labeled membrane changes.

Transcriptional profiling of Chinese hamster ovary (CHO) cells exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Benoxacor caused developmental and cardiac toxicity in zebrafish larvae.

Experimental Evidence of 2,3,7,8-Tetrachlorodibenzo-p-Dioxin (TCDD) Transgenerational Effects on Reproductive Health.

Impact of Estrogen Withdrawal and Replacement in Female Mice along the Intestinal Tract. Comparison of E2 Replacement with the Effect of a Mixture of Low Dose Pollutants.

Induction of *Catharanthus roseus* Secondary Metabolites When *Calotropis procera* Was Used as Bio-Stimulant.

Association between vaginal microbiota and risk of early pregnancy miscarriage.

Arsenic-induced uterine apoptotic damage is protected by ethyl acetate fraction of *Camellia sinensis* (green tea) via Bcl-2-BAX through NF- κ B regulations in Wistar rats.

Chronic exposure to environmentally realistic levels of diuron impacts the behaviour of adult marine medaka (*Oryzias melastigma*).

Toxicological Effects of Roundup(®) on *Drosophila melanogaster* Reproduction.

Protective and therapeutic effect of hydrogen sulfide on hemorrhagic cystitis and testis dysfunction induced with cyclophosphamide.

Pesticide-induced multigenerational effects on amphibian reproduction and metabolism.

Hidroxiacetilresorcinol Counteracts Cyclophosphamide-Induced Male Infertility through NRF2 Pathways in a Mouse Model.

Drivers of adoption of crop protection and soil fertility management practices among smallholder soybean farmers in Tolon district of Ghana.

Urinary arsenic species and methylation efficiency during pregnancy: Concentrations and associated factors in Spanish pregnant women.

Atrazine Promoted Epithelial Ovarian Cancer Cells Proliferation and Metastasis by Inducing Low Dose Reactive Oxygen Species (ROS).

Lung Metabolomics Profiling of Congenital Diaphragmatic Hernia in Fetal Rats.

Reproductive Toxicity of 3,4-dichloroaniline (3,4-DCA) on Javanese Medaka (*Oryzias javanicus*, Bleeker 1854).

Opposing Effects of TGF β 2 and BMP in the Pulmonary Vasculature in Congenital Diaphragmatic Hernia.

Occupational use of agrochemicals results in inhibited cholinesterase activity and altered reproductive hormone levels in male farmers from Buea, Cameroon.

Dioxin exposure associated with fecundability and infertility in mothers and daughters of Seveso, Italy.

Neuropathy and chloracne induced by 3,5,6-trichloropyridin-2-ol sodium: Report of three cases.

Single Amino Acid Exchange in ACTIN2 Confers Increased Tolerance to Oxidative Stress in *Arabidopsis thaliana* Mutant.

Benfuresate induces developmental toxicity in zebrafish larvae by generating apoptosis and pathological modifications.

Identification of molecular toxicity pathways across early life-stages of zebrafish exposed to PCB126 using a whole transcriptomics approach.

Endocrine disrupting chemicals and reproductive disorders in women, men, and animal models.

DNA of crayfish spermatozoa as a target of waterborne pesticides - An ex vivo approach as a tool to short-term spermotoxicity screening.

Are glyphosate and glyphosate-based herbicides endocrine disruptors that alter female fertility?

ROBO2 signaling in lung development regulates SOX2/SOX9 balance, branching morphogenesis and is dysregulated in nitrofen-induced congenital diaphragmatic hernia.

Quantitative in Vitro to in Vivo Extrapolation (QIVIVE) for Predicting Reduced Anogenital Distance Produced by Anti-Androgenic Pesticides in a Rodent Model for Male Reproductive Disorders.

Effects of wood distillate (pyroligneous acid) on sensitive bioindicators (lichen and moss).

Effect of fomesafen on the embryonic development of zebrafish.

Differential effects of pollution on adult and recruits of a canopy-forming alga: implications for population viability under low pollutant levels.

Herbicide Glyphosate: Toxicity and Microbial Degradation.

Life-History Traits Response to Effects of Fish Predation (Kairomones), Fipronil and 2,4-D on Neotropical Cladoceran *Ceriodaphnia silvestrii*.

Neonatal exposure to a glyphosate-based herbicide alters the uterine differentiation of prepubertal ewe lambs.

Perinatal exposure to glyphosate or a glyphosate-based formulation disrupts hormonal and uterine milieu during the receptive state in rats.

Ovarian mitochondrial and oxidative stress proteins are altered by glyphosate exposure in mice.

Absence of glyphosate-induced effects on ovarian folliculogenesis and steroidogenesis.

Behavioural toxicity of environmental relevant concentrations of a glyphosate commercial formulation - RoundUp® UltraMax - During zebrafish embryogenesis.

Difficulties in establishing a causal link between chemical exposures and cancer cannot be overcome by court assessments.

Effects of Roundup and its main component, glyphosate, upon mammalian sperm function and survival.

Changes in thyroid hormone levels and related gene expressions in embryo-larval zebrafish exposed to binary combinations of bifenthrin and acetochlor.

Embryotoxicity of atrazine and its degradation products to early life stages of zebrafish (*Danio rerio*).

Glyphosate Induces Metaphase II Oocyte Deterioration and Embryo Damage by Zinc Depletion and Overproduction of Reactive Oxygen Species.

Titanium dioxide nanoparticles enhanced thyroid endocrine disruption of pentachlorophenol rather than neurobehavioral defects in zebrafish larvae.

Atrazine induces penis abnormalities including hypospadias in mice.

Environmental Pollution, Oxidative Stress and Thioretinaco Ozonide: Effects of Glyphosate, Fluoride and Electromagnetic Fields on Mitochondrial Dysfunction in Carcinogenesis, Atherogenesis and Aging.

Maternal exposure to mixtures of dienestrol, linuron and flutamide. Part I: Feminization effects on male rat offspring.

Effects of fertilization on the triafamone photodegradation in aqueous solution: Kinetic, identification of photoproducts and degradation pathway.

Pre- and postnatal exposure to glyphosate-based herbicide causes behavioral and cognitive impairments in adult mice: evidence of cortical and hippocampal dysfunction.

Environmentally relevant mixture of S-metolachlor and its two metabolites affects thyroid metabolism in zebrafish embryos.

Transgenerational disrupting impacts of atrazine in zebrafish: Beneficial effects of dietary spirulina.

Glyphosate-based herbicide exposure during pregnancy and lactation malprograms the male reproductive morphofunction in F1 offspring.

Dipteryx alata, a tree native to the Brazilian Cerrado, is sensitive to the herbicide nicosulfuron.

Association of urinary metabolites of organophosphate and pyrethroid insecticides, and phenoxy herbicides with endometriosis.

In vitro effects of glyphosate and Roundup on Sertoli cell physiology.

Effects of glyphosate and a commercial formulation Roundup® exposures on maturation of *Xenopus laevis* oocytes.

2,4-Dichlorophenoxyacetic acid herbicide effects on zebrafish larvae: development, neurotransmission and behavior as sensitive endpoints.

The surfactant polyethoxylated tallowamine (POEA) reduces lifespan and inhibits fecundity in *Drosophila melanogaster*- In vivo and in vitro study.

MiR-130a-5p/Foxa2 axis modulates fetal lung development in congenital diaphragmatic hernia by activating the Shh/Gli1 signaling pathway.

Interference of an atrazine commercial formulation with the endocrine control of ovarian growth exerted by the eyestalks.

Cardiac toxicity of acrolein exposure in embryonic zebrafish (*Danio rerio*).

Aldehyde Dehydrogenase Inhibition Ameliorates Cardiac Dysfunction and Exacerbates Hypotension Caused by Alcohol in Female Rats.

Glyphosate exposures and kidney injury biomarkers in infants and young children.

Sub-lethal toxicity assessment of the phenylurea herbicide linuron in developing zebrafish (*Danio rerio*) embryo/larvae.

As3MT and GST Polymorphisms Influencing Arsenic Metabolism in Human Exposure to Drinking Groundwater.

Disruption of cytochrome P450 enzymes in the liver and small intestine in chicken embryos in ovo exposed to glyphosate.

miR-200 family expression during normal and abnormal lung development due to congenital diaphragmatic hernia at the later embryonic stage in the nitrofen rat model.

The ubiquitination and acetylation of histones are associated with male reproductive disorders induced by chronic exposure to arsenite.

Pesticide use and incident Parkinson's disease in a cohort of farmers and their spouses.

IL-12p40 and sRAGE in serum correlate with chemically induced cleft palate in mice.

Polyphenol-rich fraction of *Alchornea cordifolia* leaf ameliorates arsenite-induced infertility in male rats.

[Omphalomesenteric fistulas; epidemiological diagnostic and therapeutic features: study of four cases in the Department of Pediatric Surgery at the Aristide Le Dantec University Hospital in Dakar].

A competence of embryo-derived tissues of tetraploid cultivated wheat species *Triticum dicoccum* and *Triticum timopheevii* for efficient and stable transgenesis mediated by particle inflow gun.

Effects of intrauterine exposure to 2,3',4,4',5-pentachlorobiphenyl on the reproductive system and sperm epigenetic imprinting of male offspring.

Extracellular vesicles influence the pulmonary arterial extracellular matrix in congenital diaphragmatic hernia.

Blood vessels are primary targets for 2,3,7,8-tetrachlorodibenzo-p-dioxin in pre-cardiac edema formation in larval zebrafish.

Extracellular Vesicles Attenuate Nitrofen-Mediated Human Pulmonary Artery Endothelial Dysfunction: Implications for Congenital Diaphragmatic Hernia.

In utero exposure to arsenite contributes to metabolic and reproductive dysfunction in male offspring of CD-1 mice.

Vitamin B12 and folic acid alleviate symptoms of nutritional deficiency by antagonizing aryl hydrocarbon receptor.

A comprehensive analysis of AHRR gene as a candidate for cleft lip with or without cleft palate.

Maternal exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin suppresses male reproductive functions in their adulthood.

Cross-crop resistance of *Spodoptera frugiperda* selected on Bt maize to genetically-modified soybean expressing Cry1Ac and Cry1F proteins in Brazil.

Overexpression of miR-455-5p affects retinol (vitamin A) absorption by downregulating STRA6 in a nitrofen-induced CDH with lung hypoplasia rat model.

Oct4 plays a role in 2, 3, 7, 8 - tetrachlorobenzo-p-dioxin (TCDD) inducing cleft palate and inhibiting mesenchymal proliferation.

Transgenerational epigenetic and transcriptomic effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure in rat.

Identification of environmental chemicals targeting miscarriage genes and pathways using the comparative toxicogenomics database.

Metabolomic alternations of follicular fluid of obese women undergoing in-vitro fertilization treatment.

Dioxin and endometriosis: a new possible relation based on epigenetic theory.

Research into the intervention effect of folic acid on arsenic-induced heart abnormalities in fetal rats during the periconception period.

2,4-Dichlorophenol induces feminization of zebrafish (*Danio rerio*) via DNA methylation.

Prenatal exposure to the pesticide metam sodium induces sensorimotor and neurobehavioral abnormalities in mice offspring.

2,4-Dichlorophenol induced feminization of zebrafish by down-regulating male-related genes through DNA methylation.

Congenital diaphragmatic hernia as a potential target for transamniotic stem cell therapy.

Reproductive disorders in female rats after prenatal exposure to sodium arsenite.

Health effects of nutrients and environmental pollutants in Baltic herring and salmon: a quantitative benefit-risk assessment.

Tandem mass tag (TMT) proteomic analysis of fetal lungs revealed differential expression of tight junction proteins in a rat model of congenital diaphragmatic hernia.

Peroxidases from an invasive Mesquite species for management and restoration of fertility of phenolic-contaminated soil.

Impact of environmental contaminants on reproductive health of male domestic ruminants: a review.

Ameliorative Effect of Crocin on Sperm Parameters and In Vitro Fertilization in Mice under Oxidative Stress Induced by Paraquat.

In vitro effects of PNP and PNMC on apoptosis and proliferation in the hen ovarian stroma and prehierarchal follicles.

Which chemicals should be grouped together for mixture risk assessments of male reproductive disorders?

Involvement of metallothionein, homocysteine and B-vitamins in the attenuation of arsenic-induced uterine disorders in response to the oral application of hydro-ethanolic extract of *Moringa oleifera* seed: a preliminary study.

Paraquat Reduces the Female Fertility by Impairing the Oocyte Maturation in Mice.

Cytochrome P450 Expression and Chemical Metabolic Activity before Full Liver Development in Zebrafish.

Paecilomyces and Its Importance in the Biological Control of Agricultural Pests and Diseases.

Endocrine-Disrupting Air Pollutants and Their Effects on the Hypothalamus-Pituitary-Gonadal Axis.

Impact of environmental toxin exposure on male fertility potential.

Effects on the Liver Transcriptome in Baltic Salmon: Contributions of Contamination with Organohalogen Compounds and Origin of Salmon.

Dioxin Disrupts Dynamic DNA Methylation Patterns in Genes That Govern Cardiomyocyte Maturation.

Effects of agricultural pesticides on the reproductive system of aquatic wildlife species, with crocodilians as sentinel species.

A laboratory investigation into features of morphology and physiology for their potential to predict reproductive success in male frogs.

Age-dependent vulnerability of the ovary to AhR-mediated TCDD action before puberty: Evidence from mouse models.

Occupational pesticide use and self-reported olfactory impairment in US farmers.

TCDD-induced multi- and transgenerational changes in the methylome of male zebrafish gonads.

A multidimensional density dependent matrix population model for assessing risk of stressors to fish populations.

In vitro administration of sodium arsenite in mouse prepubertal testis induces germ cell loss and apoptosis.

Serum dioxin levels and sperm DNA methylation age: Findings in Vietnam war veterans exposed to Agent Orange.

Nanoparticles in Agroindustry: Applications, Toxicity, Challenges, and Trends.

Yolk Sac of Zebrafish Embryos as Backpack for Chemicals?

Agrochemicals disrupt multiple endocrine axes in amphibians.

Mitigation of arsenic driven utero-ovarian malfunction and changes of apoptotic gene expression by dietary NAC.

Acetochlor affects zebrafish ovarian development by producing estrogen effects and inducing oxidative stress.

Spatiotemporal variation in occurrence and co-occurrence of pesticides, hormones, and other organic contaminants in rivers in the Chesapeake Bay Watershed, United States.

Herbicidal efficacy of harzianums produced by the biofertilizer fungus, *Trichoderma brevicompactum*.

In-vitro antioxidant, antimutagenic and cancer cell growth inhibition activities of *Rhododendron arboreum* leaves and flowers.

Longitudinal Study of Metabolic Biomarkers among Conventional and Organic Farmers in Thailand.

Agronomic Factors Associated with Bacterial Leaf Streak Development Caused by *Xanthomonas vasicola* pv. *vasculorum* in Corn.

Multigenerational and transgenerational effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure on ovarian reserve and follicular development through AMH/AMHR2 pathway in adult female rats.

Air quality biomonitoring of trace elements in the metropolitan area of Huancayo, Peru using transplanted *Tillandsia capillaris* as a biomonitor.

Profile and outcome of patients presenting with agrochemical poisoning to the emergency department.

Manipulating Gibberellin Control Over Growth and Fertility as a Possible Target for Managing Wild Radish Weed Populations in Cropping Systems.

Does the application of human waste as a fertilization material in agricultural production pose adverse effects on human health attributable to contaminants of emerging concern?

Corrigendum to "Transgenerational impairment of ovarian induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) associated with Igf2 and H19 in adult female rat" [Toxicology 428 (2019) 152311].

Plant tissue analysis as a tool for predicting fertiliser needs for low cyanogenic glucoside levels in cassava roots: An assessment of its possible use.

Arsenic and smokeless tobacco exposure induces DNA damage and oxidative stress in reproductive organs of female Swiss albino mice.

Intra-Amniotic Sildenafil Treatment Promotes Lung Growth and Attenuates Vascular Remodeling in an Experimental Model of Congenital Diaphragmatic Hernia.

Effect of antenatal tetramethylpyrazine on lung development and YAP expression in rat model of experimental congenital diaphragmatic hernia.

Developmental Exposure to PCB153 (2,2',4,4',5,5'-Hexachlorobiphenyl) Alters Circadian Rhythms and the Expression of Clock and Metabolic Genes.

Atrazine-induced toxicity in goat spermatozoa is alleviated to some extent by polyphenol-enriched feed.

Clethodim exposure induced development toxicity and behaviour alteration in early stages of zebrafish life.

Effect of the herbicide atrazine and its major metabolite, DACT, on bovine sperm cryotolerance.

Chronic Kidney Disease in Agricultural Communities.

Effect of Herbicide Glyphosate on *Drosophila melanogaster* Fertility and Lifespan.

Low dose of flurochloridone affected reproductive system of male rats but not fertility and early embryonic development.

Acute in vitro exposure to environmentally relevant atrazine levels perturbs bovine preimplantation embryo metabolism and cell number.

Atrazine induced transgenerational reproductive effects in medaka (*Oryzias latipes*).

The effects of Roundup® in embryo development and energy metabolism of the zebrafish (*Danio rerio*).

Clinical outcome of paraquat poisoning during pregnancy.

Thyroid Hormones in Conventional and Organic Farmers in Thailand.

Exposure to Roundup® affects behaviour, head regeneration and reproduction of the freshwater planarian *Girardia tigrina*.

A new split-luciferase complementation assay identifies pentachlorophenol as an inhibitor of apoptosome formation.

Effect of Individual and Combined Treatments of Pesticide, Fertilizer, and Salt on Growth and Corticosterone Levels of Larval Southern Leopard Frogs (*Lithobates sphenoccephala*).

Developmental and epigenetic effects of Roundup and glyphosate exposure on Japanese medaka (*Oryzias latipes*).

Perinatal Exposure to Glyphosate and a Glyphosate-Based Herbicide Affect Spermatogenesis in Mice.

Rapamycin reduces mortality in acute-stage paraquat-induced toxicity in zebrafish.

Assessment of Glyphosate Induced Epigenetic Transgenerational Inheritance of Pathologies and Sperm Epimutations: Generational Toxicology.

Maternal residential exposure to specific agricultural pesticide active ingredients and birth defects in a 2003-2005 North Carolina birth cohort.

The Ramazzini Institute 13-week pilot study glyphosate-based herbicides administered at human-equivalent dose to Sprague Dawley rats: effects on development and endocrine system.

Setal-epidermal, muscular and enzymatic anomalies induced by certain agrochemicals in the earthworm *Eudrilus eugeniae* (Kinberg).

Toxicological impact of oxyfluorfen 24% herbicide on the reproductive system, antioxidant enzymes, and endocrine disruption of *Biomphalaria alexandrina* (Ehrenberg, 1831) snails.

Fenoxaprop-ethyl affects mouse oocyte quality and the underlying mechanisms.

Enantioselective thyroid disruption in zebrafish embryo-larvae via exposure to environmental concentrations of the chloroacetamide herbicide acetochlor.

Neonatal exposure to a glyphosate-based herbicide alters the histofunctional differentiation of the ovaries and uterus in lambs.

Roundup® Herbicide Decreases Quality Parameters of Spermatozoa of Silversides *Odontesthes Humensis*.

Loss of methionine sulfoxide reductases increases resistance to oxidative stress.

Combined treatment with Cinnamaldehyde and β -TCP had an additive effect on bone formation and angiogenesis in critical size calvarial defect in ovariectomized rats.

Herbicide-tolerant endophytic bacteria of rice plants as the biopriming agents for fertility recovery and disease suppression of unhealthy rice seeds.

Mitigating the risk of atrazine exposure: Identifying hot spots and hot times in surface waters across Nebraska, USA.

Cinnamaldehyde application decreases tail temperature in ovariectomized rats with and without estradiol administration.

Atrazine or bisphenol A mediated negative modulation of mismatch repair gene, mlh1 leads to defective oogenesis and reduced female fertility in *Drosophila melanogaster*.

Effective attenuation of glyphosate-induced oxidative stress and granulosa cell apoptosis by vitamins C and E in caprines.

Reduction of Kiss1 expression in the anteroventral periventricular nucleus is associated with atrazine-induced attenuation of the luteinizing hormone surge in female rats.

Transgenerational impairment of ovarian induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) associated with Igf2 and H19 in adult female rat.

First steps in the development of a liquid biopsy in situ hybridization protocol to determine circular RNA biomarkers in rat biofluids.

An intra-amniotic injection of mesenchymal stem cells promotes lung maturity in a rat congenital diaphragmatic hernia model.

Common differentially expressed proteins were found in mouse cleft palate models induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin and retinoic acid.

The negative impact of the environment on methylation/epigenetic marking in gametes and embryos: A plea for action to protect the fertility of future generations.

Effects of 2,3',4,4'5-pentachlorobiphenyl exposure during pregnancy on epigenetic imprinting and maturation of offspring's oocytes in mice.

Can contamination of the environment by dioxins cause craniofacial defects?

Dietary CCPS from bitter melon attenuates sodium arsenite induced female reproductive ailments cum infertility in wistar rats: anti-inflammatory and anti-apoptotic role.

Role of epigenetic regulation of Igf2 and H19 in 2,3,7,8-Tetrachlorobenzo-p-dioxin (TCDD)-induced ovarian toxicity in offspring rats.

Selected persistent organic pollutants associated with the risk of primary ovarian insufficiency in women.

ahr2, But Not ahr1a or ahr1b, Is Required for Craniofacial and Fin Development and TCDD-dependent Cardiotoxicity in Zebrafish.

Involvement of proinflammatory cytokines and metallothionein in the repairing of arsenic-mediated uterine tissue damage by curcumin.

High insecticide resistance intensity of *Anopheles gambiae* (s.l.) and low efficacy of pyrethroid LLINs in Accra, Ghana.

Extragenital cutaneous warts - clinical presentation, diagnosis and treatment.

Association of the human aryl hydrocarbon receptor repressor (AhRR)-c.565C>G transversion with male infertility: A case-control study from Iran.

Pulmonary hypertension secondary to congenital diaphragmatic hernia: factors and pathways involved in pulmonary vascular remodeling.

Prenatal microRNA miR-200b Therapy Improves Nitrofen-induced Pulmonary Hypoplasia Associated With Congenital Diaphragmatic Hernia.

Environmental toxins and the impact of other endocrine disrupting chemicals in women's reproductive health.

The proportion of alveolar type 1 cells decreases in murine hypoplastic congenital diaphragmatic hernia lungs.

MIF inhibition enhances pulmonary angiogenesis and lung development in congenital diaphragmatic hernia.

Prenatal dioxin exposure and neuropsychological functioning in the Seveso Second Generation Health Study.

Cardiovascular Effects of PCB 126 (3,3',4,4',5-Pentachlorobiphenyl) in Zebrafish Embryos and Impact of Co-Exposure to Redox Modulating Chemicals.

Expression of Nitric Oxide Synthase Interacting Protein (NOSIP) is Decreased in the Pulmonary Vasculature of Nitrofen-Induced Congenital Diaphragmatic Hernia.

Ephrin-B1, -B2, and -B4 Expression is Decreased in Developing Diaphragms and Lungs of Fetal Rats with Nitrofen-Induced Congenital Diaphragmatic Hernia.

Mechanisms of Developmental Toxicity of Dioxins and Related Compounds.

Exposure to environmental concentrations of hexachlorobenzene induces alterations associated with endometriosis progression in a rat model.

Endoplasmic reticulum stress response is activated in pulmonary hypoplasia secondary to congenital diaphragmatic hernia, but is decreased by administration of amniotic fluid stem cells.

Assessment of the nitrofen model of congenital diaphragmatic hernia and of the dysregulated factors involved in pulmonary hypoplasia.

Expression of dispatched RND transporter family member 1 is decreased in the diaphragmatic and pulmonary mesenchyme of nitrofen-induced congenital diaphragmatic hernia.

Environmental Exposure History and Vulvodynia Risk: A Population-Based Study.

Prepubertal exposure to low doses of sodium arsenite impairs spermatogenesis and epididymal histophysiology in rats.

Long-term arsenite exposure induces testicular toxicity by redox imbalance, G2/M cell arrest and apoptosis in mice.

Effects of Simvastatin on Fetal Cardiac Impairment in the Diaphragmatic Experimental Hernia Model.

Comprehensive Analysis of Neurotoxin-Induced Ablation of Dopaminergic Neurons in Zebrafish Larvae.

Effects of dioxin on testicular histopathology, sperm parameters, and CatSper2 gene and protein expression in Naval Medical Research Institute male mice.

Soil microalgae and cyanobacteria: the biotechnological potential in the maintenance of soil fertility and health.

Soil attribute regulates assimilation of roxarsone metabolites by rice (*Oryza sativa* L.).

Benzo[a]pyrene and 2,3-benzofuran induce divergent temporal patterns of AhR-regulated responses in zebrafish embryos (*Danio rerio*).

Effect of in ovo glyphosate injection on embryonic development, serum biochemistry, antioxidant status and histopathological changes in newly hatched chicks.

Effects of Five Substances with Different Modes of Action on Cathepsin H, C and L Activities in Zebrafish Embryos.

Supporting dataset and methods for serum concentrations of selected persistent organic pollutants measured in women with primary ovarian insufficiency.

Estrogen withdrawal and replacement differentially target liver and adipose tissues in female mice fed a high-fat high-sucrose diet: impact of a chronic exposure to a low-dose pollutant mixture(â~+).

Exposure to diclofop-methyl induces immunotoxicity and behavioral abnormalities in zebrafish embryos.

Panax Notoginseng Saponins Ameliorate AÎ²-Mediated Neurotoxicity in *C. elegans* through Antioxidant Activities.

The role of SDF1 in prostate epithelial morphogenesis.

Sodium Arsenite Injection Induces Ovarian Oxidative Stress and Affects Steroidogenesis in Rats.

[The study of exposure levels of dioxin-like compounds in cord blood of newborns in an e-waste dismantling area in Guangdong Province].

Effects of acetochlor on neurogenesis and behaviour in zebrafish at early developmental stages.

Compositional and Functional Differences between Microbiota and Cervical Carcinogenesis as Identified by Shotgun Metagenomic Sequencing.

Ioxynil and diethylstilbestrol disrupt vascular and heart development in zebrafish.

Gut microbiota affects development and olfactory behavior in *Drosophila melanogaster*.

Association of Vitamin B(12), Lactate Dehydrogenase, and Regulation of NF-Î²B in the Mitigation of Sodium Arsenite-Induced ROS Generation in Uterine Tissue by Commercially Available Probiotics.

Dioxin and AHR impairs mesoderm gene expression and cardiac differentiation in human embryonic stem cells.

The testing of an artificial modified bacterial cellulose auricle skeleton in an animal model.

IPSE, a urogenital parasite-derived immunomodulatory protein, ameliorates ifosfamide-induced hemorrhagic cystitis through downregulation of pro-inflammatory pathways.

Developmental Regulation of Nuclear Factor Erythroid-2 Related Factors (nrfs) by AHR1b in Zebrafish (*Danio rerio*).

Paternal Environmental Toxicant Exposure and Risk of Adverse Pregnancy Outcomes.

Prevalence and Antimicrobial Properties of Lactic Acid Bacteria in Nigerian Women During the Menstrual Cycle.

Acetochlor poisoning presenting as acute genital edema: A case report.

The distinct ripening processes in the reproductive and non-reproductive parts of the fig syconium are driven by ABA.

Protective effect of resveratrol on urogenital sinus and prostate development in rats exposed in utero to TCDD (2,3,7,8-tetrachlorodibenzo-p-dioxin).

Effects of glyphosate on the ovarian function of pregnant mice, the secretion of hormones and the sex ratio of their fetuses.

Effects of low, subchronic exposure of 2,4-Dichlorophenoxyacetic acid (2,4-D) and commercial 2,4-D formulations on early life stages of fathead minnows (*Pimephales promelas*).

Pesticide Use and Incident Hypothyroidism in Pesticide Applicators in the Agricultural Health Study.

Acrolein, a commonly found environmental toxin, causes oocyte mitochondrial dysfunction and negatively affects embryo development.

Ameliorative effect of resveratrol on testicular oxidative stress, spermatological parameters and DNA damage in glyphosate-based herbicide-exposed rats.

Endocrine disruptors in breeding ponds and reproductive health of toads in agricultural, urban and natural landscapes.

Seagrass wasting disease: Nitrate enrichment and exposure to a herbicide (Diuron) increases susceptibility of *Zostera marina* to infection.

Embryonic atrazine exposure elicits proteomic, behavioral, and brain abnormalities with developmental time specific gene expression signatures.

Perinatal exposure to a glyphosate-based herbicide impairs female reproductive outcomes and induces second-generation adverse effects in Wistar rats.

Glyphosate affects swine ovarian and adipose stromal cell functions.

Toxicity of atrazine- and glyphosate-based formulations on *Caenorhabditis elegans*.

Sex-specific effects of perinatal dioxin exposure on eating behavior in 3-year-old Vietnamese children.

Glyphosate affects the secretion of regulators of uterine contractions in cows while it does not directly impair the motoric function of myometrium in vitro.

Exposure to an anti-androgenic herbicide negatively impacts reproductive physiology and fertility in *Xenopus tropicalis*.

Toxicity implications for early life stage Japanese medaka (*Oryzias latipes*) exposed to oxyfluorfen.

Melatonin preserves ovarian tissues of rats exposed to chronic TCDD: An electron microscopic approach to effects of TCDD on ovarian cells.

Effects of atrazine on vitellogenesis, steroid levels and lipid peroxidation, in female red swamp crayfish *Procambarus clarkii*.

The herbicide atrazine affects sperm quality and the expression of antioxidant and spermatogenesis genes in zebrafish testes.

A glyphosate-based herbicide reduces fertility, embryonic upper thermal tolerance and alters embryonic diapause of the threatened annual fish *Austrolebias nigrofasciatus*.

Associations of maternal exposure to organophosphate and pyrethroid insecticides and the herbicide 2,4-D with birth outcomes and anogenital distance at 3 months in the Odense Child Cohort.

Changes in Sensitivity to the Effects of Atrazine on the Luteinizing Hormone Surge in Female Sprague-Dawley Rats after Repeated Daily Doses: Correlation with Liver Enzyme Expression.

Toxicity of marine pollutants on the ascidian oocyte physiology: an electrophysiological approach.

Mitochondrial bioenergetics and locomotor activity are altered in zebrafish (*Danio rerio*) after exposure to the bipyridylum herbicide diquat.

Subchronic exposure to kalach 360 SL-induced endocrine disruption and ovary damage in female rats.

Effects of ammonium-based ionic liquids and 2,4-dichlorophenol on the phospholipid fatty acid composition of zebrafish embryos.

Ovarian growth impairment after chronic exposure to Roundup Ultramax® in the estuarine crab *Neohelice granulata*.

Administration of cinnamaldehyde promotes osteogenesis in ovariectomized rats and differentiation of osteoblast in vitro.

Agrochemicals increase risk of human schistosomiasis by supporting higher densities of intermediate hosts.

Expression of the methionine sulfoxide reductase lost during evolution extends *Drosophila* lifespan in a methionine-dependent manner.

Extended fish short term reproduction assays with the fathead minnow and Japanese medaka: No evidence of impaired fecundity from exposure to atrazine.

Acute and chronic toxicity of diuron and carbofuran to the neotropical cladoceran *Ceriodaphnia silvestrii*.

Potential risk of weed outbreak by increasing biochar's application rates in slow-growth legume, lentil (*Lens culinaris* Medik.).

Intra-amniotic Sildenafil Treatment Modulates Vascular Smooth Muscle Cell Phenotype in the Nitrofen Model of Congenital Diaphragmatic Hernia.

Hexachloronaphthalene (HxCN) as a potential endocrine disruptor in female rats.

Impairment of ovaries by 2,3,7,8-tetrachlorobenzo-p-dioxin (TCDD) exposure in utero associated with BMP15 and GDF9 in the female offspring rat.

Prenatal treatment with rosiglitazone attenuates vascular remodeling and pulmonary monocyte influx in experimental congenital diaphragmatic hernia.

Fetal lung transcriptome patterns in an ex vivo compression model of diaphragmatic hernia.

Upregulated EFNB2 and EPHB4 promotes lung development in a nitrofen-induced congenital diaphragmatic hernia rat model.

Isolated hypospadias: The impact of prenatal exposure to pesticides, as determined by meconium analysis.

Sleep disorders among Yusho patients highly intoxicated with dioxin-related compounds: A 140-case series.

Exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin promotes inflammation in mouse testes: The critical role of Klotho in Sertoli cells.

METCAM/MUC18 Decreases the Malignant Propensity of Human Ovarian Carcinoma Cells.

Parental occupational pesticide exposure and nonsyndromic orofacial clefts.

Lung function and pulmonary artery blood flow following prenatal maternal retinoic acid and imatinib in the nitrofen model of congenital diaphragmatic hernia.

Immune response induced by major environmental pollutants through altering neutrophils in zebrafish larvae.

Treatment of rat congenital diaphragmatic hernia with sildenafil and NS-304, selexipag's active compound, at the pseudoglandular stage improves lung vasculature.

Mixed "Antiandrogenic" Chemicals at Low Individual Doses Produce Reproductive Tract Malformations in the Male Rat.

What can we do to optimize stem and progenitor cell therapy for heart failure?

Gata-6 expression is decreased in diaphragmatic and pulmonary mesenchyme of fetal rats with nitrofen-induced congenital diaphragmatic hernia.

Anti-oxidants correct disturbance of redox enzymes in the hearts of rat fetuses with congenital diaphragmatic hernia.

Arjunolic Acid Improves the Serum Level of Vitamin B(12) and Folate in the Process of the Attenuation of Arsenic Induced Uterine Oxidative Stress.

[Effects of prenatal tetrandrine treatment on the expression of Kruppel-like factor 5 and Survivin in the lung of congenital diaphragmatic hernia rat model induced by nitrofen].

Î±-Lipoic acid inhibits testicular and epididymal oxidative damage and improves fertility efficacy in arsenic-intoxicated rats.

Associations Between Disinfection By-Product Exposures and Craniofacial Birth Defects.

Increased CaSR and TRPC6 pulmonary vascular expression in the nitrofen-induced model of congenital diaphragmatic hernia.

Downregulated Elastin Microfibril Interfacer 1 Expression in the Pulmonary Vasculature of Experimental Congenital Diaphragmatic Hernia.

Decreased Expression of Integrin Subunits Î±3, Î±6, and Î±8 in the Branching Airway Mesenchyme of Nitrofen-Induced Hypoplastic Lungs.

Decreased Rac1 Cardiac Expression in Nitrofen-Induced Diaphragmatic Hernia.

Latent forms of the carious lesion of human lower third molars.

STATs in Lung Development: Distinct Early and Late Expression, Growth Modulation and Signaling Dysregulation in Congenital Diaphragmatic Hernia.

Perturbations in Endothelial Dysfunction-Associated Pathways in the Nitrofen-Induced Congenital Diaphragmatic Hernia Model.

Evidence for estrogeno-mimetic effects of a mixture of low-dose pollutants in a model of ovariectomized mice.

Epigenetic Therapy: Novel Translational Implications for Arrest of Environmental Dioxin-Induced Disease in Females.

Prenatal exposure to glycol ethers and cryptorchidism and hypospadias: a nested case-control study.

Association of blood polychlorinated biphenyls and cholesterol levels among Canadian Inuit.

Effects of Endocrine-Disrupting Chemicals and Epigenetic Modifications in Ovarian Cancer: A Review.

Developmental Dioxin Exposure Alters the Methylome of Adult Male Zebrafish Gonads.

Toxicological effects of 3-methyl-4-nitrophenol on mouse ovarian and testicular cell proliferation, apoptosis and oocyte maturation.

Arsenic exposure, profiles of urinary arsenic species, and polymorphism effects of glutathione-s-transferase and metallothioneins.

Study of metabolic activity of human embryos focused on amino acids by capillary electrophoresis with light-emitting diode-induced fluorescence detection.

Integrative transcriptome and microRNome analysis identifies dysregulated pathways in human Sertoli cells exposed to TCDD.

The effect of prenatal exposure on disposition of hexachloronaphthalene in female Wistar rats and fetal compartment.

Environmental and Life-Style Related Risk Factors for Sinonasal and Nasopharyngeal Malignancies among a Prospective Cohort in Jos, Nigeria.

Effects of Agronomic Management and Climate on Leaf Phenolic Profiles, Disease Severity, and Grain Yield in Organic and Conventional Wheat Production Systems.

Glyphosate-based herbicide enhances the uterine sensitivity to estradiol in rats.

Ancestral TCDD Exposure Induces Multigenerational Histologic and Transcriptomic Alterations in Gonads of Male Zebrafish.

Ellagic acid: A promising protective remedy against testicular toxicity induced by arsenic.

Adverse pregnancy outcomes in women with changing patterns of exposure to the emissions of a municipal waste incinerator.

Pharmacologic modeling of primary mitochondrial respiratory chain dysfunction in zebrafish.

Metabolomic assessment of arsenite toxicity and novel biomarker discovery in early development of zebrafish embryos.

Fertility in male rats: Disentangling adverse effects of arsenic compounds.

Explaining the accelerated degradation of ciprofloxacin, sulfamethazine, and erythromycin in different soil exposure scenarios by their aqueous extractability.

Ecotoxicological potential of the biocides terbutryn, octhilonone and methylisothiazolinone: Underestimated risk from biocidal pathways?

2,3,7,8-Tetrachlorodibenzo-p-dioxin can alter the sex ratio of embryos with decreased viability of Y spermatozoa in mice.

Pretty Good or Pretty Bad? The Ovary and Chemicals in Personal Care Products.

Dioxin-like contaminants are no longer a risk to the American eel (*Anguilla rostrata*) in Lake Ontario.

AHR2 required for normal behavioral responses and proper development of the skeletal and reproductive systems in zebrafish.

The ecotoxicity of binary mixtures of Imazamox and ionized ammonia on freshwater copepods: Implications for environmental risk assessment in groundwater bodies.

The consequence of NAC on sodium arsenite-induced uterine oxidative stress.

ATP Binding Cassette Sub-family Member 2 (ABCG2) and Xenobiotic Exposure During Early Mouse Embryonic Stem Cell Differentiation.

The effect of follicular fluid pesticides and polychlorinated biphenyls concentrations on intracytoplasmic sperm injection (ICSI) embryological and clinical outcome.

Evolvement of transgenic male-sterility and fertility-restoration system in rice for production of hybrid varieties.

Safety assessment of transgenic canola RF3 with bar and barstar gene on Sprague-Dawley (SD) rats by 90-day feeding test.

Glyphosate and Roundup(®) alter morphology and behavior in zebrafish.

Facts and Fallacies in the Debate on Glyphosate Toxicity.

Variations in nutrient and trace element composition of rice in an organic rice-frog coculture system.

Agricultural expansion as risk to endangered wildlife: Pesticide exposure in wild chimpanzees and baboons displaying facial dysplasia.

Exposure to atrazine alters behaviour and disrupts the dopaminergic system in *Drosophila melanogaster*.

Military service, deployments, and exposures in relation to amyotrophic lateral sclerosis survival.

Reproductive toxicity of Roundup herbicide exposure in male albino rat.

Cyclophosphamide and acrolein induced oxidative stress leading to deterioration of metaphase II mouse oocyte quality.

Fish short-term reproduction assay with atrazine and the Japanese medaka (*Oryzias latipes*).

Early developmental exposure to pentachlorophenol causes alterations on mRNA expressions of caspase protease family in zebrafish embryos.

Oxidative stress affects sperm performance and ejaculate redox status in subordinate house sparrows.

Exploring the potential confounder of nitrogen fertilizers in the relationship between pesticide exposures and risk of leukemia: a Poisson regression with two-way fixed-effects analysis.

The health consequences of aerial spraying illicit crops: The case of Colombia.

A full life-cycle bioassay with *Cantareus aspersus* shows reproductive effects of a glyphosate-based herbicide suggesting potential endocrine disruption.

Embryonic exposure to the widely-used herbicide atrazine disrupts meiosis and normal follicle formation in female mice.

Exposure to trace amounts of sulfonylurea herbicide tribenuron-methyl causes male sterility in 17 species or subspecies of cruciferous plants.

Evidence for direct effects of glyphosate on ovarian function: glyphosate influences steroidogenesis and proliferation of bovine granulosa but not theca cells in vitro.

Exchange of polar lipids from adults to neonates in *Daphnia magna*: Perturbations in sphingomyelin allocation by dietary lipids and environmental toxicants.

Effects of atrazine and chlorothalonil on the reproductive success, development, and growth of early life stage sockeye salmon (*Oncorhynchus nerka*).

Atrazine exposure elicits copy number alterations in the zebrafish genome.

Effects of a glyphosate-based herbicide on the uterus of adult ovariectomized rats.

Overlooking relevant confounders in the assessment of pesticides and human health: a reply to Mostafalou and Abdollahi.

Effects of atrazine on ovarian growth, in the estuarine crab *Neohelice granulata*.

Neonatal exposure to a glyphosate based herbicide alters the development of the rat uterus.

Reproductive toxicity of linuron following gestational exposure in rats and underlying mechanisms.

Effect of the herbicide atrazine and its metabolite DACT on bovine sperm quality.

Effects of oral administration of 2,4-dichlorophenoxyacetic acid (2,4-D) on reproductive parameters in male Wistar rats.

Oxidative stress intensity-related effects of cadmium (Cd) and paraquat (PQ) on UV-damaged-DNA binding and excision repair activities in zebrafish (*Danio rerio*) embryos.

Pentachlorophenol affected both reproductive and interrenal systems: In silico and in vivo evidence.

Embryo-larval exposure to atrazine reduces viability and alters oxidative stress parameters in *Drosophila melanogaster*.

Cytotoxicity and cellular response mechanisms of water-soluble platinum(II) complexes of lidocaine and phenylcyanamide derivatives.

Local upregulation of transient receptor potential ankyrin 1 and transient receptor potential vanilloid 1 ion channels in rectosigmoid deep infiltrating endometriosis.

The inhibition of myometrial contractions by chlorinated herbicides (atrazine and linuron), and their disruptive effect on the secretory functions of uterine and ovarian cells in cow, in vitro.

Phytochemicals reduce aflatoxin-induced toxicity in chicken embryos.

Neurodevelopmental disorders and pesticide exposure: the northeastern Italian experience.

Effects of pharmaceuticals and personal care products (PPCPs) on multixenobiotic resistance (MXR) related efflux transporter activity in zebrafish (*Danio rerio*) embryos.

Electrophilic aldehyde products of lipid peroxidation selectively adduct to heat shock protein 90 and arylsulfatase A in stallion spermatozoa.

Diverse pathways of epithelial mesenchymal transition related with cancer progression and metastasis and potential effects of endocrine disrupting chemicals on epithelial mesenchymal transition process.

Association of 2,4-dichlorophenol urinary concentrations and olfactory dysfunction in a national sample of middle-aged and older U.S. adults.

Pathogenesis of deep endometriosis.

Lactoferrin or ferrous salts for iron deficiency anemia in pregnancy: A meta-analysis of randomized trials.

Stimulation of ovarian cell proliferation by tetrabromobisphenol A but not tetrachlorobisphenol A through G protein-coupled receptor 30.

Changes in vasoactive pathways in congenital diaphragmatic hernia associated pulmonary hypertension explain unresponsiveness to pharmacotherapy.

Paclitaxel-mediated human aryl hydrocarbon receptor mRNA translation by an internal ribosomal entry site-dependent mechanism.

Aryl Hydrocarbon Receptor Ablation in Cardiomyocytes Protects Male Mice From Heart Dysfunction Induced by NKX2.5 Haploinsufficiency.

Review on arsenic-induced toxicity in male reproductive system and its amelioration.

Polychlorinated biphenyls and its potential role in endometriosis.

Use of anthropogenic nitrogen fertilizers in agriculture is associated with per capita ethanol consumption.

Estimated Maternal Pesticide Exposure from Drinking Water and Heart Defects in Offspring.

Cytotoxic effect of TDZ on human cervical cancer cells.

The Complex Biology of the Aryl Hydrocarbon Receptor and Its Role in the Pituitary Gland.

Fetal Cardiac Impairment in Nitrofen-Induced Congenital Diaphragmatic Hernia: Postmortem Microcomputed Tomography Imaging Study.

High Consumption of Iron Exacerbates Hyperlipidemia, Atherosclerosis, and Female Sterility in Zebrafish via Acceleration of Glycation and Degradation of Serum Lipoproteins.

Mitochondrion to endoplasmic reticulum apposition length in zebrafish embryo spinal progenitors is unchanged in response to perturbations associated with Alzheimer's disease.

Progesterone resistance in endometriosis: origins, consequences and interventions.

Down-regulation of N-deacetylase-N-sulfotransferase-1 signaling in the developing diaphragmatic vasculature of nitrofen-induced congenital diaphragmatic hernia.

Protective Effects of Curcumin against Sodium Arsenite-induced Ovarian Oxidative Injury in a Mouse Model.

Elastase and matrix metalloproteinase activities are associated with pulmonary vascular disease in the nitrofen rat model of congenital diaphragmatic hernia.

Downregulation of KCNQ5 expression in the rat pulmonary vasculature of nitrofen-induced congenital diaphragmatic hernia.

Follistatin-like 1 expression is decreased in the alveolar epithelium of hypoplastic rat lungs with nitrofen-induced congenital diaphragmatic hernia.

Suppressed erythropoietin expression in a nitrofen-induced congenital diaphragmatic hernia.

Environmental pollutants, a possible etiology for premature ovarian insufficiency: a narrative review of animal and human data.

Endocrine disrupting compounds modulates adiponectin secretion, expression of its receptors and action on steroidogenesis in ovarian follicle.

Seminal cell-free DNA levels measured by PicoGreen fluorochrome are associated with sperm fertility criteria.

Evaluation of sodium arsenite exposure on reproductive competence in pregnant and postlactational dams and their offspring.

Protective effects of levamisole, acetylsalicylic acid, and α -tocopherol against dioxin toxicity measured as the expression of AhR and COX-2 in a chicken embryo model.

Dioxin-like rather than non-dioxin-like PCBs promote the development of endometriosis through stimulation of endocrine-inflammation interactions.

IL-27 triggers IL-10 production in Th17 cells via a c-Maf/ROR γ t/Blimp-1 signal to promote the progression of endometriosis.

Bisphenol A and its derivatives tetrabromobisphenol A and tetrachlorobisphenol A induce apelin expression and secretion in ovarian cancer cells through a peroxisome proliferator-activated receptor gamma-dependent mechanism.

Exposure to the environmental endocrine disruptor TCDD and human reproductive dysfunction: Translating lessons from murine models.

Expression of T-box transcription factors 2, 4 and 5 is decreased in the branching airway mesenchyme of nitrofen-induced hypoplastic lungs.

Decreased Endoglin expression in the pulmonary vasculature of nitrofen-induced congenital diaphragmatic hernia rat model.

Pesticides: an update of human exposure and toxicity.

Imbalance of NFATc2 and KV1.5 Expression in Rat Pulmonary Vasculature of Nitrofen-Induced Congenital Diaphragmatic Hernia.

Fibrillin-1 Expression Is Decreased in the Diaphragmatic Muscle Connective Tissue of Nitrofen-Induced Congenital Diaphragmatic Hernia.

Epidemiology of endometriosis and its comorbidities.

Endocrine disruptors affect larval zebrafish behavior: Testing potential mechanisms and comparisons of behavioral sensitivity to alternative biomarkers.

Photophysicochemical, calf thymus DNA binding and in vitro photocytotoxicity properties of tetra-morpholinoethoxy-substituted phthalocyanines and their water-soluble quaternized derivatives.

Fertility enhancing activity and toxicity profile of aqueous extract of Chasmanthera dependens roots in male rats.

Role of catalytic iron and oxidative stress in nitrofen-induced congenital diaphragmatic hernia and its amelioration by Saireito (TJ-114).

Detection Methodologies for Pathogen and Toxins: A Review.

Relation of dietary inorganic arsenic exposure and urinary inorganic arsenic metabolites excretion in Japanese subjects.

Single-cell time-lapse imaging of intracellular O(2) in response to metabolic inhibition and mitochondrial cytochrome-c release.

Histopathological changes in zebrafish embryos exposed to DLPCBs extract from Zhanjiang coastal sediment.

Evaluation of vascular effect of arsenic using in vivo assays.

Exposure to endocrine disruptors during adulthood: consequences for female fertility.

Expression of advanced glycation end-products and NF κ B in chick embryos exposed to dioxins and treated with acetylsalicylic acid and α -tocopherol.

Cell and region specificity of Aryl hydrocarbon Receptor (AhR) system in the testis and the epididymis.

Spermatogenesis disruption by dioxins: Epigenetic reprogramming and windows of susceptibility.

Biomarker Levels of Toxic Metals among Asian Populations in the United States: NHANES 2011-2012.

Trade-off between carotenoid-based sexual ornamentation and sperm resistance to oxidative challenge.

Effects of Chronic Exposure to Sodium Arsenite on Expressions of VEGF and VEGFR2 Proteins in the Epididymis of Rats.

Occupational exposure to pesticides, reproductive hormone levels and sperm quality in young Brazilian men.

Reduced cytotoxicity in PCB-exposed Chinese Hamster Ovary (CHO) cells pretreated with vitamin E.

Influence of waterborne gallic and pelargonic acid exposures on biochemical and reproductive parameters in the zebrafish (Danio rerio).

Prenatal Paraquat exposure induces neurobehavioral and cognitive changes in mice offspring.

Stereoselective induction of developmental toxicity and immunotoxicity by acetochlor in the early life stage of zebrafish.

PPAR α -dependent cholesterol/testosterone disruption in Leydig cells mediates 2,4-dichlorophenoxyacetic acid-induced testicular toxicity in mice.

The transcription factor, Nuclear factor, erythroid 2 (Nfe2), is a regulator of the oxidative stress response during *Danio rerio* development.

Effects of neonatal exposure to a glyphosate-based herbicide on female rat reproduction.

Rheumatoid Arthritis in Agricultural Health Study Spouses: Associations with Pesticides and Other Farm Exposures.

Honey bee (*Apis mellifera*) drones survive oxidative stress due to increased tolerance instead of avoidance or repair of oxidative damage.

Triazine herbicides inhibit relaxin signaling and disrupt nitric oxide homeostasis.

Glyphosate induces cardiovascular toxicity in *Danio rerio*.

Embryonic Atrazine Exposure Elicits Alterations in Genes Associated with Neuroendocrine Function in Adult Male Zebrafish.

Atrazine in public water supplies and risk of ovarian cancer among postmenopausal women in the Iowa Women's Health Study.

Peace and Reconciliation.

Atrazine exposure affects longevity, development time and body size in *Drosophila melanogaster*.

The combined influence of two agricultural contaminants on natural communities of phytoplankton and zooplankton.

Ecotoxicological hazards of herbicides on biological attributes of *Zygogramma bicolorata* Pallister (Coleoptera: Chrysomelidae).

Treatment by glyphosate-based herbicide alters life history parameters of the rose-grain aphid *Metopolophium dirhodum*.

Glyphosate and adverse pregnancy outcomes, a systematic review of observational studies.

Agricultural Compounds in Water and Birth Defects.

Effects of Roundup formulations, nutrient addition, and Western mosquitofish (*Gambusia affinis*) on aquatic communities.

Impacts of 2,4-dichlorophenoxyacetic acid aquatic herbicide formulations on reproduction and development of the fathead minnow (*Pimephales promelas*).

Thyroid endocrine disruption of acetochlor on zebrafish (*Danio rerio*) larvae.

The developmental effects of pentachlorophenol on zebrafish embryos during segmentation: A systematic view.

Health Care for Certain Children of Vietnam Veterans and Certain Korea Veterans--Covered Birth Defects and Spina Bifida. Final rule.

Atrazine and malathion shorten the maturation process of *Xenopus laevis* oocytes and have an adverse effect on early embryo development.

The endocrine disruptor effect of the herbicides atrazine and glyphosate on *Biomphalaria alexandrina* snails.

Impact of phosphate on glyphosate uptake and toxicity in willow.

Estrogenic activities of diuron metabolites in female Nile tilapia (*Oreochromis niloticus*).

An embryonic atrazine exposure results in reproductive dysfunction in adult zebrafish and morphological alterations in their offspring.

Perturbations in polar lipids, starvation survival and reproduction following exposure to unsaturated fatty acids or environmental toxicants in *Daphnia magna*.

Dioxins and cytogenetic status of villagers after 40 years of agent Orange application in Vietnam.

Chronic Exposure to Diquat Causes Reproductive Toxicity in Female Mice.

Toxic effects of 2,4-dichlorophenoxyacetic acid on human sperm function in vitro.

Amphibian (*Euphyctis cyanophlyctis*) in vitro ovarian culture system to assess impact of aquatic agrochemical contaminants on female reproduction.

New water-soluble palladium(II) complexes of lidocaine and phenylcyanamide derivative ligands: cytotoxicity and cellular response mechanisms.

A neoflavonoid dalsissoal isolated from heartwood of *Dalbergia sissoo* Roxb. has bone forming effects in mice model for osteoporosis.

Hypospadias and maternal exposure to atrazine via drinking water in the National Birth Defects Prevention study.

Military service, deployments, and exposures in relation to amyotrophic lateral sclerosis etiology.

Urinary inorganic arsenic concentrations and semen quality of male partners of subfertile couples in Tokyo.

Low dose cyclophosphamide: Mechanisms of T cell modulation.

Arsenic Metabolites, Including N-Acetyl-4-hydroxy-m-arsanilic Acid, in Chicken Litter from a Roxarsone-Feeding Study Involving 1600 Chickens.

Boule gene expression underpins the meiotic arrest in spermatogenesis in male rainbow trout (*Oncorhynchus mykiss*) exposed to DEHP and butachlor.

Expression of Prx1 and Tcf4 is decreased in the diaphragmatic muscle connective tissue of nitrofen-induced congenital diaphragmatic hernia.

Downregulation of Forkhead box F1 gene expression in the pulmonary vasculature of nitrofen-induced congenital diaphragmatic hernia.

Decreased Desmin expression in the developing diaphragm of the nitrofen-induced congenital diaphragmatic hernia rat model.

Distribution of persistent organic pollutants in serum, omental, and parietal adipose tissue of French women with deep infiltrating endometriosis and circulating versus stored ratio as new marker of exposure.

Assessment of ICount software, a precise and fast egg counting tool for the mosquito vector *Aedes aegypti*.

Low-level environmental arsenic exposure correlates with unexplained male infertility risk.

Paternal and joint parental occupational pesticide exposure and spina bifida in the National Birth Defects Prevention Study, 1997 to 2002.

Lipocalin 2 as a new biomarker for fetal lung hypoplasia in congenital diaphragmatic hernia.

Syndromic microphthalmia-3 caused by a mutation on gene SOX2 in a Colombian male patient.

Modern Strategy for Identification of Congenital Heart Defects in the Neonatal Period.

Clinically relevant timing of antenatal sildenafil treatment reduces pulmonary vascular remodeling in congenital diaphragmatic hernia.

Decreased expression of hepatocyte growth factor in the nitrofen model of congenital diaphragmatic hernia.

Improved pulmonary function in the nitrofen model of congenital diaphragmatic hernia following prenatal maternal dexamethasone and/or sildenafil.

Sperm quality and fertility in rats after prenatal exposure to low doses of TCDD: A three-generation study.

Targeting of Micelles and Liposomes Loaded with the Pro-Apoptotic Drug, NCL-240, into NCI/ADR-RES Cells in a 3D Spheroid Model.

Antenatal Saireito (TJ-114) Can Improve Pulmonary Hypoplasia and Pulmonary Vascular Remodeling in Nitrofen-Induced Congenital Diaphragmatic Hernia.

Semen characteristics and sperm morphology of *Pistia stratiotes* Linn. (Araceae) protected male albino rats (Wistar strain) exposed to sodium arsenite.

Diabetes Prevalence in Relation to Serum Concentrations of Polychlorinated Biphenyl (PCB) Congener Groups and Three Chlorinated Pesticides in a Native American Population.

Effects of Prenatal Environmental Exposures on the Development of Endometriosis in Female Offspring.

Enhanced Pulmonary Vascular and Alveolar Development via Prenatal Administration of a Slow-Release Synthetic Prostacyclin Agonist in Rat Fetal Lung Hypoplasia.

Protective effect of prostacyclin against pre-cardiac edema caused by 2,3,7,8-tetrachlorodibenzo-p-dioxin and a thromboxane receptor agonist in developing zebrafish.

Endometrial expression and in vitro modulation of the iron transporter divalent metal transporter-1: implications for endometriosis.

In vitro and in vivo effects of the phytohormone inhibitor fluridone against *Neospora caninum* infection.

Physiological Aspects of Female Fertility: Role of the Environment, Modern Lifestyle, and Genetics.

Decreased expression of miR-33 in fetal lungs of nitrofen-induced congenital diaphragmatic hernia rat model.

Supplementation during pregnancy: beliefs and science.

Tracheal occlusion and ventilation changes the nitric oxide pathway in congenital diaphragmatic hernia model.

Enhanced cyclooxygenase-2 expression levels and metalloproteinase 2 and 9 activation by Hexachlorobenzene in human endometrial stromal cells.

Decreased expression of monocarboxylate transporter 1 and 4 in the branching airway epithelium of nitrofen-induced congenital diaphragmatic hernia.

Combined antenatal therapy with retinoic acid and tracheal occlusion in a rat model of congenital diaphragmatic hernia.

Increased c-kit and stem cell factor expression in the pulmonary vasculature of nitrofen-induced congenital diaphragmatic hernia.

The transcriptome of nitrofen-induced pulmonary hypoplasia in the rat model of congenital diaphragmatic hernia.

Investigating paternal preconception risk factors for adverse pregnancy outcomes in a population of internet users.

Public health and international drug policy.

Antenatal retinoic acid administration increases trophoblastic retinol-binding protein dependent retinol transport in the nitrofen model of congenital diaphragmatic hernia.

[Effects of Tetrandrine Prenatal Intervention on Alveolar Epithelial Cells Type I Differentiation in Rat Model of Nitrofen-induced Congenital Diaphragmatic Hernia].

Effects of in Utero Exposure to Arsenic during the Second Half of Gestation on Reproductive End Points and Metabolic Parameters in Female CD-1 Mice.

Expression of hepatic lipid droplets is decreased in the nitrofen model of congenital diaphragmatic hernia.

Upregulation of S1P1 and Rac1 receptors in the pulmonary vasculature of nitrofen-induced congenital diaphragmatic hernia.

The Role of Activin Receptor-Like Kinase 1 Signaling in the Pulmonary Vasculature of Experimental Diaphragmatic Hernia.

Possible role of increased oxidative stress in pulmonary hypertension in experimental diaphragmatic hernia.

Mesenchymal expression of the FRAS1/FREM2 gene unit is decreased in the developing fetal diaphragm of nitrofen-induced congenital diaphragmatic hernia.

Levels of dioxin-like PCBs in low-volume serum samples of male patients attending fertility clinics.

Gene Expression of FRAS1-Related Extracellular Matrix 1 Is Decreased in Nitrofen-Induced Congenital Diaphragmatic Hernia.

Developmental toxicity, EROD, and CYP1A mRNA expression in zebrafish embryos exposed to dioxin-like PCB126.

Exaggerated arsenic nephrotoxicity in female mice through estrogen-dependent impairments in the autophagic flux.

Effects of sodium arsenate and arsenite on male reproductive functions in Wistar rats.

[Study on congenital cardiac anomalies induced by arsenic exposure before and during maternal pregnancy in fetal rats].

Residential agricultural pesticide exposures and risks of selected birth defects among offspring in the San Joaquin Valley of California.

The effect of zinc supplementation on pregnancy outcome: a randomized controlled trial.

Effects of PCB 126 and PCB 153 on secretion of steroid hormones and mRNA expression of steroidogenic genes (STAR, HSD3B, CYP19A1) and estrogen receptors ($ER\alpha$, $ER\beta$) in prehierarchal chicken ovarian follicles.

Dietary micronutrient intake and its relationship with arsenic metabolism in Mexican women.

Assessment of oxidative stress and activities of antioxidant enzymes depicts the negative systemic effect of iron-containing fertilizers and plant phenolic compounds in the desert locust.

Associations of Peripubertal Serum Dioxin and Polychlorinated Biphenyl Concentrations with Pubertal Timing among Russian Boys.

Soil organic matter content effects on dermal pesticide bioconcentration in American toads (*Bufo americanus*).

Endophytic *Trichoderma gamsii* YIM PH30019: a promising biocontrol agent with hyperosmolar, mycoparasitism, and antagonistic activities of induced volatile organic compounds on root-rot pathogenic fungi of *Panax notoginseng*.

Histological and Transcriptomic Changes in Male Zebrafish Testes Due to Early Life Exposure to Low Level 2,3,7,8-Tetrachlorodibenzo-p-Dioxin.

Developmental Toxicant Exposure Is Associated with Transgenerational Adenomyosis in a Murine Model.

Impact of co-exposure with butachlor and triadimefon on thyroid endocrine system in larval zebrafish.

MEKC-LIF method for analysis of amino acids after on-capillary derivatization by transverse diffusion of laminar flow profiles mixing of reactants for assessing developmental capacity of human embryos after in vitro fertilization.

The beneficial effects of Montelukast against 2,3,7,8-tetrachlorodibenzo- p -dioxin toxicity in female reproductive system in rats.

Embryotoxicity of nitrophenols to the early life stages of zebrafish (*Danio rerio*).

Monohaloacetic acid drinking water disinfection by-products inhibit follicle growth and steroidogenesis in mouse ovarian antral follicles in vitro.

Lethal and sublethal effects of pesticides on *Chrysoperla carnea* larvae (Neuroptera: Chrysopidae) and the influence of rainfall on their degradation pattern over time.

Somatic embryogenesis and plant regeneration of *Capsicum baccatum* L.

Energy Utilization for Survival and Fertilization-Parsimonious Quiescent Sperm Turn Extravagant on Motility Activation in Rat.

Effects of Common Pesticides on Prostaglandin D2 (PGD2) Inhibition in SC5 Mouse Sertoli Cells, Evidence of Binding at the COX-2 Active Site, and Implications for Endocrine Disruption.

Developmental toxicity, oxidative stress, and related gene expression induced by dioxin-like PCB 126 in zebrafish (*Danio rerio*).

Exposure Variation and Endocrine Disruption of the Male Reproductive System.

The combined effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin and the phytoestrogen genistein on steroid hormone secretion, AhR and ER α expression and the incidence of apoptosis in granulosa cells of medium porcine follicles.

Maternally transferred dioxin-like compounds can affect the reproductive success of European eel.

Effect of sodium arsenite on reproductive organs of female Wistar rats.

Tribenuron-Methyl Induces Male Sterility through Anther-Specific Inhibition of Acetolactate Synthase Leading to Autophagic Cell Death.

Disparities in Infant Mortality Due to Congenital Anomalies on Guam.

Atrazine triggers developmental abnormality of ovary and oviduct in quails (*Coturnix Coturnix coturnix*) via disruption of hypothalamo-pituitary-ovarian axis.

Prenatal pesticide exposure and otitis media during early childhood in the PELAGIE mother-child cohort.

The Air Force Health Study Data and Specimens as a Resource for Researchers.

Effect of Age, Duration of Exposure, and Dose of Atrazine on Sexual Maturation and the Luteinizing Hormone Surge in the Female Sprague-Dawley Rat.

Cyhalofop-butyl has the potential to induce developmental toxicity, oxidative stress and apoptosis in early life stage of zebrafish (*Danio rerio*).

Proteomics analysis of *Xenopus laevis* gonad tissue following chronic exposure to atrazine.

Developmental origins of neurotransmitter and transcriptome alterations in adult female zebrafish exposed to atrazine during embryogenesis.

Dicamba affects sex steroid hormone level and mRNA expression of related genes in adult rare minnow (*Gobiocypris rarus*) at environmentally relevant concentrations.

Traditional chinese medicine Xuebijing treatment is associated with decreased mortality risk of patients with moderate paraquat poisoning.

Glyphosate, pathways to modern diseases III: Manganese, neurological diseases, and associated pathologies.

Effects of the novel pyrimidinyloxybenzoic herbicide ZJ0273 on enzyme activities, microorganisms and its degradation in Chinese soils.

Assessing atrazine-induced toxicities in *Bufo bufo gargarizans* Cantor.

Relative developmental toxicities of pentachloroanisole and pentachlorophenol in a zebrafish model (*Danio rerio*).

Drinking well water and occupational exposure to Herbicides is associated with chronic kidney disease, in Padavi-Sripura, Sri Lanka.

Environmental hormones and their impacts on sex differentiation in fathead minnows.

Effect of titanium dioxide nanoparticles on the bioavailability, metabolism, and toxicity of pentachlorophenol in zebrafish larvae.

Renal function is associated with indicators of arsenic methylation capacity in Bangladeshi adults.

Effects of atrazine on estrogen receptor $\hat{\pm}$ - and G protein-coupled receptor 30-mediated signaling and proliferation in cancer cells and cancer-associated fibroblasts.

Accumulation of electrophilic aldehydes during postovulatory aging of mouse oocytes causes reduced fertility, oxidative stress, and apoptosis.

Effective attenuation of atrazine-induced histopathological changes in testicular tissue by antioxidant N-phenyl-4-aryl-polyhydroquinolines.

Disruption of Ah Receptor Signaling during Mouse Development Leads to Abnormal Cardiac Structure and Function in the Adult.

Correlation between dioxin and endometriosis: an epigenetic route to unravel the pathogenesis of the disease.

Maternal occupational pesticide exposure and risk of congenital heart defects in the National Birth Defects Prevention Study.

Dioxins in the semen of men with infertility.

Association between levels of persistent organic pollutants in adipose tissue and cryptorchidism in early childhood: a case-control study.

Increased pulmonary RhoA expression in the nitrofen-induced congenital diaphragmatic hernia rat model.

Detection of urine metabolites in polycystic ovary syndrome by UPLC triple-TOF-MS.

Neuroendocrine factors regulate retinoic acid receptors in normal and hypoplastic lung development.

Medical interventions to reverse pulmonary hypoplasia in the animal model of congenital diaphragmatic hernia: A systematic review.

Environmental pesticides increase the risk of developing hypertrophic pyloric stenosis.

Defective parasympathetic innervation is associated with airway branching abnormalities in experimental CDH.

[Reevaluation of the concept of developmental abnormality: the importance of faulty perinatal imprinting].

Lower NPAS3 expression during the later stages of abnormal lung development in rat congenital diaphragmatic hernia.

Exposure to polychlorinated biphenyls and hexachlorobenzene, semen quality and testicular cancer risk.

Kif7 expression is decreased in the diaphragmatic and pulmonary mesenchyme of nitrofen-induced congenital diaphragmatic hernia.

Increased expression of activated pSTAT3 and PIM-1 in the pulmonary vasculature of experimental congenital diaphragmatic hernia.

Combined 17 β -Estradiol with TCDD Promotes M2 Polarization of Macrophages in the Endometriotic Milieu with Aid of the Interaction between Endometrial Stromal Cells and Macrophages.

Increased pulmonary vascular expression of receptor for advanced glycation end products (RAGE) in experimental congenital diaphragmatic hernia.

Ventilation causes pulmonary vascular dilation and modulates the NOS and VEGF pathway on newborn rats with CDH.

Dioxin inhibition of swim bladder development in zebrafish: is it secondary to heart failure?

Increased levels of dioxin-like substances in adipose tissue in patients with deep infiltrating endometriosis.

Pax3 and Pax7 play essential safeguard functions against environmental stress-induced birth defects.

Optimizing early child development for young children with non-anemic iron deficiency in the primary care practice setting (OptEC): study protocol for a randomized controlled trial.

Prevention of pulmonary hypoplasia and pulmonary vascular remodeling by antenatal simvastatin treatment in nitrofen-induced congenital diaphragmatic hernia.

Internal exposure to organochlorine pollutants and cadmium and self-reported health status: a prospective study.

Cardiac toxicity by sublethal 2,3,7,8-tetrachlorodibenzo-p-dioxin correlates with its anti-proliferation effect on cardiomyocytes in zebrafish embryos.

Lysyl oxidase expression is decreased in the developing diaphragm and lungs of nitrofen-induced congenital diaphragmatic hernia.

Metabolic disturbances of the vitamin A pathway in human diaphragmatic hernia.

Environment and Endometriosis: a toxic relationship.

Decidual β -carotene-15,15'-oxygenase-1 and 2 (BCMO1,2) expression is increased in nitrofen model of congenital diaphragmatic hernia.

Disruption of copper-dependent signaling pathway in the nitrofen-induced congenital diaphragmatic hernia.

Effect of PCB 126 on aryl hydrocarbon receptor 1 (AHR1) and AHR1 nuclear translocator 1 (ARNT1) mRNA expression and CYP1 monooxygenase activity in chicken (*Gallus domesticus*) ovarian follicles.

Determination of Heavy Metal Concentrations in Normal and Pathological Human Endometrial Biopsies and In Vitro Regulation of Gene Expression by Metals in the Ishikawa and Hec-1b Endometrial Cell Line.

A fetal whole ovarian culture model for the evaluation of CrVI-induced developmental toxicity during germ cell nest breakdown.

Do hormone-modulating chemicals impact on reproduction and development of wild amphibians?

Targeted Mutagenesis, Precise Gene Editing, and Site-Specific Gene Insertion in Maize Using Cas9 and Guide RNA.

Expression of aryl hydrocarbon receptor 1 (AHR1), AHR1 nuclear translocator 1 (ARNT1) and CYP1 family monooxygenase mRNAs and their activity in chicken ovarian follicles following in vitro exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Body Mass Parameters, Lipid Profiles and Protein Contents of Zebrafish Embryos and Effects of 2,4-Dinitrophenol Exposure.

Butafenacil: A positive control for identifying anemia- and variegate porphyria-inducing chemicals.

Phytoremedial effect of *Withania somnifera* against arsenic-induced testicular toxicity in Charles Foster rats.

Effects of Endocrine-Disrupting Chemicals on the Ovary.

Metals exposure and risk of small-for-gestational age birth in a Canadian birth cohort: The MIREC study.

A rapid in vivo zebrafish model to elucidate oxidative stress-mediated PCB126-induced apoptosis and developmental toxicity.

Illegal Dumping of Toxic Waste and Its Effect on Human Health in Campania, Italy.

Triphenyl phosphate-induced developmental toxicity in zebrafish: potential role of the retinoic acid receptor.

Comparative transcriptome analysis reveals carbohydrate and lipid metabolism blocks in *Brassica napus* L. male sterility induced by the chemical hybridization agent monosulfuron ester sodium.

Phosphate fertilizer is a main source of arsenic in areas affected with chronic kidney disease of unknown etiology in Sri Lanka.

Quantitative proteomics and transcriptomics reveal key metabolic processes associated with cotton fiber initiation.

Pollutants in pet dogs: a model for environmental links to breast cancer.

Association between Environmental Dioxin-Related Toxicants Exposure and Adverse Pregnancy Outcome: Systematic Review and Meta-Analysis.

Effect of a homeopathic complex on reproductive performance in a commercial pig farm.

Effect of occupational polychlorinated biphenyls exposure on quality-adjusted life years over time at the HELPCB surveillance program.

The impact of Eskoba, a glyphosate formulation, on the freshwater plankton community.

Parental military service, agent orange exposure, and the risk of rhabdomyosarcoma in offspring.

Psychiatric comorbidity and its impact on mortality in patients who attempted suicide by paraquat poisoning during 2000-2010.

Impaired development of female mouse offspring maternally exposed to simazine.

Carcinogenicity of metamifop, a novel herbicide, in Wistar rats following oral administration for 104 weeks.

The response of amphibian larvae to exposure to a glyphosate-based herbicide (Roundup WeatherMax) and nutrient enrichment in an ecosystem experiment.

Effect of glyphosate on the sperm quality of zebrafish *Danio rerio*.

Prediction of paraquat exposure and toxicity in clinically ill poisoned patients: a model based approach.

Butachlor causes disruption of HPG and HPT axes in adult female rare minnow (*Gobiocypris rarus*).

Indicators of the statuses of amphibian populations and their potential for exposure to atrazine in four midwestern U.S. conservation areas.

The direct and indirect effects of a glyphosate-based herbicide and nutrients on Chironomidae (Diptera) emerging from small wetlands.

Assessing multiple endpoints of atrazine ingestion on gravid Northern Watersnakes (*Nerodia sipedon*) and their offspring.

Effect of glyphosate-based herbicide on early life stages of Java medaka (*Oryzias javanicus*): a potential tropical test fish.

A quantitative HPLC-MS/MS method for studying internal concentrations and toxicokinetics of 34 polar analytes in zebrafish (*Danio rerio*) embryos.

Agent Orange exposure and disease prevalence in Korean Vietnam veterans: the Korean veterans health study.

Effects of glyphosate on egg incubation, larvae hatching, and ovarian rematuration in the estuarine crab *Neohelice granulata*.

The effect of atrazine administered by gavage or in diet on the LH surge and reproductive performance in intact female Sprague-Dawley and Long Evans rats.

Atrazine and pregnancy outcomes: a systematic review of epidemiologic evidence.

Pentachlorophenol exposure causes Warburg-like effects in zebrafish embryos at gastrulation stage.

Effect of Nrf2 on rat ovarian tissues against atrazine-induced anti-oxidative response.

Soil carbon and nitrogen dynamics in the first year following herbicide and scalping in a revegetation trial in south-east Queensland, Australia.

A high constitutive catalase activity confers resistance to methyl viologen-promoted oxidative stress in a mutant of the cyanobacterium *Nostoc punctiforme* ATCC 29133.

Maternal periconceptional occupational exposure to pesticides and selected musculoskeletal birth defects.

Effects of glyphosate and its formulation, roundup, on reproduction in zebrafish (*Danio rerio*).

Changes in ultrastructure and expression of steroidogenic factor-1 in ovaries of zebrafish *Danio rerio* exposed to glyphosate.

Effects of multigenerational exposures of *D. magna* to environmentally relevant concentrations of pentachlorophenol.

Imbalance of caveolin-1 and eNOS expression in the pulmonary vasculature of experimental diaphragmatic hernia.

Polyphenols bearing cinnamaldehyde scaffold showing cell growth inhibitory effects on the cisplatin-resistant A2780/Cis ovarian cancer cells.

Sub-lethal glyphosate exposure alters flowering phenology and causes transient male-sterility in *Brassica* spp.

Compositional analysis of grain and forage from MON 87427, an inducible male sterile and tissue selective glyphosate-tolerant maize product for hybrid seed production.

Prenatal administration of neuropeptide bombesin promotes lung development in a rat model of nitrofen-induced congenital diaphragmatic hernia.

2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD) inhibits human ovarian cancer cell proliferation.

Prenatal administration of all-trans retinoic acid upregulates leptin signaling in hypoplastic rat lungs with experimental congenital diaphragmatic hernia.

Increased pulmonary vascular expression of KrÄppel-like factor 5 and activated survivin in experimental congenital diaphragmatic hernia.

Antenatal use of bosentan and/or sildenafil attenuates pulmonary features in rats with congenital diaphragmatic hernia.

Maternal periconceptional occupational pesticide exposure and neural tube defects.

Epimorphin expression in a rat model of pulmonary hypoplasia associated with congenital diaphragmatic hernia.

Mitochondrial uncoupling as a regulator of life-history trajectories in birds: an experimental study in the zebra finch.

Association of urinary phenols with increased body weight measures and obesity in children and adolescents.

Evidence for decreased lipofibroblast expression in hypoplastic rat lungs with congenital diaphragmatic hernia.

Nitrofen increases total retinol levels in placenta during lung morphogenesis in the nitrofen model of congenital diaphragmatic hernia.

Monitoring chlorinated persistent organic pollutants in adolescents in Flanders (Belgium): concentrations, trends and dose-effect relationships (FLEHS II).

Safety and efficacy of lactoferrin versus ferrous sulphate in curing iron deficiency and iron deficiency anaemia in hereditary thrombophilia pregnant women: an interventional study.

Medication exposure during pregnancy: a pilot pharmacovigilance system using health and demographic surveillance platform.

Therapeutic potential of mesenchymal stem cell transplantation in a nitrofen-induced congenital diaphragmatic hernia rat model.

Myogenin gene expression is not altered in the developing diaphragm of nitrofen-induced congenital diaphragmatic hernia.

Cardiac myocyte-specific AHR activation phenocopies TCDD-induced toxicity in zebrafish.

In utero exposure to TCDD alters Wnt signaling during mouse prostate development: linking ventral prostate agenesis to downregulated β^2 -catenin signaling.

Pesticide exposure and depression among male private pesticide applicators in the agricultural health study.

Involvement of COX2-thromboxane pathway in TCDD-induced precardiac edema in developing zebrafish.

Pesticide use and incident diabetes among wives of farmers in the Agricultural Health Study.

TCDD-induced chick cardiotoxicity is abolished by a selective cyclooxygenase-2 (COX-2) inhibitor NS398.

Doppler parameters of fetal lung hypoplasia and impact of sildenafil.

Developmental exposure of mice to dioxin promotes transgenerational testicular inflammation and an increased risk of preterm birth in unexposed mating partners.

High-content screening in zebrafish embryos identifies butafenacil as a potent inducer of anemia.

The importance of heart murmur in the neonatal period and justification of echocardiographic review.

Clinical and etiological heterogeneity in patients with tracheo-esophageal malformations and associated anomalies.

Birth defects and congenital health risks in children conceived through assisted reproduction technology (ART): a meeting report.

Aryl hydrocarbon receptor catabolic activity in bone metabolism is osteoclast dependent in vivo.

Metabolites of tobacco smoking and colorectal cancer risk.

Prenatal retinoic acid increases lipofibroblast expression in hypoplastic rat lungs with experimental congenital diaphragmatic hernia.

Upregulation of serotonin-receptor-2a and serotonin transporter expression in the pulmonary vasculature of nitrofen-induced congenital diaphragmatic hernia.

Increased uptake of dietary retinoids at the maternal-fetal barrier in the nitrofen model of congenital diaphragmatic hernia.

Amniotic fluid derived mesenchymal stromal cells augment fetal lung growth in a nitrofen explant model.

Peroxiredoxin I protein, a potential biomarker of hydronephrosis in fetal mice exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Heritability and clinical determinants of serum indoxyl sulfate and p-cresyl sulfate, candidate biomarkers of the human microbiome enterotype.

Standardization of pulmonary ventilation technique using volume-controlled ventilators in rats with congenital diaphragmatic hernia.

Cisplatin plus sodium arsenite and hyperthermia induces pseudo-G1 associated apoptotic cell death in ovarian cancer cells.

Downregulation of p300 gene expression in airway mesenchyme of nitrofen-induced hypoplastic lungs.

Using zebrafish as a model system for studying the transgenerational effects of dioxin.

Enteric nervous system and esophageal-gastrointestinal motility in experimental congenital diaphragmatic hernia.

Residential agricultural pesticide exposures and risk of neural tube defects and orofacial clefts among offspring in the San Joaquin Valley of California.

Transgenic pearl millet male fertility restorer line (ICMP451) and hybrid (ICMH451) expressing Brassica juncea Nonexpressor of pathogenesis related genes 1 (BjNPR1) exhibit resistance to downy mildew disease.

Persistent environmental pollutants and couple fecundity: an overview.

Expression of Eya1 and Six1 is decreased in distal airways of rats with experimental pulmonary hypoplasia.

VEGF receptor expression decreases during lung development in congenital diaphragmatic hernia induced by nitrofen.

Disruption of THY-1 signaling in alveolar lipofibroblasts in experimentally induced congenital diaphragmatic hernia.

Decreased apelin and apelin-receptor expression in the pulmonary vasculature of nitrofen-induced congenital diaphragmatic hernia.

Prenatal administration of retinoic acid increases the trophoblastic insulin-like growth factor 2 protein expression in the nitrofen model of congenital diaphragmatic hernia.

Pulmonary FGF9 gene expression is downregulated during the pseudoglandular stage in nitrofen-induced hypoplastic lungs.

ITE and TCDD differentially regulate the vascular remodeling of rat placenta via the activation of AhR.

Sildenafil stimulates and dexamethasone inhibits pulmonary vascular development in congenital diaphragmatic hernia rat lungs.

Iron supplementation in young iron-deficient females causes gastrointestinal redox imbalance: protective effect of a fermented nutraceutical.

Influence of the perivitelline space on the quantification of internal concentrations of chemicals in eggs of zebrafish embryos (*Danio rerio*).

The transcriptional response to oxidative stress during vertebrate development: effects of tert-butylhydroquinone and 2,3,7,8-tetrachlorodibenzo-p-dioxin.

BMP4 and LGL1 are Down Regulated in an Ovine Model of Congenital Diaphragmatic Hernia.

Persistent organochlorine pollutants and human reproductive health.

Interactions between polymorphisms in the aryl hydrocarbon receptor signalling pathway and exposure to persistent organochlorine pollutants affect human semen quality.

Comparative proteomic analysis of ovary for Chinese rare minnow (*Gobiocypris rarus*) exposed to chlorophenol chemicals.

Antioxidative protective effect of icariin on the FeSO₄/H₂O₂-damaged human sperm based on confocal raman micro-spectroscopy.

Species-specific considerations in using the fish embryo test as an alternative to identify endocrine disruption.

Transient suppression of AHR activity in early red seabream embryos does not prevent the disruption of peripheral nerve projection by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Developmental toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin in artificially fertilized crucian carp (*Carassius auratus*) embryo.

Gynecological care in young women: a high-risk period of life.

Histological and histometrical study of the protective role of α -tocopherol against sodium arsenite toxicity in rat ovaries.

Histopathologic alterations associated with global gene expression due to chronic dietary TCDD exposure in juvenile zebrafish.

Embryonic exposure to sodium arsenite perturbs vascular development in zebrafish.

Embryonic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin impairs prey capture by zebrafish larvae.

Applicability of the TCDD-TEQ approach to predict sublethal embryotoxicity in *Fundulus heteroclitus*.

Roxarsone and its metabolites in chicken manure significantly enhance the uptake of As species by vegetables.

Urinary concentrations of 2,4-dichlorophenol and 2,5-dichlorophenol in the U.S. population (National Health and Nutrition Examination Survey, 2003-2010): trends and predictors.

Effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin on secretion of steroids and STAR, HSD3B and CYP19A1 mRNA expression in chicken ovarian follicles.

Retraction: G-protein-coupled receptor 30 and estrogen receptor- α are involved in the proliferative effects induced by atrazine in ovarian cancer cells. *Environ Health Perspect.* 116:1648-55.

Familiar and novel reproductive endocrine disruptors: xenoestrogens, dioxins and nanoparticles.

[Molecular and cellular aspects of dioxin toxicity].

Estrogenic endocrine-disrupting chemicals: molecular mechanisms of actions on putative human diseases.

Toxicity of pesticides associated with potato production, including soil fumigants, to snapping turtle eggs (*Chelydra serpentina*).

Endocrine disruption of sexual selection by an estrogenic herbicide in the mealworm beetle (*Tenebrio molitor*).

Roundup disrupts male reproductive functions by triggering calcium-mediated cell death in rat testis and Sertoli cells.

Maternal residential atrazine exposure and gastroschisis by maternal age.

Thyroid endocrine system disruption by pentachlorophenol: an in vitro and in vivo assay.

Adverse effect of antifouling compounds on the reproductive mechanisms of the ascidian *Ciona intestinalis*.

Environmental concentrations of irgarol, diuron and S-metolachlor induce deleterious effects on gametes and embryos of the Pacific oyster, *Crassostrea gigas*.

Quercetin exacerbates the effects of subacute treatment of atrazine on reproductive tissue antioxidant defence system, lipid peroxidation and sperm quality in rats.

Case-control study of maternal residential atrazine exposure and male genital malformations.

Agrochemicals in field margins--assessing the impacts of herbicides, insecticides, and fertilizer on the common buttercup (*Ranunculus acris*).

Transcriptome alterations following developmental atrazine exposure in zebrafish are associated with disruption of neuroendocrine and reproductive system function, cell cycle, and carcinogenesis.

An evaluation of 2,4-dichlorophenoxyacetic acid in the Amphibian Metamorphosis Assay and the Fish Short-Term Reproduction Assay.

In vitro induction/inhibition of germinal vesicle breakdown (GVBD) in frog (*Euphylyctis cyanophlyctis*) oocytes by endocrine active compounds.

Effects of trifluralin on the mouse ovary.

Effects of chronic exposures to the herbicides atrazine and glyphosate to larvae of the threespine stickleback (*Gasterosteus aculeatus*).

Maternal residential atrazine exposure and risk for choanal atresia and stenosis in offspring.

Developmental abnormalities in chicken embryos exposed to N-nitrosoatrazine.

Oxidative stress in ventral prostate, ovary, and breast by 2,4-dichlorophenoxyacetic acid in pre- and postnatal exposed rats.

Cigarette smoke induces systemic defects in cystic fibrosis transmembrane conductance regulator function.

Association of exposure to phenols and idiopathic male infertility.

Atrazine-induced elevation or attenuation of the LH surge in the ovariectomized, estrogen-primed female rat: role of adrenal progesterone.

Atrazine inhibits pulsatile gonadotropin-releasing hormone (GnRH) release without altering GnRH messenger RNA or protein levels in the female rat.

The effects of the urea-based herbicide linuron on reproductive endpoints in the fathead minnow (*Pimephales promelas*).

Spatiotemporal alterations in Sprouty-2 expression and tyrosine phosphorylation in nitrofen-induced pulmonary hypoplasia.

Hypospadias and residential proximity to pesticide applications.

Expression of Sproutys and SPREDs is decreased during lung branching morphogenesis in nitrofen-induced pulmonary hypoplasia.

Pulmonary FGF-18 gene expression is downregulated during the canalicular-saccular stages in nitrofen-induced hypoplastic lungs.

Ten years of progress in the Hokkaido birth cohort study on environment and children's health: cohort profile--updated 2013.

In vitro-in vivo correlations for endocrine activity of a mixture of currently used pesticides.

Early dioxin exposure causes toxic effects in adult zebrafish.

Sox9b is required for epicardium formation and plays a role in TCDD-induced heart malformation in zebrafish.

Maternal diet, prenatal exposure to dioxins and other persistent organic pollutants and anogenital distance in children.

Downregulated bone morphogenetic protein signaling in nitrofen-induced congenital diaphragmatic hernia.

Disruption of the bone morphogenetic protein receptor 2 pathway in nitrofen-induced congenital diaphragmatic hernia.

Aminoguanidine prevents testicular damage-induced-2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in male rats.

Aberrant pulmonary lymphatic development in the nitrofen mouse model of congenital diaphragmatic hernia.

[Relationship between parental exposure to chemicals and risk of childhood acute leukemia].

2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) enhances placental inflammation.

Selenium-binding protein 1: its physiological function, dependence on aryl hydrocarbon receptors, and role in wasting syndrome by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Dioxin-like compounds are not associated with bone strength measured by ultrasonography in Inuit women from Nunavik (Canada): results of a cross-sectional study.

Teratogenic effects of 4-nonylphenol on early embryonic and larval development of the catfish *Heteropneustes fossilis*.

Decreased expression of GATA4 in the diaphragm of nitrofen-induced congenital diaphragmatic hernia.

Differences in urinary arsenic metabolites between diabetic and non-diabetic subjects in Bangladesh.

Amniotic lamellar body count and congenital diaphragmatic hernia in humans and in a rat model.

Differential sensitivity to pro-oxidant exposure in two populations of killifish (*Fundulus heteroclitus*).

Cyprodinil as an activator of aryl hydrocarbon receptor.

Interactions between urinary 4-tert-octylphenol levels and metabolism enzyme gene variants on idiopathic male infertility.

Effect of nitrofen in the final stages of development of the diaphragm muscle in rats.

Oculomotor deficits in aryl hydrocarbon receptor null mouse.

Increased activation of NADPH oxidase 4 in the pulmonary vasculature in experimental diaphragmatic hernia.

Decreased pulmonary c-Cbl expression and tyrosine phosphorylation in the nitrofen-induced rat model of congenital diaphragmatic hernia.

Increased trophoblastic apoptosis mediated by neutrophil gelatinase-associated lipocalin (NGAL) activation in the nitrofen model of congenital diaphragmatic hernia.

Timing and expression of the angiotensin-1-Tie-2 pathway in murine lung development and congenital diaphragmatic hernia.

Relative potency of PCB126 to TCDD for sublethal embryotoxicity in the mummichog (*Fundulus heteroclitus*).

Toxic effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin on the peripheral nervous system of developing red seabream (*Pagrus major*).

Comparison of TCDD-elicited genome-wide hepatic gene expression in Sprague-Dawley rats and C57BL/6 mice.

A simple and reliable *in vivo* EROD activity measurement in single *Fundulus heteroclitus* embryo and larva.

Cadmium(Cd)-induced oxidative stress down-regulates the gene expression of DNA mismatch recognition proteins MutS homolog 2 (MSH2) and MSH6 in zebrafish (*Danio rerio*) embryos.

Genetic modification of the association between peripubertal dioxin exposure and pubertal onset in a cohort of Russian boys.

Effects of butachlor on reproduction and hormone levels in adult zebrafish (*Danio rerio*).

Glyphosate, pathways to modern diseases II: Celiac sprue and gluten intolerance.

Toxicogenomic evaluation of long-term hepatic effects of TCDD in immature, ovariectomized C57BL/6 mice.

Luteinizing hormone receptor (*Lhcgr*) as a marker gene for characterizing estrogenic endocrine-disrupting chemicals in zebrafish ovarian follicle cells.

Urinary glycol ether metabolites in women and time to pregnancy: the PELAGIE cohort.

Characterization and Endocytic Internalization of Epith-2 Cell Surface Glycoprotein during the Epithelial-to-Mesenchymal Transition in Sea Urchin Embryos.

Histopathological changes in the liver of rabbits exposed to high nitrate ingestion in drinking water.

Differential dependence on host cell glycosaminoglycans for infection of epithelial cells by high-risk HPV types.

External inorganic N source enhances the uptake of As species in garland chrysanthemum (*C. coronarium*) amended with chicken manure bearing roxarsone and its metabolites.

TCDD inhibition of canonical Wnt signaling disrupts prostatic bud formation in mouse urogenital sinus.

High temperature injury and auxin biosynthesis in microsporogenesis.

Embryonic exposure to butachlor in zebrafish (*Danio rerio*): endocrine disruption, developmental toxicity and immunotoxicity.

Environmental risk factors of pregnancy outcomes: a summary of recent meta-analyses of epidemiological studies.

Transfer of auxinic herbicide resistance from *Brassica kaber* to *Brassica juncea* and *Brassica rapa* through embryo rescue.

Action of Halowax 1051 on Enzymes of Phase I (CYP1A1) and Phase II (SULT1A and COMT) Metabolism in the Pig Ovary.

Changes in the expression of vascular endothelial growth factor after fetal tracheal occlusion in an experimental model of congenital diaphragmatic hernia.

A computational model to predict rat ovarian steroid secretion from in vitro experiments with endocrine disruptors.

Biotransformation of p-coumaric acid and 2,4-dichlorophenoxy acetic acid by *Azotobacter* sp. strain SSB81.

Genetic modification of the association of paraquat and Parkinson's disease.

Atrazine disrupts steroidogenesis, VEGF and NO production in swine granulosa cells.

Acute and chronic effects of atrazine and sodium dodecyl sulfate on the tropical freshwater cladoceran *Pseudosida ramosa*.

Characterization of endocrine-disrupting chemicals based on hormonal balance disruption in male and female adult rats.

Genotoxicity of diuron and glyphosate in oyster spermatozoa and embryos.

Effects of butachlor on estrogen receptor, vitellogenin and P450 aromatase gene expression in the early life stage of zebrafish.

Atrazine exposure in public drinking water and preterm birth.

[Parasitic wasps, a model for studying male subfertility].

A longer tracheal occlusion period results in increased lung growth in the nitrofen rat model.

Hypothesis: Estrogen related thrombosis explains the pathogenesis and epidemiology of gastroschisis.

Electrophilic aldehydes generated by sperm metabolism activate mitochondrial reactive oxygen species generation and apoptosis by targeting succinate dehydrogenase.

[Effects of typical herbicides on soil respiration and N₂O emissions from soil added with different nitrogen fertilizers].

Endogenous acetaldehyde toxicity during antral follicular development in the mouse ovary.

Pesticide exposure in children.

Effects of choline on sodium arsenite-induced neural tube defects in chick embryos.

Reproductive hormone profile and pubertal development in 14-year-old boys prenatally exposed to polychlorinated biphenyls.

Lack of an association human dioxin detoxification gene polymorphisms with endometriosis in Japanese women: results of a pilot study.

Progesterone-dependent regulation of endometrial cannabinoid receptor type 1 (CB1-R) expression is disrupted in women with endometriosis and in isolated stromal cells exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Prenatal retinoic acid improves lung vascularization and VEGF expression in CDH rat.

[Effects of A-solution on halitosis and oral status in preoperative NPO patients].

Pax3 gene expression is not altered during diaphragmatic development in nitrofen-induced congenital diaphragmatic hernia.

Antenatal imatinib treatment reduces pulmonary vascular remodeling in a rat model of congenital diaphragmatic hernia.

Sensitivity to dioxin decreases as zebrafish mature.

Tumors and proliferative lesions in adult offspring after maternal exposure to methylarsonous acid during gestation in CD1 mice.

Evaluation of paclitaxel/carboplatin in a dose dense or weekly regimen in 66 patients with recurrent or primary metastatic cervical cancer.

Associations between congenital cryptorchidism in newborn boys and levels of dioxins and PCBs in placenta.

Reproductive and developmental toxicity of dioxin in fish.

Alterations of peroxisome proliferator-activated receptor γ and monocyte chemoattractant protein 1 gene expression in the nitrofen-induced hypoplastic lung.

Sodium arsenite \pm hyperthermia sensitizes p53-expressing human ovarian cancer cells to cisplatin by modulating platinum-DNA damage responses.

Local fetal lung renin-angiotensin system as a target to treat congenital diaphragmatic hernia.

Fertile transgenic *Brachiaria ruziziensis* (ruzigrass) plants by particle bombardment of tetraploidized callus.

Serum free p-cresyl sulfate levels predict cardiovascular and all-cause mortality in elderly hemodialysis patients--a prospective cohort study.

Defective pulmonary innervation and autonomic imbalance in congenital diaphragmatic hernia.

Prenatal retinoic acid upregulates connexin 43 (Cx43) gene expression in pulmonary hypoplasia in the nitrofen-induced congenital diaphragmatic hernia rat model.

Polymorphisms of dioxin receptor complex components and detoxification-related genes jointly confer susceptibility to advanced-stage endometriosis in the taiwanese han population.

Nitrofen interferes with trophoblastic expression of retinol-binding protein and transthyretin during lung morphogenesis in the nitrofen-induced congenital diaphragmatic hernia model.

Upregulation of fibroblast growth factor receptor 2 and 3 in the late stages of fetal lung development in the nitrofen rat model.

Smad1 and WIF1 genes are downregulated during saccular stage of lung development in the nitrofen rat model.

COUP-TFII gene expression is upregulated in embryonic pleuroperitoneal folds in the nitrofen-induced congenital diaphragmatic hernia rat model.

Dioxin (TCDD) induces epigenetic transgenerational inheritance of adult onset disease and sperm epimutations.

Gender differences in transcriptional signature of developing rat testes and ovaries following embryonic exposure to 2,3,7,8-TCDD.

Identification of novel low-dose bisphenol a targets in human foreskin fibroblast cells derived from hypospadias patients.

Environmentally induced epigenetic transgenerational inheritance of ovarian disease.

ANG-1 TIE-2 and BMPR signalling defects are not seen in the nitrofen model of pulmonary hypertension and congenital diaphragmatic hernia.

The pulmonary mesenchymal tissue layer is defective in an in vitro recombinant model of nitrofen-induced lung hypoplasia.

TCDD disrupts hypural skeletogenesis during medaka embryonic development.

Effects of arsenic exposure during the pre- and postnatal development on the puberty of female offspring.

Development and validation of prediction models for blood concentrations of dioxins and PCBs using dietary intakes.

Serum concentrations of p, p'-DDE, HCB, PCBs and reproductive hormones among men of reproductive age.

Simultaneous analysis of 28 urinary VOC metabolites using ultra high performance liquid chromatography coupled with electrospray ionization tandem mass spectrometry (UPLC-ESI/MSMS).

Effects of short-term exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin on microRNA expression in zebrafish embryos.

Environmental pollution effects on reproductive health - clinical-epidemiological study in southern Italy.

Regulation of uterine AHR battery gene expression by 17 β -Estradiol is predominantly mediated by estrogen receptor β .

Engineering phosphorus metabolism in plants to produce a dual fertilization and weed control system.

Urinary arsenic levels in the French adult population: the French National Nutrition and Health Study, 2006-2007.

Arsenic exposure inhibits myogenesis and neurogenesis in P19 stem cells through repression of the β -catenin signaling pathway.

A New Rice Disease, Black Sheath Spot, Caused by *Curvularia fallax* in China.

Unexpected gender difference in sensitivity to the acute toxicity of dioxin in mice.

Possible aryl hydrocarbon receptor-independent pathway of 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced antiproliferative response in human breast cancer cells.

Quantification of steroids and endocrine disrupting chemicals in rat ovaries by LC-MS/MS for reproductive toxicology assessment.

2,3,7,8-Tetrachlorodibenzo-p-dioxin activates the aryl hydrocarbon receptor and alters sex steroid hormone secretion without affecting growth of mouse antral follicles in vitro.

First Report of Blight Caused by *Sclerotium rolfsii* on the Invasive Exotic Weed, *Vincetoxicum rossicum* (Pale Swallow-Wort), in Western New York.

Membrane Changes Associated with Exposure of *Pseudomonas putida* to Selected Environmental Pollutants and their Possible Roles in Toxicity.

Arsenic exposure to killifish during embryogenesis alters muscle development.

Ovariectomized mouse uterotrophic assay of 36 chemicals.

Regulatory effect of hypoxia-inducible factor-1 \pm on hCG-stimulated endothelin-2 expression in granulosa cells from the PMSG-treated rat ovary.

Transgenerational actions of environmental compounds on reproductive disease and identification of epigenetic biomarkers of ancestral exposures.

Comparative metabolomic and genomic analyses of TCDD-elicited metabolic disruption in mouse and rat liver.

Menstrual cycle characteristics and reproductive hormone levels in women exposed to atrazine in drinking water.

Maternal occupational pesticide exposure and risk of hypospadias in the National Birth Defects Prevention Study.

Assessment of female reproductive endpoints in Sprague-Dawley rats developmentally exposed to Diuron: potential ovary toxicity.

Atrazine and breast cancer: a framework assessment of the toxicological and epidemiological evidence.

The differential effect of atrazine on luteinizing hormone release in adrenalectomized adult female Wistar rats.

Toxicity of pesticide and fertilizer mixtures simulating corn production to eggs of snapping turtles (*Chelydra serpentina*).

Gestational atrazine exposure: effects on male reproductive development and metabolite distribution in the dam, fetus, and neonate.

Waterborne exposure to clodinafop-propargyl disrupts the posterior and ventral development of zebrafish embryos.

Urinary biomarkers of prenatal atrazine exposure and adverse birth outcomes in the PELAGIE birth cohort.

Structure and epitope distribution of heparan sulfate is disrupted in experimental lung hypoplasia: a glycobiological epigenetic cause for malformation?

Differential stimulation pathways of progesterone secretion from newly formed corpora lutea in rats treated with ethylene glycol monomethyl ether, sulpiride, or atrazine.

Neonatal exposure to herbicide acetochlor alters pubertal development in female wistar rats.

Influence of a combination of agricultural chemicals on embryos of the endangered gold-striped salamander (*Chioglossa lusitanica*).

Selenium provides protection to the liver but not the reproductive organs in an atrazine-model of experimental toxicity.

The effect of herbicide BASTA 15 on the development of mouse preimplantation embryos in vivo and in vitro.

Herbicide exposure and veterans with covered service in Korea. Final rule.

Effects of monosulfuron on growth, photosynthesis, and nitrogenase activity of three nitrogen-fixing cyanobacteria.

A pathway-based analysis of urinary arsenic metabolites and skin lesions.

Submicron polymer particles containing fluorescent semiconductor nanocrystals CdSe/ZnS for bioassays.

Mutated p.4894 RyR1 function related to malignant hyperthermia and congenital neuromuscular disease with uniform type 1 fiber (CNMDU1).

Dioxin and polychlorinated biphenyl concentrations in mother's serum and the timing of pubertal onset in sons.

Retinoic acid drives aryl hydrocarbon receptor expression and is instrumental to dioxin-induced toxicity during palate development.

Increased hepatic Igf2 gene expression involves C/EBP β in TCDD-induced teratogenesis in rats.

CD82 gene suppression in endometrial stromal cells leads to increase of the cell invasiveness in the endometriotic milieu.

Immune interactions in endometriosis.

The embryology of the diaphragm.

Urinary trichlorophenol levels and increased risk of attention deficit hyperactivity disorder among US school-aged children.

Environmental factors and endometriosis.

Reproductive toxicity parameters and biological monitoring in occupationally and environmentally boron-exposed persons in Bandirma, Turkey.

Prenatal administration of retinoic acid upregulates connective tissue growth factor in the nitrofen CDH model.

The role of primary myogenic regulatory factors in the developing diaphragmatic muscle in the nitrofen-induced diaphragmatic hernia.

Antenatal sildenafil treatment attenuates pulmonary hypertension in experimental congenital diaphragmatic hernia.

[Protective effects of tetrandrine against congenital diaphragmatic hernia in rats].

A threshold area ratio of organic to conventional agriculture causes recurrent pathogen outbreaks in organic agriculture.

Impacts of environmental toxicants on male reproductive dysfunction.

Uterine leiomyomata in a cohort of Great Lakes sport fish consumers.

Prenatal administration of retinoic acid upregulates insulin-like growth factor receptors in the nitrofen-induced hypoplastic lung.

Perspectives on the potential involvement of the AH receptor-dioxin axis in cardiovascular disease.

Developmental exposure to TCDD reduces fertility and negatively affects pregnancy outcomes across multiple generations.

Expression of the Wilm's tumor gene WT1 during diaphragmatic development in the nitrofen model for congenital diaphragmatic hernia.

Downregulation of Midkine gene expression and its response to retinoic acid treatment in the nitrofen-induced hypoplastic lung.

Prenatal retinoic acid treatment upregulates late gestation lung protein 1 in the nitrofen-induced hypoplastic lung in late gestation.

Abnormal development of the enteric nervous system in rat embryos and fetuses with congenital diaphragmatic hernia.

Microscopic magnetic resonance imaging of the thoracic venous system in rats with congenital diaphragmatic hernia.

Effect of insulin-like growth factors on lung development in a nitrofen-induced CDH rat model.

AhR2-mediated, CYP1A-independent cardiovascular toxicity in zebrafish (*Danio rerio*) embryos exposed to retene.

An evaluation of single nucleotide polymorphisms in the human aryl hydrocarbon receptor-interacting protein (AIP) gene.

Expression of Iroquois genes is up-regulated during early lung development in the nitrofen-induced pulmonary hypoplasia.

Dioxins in ascites and serum of women with endometriosis: a pilot study.

Down-regulation of lung Kruppel-like factor in the nitrofen-induced hypoplastic lung.

Downregulation of FGFR1 contributes to the development of the diaphragmatic defect in the nitrofen model of congenital diaphragmatic hernia.

Carcinogenic effects of "whole-life" exposure to inorganic arsenic in CD1 mice.

Prenatal treatment with retinoic acid activates parathyroid hormone-related protein signaling in the nitrofen-induced hypoplastic lung.

Disruption of embryonic vascular development in predictive toxicology.

Role of acidification elicited by sialylation and sulfation of zona glycoproteins during oocyte maturation in porcine sperm-zona pellucida interactions.

The aryl hydrocarbon receptor agonist 2,3,7,8-tetrachloro-dibenzo-p-dioxin (TCDD) alters early embryonic development in a rat IVF exposure model.

Non-additive hepatic gene expression elicited by 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) and 2,2',4,4',5,5'-hexachlorobiphenyl (PCB153) co-treatment in C57BL/6 mice.

Long-term food-exposure of zebrafish to PCB mixtures mimicking some environmental situations induces ovary pathology and impairs reproduction ability.

In vitro effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on ovarian, pituitary, and pineal function in pigs.

Chemical class-specific gene expression changes in the zebrafish embryo after exposure to glycol ether alkoxy acids and 1,2,4-triazole antifungals.

Dioxin exposure and age of pubertal onset among Russian boys.

Epigenetic control of embryonic renal cell differentiation by L1 retrotransposon.

Integration of genome-wide computation DRE search, AhR CHIP-chip and gene expression analyses of TCDD-elicited responses in the mouse liver.

Sodium arsenite and hyperthermia modulate cisplatin-DNA damage responses and enhance platinum accumulation in murine metastatic ovarian cancer xenograft after hyperthermic intraperitoneal chemotherapy (HIPEC).

2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD)-induced cytotoxicity accompanied by oxidative stress in rat Sertoli cells: Possible role of mitochondrial fractions of Sertoli cells.

Embryonic exposure to environmentally relevant concentrations of PCB126 affect prey capture ability of *Fundulus heteroclitus* larvae.

Dioxin exposure of human CD34+ hemopoietic cells induces gene expression modulation that recapitulates its in vivo clinical and biological effects.

Contribution of hypoxia-inducible factor-1 α to transcriptional regulation of vascular endothelial growth factor in bovine developing luteal cells.

Retention and maternal transfer of brominated dioxins in zebrafish (*Danio rerio*) and effects on reproduction, aryl hydrocarbon receptor-regulated genes, and ethoxyresorufin-O-deethylase (EROD) activity.

Metabolism of motile zebrafish sperm.

Singlet oxygen mediated DNA degradation by copper nanoparticles: potential towards cytotoxic effect on cancer cells.

Circadian clock disruption in the mouse ovary in response to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

In vitro assessment of the adverse effects of antiretroviral drugs on the human male gamete.

Somatic embryogenesis and massive shoot regeneration from immature embryo explants of tef.

In vitro assessment of iron effect on porcine ovarian granulosa cells: secretory activity, markers of proliferation and apoptosis.

Assessment of risk of PCDD/Fs and dioxin-like PCBs in marine and freshwater fish in Pearl River Delta, China.

IGFBP-4 gene overexpression in the nitrofen-induced hypoplastic lung.

[Hypothetical link between endometriosis and xenobiotics-associated genetically modified food].

An information-rich alternative, chemicals testing strategy using a high definition toxicogenomics and zebrafish (*Danio rerio*) embryos.

[Effects of nitrogen and phosphorus fertilizer on atrazine degradation and detoxification by degrading strain HB-5].

Urethral carcinoma and hyperplasia in male and female B6C3F1 mice treated with 3,3',4,4'-tetrachloroazobenzene (TCAB).

Atrazine induces complete feminization and chemical castration in male African clawed frogs (*Xenopus laevis*).

Agricultural-related chemical exposures, season of conception, and risk of gastroschisis in Washington State.

Growth, development and sex ratios of Spotted Marsh Frog (*Limnodynastes tasmaniensis*) larvae exposed to atrazine and a herbicide mixture.

Effects of the herbicide glyphosate on biological attributes of *Alpaida veniliae* (Araneae, Araneidae), in laboratory.

Differential effects of herbicides atrazine and fenoxaprop-ethyl, and insecticides diazinon and malathion, on viability and maturation of porcine oocytes in vitro.

Side-effects of glyphosate on the life parameters of *Eriopis connexa* (Coleoptera: Coccinellidae) in Argentina.

[Acute poisoning due to chemical substances inducing methemoglobinemia--two cases report].

Ovarian folliculogenesis: detrimental effect of prenatal exposure to cyclophosphamide: a preliminary study.

Paternal exposure to Agent Orange and spina bifida: a meta-analysis.

P19 neuronal differentiation and retinoic acid metabolism as criteria to investigate atrazine, nitrite, and nitrate developmental toxicity.

Cause-specific mortality of Dutch chlorophenoxy herbicide manufacturing workers.

Selective stimulation by cinnamaldehyde of progesterone secretion in human adrenal cells.

Changes in testicular morphology and steroidogenesis in adult rats exposed to Atrazine.

Aqueous cinnamon extract (ACE-c) from the bark of *Cinnamomum cassia* causes apoptosis in human cervical cancer cell line (SiHa) through loss of mitochondrial membrane potential.

Nitrates and herbicides cause higher mortality than the traditional organic fertilizers on the grain beetle, *Tenebrio molitor*.

Uterine FK506-binding protein 52 (FKBP52)-peroxiredoxin-6 (PRDX6) signaling protects pregnancy from overt oxidative stress.

Effects of estrogen on lung development in a rat model of diaphragmatic hernia.

Embryonic Wnt gene expression in the nitrofen-induced hypoplastic lung using 3-dimensional imaging.

The high level of RANTES in the ectopic milieu recruits macrophages and induces their tolerance in progression of endometriosis.

Connective tissue growth factor expression pattern in lung development.

Abnormal platelet-derived growth factor signaling accounting for lung hypoplasia in experimental congenital diaphragmatic hernia.

Prenatal retinoic acid upregulates pulmonary gene expression of PI3K and AKT in nitrofen-induced pulmonary hypoplasia.

Food safety.

[Effect of ambroxol on lung development of rat models with nitrofen-induced congenital diaphragmatic hernia].

Non-dioxin-like polychlorinated biphenyls and risk of endometriosis.

Antenatal steroid and tracheal occlusion restore vascular endothelial growth factor receptors in congenital diaphragmatic hernia rat model.

Gene expression analysis in hypoplastic lungs in the nitrofen model of congenital diaphragmatic hernia.

Maternal residence near municipal waste incinerators and the risk of urinary tract birth defects.

Insulinlike growth factor receptor type 1 and type 2 are downregulated in the nitrofen-induced hypoplastic lung.

Insulin receptor is downregulated in the nitrofen-induced hypoplastic lung.

The effect of in vitro tracheal occlusion on branching morphogenesis in fetal lung explants from the rat nitrofen model of congenital diaphragmatic hernia.

Increased exposure to dioxin-like compounds is associated with endometriosis in a case-control study in women.

OECD validation of phase-3 Hershberger assay using the stimulated weanling male rat in Korea.

5-FU for genital warts in non-immunocompromised individuals.

Dioxin-like PCBs and endometriosis.

Expression and function of phosphodiesterases in nitrofen-induced congenital diaphragmatic hernia in rats.

Is there a role for antioxidants in prevention of pulmonary hypoplasia in nitrofen-induced rat model of congenital diaphragmatic hernia?

The effects of an in utero exposure to 2,3,7,8-tetrachloro-dibenzo-p-dioxin on male reproductive function: identification of Ccl5 as a potential marker.

Temporal and anatomical sensitivities to the aryl hydrocarbon receptor agonist 2,3,7,8-tetrachlorodibenzo-p-dioxin leading to premature acyclicity with age in rats.

A hospital-based case-control study of non-Hodgkin lymphoid neoplasms in Shanghai: analysis of environmental and occupational risk factors by subtypes of the WHO classification.

2,3,7,8-Tetrachlorodibenzo-p-dioxin upregulates FoxQ1b in zebrafish jaw primordium.

PCB153-elicited hepatic responses in the immature, ovariectomized C57BL/6 mice: comparative toxicogenomic effects of dioxin and non-dioxin-like ligands.

Serum dioxin concentrations and time to pregnancy.

Comparative contribution of the aryl hydrocarbon receptor gene to perinatal stage development and dioxin-induced toxicity between the urogenital complex and testis in the mouse.

beta-TrCP inhibition reduces prostate cancer cell growth via upregulation of the aryl hydrocarbon receptor.

Spatiotemporal alteration in phosphatidylinositide 3-kinase-serine/threonine protein kinase B signaling in the nitrofen-induced hypoplastic lung.

Bronchopulmonary innervation defects in infants and rats with congenital diaphragmatic hernia.

Albumin as an adjunct to tracheal occlusion in fetal rats with congenital diaphragmatic hernia: a placebo-controlled study.

Androgenic regulation of ventral epithelial bud number and pattern in mouse urogenital sinus.

Interactions of airflow oscillation, tracheal inclination, and mucus elasticity significantly improve simulated cough clearance.

Toxic effects of lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on development of male reproductive system: involvement of antioxidants, oxidants, and p53 protein.

The involvement of hypophyseal-gonadal and hypophyseal-adrenal axes in arsenic-mediated ovarian and uterine toxicity: modulation by hCG.

Dioxin and endometrial progesterone resistance.

Abnormal regulation of chemokine TECK and its receptor CCR9 in the endometriotic milieu is involved in pathogenesis of endometriosis by way of enhancing invasiveness of endometrial stromal cells.

Receptor- and reactive intermediate-mediated mechanisms of teratogenesis.

Disturbance of parathyroid hormone-related protein signaling in the nitrofen-induced hypoplastic lung.

Microscopic magnetic resonance in congenital diaphragmatic hernia and associated malformations in rats.

Upregulation of endothelin receptors A and B in the nitrofen induced hypoplastic lung occurs early in gestation.

Downregulation of insulin-like growth factor binding protein 3 and 5 in nitrofen-induced pulmonary hypoplasia.

2,3,7,8-Tetrachlorodibenzo-p-dioxin inhibits fibroblast growth factor 10-induced prostatic bud formation in mouse urogenital sinus.

Early development of the primordial mammalian diaphragm and cellular mechanisms of nitrofen-induced congenital diaphragmatic hernia.

Evaluation of a bioluminescent mouse model expressing aromatase PII-promoter-controlled luciferase as a tool for the study of endocrine disrupting chemicals.

Automated dose-response analysis and comparative toxicogenomic evaluation of the hepatic effects elicited by TCDD, TCDF, and PCB126 in C57BL/6 mice.

Role of dietary GSH in the amelioration of sodium arsenite-induced ovarian and uterine disorders.

Interaction between beet vinasse and iron fertilisers in the prevention of iron deficiency in lupins.

Rice fruit development is associated with an increased IAA content in pollinated ovaries.

Cell viability and PSA secretion assays in LNCaP cells: a tiered in vitro approach to screen chemicals with a prostate-mediated effect on male reproduction within the ReProTect project.

Effects of TCDD on the expression of nuclear encoded mitochondrial genes.

Nitrofen induces apoptosis independently of retinaldehyde dehydrogenase (RALDH) inhibition.

Two modes of mitochondrial dysfunction lead independently to lifespan extension in *Caenorhabditis elegans*.

Estrogenic activity of coumestrol, DDT, and TCDD in human cervical cancer cells.

Dioxin exposure disrupts the differentiation of mouse embryonic stem cells into cardiomyocytes.

Endocrine disruptor, dioxin (TCDD)-induced mitochondrial dysfunction and apoptosis in human trophoblast-like JAR cells.

Flow-cytometric analyses of viability biomarkers in pesticide-exposed sperm of three aquatic invertebrates.

Uptake and transport of roxarsone and its metabolites in water spinach as affected by phosphate supply.

The offspring sex ratios of male mammals treated with dioxin before mating: comment on the paper of Ishihara et al.

Historical perspective of pesticide poisoning in Japan and measures taken by the Japanese association of rural medicine.

Attenuation of cell cycle progression by 2,3,7,8-tetrachlorodibenzo-p-dioxin eliciting ovulatory blockade in gonadotropin-primed immature rats.

Somatic embryogenesis in in vitro culture of *Leucosium vernum* L.

When does the sex ratio of offspring of the paternal 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) exposure decrease: in the spermatozoa stage or at fertilization?

Altered metabolisms of mediators controlling vascular function and enhanced oxidative stress in asymptomatic children with congenital portosystemic venous shunt.

Characterization of the hypothalamic-pituitary-adrenal axis response to atrazine and metabolites in the female rat.

Population-specific incidence of testicular ovarian follicles in *Xenopus laevis* from South Africa: a potential issue in endocrine testing.

A unified approach for analyzing exchangeable binary data with applications to developmental toxicity studies.

Decreased mitochondrial superoxide levels and enhanced protection against paraquat in *Drosophila melanogaster* supplemented with *Rhodiola rosea*.

Impact of glyphosate on the development, fertility and demography of *Chrysoperla externa* (Neuroptera: Chrysopidae): ecological approach.

Bioaccessibility, bioavailability and ecotoxicity of pentachlorophenol in compost amended soils.

Does paternal exposure to Agent Orange cause birth defects?

Agrichemicals in surface water and birth defects in the United States.

Endocrine disrupting effects of herbicides and pentachlorophenol: in vitro and in vivo evidence.

Does atrazine influence larval development and sexual differentiation in *Xenopus laevis*?

Plant growth regulator (4-chlorophenoxy acetic acid) increases apoptosis in gonads of rats without changing hormonal levels.

Regional differences in time to pregnancy among fertile women from five Colombian regions with different use of glyphosate.

The effect of gonadectomy and estradiol on sensitivity to oxidative stress.

Collaborative work on evaluation of ovarian toxicity. 14) Two- or four-week repeated-dose studies and fertility study of atrazine in female rats.

Effects of atrazine and its withdrawal on gonadotropin-releasing hormone neuroendocrine function in the adult female Wistar rat.

Potential gene flow from transgenic rice (*Oryza sativa* L.) to different weedy rice (*Oryza sativa* f. spontanea) accessions based on reproductive compatibility.

Atrazine inhibits pulsatile luteinizing hormone release without altering pituitary sensitivity to a gonadotropin-releasing hormone receptor agonist in female Wistar rats.

Up-regulation of Wnt5a gene expression in the nitrofen-induced hypoplastic lung.

[Seasonality of omphalocele in northern Germany].

Monoisoamyl dimercaptosuccinic acid abrogates arsenic-induced developmental toxicity in human embryonic stem cell-derived embryoid bodies: comparison with in vivo studies.

Upregulation of Slit-2 and Slit-3 gene expressions in the nitrofen-induced hypoplastic lung.

Automated dose-response analysis of the relative hepatic gene expression potency of TCDF in C57BL/6 mice.

Overview of developmental heart defects by dioxins, PCBs, and pesticides.

Prenatal retinoic acid up-regulates pulmonary gene expression of COUP-TFII, FOG2, and GATA4 in pulmonary hypoplasia.

Reassessing the evidence for the link between dioxin and endometriosis: from molecular biology to clinical epidemiology.

Impact and risk factors of craniofacial malformations in a Colombian population.

Expression of chloride channels in trachea-occluded hyperplastic lungs and nitrofen-induced hypoplastic lungs in rats.

Impact of life stage and duration of exposure on arsenic-induced proliferative lesions and neoplasia in C3H mice.

Effect of prenatal tetrandrine administration on transforming growth factor-beta1 level in the lung of nitrofen-induced congenital diaphragmatic hernia rat model.

Rationale and design of the oral HEMe iron polypeptide Against Treatment with Oral Controlled Release Iron Tablets trial for the correction of anaemia in peritoneal dialysis patients (HEMATOCRIT trial).

Endometriosis and organochlorinated environmental pollutants: a case-control study on Italian women of reproductive age.

The myenteric plexus of the esophagus is abnormal in an experimental congenital diaphragmatic hernia model.

Maternal exposure to dioxin disrupts gonadotropin production in fetal rats and imprints defects in sexual behavior.

Methyl iodide-induced fetal hypothyroidism implicated in late-stage fetal death in rabbits.

Prenatal developmental toxicity studies of inhaled methyl iodide vapor in rabbits reveal a susceptible window of exposure inducing late gestational fetotoxicity.

Effects of omega-3 fatty acids on components of the transforming growth factor beta-1 pathway: implication for dietary modification and prevention in ovarian cancer.

Foreword to a special issue of Inhalation Toxicology on a risk assessment for iodomethane.

Functional characterization of ryanodine receptor (RYR1) sequence variants using a metabolic assay in immortalized B-lymphocytes.

Developmental and environmental variation in genomes.

Toxic and chemopreventive ligands preferentially activate distinct aryl hydrocarbon receptor pathways: implications for cancer prevention.

Inhibition of androgen receptor transcriptional activity as a novel mechanism of action of arsenic.

[A series of observation on the expression of TGF-beta1 in the lung of nitrofen-induced congenital diaphragmatic hernia rat model].

Dioxin-induced toxicity on vascular remodeling of the placenta.

Serum dioxins, polychlorinated biphenyls, and endometriosis: a case-control study in Atlanta.

[The specific features of the clinical course of tuberculosis and enhancement of its treatment efficiency in fertile-age women with iron-deficiency anemia].

Cumulative effects of in utero administration of mixtures of "antiandrogens" on male rat reproductive development.

Fetal arsenic exposure appears to facilitate endocrine disruption by postnatal diethylstilbestrol in neonatal mouse adrenal.

Understanding butachlor toxicity in *Aulosira fertilissima* using physiological, biochemical and proteomic approaches.

The pleiotropy of dioxin toxicity--xenobiotic misappropriation of the aryl hydrocarbon receptor's alternative physiological roles.

Short form glutathione peroxidase 4 is the essential isoform required for survival and somatic mitochondrial functions.

Influence of teratogenic factors on mouse 39 hox gene expression.

Sonic hedgehog gene expression in nitrofen induced hypoplastic lungs in mice.

The tryptophan photoproduct 6-formylindolo[3,2-b]carbazole (FICZ) binds multiple AHRs and induces multiple CYP1 genes via AHR2 in zebrafish.

Extension of *Drosophila* life span by RNAi of the mitochondrial respiratory chain.

Genotoxicity of sodium arsenite and DNA fragmentation in ovarian cells of rat.

A Novel Application of a Bivariate Regression Model for Binary and Continuous Outcomes to Studies of Fetal Toxicity.

Estrogen signaling is not required for prostatic bud patterning or for its disruption by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Distinct roles of two zebrafish AHR repressors (AHRRa and AHRRb) in embryonic development and regulating the response to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Effect of chronic exposure to the aryl hydrocarbon receptor agonist 2,3,7,8-tetrachlorodibenzo-p-dioxin in female rats on ovarian gene expression.

Persistent adverse effects on health and reproduction caused by exposure of zebrafish to 2,3,7,8-tetrachlorodibenzo-p-dioxin during early development and gonad differentiation.

Participation of the human sperm proteasome in the capacitation process and its regulation by protein kinase A and tyrosine kinase.

Developmental mechanisms of arsenite toxicity in zebrafish (*Danio rerio*) embryos.

Up-regulation of COUP-TFII gene expression in the nitrofen-induced hypoplastic lung.

Assessment of the genotoxicity of Cu and Zn in raw and anaerobically digested slurry with the *Vicia faba* micronucleus test.

A conceptual model for assessing risks in a Mediterranean Natura 2000 Network site.

Proteomic analysis of the rat ovary following chronic low-dose exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Levels of urinary total and speciated arsenic in the US population: National Health and Nutrition Examination Survey 2003-2004.

Effects of atrazine on female Wistar rats: morphological alterations in ovarian follicles and immunocytochemical labeling of 90 kDa heat shock protein.

Gestational exposure to atrazine: effects on the postnatal development of male offspring.

Reproduction, larval growth, and reproductive development in African clawed frogs (*Xenopus laevis*) exposed to atrazine.

Predictability of copper, irgarol, and diuron combined effects on sea urchin *Paracentrotus lividus*.

G-protein-coupled receptor 30 and estrogen receptor-alpha are involved in the proliferative effects induced by atrazine in ovarian cancer cells.

Constraints on the evolution of tolerance to herbicide in the common morning glory: resistance and tolerance are mutually exclusive.

Difference in the sensitivity to chemical compounds between female and male neonates of *Daphnia magna*.

Effects of the mixture of diquat and a nonylphenol polyethoxylate adjuvant on fecundity and progeny early performances of the pond snail *Lymnaea stagnalis* in laboratory bioassays and microcosms.

Pre- and post-conception pesticide exposure and the risk of birth defects in an Ontario farm population.

Atrazine exposure decreases cell proliferation in Chinese Hamster Ovary (CHO-K1) cell line.

Interference by atrazine and bisphenol-A with progesterin binding to the ovarian progesterin membrane receptor and induction of oocyte maturation in Atlantic croaker.

Variation in somatic and ovarian development: predicting susceptibility of amphibians to estrogenic contaminants.

Allergic contact dermatitis with a fertilizer containing hydrogen cyanamide (Dormex).

[Cytogenetic and other cariological parameters of exfoliative buccal cells in Vietnamese children from areas where dioxin-containing herbicides were applied].

Oxygen flux as an indicator of physiological stress in fathead minnow (*Pimephales promelas*) embryos: a real-time biomonitoring system of water quality.

The herbicide atrazine activates endocrine gene networks via non-steroidal NR5A nuclear receptors in fish and mammalian cells.

Developmental exposure to endocrine disruptor chemicals alters follicular dynamics and steroid levels in *Caiman latirostris*.

Genetic transformation via somatic embryogenesis to establish herbicide-resistant opium poppy.

Site-directed mutagenesis, heterologous expression of cyanamide hydratase gene and antimicrobial activity of cyanamide.

Maternal administration of betamethasone inhibits proliferation induced by fetal tracheal occlusion in the nitrofen rat model for congenital diaphragmatic hernia: a placebo-controlled study.

Abnormal development of tracheal innervation in rats with experimental diaphragmatic hernia.

Aryl hydrocarbon receptor-mediated down-regulation of *sox9b* causes jaw malformation in zebrafish embryos.

Elevated expression of CYP1A1 and gamma-SYNUCLEIN in human ectopic (ovarian) endometriosis compared with eutopic endometrium.

Decreased urinary beta-defensin-1 expression as a biomarker of response to arsenic.

Risk for non Hodgkin's lymphoma in the vicinity of French municipal solid waste incinerators.

Transposition of the great arteries.

Delayed initiation of breast development in girls with higher prenatal dioxin exposure; a longitudinal cohort study.

Critical role of cyclooxygenase-2 activation in pathogenesis of hydronephrosis caused by lactational exposure of mice to dioxin.

[Anti-estrogenic effect of dioxin on rat skeleton development].

Environmental exposures and adverse pregnancy outcomes: a review of the science.

NKCC-1 and ENaC are down-regulated in nitrofen-induced hypoplastic lungs with congenital diaphragmatic hernia.

2,3,7,8-Tetrachlorodibenzo-p-dioxin exposure prevents cardiac valve formation in developing zebrafish.

Automated quantitative dose-response modeling and point of departure determination for large toxicogenomic and high-throughput screening data sets.

The effect of tracheal occlusion on lung branching in the rat nitrofen CDH model.

Intrinsic catch-up growth of hypoplastic fetal lungs is mediated by interleukin-6.

Combination of estrogen and dioxin is involved in the pathogenesis of endometriosis by promoting chemokine secretion and invasion of endometrial stromal cells.

Transgenerational effects from exposure to environmental toxic substances.

Concentrations of polychlorinated dibenzo-p-dioxins (PCDDs), polychlorinated dibenzofurans (PCDFs), and dioxin-like PCBs in adipose tissue of infertile men.

Paternal environmental exposures and gene expression during spermatogenesis: research review to research framework.

Effects of maternal retinoic acid administration in a congenital diaphragmatic hernia rabbit model.

Incident diabetes and pesticide exposure among licensed pesticide applicators: Agricultural Health Study, 1993-2003.

Epidemiologic evidence of relationships between reproductive and child health outcomes and environmental chemical contaminants.

Perinatal exposure of female rats to 2,3,7,8-tetrachlorodibenzo-p-dioxin induces central precocious puberty in the offspring.

Dioxin may promote inflammation-related development of endometriosis.

Comparative genomics identifies genes mediating cardiotoxicity in the embryonic zebrafish heart.

[Effect of hemin on the lung development and pulmonary arterial structural remodeling in congenital diaphragmatic hernia: experiment with rats].

Perinatal profile of ventricular overload markers in congenital diaphragmatic hernia.

Effects of Helicobacter infection on developmental toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin in Holtzman rats.

[Study advance on reproductive and developmental toxicity of haloacetic acids in drinking water].

Risk factors for ovarian cancer: an overview with emphasis on hormonal factors.

Endocrine toxicants including 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) and dioxin-like chemicals and endometriosis: is there a link?

Prenatal treatment with retinoic acid promotes pulmonary alveologenesis in the nitrofen model of congenital diaphragmatic hernia.

Comparative toxicogenomic examination of the hepatic effects of PCB126 and TCDD in immature, ovariectomized C57BL/6 mice.

Organochlorines and endometriosis: a mini-review.

Regression analysis of a disease onset distribution using diagnosis data.

Chemical contaminants, health indicators, and reproductive biomarker responses in fish from rivers in the Southeastern United States.

Environmental immune disruption: a comorbidity factor for reproduction?

Prenatal treatment with retinoic acid accelerates type 1 alveolar cell proliferation of the hypoplastic lung in the nitrofen model of congenital diaphragmatic hernia.

Downregulation of GATA4 and GATA6 in the heart of rats with nitrofen-induced diaphragmatic hernia.

Exploiting gene-environment interaction to detect adverse health effects of environmental chemicals on the next generation.

Environmental factors in the etiology of esophageal atresia and congenital diaphragmatic hernia: results of a case-control study.

Disruption of aryl hydrocarbon receptor (AhR) induces regression of the seminal vesicle in aged male mice.

Endocrine disruptors and estrogenic effects on male reproductive axis.

The link between environmental toxicant exposure and endometriosis.

A whole-animal microplate assay for metabolic rate using zebrafish.

WNT5A selectively inhibits mouse ventral prostate development.

Dioxin causes ventral prostate agenesis by disrupting dorsoventral patterning in developing mouse prostate.

Effects of 2,4-dichlorophenol on the expression of vitellogenin and estrogen receptor genes and physiology impairments in Chinese rare minnow (*Gobiocypris rarus*).

Prolonged ELS test with the marine flatfish sole (*Solea solea*) shows delayed toxic effects of previous exposure to PCB 126.

Sulfhydryl systems are a critical factor in the zebrafish developmental toxicity of the dithiocarbamate sodium metam (NaM).

Determination of plant hormones in fertilizers by high-performance liquid chromatography with photodiode array detection: method development and single-laboratory validation.

Review of testicular toxicity of dinitrophenolic compounds, 2-sec-butyl-4,6-dinitrophenol, 4,6-dinitro-*o*-cresol and 2,4-dinitrophenol.

Exposure to sodium metam during zebrafish somitogenesis results in early transcriptional indicators of the ensuing neuronal and muscular dysfunction.

In utero exposure to 2,3,7,8-Tetrachlorodibenzo-*p*-Dioxin affects the development of reproductive system in mouse.

Existing technologies to reduce specific toxicant emissions in cigarette smoke.

Toxicity of analytically cleaned pentabromodiphenylether after prolonged exposure in estuarine European flounder (*Platichthys flesus*), and partial life-cycle exposure in fresh water zebrafish (*Danio rerio*).

Potential endocrine disruption of sexual development in free ranging male northern leopard frogs (*Rana pipiens*) and green frogs (*Rana clamitans*) from areas of intensive row crop agriculture.

Effect of dioxin exposure on aromatase expression in ovariectomized rats.

Long-term effects of polychlorinated biphenyls and dioxins on pregnancy outcomes in women affected by the Yusho incident.

Diverse mechanisms of anti-androgen action: impact on male rat reproductive tract development.

A mixture of seven antiandrogens induces reproductive malformations in rats.

Impaired VEGF and nitric oxide signaling after nitrofen exposure in rat fetal lung explants.

Molecular targets of 2,3,7,8-tetrachlorodibenzo-*p*-dioxin (TCDD) within the zebrafish ovary: insights into TCDD-induced endocrine disruption and reproductive toxicity.

Effect of 2,3,7,8-tetrachlorodibenzo-*p*-dioxin on testicular spermatogenesis-related panels and serum sex hormone levels in rats.

Evaluation of the antiandrogenic effects of flutamide, DDE, and linuron in the weanling rat assay using organ weight, histopathological, and proteomic approaches.

Short- and long-term responses of *Daphnia* spp. to propanil exposures in distinct food supply scenarios.

Retinoic acid-mediated differentiation protects against nitrofen-induced apoptosis.

Amphibian survival, growth and development in response to mineral nitrogen exposure and predator cues in the field: an experimental approach.

Incidence of abdominal wall defects is related to surface water atrazine and nitrate levels.

Atrazine-induced aromatase expression is SF-1 dependent: implications for endocrine disruption in wildlife and reproductive cancers in humans.

Impaired alveolar epithelial cell differentiation in the hypoplastic lung in nitrofen-induced congenital diaphragmatic hernia.

Altered regulation of retinoic acid synthesis in nitrofen-induced hypoplastic lung.

Testing estrogenicity of known and novel (xeno-)estrogens in the MolDarT using developing zebrafish (*Danio rerio*).

Surflan and oryzalin impair reproduction in the teleost medaka (*Oryzias latipes*).

Atrazine-induced reproductive tract alterations after transplacental and/or lactational exposure in male Long-Evans rats.

Effects of the herbicide Roundup on the epididymal region of drakes *Anas platyrhynchos*.

Reproductive effects in male rats exposed to diuron.

In vitro alachlor effects on reactive oxygen species generation, motility patterns and apoptosis markers in human spermatozoa.

Concentrations and specific loads of glyphosate, diuron, atrazine, nonylphenol and metabolites thereof in French urban sewage sludge.

Role of AHR2 in the expression of novel cytochrome P450 1 family genes, cell cycle genes, and morphological defects in developing zebra fish exposed to 3,3',4,4',5-pentachlorobiphenyl or 2,3,7,8-tetrachlorodibenzo-p-dioxin.

[The etiology of congenital diaphragmatic hernia and esophageal atresia: the Hox genes].

Effect of antenatal tetrandrine administration on endothelin-1 and epidermal growth factor levels in the lungs of rats with experimental diaphragmatic hernia.

Mechanisms of action of the congenital diaphragmatic hernia-inducing teratogen nitrofen.

[Environmental dioxin compounds as the cause of endometriosis and other diseases].

Effects of in utero and lactational exposure to triphenyltin chloride on pregnancy outcome and postnatal development in rat offspring.

Arsenic exposure in pregnant mice disrupts placental vasculogenesis and causes spontaneous abortion.

Toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin in the developing male Wistar(Han) rat. I: No decrease in epididymal sperm count after a single acute dose.

Toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin in the developing male Wistar(Han) rat. II: Chronic dosing causes developmental delay.

Embryonic essential myosin light chain regulates fetal lung development in rats.

[Effect of tetrandrine on lung development: experiment of nitrofen-induced congenital diaphragmatic hernia fetal rat model].

Combination of 17beta-estradiol with the environmental pollutant TCDD is involved in pathogenesis of endometriosis via up-regulating the chemokine I-309-CCR8.

Strengths and limitations of using repeat-dose toxicity studies to predict effects on fertility.

Fetal tracheal occlusion for the treatment of congenital diaphragmatic hernia.

Transplacental arsenic carcinogenesis in mice.

Pulmonary epithelial cell differentiation in the nitrofen-induced congenital diaphragmatic hernia.

Allium cepa chromosome aberration and micronucleus tests applied to study genotoxicity of extracts from pesticide-treated vegetables and grapes.

Interaction between cytochrome P450 gene polymorphisms and serum organochlorine TEQ levels in the risk of endometriosis.

Concentrations of organochlorine pollutants in mothers who gave birth to neonates with congenital hypothyroidism.

Effects of 3-methyl-4-nitrophenol in diesel exhaust particles on the regulation of reproductive function in immature female Japanese quail (*Coturnix japonica*).

Agricultural exposures and gastric cancer risk in Hispanic farm workers in California.

Vitamin A deficiency (VAD), teratogenic, and surgical models of congenital diaphragmatic hernia (CDH).

Decreased lung fibroblast growth factor 18 and elastin in human congenital diaphragmatic hernia and animal models.

Serum monocyte chemotactic protein-1 levels in congenital diaphragmatic hernia.

Some clinico and histopathological changes in female goats experimentally exposed to dioxin.

Developmental exposure of mice to TCDD elicits a similar uterine phenotype in adult animals as observed in women with endometriosis.

Internal dose-effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in gonadotropin-primed weanling rat model.

Serum dioxin concentrations and quality of ovarian function in women of Seveso.

[Effect of tetrandrine on endothelin expression in the lungs and clinical significance thereof: experiment with rat models with nitrofen-induced congenital diaphragmatic hernia].

Down-regulation of Wnt signal pathway in nitrofen-induced hypoplastic lung.

Reduced expression of aquaporin 5 water channel in nitrofen-induced hypoplastic lung with congenital diaphragmatic hernia rat model.

Disturbance of retinol transportation causes nitrofen-induced hypoplastic lung.

Keokuk County rural health study: self-reported use of agricultural chemicals and protective equipment.

Reproductive disorders associated with pesticide exposure.

Kidney development in the nitrofen-induced pulmonary hypoplasia and congenital diaphragmatic hernia in rats.

Environmental and host-associated risk factors in endometriosis and deep endometriotic nodules: a matched case-control study.

A critical comparison of murine pathology and epidemiological data of TCDD, PCB126, and PeCDF.

Short-term hormone release from adult female rat hypothalamic and pituitary explants is not altered by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Autoradiographic localization of aromatic hydrocarbon receptor (AHR) in rhesus monkey ovary.

Regulation of aryl hydrocarbon receptor activity in porcine cumulus-oocyte complexes in physiological and toxicological conditions: the role of follicular fluid.

Reproductive functions and hypothalamic catecholamines in response to the soil fumigant metam sodium: adaptations to extended exposures.

Does paternal exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) affect the sex ratio of offspring?

Analysis of lipid peroxidation in human spermatozoa using BODIPY C11.

Sperm quality, birth rates and the environment in Flanders (Belgium).

Exposure of bovine sperm to pro-oxidants impairs the developmental competence of the embryo after the first cleavage.

Ovarian endocrine disruption underlies premature reproductive senescence following environmentally relevant chronic exposure to the aryl hydrocarbon receptor agonist 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Sublethal effects of two neurotoxic insecticides on *Araneus pratensis* (Araneae: Araneidae).

Imazaquin degradation and metabolism in a sandy loam soil amended with farm litters.

Unfertilized ovary: a novel explant for coconut (*Cocos nucifera* L.) somatic embryogenesis.

Examining multiple sublethal contaminants on the gray treefrog (*Hyla versicolor*): Effects of an insecticide, herbicide, and fertilizer.

Commentary: Agent Orange and birth defects in Vietnam.

Association between Agent Orange and birth defects: systematic review and meta-analysis.

Effects of in ovo exposure to imazalil and atrazine on sexual differentiation in chick gonads.

Evidence for a novel endocrine disruptor: the pesticide propanil requires the ovaries and steroid synthesis to enhance humoral immunity.

Cancer incidence among pesticide applicators exposed to cyanazine in the agricultural health study.

Effects of antioxidant vitamins on molecular regulators involved in lung hypoplasia induced by nitrofen.

Toxic effects of irgarol and diuron on sea urchin *Paracentrotus lividus* early development, fertilization, and offspring quality.

In ovo exposure to a triazine herbicide: effects of atrazine on circulating reproductive hormones and gonadal histology in young Japanese quail.

Effects of pentachlorophenol on the reproduction of Japanese medaka (*Oryzias latipes*).

Plasma steroid hormone concentrations, aromatase activities and GSI in ranid frogs collected from agricultural and non-agricultural sites in Michigan (USA).

Characterization of atrazine-induced gonadal malformations in African clawed frogs (*Xenopus laevis*) and comparisons with effects of an androgen antagonist (cyproterone acetate) and exogenous estrogen (17beta-estradiol): Support for the demasculinization/feminization hypothesis.

Ghrelin expression in human and rat fetal lungs and the effect of ghrelin administration in nitrofen-induced congenital diaphragmatic hernia.

Analysis of reproductive toxicity and classification of glufosinate-ammonium.

Characterizing the ovotoxicity of cyclophosphamide metabolites on cultured mouse ovaries.

Atrazine concentrations, gonadal gross morphology and histology in ranid frogs collected in Michigan agricultural areas.

Toxic actions of dinoseb in medaka (*Oryzias latipes*) embryos as determined by in vivo ³¹P NMR, HPLC-UV and ¹H NMR metabolomics.

Effects of self-fertilization, environmental stress and exposure to xenobiotics on fitness-related traits of the freshwater snail *Lymnaea stagnalis*.

Effects of nitrate and atrazine on larval development and sexual differentiation in the northern leopard frog *Rana pipiens*.

Atrazine increases ranavirus susceptibility in the tiger salamander, *Ambystoma tigrinum*.

Improvement of pulmonary hypoplasia associated with congenital diaphragmatic hernia by in utero CFTR gene therapy.

Methods for assessing the toxicity of herbicides to submersed aquatic plants.

Paraquat-induced lipid peroxidation: effects of ovariectomy and estrogen receptor antagonist.

Separation of plant hormones from biofertilizer by capillary electrophoresis using a capillary coated dynamically with polycationic polymers.

Serum dioxin-like compounds and aromatase (CYP19) expression in endometriotic tissues.

Developmental toxicity of 4-ring polycyclic aromatic hydrocarbons in zebrafish is differentially dependent on AH receptor isoforms and hepatic cytochrome P4501A metabolism.

Spatial and temporal expression of glucocorticoid, retinoid, and thyroid hormone receptors is not altered in lungs of congenital diaphragmatic hernia.

Comparative toxicogenomic analysis of the hepatotoxic effects of TCDD in Sprague Dawley rats and C57BL/6 mice.

[Effect and significance of tetrandrine on epidermal growth factor and its receptor in the lung of congenital diaphragmatic hernia rat model].

Covariation of psychological attributes and incident coronary heart disease in U.S. Air Force veterans of the Vietnam war.

Teratogen-induced, dietary and genetic models of congenital diaphragmatic hernia share a common mechanism of pathogenesis.

Blocking expression of AHR2 and ARNT1 in zebrafish larvae protects against cardiac toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Airway smooth muscle dysfunction precedes teratogenic congenital diaphragmatic hernia and may contribute to hypoplastic lung morphogenesis.

The effects of PCBs and dioxins on child health.

Today's epidemics in children: possible relations to environmental pollution and suggested preventive measures.

Sex ratio of the offspring of Sprague-Dawley rats exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in utero and lactationally in a three-generation study.

Peristalsis of airway smooth muscle is developmentally regulated and uncoupled from hypoplastic lung growth.

Cancer and pesticides: an overview and some results of the Italian multicenter case-control study on hematolymphopoietic malignancies.

The therapeutic effect of tissue cultured root of wild Panax ginseng C.A. Mayer on spermatogenic disorder.

Myocardium expression of connexin 43, SERCA2a, and myosin heavy chain isoforms are preserved in nitrofen-induced congenital diaphragmatic hernia rat model.

Connexin 43 gene expression in mice with cardiopulmonary developmental defects.

For dioxin-induced birth defects, mouse or human CYP1A2 in maternal liver protects whereas mouse CYP1A1 and CYP1B1 are inconsequential.

Lung morphology after late fetal tracheal ligation in rats.

Pendimethalin exposure and cancer incidence among pesticide applicators.

Increased levels of polychlorobiphenyls in Italian women with endometriosis.

Differential susceptibilities of Holtzman and Sprague-Dawley rats to fetal death and placental dysfunction induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) despite the identical primary structure of the aryl hydrocarbon receptor.

[Thyroid C cells are decreased in experimental CDH].

Effects of combined 17beta-estradiol with TCDD on secretion of chemokine IL-8 and expression of its receptor CXCR1 in endometriotic focus-associated cells in co-culture.

The early embryo loss caused by 2,3,7,8-tetrachlorodibenzo-p-dioxin may be related to the accumulation of this compound in the uterus.

Occupational exposure and effects on the male reproductive system.

Endocrine disrupters and female reproductive health.

Congenital diaphragmatic hernia prevents absorption of distal air space fluid in late-gestation rat fetuses.

External heart deformities in passerine birds exposed to environmental mixtures of polychlorinated biphenyls during development.

Vitamin A improves Pax3 expression that is decreased in the heart of rats with experimental diaphragmatic hernia.

Semen quality in fertile US men in relation to geographical area and pesticide exposure.

Genetic differences in lethality of newborn mice treated in utero with coplanar versus non-coplanar hexabromobiphenyl.

The association of endometriosis risk and genetic polymorphisms involving dioxin detoxification enzymes: a systematic review.

Germ-line mutations at a mouse ESTR (Pc-3) locus and human microsatellite loci.

Terminology of gonadal anomalies in fish and amphibians resulting from chemical exposures.

[The multifaceted effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in organisms, especially dentition changes].

[Free radical processes in patients with iron deficiency anemia treated with iron medication].

[Exposure to endocrine disrupting chemicals and children's health: problems in epidemiological studies].

Regression analysis of pesticide use and breast cancer incidence in California Latinas.

A cluster of hypoplastic left heart malformation in Baltimore, Maryland.

Activation of telomerase in BeWo cells by estrogen and 2,3,7,8-tetrachlorodibenzo-p-dioxin in co-operation with c-Myc.

Sex and congenital diaphragmatic hernia.

Altered renin-angiotensin system gene expression causes renal hypoplasia in the rats with nitrofen-induced diaphragmatic hernia.

Expression of Connexin 43 in the hearts of rat embryos exposed to nitrofen and effects of vitamin A on it.

Retinoic acid rescues lung hypoplasia in nitrofen-induced hypoplastic foetal rat lung explants.

Detection of equine herpesvirus type 1 using a real-time polymerase chain reaction.

Toxicity of six pesticides to common frog (*Rana temporaria*) tadpoles.

Molecular analysis, cytogenetics and fertility of introgression lines from transgenic wheat to *Aegilops cylindrica* host.

Establishment of a simple and efficient system for somatic embryo induction via ovule culture in *Arabidopsis thaliana*.

Toxic effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in developing red seabream (*Pagrus major*) embryo: an association of morphological deformities with AHR1, AHR2 and CYP1A expressions.

Serum dioxin-like activity is associated with reproductive parameters in young men from the general Flemish population.

Exposure to 3,3',4,4',5-pentachlorobiphenyl during embryonic development has a minimal effect on the cytochrome P4501A response to 2,3,7,8-tetrachlorodibenzo-p-dioxin in cultured chicken embryo hepatocytes.

Anti-androgenic activity of 3-methyl-4-nitrophenol in diesel exhaust particles.

In vitro microspore selection in maize anther culture with oxidative-stress stimulators.

Aryl hydrocarbon receptor activation produces heart-specific transcriptional and toxic responses in developing zebrafish.

Zebrafish as a model for developmental neurotoxicity testing.

Brief report: embryonic growth and hatching implications of developmental 670-nm phototherapy and dioxin co-exposure.

Identification of new human pregnane X receptor ligands among pesticides using a stable reporter cell system.

Regulation of human male germ cell death by modulators of ATP production.

Suppressive effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin on vascular remodeling that takes place in the normal labyrinth zone of rat placenta during late gestation.

Effect of VEGF on the branching morphogenesis of normal and nitrofen-induced hypoplastic fetal rat lung explants.

Effect of a single in ovo injection of 2,3,7,8-tetrachlorodibenzo-p-dioxin on protein expression in liver and ovary of the one-day-old chick analyzed by fluorescent two-dimensional difference gel electrophoresis and mass spectrometry.

Inhibition of follicular development, vitellogenesis, and serum 17beta-estradiol concentrations in zebrafish following chronic, sublethal dietary exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Propolis protects human spermatozoa from DNA damage caused by benzo[a]pyrene and exogenous reactive oxygen species.

Sources, vertical fluxes, and equivalent toxicity of aromatic hydrocarbons in coastal sediments of the Río de la Plata Estuary, Argentina.

Survivorship and mortality implications of developmental 670-nm phototherapy: dioxin co-exposure.

Chemical manipulation of glucose metabolism in porcine oocytes: effects on nuclear and cytoplasmic maturation in vitro.

Recent female mouse models displaying advanced reproductive aging.

The chlorinated AHR ligand 3,3',4,4',5-pentachlorobiphenyl (PCB126) promotes reactive oxygen species (ROS) production during embryonic development in the killifish (*Fundulus heteroclitus*).

Environmental toxicants and effects on female reproductive function.

670 nanometer light treatment attenuates dioxin toxicity in the developing chick embryo.

Metabolic regulation of in vitro-produced bovine embryos. II. Effects of phenazine ethosulfate, sodium azide and 2,4-dinitrophenol during post-compaction development on glucose metabolism and lipid accumulation.

Metabolic regulation of in-vitro-produced bovine embryos. I. Effects of metabolic regulators at different glucose concentrations with embryos produced by semen from different bulls.

Effects of acute and chronic exposure to the aryl hydrocarbon receptor agonist 2,3,7,8-tetrachlorodibenzo-p-dioxin on the transition to reproductive senescence in female Sprague-Dawley rats.

Triazine herbicides and epithelial ovarian cancer risk in central California.

Missing Link?: Alachlor and Semen Quality.

Drosophila DJ-1 mutants are selectively sensitive to environmental toxins associated with Parkinson's disease.

Effects of biotechnology on biodiversity: herbicide-tolerant and insect-resistant GM crops.

Effect of urea on degradation of terbutylazine in soil.

US abandons health study on Agent Orange.

Toxicity of organic compounds to marine invertebrate embryos and larvae: a comparison between the sea urchin embryogenesis bioassay and alternative test species.

Projected population-level effects of thiobencarb exposure on the mysid, *Americamysis bahia*, and extinction probability in a concentration-decay exposure system.

Expression of vasoactive mediators during mechanical ventilation in nitrofen-induced diaphragmatic hernia in rats.

Pax3 mRNA is decreased in the hearts of rats with experimental diaphragmatic hernia.

Acute exposure to molinate alters neuroendocrine control of ovulation in the rat.

Altered expression of angiotensin II receptor subtypes and transforming growth factor-beta in the heart of nitrofen-induced diaphragmatic hernia in rats.

A glyphosate-based pesticide impinges on transcription.

Nitrofen induces a redox-dependent apoptosis associated with increased p38 activity in P19 teratocarcinoma cells.

Changes over time in the allelochemical content of ten cultivars of rye (*Secale cereale* L.).

Effects of the herbicide diuron on the early life history stages of coral.

Differential effects of vitamin A on fetal lung growth and diaphragmatic formation in nitrofen-induced rat model.

Long CGG-repeat tracts are toxic to human cells: implications for carriers of Fragile X premutation alleles.

The cytogenetic effects of Avenoxan on *Allium cepa* and its relation with pollen sterility.

Possible enhancing effects of atrazine on growth of 7,12-dimethylbenz(a) anthracene-induced mammary tumors in ovariectomized Sprague-Dawley rats.

Carbon source dependent somatic embryogenesis and plant regeneration in cotton, *Gossypium hirsutum* L. cv. SVPR2 through suspension cultures.

Effects of bisphenol-A (BPA), dibutylphthalate (DBP), benzophenone-2 (BP2), procymidone (Proc), and linurone (Lin) on fat tissue, a variety of hormones and metabolic parameters: a 3 months comparison with effects of estradiol (E2) in ovariectomized (ovx) rats.

Fertility, segregation at a herbicide-resistance locus, and genome structure in BC hybrids from two important weedy *Amaranthus* species.

Risks and consequences of gene flow from herbicide-resistant crops: canola (*Brassica napus* L) as a case study.

Transforming growth factor-beta3 restores fusion in palatal shelves exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Heart malformation is an early response to TCDD in embryonic zebrafish.

Can maternal vitamin e supplementation prevent lung hypoplasia in the nitrofen-induced rat model of congenital diaphragmatic hernia?

Assessment of human contamination of estrogenic endocrine-disrupting chemicals and their risk for human reproduction.

Association of micropenis with Pro185Ala polymorphism of the gene for aryl hydrocarbon receptor repressor involved in dioxin signaling.

Background exposure to PCDDs/PCDFs/PCBs and its potential health effects: a review of epidemiologic studies.

Early developmental 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure decreases chick embryo heart chronotropic response to isoproterenol but not to agents affecting signals downstream of the beta-adrenergic receptor.

Fryns syndrome without diaphragmatic hernia. Report on a new case and review of the literature.

[Health risk related to municipal waste incineration].

Effects of dioxin and nutrition on cellular proliferation and dioxin- and estrogen-linked genes in ovarian cancer cell lines.

The epidemiology of non-Hodgkin lymphoma.

[Risk factors for pediatric malignant bone tumors].

In utero and lactational exposure to TCDD; steroidogenic outcomes differ in male and female rat pups.

Review of the toxicology of carbonyl sulfide, a new grain fumigant.

Genetic and environmental influences on malformations of the cardiac outflow tract.

Nitrovasodilator responses in pulmonary arterioles from rats with nitrofen-induced congenital diaphragmatic hernia.

[Application of a 3D reconstruction model for the analysis of nitrofen induced intrathoracic malformations].

Adrenomedullin is up-regulated in nitrofen-induced fetal pulmonary hypoplasia.

Increased dioxin-like compounds in the serum of women with peritoneal endometriosis and deep endometriotic (adenomyotic) nodules.

Effects of prenatal vitamins A, E, and C on the hypoplastic hearts of fetal rats with diaphragmatic hernia.

Congenital diaphragmatic hernia: a retinoid-signaling pathway disruption during lung development?

Induction of oxidative stress in the reproductive system of rats after subchronic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Reduced expression of progesterone receptor-B in the endometrium of women with endometriosis and in cocultures of endometrial cells exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Serum dioxin concentrations and age at menopause.

Congenital diaphragmatic hernia, tracheal occlusion, thyroid transcription factor-1, and fetal pulmonary epithelial maturation.

High susceptibility of human c-Ha-ras proto-oncogene transgenic rats to carcinogenesis: a cancer-prone animal model.

Maternal use of nutritional supplements during the first month of pregnancy and decreased risk of Down's syndrome: case-control study.

Temporal and dose-dependent hepatic gene expression patterns in mice provide new insights into TCDD-Mediated hepatotoxicity.

Perinatal exposure to the fungicide prochloraz feminizes the male rat offspring.

Antenatal vitamin A administration attenuates lung hypoplasia by interfering with early instead of late determinants of lung underdevelopment in congenital diaphragmatic hernia.

Neonatally administered tert-octylphenol affects onset of puberty and reproductive development in female rats.

Insulinlike growth factor I gene expression is increased in the fetal lung after tracheal ligation.

Intrinsic function of the aryl hydrocarbon (dioxin) receptor as a key factor in female reproduction.

Coplanar polychlorinated biphenyls activate the aryl hydrocarbon receptor in developing tissues of two TCDD-responsive lacZ mouse lines.

Oxidative phosphorylation and the tricarboxylic acid cycle are essential for normal development of mouse ovarian follicles.

In vitro somatic embryogenesis from cell suspension cultures of cowpea [*Vigna unguiculata* (L.) Walp].

Accumulation, tissue distribution, and maternal transfer of dietary 2,3,7,8,-tetrachlorodibenzo-p-dioxin: impacts on reproductive success of zebrafish.

Effects of dioxin on metabolism of estrogens in waste incinerator workers.

Targeted expression of the human uncoupling protein 2 (hUCP2) to adult neurons extends life span in the fly.

Maternal exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin and the body burden in offspring of long-evans rats.

[Dioxin, poisoning information or brainwashing? On Seveso's and Yushchenko's acne].

The relationship of urinary metabolites of carbaryl/naphthalene and chlorpyrifos with human semen quality.

Use of a crop and job specific exposure matrix for estimating cumulative exposure to triazine herbicides among females in a case-control study in the Central Valley of California.

Laboratory investigation into the development of resistance of *Daphnia magna* to the herbicide molinate.

Shortcomings of the laboratory-derived median lethal concentration for predicting mortality in field populations: exposure duration and latent mortality.

Plasma sex steroid concentrations and gonadal aromatase activities in African clawed frogs (*Xenopus laevis*) from South Africa.

Assessment of the ability of Imazaquin herbicide to induce chromosomal aberrations in vitro in cultured Chinese hamster ovary cells and micronuclei in vivo in mice.

Combined effects of ethanol and cinnamaldehyde in the Japanese medaka embryo-larval assay (MELA).

Comparison of anti-androgenic activity of flutamide, vinclozolin, procymidone, linuron, and p, p'-DDE in rodent 10-day Hershberger assay.

Effects of pure 2,4-dichlorophenoxyacetic acid on cultured rat embryos.

Comparative studies on the spermatotoxic effects of dinoseb and its structurally related chemicals.

Pentachlorophenol (PCP) bioaccumulation and effect on heat production on salmon eggs at different stages of development.

Low-dose agrochemicals and lawn-care pesticides induce developmental toxicity in murine preimplantation embryos.

Evaluation of lethality and genotoxicity in the freshwater mussel *Utterbackia imbecillis* (Bivalvia: Unionidae) exposed singly and in combination to chemicals used in lawn care.

Effects of atrazine on fathead minnow in a short-term reproduction assay.

Comparative effects of pH and Vision herbicide on two life stages of four anuran amphibian species.

Effects of atrazine on sex steroid dynamics, plasma vitellogenin concentration and gonad development in adult goldfish (*Carassius auratus*).

Exposure of cardiac fibroblasts to the herbicide nitrofen causes altered interactions with the extracellular matrix.

Oocyte maturation in *Xenopus laevis* is blocked by the hormonal herbicide, 2,4-dichlorophenoxy acetic acid.

Carbonyl stress and detoxification ability in the male genital tract and testis of rats.

A mixture of the "antiandrogens" linuron and butyl benzyl phthalate alters sexual differentiation of the male rat in a cumulative fashion.

Lack of modifying effects of an estrogenic compound atrazine on 7,12-dimethylbenz(a)anthracene-induced ovarian carcinogenesis in rats.

The vagus and recurrent laryngeal nerves in experimental congenital diaphragmatic hernia.

Evaluation of haemoglobin (erythrogen): for improved somatic embryogenesis and plant regeneration in cotton (*Gossypium hirsutum* L. cv. SVPR 2).

A highly efficient plant regeneration system through multiple shoot differentiation from commercial cultivars of barley (*Hordeum vulgare* L.) using meristematic shoot segments excised from germinated mature embryos.

Evidence that atrazine and diaminochlorotriazine inhibit the estrogen/progesterone induced surge of luteinizing hormone in female Sprague-Dawley rats without changing estrogen receptor action.

Association of male infertility with Pro185Ala polymorphism in the aryl hydrocarbon receptor repressor gene: implication for the susceptibility to dioxins.

Paternal occupational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin and birth outcomes of offspring: birth weight, preterm delivery, and birth defects.

Women and omega-3 Fatty acids.

Adult 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) exposure and effects on male reproductive organs in three differentially TCDD-susceptible rat lines.

Systemic-to-pulmonary collaterals: a source of flow energy loss in Fontan physiology.

Role of estrogen receptor in regulation of polycyclic aromatic hydrocarbon metabolic activation in lung.

A HECT E3 ubiquitin-protein ligase with sequence similarity to E6AP does not target p53 for degradation in the softshell clam (*Mya arenaria*).

Male reproductive toxicity of sodium arsenite in mice.

Histomorphometric alteration and cell-type specific modulation of arylhydrocarbon receptor and estrogen receptor expression by 2,3,7,8-tetrachlorodibenzo-p-dioxin and 17beta-estradiol in mouse experimental model of endometriosis.

Animal models for arsenic carcinogenesis: inorganic arsenic is a transplacental carcinogen in mice.

In utero effects of chemicals on reproductive tissues in females.

Aryl hydrocarbon receptor (AhR)-independent effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on softshell clam (*Mya arenaria*) reproductive tissue.

The relationship of diaphragmatic defect, liver growth, and lung hypoplasia in nitrofen-induced congenital diaphragmatic hernia in the rat.

Pulmonary vascular morphology in a fetal rabbit model for congenital diaphragmatic hernia.

Pattern of male reproductive system effects after in utero and lactational 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) exposure in three differentially TCDD-sensitive rat lines.

VEGF expression is downregulated in nitrofen-induced congenital diaphragmatic hernia.

Pesticide exposure in male farmers and survival of in vitro fertilized pregnancies.

Mechanisms underlying arsenic carcinogenesis: hypersensitivity of mice exposed to inorganic arsenic during gestation.

The dioxin-like pollutant PCB 126 (3,3',4,4',5-pentachlorobiphenyl) affects risk factors for cardiovascular disease in female rats.

Risk of adverse reproductive outcomes associated with proximity to municipal solid waste incinerators with high dioxin emission levels in Japan.

Pulmonary elastin expression is decreased in the nitrofen-induced rat model of congenital diaphragmatic hernia.

Expression of aryl hydrocarbon receptor (AHR) and aryl hydrocarbon receptor nuclear translocator (ARNT) mRNA expression in human spermatozoa.

Drosophila parkin mutants have decreased mass and cell size and increased sensitivity to oxygen radical stress.

Nitric oxide donor increases osteoprotegerin production and osteoclastogenesis inhibitory activity in bone marrow stromal cells from ovariectomized rats.

Reductions in the incidence of nitrofen-induced diaphragmatic hernia by vitamin A and retinoic acid.

Dioxin-like compounds and endometriosis: a study on Italian and Belgian women of reproductive age.

First evidence of endocrine disruption in feral carp from the Ebro River.

How environmental hazards in childhood have been discovered: carcinogens, teratogens, neurotoxicants, and others.

Testosterone-stimulated weanlings as an alternative to castrated male rats in the Hershberger anti-androgen assay.

2,3,7,8-Tetrachlorodibenzo-p-dioxin inhibits regression of the common cardinal vein in developing zebrafish.

Decreased expression of voltage-gated K⁺ channels in pulmonary artery smooth muscles cells in nitrofen-induced congenital diaphragmatic hernia in rats.

Assessment of human health risk of dioxin in Korea.

Breast cancer and environmental risks: where is the link?

Interactions between 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) and hypoxia signaling pathways in zebrafish: hypoxia decreases responses to TCDD in zebrafish embryos.

Comparison of the Hershberger assay and androgen receptor binding assay of twelve chemicals.

Phthalate ester-induced gubernacular lesions are associated with reduced insl3 gene expression in the fetal rat testis.

Protein kinase C delta is activated in mouse ovarian surface epithelial cancer cells by 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Assessing the toxicity and teratogenicity of pond water in north-central Minnesota to amphibians.

The link between exposure to dioxin and endometriosis: a critical reappraisal of primate data.

Effect of epidermal growth factor on pulmonary hypoplasia in experimental diaphragmatic hernia.

Nitrofen-induced congenital diaphragmatic hernia in rat embryo: what model?

Role of aryl hydrocarbon receptor in mesencephalic circulation failure and apoptosis in zebrafish embryos exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Induction of tumors of the liver, lung, ovary and adrenal in adult mice after brief maternal gestational exposure to inorganic arsenic: promotional effects of postnatal phorbol ester exposure on hepatic and pulmonary, but not dermal cancers.

Role of stromal-epithelial interactions in hormonal responses.

Effects of endocrine disrupters on sex steroid synthesis and metabolism pathways in fish.

Src tyrosine kinase regulates CYP17 expression and androstenedione secretion in theca-enriched mouse ovarian cells.

Potential roles of the aryl hydrocarbon receptor in female reproductive senescence.

BRCA1 induces antioxidant gene expression and resistance to oxidative stress.

Stimulation of human spermatozoa with progesterone gradients to simulate approach to the oocyte. Induction of $[Ca^{2+}]_i$ oscillations and cyclical transitions in flagellar beating.

Developmental toxicity of the dithiocarbamate pesticide sodium metam in zebrafish.

Panax ginseng improves survival and sperm quality in guinea pigs exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Sequential morphological changes of erythrocyte apoptosis in *Xenopus* larvae exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

2,3,7,8-tetrachlorodibenzo-p-dioxin inhibits prostatic epithelial bud formation by acting directly on the urogenital sinus.

Phenylthiourea as a weak activator of aryl hydrocarbon receptor inhibiting 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced CYP1A1 transcription in zebrafish embryo.

Evidence that inhibited prostatic epithelial bud formation in 2,3,7,8-tetrachlorodibenzo-p-dioxin-exposed C57BL/6J fetal mice is not due to interruption of androgen signaling in the urogenital sinus.

Work-related pilot fatalities in agriculture--United States, 1992-2001.

Aryl hydrocarbon receptors in urogenital sinus mesenchyme mediate the inhibition of prostatic epithelial bud formation by 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Characterization of a fasciclin I-like protein with cell attachment activity from sea urchin (*Strongylocentrotus intermedius*) ovaries.

Effects of acute postnatal exposure to 3,3',4,4'-tetrachlorobiphenyl on sperm function and hormone levels in adult rats.

Effects of dioxin on gene expression in female reproductive system in the rat.

Pyrazolo pyrimidine-type inhibitors of SRC family tyrosine kinases promote ovarian steroid-induced differentiation of human endometrial stromal cells in vitro.

Reproductive and developmental effects of atrazine on the estuarine meiobenthic copepod *Amphiascus tenuiremis*.

Oxidative stress in *Caenorhabditis elegans*: protective effects of superoxide dismutase/catalase mimetics.

Effects of environmental estrogenic compounds on growth of a transplanted estrogen responsive pituitary tumor cell line in rats.

Developmental atrazine exposure suppresses immune function in male, but not female Sprague-Dawley rats.

Developmental effects of herbicides in mice.

The Metropolitan Atlanta Congenital Defects Program: 35 years of birth defects surveillance at the Centers for Disease Control and Prevention.

Exposure to animals and selected risk factors among Canadian farm residents with Hodgkin's disease, multiple myeloma, or soft tissue sarcoma.

Reported seasonal dependence of herbicide developmental toxicity in mice.

Herbicide effects on embryo implantation and litter size.

Birth malformations and other adverse perinatal outcomes in four U.S. Wheat-producing states.

Pentachlorophenol poisoning.

The selenoprotein GPX4 is essential for mouse development and protects from radiation and oxidative damage insults.

Diabetes mellitus and 2,3,7,8-tetrachlorodibenzo-p-dioxin elimination in veterans of Operation Ranch Hand.

The activation of the retinoic acid response element is inhibited in an animal model of congenital diaphragmatic hernia.

[Effect of atrazine on urease activity in soils with different fertility].

[Effects of different water, fertility, and light conditions on allelopathic traits of rice].

Fertile transgenic pearl millet [*Pennisetum glaucum* (L.) R. Br.] plants recovered through microprojectile bombardment and phosphinothricin selection of apical meristem-, inflorescence-, and immature embryo-derived embryogenic tissues.

Dioxins released from incineration plants and mortality from major diseases: an analysis of statistical data by municipalities.

[Antiestrogenic effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin on the gene expression of insulin-like growth factors family in osteoblast cells].

Insulin regulation in AhR-null mice: embryonic cardiac enlargement, neonatal macrosomia, and altered insulin regulation and response in pregnant and aging AhR-null females.

Dioxin/polychlorinated biphenyl body burden, diabetes and endometriosis: findings in a population-based study in Belgium.

Region-specific inhibition of prostatic epithelial bud formation in the urogenital sinus of C57BL/6 mice exposed in utero to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Pulmonary surfactant protein A, B, and C mRNA and protein expression in the nitrofen-induced congenital diaphragmatic hernia rat model.

Aryl hydrocarbon receptor 2 mediates 2,3,7,8-tetrachlorodibenzo-p-dioxin developmental toxicity in zebrafish.

Fetal heart development in the nitrofen-induced CDH rat model: the role of mechanical and nonmechanical factors.

Mechanisms of TCDD-induced abnormalities and embryo lethality in white leghorn chickens.

Embryonic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin in chickens: effects of dose and embryonic stage on hatchability and growth.

Semen quality in relation to biomarkers of pesticide exposure.

Integration, expression and inheritance of transgenes in hexaploid oat (*Avena sativa* L.).

The Ile2453Thr mutation in the ryanodine receptor gene 1 is associated with facilitated calcium release from sarcoplasmic reticulum by 4-chloro-m-cresol in human myotubes.

Prenatal vitamin E improves lung and heart hypoplasia in experimental diaphragmatic [correction of diaphragmatic] hernia.

Gene expression of fibroblast growth factors 10 and 7 is downregulated in the lung of nitrofen-induced diaphragmatic hernia in rats.

Risk factors for female infertility in an agricultural region.

Low frequency of infertility among workers in a borate processing facility.

Increased expression of ICAM-1 and VCAM-1 in the lung of nitrofen-induced congenital diaphragmatic hernia in rats.

A mixture of dioxins, furans, and non-ortho PCBs based upon consensus toxic equivalency factors produces dioxin-like reproductive effects.

Expression and activity of matrix metallo proteinases 2 and 9 and their inhibitors in rat lungs during the perinatal period and in diaphragmatic hernia.

Environmental dioxins and endometriosis.

The adrenal cortex in experimental congenital diaphragmatic hernia.

Etiology of congenital diaphragmatic hernia: the retinoid hypothesis.

Airway smooth muscle changes in the nitrofen-induced congenital diaphragmatic hernia rat model.

Effect of occupational exposures on male fertility: literature review.

Matrix metalloproteinase-9 and tissue inhibitor of metalloproteinase-1: expression in the lung of fetal rats with nitrofen-induced diaphragmatic hernia.

Invasion of interstitial matrix by a novel cell line from primary peritoneal carcinosarcoma, and by established ovarian carcinoma cell lines: role of cell-matrix adhesion molecules, proteinases, and E-cadherin expression.

Environmental estrogens alter early development in *Xenopus laevis*.

Increased expression of IgE-dependent histamine-releasing factor in endometriotic implants.

Retinal dehydrogenase-2 is inhibited by compounds that induce congenital diaphragmatic hernias in rodents.

Down-regulation of sonic hedgehog expression in pulmonary hypoplasia is associated with congenital diaphragmatic hernia.

Embryological origins and development of the rat diaphragm.

Anemia in pregnancy at South Sharqiya health centers, Oman.

Infertility and environmental pollutants.

Transplacental carcinogenicity of inorganic arsenic in the drinking water: induction of hepatic, ovarian, pulmonary, and adrenal tumors in mice.

Proliferative activity of bile from congenital choledochal cyst patients.

2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD) stimulates gonadotropin secretion in the immature female Sprague-Dawley rat through a pentobarbital- and estradiol-sensitive mechanism but does not alter gonadotropin-releasing hormone (GnRH) secretion by immortalized GnRH neurons in vitro.

Fish intake, plasma omega-3 polyunsaturated fatty acids, and polychlorinated dibenzo-p-dioxins/polychlorinated dibenzo-furans and co-planar polychlorinated biphenyls in the blood of the Japanese population.

Expression of aryl hydrocarbon receptor repressor in normal human tissues and inducibility by polycyclic aromatic hydrocarbons in human tumor-derived cell lines.

Evidence for a role of p38 kinase in hypoxia-inducible factor 1-independent induction of vascular endothelial growth factor expression by sodium arsenite.

Correlations between parameters in risk models: estimation and propagation of uncertainty by Markov Chain Monte Carlo.

Implications of glucose transporter protein type 1 (GLUT1)-haplodeficiency in embryonic stem cells for their survival in response to hypoxic stress.

Effects of boron foliar applications on vegetative and reproductive growth of sunflower.

Effect of dietary co-administration of sodium selenite on sodium arsenite-induced ovarian and uterine disorders in mature albino rats.

Genetic transformation of Indian bread (*T. aestivum*) and pasta (*T. durum*) wheat by particle bombardment of mature embryo-derived calli.

Impact of Management Practices on Prevalence of Soybean Sclerotinia Stem Rot in the North-Central United States and on Farmers' Decisions Under Uncertainty.

Efficient in vitro direct shoot organogenesis and regeneration of fertile plants from embryo explants of Bambara groundnut (*Vigna subterranea* L. Verdc.).

Pharmacokinetics of ovarian steroids in Sprague-Dawley rats after acute exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD).

Vascular endothelial growth factor rescues 2,3,7,8-tetrachlorodibenzo-p-dioxin inhibition of coronary vasculogenesis.

Zebrafish as a novel experimental model for developmental toxicology.

Chromosome doubling procedures of onion (*Allium cepa* L.) gynogenic embryos.

Developmental toxicity of a commercial herbicide mixture in mice: I. Effects on embryo implantation and litter size.

Different age-specific demographic profiles are generated in the same normal-lived *Drosophila* strain by different longevity stimuli.

Effects of early embryonal exposure to dexamethasone on malformations of neural-crest derivatives induced by nitrofen in rats.

Effects of vitamin A on malformations of neural-crest-controlled organs induced by nitrofen in rats.

Oral (gavage) two-generation (one litter per generation) reproduction study of pentachlorophenol (penta) in rats.

A study of the potential for a herbicide formulation containing 2,4-d and picloram to cause male-mediated developmental toxicity in rats.

Reproductive outcomes in the women of the Red River Valley of the north. I. The spouses of pesticide applicators: pregnancy loss, age at menarche, and exposures to pesticides.

Response of the amphibian tadpole *Xenopus laevis* to atrazine during sexual differentiation of the ovary.

Birth defects, season of conception, and sex of children born to pesticide applicators living in the Red River Valley of Minnesota, USA.

The effects of atrazine metabolites on puberty and thyroid function in the male Wistar rat.

Postnatal survival of rat offspring prenatally exposed to pure 2,4-dichlorophenoxyacetic acid (2,4-D).

Pesticide Roundup provokes cell division dysfunction at the level of CDK1/cyclin B activation.

Developmental disorders in embryos of the frog *Xenopus laevis* induced by chloroacetanilide herbicides and their degradation products.

Fetotoxic action of 2,4-dichlorophenoxyacetic acid (2,4-D). III. Morphological changes in rat kidneys.

[Herbicides and congenital malformations in Meta, Colombia].

Effects of nonylphenol, 1,1-dichloro-2,2-bis(p-chlorophenyl)ethylene (p,p'-DDE), and pentachlorophenol on the adult female guinea pig reproductive tract.

Barriers to gene flow from oilseed rape (*Brassica napus*) into populations of *Sinapis arvensis*.

Endocrine active agents: implications of adverse and non-adverse changes.

Pesticide-related symptoms among farm workers in rural Honduras.

Male rats exposed to linuron in utero exhibit permanent changes in anogenital distance, nipple retention, and epididymal malformations that result in subsequent testicular atrophy.

Regional assessment of atrazine exposure and incidence of breast and ovarian cancers in Kentucky.

Agrobacterium tumefaciens-mediated transformation of maize embryos using a standard binary vector system.

The WUSCHEL gene promotes vegetative-to-embryonic transition in *Arabidopsis*.

Soil metabolism of isoxaflutole in corn.

Altered protein profile and possible hypoxia in the placenta of 2,3,7,8-tetrachlorodibenzo-p-dioxin-exposed rats.

Mesenchymal nuclear transcription factors in nitrofen-induced hypoplastic lung.

[Modern problems of biodosimetry].

Antenatal dexamethasone enhances endothelin-1 synthesis and gene expression in the heart in congenital diaphragmatic hernia in rats.

Expression of surfactant proteins and thyroid transcription factor 1 in an ovine model of congenital diaphragmatic hernia.

Antiandrogenic effects in vitro and in vivo of the fungicide prochloraz.

Endocrine disruption by indole-3-carbinol and tamoxifen: blockage of ovulation.

Critical windows of vulnerability for effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin on prostate and seminal vesicle development in C57BL/6 mice.

Dioxin stimulates RANTES expression in an in-vitro model of endometriosis.

Nitrofen inhibition of pulmonary growth and development occurs in the early embryonic mouse.

Thyroid transcription factor-1 expression during normal human lung development and in patients with congenital diaphragmatic hernia.

Effect of mechanical ventilation on the pulmonary expression and production of elastin in nitrofen-induced diaphragmatic hernia in rats.

Aryl hydrocarbon receptor nuclear translocator 2 (ARNT2): structure, gene mapping, polymorphisms, and candidate evaluation for human orofacial clefts.

Oxidation-reduction (redox) controls fetal hypoplastic lung growth.

Murine nitrofen-induced pulmonary hypoplasia does not involve induction of TGF-beta signaling.

Estradiol enhances and estriol inhibits the expression of CYP1A1 induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin in a mouse ovarian cancer cell line.

Challenging embryological theories on congenital diaphragmatic hernia: future therapeutic implications for paediatric surgery.

Serum dioxin concentrations and endometriosis: a cohort study in Seveso, Italy.

Serum dioxin concentrations and breast cancer risk in the Seveso Women's Health Study.

Effects of in utero exposure to the organophosphate insecticide fenitrothion on androgen-dependent reproductive development in the CrI:CD(SD)BR rat.

Analysis of the antiestrogenic activity of 2,3,7,8-tetrachlorodibenzo-p-dioxin in human ovarian carcinoma BG-1 cells.

In utero and lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin and 2,3,4,7,8-pentachlorodibenzofuran reduces growth and disrupts reproductive parameters in female rats.

2,3,7,8-tetrachlorodibenzo-p-dioxin interacts with endogenous estradiol to disrupt prostate gland morphogenesis in male rat fetuses.

Alpha-tocopherol protects cultured human cells from the acute lethal cytotoxicity of dioxin.

Increased vascular endothelial growth factor peptide and gene expression in hypoplastic lung in nitrofen induced congenital diaphragmatic hernia in rats.

Effect of prenatal glucocorticoids and postnatal nitric oxide inhalation on survival of newborn rats with nitrofen-induced congenital diaphragmatic hernia.

Restoration of p53 tumor suppressor pathway in human cervical carcinoma cells by sodium arsenite.

Developmental stage-specific effects of perinatal 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure on reproductive organs of male rat offspring.

Congenital erythrocytosis with increased erythropoietin level.

The potential role of exposure to environmental toxicants in the pathophysiology of endometriosis.

On the rumors about the silent spring. Review of the scientific evidence linking occupational and environmental pesticide exposure to endocrine disruption health effects.

Dioxin inhibition of estrogen-induced mouse uterine epithelial mitogenesis involves changes in cyclin and transforming growth factor-beta expression.

Increased glycogen content and glucose transporter 3 mRNA level in the placenta of Holtzman rats after exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

2,3,7,8-Tetrachlorodibenzo-p-dioxin toxicity in the zebrafish embryo: altered regional blood flow and impaired lower jaw development.

Maternal immune stimulation in mice decreases fetal malformations caused by teratogens.

How can chemical compounds alter human fertility?

Inhibitory effect of *Carthamus tinctorius* L. seed extracts on bone resorption mediated by tyrosine kinase, COX-2 (cyclooxygenase) and PG (prostaglandin) E2.

Hexachlorobenzene exposure and the proportion of male births in Turkey 1935-1990.

Dioxins and endometriosis: a plausible hypothesis.

2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) disrupts early morphogenetic events that form the lower reproductive tract in female rat fetuses.

Characterization and identification of cytochrome P450 metabolites of arachidonic acid released by human peritoneal macrophages obtained from the pouch of Douglas.

Oxidative stress response of rat testis to model prooxidants in vitro and its modulation.

Developmental changes in inhibitory effects of arsenic and heat shock on growth of pre-implantation bovine embryos.

Fate of Ah-receptor agonists in organic household waste during anaerobic degradation--estimation of levels using EROD induction in organ cultures of chick embryo livers.

Estrous cycle-regulated expression of CYP1B1 mRNA in the rat ovary.

2,3,7,8-tetrachlorodibenzo-p-dioxin toxicity in the zebrafish embryo: local circulation failure in the dorsal midbrain is associated with increased apoptosis.

Serum dioxin concentrations and menstrual cycle characteristics.

Tissue-specific expression of AHR2, ARNT2, and CYP1A in zebrafish embryos and larvae: effects of developmental stage and 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure.

Alteration in ovarian gene expression in response to 2,3,7,8-tetrachlorodibenzo-p-dioxin: reduction of cyclooxygenase-2 in the blockage of ovulation.

Expression of genes for alcohol and aldehyde metabolizing enzymes in mouse oocytes and preimplantation embryos.

Detection of early embryonic development in chicken eggs using visible light transmission.

Dioxin exposure and porcine reproductive hormonal activity.

Population toxicokinetic analysis of 2,3,7,8-tetrachlorodibenzo-p-dioxin using Bayesian techniques.

Effect of 2,4-dinitrophenol on the energy metabolism of cattle embryos produced by in vitro fertilization and culture.

Vietnamese sisters with Grebe syndrome on a TV program in Japan.

Impact of chemical warfare with agent orange on women's reproductive lives in Vietnam: a pilot study.

Cardiac gene expression and synthesis of atrial natriuretic peptide in the nitrofen model of congenital diaphragmatic hernia in rats: effect of prenatal dexamethazone treatment.

Restoring effects of vitamin A on surfactant synthesis in nitrofen-induced congenital diaphragmatic hernia in rats.

Distributions and determinants of pre-emergent herbicide exposures among custom applicators.

Herbicides and the microtubular apparatus of *Nicotiana tabacum* pollen tube: immunofluorescence and immunogold labelling studies.

Association of transposition of the great arteries in infants with maternal exposures to herbicides and rodenticides.

Bayesian semiparametric analysis of developmental toxicology data.

The toxicological effects of the herbicide 2,4-DCPA on progesterone levels and mortality in Wistar female rats.

[Genetic analysis of T1 progeny of transgenic tobacco with metallothionein gene and metallothionein domain mutant alpha alpha gene].

Effects of thiobencarb herbicide to an alga (*Nannochloris oculata*) and the cladoceran (*Daphnia magna*).

Grebe syndrome in Vietnamese sisters: not Agent Orange.

Arsenic-induced congenital malformations in genetically susceptible folate binding protein-2 knockout mice.

Heterofertilization exhibited by trifluralin-induced bicellular pollen on diploid and tetraploid maize crosses.

Altered gene level expression of thyroid hormone receptors alpha-1 and beta-1 in the lung of nitrofen-induced diaphragmatic hernia.

A cost of reproduction in *Drosophila melanogaster*: stress susceptibility.

Impaired spreading of surfactant phospholipids in the lungs of newborn rats with pulmonary hypoplasia as a model of congenital diaphragmatic hernia induced by nitrofen.

Impaired activity of the extraneuronal monoamine transporter system known as uptake-2 in Orct3/Slc22a3-deficient mice.

Combinatorial bio/chemical analysis of dioxin and dioxin-like compounds in waste recycling, feed/food, humans/wildlife and the environment.

Disruption of erythropoiesis by dioxin in the zebrafish.

Occupational risks for male fertility: an analysis of patients attending a tertiary referral centre.

[Acute intoxication in the child].

Spontaneous abortion, sex ratio, and paternal occupational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Mast cell regulation of inflammation and gene expression during antigen-induced bladder inflammation in mice.

Decreased mitogen activated protein kinase activities in congenital diaphragmatic hernia-associated pulmonary hypoplasia.

The risk of endometriosis and exposure to dioxins and polychlorinated biphenyls: a case-control study of infertile women.

Dioxin and diabetes mellitus: an analysis of the combined NIOSH and Ranch Hand data.

Green fluorescent protein (GFP) as a marker of aryl hydrocarbon receptor (AhR) function in developing zebrafish (*Danio rerio*).

Aromatic hydrocarbon receptor-driven Bax gene expression is required for premature ovarian failure caused by biohazardous environmental chemicals.

Use of a toxicokinetic model in the analysis of cancer mortality in relation to the estimated absorbed dose of dioxin (2,3,7,8-tetrachlorodibenzo-p-dioxin, TCDD).

Induction of hepatic 8-oxo-deoxyguanosine adducts by 2,3,7,8-tetrachlorodibenzo-p-dioxin in Sprague-Dawley rats is female-specific and estrogen-dependent.

In utero and lactational treatment with 2,3,7,8-tetrachlorodibenzo-p-dioxin impairs mammary gland differentiation but does not block the response to exogenous estrogen in the postpubertal female rat.

Environmental xenoestrogens, antiandrogens and disorders of male sexual differentiation.

Identification of new triarylethylene oxyalkanoic acid analogues as bone selective estrogen mimetics.

The genetic basis of endometriosis.

Fetal tracheal occlusion in the rat model of nitrofen-induced congenital diaphragmatic hernia: tracheal occlusion reverses the arterial structural abnormality.

Regulation of 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced tumor promotion by 17 beta-estradiol in female Sprague--Dawley rats.

Neural crest-derived defects in experimental congenital diaphragmatic hernia.

Gene expression of insulin-like growth factor-1 and epidermal growth factor is downregulated in the heart of rats with nitrofen-induced diaphragmatic hernia.

Human health effects of dioxins: cancer, reproductive and endocrine system effects.

Impaired ovulation by 2,3,7,8 tetrachlorodibenzo-p-dioxin (TCDD) in immature rats treated with equine chorionic gonadotropin.

The effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on weight gain and hepatic ethoxyresorufin-o-deethylase (EROD) induction vary with ovarian hormonal status in the immature gonadotropin-primed rat model.

Tampons, dioxins, and endometriosis.

Occupational exposures to metals, solvents and pesticides: recent evidence on male reproductive effects and biological markers.

Dioxin exposure and public health in Chapaevsk, Russia.

Absence of estrogen receptor-alpha expression in human ovarian clear cell adenocarcinoma compared with ovarian serous, endometrioid, and mucinous adenocarcinoma.

Structural immaturity of the heart in congenital diaphragmatic hernia in rats.

Correlation of cardiotoxicity mediated by halogenated aromatic hydrocarbons to aryl hydrocarbon receptor activation.

[Prognostic indexes derived from ventricular morphology in congenital diaphragmatic hernia induced by nitrofen].

Oxygen-induced vasodilation is blunted in pulmonary arterioles from fetal rats with nitrofen-induced congenital diaphragmatic hernia.

Maternal exposure to a low dose of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) suppressed the development of reproductive organs of male rats: dose-dependent increase of mRNA levels of 5alpha-reductase type 2 in contrast to decrease of androgen receptor in the pubertal ventral prostate.

Androgen receptor antagonism by the organophosphate insecticide fenitrothion.

BAPS prize-1999: Lung growth induced by prenatal tracheal occlusion and its modifying factors: a study in the rat model of congenital diaphragmatic hernia.

2,3,7,8-tetrachlorodibenzo-p-dioxin decreases responsiveness of the hypothalamus to estradiol as a feedback inducer of preovulatory gonadotropin secretion in the immature gonadotropin-primed rat.

Final report on the safety assessment of *Juniperus communis* Extract, *Juniperus oxycedrus* Extract, *Juniperus oxycedrus* Tar, *Juniperus phoenicea* extract, and *Juniperus virginiana* Extract.

Human arylhydrocarbon receptor repressor (AHRR) gene: genomic structure and analysis of polymorphism in endometriosis.

Serum levels of TCDD and dioxin-like chemicals in Rhesus monkeys chronically exposed to dioxin: correlation of increased serum PCB levels with endometriosis.

Involvement of ADAM9 in multinucleated giant cell formation of blood monocytes.

Current status of fertility control methods in India.

2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) inhibition of coronary development is preceded by a decrease in myocyte proliferation and an increase in cardiac apoptosis.

Efficient in vitro plant regeneration from immature zygotic embryos of pearl millet [*Pennisetum glaucum* (L.) R. Br.] and *Sorghum bicolor* (L.) Moench.

Effect of dioxin on ovarian function in the cynomolgus macaque (*M. fascicularis*).

Protection of sodium arsenite-induced ovarian toxicity by coadministration of L-ascorbate (vitamin C) in mature wistar strain rat.

Alterations in follicle development, steroidogenesis, and gonadotropin receptor binding in a model of ovulatory blockade.

Effects of environmental antiandrogens on reproductive development in experimental animals.

Leaf optical properties in higher plants: linking spectral characteristics to stress and chlorophyll concentration.

Increased tumor necrosis factor-alpha production by peripheral blood leukocytes from TCDD-exposed rhesus monkeys.

Long-term toxic impact of 2,3,7,8-tetrachlorodibenzo-p-dioxin on the reproduction, sexual differentiation, and development of different life stages of *Gobiocypris rarus* and *Daphnia magna*.

Efficient production of androgenic doubled-haploid mutants in barley by the application of sodium azide to anther and microspore cultures.

Sulfated glycoconjugates are powerful modulators of bovine sperm adhesion and release from the oviductal epithelium in vitro.

Inhibitors of mitochondrial ATP production at the time of compaction improve development of in vitro produced porcine embryos.

Role of prolactin in chloro-S-triazine rat mammary tumorigenesis.

The effect of atrazine on puberty in male wistar rats: an evaluation in the protocol for the assessment of pubertal development and thyroid function.

Evaluation of dietary and environmental risk factors for hyperthyroidism in cats.

Modifications of the topical Japanese medaka (*Oryzias latipes*) embryo larval assay for assessing developmental toxicity of pentachlorophenol and p, p'-dichlorodiphenyltrichloroethane.

Effects of in utero exposure to linuron on androgen-dependent reproductive development in the male CrI:CD(SD)BR rat.

Roundup inhibits steroidogenesis by disrupting steroidogenic acute regulatory (StAR) protein expression.

Cellular and molecular mechanisms of action of linuron: an antiandrogenic herbicide that produces reproductive malformations in male rats.

Differential modulation of catecholamines by chlorotriazine herbicides in pheochromocytoma (PC12) cells in vitro.

In vitro studies of cellular and molecular developmental toxicity of adjuvants, herbicides, and fungicides commonly used in Red River Valley, Minnesota.

Estrogen reduces acute striatal dopamine responses in vivo to the neurotoxin MPP+ in female, but not male rats.

[Pentachlorophenol poisoning. Report of 4 cases and review of the literature].

Occupation and prostate cancer risk in Sweden.

Recent advances in understanding the pathogenesis of nitrofen-induced congenital diaphragmatic hernia.

Safety evaluation and risk assessment of the herbicide Roundup and its active ingredient, glyphosate, for humans.

[Pesticide poisoning].

Atrazine disrupts the hypothalamic control of pituitary-ovarian function.

Uptake, toxicity, and effects on detoxication enzymes of atrazine and trifluoroacetate in embryos of zebrafish.

Disorders of male rat reproductive tract under the influence of atrazine.

Copper chaperone for superoxide dismutase is essential to activate mammalian Cu/Zn superoxide dismutase.

Antenatal dexamethasone enhances endothelin receptorB expression in hypoplastic lung in nitrofen-induced diaphragmatic hernia in rats.

Antenatal dexamethasone improves atrial natriuretic peptide receptors in hypoplastic lung in nitrofen-induced diaphragmatic hernia in rats.

Preliminary results on embryo rescue for circumventing hybridization barriers in *Asparagus*.

Conjugation of 1-naphthol in primary cell cultures of rat ovarian cells.

Bovine embryo culture in vitro: new developments and post-transfer consequences.

Antenatal dexamethasone administration increases fetal lung DNA synthesis and RNA and protein content in nitrofen-induced congenital diaphragmatic hernia in rats.

Prenatal dexamethasone rescues heart hypoplasia in fetal rats with congenital diaphragmatic hernia.

Environmental factors in infertility.

Nonspecific stimulation of the maternal immune system. I. Effects On teratogen-induced fetal malformations.

Structure of the primordial diaphragm and defects associated with nitrofen-induced CDH.

Lung hypoplasia in the nitrofen model of congenital diaphragmatic hernia occurs early in development.

Association of the human papillomavirus type 11 E1()E4 protein with cornified cell envelopes derived from infected genital epithelium.

Antenatal dexamethasone enhances surfactant protein synthesis in the hypoplastic lung of nitrofen-induced diaphragmatic hernia in rats.

Heart-related indices in experimental diaphragmatic hernia.

Ovarian tumors in rats induced by chronic 2,3,7,8-tetrachlorodibenzo-p-dioxin treatment.

Effect of prenatal tetrandrine therapy on pulmonary vascular structural remodeling in the nitrofen-induced CDH rat model.

Experts' assessment of probability and level of pesticide exposure in agricultural workers.

In vivo, in utero microscopic magnetic resonance imaging: application in a rat model of diaphragmatic hernia.

Subchronic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin modulates the pathophysiology of endometriosis in the cynomolgus monkey.

Reproductive, neuroendocrine, and immune consequences of acute exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin in the Siberian hamster.

Mechanisms of inhibitory aryl hydrocarbon receptor-estrogen receptor crosstalk in human breast cancer cells.

In vitro effects of growth factors on lung hypoplasia in a model of congenital diaphragmatic hernia.

Down-regulation of thyroid transcription factor-1 gene expression in fetal lung hypoplasia is restored by glucocorticoids.

Interaction of estradiol and 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in an ovulation model: evidence for systemic potentiation and local ovarian effects.

Effect of CGS 26303, an endothelin-converting enzyme-neutral endopeptidase inhibitor, on nitrofen-induced congenital diaphragmatic hernia in the rat.

Seveso Women's Health Study: a study of the effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin on reproductive health.

Toxicity of chronic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin in diethylnitrosamine-initiated ovariectomized rats implanted with subcutaneous 17 beta-estradiol pellets.

Expression of dioxin-related transactivating factors and target genes in human eutopic endometrial and endometriotic tissues.

Dual-hit hypothesis explains pulmonary hypoplasia in the nitrofen model of congenital diaphragmatic hernia.

Chemokine receptors CXCR-1/2 activate mitogen-activated protein kinase via the epidermal growth factor receptor in ovarian cancer cells.

Effect of TCDD on maternal toxicity and chorionic gonadotropin--bioactivity in the immediate post-implantation period of macaque.

Neurokinin-1 (NK-1) receptor is required in antigen-induced cystitis.

Effect of hyperoxia on surfactant protein gene expression in hypoplastic lung in nitrofen-induced diaphragmatic hernia in rats.

Antenatal dexamethasone administration inhibits smooth-muscle-cell DNA synthesis in pulmonary-arterial media in nitrofen-induced congenital diaphragmatic hernia in rats.

The hypoplastic heart in congenital diaphragmatic hernia: reduced expression of basic fibroblast growth factor and platelet-derived growth factor.

Cell proliferation and apoptosis in experimental lung hypoplasia.

Early lung malformations in congenital diaphragmatic hernia.

Administration of antenatal glucocorticoids upregulates peptide growth factor gene expression in nitrofen-induced congenital diaphragmatic hernia in rats.

[Effects of endocrine disruptors on preimplantation embryo development].

Sodium tetraborate effects on mortality and reproduction of *Anastrepha suspensa* (Diptera: Tephritidae).

Anti-estrogenic effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin in mouse uterus: critical role of the aryl hydrocarbon receptor in stromal tissue.

Tissue disposition of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in maternal and developing long-evans rats following subchronic exposure.

Hemodynamic dysfunction and cytochrome P4501A mRNA expression induced by 2,3,7,8-tetrachlorodibenzo-p-dioxin during embryonic stages of lake trout development.

Physiological role of the aryl hydrocarbon receptor in mouse ovary development.

Signal transduction mechanisms linking increased extracellular calcium to proliferation in ovarian surface epithelial cells.

Cellular and biochemical mechanisms by which environmental oestrogens influence reproductive function.

Gonadotropin-releasing hormone (GnRH) partially reverses the inhibitory effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin on ovulation in the immature gonadotropin-treated rat.

Genotype screening for proliferative embryogenesis and biolistic transformation of short-season soybean genotypes.

Effects of polychlorinated dibenzofurans, biphenyls, and their mixture with dibenzo-p-dioxins on ovulation in the gonadotropin-primed immature rat: support for the toxic equivalency concept.

Seminal plasma reduces exogenous oxidative damage to human sperm, determined by the measurement of DNA strand breaks and lipid peroxidation.

Immunization of chickens with quail and turkey perivitelline membrane proteins: production of antibodies and their effects on fertility.

Acute administration of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in pregnant Long Evans rats: association of measured tissue concentrations with developmental effects.

Heparin and in-vitro experimental lung hypoplasia.

Effect of inhibitors and uncouplers of oxidative phosphorylation during compaction and blastulation of bovine embryos cultured in vitro.

Antioxidative effect of melatonin on human spermatozoa.

In vitro fertilization after in vivo treatment of rats with three reproductive toxicants.

Estrogen enhances induction of cytochrome P-4501A1 by 2,3,7, 8-tetrachlorodibenzo-p-dioxin in liver of female Long-Evans rats.

Thyroid function and effects on reproduction in ewes exposed to the organochlorine pesticides lindane or pentachlorophenol (PCP) from conception.

Nitrofen-induced congenital malformations of the heart and great vessels in rats: an animal model.

The mammary tumor response in triazine-treated female rats: a threshold-mediated interaction with strain and species-specific reproductive senescence.

An assessment of fertility in male workers exposed to molinate.

Pentachlorophenol exposure in women with gynecological and endocrine dysfunction.

Maternal and developmental toxicity of halogenated 4'-nitrodiphenyl ethers in mice.

A risk characterization for atrazine: oncogenicity profile.

Endocrine and reproductive function in ewes exposed to the organochlorine pesticides lindane or pentachlorophenol.

Disposition of pesticides and toxicants in the human reproductive system in cases of acute poisoning.

[Effect of 2,4-D ecotoxicants on spermatogenesis and fertility of albino rats].

Endocrine, immune, and behavioral effects of aldicarb (carbamate), atrazine (triazine) and nitrate (fertilizer) mixtures at groundwater concentrations.

Administration of potentially antiandrogenic pesticides (procymidone, linuron, iprodione, chlozolinate, p,p'-DDE, and ketoconazole) and toxic substances (dibutyl- and diethylhexyl phthalate, PCB 169, and ethane dimethane sulphonate) during sexual differentiation produces diverse profiles of reproductive malformations in the male rat.

Vitamin A decreases the incidence and severity of nitrofen-induced congenital diaphragmatic hernia in rats.

Evidence for oestrogen receptor alpha-immunoreactivity in gonadotrophin-releasing hormone-expressing neurones.

Evidence for extensive distribution of oestrogen receptor alpha-immunoreactivity in the cerebral cortex of adult rats.

Expression of Ah receptor and dioxin-related genes in human uterine endometrium in women with or without endometriosis.

[Absence of cardiac hypoplasia in an experimental model of congenital diaphragmatic hernia].

Risk of stomach cancer associated with 12 workplace hazards: analysis of death certificates from 24 states of the United States with the aid of job exposure matrices.

Skeletal malformations associated with congenital diaphragmatic hernia: experimental and human studies.

Effect of prenatal exposure to TCDD on the promotion of endometriotic lesion growth by TCDD in adult female rats and mice.

Antenatal dexamethasone suppresses tumor necrosis factor-alpha expression in hypoplastic lung in nitrofen-induced diaphragmatic hernia in rats.

Gestational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) severely alters reproductive function of female hamster offspring.

Inhibition of BRCA-1 expression by benzo[a]pyrene and its diol epoxide.

Cardiovascular malformations in congenital diaphragmatic hernia: human and experimental studies.

Teratogenic response to arsenite during neurulation: relative sensitivities of C57BL/6J and SWV/Fnn mice and impact of the splotch allele.

[Small handbook of dioxin et alias].

Cardiovascular malformations in experimental congenital diaphragmatic hernia.

Fetal tracheal occlusion in the rat model of nitrofen-induced congenital diaphragmatic hernia.

Maternal occupational exposure to chemical substances and the risk of infants small-for-gestational-age.

Toxic equivalency factors of polychlorinated dibenzo-p-dioxins in an ovulation model: validation of the toxic equivalency concept for one aspect of endocrine disruption.

BPD-MA-mediated photosensitization in vitro and in vivo: cellular adhesion and beta1 integrin expression in ovarian cancer cells.

Biochemistry of hemlock (*Conium maculatum* L.) alkaloids and their acute and chronic toxicity in livestock. A review.

Increased tropoelastin and procollagen expression in the lung of nitrofen-induced diaphragmatic hernia in rats.

Heart hypoplasia in experimental congenital diaphragmatic hernia.

Cancer incidence in a cohort of licensed pesticide applicators in Florida.

[Oxidative injury and its defense system in vivo].

Relationships between environmental organochlorine contaminant residues, plasma corticosterone concentrations, and intermediary metabolic enzyme activities in Great Lakes herring gull embryos.

Endocrine biomarkers of early fetal loss in cynomolgus macaques (*Macaca fascicularis*) following exposure to dioxin.

The genetics of endometriosis.

The potential role of environmental toxins in the pathophysiology of endometriosis.

Lung hypoplasia caused by nitrofen is mediated by down-regulation of thyroid transcription factor TTF-1.

The tracheobronchial tree is abnormal in experimental congenital diaphragmatic hernia.

Pulmonary neuroendocrine cells in nitrofen-induced diaphragmatic hernia and the effect of prenatal glucocorticoids.

Effect of antenatal glucocorticoid administration on insulin-like growth factor I and II levels in hypoplastic lung in nitrofen-induced congenital diaphragmatic hernia in rats.

Mortality in a cohort of licensed pesticide applicators in Florida.

The physiopathology of endometriosis: pollution and dioxin.

2,3,7,8-Tetrachlorodibenzo-p-dioxin alters cardiovascular and craniofacial development and function in sac fry of rainbow trout (*Oncorhynchus mykiss*).

Effect of exposure to 3,3',4,4',5-pentachlorobiphenyl (PCB 126) throughout gestation and lactation on development and spatial delayed alternation performance in rats.

Prenatal vitamin E treatment improves lung growth in fetal rats with congenital diaphragmatic hernia.

Effects of environmental exposure to polychlorinated biphenyls and dioxins on cognitive abilities in Dutch children at 42 months of age.

Effect of sodium arsenite on plasma levels of gonadotrophins and ovarian steroidogenesis in mature albino rats: duration-dependent response.

2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD) blocks ovulation by a direct action on the ovary without alteration of ovarian steroidogenesis: lack of a direct effect on ovarian granulosa and thecal-interstitial cell steroidogenesis in vitro.

Effects of environmental estrogens on tumor necrosis factor alpha-mediated apoptosis in MCF-7 cells.

Effects of an environmental endocrine disruptor on fetal development, estrogen receptor(alpha) and epidermal growth factor receptor expression in the porcine male genital tract.

Ah receptor and ARNT protein and mRNA concentrations in rat prostate: effects of stage of development and 2,3,7, 8-tetrachlorodibenzo-p-dioxin treatment.

Modulation of excision repair cross complementation group 1 (ERCC-1) mRNA expression by pharmacological agents in human ovarian carcinoma cells.

Apoptosis of the intestinal principal cells of *Xenopus* larvae exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Neuroendocrine and reproductive effects of contemporary-use pesticides.

Interactive effects of TCDD and p,p'-DDE on male reproductive tract development in in utero and lactationally exposed rats.

Chronic dietary toxicity study on 2,4-dichlorophenoxybutyric acid in the dog.

The nature of antioxidant defense mechanisms: a lesson from transgenic studies.

Chlorpropham [isopropyl N-(3-chlorophenyl) carbamate] disrupts microtubule organization, cell division, and early development of sea urchin embryos.

Reproductive effects in mink (*Mustela vison*) exposed to the pesticides Lindane, Carbofuran and Pentachlorophenol in a multigeneration study.

[Solid waste and its effect on health (review)].

Molinate: rodent reproductive toxicity and its relevance to humans--a review.

In Vietnam, many congenital anomalies are believed to result from the scattering of defoliants, including dioxin.

Paternal dioxin, preterm birth, intrauterine growth retardation, and infant death.

Chlorinated hydrocarbons in women with repeated miscarriages.

Pulmonary arterioles from rats with congenital diaphragmatic hernias are hypoplastic but not hyperresponsive.

Hypoxic pulmonary vasoconstriction is impaired in rats with nitrofen-induced congenital diaphragmatic hernia.

Effect of dexamethasone on endothelial nitric oxide synthase in experimental congenital diaphragmatic hernia.

Endothelin-1 pulmonary vasoconstriction in rats with diaphragmatic hernia.

Quantitative cancer risk assessment for dioxins using an occupational cohort.

The origin, effects and control of air pollution in laboratories used for human embryo culture.

Expression of ornithine decarboxylase is transiently increased by pollination, 2,4-dichlorophenoxyacetic acid, and gibberellic acid in tomato ovaries.

Inhibitor and temperature effect on catalase in the liver of adult diploid and haploid *Rana rugosa*.

Periplasmic copper-zinc superoxide dismutase protects *Haemophilus ducreyi* from exogenous superoxide.

Paternal exposure to pesticides and congenital malformations.

Effects of in utero and lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) on serum androgens and steroidogenic enzyme activities in the male rat reproductive tract.

Differential gene expression at gestational days 14 and 16 in normal and nitrogen-induced hypoplastic murine fetal lungs with coexistent diaphragmatic hernia.

Molecular and functional aspects of the hairless (*hr*) gene in laboratory rodents and humans.

Occupational risk factors for cancer of the gastric cardia. Analysis of death certificates from 24 US states.

Effects of environmental exposure to polychlorinated biphenyls and dioxins on birth size and growth in Dutch children.

Suicide mortality and pesticide use among Canadian farmers.

[Dioxins: current knowledge about health effects].

Cardiac teratogenicity of trichloroethylene metabolites.

Calcitonin gene-related peptide expression is altered in pulmonary neuroendocrine cells in developing lungs of rats with congenital diaphragmatic hernia.

Effects on developmental landmarks and reproductive capability of 3,3',4,4'-tetrachlorobiphenyl and 3,3',4,4',5-pentachlorobiphenyl in offspring of rats exposed during pregnancy.

Administration of antenatal glucocorticoids prevents pulmonary artery structural changes in nitrofen-induced congenital diaphragmatic hernia in rats.

Developmental and reproductive toxicity of inorganic arsenic: animal studies and human concerns.

In utero and lactational exposure of the male rat to 2,3,7,8-tetrachlorodibenzo-p-dioxin impairs prostate development. 2. Effects on growth and cytodifferentiation.

Some aspects of the etiology of non-Hodgkin's lymphoma.

Inhibition of vascular and epithelial differentiation in murine nitrofen-induced diaphragmatic hernia.

The genetics of endometriosis.

Congenital diaphragmatic hernia--does the side of the defect influence the incidence of associated malformations?

Differential display of genes in normal and hypoplastic fetal murine lungs.

Antenatal glucocorticoid therapy suppresses angiotensin-converting enzyme activity in rats with nitrofen-induced congenital diaphragmatic hernia.

Surfactant protein A is decreased in a rat model of congenital diaphragmatic hernia.

Environmental and occupational aspects on the etiology of non-Hodgkin's lymphoma.

Pulmonary vascular balance in congenital diaphragmatic hernia: enhanced endothelin-1 gene expression as a possible cause of pulmonary vasoconstriction.

Effect of prenatal glucocorticoids on pulmonary vascular muscularisation in nitrofen-induced congenital diaphragmatic hernia.

Modulation of ovarian follicle maturation and effects on apoptotic cell death in Holtzman rats exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in utero and lactationally.

Fertility among a cohort of male sawmill workers exposed to chlorophenolate fungicides.

Xenoendocrine disrupters: laboratory studies on male reproductive effects.

Calreticulin expression in plant cells: developmental regulation, tissue specificity and intracellular distribution.

2,3,7,8-Tetrachlorodibenzo-p-dioxin in pregnant Long Evans rats: disposition to maternal and embryo/fetal tissues.

Secretion of a Fungal Extracellular Catalase by *Claviceps purpurea* During Infection of Rye: Putative Role in Pathogenicity and Suppression of Host Defense.

Aryl hydrocarbon receptor activation in genital tubercle, palate, and other embryonic tissues in 2,3,7,8-tetrachlorodibenzo-p-dioxin-responsive lacZ mice.

Responsiveness of the adult male rat reproductive tract to 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure: Ah receptor and ARNT expression, CYP1A1 induction, and Ah receptor down-regulation.

Somatic embryogenesis in *Arabidopsis thaliana* is facilitated by mutations in genes repressing meristematic cell divisions.

Reduced fertility in female mice lacking copper-zinc superoxide dismutase.

Involvement of protein-tyrosine phosphorylation and dephosphorylation in sperm-induced *Xenopus* egg activation.

Accumulation of ascorbate by endocrine-regulated and glucose-sensitive transport of dehydroascorbic acid in luteinized rat ovarian cells.

Comparative toxicology of borates.

Effects of pesticides and toxic substances on behavioral and morphological reproductive development: endocrine versus nonendocrine mechanisms.

Male pesticide exposure and pregnancy outcome.

A review of epidemiologic studies of triazine herbicides and cancer.

Evaluation of the mutagenicity of acetochlor to male rat germ cells.

Reproductive efficiency in mink (*Mustela vison*) treated with the pesticides lindane, carbofuran and pentachlorophenol.

Sex-dependent differences in the disposition of 2,4-dichlorophenoxyacetic acid in Sprague-Dawley rats, B6C3F1 mice, and Syrian hamsters.

Pesticides and cancer.

Reproductive and developmental effects of occupational pesticide exposure: the epidemiologic evidence.

A leucine-rich repeat containing receptor-like kinase marks somatic plant cells competent to form embryos.

The ovarian progesterone receptor in the spotted seatrout, *Cynoscion nebulosus*, demonstrates steroid specificity different from progesterone receptors in other vertebrates.

From discovery to eradication of schistosomiasis in Japan: 1847-1996.

In utero and lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) induces genital dysmorphogenesis in the female rat.

[Epidemiological and clinical findings in congenital heart diseases during the neonatal period. Report on personal cases].

Morphologic characteristics of endometriosis in the mouse model: application to toxicology.

In utero exposure to low doses of 2,3,7,8-tetrachlorodibenzo-p-dioxin alters reproductive development of female Long Evans hooded rat offspring.

Thyroid hormones in the pathogenesis of lung hypoplasia and immaturity induced in fetal rats by prenatal exposure to nitrofen.

Pathogenesis of nitrofen-induced congenital diaphragmatic hernia in fetal rats.

Promotion of endometriosis in mice by polychlorinated dibenzo-p-dioxins, dibenzofurans, and biphenyls.

In utero and lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin: effects on development of the male and female reproductive system of the mouse.

Prenatal hormones alter antioxidant enzymes and lung histology in rats with congenital diaphragmatic hernia.

Alterations to the pituitary-gonadal axis in the peripubertal female rat exposed in utero and through lactation to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Determination of 3D dose distribution from intracavitary brachytherapy of cervical cancer by MRI of irradiated ferrous sulphate gel.

Environmental effects and aquatic organisms: investigations of molecular mechanisms of carcinogenesis.

Inhaled nitric oxide increases survival rates in newborn rats with congenital diaphragmatic hernia.

Expression of the aryl hydrocarbon receptor (AhR) and AhR nuclear translocator during chick cardiogenesis is consistent with 2,3,7,8-tetrachlorodibenzo-p-dioxin-induced heart defects.

Activation of mitogenic signaling by endothelin 1 in ovarian carcinoma cells.

Binding of 2,3,7,8-tetrachlorodibenzo-p-dioxin to AH receptor in placentas from normal versus abnormal pregnancy outcomes.

Pulmonary expression of vascular endothelial growth factor and myosin isoforms in rats with congenital diaphragmatic hernia.

The Canadian Study of Health and Aging: risk factors for vascular dementia.

Dioxin concentrations in women with endometriosis.

Effects of the tyrosine-kinase inhibitor geldanamycin on ligand-induced Her-2/neu activation, receptor expression and proliferation of Her-2-positive malignant cell lines.

2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD) and congeners in infants. A toxicokinetic model of human lifetime body burden by TCDD with special emphasis on its uptake by nutrition.

(G586V) substitutions in the alpha 1 and alpha 2 chains of collagen I: effect of alpha-chain stoichiometry on the phenotype of osteogenesis imperfecta?

Detection of hyperdiploidy and breakage affecting the 1cen-1q12 region of cultured interphase human lymphocytes treated with various genotoxic agents.

Continuous exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin inhibits the growth of surgically induced endometriosis in the ovariectomized mouse treated with high dose estradiol.

Early life stage toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin in zebrafish (*Danio rerio*).

Modulation of TCDD-induced fetotoxicity and oxidative stress in embryonic and placental tissues of C57BL/6J mice by vitamin E succinate and ellagic acid.

Somatic embryogenesis and plant regeneration from stem explants of *Moricandia arvensis*.

Factors affecting spermatogenesis in the stallion.

Synergy between cisplatin and an inhibitor of S-adenosylmethionine dependent transmethylation in human ovarian adenocarcinoma cells.

Loss of teratogenic response to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in mice lacking the Ah (dioxin) receptor.

A dose-response analysis of the reproductive effects of a single gestational dose of 2,3,7,8-tetrachlorodibenzo-p-dioxin in male Long Evans Hooded rat offspring.

The soluble hyaluronidase from bull testes is a fragment of the membrane-bound PH-20 enzyme.

Variation in transformation frequencies among six common wheat cultivars through particle bombardment of scutellar tissues.

Correlation of 2,3,7,8-tetrachlorodibenzo-p-dioxin induction of cytochrome P4501A in vascular endothelium with toxicity in early life stages of lake trout.

[Environmental pollutants with hormonal effects. Is estrogen theory a good model?].

Selected lesions of dioxin in laboratory rodents.

Regulation of protein-tyrosine phosphorylation and human sperm capacitation by reactive oxygen derivatives.

Reproductive effects of paternal exposure to chlorophenate wood preservatives in the sawmill industry.

Effect of atrazine on ovarian function in the rat.

New IOM report links agent orange exposure to risk of birth defect in Vietnam vets' children.

Pesticide applicators, biocides, and birth defects in rural Minnesota.

Serum biochemical changes associated with cystic ovarian degeneration in pigs after atrazine treatment.

Toward understanding the developmental anatomy of congenital diaphragmatic hernia.

Embryology of congenital diaphragmatic hernia.

Effects of developmental exposure to indole-3-carbinol or 2,3,7,8-tetrachlorodibenzo-p-dioxin on reproductive potential of male rat offspring.

Prenatal glucocorticoid therapy reverses pulmonary immaturity in congenital diaphragmatic hernia in fetal sheep.

Prenatal hormonal therapy improves pulmonary morphology in rats with congenital diaphragmatic hernia.

Decreased pulmonary nitric oxide synthase activity in the rat model of congenital diaphragmatic hernia.

In ovo 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure in three avian species. 2. Effects on estrogen receptor and plasma sex steroid hormones during the perinatal period.

In ovo 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure in three avian species. 1. Effects on thyroid hormones and growth during the perinatal period.

In utero and lactational exposure of female Holtzman rats to 2,3,7,8-tetrachlorodibenzo-p-dioxin: modulation of the estrogen signal.

Variable effects of tyrosine kinase inhibitors on avian osteoclastic activity and reduction of bone loss in ovariectomized rats.

Male sterility in transgenic tobacco plants induced by tapetum-specific deacetylation of the externally applied non-toxic compound N-acetyl-L-phosphinothricin.

Latent effects of pesticides and toxic substances on sexual differentiation of rodents.

Promotion of endometriosis by 2,3,7,8-tetrachlorodibenzo-p-dioxin in rats and mice: time-dose dependence and species comparison.

Detection of human papillomavirus type-16 DNA utilising microtitre-plate based amplification reactions and a solid-phase enzyme-immunoassay detection system.

Prenatal hormonal therapy improves pulmonary compliance in the nitrofen-induced CDH rat model.

Increased oxidative DNA damage in livers of 2,3,7,8-tetrachlorodibenzo-p-dioxin treated intact but not ovariectomized rats.

Therapeutic efficacy of povidone-iodine (Betadine) and dichloroxylenol (Septocid) in Holstein cows affected with endometritis and/or cervicitis.

Lung hypoplasia and surfactant system immaturity induced in the fetal rat by prenatal exposure to nitrofen.

The effects on mammals of pre- and postnatal environmental exposure to PCBS. The Dutch Collaborative PCB/Dioxin Study.

Estrogen receptor and aromatic hydrocarbon receptor in the primate ovary.

Arginase, Arginine Decarboxylase, Ornithine Decarboxylase, and Polyamines in Tomato Ovaries (Changes in Unpollinated Ovaries and Parthenocarpic Fruits Induced by Auxin or Gibberellin).

Effects induced by feeding organochlorine-contaminated carp from Saginaw Bay, Lake Huron, to laying White Leghorn hens. I. Effects on health of adult hens, egg production, and fertility.

Additive interactions between pairs of polybrominated dibenzo-p-dioxin, dibenzofuran, and biphenyl congeners in a rainbow trout early life stage mortality bioassay.

Toxic equivalency factors of polybrominated dibenzo-p-dioxin, dibenzofuran, biphenyl, and polyhalogenated diphenyl ether congeners based on rainbow trout early life stage mortality.

Increased intracellular levels of calcitonin gene-related peptide-like immunoreactivity in pulmonary endocrine cells in an experimental model of congenital diaphragmatic hernia.

NES test performance in a large US Army veteran sample: relationships with both demographic factors and traditional neuropsychological measures.

Characterization of a murine Ahr null allele: involvement of the Ah receptor in hepatic growth and development.

Lipopolysaccharide inhibits in vitro luteinizing hormone-stimulated rat ovarian granulosa cell estradiol but not progesterone secretion.

Phospholipase C in mouse oocytes: characterization of beta and gamma isoforms and their possible involvement in sperm-induced Ca²⁺ spiking.

Potency of a complex mixture of polychlorinated dibenzo-p-dioxin, dibenzofuran, and biphenyl congeners compared to 2,3,7,8-tetrachlorodibenzo-p-dioxin in causing fish early life stage mortality.

Effect of sperm lipid peroxidation on fertilization.

Hormonal regulation of S-adenosylmethionine synthase transcripts in pea ovaries.

Excretion and distribution of ammonia and the influence of boundary layer acidification in embryonic rainbow trout (*Oncorhynchus mykiss*).

Exposure to pentachlorophenol as a possible cause of miscarriages.

Estimating variance functions in developmental toxicity studies.

Toxic effects, at three pH levels, of two reference molecules on common carp embryo.

A full likelihood procedure for analysing exchangeable binary data.

Developmental toxicity and structure-activity relationships of chlorophenols using human embryonic palatal mesenchymal cells.

Paternal serum dioxin and reproductive outcomes among veterans of Operation Ranch Hand.

Epidemiology of atrazine.

Pulmonary endothelial nitric oxide synthase gene expression is decreased in a rat model of congenital diaphragmatic hernia.

Histopathology of postpartum placental sites in mink (*Mustela vison*) exposed to polychlorinated biphenyls or fractions thereof.

Neurological condition in 18-month-old children perinatally exposed to polychlorinated biphenyls and dioxins.

Intestinal rotation in experimental congenital diaphragmatic hernia.

Immunoresponsiveness in endometriosis: implications of estrogenic toxicants.

Differential response of normal and HPV immortalized ectocervical epithelial cells to B[a]P.

erbB-2 oncogene inhibition by geldanamycin derivatives: synthesis, mechanism of action, and structure-activity relationships.

Inhibition of the oncogene product p185erbB-2 in vitro and in vivo by geldanamycin and dihydrogeldanamycin derivatives.

In utero 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) alters reproductive morphology and function in female rat offspring.

Agriculture-related injuries in the parkland region of Manitoba.

Immune system impairment and hepatic fibrosis in mice lacking the dioxin-binding Ah receptor.

Induction of endometriosis in mice: a new model sensitive to estrogen.

Environmental and dietary estrogens and human health: is there a problem?

Exposure to TCDD during development permanently alters reproductive function in male Long Evans rats and hamsters: reduced ejaculated and epididymal sperm numbers and sex accessory gland weights in offspring with normal androgenic status.

Prenatal hormonal therapy improves pulmonary compliance in the nitrofen-induced CDH rat model.

Pulmonary neuroendocrine cells in neonatal rats with congenital diaphragmatic hernia.

Embryonic cell death patterns associated with nitrofen-induced congenital diaphragmatic hernia.

A morphological study of liver lesions in *Xenopus* larvae exposed to 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) with special reference to apoptosis of hepatocytes.

Angiotensin-converting enzyme activity is increased in lungs of rats with pulmonary hypoplasia and congenital diaphragmatic hernia.

Plant regeneration from protoplasts of immature *Vigna sinensis* cotyledons via somatic embryogenesis.

Lipopolysaccharide inhibits rat ovarian thecal-interstitial cell steroid secretion in vitro.

Perinatal exposure to polychlorinated biphenyls and dioxins through dietary intake.

Evaluation of the significance of polyamines and their oxidases in the aetiology of human cervical carcinoma.

Reproductive effects in birds exposed to pesticides and industrial chemicals.

Interactions of polychlorinated dibenzo-p-dioxin, dibenzofuran, and biphenyl congeners for producing rainbow trout early life stage mortality.

Reproductive effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in female rats: ovulation, hormonal regulation, and possible mechanism(s).

Rat CYP1B1: an adrenal cytochrome P450 that exhibits sex-dependent expression in livers and kidneys of TCDD-treated animals.

Arginine Decarboxylase and Putrescine Oxidase in Ovaries of *Pisum sativum* L. (Changes during Ovary Senescence and Early Stages of Fruit Development).

Glibenclamide opens ATP-sensitive potassium channels in *Xenopus* oocyte follicular cells during metabolic stress.

Workshop on perinatal exposure to dioxin-like compounds. VI. Role of biomarkers.

Workshop on perinatal exposure to dioxin-like compounds. II. Reproductive effects.

Comparison of the toxicity of cinnamaldehyde when administered by microencapsulation in feed or by corn oil gavage.

Factors affecting mammary tumor incidence in chlorotriazine-treated female rats: hormonal properties, dosage, and animal strain.

Molecular analysis of bivalve tumors: models for environmental/genetic interactions.

Effects of atrazine on reproductive performance in the rat.

Chronic histopathological effects of parathion and 2,4-D on female gonads of *Chasmagnathus granulata* (Decapoda, Brachyura).

Statistical variability: what does it mean in risk assessment?

Phytotoxicity of compost treated with lawn herbicides containing 2,4-D, Dicamba, and MCPP.

Transgenerational, ultrastructural analysis on the antioxidative effects of tocopherol on early gametogenesis in *Caenorhabditis elegans* grown in 100% oxygen.

Glufosinate (phosphinothricin), a natural amino acid with unexpected herbicidal properties.

Possible antiestrogenic properties of chloro-s-triazines in rat uterus.

Short-term effects of chlorotriazines on estrus in female Sprague-Dawley and Fischer 344 rats.

A survey of actinic keratoses among paraquat production workers and a nonexposed friend reference group.

Fertile transgenic wheat from microprojectile bombardment of scutellar tissue.

Effects of polychlorinated biphenyls (PCBs) and dioxins on growth and development.

Alveolar epithelial composition and architecture of the late fetal pulmonary acinus: an immunocytochemical and morphometric study in a rat model of pulmonary hypoplasia and congenital diaphragmatic hernia.

Etiological aspects of congenital diaphragmatic hernia: results of a case comparison study.

Evidence for involvement of tyrosine phosphorylation in taxol-induced apoptosis in a human ovarian tumor cell line.

Partial demasculinization and feminization of sex behavior in male rats by in utero and lactational exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin is not associated with alterations in estrogen receptor binding or volumes of sexually differentiated brain nuclei.

Effects of in utero and lactational 2,3,7,8-tetrachlorodibenzo-p-dioxin exposure on responsiveness of the male rat reproductive system to testosterone stimulation in adulthood.

Reproductive toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin in male rats: different effects of in utero versus lactational exposure.

Deaths from primary brain cancers, lymphatic and haematopoietic cancers in agricultural workers in the Republic of Ireland.

Erythropoietin increases hemoglobin during radiation therapy for cervical cancer.

Iron supplementation in children after cardiopulmonary bypass for surgical repair of congenital heart disease.

Evaluation of lung function changes before and after surfactant application during artificial ventilation in newborn rats with congenital diaphragmatic hernia.

Treatment of deeply infiltrating endometriosis.

2,3,7,8-Tetrachlorodibenzo-p-dioxin-induced thymic atrophy and lymphocyte stem cell alterations by mechanisms independent of the estrogen receptor.

Dioxin pollution and endometriosis in Belgium.

Possible risk of endometriosis for Seveso, Italy, residents: an assessment of exposure to dioxin.

Assessment of the reproductive and developmental toxicity of pesticide/fertilizer mixtures based on confirmed pesticide contamination in California and Iowa groundwater.

Antenatal glucocorticoid corrects pulmonary immaturity in experimentally induced congenital diaphragmatic hernia in rats.

An epidemic ignored. Endometriosis linked to dioxin and immunologic dysfunction.

2,3,7,8-Tetrachlorodibenzo-p-dioxin reduces the number, size, and organelle content of Leydig cells in adult rat testes.

Phenotypic rescue by a bovine transgene in a Cu/Zn superoxide dismutase-null mutant of *Drosophila melanogaster*.

Developmental toxicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in the most TCDD-resistant and susceptible rat strains.

Induction of a heat shock response (HSP 72) in rat embryos exposed to selected chemical teratogens.

[Prevention of infectious endocarditis].

Dioxin and PCB levels in blood and human milk in relation to living areas in The Netherlands.

Embryotoxic potency of 2,4,5-trichlorophenoxyacetic acid on sea urchin eggs: Association with calcium homeostasis.

Blockade of ovulation in the rat by the fungicide sodium N-methyldithiocarbamate: relationship between effects on the luteinizing hormone surge and alterations in hypothalamic catecholamines.

Cytoskeleton-dependent transport of cytoplasmic particles in previtellogenic to mid-vitellogenic ovarian follicles of *Drosophila*: time-lapse analysis using video-enhanced contrast microscopy.

NTP Toxicology and Carcinogenesis Studies of o-Benzyl-p-Chlorophenol (CAS No. 120-32-1) in F344/N Rats and B6C3F1 Mice (Gavage Studies).

Structural characterization of cytosolic NADP(+)-dependent isocitrate dehydrogenase from rat ovary.

Effects of 2,4-dichlorophenoxyacetic acid butyl ester on chick liver.

Implications for the presence of transforming genes in gonadal tumors in two bivalve mollusk species.

The radiation-sensitive mutant rad-8 of *Caenorhabditis elegans* is hypersensitive to the effects of oxygen on aging and development.

Neurotoxicity of 2,4-dichlorophenoxyacetic butyl ester in chick embryos.

Nitrofen-induced congenital diaphragmatic defects in CD1 mice.

Reproductive risks from contaminants in drinking water.

Investigation of a mechanism for Leydig cell tumorigenesis by linuron in rats.

Lung growth and maturation in the rat model of experimentally induced congenital diaphragmatic hernia.

Ultrastructural features of alveolar epithelial cells in the late fetal pulmonary acinus: a comparison between normal and hypoplastic lungs using a rat model of pulmonary hypoplasia and congenital diaphragmatic hernia.

Cancer in a young population in a dioxin-contaminated area.

Dioxin and endometriosis.

Dioxin tied to endometriosis.

Endometriosis in rhesus monkeys (*Macaca mulatta*) following chronic exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

[Iron deficiency anemia is not always simple].

TCDD-mediated changes in hepatic epidermal growth factor receptor may be a critical event in the hepatocarcinogenic action of TCDD.

A two-generation reproduction study in rats with methyl bromide-fumigated diets.

AIDS and agricultural production. Report of a land utilization survey, Masaka and Rakai districts of Uganda.

Role of the Ah receptor and the dioxin-inducible [Ah] gene battery in toxicity, cancer, and signal transduction.

Human health effects of agrichemical use.

Relationship between iron-catalysed lipid peroxidation potential and human sperm function.

Nitrofen-induced diaphragmatic hernias in rats: an animal model.

Characterization of the aryl hydrocarbon receptor and aryl hydrocarbon responsiveness in human ovarian carcinoma cell lines.

Biochemical immaturity of lungs in congenital diaphragmatic hernia.

The natural history of congenital diaphragmatic hernia and pulmonary hypoplasia in the embryo.

Cytogenetic studies in lymphocytes of workers exposed to 2,3,7,8-TCDD.

NTP technical report on the toxicity studies of Pesticide/Fertilizer Mixtures Administered in Drinking Water to F344/N Rats and B6C3F1 Mice.

Gap junctions in ovarian follicles of *Drosophila melanogaster*: inhibition and promotion of dye-coupling between oocyte and follicle cells.

A mechanistic model of effects of dioxin on gene expression in the rat liver.

2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD) accelerates differentiation of murine preimplantation embryos in vitro.

NTP Toxicology and Carcinogenesis Studies of Pentachloroanisole (CAS No. 1825-21-4) in F344 Rats and B6C3F1 Mice (Feed Studies).

Purification and characterization of glutathione S-transferase of murine ovary and testis.

nir1, a conditional-lethal mutation in barley causing a defect in nitrite reduction.

Chlorinated dibenzo-p-dioxins and dibenzofurans and the human immune system. 1. Blood cell receptors in volunteers with moderately increased body burdens.

Process of building biologically based dose-response models for developmental defects.

Nitrofen-induced diaphragmatic hernias in rats: pulmonary antioxidant enzyme activities.

The kidney in the fetal rat model of congenital diaphragmatic hernia induced by nitrofen.

Developmental toxicity of 2,4,5-trichlorophenoxyacetic acid (2,4,5-T). I. Multireplicated dose-response studies in four inbred strains and one outbred stock of mice.

Correlations of developmental end points observed after 2,4,5-trichlorophenoxyacetic acid exposure in mice.

Effect of artificial ventilation on pulmonary antioxidant enzyme activities in a congenital diaphragmatic hernia rat model.

Quantitative analysis of cellular glutathione in early preimplantation mouse embryos developing in vivo and in vitro.

Health effects of military service. Lessons learned from the Vietnam experience.

[Pulmonary surfactant in experimental congenital diaphragmatic hernia].

A comparison of sodium arsenite- and hyperthermia-induced stress responses and abnormal development in cultured postimplantation rat embryos.

Pulmonary vascular abnormalities in experimentally induced congenital diaphragmatic hernia in rats.

Amelioration by BAL (2,3-dimercapto-1-propanol) and DMPS (sodium 2,3-dimercapto-1-propanesulfonic acid) of arsenite developmental toxicity in mice.

In utero and lactational exposure of male rats to 2,3,7,8-tetrachlorodibenzo-p-dioxin. 1. Effects on androgenic status.

In utero and lactational exposure of male rats to 2,3,7,8-tetrachlorodibenzo-p-dioxin. 3. Effects on spermatogenesis and reproductive capability.

In utero and lactational exposure of male rats to 2,3,7,8-tetrachlorodibenzo-p-dioxin. 2. Effects on sexual behavior and the regulation of luteinizing hormone secretion in adulthood.

Antiestrogenic action of 2,3,7,8-tetrachlorodibenzo-p-dioxin: tissue-specific regulation of estrogen receptor in CD1 mice.

Toxicity and reproductive effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin in ring-necked pheasant hens.

Mortality of a young population after accidental exposure to 2,3,7,8-tetrachlorodibenzodioxin.

Serum 2,3,7,8-tetrachlorodibenzo-p-dioxin levels of New Zealand pesticide applicators and their implication for cancer hypotheses.

Ewing's bone sarcoma, paternal occupational exposure, and other factors.

[Experimental congenital diaphragmatic hernia with pulmonary hypoplasia in a rat model].

The heat shock response: potential to screen teratogens.

Placental transport of dioxins from mother to fetus. II. PCBs, dioxins and furans and vitamin K metabolism.

Induction of somatic embryogenesis and caulogenesis from cotyledon and leaf protoplast-derived colonies of melon (*Cucumis melo* L.).

Risk, statistical inference, and the law of evidence: the use of epidemiological data in toxic tort cases.

Morbidity study of extruder personnel with potential exposure to brominated dioxins and furans. I. Results of blood monitoring and immunological tests.

The effect of chronic radiation on the humoral immune response of rainbow trout (*Onchorhynchus mykiss* Walbaum).

In-vitro morphogenesis of corn (*Zea mays* L.) : I. Differentiation of multiple shoot clumps and somatic embryos from shoot tips.

[Modification of in vitro motility of human sperm by various dioxin congeners in super-physiologic concentrations].

Reactive oxygen species and human spermatozoa: analysis of the cellular mechanisms involved in luminol- and lucigenin-dependent chemiluminescence.

Activity of oxytocinergic neurons in the paraventricular nucleus mirrors the periodicity of the endogenous stimulatory rhythm regulating prolactin secretion.

Effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin on benzo(a)pyrene hydroxylase activity in embryos of the Japanese medaka (*Oryzias latipes*).

Prolonged exposure to wood preservatives induces endocrine and immunologic disorders in women.

Phosphoramidate mustard is responsible for the ovarian toxicity of cyclophosphamide.

Age- and sex-related differences in activation of the carcinogen 7-hydroxymethyl-12-methylbenz[a]anthracene to an electrophilic sulfuric acid ester metabolite in rats. Possible involvement of hydroxysteroid sulfotransferase activity.

Long-term effects of chemical disasters. Lessons and results from Seveso.

Gender-related differences in iron absorption by preadolescent children.

Dioxin contamination and growth and development in great blue heron embryos.

Ovarian hormones enhance 2,3,7,8-tetrachlorodibenzo-p-dioxin-mediated increases in cell proliferation and preneoplastic foci in a two-stage model for rat hepatocarcinogenesis.

TCDD exposure of human embryonic palatal shelves in organ culture alters the differentiation of medial epithelial cells.

Reproductive toxicity and toxicokinetics of 2,3,7,8-tetrachlorodibenzo-p-dioxin. 2. Problem of paternally-mediated abnormalities in the progeny of rat.

An exploratory study of environmental and medical factors potentially related to childhood cancer.

Vitamin B12 deficiency and infertility: report of a case.

Glutathione diminishes the anti-tumour activity of 4-hydroperoxycyclophosphamide by stabilising its spontaneous breakdown to alkylating metabolites.

Glucose utilization by sheep embryos derived in vivo and in vitro.

Protection by human serum from the immunosuppression induced by spermine in vitro.

Re: "Triazine herbicides and ovarian epithelial neoplasms" by A Donna, P Crosignani, F Robutti, PG Betta, R Bocca, N Mariani, F Ferrario, R Fissi, F Berrino *Scand J Work Environ Health* 1989.

Biochemical alterations in skeletal muscle induced by 2,4-dichlorophenoxyacetic butyl ester during chick embryonic development.

Ca²⁺ homeostasis alterations induced by 2,4-dichlorophenoxyacetic butyl ester and 2,4-dichlorophenoxyacetic acid on avian skeletal muscle.

Effects of chemically induced maternal toxicity on prenatal development in the rat.

Toxicity of lindane, atrazine, and deltamethrin to early life stages of zebrafish (*Brachydanio rerio*).

[Nature of the estrous cycle, incidence of anovulation, chromosome gametopathies and fetal death in female rats with 2,4-dichlorophenoxyacetic acid (2,4-D) before pregnancy].

Pursuit of improbable hypotheses.

Environmental epidemiology of non-Hodgkin's lymphoma in eastern Nebraska.

Chronic effects of arsenic on American red crayfish, *Procambarus clarkii*, exposed to monosodium methanearsonate (MSMA) herbicide.

[Study of the effect of carbathione on embryogenesis in albino rats].

Inhibitory effects of cobalt chloride and cinnamaldehyde on 5-azacytidine-induced digital malformations in rats.

A critical review of the developmental toxicity and teratogenicity of 2,3,7,8-tetrachlorodibenzo-p-dioxin: recent advances toward understanding the mechanism.

Hepatic steatosis in zebra fish (*Brachydanio rerio*) induced by long-term exposure to gamma-hexachlorocyclohexane.

Experimentally induced congenital diaphragmatic hernia in rats.

Radiological "metamorphosis" in a patient with severe congenital osteogenesis imperfecta.

Cornified envelopes in congenital disorders of keratinization.

Pulcherosine, a novel tyrosine-derived, trivalent cross-linking amino acid from the fertilization envelope of sea urchin embryo.

Identification of low molecular weight immunosuppressor molecules in human in vitro fertilization supernatants predictive of implantation as a polyamine--possibly spermine.

Dioxin levels in adipose tissues of hospitalized women living in the south of Vietnam in 1984-89 with a brief review of their clinical histories.

Penetration studies and residue determinations of 2,4-dichlorophenoxyacetic acid butyl ester in fertile hen eggs and chicks hatched from treated eggs.

Null mutation of copper/zinc superoxide dismutase in *Drosophila* confers hypersensitivity to paraquat and reduced longevity.

Triazine herbicides and ovarian epithelial neoplasms.

[Toxicological and hygienic characteristics of sulfocarbathione].

Teratogenic assessment of 2,4-dichlorophenol in Fischer 344 rats.

Fibrinogen Baltimore IV: congenital dysfibrinogenemia with a gamma 275 (Arg----Cys) substitution.

2,3,7,8-Tetrachlorodibenzo-p-dioxin-induced porphyria in genetically inbred mice: partial antagonism and mechanistic studies.

A survey of the concentration of 19-OH F1 alpha/F2 alpha prostaglandins in the semen of fertile, infertile and vasectomized men and their stability in both liquid semen and semen stains.

A lethal variant of osteogenesis imperfecta has a single base mutation that substitutes cysteine for glycine 904 of the alpha 1(I) chain of type I procollagen. The asymptomatic mother has an unidentified mutation producing an overmodified and unstable type I procollagen.

Identification of aneuploidy-inducing agents using cytokinesis-blocked human lymphocytes and an antikinetochore antibody.

Reproductive toxicity and pharmacokinetics of 2,3,7,8-tetrachlorodibenzo-p-dioxin. 1. Effects of high doses on the fertility of male rats.

Correlation of spermine levels with ovary senescence and with fruit set and development in *Pisum sativum* L.

Microspore mutagenesis and selection: Canola plants with field tolerance to the imidazolinones.

Effects of low insulin levels on rat embryonic growth and development.

The use of multiple endpoints to define the mechanism of action of reproductive toxicants and germ cell mutagens.

The value of multiple endpoint data in male reproductive toxicology: revelations in the rat.

Health and reproductive outcomes among American Legionnaires in relation to combat and herbicide exposure in Vietnam.

Reproductive behaviour and consistent patterns of abnormality in offspring of Vietnam veterans.

Functional teratogens of the rat kidney. II. Nitrofen and ethylenethiourea.

Steroid hormones and medications that alter cancer risks.

A case-control study of brain gliomas and occupational exposure to chemical carcinogens: the risk to farmers.

Characterization and immunoassay of human tumor-associated galactosyltransferase isoenzyme II.

Effect of D,L-alpha-difluoromethyl ornithine on cleft palate induced by the TCDD congener, 3,3',4,4'-tetrachloroazoxybenzene, in the fetuses of mice.

Reproductive outcomes of mothers with potential exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin.

[Health survey on morbidity and accidents in various productive agricultural sectors].

The significance of the dilated renal pelvis in the nitrofen-exposed rat fetus: effects on morphology and function.

Increase of daunorubicin and vincristine accumulation in multidrug resistant human ovarian carcinoma cells by a monoclonal antibody reacting with P-glycoprotein.

Single amino acid substitutions in the reactive site of antithrombin leading to thrombosis. Congenital substitution of arginine 393 to cysteine in antithrombin Northwick Park and to histidine in antithrombin Glasgow.

Birth defects in the Seveso area after TCDD contamination.

cis-Diamminedichloroplatinum(II) accumulation in sensitive and resistant human ovarian carcinoma cells.

Plant regeneration from somatic embryogenic suspension cultures of cotton (*Gossypium hirsutum* L.).

Characterization of an apparently lower molecular weight gamma-chain variant in fibrinogen Kyoto I. The replacement of gamma-asparagine 308 by lysine which causes accelerated cleavage of fragment D1 by plasmin and the generation of a new plasmin cleavage site.

An apparently higher molecular weight gamma-chain variant in a new congenital abnormal fibrinogen Tochigi characterized by the replacement of gamma arginine-275 by cysteine.

Effects of sodium azide on sea urchin embryos and gametes.

A flowthrough fecundity test with *Nitocra spinipes* (Harpacticoidea Crustacea) for aquatic toxicity.

Vulnerability of myelin development of the chick to the herbicide 2,4-Dichlorophenoxyacetic butyl ester.

A two-generation reproduction-fertility study of cyanamide in the rat.

Protection of rat embryos in culture against the embryotoxicity of acrolein using exogenous glutathione.

Enhancement of the embryotoxicity of acrolein, but not phosphoramidate mustard, by glutathione depletion in rat embryos in vitro.

[Congenital malformations in Sweden].

Effect of tridiphane on reproductive parameters in Fischer 344 rats.

Teratogenic potential of purified pentachlorophenol and pentachloroanisole in subchronically exposed Sprague-Dawley rats.

Regulation of hepatic sulfotransferase catalyzing the activation of N-hydroxyarylamide and N-hydroxyarylamine by growth hormone.

In vivo and in vitro interactions of TCDD and other ligands of the Ah-receptor: effect on embryonic and fetal tissues.

Teratogenic effects of polychlorinated dibenzofurans in combination in C57BL/6N mice.

Embryotoxicity and fetotoxicity of orally administered tridiphane in mice and rats.

Health effects of pesticides: a review of epidemiologic research from the perspective of developing nations.

[Chlorazone for improving the oxygenation of newborn infants with congenital diaphragmatic hernia (a preliminary study)].

Dose-dependent elevation of Ah receptor binding by TCDD in rat liver.

Induction of Fertilization Membrane Formation and Cyanide-insensitive Respiration in Sea Urchin Eggs by the Treatment with Dimethylsulfoxide Followed by an Incubation in an Ice Bath (dimethylsulfoxide/sea urchin egg/fertilization membrane/respiration/verapamil).

Examination of heat shock protein mRNA accumulation in early *Xenopus laevis* embryos.

Effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin on hepatic and uterine estrogen receptor levels in rats.

Mechanisms of 1,2,3,4,6,7,8-heptachlorodibenzo-p-dioxin (HpCDD)-induced humoral immune suppression: evidence of primary defect in T-cell regulation.

Chloracne, "the hallmark of dioxin intoxication".

Hair and fingernail changes in acquired and congenital pernicious anemia.

Toxic interaction of specific polychlorinated biphenyls and 2,3,7,8-tetrachlorodibenzo-p-dioxin: increased incidence of cleft palate in mice.

[Evaluation of the cytotoxicity of solutions on pure cultures of mouse "NM" fibroblasts and ovarian carcinoma cells].

Amino acid sequence of an egg-lysin protein from abalone spermatozoa that solubilizes the vitelline layer.

Ribulose-1,5-bisphosphate carboxylase and fruit set or degeneration of unpollinated ovaries of *Pisum sativum* L.

Selective depression of thymus-independent anti-DNP antibody responses induced by adult but not neonatal splenectomy.

Phosphorylation of sea urchin sperm H1 and H2B histones precedes chromatin decondensation and H1 exchange during pronuclear formation.

Activation of Na⁺-dependent transport at fertilization in the sea urchin: requirements of both an early event associated with exocytosis and a later event involving increased energy metabolism.

Interactions between ATP and cholesterol side-chain cleavage in mitochondria isolated from superovulated rat ovaries.

Vietnam and birth defects.

Vietnam veterans' risks for fathering babies with birth defects.

Vietnam veterans' risks for fathering babies with birth defects.

[Embryotoxic effect of diuron in animal experiments].

Ovarian mesothelial tumors and herbicides: a case-control study.

The antispermatogenic effect and toxicity of 2, 4-dinitro-6-tert-butylphenyl methanesulfonate on Sprague-Dawley rat.

Does Agent Orange cause birth defects?

Severe mental retardation and multiple congenital anomalies of uncertain cause after extreme parental exposure to 2,4-D.

Oral intubation of dogs with combinations of fertilizer, herbicide, and insecticide chemicals commonly used on lawns.

The effect of the phenoxyacetic acid herbicides 2,4,5-trichlorophenoxyacetic acid and 2,4-dichlorophenoxyacetic acid as ascertained by direct experimentation.

Organ and cellular distribution of inhaled metallic mercury in the rat and Marmoset monkey (*Callithrix jacchus*): influence of ethyl alcohol pretreatment.

Frequency of reproductive dysfunction in Hawaii by race and judicial district 1968-1982.

Toxic agent and radiation control: meeting the 1990 objectives for the nation.

Teratogenicity of 2,3,7,8-tetrachlorodibenzofuran in BXD recombinant inbred strains.

Teratogenicity of TCDD and the congener 3,3',4,4'-tetrachloroazoxybenzene in sensitive and nonsensitive mouse strains after reciprocal blastocyst transfer.

Glucose-6-phosphate-dehydrogenase-deficient erythrocytes have an impaired shape recovery mechanism.

Teratological studies on the TCDD congener 3,3',4,4'-tetrachloroazoxybenzene in sensitive and nonsensitive mouse strains: evidence for direct effect on embryonic tissues.

Experimental study on embryogenesis of congenital diaphragmatic hernia.

Teratogenicity of 2,3,7,8-tetrachlorodibenzofuran in the mouse.

Mechanism of environmental agents by class associated with adverse female reproductive outcome.

Occupational influences on male fertility and sexuality. I.

Localized surface antigens of guinea pig sperm migrate to new regions prior to fertilization.

Altered levels of a 5 S gene-specific transcription factor (TFIIIA) during oogenesis and embryonic development of *Xenopus laevis*.

Respiration during Postharvest Development of Soursop Fruit, *Annona muricata* L.

Sustained Photoproduction of Ammonia from Dinitrogen and Water by the Nitrogen-Fixing Cyanobacterium *Anabaena* sp. Strain ATCC 33047.

Teratogenicity of nitrofen (2,4-dichloro-4'-nitrodiphenyl ether) and its effects on thyroid function in the rat.

The use of in vitro methods for assessing reproductive toxicity. Dichlorophenols.

Effects of ovariectomy and estradiol administration on the adrenal macrophage system of the rat.

Nitrofen: a review and perspective.

The effect of nitrofen [4-(2,4-dichlorophenoxy)nitrobenzene] on the reproductive performance of male rats.

Population ecology of rotifers as a bioassay tool for ecotoxicological tests in aquatic environments.

Agent Orange and birth defects.

Chronic intoxication by an herbicide, 2,4,5-trichlorophenoxyacetic acid, in the pond snail, *Lymnaea stagnalis* L.

Maternal exposure to environmental chemicals and the aetiology of teratogenesis.

Teratogens and the male. An analysis with special reference to herbicide exposure.

Fish and amphibian embryos--a model system for evaluating teratogenicity.

Congenital malformations and agricultural workers.

[Comparative studies on the embryotoxicity of 2-methyl-4-chlorophenoxyacetic acid, mecoprop and dichlorprop in NMRI mice].

Health protection: Toxic agent and radiation control.

Clusters of malformations in Sweden: a study with central registers.

Anencephaly: agent orange implications?

Usefulness of abrin as a positive control for the human tumor clonogenic assay.

Relative mutagenicity and teratogenicity of cyclophosphamide and two of its structural analogs.

Stimulation of Unfertilized Eggs of the Echiuroid, *Urechis unicinctus* by Polyamines: (echiuroid eggs/parthenogenesis/polyamines/spermine/spermidine).

Change in the Respiratory Rate of Sea Urchin Spermatozoa following Sperm-egg Interaction in the Absence of Mg(2+) : (sea urchin/sperm-egg interaction/Mg(2+) free sea water/sperm respiration).

Isophosphoramidate mustard, a metabolite of ifosfamide with activity against murine tumours comparable to cyclophosphamide.

Hippuric acid and o-cresol in the urine of workers exposed to toluene.

Congenital defects and miscarriages among New Zealand 2, 4, 5-T sprayers.

Hatching and lipid composition of chicks brain from eggs treated with 2,4-dichlorophenoxyacetic butyl ester.

Reproductive toxicity of environmental agents.

Mutagenicity studies with 2,4,5-T on bacteria and mammalian germ cells.

Effects of transplacental exposure to chlorinated phenols.

[Middle cerebral artery occlusion with Moyamoya phenomenon.--2nd report: report of an autopsy case].

Gliomas and occupational exposure to carcinogens: case-control study.

TCDD embryotoxicity in the mouse may be enhanced by beta-naphthoflavone, another ligand of the Ah-receptor.

Survey of reproductive events of wives of employees exposed to chlorinated dioxins.

[Localization of *Campylobacter foetus* in genital organs of cows and its sensitivity to antibiotics and chemotherapeutic agents].

The type of collagen made by the articular cartilage in joints of dogs with degenerative joint disease.

Immunocytochemical and ultrastructural identification of mitotic cells in the pituitary gland of ovariectomized rats.

Inhibition of Respiration in Sea Urchin Spermatozoa following Interaction with Fixed Unfertilized Eggs VI. Probable Difference between the Species in the Mechanism for the Fixed-Egg-Induced Inhibition of Sperm Respiration: (respiration/sperm/sea urchin/carnitine/sperm-egg interaction).

Embryotoxicity of 3,3',4,4'-tetrachloroazobenzene and 3,3',4,4'-tetrachloroazoxybenzene in the chick embryo.

Male fertility, sister chromatid exchange, and germ cell toxicity following exposure to mixtures of chlorinated phenoxy acids containing 2,3,7,8-tetrachlorodibenzo-p-dioxin.

Effects of pesticides on soil microflora using dalapon as an example.

Target organ toxicity: endocrine system. Introductory remarks: the testis.

Preliminary report of reproductive outcomes among pesticide applicators using 2,4,5-T.

Three-generation reproduction study of rats ingesting 2,4,5-trichlorophenoxyacetic acid in the diet.

Agent Orange toxicity: a quantitative perspective.

[Assessment of the potential risk for progeny in work with endodan (experimental studies)].

[Embryotropic action of the triazine herbicide polyzin 50].

[Field study of workers with longterm exposure to calcium cyanamide (author's transl)].

The heart and diaphragm: target organs in the neonatal death induced by nitrofen (2,4-dichlorophenyl-p-nitrophenyl ether).

Cardiovascular teratogenicity of 2, 3, 7, 8-tetrachlorodibenzo-p-dioxin in the chick embryo.

Testing of selected workplace chemicals for teratogenic potential.

Carboxy-terminal amino acid sequence of a human fibrinogen gamma-chain variant (gamma').

Infecundity and dominant lethal mutations induced in *Musca domestica* L. by sodium azide (NaN₃).

Hormone-cytoplasmic interactions controlling sperm nuclear decondensation and male pronuclear development in starfish oocytes.

[Trial of a new spermatocidal agent in suppository form with local disinfectant action].

2,4,5-T use and congenital malformation rates in Hungary.

Report to the Minister of Health of an investigation into allegations of an association between human congenital defects and 2,4,5-T spraying in and around Te Kuiti.

The embryotoxicity of the cyclophosphamide metabolite acrolein in rabbits, tested in vivo by i.v. injection and by the yolk-sac method.

[Nature of cytogenetic and morphologic disorders in rat oogenesis and embryogenesis induced by chloridin and 2,4,5-trichlorophenoxyacetic acid during the preovulatory phase of meiosis].

Congenital hypothalamic hamartoblastoma, hypopituitarism, imperforate anus and postaxial polydactyly--a new syndrome? Part I: clinical, causal, and pathogenetic considerations.

Experiences from the accident of Seveso.

Metabolism of three active analogues of the male antifertility agent alpha-chlorohydrin in the rat.

Fruit-set of unpollinated ovaries of *Pisum sativum* L. : Influence of plant-growth regulators.

Fruit-set of unpollinated ovaries of *Pisum sativum* L. : Influence of vegetative parts.

INHIBITION OF RESPIRATION IN SEA URCHIN SPERMATOZOA FOLLOWING INTERACTION WITH FIXED UNFERTILIZED EGGS: IV. STATE 4 RESPIRATION IN SPERMATOZOA OF *HEMICENTROTUS PULCHERRIMUS* AFTER THEIR INTERACTION WITH FIXED UNFERTILIZED EGGS.

Herbicide claimed responsible for birth defects.

[Characteristics of the embryotoxic action of herbicides, derivatives of 2,4-dichlorophenoxyacetic acid].

Prenatal effects of 2,4,5-T, 2,4,5-trichlorophenol, and phenoxyacetic acid in mice.

[Effect of phenobarbital on the embryotoxic action of 2-methyl-4-chlorophenoxyacetic acid].

Influence of histamine on estrogen-induced inhibition of compensatory ovarian hypertrophy in hemiovariectomized rats.

Removal of the fertilization membrane of sea urchin embryos employing aminotriazole.

Effect of some pesticides on certain micro-organisms, contributing to soil fertility.

Three-generation reproduction study of rats given 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) in the diet.

Immunoperoxidase staining for detection of Colorado tick fever virus, and a study of congenital infection in the mouse.

Assessment of environmental factors affecting male fertility.

Estimation of the TCDD toxic potential in the light of the Seveso accident.

Ontogeny of the rat hepatic receptor for 2,3,7,8-tetrachlorodibenzo-p-dioxin and its endocrine independence.

Immunological studies of the sperm-specific phosphoglycerate kinase-2 of mice.

Metabolic similarities between fertilization and phagocytosis. Conservation of a peroxidatic mechanism.

Hormonally induced cell shape changes in cultured rat ovarian granulosa cells.

Hatching success and early performance of chicks from eggs sprayed with 2,4-D,2,4,5-T and picloram at various stages of embryonic development.

Carcinogenic and antitumor effects of aminotriazole on acatalasemic and normal catalase mice.

[Pathological and embryological studies on abortion cases related to the Seveso accident].

Cytotoxic effects of maleic hydrazide.

Teratogenic effects of environmental chemicals.

[The toxic effects of 2,4,5-trichlorophenoxyacetic acid on the quail].

Prenatal effects of herbicides: evaluation by the prenatal development index.

Effects in the mouse and rat of prenatal exposure to arsenic.

Purification of human ovarian tumor-associated antigen and demonstration of circulating tumor antigen in patients with advanced ovarian malignancy.

Veterinary toxicology: the epidemiology of poisonings in domestic animals.

The effects of inhibitors of energy metabolism on the growth of one-cell rabbit ova to blastocysts in vitro.

Cardiovascular malformations in *Oryzias latipes* embryos treated with 2,4,5-trichlorophenoxyacetic acid (2,4,5-T).

Teratogenic and toxicological examination of 2,4,5-trichlorophenoxyacetic acid in developing chick embryos.

Teratogenic and toxicological effects of 2,4,5--trichlorophenoxyacetic acid in developing chick embryos.

Dominant lethal studies with paraquat and diquat in male CD-1 mice.

[Model experiments in pheasants with 1 insecticide (Lindane), 1 herbicide (Terbutryn), 1 mineral fertilizer (calcium ammonium salpeter) and 1 fungicide (HEC). V. Sensitivity of various serum enzymes for detection of organ damage following pesticide load. Residues in liver, adipose- and muscular tissue].

Neuromuscular disorder associated with a defect in mitochondrial energy supply.

Studies on oxidative phosphorylation and steroidogenesis by ovarian mitochondria after gonadotropic stimulation.

Mechanisms of methylene blue stimulation of the hexose monophosphate shunt in erythrocytes.

Methods to assess reproductive effects of environmental chemicals: studies of cadmium and boron administered orally.

Fetal toxicity and distribution of paraquat and diquat in mice and rats.

[Paraquat : embryonic mortality and effects on pulmonary apparatus of chick and quail embryos].

Eye hazards in rural communities.

Effect of asulam in wildlife species residues and toxicity in bobwhite quail after prolonged exposure.

[The gonadotoxic action of pesticides derived from thiocarbamic acid].

Effects of a 2,4,5-T ester on early oogenesis, fertility and development in *Drosophila melanogaster*.

Effects in mice of high and low environmental temperature on the maternal and fetal toxicity of 2-sec-butyl-4,6-dinitrophenol (dinoseb) and on disposition of [¹⁴C]-dinoseb(12).

[Peroxidase activity of neutrophil granules in two cases of congenital myeloperoxidase deficiency].

Influence of the ionic composition of the medium on the sensitivity of fertilized sea urchin ova to neuropharmacological preparations.

2,4-Dichlorophenyl-p-nitrophenyl ether (TOK): effects on the lung maturation of rat fetus.

Fetal uptake and embryogenetic effects of aminotriazole in mice.

Problems associated with the screening of drugs for possible teratogenic activity.

Assessment of the mutagenic properties of diquat and paraquat in the murine dominant lethal test.

The effect of purified and commercial grade pentachlorophenol on rat embryonal and fetal development.

Effect of external application of pesticides to the fertile egg on hatching success and early chick performance. 2. Commercial-herbicide mixtures of 2,4-D with picloram or 2,4,5-T using the pheasant.

[Action of the Paraquat on the uro-genital tract of chick and quail embryos].

Proceedings: Investigations on the embryotoxic effect of 2,4,5-T in NMRI-mice.

Removing substances from blood by affinity chromatography. I. Removing bilirubin and other albumin-bound substances from plasma and blood with albumin-conjugated agarose beads.

Partial amino acid sequence of two new arginine-serine rich histones from male gonads of the sea urchin (*Parechinus angulosus*).

Appendix 3 – Symptom/Disease Phrases for Total Retrieved Database

The concatenated Title/Abstract/Substance/MeSH field for each record (mentioned in Appendix 1) was aggregated into one field for the database. This text field was entered into an excellent [N-Gram generator](#), and N-Grams ranging from N=1 to N=5 were generated. These N-Grams showed the incidence frequency for all Symptoms and Diseases in the database. The Symptoms/Diseases phrases were selected by a combination of 1) visual inspection of the N-Grams and 2) intersection of all phrases in the N-Grams with modified lists of diseases from the Mayo Clinic, the NHS, the NLM, and the

aggregation of all damage terms used as queries to assign the retrieved records to each of the nineteen thematic categories used for purposes of analysis.

Table 3A-1 contains a list of summarized symptom-disease phrases from the [Mayo Clinic](#), Table 3A-2 contains a list of summarized symptom-disease phrases from the [NHS](#), Table 3A-3 contains a list of summarized symptom-disease phrases from the [NLM](#), and Table 3A-4 contains the list of aggregated symptom-disease phrases used as queries to assign the retrieved records to each of the nineteen thematic categories. All these symptom/disease lists were combined and cleaned to eliminate duplicates and improve formats.

Table 3A-5 contains the final list of symptoms/diseases that resulted from intersecting the contents of Tables 3A-1 to 3A-4 with all the phrases in the final retrieved database as represented in the five N-Grams. After the intersection process was performed, thousands of phrases were examined by visual inspection to ensure that no relevant phrases were omitted.

Table 3A-1 – Modified Symptom/Disease Phrases from the Mayo Clinic

A fib; Atrial fibrillation; Abdominal aortic aneurysm; Abnormally excessive sweating Hyperhidrosis; Abscess bartholin's cyst; Absence seizure; Acanthosis nigricans; Achalasia; Achilles tendinitis; Achilles tendon rupture; Acid reflux Gastroesophageal reflux disease; GERD; ACL injury; Acne; Acne inversa; Hidradenitis suppurativa; Acoustic neuroma; Acquired immunodeficiency syndrome; HIV/AIDS; Acromegaly; Actinic keratosis; Acute coronary syndrome; Acute flaccid myelitis; AFM; Acute granulocytic leukaemia; Acute myelogenous leukaemia; Acute inflammatory demyelinating polyneuropathy; Guillain-Barre syndrome; Acute kidney failure; Acute liver failure; Acute lymphoblastic leukaemia; Acute lymphocytic leukaemia; Acute lymphocytic leukaemia; Acute lymphoid leukaemia; Acute myeloblastic leukaemia; Acute myelogenous leukaemia; Acute myeloid leukemia; Acute nonlymphocytic leukaemia; Acute radiation sickness; Radiation sickness; Acute radiation syndrome; Acute renal failure; Acute kidney failure; Acute respiratory distress syndrome; ARDS; Acute sinusitis; Alcohol use disorder; Compulsive gambling; Nicotine dependence; Addison's disease; Adenitis; Mesenteric lymphadenitis; Adenomyosis; ADHD; Attention-deficit/hyperactivity disorder; Adhesive capsulitis; Frozen shoulder; Adjustment disorders; Adnexal tumours; schizophrenia; Adrenal neoplasm; Adrenal mass; Benign adrenal tumours; Adrenoleukodystrophy; attention-deficit/hyperactivity disorder; Still's disease; AFM; Acute flaccid myelitis; Age-related macular degeneration; Dry macular degeneration); Age-related macular degeneration; Wet macular degeneration); Agnogenic myeloid metaplasia; Myelofibrosis; Agoraphobia; AIDP; Guillain-Barre syndrome; AIDS/HIV; HIV/AIDS; Airplane ear; Albinism; Alcohol addiction; Alcohol intolerance; Alcohol poisoning; Alcohol use disorder; Alcoholic hepatitis; Allergic granulomatosis; Churg-Strauss syndrome; Allergic granulomatosis; angiitis; Allergic rhinitis; Hay fever; Allergies; Allergy; Dust mite allergy; Egg allergy; Food allergy; Latex allergy; Milk allergy; Mold allergy; Nickel allergy; Peanut allergy; Penicillin allergy; Pet allergy; Shellfish allergy; Wheat allergy; Alopecia; Hair loss; Alpha-gal syndrome; ALS; Amyotrophic lateral sclerosis; Alveolar osteitis; Dry socket; Alzheimer's disease; Ambiguous genitalia; Amblyopia; Lazy eye; Ameloblastoma; Amenorrhoea; Amnesia; Transient global amnesia; Amnestic syndrome; Ampullary neoplasm; Amyloid disease; Amyloidosis; Amyotrophic lateral sclerosis; Anal neoplasm; Anal fissure; Anal fistula; Anal itching; Anaphylaxis; Anaemia; Aplastic anaemia; Thalassaemia; Iron deficiency anaemia; Sickle cell anaemia; Vitamin deficiency anaemia; Aneurysm; Abdominal aortic aneurysm; Aortic aneurysm; Brain aneurysm; Popliteal artery aneurysm; Thoracic aortic aneurysm; Aneurysms; Angelman syndrome; Angiitis; Vasculitis; Angina; Angina pectoris; Angioedema; hives; Angiofollicular lymph node hyperplasia; Castleman disease; Angiosarcoma; Ankle

fracture; Broken ankle; Ankle sprain; Sprained ankle; Ankyloglossia; Tongue-tie; Ankylosing spondylitis; Anorexia; Anorexia nervosa; Anorgasmia; Anterior cruciate ligament injury; ACL injury); Anterior vaginal prolapse; cystocele; Anthrax; Antibiotic-associated colitis; Pseudomembranous colitis; Antibiotic-associated diarrhea; Antiphospholipid syndrome; Antisocial personality disorder; Anxiety disorder; Generalized anxiety disorder; Social anxiety disorder; social phobia; Anxiety disorders; Aortic aneurysm; Abdominal aortic aneurysm; Aortic coarctation; Coarctation of the aorta; Aortic dissection; Aortic valve disease; Aortic valve regurgitation; Aortic valve stenosis; Aphasia; Primary progressive aphasia; Aphthous stomatitis; Canker sore; Aphthous ulcer; Apical ballooning syndrome; Broken heart syndrome; Aplastic anaemia; Appendicitis; APS; Antiphospholipid syndrome; ARDS; Arenaviruses; Viral hemorrhagic fevers; Argentine hemorrhagic fever; Arm fracture; Broken arm; Arnold-Chiari malformation; Chiari malformation; Arrhythmia; Heart arrhythmia; Arteriosclerosis; atherosclerosis; Arteriovenous fistula; Arteriovenous malformation; Arteritis; Giant cell arteritis; Takayasu's arteritis; Arthritis; Thumb arthritis; Osteoarthritis; Gout; Septic arthritis; Juvenile idiopathic arthritis; Osteoarthritis; Psoriatic arthritis; Reactive arthritis; Rheumatoid arthritis; Thumb arthritis; Asbestosis; Ascariasis; ASD; Atrial septal defect; Aseptic necrosis; Avascular necrosis; osteonecrosis; Aspergillosis; Asthma; Asthma attack; Childhood asthma; Exercise-induced asthma; Occupational asthma; Astigmatism; Astrocytoma; Atrial tachycardia; Ataxia; Atelectasis; Atherosclerosis; Arteriosclerosis; Athlete's foot; Atopic dermatitis; eczema; Atrial fibrillation; Atrial flutter; Atrial septal defect; ASD; Atrial tachycardia; Atrioventricular canal defect; Atrioventricular nodal reentry tachycardia; AVNRT; Atrioventricular septal defect; Atrioventricular canal defect; Atrophic vaginitis; Vaginal atrophy; Attachment disorder; Reactive attachment disorder; Attention-deficit/hyperactivity disorder; ADHD; Atypical hyperplasia of the breast; Autism spectrum disorder; Autoimmune hepatitis; Autoimmune pancreatitis; Autonomic neuropathy; Avascular necrosis; osteonecrosis; AVN; AVNRT; Atrioventricular nodal reentry tachycardia; Baby acne; Back pain; Bacterial vaginosis; Bad breath; Bags under eyes; Baker cyst; Balance problems; Baldness; Hair; Barber's itch Folliculitis; Barlow's syndrome; Mitral valve prolapse; Barotitis media; Airplane ear; Barotrauma; Barrett's oesophagus; Bartholin's cyst; Basal cell carcinoma; Basal joint arthritis; Thumb arthritis; BDD; Body dysmorphic disorder; Bedsores; pressure ulcers; Bed-wetting; Bee sting; Behcet's disease; Bell's palsy; Benign adrenal tumours; Benign migratory glossitis; Geographic tongue; Benign paroxysmal positional vertigo; BPPV; Benign peripheral nerve tumour; Benign prostatic hyperplasia; BPH; Berger's disease; IgA nephropathy; Bicuspid aortic valve; Bile duct neoplasm; Cholangiocarcinoma; Bile reflux; Binge drinking; Alcohol poisoning; Binge-eating disorder; Bipolar disorder; Black hairy tongue; Blackheads; Bladder calculi; Bladder stones; Bladder neoplasm; Urinary incontinence; Bladder exstrophy; Bladder infection; Cystitis; Bladder inflammation; Interstitial cystitis; Bladder prolapse; Anterior vaginal prolapse; cystocele; Bladder stones; Blastocystis hominis; Blastocystosis; Blepharitis; Blocked tear duct; Blocked ureter; Ureteral obstruction; Blood in urine; haematuria; BMS; Burning mouth syndrome; Body dysmorphic disorder; Body lice; Body odor; Boils; carbuncles; Bone neoplasm; Bone infection; Osteomyelitis; Bone metastasis; Bone spurs; Borderline personality disorder; Botulism; Bowel incontinence; Fecal incontinence; Bowel obstruction; Intestinal obstruction; BPH; Benign prostatic hyperplasia; Brachial plexus injury; Bradycardia; Bradycardia-tachycardia syndrome; Sick sinus syndrome; Brain aneurysm; Brain arteriovenous malformation; Brain AVM; arteriovenous malformation; Brain metastases; Brain tumour; Pediatric brain tumours; Breast neoplasm; Breast neoplasm; Male breast neoplasm; Breast cysts; Breast infection; Mastitis; Breast pain; Broken ankle; Broken arm; Broken blood vessel in eye; Subconjunctival hemorrhage; Broken collarbone; Broken foot; Broken hand; Broken heart syndrome; Broken hip; Hip fracture; Broken leg; Broken nose; Broken ribs; Broken toe; Broken wrist; Bronchiolitis; Bronchitis; Brucellosis; Brugada syndrome; Bruxism; teeth grinding; Buerger disease; Bulimia nervosa; Bullous pemphigoid; Bundle branch block; Bunions; Bunyaviruses; Viral hemorrhagic fevers; Burn injury; Burns; Burning mouth

syndrome; Burning thigh pain Meralgia paresthetica; Burns; Bursitis; Bursitis of the knee; Knee bursitis; ; C. difficile colitis; Pseudomembranous colitis; C. difficile infection; Calciphylaxis; Calluses; corns; Neoplasm; Acute lymphocytic leukaemia; Anal neoplasm; Basal cell carcinoma; Bladder neoplasm; Bone neoplasm; Breast neoplasm; Carcinoid tumours; Cervical neoplasm; Chronic lymphocytic leukaemia; Chronic myelogenous leukaemia; Colon neoplasm; Endometrial neoplasm; oEsophageal neoplasm; Eye melanoma; Gallbladder neoplasm; Stomach neoplasm; Hairy cell leukaemia; Hodgkin's lymphoma; Hodgkin's disease; Hurthle cell neoplasm; Inflammatory breast neoplasm; Kidney neoplasm; Leukaemia; Mouth neoplasm; Liver neoplasm; Lung neoplasm; Male breast neoplasm; Merkel cell carcinoma; Mesothelioma; Multiple myeloma; Nasopharyngeal carcinoma; Neuroblastoma; Non-Hodgkin's lymphoma; Neoplasm, ovarian (See: Neoplasm, ovarian, also known as Ovarian neoplasm); Pancreatic neoplasm; Paraneoplastic syndromes of the nervous system; Prostate neoplasm; Rectal neoplasm; Retinoblastoma; Skin neoplasm; Soft tissue sarcoma; Squamous cell carcinoma; Stomach neoplasm; Testicular neoplasm; Throat neoplasm; Thyroid neoplasm; Endometrial neoplasm; Vaginal neoplasm; Vulvar neoplasm; Wilms tumour; Oral thrush; Candidiasis; Yeast infection; Canker sore; Carbon monoxide poisoning; Carcinoid syndrome; Carcinoid tumours; Carcinoma of unknown primary; Sudden cardiac; Cardiac ischemia; Myocardial ischemia; Cardiogenic shock; Cardiomegaly; Enlarged heart; Cardiomyopathy; Dilated cardiomyopathy; Hypertrophic cardiomyopathy; Cardiospasm; Achalasia; Cardiovascular disease; Heart disease; Carotid artery disease; Carotid artery stenosis; Carotid insufficiency; Carpal tunnel syndrome; CAS; Childhood apraxia of speech; Castleman disease; Cataracts; Cavernous malformations; Cavities; tooth decay; CDH; Congenital diaphragmatic hernia; Celiac artery compression; Median arcuate ligament syndrome; MALS; Celiac artery compression syndrome; Celiac axis syndrome; Celiac disease; Celiac trunk compression syndrome; CELLO; Barrett's oesophagus; Cellulite; Cellulitis; Central nervous system vascular malformations; Central sleep apnea; Cercarial dermatitis; Swimmer's itch; Cerebral aneurysm; Brain aneurysm; Cerebral palsy; Cerebrospinal fluid leak; CSF leak; Cerebrovascular accident; Stroke; Cerumen impaction; Earwax blockage; Cervical neoplasm; Cervical dystonia; Cervical osteoarthritis; Cervical spondylosis; Cervicitis; Chagas disease; Charcot-Marie-Tooth disease; CHD; Hip dysplasia; Chemical dependency; Drug addiction; substance use disorder; Chemo brain; Chest pain; Chest wall pain; Costochondritis; Chiari malformation; Chickenpox; Chilblains; Child abuse; Child maltreatment; Childhood apraxia of speech; Childhood asthma; Childhood obesity; Childhood schizophrenia; Chlamydia trachomatis; Cholangiocarcinoma; bile duct neoplasm; Cholangitis; Primary sclerosing cholangitis; Cholecystitis; Cholera; Cholestasis of pregnancy; Chondrosarcoma; Chordoma; Huntington's disease; Choroid plexus carcinoma; Chronic adrenal insufficiency; Addison's disease; Chronic compartment syndrome; Chronic exertional compartment syndrome; Chronic cough; Chronic daily headaches; Chronic exertional compartment syndrome; Chronic fatigue syndrome; Chronic granulomatous disease; Chronic hives; Chronic kidney disease; Chronic kidney failure; Chronic lymphocytic leukaemia; Chronic lymphocytic thyroiditis; Hashimoto's disease; Chronic myelogenous leukaemia; Chronic obstructive pulmonary disease; COPD; Chronic pelvic pain in women; Chronic renal failure; Chronic sinusitis; Chronic traumatic encephalopathy; Chronic vulvar pain; Vulvodynia; Churg-Strauss syndrome; Cirrhosis; CJD; Creutzfeldt-Jakob disease; CKD; Claudication; Cleft lip and cleft palate; Click-murmur syndrome; Mitral valve prolapse; Clinical depression; Depression; major depressive disorder; CLL; Chronic lymphocytic leukaemia; Clostridioides difficile infection; C. difficile infection; Clostridium difficile infection; Clubfoot; Cluster headache; Coarctation of the aorta; Coccidioidomycosis; Valley fever; Cold allergy; Cold urticaria; Cold exposure; Hypothermia; Cold sore; Cold urticaria; Common cold; Colic; Colitis; Ischemic colitis; Microscopic colitis; Pseudomembranous colitis; Ulcerative colitis; Collapsed lung; Atelectasis; Pneumothorax; Colon neoplasm; Colon polyps; Colonic ischemia; Color blindness; Colorectal neoplasm; Colon neoplasm; Columnar epithelium lined lower oesophagus; Barrett's oesophagus; Coma; Common cold; Common cold in babies; Common

variable immunodeficiency; Common warts; Complex regional pain syndrome; Complicated bereavement; Complicated grief; Compulsive gambling; Compulsive hoarding syndrome; Hoarding disorder; Compulsive overeating; Binge-eating disorder; Compulsive sexual behavior; Compulsive stealing; Kleptomania; Concussion; Condylomata acuminata; Genital warts; Congenital adrenal hyperplasia; Congenital diaphragmatic hernia; CDH; Congenital heart defects in children; Congenital heart disease in adults; Congenital hip dislocation; Hip dysplasia; Congenital megacolon; Hirschsprung's disease; Congenital mitral valve anomalies; Congenital myasthenic syndromes; Congenital plagiocephaly; Craniosynostosis; Congestive heart failure; Heart failure; Conjoined twins; Conjunctivitis; Pink eye; Constipation; Constipation in children; Contact dermatitis; Conversion disorder; Functional neurologic disorder; Cooley's anaemia; Thalassemia; COPD; Corns; calluses; Coronary artery disease; Coronary microvascular disease; Small vessel disease; Coronavirus disease 2019; COVID-19; Corticobasal degeneration; corticobasal syndrome; Costochondritis; Costosternal chondrodynia; Costosternal syndrome; Cough headaches; Chronic cough; COVID-19-associated multisystem inflammatory syndrome in children; Multisystem inflammatory syndrome in children; MIS-C; Pubic lice; Cradle cap; Menstrual cramps; Cranial arteritis; Giant cell arteritis; Craniopharyngioma; Craniosynostosis; Creutzfeldt-Jakob disease; Crib death; Sudden infant death syndrome; SIDS; Crohn's disease; Croup; CRPS; Complex regional pain syndrome; Cryoglobulinemia; Cryptorchidism; Undescended testicle; CSF leak; Cerebrospinal fluid leak; CTCL; Cutaneous T-cell lymphoma; Curvature of the penis; Peyronie's disease; Curvature of the spine; Scoliosis; Cushing syndrome; Cutaneous B-cell lymphoma; Cutaneous T-cell lymphoma; CVA; Stroke; Cyclic vomiting syndrome; Cyclothymia; cyclothymic disorder; Bartholin's cyst; Ganglion cyst; Kidney cysts; Ovarian cysts; Pancreatic cysts; Pilonidal cyst; Spermatocele; Cystic fibrosis; Cystitis; Interstitial cystitis; Anterior vaginal prolapse; Epidermoid cysts; Cytomegalovirus infection; CMV; Dandruff; Daytime sleepiness; Narcolepsy; DCIS; Ductal carcinoma in situ; DCIS; DDH; Hip dysplasia; De Quervain tenosynovitis; Decreased tear production; Dry eyes; Deep vein thrombosis; DVT; Deficient color vision; Color blindness; Degenerative arthritis; Osteoarthritis; Dehydration; Delayed ejaculation; Delayed gastric emptying; Gastroparesis; Delayed sleep phase; Delirium; Dementia; Frontotemporal dementia; Lewy body dementia; Vascular dementia; Dengue fever; Dengue hemorrhagic fever; Nicotine dependence; Depersonalization-derealization disorder; Depression; major depressive disorder; Postpartum depression; Teen depression; Dermatitis; Atopic dermatitis; eczema; Swimmer's itch; Contact dermatitis; Neurodermatitis; Seborrheic dermatitis; Dermatofibrosarcoma protuberans; Dermatographia; Dermatographism; Dermatomyositis; Athlete's foot; Desmoid tumours; Desmoplastic small round cell tumours; Detached retina; Retinal detachment; Developmental dysplasia of the hip; Hip dysplasia; Deviated septum; Devic's disease; Neuromyelitis optica; DFSP; Dermatofibrosarcoma protuberans; Diabetes; Diabetes insipidus; Diabetes mellitus; Gestational diabetes; Type 1 diabetes; Type 2 diabetes; Diabetic coma; Diabetic hypoglycemia; Diabetic ketoacidosis; Diabetic nephropathy; kidney disease; Diabetic neuropathy; Diabetic retinopathy; Diaper rash; Diarrhea; Antibiotic-associated diarrhea; Traveler's diarrhea; Difficulty speaking; Voice disorders; Difficulty swallowing; Dysphagia; DiGeorge syndrome; 22q11.2 deletion syndrome; Dilated cardiomyopathy; Diphtheria; Dislocated shoulder; Dissecting aneurysm; Aortic dissection; Dissociative disorders; Diverticulitis; Dizziness; Double uterus; Double-outlet right ventricle; Down syndrome; Dressler syndrome; Drop foot; Foot drop; Drug addiction; substance use disorder; Drug allergy; Dry eyes; Dry macular degeneration; Dry mouth; Dry skin; Dry socket; DSPS; Delayed sleep phase; DSRCT; Desmoplastic small round cell tumours; Ductal carcinoma in situ; DCIS; Dumping syndrome; Dunbar syndrome; Median arcuate ligament syndrome; MALS; Dupuytren contracture; Dural arteriovenous fistulas; Dust mite allergy; DVT; Deep vein thrombosis; Dwarfism; Dysarthria; Dyshidrosis; Dyslexia; Dysmenorrhoea; Menstrual cramps; Dyspareunia; Painful intercourse; Dyspepsia; Indigestion; Dysphagia; Dysphonia; Voice disorders; Dysrhythmias; Heart arrhythmia; Dysthymia; Persistent

depressive disorder; Dystonia; Cervical dystonia; E. coli; Ear infection; Swimmer's ear; Ruptured eardrum; perforated eardrum; Early puberty; Precocious puberty; Earwax blockage; Eating disorders; Anorexia nervosa; Binge-eating disorder; Bulimia nervosa; Ebstein anomaly; Ectopic heartbeat; Premature ventricular contractions; PVCs; Ectopic pregnancy; Ectropion; Eczema; Atopic dermatitis; Dyshidrosis; Erectile dysfunction; Edema; Pulmonary edema; Egg allergy; Ehlers-Danlos syndrome; Ehrlichiosis and anaplasmosis; Eisenmenger syndrome; Elevated blood pressure; Pulmonary embolism; Embryonal tumours; Emphysema; Encephalitis; Encopresis; End stage kidney failure; End-stage renal disease; Endocardial cushion defect; Atrioventricular canal defect; Endocarditis; Endometrial neoplasm; Endometrial polyps; Uterine polyps; Endometriosis; End-stage renal disease; Enlarged breasts in men; gynecomastia; Enlarged heart; Enlarged liver; Enlarged prostate; Benign prostatic hyperplasia; BPH; Enlarged spleen; splenomegaly; Enlarged thyroid; Goiter; Entropion; Eosinophilic esophagitis; Eosinophilic granulomatosis with polyangiitis; Churg-Strauss syndrome; Ependymoma; Epicondylitis; Tennis elbow; Epidermoid cysts; Epidermolysis bullosa; Epididymitis; Epiglottitis; Epilepsy; Frontal lobe seizures; Epithelioid sarcoma; Erectile dysfunction; Erythema infectiosum; Parvovirus infection; Erythema multiforme major; Stevens-Johnson syndrome; Escherichia coli infection; E. coli; Esophageal achalasia; Achalasia; oEsophageal neoplasm; oEsophageal spasms; oEsophageal varices; oEsophagitis; Essential tremor; Esthesioneuroblastoma; Ewing sarcoma; Excess facial hair in women; Hirsutism; Excess growth hormone; Acromegaly; Excessive daytime sleepiness; Narcolepsy; Excessive menstrual bleeding; Menorrhagia; heavy menstrual bleeding; Exercise headaches; Exercise-induced asthma; External otitis; Swimmer's ear; Extrasystole; Premature ventricular contractions; PVCs; Eye floaters; Eye melanoma; Eyelid inflammation; Blepharitis; Eyestrain; Facial palsy; Bell's palsy; Factitious disorder; Factor V Leiden; Fallen arches; Flatfeet; Tetralogy of Fallot; Familial adenomatous polyposis; Familial hypercholesterolemia; Familial Mediterranean fever; Familial paroxysmal peritonitis; FAP; Familial adenomatous polyposis; Farsightedness; Febrile seizure; Fecal incontinence; Female infertility; Female sexual dysfunction; Fetal alcohol syndrome; Fetal macrosomia; Fever; Fever blister; Cold sore; Valley fever; Viral hemorrhagic fevers; Familial hypercholesterolemia; Fibroadenoma; Fibrocystic breasts; Uterine fibroids; Fibromuscular dysplasia; Fibromyalgia; Cystic fibrosis; Interstitial lung disease; Pulmonary fibrosis; Fifth disease; Parvovirus infection; Filoviruses; Viral hemorrhagic fevers; Arteriovenous fistula; Flatfeet; Floaters; Eye floaters; Floor of the mouth neoplasm; Floppy valve syndrome; Mitral valve prolapse; Flu; Influenza; H1N1 flu; swine flu; Fluid around the heart; Pericardial effusion; Focal segmental glomerulosclerosis; FSGS; Folate deficiency anaemia; Vitamin deficiency anaemia; Folliculitis; Food allergy; Egg allergy; Milk allergy; Food poisoning; Food-borne illness; Foot drop; Foot fracture; Broken foot; Foramen ovale; Patent foramen ovale; Broken arm; Greenstick fractures; Growth plate fractures; Hip fracture; Broken leg; Stress fractures; Broken nose; Broken ribs; Frontal lobe epilepsy; Frontal lobe seizures; Frontal lobe seizures; Frontotemporal dementia; Frontotemporal lobar degeneration; Frontotemporal dementia; Frostbite; Frozen shoulder; FSGS; Focal segmental glomerulosclerosis; Fuchs' dystrophy; Functional dyspepsia; Functional neurologic disorder; conversion disorder; Nail fungus; Funnel chest; Pectus excavatum; GAD; Generalized anxiety disorder; Galactorrhea; Gallbladder neoplasm; Gallbladder inflammation; Cholecystitis; Gallstones; Compulsive gambling; Ganglion cyst; Gangrene; Gas and gas pains; Gastric neoplasm; Stomach neoplasm; Gastroparesis; Dumping syndrome; Gastritis; Gastroenteritis; Viral gastroenteritis; stomach flu; Gastroesophageal reflux disease; GERD; Gastrointestinal bleeding; Gastrointestinal stromal tumour; GIST; Gastroparesis; Gaucher disease; Gender dysphoria; Gender identity disorder; Generalized anxiety disorder; Genital herpes; Genital warts; Geographic tongue; Germ cell tumours; German measles; Rubella; Gestational diabetes; Giant cell arteritis; Giant lymph node hyperplasia; Castleman disease; Giardia infection; giardiasis; Gilbert syndrome; Gingivitis; Glaucoma; Glioblastoma; Glioma; Glomerulonephritis; Glossodynia; Burning mouth syndrome;

hypertension; Illness anxiety disorder; Immune thrombocytopenia; ITP; Immune thrombocytopenic purpura; Immune thrombocytopenia; ITP; Impacted wisdom teeth; Impaired glucose tolerance; Prediabetes; Impetigo; Impotence; Erectile dysfunction; Inborn error of metabolism; Inherited metabolic disorders; Incompetent cervix; Incomplete fracture; Fecal incontinence; Bed-wetting; Urinary incontinence; Indigestion; Infant jaundice; Infant reflux; Infantile haemangioma; Haemangioma; Infectious arthritis; Septic arthritis; Infectious diseases; Infertility; Female infertility; Male infertility; Inflammatory bowel disease; IBD; Inflammatory breast neoplasm; Inflamed gallbladder; Cholecystitis; Inflamed pancreas; Pancreatitis; Inflamed pericardium; Pericarditis; Influenza; flu; H1N1 flu; swine flu; H1N1 flu; Ingrown hair; Ingrown toenails; Inguinal hernia; Inherited metabolic disorders; Insomnia; Insulin resistance syndrome; Metabolic syndrome; Intermittent claudication; Claudication; Intermittent explosive disorder; Interstitial cystitis; Interstitial lung disease; Intestinal ischemia; Intestinal lipodystrophy; Whipple's disease; Intestinal obstruction; Intracranial hematoma; Intracranial venous malformations; Intraductal carcinoma; Ductal carcinoma in situ; DCIS; Intrahepatic cholestasis of pregnancy; Cholestasis of pregnancy; Intussusception; Invasive lobular carcinoma; Iritis; Iron deficiency anaemia; Iron overload; Haemochromatosis; Irritable bowel syndrome; Intestinal ischemia; Ischemic bone necrosis; Avascular necrosis; osteonecrosis; Ischemic colitis; Ischemic priapism; Priapism; Islet cell neoplasm; Pancreatic neuroendocrine tumours; Itchy skin; pruritus; ITP; Immune thrombocytopenia; Jaw tumours and cysts; Jellyfish stings; Jet lag disorder; Jock itch; Jumper's knee; Patellar tendinitis; Juvenile idiopathic arthritis; Juvenile rheumatoid arthritis; Juvenile schizophrenia; Childhood schizophrenia; Kaposi's sarcoma; Kawasaki disease; Keloid scar; Keratitis; Keratoconjunctivitis sicca; Dry eyes; Keratoconus; Keratosis pilaris; Actinic keratosis; Seborrhic keratosis; Diabetic ketoacidosis; Kidney neoplasm; Kidney cysts; Chronic kidney disease; Acute kidney failure; Kidney infection; Kidney stones; Kissing disease; Mononucleosis; Klatskin tumour; Hilar cholangiocarcinoma; Kleptomania; Klinefelter syndrome; Klippel-Trenaunay syndrome; Knee bursitis; Knee pain; KP; Keratosis pilaris; Kyphosis; Lactase deficiency; Lactose intolerance; Lactation mastitis; Mastitis; Lactose intolerance; Laryngitis; Lassa fever; haemorrhagic fevers; Lateral elbow tendinopathy; Tennis elbow; Lateral epicondylitis; Lateral epicondylitis; Latex allergy; Lazy eye; amblyopia; LCIS; Lobular carcinoma in situ; Lead poisoning; Left ventricular hypertrophy; Leg fracture; Legg-Calve-Perthes disease; Legionellosis; Legionnaires' disease; Legionnaires' disease; Leiomyosarcoma; Age spots; liver spots; Leukaemia; Acute lymphocytic leukaemia; Acute myelogenous leukaemia; Chronic lymphocytic leukaemia; Chronic myelogenous leukaemia; Leukaemia; Hairy cell leukaemia; Leukoplakia; Lewy body dementia; Lice; Body lice; Lichen planus; Oral lichen planus; Lichen sclerosus; Lichen simplex chronicus; Neurodermatitis; Lip neoplasm; Lip neoplasm; Mouth neoplasm; Whipple's disease; Lipoma; Liposarcoma; Listeria infection; Listeriosis; Liver neoplasm; Liver disease; Acute liver failure; Liver haemangioma; Liver spots; Enlarged liver; Lobular carcinoma in situ; LCIS; Localized scleroderma; Morphea; Lockjaw; Tetanus; Long QT syndrome; Loss of bladder control; Urinary incontinence; Lou Gehrig's disease; Amyotrophic lateral sclerosis; ALS; Low blood pressure; hypotension; Low blood sugar; Hypoglycemia; Low body temperature; Hypothermia; Low platelet count; Thrombocytopenia; Low sex drive in women; Low sperm count; Low testosterone; Male hypogonadism; Low-flow priapism; Priapism; Lung neoplasm; Lung collapse; Pneumothorax; Interstitial lung disease; Lupus; Lupus nephritis; Lyme disease; Swollen lymph nodes; Lymphadenitis; Mesenteric lymphadenitis; Lymphedema; Lymphoma; Hodgkin's lymphoma; Non-Hodgkin's lymphoma; Lymphoplasmacytic lymphoma; Waldenstrom macroglobulinaemia; Lynch syndrome; Mad cow disease; Creutzfeldt-Jakob disease; Major depressive disorder; Depression; Malaria; Male breast neoplasm; Male hypogonadism; Male infertility; Malignant fibrous histiocytoma; Undifferentiated pleomorphic sarcoma; Malignant hyperthermia; Malignant mesothelioma; Mesothelioma; Malignant peripheral nerve sheath tumours; MALS; Median arcuate ligament syndrome; Mammary duct ectasia; Manic-depressive illness; Bipolar disorder; Marfan

syndrome; Mastalgia; Breast pain; Mastitis; MCAD deficiency; Muscular dystrophy; ME/CFS; Chronic fatigue syndrome; Measles; Rubella; Medial epicondylitis; Golfer's elbow; Medial tibial stress syndrome; Shin splints; Median arcuate ligament syndrome; MALS; Medication overuse headaches; Mediterranean anaemia; Thalassaemia; Medulloblastoma; Megacolon; Hirschsprung's disease; Megaloblastic anaemia; Vitamin deficiency anaemia; Melanoma; Melanoma of the eye; Eye melanoma; MEN 2; Multiple endocrine neoplasia; Meniere's disease; Meningioma; Meningitis; Meniscus tear; Torn meniscus; Menopause; Menorrhagia; heavy menstrual bleeding; Menstrual cramps; Mental illness; Meralgia paresthetica; Merkel cell carcinoma; Mesenteric ischemia; Mesenteric lymphadenitis; Mesothelioma; Metabolic syndrome; Metachromatic leukodystrophy; Metastatic brain neoplasm; Brain metastases; Metatarsalgia; Methicillin-resistant staphylococcus aureus infection; MRSA infection; MGUS; Monoclonal gammopathy of undetermined significance; Microcephaly; Microscopic colitis; Microscopic haematuria; Migraine; Migraine with aura; Mild cognitive impairment; MCI; Miliaria; Heat rash; Milk allergy; Milk intolerance; Miscarriage; Mitral valve disease; Mitral valve prolapse; Mitral valve regurgitation; Mitral valve stenosis; Mittelschmerz; Mixed connective tissue disease; Molar pregnancy; Mold allergy; Moles; Molluscum contagiosum; Mono; Monoclonal gammopathy of undetermined significance; MGUS; Mononucleosis; Mood disorders; Morning sickness; Morphea; Morton's neuroma; Mosquito bites; Mouth neoplasm; Movement disorders; Moyamoya disease; MRSA infection; MSA; Multiple system atrophy; Mucocutaneous lymph node syndrome; Kawasaki disease; Multiple endocrine neoplasia type 1; Multiple endocrine neoplasia, type 1; MEN 1; Multiple endocrine neoplasia, type 2; MEN 2; Multiple myeloma; Multiple sclerosis; Multiple system atrophy; MSA; Multisystem inflammatory syndrome in children; MIS-C; Mumps; Muscle cramp; Muscle strains; Muscular dystrophy; Myalgic encephalomyelitis; Chronic fatigue syndrome; Myasthenia gravis; Myelodysplastic syndromes; Myelofibrosis; Myocardial infarction; Heart attack; Myocardial ischemia; Myocarditis; Myoclonus; Myofascial pain syndrome; Myopia; Nearsightedness; Myxofibrosarcoma; Nail fungus; Narcissistic personality disorder; Narcolepsy; Nasal tumours; paranasal tumours; Nasal polyps; Nasopharyngeal carcinoma; Nearsightedness; Neck pain; Neuroblastoma; Wilms tumour; Nephrogenic systemic fibrosis; Nephrotic syndrome; Postherpetic neuralgia; Trigeminal neuralgia; Neuroblastoma; Neurocardiogenic syncope; Vasovagal syncope; Neurodermatitis; Neuroendocrine carcinoma of the skin; Merkel cell carcinoma; Neuroendocrine tumours; Neurofibroma; Neurofibromatosis; Neurofibrosarcoma (See: Neurofibrosarcoma, also known as Malignant peripheral nerve sheath tumours); Acoustic neuroma; Morton's neuroma; Neuromyelitis optica; Neuromyelitis optica spectrum disorder; Autonomic neuropathy; Diabetic neuropathy; Charcot-Marie-Tooth disease; Peripheral neuropathy; Nevus; Moles; Nickel allergy; Nicotine addiction; Nicotine dependence; Niemann-Pick; Nightmare disorder; Nighttime incontinence; Bed-wetting; Neuromyelitis optica; Nocturnal enuresis; Noise-related hearing loss; Hearing loss; Nonalcoholic fatty liver disease; Nonallergic rhinitis; Non-Hodgkin's lymphoma; Nonischemic priapism; Priapism; Nonmelanoma skin neoplasm; Nontropical sprue; Nonulcer dyspepsia; Functional dyspepsia; Noonan syndrome; Norovirus infection; Nose fracture; Broken nose; Nymphomania; Compulsive sexual behavior; Overactive bladder; Obesity; Childhood obesity; Obsessive-compulsive disorder; Obstetric cholestasis; Cholestasis of pregnancy; Obstructive sleep apnea; Occupational asthma; Ocular albinism; Albinism; Ocular rosacea; Oculocutaneous albinism; Oculosympathetic palsy; Horner syndrome; Oppositional defiant disorder; Odontogenic tumours; Jaw tumours; Ovarian hyperstimulation syndrome; Olfactory neuroblastoma; Esthesioneuroblastoma; Oligodendroglioma; Onychomycosis; Nail fungus; Oppositional defiant disorder; Optic neuritis; Oral neoplasm; Mouth neoplasm; Oral candidiasis; Oral thrush; Oral lichen planus; Oral thrush; Orchitis; Orthostatic hypotension; postural hypotension; Osteoarthritis; Cervical spondylosis; Osteochondritis dissecans; Osteogenic sarcoma; Osteosarcoma; Osteomyelitis; Osteonecrosis; Avascular necrosis; Osteophytes; Bone spurs; Osteoporosis;

Osteosarcoma; Otitis externa; Otitis media; Ear infection; Outer ear infection; Ovarian neoplasm; Ovarian cysts; Ovarian hyperstimulation syndrome; Overactive bladder; Overactive thyroid; Hyperthyroidism; Oxyphil cell carcinoma; Hurthle cell neoplasm; Peripheral artery disease; Popliteal artery entrapment syndrome; Paget's disease of bone; Paget's disease of the breast; Back pain; Chest pain; Wrist pain; Painful bladder syndrome; Interstitial cystitis; Painful intercourse; dyspareunia; Painful periods; Menstrual cramps; Bell's palsy; Cerebral palsy; Pancreas inflammation; Pancreatitis; Pancreatic neoplasm; Pancreatic cysts; Pancreatic neuroendocrine tumours; Pancreatitis; Panic attacks; panic disorder; Partial anomalous pulmonary venous return; Paraganglioma; Paraneoplastic neurological disorder; Paraneoplastic neurological syndrome; Paraneoplastic syndromes of the nervous system; Parkinson's disease; Parotid tumours; Partial anomalous pulmonary venous connection; Partial anomalous pulmonary venous return; Parvovirus infection; Patellar tendinitis; Patellofemoral pain syndrome; Patent ductus arteriosus; Patent foramen ovale; Pathological gambling; Compulsive gambling; Pathological laughter; pathological crying; Pseudobulbar affect; Pathological stealing; Kleptomania; Pseudobulbar affect; Polycystic ovary syndrome; Patent ductus arteriosus; Peanut allergy; Pectus excavatum; Pediatric brain tumours; Pediatric obstructive sleep apnea; Pediatric white blood cell disorders; Pediculosis capitis; Head lice; Pelvic inflammatory disease; Pelvic organ prolapse; Chronic pelvic pain in women; Uterine prolapse; Pemphigus; Penicillin allergy; Peptic ulcer; Perforated eardrum; Ruptured eardrum; Pericardial effusion; Pericardial inflammation; Pericarditis; Perimenopause; Gingivitis; Periodontitis; Periodontitis; Peripheral artery disease; Peripheral nerve injuries; Peripheral nerve tumours; Peripheral neuropathy; Peripheral vascular disease; Peritonitis; Pernicious anaemia; Vitamin deficiency anaemia; Pernio; Chilblains; Peroneal muscular atrophy; Charcot-Marie-Tooth disease; Persistent depressive disorder; Persistent post-concussive symptoms; Post-concussion syndrome; Antisocial personality disorder; Borderline personality disorder; Narcissistic personality disorder; Schizoid personality disorder; Schizotypal personality disorder; Personality disorders; Pertussis; Whooping cough; Pes planus; Pet allergy; Petit mal seizure; Absence seizure; Peyronie's disease; Pharyngitis; Sore throat; Phenylketonuria; Pheochromocytoma; Phlebitis; Thrombophlebitis; Social anxiety disorder; Pick's disease; Frontotemporal dementia; Pelvic inflammatory disease; Piles; Haemorrhoids; Pilonidal cyst; Pilonidal dimple; Sacral dimple; Pimples; Acne; Pinched nerve; Pineoblastoma; Pink eye; conjunctivitis; Pinworm infection; Pituitary insufficiency; Hypopituitarism; Pituitary tumours; Pityriasis rosea; Pityriasis versicolor; Tinea versicolor; Polycystic kidney disease; Phenylketonuria; Placenta accreta; Placenta previa; Placental abruption; Plague; Plantar fasciitis; Plantar neuroma; Plantar warts; Pleurisy; Pleuritis; Primary lateral sclerosis; Pneumonia; Pneumonitis; Pneumothorax; POEMS syndrome; Poison ivy rash; Polio; Polycystic kidney disease; Polycystic ovary syndrome; Polycythemia vera; Polyhydramnios; Polymorphous light eruption; Polymyalgia rheumatica; Polymyositis; Colon polyps; Uterine polyps; Nasal polyps; Stomach polyps; Uterine polyps; Dyshidrosis; Poor color vision; Color blindness; Popliteal artery aneurysm; Popliteal artery entrapment syndrome; Popliteal cyst; Baker cyst; Porphyria; Post-cardiac injury syndrome; Dressler syndrome; Post-chemotherapy cognitive impairment; Chemo brain; Post-concussion syndrome; Persistent post-concussive symptoms; Posterior cortical atrophy; Posterior prolapse; Posterior vaginal prolapse; rectocele; Postherpetic neuralgia; Postmyocardial infarction syndrome; Dressler syndrome; Postpartum depression; Postpartum preeclampsia; Post-polio syndrome; Post-traumatic stress disorder; PTSD; Postural hypotension; Orthostatic hypotension; Post-vasectomy pain syndrome; Pouchitis; Prader-Willi syndrome; Prader-Willi syndrome; Precocious puberty; Prediabetes; Preeclampsia; Preexcitation syndrome; Wolff-Parkinson-White syndrome; Pregnancy-related hypertension; Premature birth; Premature ejaculation; Premature ovarian failure; Primary ovarian insufficiency; Premature puberty; Precocious puberty; Premature ventricular contractions; Premenstrual syndrome; Premenstrual syndrome (PMS); Presbycusis; Hearing loss; Presbyopia; Prescription drug abuse; Pressure sore;

Bedsore; Pressure ulcer; Preterm labor; Priapism; Prickly heat; Heat rash; Primary adrenal insufficiency; Addison's disease; Primary biliary cholangitis; Primary biliary cirrhosis; Primary immunodeficiency; Primary lateral sclerosis; Primary ovarian insufficiency; Primary polycythemia; Polycythemia vera; Primary progressive aphasia; Primary sclerosing cholangitis; Proctitis; Progeria; Progressive supranuclear palsy; Prolactinoma; Mitral valve prolapse; Prolapsed bladder; Anterior vaginal prolapse; cystocele; Prolapsed uterus; Uterine prolapse; Prostate neoplasm; Prostate gland enlargement; Benign prostatic hyperplasia; Prostatitis; Pruritis ani; Anal itching; Pruritus; Itchy skin; Pseudobulbar affect; Pseudocholinesterase deficiency; Pseudogout; Pseudomembranous colitis; Pseudotumour cerebri; idiopathic intracranial hypertension; Psoriasis; Psoriatic arthritis; Puffy eyes; Bags under eyes; Pulmonary atresia; Pulmonary atresia with intact ventricular septum; Pulmonary atresia with ventricular septal defect; Pulmonary edema; Pulmonary embolism; Pulmonary fibrosis; Pulmonary hypertension; Pulmonary valve disease; Pulmonary valve stenosis; Premature ventricular contractions; Post-vasectomy pain syndrome; Pyelonephritis; Kidney infection; Pyloric stenosis; Pyoderma gangrenosum; Rheumatoid arthritis; Rabies; Radiation enteritis; Radiation sickness; Ramsay Hunt syndrome; Rapid gastric emptying; Rapid heartbeat; Tachycardia; Poison ivy rash; Raynaud's disease; Reactive arthritis; Reactive attachment disorder; Dyslexia; Rebound headache; Medication overuse headaches; Rectal neoplasm; Rectal inflammation; Proctitis; Rectal itching; Anal itching; Rectal prolapse; Rectal ulcer; Solitary rectal ulcer syndrome; Rectovaginal fistula; Recurrent breast neoplasm; Recurrent oral ulcers; Canker sore; Red eye; Subconjunctival haemorrhage; broken blood vessel in eye; Bile reflux; Vesicoureteral reflux; Aortic valve regurgitation; Mitral valve regurgitation; Reiter's syndrome; Reactive arthritis; REM sleep behavior disorder; Renal artery stenosis; Renal neoplasm; Kidney neoplasm; Acute kidney failure; Renal lithiasis; Kidney stones; Residual limb pain; Respiratory syncytial virus; Restless legs syndrome; Retinal detachment; Retinal diseases; Retinoblastoma; Diabetic retinopathy; Retractable testicle; Retrograde ejaculation; Rett syndrome; Reye's syndrome; Rhabdomyosarcoma; Rheumatic fever; Rheumatoid arthritis; Hay fever; Nonallergic rhinitis; Nonallergic rhinitis; Rib fracture; Broken ribs; Rickets; Rift Valley fever; Viral haemorrhagic fevers; Ringing in the ear; Tinnitus; Ringworm; Ringworm of the foot; Restless legs syndrome; Road rage; Intermittent explosive disorder; Rosacea; Roseola; Rotator cuff injury; Rotavirus; Round back; Kyphosis; Respiratory syncytial virus; Rubella; Rubeola; Measles; Rumination syndrome; Runner's knee; Patellofemoral pain syndrome; Ruptured disk; Herniated disk; Ruptured eardrum; perforated eardrum; Ruptured spleen; Sacral dimple; Sacroiliitis; Seasonal affective disorder; Salivary gland tumours; Salmonella infection; Salmonellosis; Sarcoidosis; Sarcoma; Bone neoplasm; Soft tissue sarcoma; Small intestinal bacterial overgrowth; Scabies; Spontaneous coronary artery dissection; Scalded mouth syndrome; Burning mouth syndrome; Scarletina; Scarlet fever; Schizoaffective disorder; Schizoid personality disorder; Schizophrenia; Childhood schizophrenia; Schizotypal personality disorder; Schwannoma; Spinal cord injury; Sciatica; Scleroderma; Sclerosing cholangitis; Primary sclerosing cholangitis; Sclerosing mesenteritis; Multiple sclerosis; Scleroderma; Scoliosis; Scorpion sting; Scrotal masses; Seasonal affective disorder; Seasonal allergy; Hay fever; Sebaceous carcinoma; Sebaceous cysts; Epidermoid cysts; Seborrhic dermatitis; Seborrhic keratosis; Secondary brain neoplasm; Brain metastases; Secondary hypertension; Chronic fatigue syndrome; Seizure disorder; Epilepsy; Absence seizure; Febrile seizure; Grand mal seizure; Absence seizure; Temporal lobe seizure; Seizures; Selective IgA deficiency; Self harming; Self-injury; Separation anxiety disorder; Sepsis; Atrial septal defect; Atrioventricular canal defect; Ventricular septal defect; Septic arthritis; Serotonin syndrome; Severe acute respiratory syndrome; SARS; Coma; Sex headaches; Female sexual dysfunction; Sexual obsession; Compulsive sexual behavior; Sexually transmitted diseases; Shaken baby syndrome; Shellfish allergy; Shigella infection; Shin splints; Shingles; Short bowel syndrome; Shoulder dislocation; Dislocated shoulder; Shy-Drager syndrome; Multiple system atrophy; Small intestinal bacterial overgrowth; Sick sinus syndrome; Sick cell

anaemia; Sudden infant death syndrome; Sin Nombre virus infection; Hantavirus pulmonary syndrome; Sinus headaches; Acute sinusitis; Chronic sinusitis; Sjogren's syndrome; Skin neoplasm; Melanoma; Itchy skin; pruritus; Skipped heartbeats; Heart palpitations; Slapped cheek disease; Parvovirus infection; Sleep apnea; Pediatric obstructive sleep apnea; Central sleep apnea; Obstructive sleep apnea; Sleep disorders; Sleep terrors; night terrors; Narcolepsy; Sleeplessness; Insomnia; Sleepwalking; Slipped disk; Herniated disk; Slow heartbeat; Bradycardia; Small bowel bacterial overgrowth; Small intestinal bacterial overgrowth; Small bowel neoplasm; Small bowel prolapse; enterocele; Small intestinal bacterial overgrowth; Small intestine prolapse; Small vessel disease; Smallpox; Snoring; Social anxiety disorder; social phobia; Soft palate neoplasm; Soft tissue sarcoma; Solar keratosis; Actinic keratosis; Solar lentigines; Age spots; Solitary fibrous tumour; Solitary rectal ulcer syndrome; Somatic symptom disorder; Somnambulism; Sore throat; Spasmodic torticollis; Cervical dystonia; Specific phobias; Specific reading disability; Spermatocoele; Spider bites; Spina bifida; Spinal arteriovenous malformation; Spinal cord injury; Spinal cord tumour; Spinal curvature; Scoliosis; Spinal headaches; Spinal stenosis; Splenomegaly; Enlarged spleen; Cervical spondylosis; Spontaneous coronary artery dissection; Sprained ankle; Sprains; Squamous cell carcinoma of the skin; Stage 4 prostate neoplasm; Stammering; Stuttering; Staph infections; Sexually transmitted diseases; Steele-Richardson-Olszewski syndrome; Progressive supranuclear palsy; Stein-Leventhal syndrome; Polycystic ovary syndrome; Stenosing tenosynovitis; Trigger finger; Aortic valve stenosis; Mitral valve stenosis; Pulmonary valve stenosis; Pyloric stenosis; Spinal stenosis; Stevens-Johnson syndrome; Stickler syndrome; Bee sting; Jellyfish stings; Scorpion sting; Stomach neoplasm; Stomach flu; Viral gastroenteritis; Functional dyspepsia; Stomach polyps; Stomatodynia; Burning mouth syndrome; Stool holding; Encopresis; Strawberry haemangioma; Haemangioma; Strep throat; Stress cardiomyopathy; Broken heart syndrome; Stress fractures; Stress incontinence; Stretch marks; Stroke; Stump pain; Residual limb pain; Stuttering; Sty; sty; Subarachnoid hemorrhage; Subconjunctival hemorrhage; broken blood vessel in eye; Subfertility; Infertility; Substance abuse disorder; Drug addiction; substance use disorder; Sudden cardiac arrest; Sudden infant death syndrome; Suicide; suicidal thoughts; Sun allergy; Sun poisoning; Polymorphous light eruption; Sunburn; Sunken chest; Pectus excavatum; Supranuclear palsy; Progressive supranuclear palsy; Supraventricular tachycardia; Suspicious breast lumps; Supraventricular tachycardia; body odor; Hyperhidrosis; Swelling; oEdema; Swimmer's itch; Swollen knee; Swollen lymph nodes; Syndrome X; Metabolic syndrome; Synostosis; Craniosynostosis; Synovial sarcoma; Syphilis; Syringomyelia; Systemic exertional intolerance disease; Chronic fatigue syndrome; Systemic lupus erythematosus; Lupus; Systemic mastocytosis; Systemic sclerosis; Scleroderma); Tachycardia; Takayasu's arteritis; Takotsubo cardiomyopathy; Broken heart syndrome; Tapeworm infection; Total anomalous pulmonary venous return; Tay-Sachs disease; Tuberculosis; Traumatic brain injury; Dry eyes; Teen depression; Teeth grinding; Bruxism; Temporal arteritis; Giant cell arteritis; Temporal lobe seizure; Temporomandibular disorders; TMJ disorders; Temporomandibular joint disorders; TEN; Tendinitis; Achilles tendinitis; Patellar tendinitis; Tennis elbow; Tenosynovitis, de Quervain's; De Quervain tenosynovitis; Tension headache; Retractable testicle; Undescended testicle; Testicular neoplasm; Testicular torsion; Testosterone deficiency; Male hypogonadism; Tetanus; Tetralogy of Fallot; Transient global amnesia; Thalassemia; Thoracic aortic aneurysm; Thoracic outlet syndrome; Three-day measles; Throat neoplasm; Thromboangiitis obliterans; Buerger disease; Thrombocytopenia; Thrombocytosis; Thrombophlebitis; Oral thrush; Thumb arthritis; Thunderclap headaches; Thyroid neoplasm; Thyroid gland enlargement; Goiter; Thyroid nodules; Hyperthyroidism; overactive thyroid; Hashimoto's disease; Transient ischemic attack; Tic douloureux; Trigeminal neuralgia; Tinea barbae; Folliculitis; Tinea capitis; Ringworm; Tinea corporis; Jock itch; Tinea pedis; Athlete's foot; Tinea versicolor; Tinnitus; TMJ disorders; Toe walking in children; Toenail fungus; Tongue neoplasm; Tongue tie; Tongue-tie; ankyloglossia; Tonic-clonic seizure; Grand mal seizure; Tonsil neoplasm; Tonsillitis; Tooth abscess; Tooth decay; Cavities; Torn

meniscus; Testicular torsion; Cervical dystonia; Total anomalous pulmonary venous connection; Total anomalous pulmonary venous return; Tourette syndrome; Toxemia; Preeclampsia; Toxic epidermal necrolysis; Toxic hepatitis; Toxic shock syndrome; Toxoplasmosis; Trachoma; Transient global amnesia; Transient ischemic attack; Transposition of great vessels; Transposition of the great arteries; Transverse myelitis; Traumatic brain injury; Traumatic grief; Complicated grief; Traveler's diarrhea; Trichinosis; Trichomoniasis; Trichotillomania; hair-pulling disorder; Tricuspid atresia; Tricuspid valve disease; Tricuspid valve regurgitation; Trigeminal neuralgia; Trigger finger; Triple X syndrome; Trisomy 21 syndrome; Down syndrome); Trisomy X; Triple X syndrome; Trouble swallowing; Dysphagia; Truncus arteriosus; Tuberculosis; Tuberos sclerosis; Salivary gland tumours; Turner syndrome; Tympanic membrane perforation; Ruptured eardrum; perforated eardrum; Type 1 diabetes; Type 1 diabetes in children; Type 2 diabetes; Type 2 diabetes in children; Typhoid fever; Canker sore; Peptic ulcer; Solitary rectal ulcer syndrome; Ulcerative colitis; Ulnar wrist pain; Ulnar-sided wrist pain; Umbilical hernia; Uncontrollable laughter; uncontrollable crying; Pseudobulbar affect; Underactive thyroid; Hypothyroidism; Under-eye puffiness; Bags under eyes; Undescended testicle; Undifferentiated pleomorphic sarcoma; Upset stomach; Indigestion; Ureteral neoplasm; Ureteral obstruction; Urethral stricture; Urinary incontinence; Urinary tract infection; Urine color; Blood in urine; haematuria; Urticaria; Hives; angioedema; Chronic hives; Uterine neoplasm; Endometrial neoplasm; Uterine fibroids; Uterine leiomyoma; Uterine fibroids; Uterine myoma; Uterine polyps; Uterine prolapse; Uterus didelphys; Double uterus; Uveitis; Vaginal agenesis; Vaginal atrophy; Vaginal neoplasm; Vaginal candidiasis; Yeast infection; Vaginal fistula; Posterior vaginal prolapse; rectocele; Vaginitis; Valley fever; Valvular heart disease; Heart valve disease; Variant CJD; Creutzfeldt-Jakob disease; Varicella; Chickenpox; oEsophageal varices; Varicocele; Varicose veins; Variola; Smallpox; Vascular dementia; Vascular rings; Vasculitis; Vasomotor rhinitis; Nonallergic rhinitis; Vasovagal syncope; vCJD; Creutzfeldt-Jakob disease; Velocardiofacial syndrome; DiGeorge syndrome; 22q11.2 deletion syndrome; Venereal warts; Genital warts; Ventricular fibrillation; Ventricular premature contraction; Premature ventricular contractions; Ventricular septal defect; Ventricular tachycardia; Vertebral tumour; Vesicoureteral reflux; Vestibular schwannoma; Acoustic neuroma; V-fib; Ventricular fibrillation; Viral gastroenteritis; stomach flu; Viral hemorrhagic fevers; Vitamin deficiency anaemia; Vitiligo; Vocal cord paralysis; Vocal fold paralysis; Vocal cord paralysis; Voice disorders; Von Willebrand disease; Premature ventricular contractions; Vulvar neoplasm; Vulvodynia; Waldenstrom macroglobulinemia; Common warts; Genital warts; Plantar warts; Genital warts; Water on the knee; Swollen knee; Wegener's granulomatosis; Granulomatosis with polyangiitis; Wermer syndrome; Multiple endocrine neoplasia, type 1; Wermer's syndrome; Wet macular degeneration; Wheat allergy; Whiplash; Whipple's disease; White blood cell disorders in children; Pediatric white blood cell disorders; Whiteheads; Acne; Whooping cough; Wilms tumour; Wilson's disease; Impacted wisdom teeth; Wolff-Parkinson-White syndrome; Wolff-Parkinson-White accessory pathway-related tachycardia; Wrinkles; Wrist fracture; Broken wrist; Wrist pain; Xerosis; Dry skin; Xerostomia; Dry mouth; X-linked agammaglobulinemia; XXX syndrome; Triple X syndrome; Yeast infection; Yersinia pestis; Plague; Yips; Zollinger-Ellison syndrome; Zoster; Shingles; 22q11.2 deletion syndrome; DiGeorge syndrome

Table 3A-2 - Modified Symptom/Disease Phrases from the National Health Service (NHS)

Abdominal aortic aneurysm; Abscess; Acanthosis nigricans; Achalasia; Acid and chemical burns; Acid reflux; Acne; Acoustic neuroma; vestibular schwannoma; Acromegaly; Actinic keratoses; solar

keratoses; Actinomycosis; Acute cholecystitis; Acute kidney injury; Acute lymphoblastic leukaemia; Acute myeloid leukaemia; Acute pancreatitis; Acute respiratory distress syndrome; Addison's disease; Adenoidectomy; Age-related cataracts; Age-related macular degeneration; AMD; Agoraphobia; Air embolism; Gas embolism; Albinism; Alcohol misuse; Alcohol poisoning; Alcohol-related liver disease; Alkaptonuria; Allergic rhinitis; Allergies; Altitude sickness; Alzheimer's disease; Amblyopia; Lazy eye; Amnesia; Memory loss; Amniocentesis; Amputation; Amyloidosis; Anabolic steroid misuse; Anaemia; Iron deficiency anaemia; Anaemia; vitamin B12 deficiency anaemia; folate deficiency anaemia; Anal neoplasm; Anal fissure; Anal fistula; Anal pain; Anaphylaxis; Androgen insensitivity syndrome; Aneurysm; Brain aneurysm; Angelman syndrome; Angina; Angioedema; Animal bites; Ankle pain; Ankylosing spondylitis; Anorexia nervosa; Anosmia; Lost sense of smell; Antiphospholipid syndrome; APS; Antisocial personality disorder; Itchy bottom; Anxiety disorders; Aphasia; Appendicitis; Arrhythmia; Arterial thrombosis; Arthritis; Asbestosis; Asperger's; Autism; Aspergillosis; Asthma; Astigmatism; Ataxia; Atherosclerosis; Athlete's foot; Atopic eczema; Atrial fibrillation; Attention deficit hyperactivity disorder; ADHD; Auditory processing disorder; APD; Autism; Autosomal dominant polycystic kidney disease; Autosomal recessive polycystic kidney disease; Avian flu; Bird flu; Back pain; Bacterial vaginosis; Bad breath; Baker's cyst; Balanitis; Bartholin's cyst; Basal cell carcinoma; Skin neoplasm; Bedwetting; Behçet's disease; Bell's palsy; Benign brain tumour; Benign prostate enlargement; Bile duct neoplasm; cholangiocarcinoma; Bilharzia; Schistosomiasis; Binge eating disorder; Biopsy; Bipolar disorder; Bird flu; Birthmarks; Bite; Black eye; Bladder neoplasm; Bladder pain syndrome; interstitial cystitis; Bladder stones; Postmenopausal bleeding; rectal bleeding; Blepharitis; Blindness and vision loss; Blisters; Blood clots; Blood poisoning; Sepsis; High blood pressure; hypertension; Low blood pressure; Blood transfusion; cyanosis; Body dysmorphic disorder; Body odour; Boils; Bone neoplasm; Bone cyst; Borderline personality disorder; Botulism; Bowel neoplasm; Bowel incontinence; Bowen's disease; Brachycephaly; Plagiocephaly; flat head syndrome; Brain abscess; Brain aneurysm; Brain death; Brain haemorrhage; Subarachnoid haemorrhage; Brain tumour; Benign brain tumour; Malignant brain tumour; brain neoplasm; Brain tumours; Breast abscess; Breast neoplasm in men; Breast neoplasm in women; Breast lumps; Broken ankle; Broken arm or wrist; Broken collarbone; Broken finger or thumb; Broken hip; Broken leg; Broken nose; Broken ribs; Broken toe; Bronchiectasis; Bronchiolitis; Bronchitis; Brucellosis; Brugada syndrome; Bruxism; Teeth grinding; Bulging eyes; exophthalmos; Bulimia; Bullous pemphigoid; Bunions; Burns; scalds; Bursitis; Buttock pain; Sciatica; CABG; Coronary artery bypass graft; Neoplasm; Carbon monoxide poisoning; Cardiomyopathy; Cardiovascular disease; Carpal tunnel syndrome; Cat bites; Cataract surgery; Cataracts; Age-related cataracts; Childhood cataracts; Catarrh; Cavernoma; Cavernous sinus thrombosis; Cellulitis; Cerebral palsy; Cervical neoplasm; Cervical rib; Cervical spondylosis; Charcot-Marie-Tooth disease; Charles Bonnet syndrome; Chest infection; Chest pain; Chiari malformation; Chickenpox; Chilblains; Childhood cataracts; Chipped tooth; Chlamydia; Cholangiocarcinoma; Bile duct neoplasm; Cholecystitis; Acute cholecystitis; Cholera; Cholesteatoma; High cholesterol; Chorionic villus sampling; Chronic fatigue syndrome; ME/CFS; Myalgic encephalomyelitis; Chronic kidney disease; Chronic lymphocytic leukaemia; Chronic myeloid leukaemia; Chronic obstructive pulmonary disease; COPD; Chronic pancreatitis; Chronic traumatic encephalopathy; Cirrhosis; CJD, see Creutzfeldt-Jakob disease; Claustrophobia; Cleft lip; Cleft palate; Clinical depression; Clostridium difficile; Club foot; Cluster headaches; Coccyx pain; Tailbone pain; Coeliac disease; Cold sores; Colic; Colon neoplasm; Bowel neoplasm; Colour blindness; Colour vision deficiency; Coma; Common cold; Compartment syndrome; Complex regional pain syndrome; Concussion; Head injury; Confusion; Sudden confusion; delirium; Congenital heart disease; Congenital hip dislocation; Developmental dysplasia of the hip; Conjunctivitis; Constipation; Contact dermatitis; Corns and calluses; Coronary angioplasty; stent insertion; Coronary artery bypass graft; Coronary heart disease; COVID-19; Corticobasal degeneration; Costochondritis; COVID-19; Cradle cap;

Craniosynostosis; Creutzfeldt-Jakob disease; Crohn's disease; Croup; Cushing's syndrome; Cyclical vomiting syndrome; Cyclospora; Cyclothymia; Cystic fibrosis; Cystitis; Dandruff; Deaf; blindness; Deafness; Hearing loss; Decompression sickness; gas embolism; Dehydration; Dementia; Frontotemporal dementia; Dementia; Vascular dementia; Dementia with Lewy bodies; Dengue; Dental abscess; Dental pain; Toothache; Depression; Detached retina; retinal detachment; Developmental co-ordination disorder; dyspraxia; Developmental dysplasia of the hip; Diabetes; Diabetes; Type 1 diabetes; Type 2 diabetes; Gestational diabetes; Diabetes insipidus; Diabetic ketoacidosis; Diabetic retinopathy; Differences in sex development; DiGeorge syndrome; 22q11 deletion; Diphtheria; Discoid eczema; Dislocated kneecap; Dislocated shoulder; Disorders of consciousness; Dissociative disorders; Diverticular disease; diverticulitis; Dog bites; Double vision; Down's syndrome; Dry mouth; Dupuytren's contracture; DVT; deep vein thrombosis; Dwarfism; Restricted growth; Dysarthria; difficulty speaking; Dysentery; Dyslexia; Dysphagia; Dystonia; Ear infections; Earache; Perforated eardrum; Early menopause; Early puberty; Delayed puberty; Eating disorders; Ebola virus disease; Ectopic beats; Heart palpitations; Ectopic pregnancy; Ectropion; Eczema; Atopic eczema; Contact dermatitis; Discoid eczema; Varicose eczema; Edwards' syndrome; trisomy 18; Ehlers-Danlos syndromes; Ejaculation problems; Embolism; Emollients; Empyema; Encephalitis; Endocarditis; Endometrial neoplasm; uterus neoplasm; Endometriosis; Epidermolysis bullosa; Epididymitis; Epiglottitis; Epilepsy; Erectile dysfunction; impotence; Erythema multiforme; Erythema nodosum; Erythrocytosis; Erythromelalgia; Essential tremor; Tremor; Ewing sarcoma; hypersomnia; hirsutism; hyperhidrosis; Excessive thirst; Eye neoplasm; Eye flashes; Floaters; Eye floaters; Eye infection; Herpes simplex eye infections; Eye injuries; Eyelid problems; Face blindness; Prosopagnosia; Fainting; Falls; Febrile seizures; Fibroids; Fibromyalgia; Flat feet; Plagiocephaly; brachycephaly; Flu; Foetal alcohol spectrum disorder; Food allergy; Food poisoning; Foot drop; Tight foreskin; phimosis; Frontotemporal dementia; Frostbite; Frozen shoulder; Functional neurological disorder; Fungal nail infection; Gallbladder neoplasm; Acute cholecystitis; Gallstones; Ganglion cyst; Gangrene; Gastritis; Gastro-oesophageal reflux disease; GORD; Heartburn; acid reflux; Gastroenteritis; Gastroparesis; Gender dysphoria; anxiety disorder; Genital herpes; Genital warts; German measles; Rubella; Gestational diabetes; Giant cell arteritis; Temporal arteritis; Giardiasis; Gigantism; Acromegaly; Gilbert's syndrome; Glandular fever; Glaucoma; Glomerulonephritis; Glue ear; Glutaric aciduria type 1; Goitre; Gonorrhoea; Gout; Granuloma annulare; Granulomatosis with polyangiitis; Group B strep; Guillain-Barré syndrome; Gum disease; Haemochromatosis; Haemophilia; Haemophilus influenzae; Haemorrhoids; Piles; Hair loss; Hairy cell leukaemia; Halitosis; Bad breath; Hallucinations; Hamstring injury; Hand, foot and mouth disease; Hay fever; Head neoplasm; neck neoplasm; Head injury; concussion; Hearing loss; Heart attack; Heart block; Heart disease; Coronary heart disease; Heart failure; Arrhythmia; Heart valve problems; Mitral valve problems; Heat exhaustion; heatstroke; Heat rash; prickly heat; Heavy periods; Henoch-Schönlein purpura; HSP; Hepatitis; Hepatitis A; Hepatitis B; Hepatitis C; Hereditary haemorrhagic telangiectasia; HHT; Hereditary neuropathy; Hereditary spastic paraplegia; Hernia; Femoral hernia; Hiatus hernia; Inguinal hernia; Umbilical hernia; Herpes; Genital herpes; Herpes simplex eye infections; Herpetic whitlow; whitlow finger; Hiatus hernia; Hidradenitis suppurativa; High blood pressure; hypertension; High blood sugar; hyperglycaemia; High cholesterol; Hip dysplasia; Developmental dysplasia of the hip; Hip replacement; Hirschsprung's disease; HIV and AIDS; Hives; Hoarding disorder; Hodgkin lymphoma; Homocystinuria; Hookworm; Worms in humans; Hormone headaches; Hughes syndrome; Antiphospholipid syndrome; APS; Human bites; Human papillomavirus; HPV; Huntington's disease; Hydrocephalus; Hydronephrosis; Hyperacusis; Noise sensitivity; Hyperhidrosis; Excessive sweating; Hyperparathyroidism; Hypersomnia; Excessive daytime sleepiness; Hyperthyroidism; Overactive thyroid; Hypoglycaemia; low blood sugar; Hypoparathyroidism; Hypotension; Low blood pressure; Hypothermia; Hypothyroidism; Underactive thyroid; IBS; Irritable bowel syndrome; Ichthyosis;

Idiopathic pulmonary fibrosis; Impetigo; Impotence; Erectile dysfunction; Incontinence; Urinary incontinence; Indigestion; Infected piercings; Infertility; Inflammatory bowel disease; Influenza; Flu; Ingrown hairs; Ingrown toenail; Inguinal hernia repair; Insect bites; insect stings; Insomnia; Interstitial cystitis; Bladder pain syndrome; Intracranial hypertension; Iron deficiency anaemia; Irregular periods; Irritable hip; Isovaleric acidaemia; Itchy bottom; Itchy skin; Japanese encephalitis; Jaundice; Jaw pain; Temporomandibular disorder; TMD; Joint hypermobility syndrome; Kaposi's sarcoma; Kawasaki disease; Keloid scars; Keratosis pilaris; Kidney neoplasm; Kidney failure; Chronic kidney disease; Kidney infection; Kidney stones; Klinefelter syndrome; Knee cartilage damage; Meniscus tear; Knock knees; Knocked-out tooth; Kyphosis; Labial fusion; Labyrinthitis; vestibular neuritis; Lactose intolerance; Lambert-Eaton myasthenic syndrome; Laryngeal neoplasm; Laryngitis; Lazy eye; Learning disabilities; Leg cramps; Leg ulcer; Venous leg ulcer; Legionnaires' disease; Leptospirosis; Weil's disease; Leukaemia; Acute lymphoblastic leukaemia; Acute myeloid leukaemia; Chronic lymphocytic leukaemia; Chronic myeloid leukaemia; Hairy cell leukaemia; Leukoplakia; Lichen planus; Lichen sclerosus; Lipoedema; Lipoma; Listeriosis; Liver neoplasm; Liver disease; Alcohol-related liver disease; Long QT syndrome; Long-sightedness; Lost sense of smell; Low blood pressure; hypotension; Low blood sugar; hypoglycaemia; Low sex drive; loss of libido; Lumbago; Back pain; Lung neoplasm; Lupus; Lyme disease; Lymphoedema; Macular degeneration; Age-related macular degeneration; AMD; Macular hole; Malaria; Male menopause; Malignant brain tumour; brain neoplasm; Mallet finger; Malnutrition; Maple syrup urine disease; Marfan syndrome; Mastitis; Mastocytosis; Mastoiditis; MCADD; Measles; Melanoma skin neoplasm; Meningitis; Meniscus tear; knee cartilage damage; Early menopause; Menstrual pain; Period pain; Mesothelioma; Metabolic syndrome; Metallic taste; Metatarsalgia; Middle East respiratory syndrome; MERS; Migraine; Miscarriage; Mitral valve problems; Molar pregnancy; Moles; Molluscum contagiosum; Morton's neuroma; Motion sickness; Motor neurone disease; Mouth neoplasm; Mouth thrush; Oral thrush; Mouth ulcers; Mpox; MRSA; Mucositis; Multiple myeloma; Multiple sclerosis; Multiple system atrophy; Mumps; Munchausen syndrome; Muscular dystrophy; Myalgic encephalomyelitis; chronic fatigue syndrome; ME/CFS; Myasthenia gravis; Mycobacterium chimaera infection; Myelodysplastic syndrome; myelodysplasia; Myeloma; Multiple myeloma; Myopia; Short-sightedness; Myositis; Polymyositis; dermatomyositis; Ménière's disease; Nail fungal infection; Fungal nail infection; Nail patella syndrome; Nail problems; Nappy rash; Narcolepsy; Nasal neoplasm; Sinus neoplasm; Nasal polyps; Nasopharyngeal neoplasm; Necrotising fasciitis; Neonatal herpes; Nephrotic syndrome; Neuroblastoma; Neuroendocrine tumours; carcinoid syndrome; Neurofibromatosis type 1; Neurofibromatosis type 2; Neuromyelitis optica; Newborn jaundice; Newborn respiratory distress syndrome; Night sweats; Nipple discharge; Noise sensitivity; hyperacusis; Non-alcoholic fatty liver disease; NAFLD; Non-allergic rhinitis; Non-gonococcal urethritis; Non-Hodgkin lymphoma; Noonan syndrome; Nose neoplasm; Obesity; Obsessive compulsive disorder; OCD; Obstructive sleep apnoea; Sleep apnoea; Oesophageal atresia; tracheo-oesophageal fistula; Oesophageal neoplasm; Orf; Osteoarthritis; Osteomalacia; Rickets; Osteomyelitis; Osteophyte; bone spur; Osteoporosis; Otosclerosis; Ovarian neoplasm; Ovarian cyst; Overactive thyroid; hyperthyroidism; Ovulation pain; Paget's disease; Pain in testicles; Testicle pain; Palpitations; Heart palpitations; Pancreatic neoplasm; Pancreatitis; Acute pancreatitis; Chronic pancreatitis; Panic disorder; Paralysis; Parkinson's disease; Patau's syndrome; Pelvic inflammatory disease; Pelvic organ prolapse; Pelvic pain; Pemphigus vulgaris; Penile neoplasm; Perforated eardrum; Pericarditis; Heavy periods; Irregular periods; Stopped periods; missed periods; Peripheral arterial disease; PAD; Peripheral neuropathy; Peritonitis; Persistent trophoblastic disease; choriocarcinoma; Personality disorders; Pheochromocytoma; Phenylketonuria; Phlebitis; thrombophlebitis; Phobias; Piles; haemorrhoids; Pilonidal sinus; Pityriasis rosea; Pityriasis versicolor; Plantar fasciitis; Pleurisy; PMS; premenstrual syndrome; Pneumonia; Poisoning; Polio; Polycystic kidney disease; Autosomal dominant polycystic kidney disease; Autosomal recessive polycystic kidney disease; Polycystic ovary

syndrome; Polyhydramnios; Polymorphic light eruption; Polymyalgia rheumatica; Pompholyx; dyshidrotic eczema; Popliteal cyst; Baker's cyst; Post-herpetic neuralgia; Post-polio syndrome; Post-traumatic stress disorder; PTSD; Postmenopausal bleeding; Postnatal depression; Postpartum psychosis; Postural tachycardia syndrome; PoTS; Prader-Willi syndrome; Pre-eclampsia; Premature ejaculation; Ejaculation problems; Pressure ulcers; pressure sores; Priapism; painful erections; Primary biliary cholangitis; primary biliary cirrhosis; Proctalgia; Anal pain; Progressive supranuclear palsy; Pelvic organ prolapse; Prosopagnosia; face blindness; Prostate neoplasm; Prostate enlargement; Benign prostate enlargement; Prostate problems; Prostatitis; Psoriasis; Psoriatic arthritis; Psychiatry; Psychosis; Psychotic depression; Early puberty; delayed puberty; Pubic lice; Pudendal neuralgia; Pulmonary embolism; Pulmonary fibrosis; Idiopathic pulmonary fibrosis; Pulmonary hypertension; Pyoderma gangrenosum; Q fever; Quinsy; Tonsillitis; Rabies; Rashes in babies and children; Raynaud's; Reactive arthritis; Rectal bleeding; Bleeding from the bottom; Rectal neoplasm; Bowel neoplasm; Red eye; Repetitive strain injury; RSI; Respiratory tract infections; RTIs; Restless legs syndrome; Restricted growth; dwarfism; Retinal detachment; Detached retina; Retinal migraine; Retinoblastoma; eye neoplasm; Rett syndrome; Reye's syndrome; Rhesus disease; Rheumatic fever; Rheumatoid arthritis; Rhinitis; Allergic rhinitis; Rickets; osteomalacia; Ringworm; Rosacea; Roseola; Roundworm; Worms in humans; Rubella; german measles; Salivary gland stones; Sarcoidosis; Scabies; Scarlet fever; Schistosomiasis; bilharzia; Schizophrenia; Sciatica; Scleroderma; Scoliosis; Scurvy; Seasonal affective disorder; SAD; Seizures; Febrile seizures; Selective mutism; Self-harm; Sense of smell; Sepsis; Septic arthritis; Septicaemia; Severe head injury; Sexually transmitted infections; STIs; Shaking; Tremor; Shin splints; Shin splints; Shingles; Short-sightedness; myopia; Sick building syndrome; Sickle cell disease; Silicosis; Sinus neoplasm; Nasal neoplasm; Sinusitis; sinus infection; Sjögren's syndrome; Skin neoplasm; melanoma; Skin cyst; Skin picking disorder; Skin tags; Slapped cheek syndrome; Sleep apnoea; Sleep paralysis; Sleepwalking; Slipped disc; Smelly feet; Smelly urine; Snake bites; Snoring; Social anxiety (social phobia); Soft tissue sarcomas; Solar keratoses; Spina bifida; Spinal muscular atrophy; Spirometry; Spleen problems; Spondylolisthesis; Sprains and strains; Squamous cell carcinoma; Skin neoplasm; Stammering; Staph infection; Stevens-Johnson syndrome; Stillbirth; Stomach neoplasm; Stomach ulcer; missed periods; Strep A; Stretch marks; Stroke; Stuttering; Stammering; Styte; Subarachnoid haemorrhage; Subdural haematoma; Sudden infant death syndrome; SIDS; Superficial thrombophlebitis; Phlebitis; Supraventricular tachycardia (SVT); Dysphagia; swallowing problems; Night sweats; oedema; Swollen glands; Syphilis; Tailbone pain; Coccyx pain; Tay-Sachs disease; Teeth grinding; bruxism; Temporal arteritis; Temporomandibular disorder; TMD; Tendonitis; Tennis elbow; Tension headaches; Testicular neoplasm; Tetanus; Thalassaemia; male menopause; Excessive thirst; Thoracic outlet syndrome; Cervical rib; Threadworms; Thrombophilia; Thumb pain; Thyroid neoplasm; Thyroiditis; TIA; Transient ischaemic attack; Tick-borne encephalitis; TBE; Tinnitus; Tongue neoplasm; Mouth neoplasm; Tonsillitis; Tooth decay; Toothache; Total protein test; Tourette's syndrome; Toxic shock syndrome; Toxocariasis; Toxoplasmosis; Transient ischaemic attack; TIA; Tremor; shaking hands; Trichomoniasis; Trichotillomania; Trigeminal neuralgia; Trigger finger; Trimethylaminuria; Tuberculosis; Tuberos scleriosis; Turner syndrome; Twitching eyes; twitching muscles; Type 1 diabetes; Type 2 diabetes; Typhoid fever; Typhus; Ulcerative colitis; Underactive thyroid; hypothyroidism; Undescended testicles; Unintentional weight loss; Urethritis; Non-gonococcal urethritis; Urinary incontinence; Urinary tract infections; UTIs; Smelly urine; Uterine neoplasm; Uveitis; Vaginal neoplasm; Vaginal discharge; Vaginal dryness; Vaginal pain; Vulvodynia; Vaginismus; Vaginitis; Varicose eczema; Varicose veins; Vascular dementia; Vasculitis; Vegetative state; Venous leg ulcer; Vertigo; Vestibular neuritis; Labyrinthitis; Vestibular schwannoma; Acoustic neuroma; Vitiligo; Diarrhoea; Von Willebrand disease; Vulval neoplasm; Vulvodynia; Warts; verrucas; Watering eyes; Unintentional weight loss; Weil's

disease; Leptospirosis; Whiplash; Whitlow finger; Herpetic whitlow; Whooping cough; Wolff-Parkinson-White syndrome; Yellow fever

Table 3A-3 - Modified Symptom/Disease Phrases from the National Library of Medicine (NLM)

Aortic Aneurysm; Abdominal Aortic Aneurysm; Ectopic Pregnancy; Birth Defects; ABPA; Aspergillosis; Abscess; Achalasia; Esophagus Disorders; Achilles Tendon Injuries; Heel Injuries; Achondroplasia; Dwarfism; Acid Reflux; GERD; Heartburn; ACL Injuries; Knee Injuries; Acne; Rosacea; Acoustic Neuroma; Acquired Immunodeficiency Syndrome; Acromegaly; Growth Disorders; Pituitary Disorders; Actinic Keratosis; Skin Neoplasm; Acute Bronchitis; Acute Flaccid Myelitis; Acute Lymphoblastic Leukaemia; Acute Lymphocytic Leukaemia; Acute Myeloblastic Leukaemia; Acute Myeloid Leukaemia; Acute Pancreatitis; Pancreatitis; Acute Respiratory Distress Syndrome; Respiratory Failure; ADD; Attention Deficit Hyperactivity Disorder; Addison Disease; Adenoma; Benign Tumours; Adenomyosis; Endometriosis; Adenovirus Infections; Viral Infections; ADHD; Attention Deficit Hyperactivity Disorder; Adhesions; Adrenal Gland Neoplasm; Adrenal Gland Disorders; Adrenal Insufficiency; Addison Disease; Adrenoleukodystrophy; Leukodystrophies; Atrial Fibrillation; Age-Related Macular Degeneration; Macular Degeneration; Ageusia; Taste disorder; Smell Disorder; Agoraphobia; AIDS; Airsickness; Motion Sickness; Alagille Syndrome; Liver Diseases; Alcohol Abuse; Alcohol Use Disorder; Alcohol Dependence; Alcoholic Fatty Liver Disease; Fatty Liver Disease; Alcoholism; Acute Lymphocytic Leukaemia; Allergic Bronchopulmonary Aspergillosis; Aspergillosis; Allergic Rhinitis; Allergy; Hay Fever; Allergy; Food Allergy; Latex Allergy; Alopecia; Hair Loss; Alpha-1 Antitrypsin Deficiency; ALS; Amyotrophic Lateral Sclerosis; Alzheimer's Disease; Amblyopia; Macular Degeneration; Amenorrhea; Amino Acid Metabolism Disorders; Acute Myeloid Leukaemia; Amnesia; Amyloidosis; Amyotrophic Lateral Sclerosis; Anal Neoplasm; Anal Disorders; Anaphylaxis; Anaemia; Anencephaly; Neural Tube Defects; Aneurysms; Angiitis; Vasculitis; Angina; Animal Bites; Ankle Injuries; Ankylosing Spondylitis; Anorexia Nervosa; Eating Disorders; Anosmia; Taste disorder; Smell Disorder; Anterior Cruciate Ligament Injury; Knee Injuries; Anthrax; Antibiotic Resistance; Antimicrobial Resistance; Antisocial Personality Disorder; Personality Disorders; Aortic Aneurysm; Aortic Dissection; Aortic Stenosis; Heart Valve Diseases; Aphasia; Aphthous Ulcers; Canker Sores; Aplastic Anaemia; Sleep Apnea; Appendicitis; Arachnoiditis; Meningitis; ARDS; Respiratory Failure; Arm Injuries; Arnold-Chiari Malformation; Chiari Malformation; Arrhythmia; Arteriosclerosis; Atherosclerosis; Arterial Disease; Coronary Artery Disease; Arteriovenous Malformations; Arthritis; Arthrography; Joint Disorders; Artificial Feeding see Nutritional Support; Infertility; Cataract; Asbestosis; Aseptic Meningitis; Meningitis; Aseptic Necrosis; Osteonecrosis; Asperger Syndrome; Autism Spectrum Disorder; Aspergillosis; Asthma; Astigmatism; Refractive Errors; Ataxia; Cerebellar Disorders; Degenerative Nerve Diseases; Friedreich Ataxia; Movement Disorders; Ataxia Telangiectasia; Atelectasis; Collapsed Lung; Atherosclerosis; Coronary Artery Disease; Athlete's Foot; Atopic Dermatitis; Eczema; Atrial Fibrillation; Attention Deficit Hyperactivity Disorder; Auditory Tumour; Acoustic Neuroma; Autism; Autism Spectrum Disorder; Autism Spectrum Disorder; Autoimmune Diseases; Autoinflammatory Disorders; Autonomic Nervous System Disorders; Avascular Necrosis; Osteonecrosis; Avian Influenza; Bird Flu; Arteriovenous Malformations; Babesiosis; Tick Bites; Postpartum Depression; Back Injuries; Back Pain; Bacteremia; Sepsis; Bacterial Infections; Bacterial Vaginosis; Vaginitis; Bad Breath; Baker's Cyst; Knee Injuries; knee Disorders; Balance Problems; Balanitis; Penis Disorders; Barotrauma; Barrett's oEsophagus; oEsophagus Disorders; Basal Cell Carcinoma; Skin Neoplasm; Basedow's Disease; Hyperthyroidism; Bee Stings; Behcet's Syndrome; Bell's Palsy; Benign Prostatic Hypertrophy; Enlarged Prostate; BPH; Benign Tumours; Berry Aneurysm; Brain Aneurysm; Bi-polar Disorder; Bipolar Disorder; Bile Duct Neoplasm; Bile Duct Diseases; Biliary Cirrhosis; Biliary Tract Diseases; Bile Duct Diseases; Gallbladder
